

CENTRAL COMMUNITY COLLEGE
WELDING LAB FLOOR REPLACEMENT
COLUMBUS CAMPUS

The project consists of removing existing painted floor finish from the concrete slab and replacing with polished concrete sealer. The area is approximately 7,200 sq. ft. to be completed between two phases.

The college received two bids for this project. They are as follows:

BD Construction Columbus, NE	\$104,980.00
Bierman Contracting Columbus, NE	\$117,900.00

The amount of \$130,000.00 was budgeted for this project as part of the FY 2023 – 2024 capital improvement.

The College President recommends acceptance of the low acceptable bid from BD construction for \$104,000.00 to provide all labor and material to refinish the welding floor on the Columbus campus.
