

**CITY OF CRETE, NEBRASKA
PROCUREMENT PROCEDURES AND CODE OF CONDUCT**

The City of Crete, Nebraska will in all cases of procurement for professional services, construction services and materials needed for Community Development Block Grant (CDBG) Programs adhere to Code of Federal Regulation 2 C.F.R. Section 200.320 or current state statutes; in all cases the stricter shall apply. The City is responsible for understanding and complying with federal or state requirements located within the original source. The following procedures summarize said laws and regulations.

A. Procurement shall be made by one of the following methods:

- 1) Micro Purchase Procedures [2 C.F.R. Section 200.320 (a)(1)] – This method will generally be used to obtain very small quantities of supplies. Procurement by micro-purchase is the acquisition of supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold (see 2 C.F.R. Section 200.1), currently set at \$10,000 except as otherwise discussed in the regulation set at 48 C.F.R. part 2, subpart 2.1. To the maximum extent practicable, the non-Federal entity should distribute micro-purchases equitably among qualified suppliers. Micro-purchases may be awarded without soliciting competitive price or rate quotations if the non-Federal entity considers the price to be reasonable based on research, experience, purchase history or other information and documents it files accordingly. Purchase cards can be used for micro-purchases if procedures are documented and approved by the non-Federal entity.
- 2) Small Purchase Procedures [2 C.F.R. Section 200.320 (a)(2)] – This method will generally be used to obtain small quantities of supplies. Procurement by small purchase is the acquisition of property or services, the aggregate dollar amount of which is higher than the micropurchase threshold but does not exceed the simplified acquisition threshold (see 2 C.F.R. Section 200.1) currently set at \$250,000, except as otherwise discussed in the regulation set at 48 C.F.R. part 2, subpart 2.1. If small purchase procedures are used, price or rate quotations shall be obtained from an adequate number of qualified sources as determined appropriate by the non-Federal entity.
- 3) Sealed Bids [2 C.F.R. Section 200.320 (b)(1)] - This method will generally be used to obtain contractors for construction projects and for large quantities of goods or materials. Procurement by sealed bids is a procurement method in which bids are publicly solicited and a firm fixed-price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price.

- 4) **Proposals [2 C.F.R. Section 200.320 (b)(2)] - This method will generally be used to obtain professional services.** Procurement by proposal is a procurement method in which either a fixed price or cost-reimbursement type contract is awarded. Proposals are generally used when conditions are not appropriate for the use of sealed bids. This method has two subparts—the Request for Proposal and the Request for Qualifications. Page 2 of 4 CDBG Procurement Procedures & Code of Conduct Revised October 2021

Request for Proposals – Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Proposals must be solicited from an adequate number of qualified offerors. Any response to publicized requests for proposals must be considered to the maximum extent practical. The non-Federal entity must have a written method for conducting technical evaluations of the proposals received and making selections. Contracts must be awarded to the responsible offeror whose proposal is most advantageous to the non-Federal entity, with price and other factors considered.

Request for Qualifications - The non-Federal entity may use competitive proposal procedures for qualifications-based procurement of architectural/engineering professional services whereby offeror's qualifications are evaluated and the most qualified offeror is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of architectural/engineering professional services. It cannot be used to purchase other types of services though architectural/engineering firms that are a potential source to perform the proposed effort.

- 5) **Non-Competitive Procurement [2 C.F.R. Section 200.320 (c)]** – This method will only be used after approval from the Department of Economic Development. When requesting permission to use this method, the non-Federal entity will have to show that another method of procurement was not feasible because: it is the acquisition of property or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold, the item or service is only available from a single source; a public exigency or emergency for the requirement will not permit a delay from publicizing a competitive solicitation; or after a solicitation of a number of sources, competition is determined to be inadequate.

- B. The non-Federal entity must perform a cost or price analysis in connection with every procurement action in excess of the Simplified Acquisition Threshold including contract modifications. The method and degree of analysis is dependent on the facts surrounding the particular procurement situation, but as a starting point, the non-Federal entity must make independent estimates before receiving bids or proposals **[2 C.F.R. Section 200.324(a)]**.

The cost plus a percentage of cost and percentage of construction cost methods of contracting must not be used **[2 C.F.R. Section 200.324(d)]**.

- C. The non-Federal entity must maintain records sufficient to detail the history of procurement. These records will include, but are not necessarily limited to, the following: rationale for the method of procurement; selection of contract type; contractor selection or rejection; and the basis for the cost or price **[2 C.F.R. Section 200.318(i)]**.
