ATTACHMENT A

June 9, 2022

Arapahoe-Holbrook Public Schools
610 Walnut Street
Arapahoe, NE 68922

Attn: Superintendent
Board of Education

In talking to Gregg with the City of Arapahoe and NPPD about the new service and transformer, from what they told us there is not 3 phase power available at the sectionalizing cabinet as shown on the print (cabinet contains single phase). The nearest 3 phase power is from the transformer on the west side of the building.

At the time of our discussion, they could not give us a firm price to install 3-Phase Power and a Transformer as shown on Drawing E201. They did give us a verbal guess at \$30,000 to \$40,000, we did not include this in our pricing.

Our Base Bid does not include the following:

- Concrete Pad for Transformer (as not sure of size)
- Electrical Power from Meter to the Transformer and all associated connections.
- Utility Primary conduit to the new Transformer.

Thank you for the opportunity,

A handwritten signature in black ink, appearing to read "Ron Paul".
