

## Principal Report

September 2025

### Activities

It feels like it has been a slow start with activities, here at the beginning of the school year. If you have seen the September calendar, that has changed. Our CTSO's had a back-to-school kickoff, and it was very well attended with over 80 students attending. Art club also had their kickoff and was in the building last Saturday for a meeting to make art. All sports will be in full swing by Wednesday as the Junior High host McCook St. Pats here at home. In August, students were treated with their lunch with ice cream, brownie sundaes by BYRD and BW Telcom provided watermelon. Subway is supporting our school by having a Big Reader Award, Student Achievement Award and also an Athlete of the Week award.

### Principal work

Today I was able to attend a Community of Practice day at the ESU where our focus was on MTSS and the School Improvement Plan. I was joined by three teachers from our team and we are working on the document the ESU has provided us to work on the School Improvement process. I will start evaluations later this month. I will be attending the Region V principal meeting on Wednesday in Ogallala. The start of the school year has gone well.

### Looking Forward

- FFA will be attending the Husker Harvest Days on Wednesday
- Juniors will take the ASVAB test next week
- CTSO's will be attending their fall conferences
- Homecoming came early this year, Sept 22-26 with the dance after the Arapahoe football game.
- Parent Teacher Conferences are on Sept 29 from 3:00 - 7:00
- A group of students will be attending the play Outsiders on Oct 1 to follow the book they read in English class

**Mr. Alan Garey**
