Ken,

Below is the revised pricing for adding the additional ridge cap repair. I just added the material and another day for the work. Again, we could do this on a time and material basis. I think we have plenty of time figured.

1. Remove and reseal approximately 460' of existing ridge cap
2. Replace bad screws and with new warranted screws
3. Reseal existing penetrations as necessary
4. Replace 26' of gutter
5. Replace 20' of gutter on Front Entry

We are estimating a 3 man crew for 5 days to complete all the work. Our supervisor rate is \$64.00/hour and our crew rate is \$45/hour.

Material: \$1,876.00

Labor and Equipment: \$6,200.00

Total: \$8,076.00

Please give me a call with any questions.

Thanks,

**Lynn Johnson**
