Read success stories from businesses & enterprise who have depended on our full turnkey solutions:

AMAZON
Buford, GA

Design, provide and install a cellular repeater system to provide quality cellular service for all major carriers to over 500,000 square feet of warehouse space.

TESLA
Fremont, CA

Quality cellular service was necessary for employee use. We designed, provided, and installed three separate systems to cover two buildings and a basement with cellular coverage for all carriers.

PURDUE UNIVERSITY
West Lafayette, IN

Stew Building Students and faculty needed reliable cellular service in the Stew Building. We solved their needs and provided all carrier cellular services with the installation of a Cellular DAS system.

TARGET
USA

100+ Complete store locations and 24 Drive-up pickup area locations across the United States. Target desired to provide better cellular communications to their employees and guests inside the stores as well as their guest Drive-up locations.

**UNIVERSITY OF MIAMI
MEDICAL CENTER** Miami, FL

The Medical Center needed coverage for their building and their parking garage. We designed, provided, and installed a cellular repeater system to provide them with quality cellular service.

GYM

SCOPE

ROM Pricing Only- Site Survey needed for Final Pricing

Scope and Assumptions:

- Building Size: 25,000 sq ft
- Carriers: Verizon, All
- System: Quatra 4000c
- Building Type: Gym
- Site Survey: We will conduct a detailed site survey prior to finalization of our Proposal and installation. The site survey will comprise of an on-site technician gathering key data points, engineering designs including before and after predictive heat maps by carrier and a final Bill of Materials. We typically schedule a site survey within 3 or 4 weeks of your approval, and will be billed immediately upon signing of this ROM.

Client Responsibilities:

- Provide 3-inch Roof Penetration
- Provide Power for the Amplifiers
- Provide 2 Scissor lifts
