

# Secondary Principal's Report For the June 2016 Board Meeting

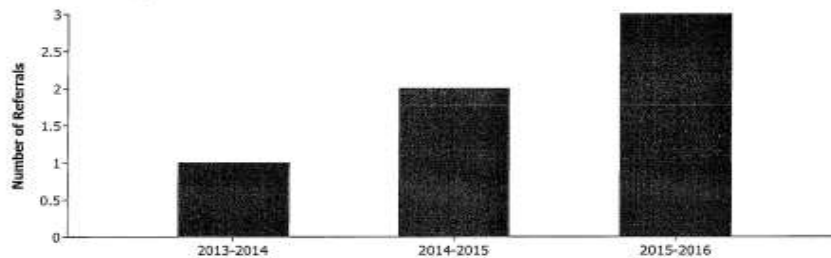

## Discipline Data - End of Year (Sample)

End of year discipline data is being broken down to look for trends in the data. There are no significant trends that have been recognized to this point. In general, the majority of the discipline referrals are for students being tardy to class with the majority (almost all) of those referrals being to first period. Here is an excerpt from the 11 page graph report:

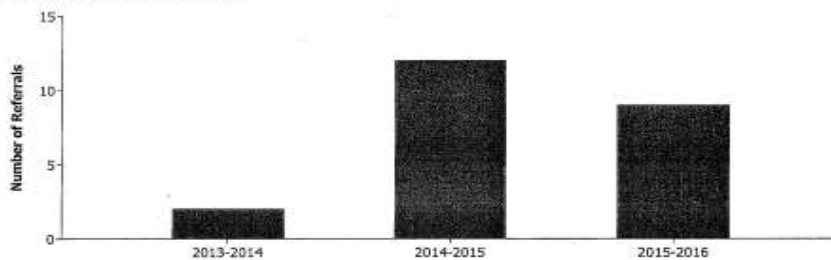

### 200-ARLINGTON HIGH

#### Behavior Infractions for 2013-2014 thru 2015-2016

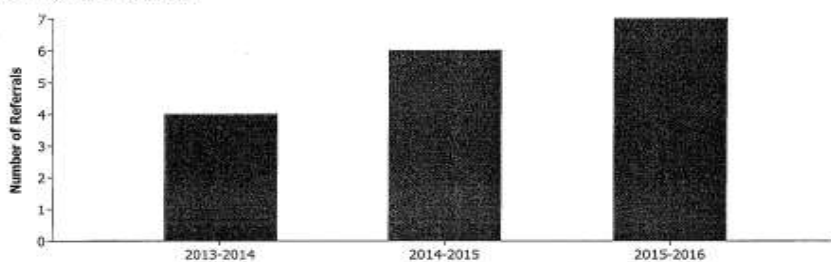

##### 301 Failure to report-office DT

##### 303 Failure to report to GRIP

##### 310 Truancy - 1 period

## Instructional Model - Update

During the first few weeks of our students' summer break, a team of teachers and administrators have been working collaboratively to adopt an instructional model. The instructional model will help the district move forward with a focus on constantly improving instructional practices for the benefit of student learning. The model we are working with is aligned with Marzano's Instructional Framework and is based on decades of research on best instructional practices.

## FBLA - National Conference

Arlington FBLA students will be attending the national conference in Atlanta, GA June 29-July 2. Good luck to those who qualified!
