### Non-DOT Anti-Drug Plan & Non-DOT Alcohol Misuse Plan

#### A. DRUGS

##### I. POLICY OVERVIEW – ANTI-DRUG PLAN SUMMARY

City of Crete has a vital interest in maintaining safe, healthful and efficient working conditions for all of its employees. Being under the influence of a drug or alcohol on the job poses serious safety and health risks, not only to the user, but to all those who work with or otherwise come into contact with the user. The possession, use or sale of illegal drugs or alcohol on the job also poses unacceptable risk for safety, healthful, and efficient operations.

It is the City's right, obligation, and intent to maintain a safe, healthful, and efficient working environment for all of its employees and to protect City property, equipment, and operations from the risks associated with drug use in the workplace.

The Non-DOT Anti-Drug Plan Summary is designed to provide an overview of the City Policy and does not represent every aspect of the program. Specific policies and procedures for the Non-DOT Drug program will "mirror" the DOT FHWA Drug program *excluding* the random drug testing or as noted herein.

This Anti-Drug Plan can be altered or modified with proper notice.

##### II. POLICY APPLICATION

The provisions of the Anti-Drug Plan apply to all employees of the City, regardless of status, except those employees subject to the Department of Transportation's FHWA and FTA drug programs.

##### III. DRUG AWARENESS PROGRAM

The City will inform employees of: (1) the dangers of drug use in the workplace; (2) the City's drug-free workplace Anti-Drug Plan; (3) the availability of treatment and counseling for employees seeking such assistance; and (4) the penalties the City will impose for violations of its Drug-Free Workplace Program.

##### IV. PROHIBITED CONDUCT

The City prohibits the following conduct:

- (A) Using, being under the influence of, or possessing unauthorized controlled substances while performing City business or while in or about a City facility or worksite except for items held as property or evidence or as required by an official job description. This will subject the offending employee to disciplinary action up to and including termination of employment.
- (B) Using or being under the influence of a legal drug (such as "over-the-counter" and prescription drugs) while performing City business, or while in or about a City facility or worksite, to the extent such use affects the safety of any employees or others. When in doubt about the effects of a certain drug, consult your physician regarding any adverse side effects.

- (C) The unlawful manufacture, distribution, possession, or use of a controlled substance by any employee while performing City business, or while in or about a City facility or worksite, except for items held as property or evidence or as required by an official job description.
- (D) Tampering with a specimen provided for drug testing for the purpose of altering the results of the urine drug test.
- (E) Refusal to take a drug test.

## V. TESTING FOR CONTROLLED SUBSTANCES

### A. Pre-Employment/Pre-Duty Testing

The City will require all applicants it intends to hire for full-time (benefit eligible) and/or permanent part-time positions to be tested for the use of controlled substances as a pre-qualified condition. Applicants who test positive for the use of controlled substances, or who refuse to submit to such testing, will be disqualified from further hiring consideration. Testing is also required when an employee transfers.

### B. Reasonable Suspicion Testing

The City will require current employees to submit to testing for controlled substances based on specific, contemporaneous, articulable observations concerning appearance, behavior, speech or body odor of the employee by at least one supervisor training in detecting the signs and symptoms of prohibited drug use.

The supervisor must complete a "Reasonable Suspicion Checklist," with the witness involved and the City Administrator (City Attorney if the City Administrator is unavailable.)

The supervisor will need to contact Human Resources to schedule the drug test.

Employees who are requested to undergo reasonable suspicion testing will be transported to the collection site and home by a City representative. The employee will be required to submit to the drug test. Any attempt to invalidate or tamper with the test, or refuse the test will subject the employee to disciplinary action, up to and including termination.

Failure on the part of the supervisor(s) to accurately document the specified behavior for reasonable suspicion may be subject to disciplinary action up to including termination.

A driver while conducting City business may be directed to submit to a drug test at the accident scene by a federal, state, or local law enforcement officer. Whenever a test is conducted by a law enforcement officer, the driver is required to contact the driver's supervisor or another City official immediately to report this and to provide the City with the name and telephone number of the law enforcement officer who conducted the test in lieu of taking a test at the City Collection site. Positive test results will be cause for disciplinary action up to and including termination.

An employee who is required to take a reasonable suspicion test will be considered by the City as unqualified to work and relieved from duty pending the results of his/her test(s). An employee may request vacation and at the expiration of vacation request leave without pay, for the time the employee is relieved from duty. An employee whose test results are negative will be reimbursed for the time. An

employee whose test results are positive will not be reimbursed for the time. The employee is not eligible to use sick leave while he/she is relieved from duty, awaiting test results.

An employee who has a positive drug test, following disciplinary action, will request vacation, and at the expiration of vacation, request leave without pay until such time he/she is released to return to work. Should the employee be required to undergo inpatient substance abuse treatment, he/she will be allowed to utilize accrued sick leave until the completion of inpatient treatment. If the employee is injured, the injury will be evaluated in accordance with the State Worker's Compensation Law and

AR-19. Employees who are injured and have a positive drug test are not entitled to injury leave or other Worker's Compensation benefits.

## C. Return to Duty Testing

An employee who has a positive drug test result will be required to take a return to duty drug test.

Before a return-to-duty test is performed, the employee must be evaluated by a Substance Abuse Professional (SAP) to determine whether the employee has followed the recommendations for action by the SAP, including participation in any rehabilitation program.

The employee must have a verified negative drug test result to return to their job. If a drug test is cancelled, the City shall require the employee to submit to and pass another drug test. A positive test result will be cause for termination from the City.

## D. Follow-up Testing

Once allowed to return-to-duty, the employee shall be subject to unannounced follow-up testing for at least 12 months. The frequency and duration of the follow-up testing will be recommended by the SAP as long as a minimum of six tests are performed during the 12 months after the employee has returned to duty. A positive result will be cause for termination from the City.

## E. Confidentiality

Each individual's record of testing and results under this policy will be private and confidential.

## F. Supervisory Training/Employee Awareness

All supervisors are required to complete a training program for detecting signs and symptoms of drug and alcohol use on the job.

Employees will be asked to read a copy of the Drug Policy and sign a statement of acknowledgement.

## VI. DRUG TESTING PROCEDURES

Drug testing will be performed utilizing urine sample. Samples will be tested for marijuana, cocaine, opiates, amphetamines and PCP. An employee may request at their own expense the sample be retested after a positive test.
