3048
Communicable Disease

The district strives to provide a safe environment for both students and staff while safeguarding the rights of all students and employees, including those with communicable diseases. The district complies with Neb. Rev. Stat. §§ 79-217 to 79-223 and Title 173 Nebraska Administrative Code, Chapter 3.

Definitions. Terms used in this policy have the meanings given in 173 NAC 3-002. A "reportable communicable disease" means a disease that must be reported under 173 NAC, Chapter 1.

Signs and Symptoms; Sending Students Home. Staff will watch for signs and symptoms of contagious or infectious disease. These signs and symptoms include fever, flushed face, headache, body aches, unexplained tiredness, loss of appetite, stomachache, nausea, vomiting, diarrhea, convulsions, sore throat, nasal congestion or discharge, unexplained skin eruption, and sore or inflamed eyes. The district will notify the parent or guardian of the student's signs or symptoms. Upon notice, the parent or guardian must immediately cooperate with the district to arrange safe transportation home or another appropriate caregiver for the student. The district will report any failure to reasonably cooperate with the district to the Department of Health and Human Services or local law enforcement as appropriate.

Notice to School Authority. When the district sends a student home for a suspected contagious or infectious disease, the principal or school nurse will notify the superintendent or designee without delay.

Reports to Public Health. The school nurse, or a person acting in the capacity of a school nurse, will report each case or suspected case of a reportable communicable disease. The report must go to the local public health department or the Nebraska DHHS Division of Public Health as provided in 173 NAC 1-007.04.

Exclusion From School. The district will exclude a student with a confirmed communicable disease for at least the minimum isolation period in Attachment 1 to 173 NAC, Chapter 3. The student must be free of acute signs and symptoms. The student must be fever-free for 24 hours without fever-reducing medication before returning to school.

School Attendance and Participation in School Sponsored Activities. The district will provide educational services to a student diagnosed with a

communicable disease as required by law. The district will restrict the student as needed to prevent the spread of disease, to protect the student's health and privacy, and to protect others. Participation in Nebraska School Activities Association (NSAA) events is subject to NSAA rules and the provisions of the district activity handbook.

Infection and Exposure Control Procedures/Universal Precautions. The district will monitor the information available through the Federal Centers for Disease Control, the Nebraska Department of Health and Human Services, and the Occupational Safety and Health Administration. This policy and any procedures, universal precautions, or exposure control plans will be modified, if appropriate, based upon the best new medical information provided by the above sources.

Outbreaks. In an outbreak or epidemic of a communicable disease, the superintendent may exclude students, reassign students, or close one or more schools. The superintendent will coordinate with the local health department and the Nebraska Department of Health and Human Services as needed.

Confidentiality. The district will keep information about a person's communicable disease confidential. The district will share information only with staff on a need-to-know basis. When the district must inform a person about another person's condition, the district will inform that person of the duty to keep the information confidential. The district will communicate about a student's communicable disease consistent with the student's IEP or Section 504 Plan, if any.

Staff Training. Staff will receive training regarding communicable diseases and the requirements of this policy and any adopted procedures as part of the training received under the Workplace Injury Prevention and Safety Committee policy.
