

CENTRAL COMMUNITY COLLEGE
POOL VEHICLE ADDITION
KEARNEY CENTER

This project consists of the purchase of one 2024 Ford Escape Active for the Motor Pool at the Kearney Center.

This vehicle would be the third purchase for the motor pool vehicles for the Kearney Center. Kearney Center staff have a need to utilize College vehicles to travel to other campuses and centers while conducting college business. By providing an additional fleet vehicle for staff use, we will reduce the costs of staff travel in personal vehicles. Currently staff travel averages 2,100 miles per month. We had 34 declines for vehicles from January 2023 to September 2024 due to no vehicles being available.

The College will be leveraging the State of Nebraska contract number 15891 OC awarded to Anderson Ford of Lincoln, NE:

TOTAL FOR VEHICLE:	\$31,339.00
--------------------	-------------

This includes:

- 2024 Ford Escape Active
- Reverse Sensing System
- Drop Shipment
- Additional Fob
- Spare Tire
- Tow Package

The College President recommends this purchase of \$31,339.00 for this fleet vehicle leveraging the State of Nebraska contract number 15891 OC.
