**Tom White - City of Blair - IT Director**

# Blair Public Library Generations Park Camera System

## GOALS

1. Asset Protection - monitor city-owned infrastructure and buildings to prevent (deter) vandalism and unauthorized access.
2. Efficiency - allow City of Blair departments (Police, Public Works, Parks & Rec, etc) to remotely monitor critical locations, and respond more quickly to incidents.
3. Public Safety - increase the visibility of parks and other high-traffic public areas to deter criminal activity and provide law enforcement with quality, useful evidence.
4. Scalable - allow the easy expansion and addition of future sites and cameras.
