

CENTRAL COMMUNITY COLLEGE
AUTOMOTIVE CAREERS TRAINING CENTER
HASTING CAMPUS

The work consists of a new single 43,000 square foot facility for the automotive and auto body programs on the Hastings campus. The building is a combination of pre-engineered metal buildings with metal panel roofs and walls for the educational lab, and traditional steel frame gable building with asphalt shingles and face brick and cast stone veneer finishes for shared spaces including classrooms, restrooms, student lounge, faculty office, and parts and tools room. A mezzanine is in the middle area and includes storage and a mechanical penthouse. Project scope also includes mechanical, electrical, plumbing and fire protection, along with site work, grading, site utilities and landscaping.

The college received seven bids for this project. They are as follows:

Scheele-Kayton Construction Lincoln, NE	\$15,197,000.00
RMV Construction Kearney, NE	\$15,241,000.00
Kingery Construction Lincoln, NE	\$16,068,000.00
BIC Construction Lincoln, NE	\$16,121,000.00
Hausmann Construction Lincoln, NE	\$16,199,000.00
Sampson Construction Lincoln, NE	\$16,470,000.00
Chief Construction Grand Island, NE	\$16,549,000.00

The amount of \$1,824,500.00 was budgeted for this project as part of the FY 2024 – 2025 ARPA funds. The amount of \$8,500,000.00 was budgeted for this project as part of the FY 2023-2026. The rest will be budgeted for in FY26-27

The College President recommends acceptance of the low acceptable bid from Scheele-Kayton construction for \$15,197,000.00 to provide all labor and material to build the new automotive careers training center on the Hastings Campus.
