

# Building Community Together: Supporting Our Local Legion

As part of our mission to foster student leadership, civic responsibility, and strong community partnerships, we are exploring ways to support our local American Legion- an organization that has long stood as a pillar of service and sacrifice.

With their building facing financial challenges, we're looking at leasing the space and involving our students in meaningful ways to help preserve it for generations to come.

## **Student Involvement & Service**

- Maintenance Help – Groundskeeping, cleaning, and light repairs as part of service learning or CTE class
- Adopt-a-Legion Club – A student-led team that supports Legion projects throughout the year

## **Creative Projects**

- Art & Murals – Create patriotic artwork or paint a mural inside the Legion building
- Music & Theater – School performances for Legion events and holiday gatherings

## **Learning & Fundraising**

- Grant Writing – Students or staff help identify grants for building upkeep
- Student Led Fundraisers – Host community meals, talent shows, or service events

## **Mentorship & Community Ties**

- Veteran Mentorship – Pair Legion members with students to share life and leadership skills
- Shared Learning Space – Use the building for tutoring, clubs, or adult education

We believe this partnership has the potential to enrich lives on both sides -giving students purpose and our veterans a lasting legacy.
