

November 10, 2015

Participant(s):

On behalf of the district it is my pleasure to thank you for your participation in the community engagement sessions that were held last fall and to share with you the progress realized in the areas that were identified as a result of our collaborative efforts. The board of education utilized the feedback from stakeholders to develop Annual District Goals, as well as to prioritize board committee initiatives. The Annual District Goals that were developed are shared as Attachment B to this letter. In addition, the district administrators used the information obtained during these sessions to add programming and course offerings at the district and building level. These additions are captured more specifically in the Summary of Goal Areas which is shared as Attachment A. The Summary of Goal Areas serves to summarize the progress that the district has realized in the various goal areas.

We look forward to working with you on future initiatives. Please contact myself or Superintendent Lynn Johnson at the district office if you have any questions or concerns. It is evident that by working together we can strengthen our student's learning experience and success. On behalf of the students of our community, we appreciate your contribution to this and other school support initiatives.

Respectfully,

Micheal Dwyer, President
Arlington Board of Education
