→ **TRIAD Work**

- ◆ Last week Justin DeWitt from Cross County and Heather Bebout from Schuyler were in the building as part of my TRIAD helping me look at data in a new way.
- ◆ The problem statement that I reviewed with them was: K-5 girls who receive pull-out intervention are growing at a slower rate than their boy counterparts.
- ◆ We looked at qualitative and quantitative data (data that is numbers and data that is not numbers)
- ◆ The problem of practice is that our MTSS did not provide accountability for all teachers in Tier 1 and Tier 2 interventions.
- ◆ They walked with me into special education classrooms, our Title I classroom, and 2 core classrooms - we then spent quite a bit of time going over what we saw as they gave me ideas of how else to approach my problem of practice.

→ **Nebraska Continuous Improvement**

- ◆ The Continuous Improvement Group met and solidified the three schoolwide goals that will be used for this CIP cycle.
- ◆ All teachers met and worked to narrow our focus on the S-RC Marzano Snapshot that will be used for our evaluation tool and our Instructional Model

2023-2024 LB399 Activities

Constitution Day – For Constitution Day we had each Advisory class participate in a Constitution Jeopardy activity. This activity was created with Jeopardy Lab and each Advisory grouped students into smaller groups and went through basic questions about the Constitution.

Thanksgiving – A few of my Explore students created a simple Thanksgiving Day Quizizz game. The game featured 21 questions about Thanksgiving and each Advisory competed against other advisories in a friendly competition.

Native American Heritage – Some of my Explore students created a Native American Heritage Day video utilizing Google Slides that were then transferred to video with added Omaha tribal music. The video featured various information about Nebraska tribes as well as issues Native face today.

Veterans Day – LB399 for Veterans' Day was rolled into a project that Mrs. Stewart had each Advisory do. She provided materials for each Advisory to create a wreath for area veterans since our usual Veterans program was disrupted by COVID this past November.

Washington's Birthday – Each Advisory competed in a short contest that highlighted facts about our first president. Advisories had to determine if various statements were true or false, then place that answer into a coin with a predetermined amount. The first two advisories to come up with the correct amount was a winner of a prize.

Lincoln's Birthday – Four of my Explore students read the Gettysburg Address over the intercom for Lincoln's birthday.

MLK Day – For MLK Day, my Explore students created posters that highlighted each of King's Six Principles of Nonviolence protest. It was a timely message given the then recent protests in cities and the Capitol in Washington.

Chapter 79

79-724.

Committee on American civics; created; duties; school board, State Board of Education, and superintendent; duties.

It is the responsibility of society to ensure that youth are given the opportunity to become competent, responsible, patriotic, and civil citizens to ensure a strong, stable, just, and prosperous America. Such a citizenry necessitates that every member thereof be knowledgeable of our nation's history, government, geography, and economic system. The youth in our state should be committed to the ideals and values of our country's democracy and the constitutional republic established by the people. Schools should help prepare our youth to make informed and reasoned decisions for the public good. Civic competence is necessary to sustain and improve our democratic way of life and must be taught in all public, private, denominational, and parochial schools. A central role of schools is to impart civic knowledge and skills that help our youth to see the relevance of a civic dimension for their lives. Students should be made fully aware of the liberties, opportunities, and advantages

we possess and the sacrifices and struggles of those through whose efforts these benefits were gained. Since young people are most susceptible to the acceptance of principles and doctrines that will influence them throughout their lives, it is one of the first duties of our educational system to conduct its activities, choose its textbooks, and arrange its curriculum in such a way that the youth of our state have the opportunity to become competent, responsible, patriotic, and civil American citizens.

(1) The school board of each school district shall, at the beginning of each calendar year, appoint from its members a committee of three, to be known as the committee on American civics, which shall:

(a) Hold no fewer than two public meetings annually, at least one when public testimony is accepted;

(b) Keep minutes of each meeting showing the time and place of the meeting, which members were present or absent, and the substance and details of all matters discussed;

(c) Examine and ensure that the social studies curriculum used in the district is aligned with the social studies standards adopted pursuant to section [79-760.01](#) and teaches foundational knowledge in civics, history, economics, financial literacy, and geography;

(d) Review and approve the social studies curriculum to ensure that it stresses the services of the men and women who played a crucial role in the achievement of national independence, establishment of our constitutional government, and preservation of the union and includes the incorporation of multicultural education as set forth in sections [79-719](#) to [79-723](#) in order to instill a pride and respect for the nation's institutions and not be merely a recital of events and dates;

(e) Ensure that any curriculum recommended or approved by the committee on American civics is made readily accessible to the public and contains a reference to this section;

(f) Ensure that the district develops and utilizes formative, interim, and summative assessments to measure student mastery of the social studies standards adopted pursuant to section [79-760.01](#);

(g) Ensure that the social studies curriculum in the district incorporates one or more of the following for each student:

(i) Administration of a written test that is identical to the entire civics portion of the naturalization test used by United States Citizenship and Immigration Services prior to the completion of eighth grade and again prior to the completion of twelfth grade with the individual score from each test for each student made available to a parent or guardian of such student; or

(ii) Attendance or participation between the commencement of eighth grade and completion of twelfth grade in a meeting of a public body as defined by section [84-1409](#) followed by the completion of a project or paper in which each student demonstrates or discusses the personal learning experience of such student related to such attendance or participation; or

(iii) Completion of a project or paper and a class presentation between the commencement of eighth grade and the completion of twelfth grade on a person or persons or an event commemorated by a holiday listed in subdivision (6) of this section or on a topic related to such person or persons or event; and

(h) Take all such other steps as will assure the carrying out of the provisions of this section and provide a report to the school board

regarding the committee's findings and recommendations.

(2) All social studies courses approved for grade levels as provided by this section shall include and adequately stress contributions of all ethnic groups to (a) the development and growth of America into a great nation, (b) art, music, education, medicine, literature, science, politics, and government, and (c) the military in all of this nation's wars.

(3) All grades of all public, private, denominational, and parochial schools, below the sixth grade, shall devote at least one hour per week to exercises or teaching periods for the following purpose:

(a) The discussion of noteworthy events pertaining to American history or the exceptional acts of individuals and groups of Americans;

(b) The historical background, memorization, and singing of patriotic songs such as the Star-Spangled Banner and America the Beautiful;

(c) The development of respect for the American flag as a symbol of freedom and the sacrifices of those who secured that freedom; and

(d) Instruction as to proper conduct in the presentation of the American flag.

(4) In at least two of the three grades from the fifth grade to the eighth grade in all public, private, denominational, and parochial schools, time shall be set aside for the teaching of American history from the social studies curriculum, which shall be taught in such a manner that all students are given the opportunity to (a) become competent, responsible, patriotic, and civil citizens who possess a deep understanding of and respect for both the Constitution of the United States and the Constitution of Nebraska and (b)

prepare to preserve, protect, and defend freedom and democracy in our nation and our world.

(5) In at least two courses in every high school, time shall be devoted to the teaching of civics and American history as outlined in the social studies standards adopted pursuant to section 79-760.01, during which specific attention shall be given to the following matters:

(a) The Declaration of Independence, the United States Constitution, the Constitution of Nebraska, and the structure and function of local government in this state;

(b) The benefits and advantages of representative government, the rights and responsibilities of citizenship in our government, and the dangers and fallacies of forms of government that restrict individual freedoms or possess antidemocratic ideals such as, but not limited to, Nazism and communism;

(c) The duties of citizenship, which include active participation in the improvement of a citizen's community, state, country, and world and the value and practice of civil discourse between opposing interests; and

(d) The application of knowledge in civics, history, economics, financial literacy, and geography to address societal issues.

(6) Appropriate patriotic exercises suitable to the occasion shall be held under the direction of the superintendent in every public, private, denominational, and parochial school on George Washington's birthday, Abraham Lincoln's birthday, Dr. Martin Luther King, Jr.'s birthday, Native American Heritage Day, Constitution Day, Memorial Day, Veterans Day, and Thanksgiving Day, or on the day or week preceding or following such holiday, if the school is in session.

(7) Every school board, the State Board of Education, and the superintendent of each school district in the state shall be held directly responsible in the order named for carrying out this section. Neglect thereof by any employee may be considered a cause for dismissal.

Content Area Standards

The Nebraska Social Studies Standards describe the knowledge and skills that students should learn, but they do not prescribe particular curriculum, lessons, teaching techniques, or activities. These standards create a framework for teaching and learning, and they articulate a trajectory for knowledge acquisition across all grade levels. This ensures that student learning builds on prior knowledge and becomes more in-depth over time. Standards describe what students are expected to know and be able to do, while the local curriculum and instructional materials are used to help students master the standards. Decisions about curriculum and instructional materials are made locally by individual school districts and classroom teachers. The Nebraska Department of Education does not mandate the curriculum or instructional materials used within a local school.

Organization and Structure of Nebraska’s Social Studies Standards

The overall structure of Nebraska’s Social Studies Standards reflects the two-tier structure common across all Nebraska content area standards. The two levels include standards and indicators. At the broadest level, standards include broad, overarching content-based statements that describe the basic cognitive, affective, or psychomotor expectations of student learning. The standards, across all grade levels, reflect long-term goals for learning. Indicators further describe what students must know and be able to do to meet the standard and provide guidance related to classroom instruction. Additionally, the indicators provide guidance related to the assessment of student learning. In addition to standards and indicators, the Nebraska Social Studies standards provide examples. The “For example...” statements provide guidance relative to topics that may be included in the locally determined curriculum. These suggestions may be used to meet the learning expectations of the standards and indicators.

For grades K-8, the standards and indicators are written at grade level. The K-8 standards and indicators are organized within four **disciplines**: Civics, Economics, Geography, and History. Within those disciplines, standards and indicators are grouped by **big ideas**. Big ideas are concepts, themes, or issues that give meaning and connection to facts and skills (Wiggins and McTighe, 2005, p. 5). The high school standards and indicators are written within one grade band (HS = 9-12), and they are also organized by discipline and big ideas. Prior to each grade level and the high school grade band, a summary statement and theme are included. This provides a high-level overview of what students are expected to learn at that grade level.

In addition to a common structure for content area standards, a consistent numbering system is used for content area standards. The Nebraska Social Studies Standards numbering system is as follows:

Kindergarten

Grade Level Summary and Theme

Myself and Others: In kindergarten, students begin their investigation of the world using perspectives, concepts, and skills from social studies. The context for social studies learning at this grade level is the student's interaction with classroom and school. The classroom serves as a microcosm of society in which decisions are made with respect to rights, rules, and responsibilities. Students begin to learn the basic concepts of fairness and respect for the rights and opinions of others.

For example: You produce widgets and they have become very popular and the price is rising, what would you do – produce more. In a natural disaster, because of scarcity prices tend to rise for things like water and lumber, if you produced water and/or lumber, the increased price would incentivize you to get more of things where they were needed.

High School Economics

Summary

Effective economic decision making requires that students have a keen understanding of the ways in which individuals, businesses, governments, and societies make decisions to allocate human capital, physical capital, and natural resources among alternative uses. This economic reasoning process involves the consideration of costs and benefits with the ultimate goal of making decisions that will enable individuals and societies to be as well-off as possible. The study of economics provides students with the concepts and tools necessary for an economic way of thinking and helps students understand the interaction of buyers and sellers in markets, workings of the national economy, and interactions within the global marketplace. Economics is grounded in knowledge about how people choose to use resources. Economic understanding helps individuals, businesses, governments, and societies choose what resources to allocate to work, to school, and to leisure; how many dollars to spend, and how many to save; and how to make informed decisions in a wide variety of contexts. Economic reasoning and skillful use of economic tools draw upon a strong base of knowledge about human capital, land, investments, money, income and production, taxes, and government expenditures. Geography at the high school level prepares students to understand the world and their place in it. Beyond merely knowing "Where?" the geographically minded person will be better equipped to answer the question of "Why there?" An integrative study of our planet's human and physical features will involve 21st century technologies and inquiry-based research methods. High School History

Summary

History involves acquiring knowledge about significant events, developments, individuals, groups, documents, places, and ideas to support investigations about the past. Acquiring relevant knowledge requires assembling information from a wide variety of sources in an integrative process. Developing historical knowledge in connection with historical investigations not only helps students better remember the content because it has meaning, but also allows students to become better critical thinkers. High school history courses emphasize historical thinking. Historical thinking requires understanding and evaluating change and continuity over time, and making appropriate use of historical evidence in answering questions and developing arguments about the past. It involves going beyond simply asking, "What happened when?" to evaluating why and how events occurred and developments unfolded. It involves locating and assessing historical sources of many different types to understand the contexts of given historical eras and the perspectives of different individuals and groups within geographic units that range from the local to the global. Historical thinking is a process of chronological reasoning, which means wrestling with issues of causality, connections, significance, and context with the goal of developing credible explanations of historical events and developments based on reasoned interpretation of evidence.

INDEPENDENT AUDITOR'S REPORT

To the Board of Education
Shelby-Rising City Public Schools
District No. 32, Polk County
Shelby, Nebraska

Opinions

We have audited the accompanying modified cash basis financial statements of the governmental activities and each major fund of Shelby-Rising City Public Schools, District No. 32, Shelby, Nebraska (the "District"), as of and for the year ended August 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities and each major fund of the District, as of August 31, 2023, and the respective changes in modified cash basis financial position for the year then ended in accordance with the modified cash basis of accounting as described in Note 1.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standard*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Shelby-Rising City Public Schools, District No. 32, Shelby, Nebraska and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter-Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting as described in Note 1, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve

American Institute of Certified Public Accountants
Nebraska Society of Certified Public Accountants**

months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Shelby-Rising City Public Schools, District No. 32, Shelby, Nebraska's basic financial statements. The combining fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included with the basic financial statements. The other information comprises the budgetary comparison schedules but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or provide any form of assurance on them.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 1, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Shelby-Rising City Public Schools, District No. 32, Shelby, Nebraska's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Shelby-Rising City Public Schools, District No. 32, Shelby, Nebraska's internal control over financial reporting and compliance.

AUGUST 31, 2023**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Overview

Organization - Shelby-Rising City Public Schools, District No. 32, (the "District") is a tax-exempt political subdivision and a Class 3 school district of the State of Nebraska.

Reporting Entity

The District's financial statements are presented as the primary government and include all departments, activities and organizations for which the District is financially accountable. The District has determined that there are no potential component units that meet the criteria for inclusion in the financial statements.

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded, regardless of the measurement focus applied.

Measurement Focus – In both the government-wide financial statements and the fund financial statements, the governmental activities are presented using a modified cash basis measurement focus. Their reported net position/fund balance is considered a measure of "available cash and investments." The operating statements focus on cash received and cash disbursed.

Basis of Accounting – In the government-wide and the fund financial statements, the District prepares its financial statements using the modified cash basis of accounting. Accordingly, county treasurer receipts are recognized when collected by the county, all other receipts are recognized when cash is received by the District rather than when earned, and expenditures are recognized when cash is disbursed. This basis is a basis of accounting other than accounting principles generally accepted in the United States of America.

This basis of accounting is applied to all transactions, including the disbursements for capital assets, receipt of proceeds from issuance of debt and the retirement of debt.

Basis of Presentation

Government-Wide Financial Statements – The Statement of Net Position – Modified Cash Basis and Statement of Activities – Modified Cash Basis display information about the reporting government as a whole. They include all funds of the reporting entity. The statements present the District's financial statements as governmental activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange revenues. Alternatively, business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The District does not operate any significant business-type activities.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Basis of Presentation - continued

Fund Financial Statements – Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary and fiduciary. The District currently has no proprietary or fiduciary funds. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the District, meets specific criteria set forth by GASB or is identified as a major fund by the District’s management. In addition to the District’s funds meeting the required criteria, the District’s management has designated all remaining funds to be presented as major funds for financial reporting purposes.

The funds of the financial reporting entity are described below:

GOVERNMENTAL FUND TYPES

General Fund – The fund is the primary operating fund of the District and is always classified as a major fund. It is used to account for all financing resources except those required to be accounted for in other funds. The General Fund includes the following:

Depreciation Fund – This fund accounts for resources designated and maintained for the eventual purchase of capital assets through the transfer of monies from the General Fund. This fund is a component of the General Fund.

Employee Benefit Fund – This fund accounts for the reserve of money for the benefit of School District employees for fringe benefits through the transfer of monies from other funds. This fund is a component of the General Fund.

Special Revenue Fund – These funds are used to account for the proceeds of the specific revenue sources that are either legally restricted or designated to finance particular functions or activities other than debt service or capital projects. The reporting entity includes the following special revenue funds:

Activities Fund – This fund is used to account for assets held by the District for various school activities.

School Nutrition Fund – This fund accounts for the operations of the District’s child nutrition programs.

Student Fee Fund – This fund is used to account for money collected from students that shall be expended for the purpose for which it was collected from the students.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Basis of Presentation - continued

Capital Projects Fund – This fund is used to account for the construction, rehabilitation and acquisition of capital assets.

Special Building Fund – This fund accounts for taxes levied and other revenues specifically maintained to acquire or improve sites and/or to erect, alter or improve buildings.

Debt Service Fund – This fund is used to account for the accumulation of resources for, and the payment of, general long-term obligations principal, interest and related costs.

Bond Fund – This fund accounts for taxes levied and other revenues specifically earmarked for the retirement of bonded indebtedness.

Cash and Cash Equivalents

For the purpose of the Statement of Net Position, “cash and cash equivalents” includes all demand and savings accounts and certificate of deposit or short-term investments with an original maturity of three months or less.

Long-Term Debt

Long-term debt arising from cash transactions for governmental funds is not reported as a liability in the government-wide or fund financial statements. The debt proceeds are, instead, reported as other financing receipts and payment of principal and interest reported as cash disbursements.

Equity Classification

Government-Wide Statements:

Equity is classified as net position and displayed in two components:

- a. Restricted net position – Consisted of net position with constraints placed on the use either by 1) external groups, such as creditors, grantors, contributors or laws and regulations of other governments; or 2) law through constitutional provisions or enabling legislation.
- b. Unrestricted net position – All other amounts that do not meet the definition of “restricted.”

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Equity Classification - continued

It is the District's policy to use restricted net position prior to the use of unrestricted net position, when a disbursement is made for purposes in which both restricted and unrestricted net positions are available.

Fund Financial Statements:

The governmental fund financial statements present balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which the amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- a. Nonspendable – This classification includes amounts that cannot be spent because they are either (1) not in spendable form or (2) are legally or contractually required to be maintained intact. The District has nonspendable resources in the Fullerton Schools Foundation.
- b. Restricted – This classification includes amounts for which constraints have been placed on the use of resources either (1) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (2) imposed by law through constitutional provisions or enabling legislation.
- c. Committed – Defined as being imposed by the government itself using its highest level of decision-making authority. That constraint can be removed or changed only by taking the same action.
- d. Assigned – Defined as amounts intended to be used for specific purposes. The intent is expressed by the governing body or a body or official authorized by the governing body.
- e. Unassigned – This classification is the residual classification and includes all amounts not contained in other classifications.

The district applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Use of Estimates

The preparation of financial statements, in conformity with the modified cash basis of accounting, requires management to make estimates and assumptions that affect the reported amounts of assets and disclosure of contingent liabilities at the date of the financial statements and reported amounts of receipts and disbursements during the reporting period. Actual results could differ from those estimates.

Internal and Interfund Balances and Activities

In the process of aggregating the financial information for the government-wide financial statements, some amounts reported as interfund activity and balances in the fund financial statements have been eliminated or reclassified.

Fund Financial Statements

Interfund activity, if any, within and among the governmental fund category is reported as follows in the fund financial statements:

- a. Interfund loans – flow of assets from one fund to another where repayment is expected within two years are reported as cash receipts and disbursements
- b. Interfund reimbursements – repayments from funds responsible for certain disbursements to the funds that initially paid for them are not reported as reimbursements but as adjustments to disbursements in the respective funds.
- c. Interfund transfers – flow of assets from one fund to another where repayment is not expected are reported as cash receipts and disbursements.

The General Fund transferred the following amounts:

- a. \$47,864 to the Employee Benefit Fund for the payment of employee benefits.
- b. \$50,000 to the Depreciation Fund to purchase student transportation vehicles.
- c. \$70,000 to the Activity Fund to subsidize the fund.

2. BUDGET PROCESS AND PROPERTY TAXES

The District is required by state law to adopt annual budgets for each fund. Each budget is presented on the modified cash basis of accounting, which is consistent with the requirements of the Nebraska Budget Act.

2. BUDGET PROCESS AND PROPERTY TAXES, CONTINUED

State Statutes of the Nebraska Budget Act provide the prescribed budget practices and procedures that governing bodies are required to follow. The amounts that may be budgeted for certain specific funds are subject to various expenditures and/or tax levy limitations. There were no amendments to the budget during the year ended August 31, 2023.

The District follows these procedures in establishing the budgetary data reflected in the accompanying financial statements:

- The Administration of the District prepares a proposed operating budget for the fiscal year commencing the following September 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted at a public meeting to obtain taxpayer comments.
- On or before September 20, the budget is legally adopted by the Board of Education through passage of a resolution and is filed with the appropriate agencies.
- Total fund expenditures may not legally exceed total appropriations at the fund level or for “regular education” in the General Fund without holding a public budget hearing and obtaining approval from the Board of Education. Appropriations lapse at fiscal year end and any revisions require Board approval.

The property tax requirement resulting from the budget process is utilized to establish the tax levy in accordance with state statutes, which tax levy attaches as an enforceable lien on property within the District as of December 31. Taxes are due as of that date. One-half of the real estate taxes become delinquent after the following May 1, with the second one-half becoming delinquent after September 1.

3. DEPOSITS AND INVESTMENTS

Nebraska Statute provides that the District may, by and with the consent of the Board of Education of the District, invest the funds of the District in securities, including repurchase agreements, the nature of which individuals of prudence, discretion and intelligence acquire or retain in dealing with the property of another.

At August 31, 2023, the District had bank deposits of \$3,426,264, all of which were covered by federal depository insurance and/or collateralized by U.S. Government securities subject to joint custody safe keeping receipts issued by the custodial financial institution, which was not the pledging institution.

The District had no investments as of August 31, 2023.

7. DEFINED BENEFIT PENSION PLAN NOTE – MODIFIED CASH BASIS

Plan Description. Eligible employees of the Shelby-Rising City Public Schools District are provided with pensions through a cost sharing multiple-employer defined benefit pension plan administered by the Nebraska Public Employees Retirement System (NPERS).

During the NPERS fiscal year ended June 30, 2022, there were 265 participating school districts. These were the districts that had contributions during the fiscal year. All regular public school employees in Nebraska, other than those who have their own retirement plans (Class V school districts, Nebraska State Colleges, University of Nebraska, Community Colleges), are members of the plan.

Benefits Provided. NPERS provides retirement and disability benefits to plan members and beneficiaries. The School Employees Retirement Act establishes benefit provisions. Normal retirement is at age 65. The monthly benefit is equal to the greater of the following: 1) the sum of a savings annuity, which is the actuarial equivalent of the member's accumulated contributions and a service annuity equal to \$3.50 per year of service; or 2) the average of the three 12-month periods of service as a school employee in which such compensation was the greatest, multiplied by total years of creditable service, multiplied by a formula factor of two percent, and an actuarial factor based on age.

Benefit calculations vary with early retirement. Employees' benefits are vested after five years of plan participation or when termination occurs at age 65 or later.

8. DEFINED BENEFIT PENSION PLAN NOTE - MODIFIED CASH BASIS, CONTINUED

Contributions. The State's contribution is based on an annual actuarial valuation. In addition, the State contributes an amount equal to two percent of the compensation of all members. This contribution is considered a non-employer contribution since school employees are not employees of the State. The employee contribution was equal to 9.78 percent from July 1, 2021 to June 30, 2022, (and from July 1, 2022 through August 31, 2023). The school district (employer) contribution is 101 percent of the employee contribution. The District's contribution to the Plan for its year ended August 31, 2023 was \$373,738.

Pension Liabilities(Assets). At June 30, 2022, the NPERS, as a whole, reported a total net pension liability(asset) of \$810,465,539 of which the District's share amounted to \$1,136,500. Because of the use of a modified cash basis of accounting framework in the preparation of these financial statements, this proportionate share of the NPERS net pension liability is not reported in the District's financial statements as a liability, and is instead disclosed herein as a commitment. In accordance with the modified cash basis of accounting, pension expense or expenditures are only reported when contributions are paid by the District to NPERS.

The NPERS net pension liability(asset) was measured as of June 30, 2022, and the total pension liability(asset) used to calculate the net pension liability(asset) was determined using an actuarial valuation as of that date. The District's proportion of the net pension liability(asset) was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2022, the District's proportion was .140228 percent, which was an increase of .008633 percent from its proportion measured as of June 30, 2020.

Actuarial Assumptions. More detailed information relating to the actuarial assumptions used in determining the net pension liability, including mortality rates and life expectancies, long-term expected rate of return, discount rate and sensitivity of the net pension liability to changes in discount rate are available in the separately issued Nebraska Public Employees Retirement Systems Plan financial report. NPERS issues a publicly available financial report that includes the financial statements and required supplementary information for NPERS. That report can be obtained online at http://www.auditors.nebraska.gov/APA_Reports/2023/SA851-09132023-July_1_2021_through_June_30_2022_School_Employees_Retirement_Plan_Employer_GASB_68_Schedules_Audit_Report.pdf.

10. COMMITMENTS AND CONTINGENCIES

Grant Program Involvement

The District participates in several state and federally assisted programs. These programs are subject to financial and compliance audits of various agencies and departments, many of which have not yet been performed. The District's management believes that the amount of expenditures, if any, which may be disallowed by the granting agencies would not be significant.

Compensated Absences

As a result of the District's use of the modified cash basis of accounting, accrued liabilities related to compensated absences (sick leave and vacation) and any employer-related costs earned and unpaid, are not reflected in the government-wide or fund financial statements.

11. INTERLOCAL AGREEMENT

The District has entered into an interlocal agreement with the Educational Service Unit No. 7 and 19 other school districts dated August 6, 2018. The purpose of this agreement is to construct and operate a special education facility at Educational Service Unit No. 7 and to enter into any arrangements or agreements that are desirable or necessary to achieve this purpose. The agreement shall commence on August 20, 2018 and continue until terminated by the parties involved. Each school district shall make an initial contribution of \$31,500.00. Each District had the option of a) Pay full amount before end of FY18 or FY19; b) Pay in 5 annual installments beginning in FY18 or FY19; c) Incur \$5,000.00 penalty and be billed upon enrollment of qualifying student in the behavior program, which will make the total cost \$36,500.00.

In the fiscal year ended August 31, 2019, the District chose the first option and paid the full amount of \$31,500.00. The district made no additional payments during the fiscal year ending August 31, 2023.

11. SUBSEQUENT EVENTS

Subsequent events have been evaluated through November 1, 2023, which is the date the financial statements were available to be issued.

12. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year, the District carried commercial insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

**NOTE TO SUPPLEMENTARY INFORMATION
BUDGETARY COMPARISON SCHEDULES
FOR THE YEAR ENDED AUGUST 31, 2023**

1. BUDGETARY ACCOUNTING

The District prepares its budget for the Governmental Funds on the modified cash basis of accounting. This basis is consistent with the basis of accounting used in presenting the financial statements. Under this method of accounting, all unexpended appropriations lapse at the end of the budget year.

The term "Budgetary Fund Balance" used in these supplementary schedules is synonymous with the terms "Fund Balance – Modified Cash Basis" used in the financial statements.

2. PRESENTATION

Government Auditing Standards requires that for reporting purposes, the General Fund include all activity of funds that do not generate a significant amount of revenues from outside sources. Therefore, in the fund financial statements, the Depreciation Fund and Employee Benefit Fund have been included in the General Fund since their revenues are mainly derived from transfers from the General Fund. However, since the Depreciation Fund and Employee Benefit Fund are required by State law to adopt their own budget, their respective budgetary schedules have been included here.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Education
Shelby-Rising City Public Schools,
District No. 32, Polk County
Shelby, Nebraska

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the blended component unit, and each major fund of Shelby-Rising City Public Schools, District No. 32, Shelby, Nebraska, as of and for the year ended August 31, 2023, and the related notes to the financial statements, which collectively comprise Shelby Public School's basic financial statements and have issued our report thereon dated November 1, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Shelby-Rising City Public School's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Shelby-Rising City Public Schools, District No. 32, Shelby, Nebraska's internal control. Accordingly, we do not express an opinion on the effectiveness of the Shelby-Rising City Public Schools, District No. 32's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a deficiency in internal control described in the accompanying schedule of findings and responses as item 2023-001 that we consider to be significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Shelby-Rising City Public Schools, District No. 32's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Shelby Public Schools, District No. 1's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on Shelby-Rising City Public Schools, District No. 32, Shelby, Nebraska's response to findings identified in our audit and described in the accompanying schedule of findings and responses. Shelby-Rising City Public Schools, District No. 32, Shelby, Nebraska's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing in internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**SHELBY-RISING CITY PUBLIC SCHOOLS
SCHEDULE OF FINDINGS AND RESPONSES
YEAR ENDED AUGUST 31, 2023**

FINDINGS RELATED TO THE FINANCIAL STATEMENTS

2023-001 - Internal Control

Criteria: A strong internal control environment should include the processes that are designed to provide reasonable assurance by segregating duties with respect to handling and recording transactions.

Condition: Due to a limited number of personnel, there is not adequate segregation of duties to ensure internal control over cash receipts, disbursements, and recording of transactions.

Cause: The District has limited personnel involved in the accounting function.

Potential Effect: Inadequate segregation of duties could lead to misappropriation of assets or improper reporting.

Recommendation: We recommend the District implement procedures to ensure that duties with respect to handling and recording transactions be segregated or that alternative controls be used to compensate for lack of segregation.

Views of Responsible Officials and Planned Corrective Action: We concur with the finding. Due to the size and resources of the District, proper segregation of duties cannot be obtained. We will, however, have measures put in place to segregate duties as much as possible and provide oversight of the accounting function.

CURRICULUM DEVELOPMENT

Curriculum development shall be an ongoing process in the school district. Each curriculum area shall be reviewed and revised when necessary according to the timelines set out by the superintendent. These timelines will provide for periodic review of each curriculum area.

The superintendent shall be responsible for curriculum development and for determining the most effective way of conducting research of the school district's curriculum needs and a long-range curriculum development program. In making recommendations to the board, the superintendent shall propose a curriculum that will:

- fulfill the philosophy of the school district;
- reflect the educational and operational needs assessment of the school district;
- articulate courses of study from kindergarten through grade twelve;
- identify minimum objectives for each course and, at the elementary level, for each grade;
- provide for the evaluation of the procedures and methods for attaining the objectives;
- provide for objective monitoring of a student's progress;
- provide for the needs of vocational and college bound students;
- include, if feasible, the course offerings requested by the students;
- provide measurable quality academic content standards that are the same as, equal to or more rigorous than the adopted state standards of the Nebraska Department of Education within one year.

The above mentioned standards include the English Language Arts Standards (2014), Mathematics Standards (2015), Science Standards (2017) and Social Studies Standards (2012) as approved by NDE. Any changes from the specific standards as approved by NDE in those four areas will be attached to this policy.

It shall be the responsibility of the superintendent to keep the board apprised of necessary curriculum changes and revisions and, if needed, to develop administrative regulations for curriculum development and recommendations to the board.

It shall be the responsibility of the superintendent to ensure that students complete grades one through twelve and that high school students complete [200; other] credits prior to graduation. The following credits will be required:

Language Arts	40 credit hours
Science	30 credit hours
Mathematics	30 credit hours
Social Studies	30 credit hours
Physical Education	10 credit hours
Financial Literacy	5 credit hours
Total Required Hours	145 credit hours
Total Elective Hours	55 credit hours

Total Required Hours for Graduation **200 credit hours**

Total Course Credits - **270** (State of NE requires 200 – 80% must be core – Rule 10)

The required courses of study will be reviewed by the board annually.

Graduation requirements for special education students will be in accordance with the prescribed course of study as described in their Individualized Education Program (IEP). Each student's IEP will include a statement of the projected date of graduation at least 18 months in advance of the projected date and the criteria to be used in determining whether graduation will occur. Prior to the special education student's graduation, the IEP team shall determine whether the graduation criteria have been met.

IDEA Considerations

Graduating with a regular high school diploma or reaching the maximum age of eligibility both result in termination of a student's eligibility for Special Education (IDEA) services. Procedurally, the student's Individualized Education Program (IEP) team must meet to review the student's status and issue the appropriate coding for the student, specifically 210 or 211 as described in the ADVISER Data Elements Manual, a reasonable time before the student's eligibility is terminated. These meetings may be held via the telephone or through a virtual platform (e.g. Zoom, Google, etc.) and should include the student (if possible). The school district must also provide the student with a summary of performance prior to graduation or ending services because of age. Some

Approved _____ Reviewed _____ Revised _____

IEP teams may have already provided a Notice of Graduation or Notice of Ending Services Due to Age to certain students. As this is an issue of IDEA eligibility, the Nebraska Department of Education recommends that school districts make every effort to complete these steps in a timely manner.

Requirements Related to American Civics (Nebraska Revised Statute 79-724)

The requirements within Nebraska Revised Statute 79-724 took effect on September 1, 2019, and the NDE considers 2019-2020 a transition year for implementation. Even so, opportunities may exist in an alternate learning environment to meet requirements within 79-724.

- If a district intends to administer the civics portion of the U.S. Citizenship and Immigration Service Naturalization Test, students are required to take the test twice - once prior to completing 8th grade and a second time prior to completing 12th grade. It may be possible for seniors to complete the second testing in an alternate learning environment. For example, the University of Nebraska High School is offering “Citizenship 101” for free (non-credit), and it prepares students to take the naturalization test at the completion.
- For districts that intend to have students attend/participate in a meeting of a public body OR complete a project/paper and class presentation as outlined in 79-724, those requirements may also be met in an alternate learning environment.

Project Proposal

The Educational Service Unit 7 located in Columbus, Nebraska, presents a proposal for the expansion of the existing ESU 7 Level III programs aimed at providing comprehensive support to students facing significant learning and developmental challenges. This proposal introduces a program referred to as "Program" within the context of this document.

The Program is designed to offer robust assistance to low-functioning students with autism or complex disorders within ESU 7 school districts situated in a seven-county vicinity, spanning from kindergarten to individuals up to the age of 21 (see [Appendix A: Project Partners](#)). An application procedure will be in place to determine the eligibility of students for enrollment in the Program (see [Appendix B: Program Application DRAFT](#)). Those enrolled in the Program will focus on developing essential life skills, enhancing social interactions, improving communication abilities, and acquiring the necessary behavioral skills to thrive in their respective environments.

The tuition and building fees associated with the Program will be invoiced to the school districts with students participating in the Program. It's important to note that building fees are not eligible for special education reimbursement, and this distinction will be clearly indicated on the tuition bill to the respective districts.

The Program is scheduled to be housed within a repurposed classroom in the Learning Academy on the ESU 7 campus, commencing in the academic year 2024-2025, with an initial limited student capacity of up to five (see [Appendix C: Timeline](#)). Following

essential renovations, the Program will be relocated to the South Building, allowing for full enrollment capacity of up to ten students beginning in August, 2025.

Rationale

ESU 7's commitment to providing comprehensive support for students with autism or similar complex disabilities of low functioning has been an ongoing and central focus for the school districts since 2014. On an annual and continuous basis, the ESU 7 Special Education Director actively collaborates with school districts to assess and address their unique special education requirements. Service contracts are meticulously tailored to address these specific needs. These critical deliberations take place during Annual Consultation Meetings, culminating in the finalization of essential services, training initiatives, and specialized support for districts, educators, and students.

The pressing need for an additional Level III program, dedicated to addressing the unique challenges posed by high-needs autism and related disorders, has consistently surfaced as a prominent concern. During the most recent service planning meeting with Superintendents, the establishment of a high-needs autism program emerged as a top priority for multiple districts. The demand for additional, highly targeted, and intensive support remains an unmet need within ESU 7's member districts.

It is important to note that while ESU 7 currently offers support to school districts, educators, and students, this assistance is not structured in the form of a specialized program situated on the ESU 7 campus. Instead, ESU 7 personnel have been instrumental in supporting schools and students through a multifaceted approach. This approach

encompasses the creation of specialized programming within districts, active involvement,

[Document Table of Contents](#)
[Appendix Table of Contents](#)

in Individualized Education Plan development, meeting support, assistance with curriculum design, behavior analysis and support, specialized training in autism and related fields for staff, and model teaching.

Service Planning

Service planning for the academic year 2023-2024 was successfully concluded in December 2022. During this period, the development of a program on the ESU 7 campus, tailored to students with severe autism or other complex disabilities, garnered heightened attention. It became apparent that a more comprehensive analysis, involving the collection of additional data and thorough discussion, was necessary to ascertain the priority of this service.

Subsequently, planning for the ESU 7 Service Plan for the academic year 2024-2025 commenced in August 2023. The perceptual data analysis underscored the imperative need for a specialized education program designed to address the unique requirements of students who exhibit low functioning capabilities. These students are predominantly afflicted by significant autism and related disorders, leading to pronounced communication and behavioral challenges.

Upon establishing the priority of implementing a program tailored to students with low functioning, severe autism, and related disorders, superintendents were tasked with initiating discussions on this program with their respective district administration teams. Subsequently, a Zoom meeting was convened on October 6, 2023, with the aim of engaging districts interested in the Program. It is noteworthy that twelve districts actively

participated in the Zoom meeting, each expressing a genuine interest and identifying potential students within their purview.

To facilitate informed decision-making at the district level, requests for cost estimations were issued in preparation for the upcoming district board meetings. Concurrently, comprehensive communication, encapsulated in [Appendix D: Correspondence](#), was disseminated to superintendents in preparation for their October 2023 board meetings.

Existing Structure

ESU 7 possesses ownership of the South Building structure, encompassing an estimated 12,000 square feet, with plans to renovate approximately 1,200 square feet, as detailed in [Appendix E: Site Plan](#). The refurbished area is slated to accommodate two (2) classrooms, one (1) wheelchair-accessible bathroom, one (1) sensory room, and two (2) recovery rooms. This renovation project will also entail the inclusion of two interior exits and one exterior exit. Furthermore, an ADA-compliant playground will be introduced as an additional feature, without necessitating modifications to the existing parking allowances.

Building Costs and Contributions

Option 1: Districts Pay Tuition + \$6800 non-reimbursable. ESU Pays \$330,000 non-reimbursable.

Estimated total budget of funds for the approximate 1,200 sq ft remodeling project is \$180,000. Cost per square foot is estimated to be \$150. If the cost per square foot is

determined to be more than the estimated cost, the project will be adjusted accordingly.
The breakdown of contributions is as follows:

- ESU 7 School District Partners: Non-reimbursable \$40 per day for enrolled students over time for remodel expenses plus \$45,000-65,000 tuition for enrolled students
- ESU 7 General Fund: up to \$30,000 additional expenses and \$300,000 playground.

Each school district Board of Education will sign a partnership contract ([Appendix F: Agreement for Payment of Funds DRAFT](#)) describing the financial responsibilities of both parties as a result of contributing dollars ([Appendix G: Resolution For District Board of Education](#)). The building will be legally owned by ESU 7 with programming advice provided by ESU 7 member districts.

Option 2: Districts Pay Tuition + \$6800 reimbursable. ESU Pays \$180,000 non-reimbursable. (THIS IS THE PREFERRED OPTION, BUT WILL NEED CONFIRMATION FROM NDE FIRST).

Estimated total budget of funds for the approximate 1,200 sq ft remodeling project is \$180,000. Cost per square foot is estimated to be \$150. If the cost per square foot is determined to be more than the estimated cost, the project will be adjusted accordingly.
The breakdown of contributions is as follows:

- ESU 7 School District Partners: Reimbursable \$40 per day over time for equipment and playground plus \$45,000-65,000 tuition for enrolled students
- ESU 7 General Fund: \$180,000 remodel expenses

Each school district Board of Education will sign a partnership contract ([Appendix F: Agreement for Payment of Funds DRAFT](#)) describing the financial responsibilities of both parties as a result of contributing dollars ([Appendix G: Resolution For District Board of](#)

[Education](#)). The building will be legally owned by ESU 7 with programming advice provided by ESU 7 member districts.

Dollars Contributed

ESU 7's special education program receives advice and input from its ESU 7 Executive Committee of Superintendents. The Committee will provide a final recommendation for dollars to contribute for the building remodel ([Appendix H: Sample Contribution Worksheet](#)).

The anticipated total dollars applied toward this building remodel **or equipment and playground** by these nineteen districts is \$180,000 **or \$330,000** with maintenance expenses ongoing. Each school district participating in the remodel project for the Program will contribute a daily building fee amount **or daily equipment fee**. A daily rate of \$40 will be added to the bill for any student attending the program. This amount is not **or is** eligible for special education reimbursement.

The successful execution of the Project hinges on the efficient staffing, provisioning, equipping, training, and overseeing of the personnel responsible for the students attending (as detailed in [Appendix I: Staff Qualifications](#)). To ensure the seamless operation of this endeavor, schools enrolling in the first year of the Project will be obligated to pay the full-year tuition along with the daily building fee, regardless of their students' attendance, except in cases where one of the following circumstances arises:

1. Expenses are adequately covered by other school districts who have students attending. This will require more than 5 students for one teacher, or no more than 10 students for two teachers.
2. If a student leaves the Program, another district fills the vacancy.

Reasons a student may not complete the year:

- Student moves
- Student becomes ill or otherwise is unable to attend
- Student violates the handbook and is expelled

General Building Specifications

In broad terms, the building remodel will encompass approximately 1,200 square feet. This structure will be thoughtfully designed to cater to the specific needs of the ESU 7 school districts, particularly in providing essential support to students facing significant language and behavioral challenges, often associated with autism or complex special education disorders (as outlined in [Appendix J: List of Structural Components](#)). The projected program is committed to adhering to the principles of the Least Restrictive Environment (LRE) as it functions not as a traditional school but as a service. This meticulous approach ensures strict compliance with LRE requirements. Furthermore, the remodeled area will be fully aligned with all necessary American with Disabilities Act (ADA) specifications.

Board Support

ESU 7 Chief Administrator and Special Education Director will visit any district Boards that request their presence to describe the Program ([Appendix K: Contact Information](#)). School districts have requested final decisions to be made on or before the end of the Fall semester 2023 for both the participating school district Boards of Education, as well as ESU 7 Board of Education.

★ High needs program Hide

To: Tucker Tejkl, Brent Hollinger, Chad Denker, Mark Ernst, Cole Fischer, King, Brice, Kim Beran, Jeff Anderson, Jason Schapmann, Jeff Schwartz, Jason Cline,

Cc: Tami Clay,

Bcc: Mindy Reed

Good morning.

I know you all had a meeting with Tami regarding a high needs program earlier this week (Monday). She said you were asking for a VERY rough idea of what to expect in terms of cost for that program. I have some information here, but it is very rough. I am guessing high as I do not know the cost of remodel, the availability of staff, the numbers of schools or students, etc. The following information is based on \$200,000 remodel project with 5 districts, and year 1 tuition for a program with 5 students.

Each district would contribute \$10,000 year 1 and \$5,000 each year after through year 5.
* Districts not contributing at the onset of the program will be charged an extra 10% per year.

Program costs/tuition will range from \$60,000-75,000.
* We will be very transparent with the program costs after we have more information. For now, I am basing these costs on of the following:

- ~ Portion of salaries and benefits for Tami, bookkeeper, principal, custodian, IT support (we do this for each sped service now)
- ~ 1 full time teacher
- ~ 1 day/wk equivalent for SLP
- ~ 5 paras for 1:1 for each of the projected students
- ~ 1 para to float as needs arise
- ~ necessary specialized training.
- ~ equipment

This is, and will be, a costly program. ESU 3 in Papillon has a similar program and their cost of tuition is in that range.

Tami and I are working on a program description, but will not have time to put that together for you by Monday. This is what we have so far.

Description

The Educational Service Unit 7 in Columbus, NE proposes to provide an expansion to the Learning Academy program to support students in a Level III program on the ESU 7 campus. This Learning Academy II will provide ESU 7 school districts in the seven county area intense support for their lower functioning students with autism, kindergarten through the age of 21. These students will work on communication and behavioral skills necessary to function in their environments. The Learning Academy II will be located in the ESU 7 South Building. .

Support for low functioning students with autism has been a priority for schools since 2014. In the years since, ESU 7 has supported these schools and students by assisting with creating programming at districts, Individualized Education Plan development and meeting support, curriculum design assistance, behavior support and analysis, autism training to staff, and model teaching. As a result of Service Planning work in December 2022 and again in the perceptual data dig in August 2023, students with low functioning autism with behavior and communication needs were elevated to a level school districts inquired about the development of a program located on the ESU 7 campus with anticipated opening to be Fall 2024.

Please call my cell phone if you have any questions. I am out of state at an advocacy conference in DC until late Friday. Let me know how I can help you.

Minutes after discussion in October 17, 2023 Superintendent Meeting

8:30-9:00 am - High Needs Autism Program Discussion

- Notes:
 - Autism Program:
 - Total cost. If only 5 at the beginning what is the criteria. If no room, then what?
 - Waiting list
 - If no join now, what about the 10% penalty
 - If districts decide to do the \$40 per day rate, there will be no penalty
 - How do ESU funds work?
 - ESU 7's budget is funded less than $\frac{1}{3}$ property tax, $\frac{1}{3}$ grants, and more than $\frac{1}{3}$ contracts with districts
 - No authority to levy for a building fund
 - All special education programs are 100% funded by contracts
 - Discussed options on if you contribute funds now, or if you wait until you send kids.
 - Need to ask the Schools which option to use.
 - Will do in a Google Form
 - 3 options in the program
 - 30K over 5 years with penalty
 - 5k start up and 40d/day
 - 40d/day
 - Projected budget for the program
 - Approximately \$180,000 remodel
 - Estimated \$45,000-65,000 per year tuition
 - Several clarifying questions about year one options are for commitment, and if any portions are reimbursable.
 - Daily rate and building contributions not reimbursable
 - Will be called an expanded Level III program, not necessarily an autism program, in order to not unintentionally restrict to one disability.
 - Can a 1:1 come with the student
 - This will be something to determine on case by case basis

Discussion in October 17, 2023 Superintendent Meeting

8:30-9:00 am - High Needs Autism Program Discussion

- Update on the Special Education Autism Program
 - Working on the proposal. Will be presented to the ESU 7 Board during our November meeting.
 - Working hard to put together a detailed budget.
 - Districts agreed to having a building fee added to the enrolled student tuition.

Discussion in October 17, 2023 Executive Superintendent Committee Meeting

11:30am-1:30pm - High Needs Autism Program Discussion

- Discussed other options for payment of the program in order for districts to receive maximum reimbursement.
 - Option 1:
 - \$45,000-65,000 tuition + \$6,800 building fee (\$40 per day) for enrolled students.
 - ESU 7 Board Pay for equipment and supplies and playground, approximately \$330,000.
 - Reimbursement
 - This option will provide schools with reimbursable expenses for the tuition.
 - Approx. \$52,000 per enrolled student
 - ESU is **not** reimbursed for any of their expenses, approximately \$330,000
 - Option 2:
 - \$45,000-65,000 tuition + \$6,800 equipment fee (\$40 per day) for enrolled students.
 - ESU 7 Board Pay for remodel, approximately \$180,000.
 - Reimbursement
 - This option will provide schools with reimbursable expenses for the tuition and equipment
 - Approx. \$52,000 + \$5,440 per enrolled student
 - ESU is **not** reimbursed for any of their expenses, approximately \$180,000
- Discussed getting a grant to support the build of the playground. Polk explained ESUs are not considered schools or LEAs so we do not qualify for the grants. CPS offered to have us use their foundation to apply for the grant.

Attached to this email is the draft of the proposal. I have included 2 options, but they are not needing a decision by you. If NDE says I can include equipment in the rate AND that is reimbursable, we will **go with Option 2**. Tami is checking on that. Either way, your contribution is \$40 per day. I just hope we can get you reimbursement on that amount.

- Option 1:
 - \$45,000-65,000 tuition + \$6,800 building fee (\$40 per day) for enrolled students.
 - ESU 7 Board Pay for equipment and supplies and playground, approximately \$330,000.
 - Reimbursement
 - This option will provide schools with reimbursable expenses for the **tuition only**.
 - **Approx. \$52,000** per enrolled student
 - ESU is **not** reimbursed for any of their expenses, approximately \$330,000
- Option 2:
 - \$45,000-65,000 tuition + \$6,800 equipment fee (\$40 per day) for enrolled students.
 - ESU 7 Board Pay for remodel, approximately \$180,000.
 - Reimbursement
 - This option will provide schools with reimbursable expenses for the **tuition and equipment**
 - **Approx. \$52,000 + \$5,440** per enrolled student
 - ESU is **not** reimbursed for any of their expenses, approximately \$180,000

If the fiscal agent deems it necessary to exceed a project budget by more than \$100,000, the agent shall request approval from the Parties' boards of education for the over-budget expenditure.

6. Control and Supervision. ESU 7 shall exercise the degree of control and supervision of the Program as necessary to achieve the purpose(s) of this agreement. Such control and supervision will include the enforcement of any rules and regulations adopted by the Parties for the safety of persons engaged in use of the Program.

The Parties' respective governing boards shall determine the manner of acquiring, holding, or disposing of real property in the event that such a need arises. In no event shall the Administrators have the authority to acquire real property on behalf of the Parties. The Administrators shall have the authority to acquire and hold any personal property that is needed or required for the implementation of any purpose of this Agreement. The title to all such personal property shall be held in the name of ESU 7. status of employees hired on or after October 1, 2009 and who are physically performing services within the State of Nebraska. 21. Termination. The Parties may terminate this Agreement prior to its scheduled termination date only if each of the Parties' governing boards pass a resolution and submit a copy of it to the other Parties. Any funds or property in possession of the Parties as a result of this Agreement shall be divided and distributed to the party that contributed it or funded its purchases. Termination shall not relieve a Party of any obligation for its share of any outstanding indebtedness or expense incurred under this Agreement.

22. Default. A party shall be in default under this Agreement if it breaches, defaults on or otherwise fails to perform or satisfy any agreement, obligation, term, covenant, condition or provision set forth herein or arising hereunder, and such breach, default or failure to perform continues for a period of thirty (30) days after the party receives written notice of such breach or failure to perform from the other party; or, if such breach cannot reasonably be cured within such 30-day period, and the breaching party fails to commence to cure such breach within such thirty (30) days after notice from the non-breaching party or fails to proceed diligently to cure such breach within a reasonable time thereafter. Upon default by a party, the remaining parties may pursue any remedy provided by law.

Each Party giving any Notice ("Notice") under this Agreement must give written Notice by personal delivery, registered or certified Mail (in each case, return receipt requested and postage prepaid), or electronic mail to the School Districts' superintendents and the ESU 7 Administrator at the address on file with the Nebraska Department of Education. Notice is effective only if the party giving the Notice has complied with this section.

26. Indemnification. To the extent permitted by applicable law, but without waiving any rights under any applicable state governmental

immunity act, the Parties shall each indemnify and hold harmless the other and its directors, officers, and employees, from any claims, expenses (including attorneys' fees and litigation expenses), damages or losses it may suffer as a result of any claims made regarding the validity of this Agreement; the effect of this Agreement on the expenditure or revenue authority of the Parties, including but not limited to taxpayer or regulatory claims; or any failure of a Party to comply with its responsibilities under this Agreement.

27. Reservation of Rights. Each party reserves the right to enforce its own rights, obligations, or benefits of this Agreement.

28. Amendments and Modifications. The Parties may amend or modify this Agreement only by a signed, written unanimous agreement that identifies itself as an amendment or modification to this Agreement. No other alterations in the terms of this agreement shall be valid or binding.

29. Severability. If any provision of this Agreement is determined to be unenforceable, the remaining provisions of this Agreement remain in full force, if the essential terms and conditions of this Agreement for each party remain enforceable.

30. Counterparts. The Parties may execute this Agreement in multiple counterparts, each of which constitutes an original, and all of which, collectively, constitute only one agreement. The signatures of all of the Parties need not appear on the same counterpart, and delivery of an executed counterpart signature page by facsimile or other electronic means is as effective as executing and delivering this Agreement in the presence of the other Parties to this Agreement. This Agreement is effective upon delivery of one executed counterpart from each party to the other party. In proving this Agreement, a party must produce or account only for the executed counterpart of the party to be charged.

31. Assignment. The Parties shall not assign or otherwise dispose of this Agreement or any duty, right, or responsibility contemplated in this Agreement to any other person or entity without the previous written consent of the other Parties.

32. Entire Agreement. The Agreement is the complete and exclusive expression of the Parties' agreement on the matters contained in this Agreement. All prior and contemporaneous negotiations and agreements between the Parties on the matters contained in this Agreement are expressly merged into and superseded by this Agreement.

Attached to this email is the draft of the proposal. I have included 2 options, but they are not needing a decision by you. If NDE says I can include equipment in the rate AND that is reimbursable, we will **go with Option 2**. Tami is checking on that. Either way, your contribution is \$40 per day. I just hope we can get you reimbursement on that amount.

Remember, when your board agrees to participate in this Program, it is simply agreeing to the service. You will not be billed anything until you send a student. Districts sending year 1 will be asked to commit for the entire year whether or not your student comes for the whole year (page 32).

- Option 1: (pages 6 and 38)
 - \$45,000-65,000 tuition + \$6,800 building fee (\$40 per day) for enrolled students.
 - ESU 7 Board Pay for equipment and supplies and playground, approximately \$330,000.
 - Reimbursement
 - This option will provide schools with reimbursable expenses for the **tuition only**.
 - **Approx. \$52,000** per enrolled student
 - ESU is **not** reimbursed for any of their expenses, approximately \$330,000
- Option 2: (pages 7 and 39)
 - \$45,000-65,000 tuition + \$6,800 equipment fee (\$40 per day) for enrolled students.
 - ESU 7 Board Pay for remodel, approximately \$180,000.
 - Reimbursement
 - This option will provide schools with reimbursable expenses for the **tuition and equipment**
 - **Approx. \$52,000 + \$5,440** per enrolled student
 - ESU is **not** reimbursed for any of their expenses, approximately \$180,000
