Discussed contract to consort Title III funds with ESU 10.

8.3. Review Contract With ESU 10 for Special Education Services
Discussed Reviewing Contract With ESU 10 for Special Education Services. They provide limited services for us.

8.4. Lunch Fund Shortfall
Transferring 35,000.00 from general fund to the lunch fund. We recently discovered, that we were selling Ala Carte items for less than we were purchasing items for. Inflation and labor costs are also adding to the issues, as well as the transition from free meals to full pay has also added to the shortfall.

8.5. Review Districts Return to Learn Plan

10. Reports

10.1. Superintendent's Report:

Combining Village Library and School Library

Staff Evaluations

Mr. Moore has been discussing with the Village about combining the libraries with the village and school. There are pros and cons. They are working together on the issues and seeing if it is feasible. This is just in the discussion phase only. They welcome feedback from the community as well.

We are close to completing all staff evaluations. Mr. Marquez is putting finishing touches on his. Mrs. Williams is finished.

10.2. Principals' Report

10.2.1. Elementary:

Data Assessment Program

NSCAS Prep

Up-Coming Events

Mrs. Williams discussed that they are looking at tools to help us interpret data in Math and Reading. There are so many components to look at and they want to make sure what we choose is appropriate.

Testing is beginning. We had a launch party, invited parents and gave high fives to students.

They are having a Family Fun Night on April 22nd. 5:30 - 7:00 PM. All families are welcome!

10.2.2. Secondary Principal:

Testing

Graduation

Brandon gave kudos to Mrs. Williams for all she has done with the curriculum.

Graduation is around the corner. Mr. Wick has a prioritized list to prepare the school and grounds for graduation to make things look more presentable (with the construction mess). ACT testing was done last week. The kids made a great effort. They are getting through more questions which should help our scores. They did a pre ACT the next day for freshman and sophomores.

We are doing fun things in our curriculum. For example, counting change back to people. Kids are making progress.

The greenhouse kit will be ordered this week.

Advertising for the football field has started. It is 1000.00 for 10 years. It works out to be about \$25 per game not including playoffs.

We are looking at purchasing some equipment with money we have taken in from weight room FOB's. More to come in the future.

Hi Linda:

When I looked at my time sheet I noticed you changed my hours working at the track meet. I worked from 8:05 am to 5:45 pm at the track meet on Friday as Office. The three hours you added should be on Thursday as Office not Friday. Would you please correct this?

Thanks for your help!

Dear Elm Creek Board of Education,

It is with mixed emotions that I resign my position as Administrative Assistant of Elm Creek Schools on May 24, 2024. This was a very hard decision because I do so love this school district. My reason for leaving has nothing to do with this amazing place and is purely because of my mothers poor health. This is a special place and I will dearly miss it..

Thank you to everyone on the Elm Creek team for making my time here so rewarding and enjoyable.

Sincerely,
Christine A. Shoff

Emergency Exclusion

Grounds for Emergency Exclusion. Any student may be excluded from school in the following circumstances subject to the procedural provisions governing short term suspension found elsewhere in these policies or state law:

- a. If the student has a dangerous communicable disease transmissible through normal school contacts and poses an imminent threat to the health or safety of the school community; or
- b. If the student's conduct presents a clear threat to the physical safety of himself, herself, or others, or is so extremely disruptive as to make temporary removal necessary to preserve the rights of other students to pursue an education.

Any emergency exclusion shall be based upon a clear factual situation warranting it and shall last no longer than is necessary to avoid the dangers that prompted the exclusion.

Extension of Exclusion. Pursuant to the Student Discipline Act, the principal has the authority to exclude a student from school for up to five school days on an emergency basis. If the superintendent or superintendent's designee determines that it is appropriate to consider the extension of an exclusion beyond five days, such consideration shall be made according to the procedures set forth below.

Notification of Student's Parent(s) or Guardian(s). The superintendent or the superintendent's designee shall notify the student's parent(s) or guardian(s) that the principal has proposed the extension of the exclusion. If the initial notice is oral, the superintendent shall confirm it in writing.

Opportunity to Request a Hearing. The student's parent(s) or guardian(s) may submit an oral request for a hearing on the proposed extension of the exclusion within two school days of receiving the initial notice. If the initial request for a hearing is oral, they shall confirm the request in writing.

Failure to Request a Hearing. If the parent(s) or guardian(s) do not request a hearing within two school days of receiving oral or written notice, the proposed extension of the exclusion shall automatically go into effect.

Appointment and Qualifications of a Hearing Examiner. If the parent(s) or guardian(s) request a hearing, the superintendent shall appoint a hearing examiner upon receiving a request for a hearing. The hearing examiner may be any person who did not bring charges against the student, is not to be a witness at the hearing, and has no involvement in the charge.

Hearing Examiner's Notice to Parent(s) or Guardian(s). The hearing examiner shall promptly give written notice of the time, date and place of the hearing. The hearing will be held within five school days after the school district receives the initial oral or written request; provided, the hearing may be held more than five school days after receipt of the request upon a showing of good cause. No hearing will be held on less than two (2) school days' notice unless otherwise agreed to by the student's parent(s) or guardian(s) and school officials.

Continued Exclusion. If a hearing is requested, the principal may determine in his or her sole discretion that the student shall remain excluded from school until the hearing officer makes a recommendation to the superintendent.

Examination of Student's Records and Affidavits. Prior to the hearing, the student and his/her parent(s) or guardian(s) shall have the right to examine and have school officials explain the student's records and any affidavits that will be used by school officials at the hearing.

Attendance at Hearing. The hearing may be attended by the hearing examiner, the principal (or designee), the student, and the student's parent(s) or guardian(s). The student may be represented at this hearing by a representative of the family's choice.

Student's Witness(es). The student and his/her parent(s) or guardian(s) may ask any person with knowledge of the events leading up to the sanction or with general knowledge of the student's character to testify on behalf of the student. If school personnel or other students are requested to testify by the student's parent(s) or guardian(s), the hearing officer shall endeavor to help obtain the presence of such witnesses at the hearing.

Right to Know Issues and Nature of Testimony. The student and his/her parent(s) or guardian(s) have the right to request in advance of the hearing the issues which the administration will propose in support of the extension, and the general nature of the testimony of any administrative or expert witnesses.

Presence of Student and Witnesses at the Hearing. The student and witnesses may be excluded at the discretion of the hearing examiner in accordance with state statutes. The student may speak in his/her own defense and may be questioned on such testimony, but may choose not to testify.

Sworn or Affirmed Testimony. The principal or his or her designee shall present evidence supporting the recommended extension of the exclusion. Witnesses will give testimony under oath of affirmation, and may be questioned.

Hearing Examiner's Report and Recommendations. The hearing examiner shall prepare a report of his or her findings and recommendations, and forward the report to the superintendent.

Superintendent's Decision. The superintendent will review the hearing examiner's report and determine whether to extend the exclusion. He or she shall have the decision delivered or sent by registered or certified mail to the student, student's parent(s), or guardian(s). If the superintendent decides to extend the exclusion, the extension will take effect immediately.

Constitution Day Education

Each year on September 17, the school district will observe Constitution Day. Students will be introduced to the historic and continuing importance of the United States Constitution. When September 17 falls on a Saturday, Sunday, or holiday, the district will provide this activity during the preceding or following week.

The observance shall be implemented within the guidelines of the U.S. Department of Education and in accordance with any other applicable laws and/or regulations.

Restraint and Seclusion of Students

Restraint and seclusion, as defined below, are behavioral interventions. The use of such behavioral interventions must be in accordance with this policy. The following interventions do not constitute seclusion and restraint, and are not governed by this policy: voice control, limited to loud, firm commands; time-limited ignoring of specific behaviors; brief physical prompts to interrupt or prevent a specific behavior; physical interventions which a student's health care provider has indicated are medically necessary for the treatment or protection of the individual; or other similar interventions.

Definitions

Physical restraint refers to a personal restriction that immobilizes or reduces the ability of a student to move his or her torso, arms, legs, or head freely. The term physical restraint does not include a physical escort. Physical escort means a temporary touching or holding of the hand, wrist, arm, shoulder or back for the purpose of inducing a student who is acting out to walk to a safe location. Physical restraint does not include incidental touching that comes along with movement inside a classroom, lunch line, or other areas of the school building where maintaining order is required.

Mechanical restraint refers to the use of any device or equipment to restrict a student's freedom of movement. The term does not include devices implemented by trained school personnel, or utilized by a student that have been prescribed by an appropriate medical or related services professional and are used for the specific and approved purposes for which such devices were designed, such as:

- Adaptive devices or mechanical supports used to achieve proper body position, balance, or alignment to allow greater freedom of mobility than would be possible without the use of such devices or mechanical supports;
- Vehicle safety restraints when used as intended during the transport of a student in a moving vehicle;
- Restraints for medical immobilization; or
- Orthopedically prescribed devices that permit a student to participate in activities without risk of harm.

Chemical restraint refers to the administration of medication for the purpose of restraint, but does not include the administration of medication in accordance with the directions and prescription of a physician with the consent of the student's parent or guardian.

Seclusion refers to the involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving. It does not include a timeout, which is a behavior management technique that is part of an approved program, involves the monitored separation of the student in a non-locked setting, and is implemented for the purpose of calming.

Use of Restraint and Seclusion

The use of chemical restraint is strictly prohibited. The use of any seclusion or restraint intervention for punitive or disciplinary purposes is strictly prohibited. Similarly, the use of any technique that constitutes corporal punishment, which is the infliction of bodily pain as a penalty for disapproved behavior, is strictly prohibited. Seclusion and/or restraint shall not be used for the convenience of staff or as a substitute for an educational program. When restraint or seclusion is used to respond to the danger of harm posed by a student's behavior, the intervention shall be discontinued as soon as the danger of harm has dissipated.

The use of mechanical restraint is strictly prohibited. The use of physical restraint and seclusion is permitted in a manner consistent with this policy as reasonably necessary where the student's behavior risks causing physical harm to self or others.

Procedures

No technique shall restrict a student's breathing, deprive a student of basic needs, or unnecessarily expose a student to physical pain or discomfort.

Seclusion shall not be used for students who are severely self-injurious or suicidal. When seclusion is utilized as permitted by this policy, the following procedures shall be followed:

- The student shall be monitored by an adult in close proximity who is able to regularly observe the student;
- The confining space shall be approved for such use, unless the use of such a space is impossible or impracticable under the circumstances;
- The confining space shall be appropriately lighted, ventilated, and heated or cooled; *and*
- The confining space shall be free from objects that unreasonably expose the student or others to harm.

If a pattern of behavior emerges that requires or is anticipated to require the use of restraint and/or seclusion for the student, the appropriate educators and/or team members shall review what assessments, evaluations, supports, services, programs, or placements are appropriate in light of the student's needs and circumstances.

Recording and Reporting

Each incident of restraint or seclusion must be recorded and reported as required by the building administrators.

Training

All staff members shall be provided notice of this policy and will be trained on its contents. The Superintendent or his or her designee will identify school staff members likely to implement the restraint or seclusion interventions authorized by this policy and arrange for those individuals to receive appropriate training on the appropriate

implementation of such interventions and the use of other behavioral supports and interventions.

Concussion Awareness

The Nebraska Unicameral has found that concussions are one of the “most commonly reported injuries in children and adolescents who participate in sports and recreational activities and that the risk of catastrophic injury or death is significant when a concussion or brain injury is not properly evaluated and managed.”

The School District will:

- a. Require all coaches and trainers to complete one of the following on-line courses on how to recognize the symptoms of a concussion or brain injury and how to seek proper medical treatment for a concussion or brain injury:
 - Heads UP Concussions in Youth Sports
 - Concussion in Sports—What You Need to Know
 - Sports Safety International
 - ConcussionWise
 - ACTIVE™ Athletic Concussion Training for Coaches; and
- b. On an annual basis provide concussion and brain injury information to students and their parent(s) or guardian(s) prior to such students initiating practice or competition. This information will include:
 1. The signs and symptoms of a concussion;
 2. The risks posed by sustaining a concussion; and
 3. The actions a student should take in response to sustaining a concussion, including the notification of his or her coaches.

A student who participates on a school athletic team must be removed from a practice or game when he/she is reasonably suspected of having sustained a concussion or brain injury in such practice or game after observation by a coach or a licensed health care professional who is

professionally affiliated with or contracted by the school. The student will not be permitted to participate in any school supervised team athletic activities involving physical exertion, including practices or games, until the student:

- a. has been evaluated by a licensed health care professional;
- b. has received written and signed clearance to resume participation in athletic activities from the licensed health care professional; and
- c. has submitted the written and signed clearance to resume participation in athletic activities to the school accompanied by written permission to resume participation from the student's parent or guardian.

If a student is reasonably suspected after observation of having sustained a concussion or brain injury and is removed from an athletic activity, the parent or guardian of the student will be notified by the school of:

- a. the date and approximate time of the injury suffered by the student,
- b. the signs and symptoms of a concussion or brain injury that were observed, and
- c. any actions taken to treat the student.

The school district will not provide for the presence of a licensed health care professional at any practice or game.

School officials shall deem the signature of an individual who represents that he/she is a licensed health care professional on a written clearance to resume participation that is provided to the school to be conclusive and reliable evidence that the individual who signed the clearance is a licensed health care professional. The school will not take any additional or independent steps to verify the individual's qualifications.

Students who have sustained a concussion and returned to school may need informal or formal accommodations, modifications of curriculum, and monitoring by medical or academic staff until the student is fully recovered. The school's "return to learn protocol" shall be the guidance provided by the Nebraska Department of Education entitled "Bridging the Gap from Concussion to the Classroom," and accompanying materials and future supplements. Nothing in this policy or the referenced protocol shall entitle a student who has sustained a concussion to an individualized plan under Section 504 of the

Rehabilitation Act, although staff will refer students who have sustained a concussion for evaluation under Section 504 as appropriate.

Athletic Contest Participation by Sixth Graders

If there are fewer than 12 boys or 12 girls in the combined enrollment of the seventh and eighth grades when those grades are part of the elementary school system, sixth grade students may participate in athletic contests between schools, within a school system, or between school systems if the school administration judges that it is appropriate after taking into consideration the competition's nature and value to the students, its physical requirements and dangers, and the sixth grade students' ages, physical and mental abilities, maturity, skills, and preparation for the competition. Otherwise, pupils in kindergarten through the sixth grade may not participate in any kinds of athletic contests between schools, within a school system, or between school systems except as provided in this policy or as otherwise allowed by law. This prohibition does not apply to annual field or play days.

Reading Instruction and Intervention Services

The purpose of this policy is to facilitate reading instruction and intervention services to address student reading needs, including, but not limited to, dyslexia. It is the school district's goal that each student be able to read at or above grade level by third grade.

Effective Reading Teachers. It is the intent of the school district to employ teachers for kindergarten through third grade who are effective reading teachers as evidenced by (a) evaluations based on classroom observations and student improvement on reading assessments or (b) specialized training in reading improvement.

Reading Assessment. Beginning in 2019-20, the school district will administer a reading assessment approved by the Nebraska Department of Education three times during the school year to all students in kindergarten through third grade. Exceptions to this requirement include:

- Any student receiving specialized instruction for limited English proficiency who has been receiving such instruction for less than two years;
- Any student receiving special education services for whom such assessment would conflict with the individualized education plan; and
- Any student receiving services under a plan pursuant to the requirements of section 504 of the federal Rehabilitation Act of 1973, 29 U.S.C. 794, or Title II of the federal Americans with Disabilities Act of 1990, 42 U.S.C. 12131 to 12165, as such acts and sections existed on January 1, 2018, for whom such assessment would conflict with such section 504 or Title II plan.

The first assessment must occur within the first 30 days of the school year.

Diagnostic assessments used within a supplemental reading intervention program do not require Nebraska Department of Education approval.

Deficiency Identification. Any student in kindergarten through third grade performing below the threshold level as determined by the Nebraska Department of Education shall be identified as having a reading deficiency for purposes of the Nebraska Reading Improvement Act and this policy. A student who is identified as having a reading deficiency shall remain identified as having a reading deficiency until the student performs at or above the threshold level on an approved reading assessment. Nothing in the Nebraska Reading Improvement Act or this policy shall prohibit a school district from identifying any other student as having a reading deficiency.

Supplemental Reading Intervention Program. The school district will provide a supplemental reading intervention program to ensure that students can read at or above grade level at the end of third grade. The school district may work collaboratively with a reading specialist at the Nebraska Department of Education, with educational service units, with learning communities, or through interlocal agreements to develop and provide such supplemental reading intervention programs. Each supplemental reading intervention program must:

- Be provided to any student identified as having a reading deficiency;
- Be implemented during regular school hours in addition to regularly scheduled reading instruction unless otherwise agreed to by a parent or guardian; and
- Make available a summer reading program each summer for any student who has been enrolled in grade one or higher and is identified as continuing to have a reading deficiency at the conclusion of the school year preceding such summer reading program. The summer reading program may be held in conjunction with existing summer programs in the school district or in a community reading program not affiliated with the school district or may be offered online.

The supplemental reading intervention program may also include:

- Reading intervention techniques that are based on scientific research and best practices;
- Diagnostic assessments to frequently monitor student progress throughout the school year and adjust instruction accordingly;
- Intensive intervention using strategies selected from the following list to match the weaknesses identified in the diagnostic assessment:
 - Development in phonemic awareness, phonics, fluency, vocabulary, and reading comprehension;
 - Explicit and systematic instruction with detailed explanations, extensive opportunities for guided practice, and opportunities for error corrections and feedback; or
 - Daily targeted individual or small-group reading intervention based on student needs as determined by diagnostic assessment data subject to planned extracurricular school activities;
 - Strategies and resources to assist with reading skills at home, including parent-training workshops and suggestions for parent-guided home reading; or
 - Access to before-school or after-school supplemental reading intervention with a teacher or tutor who has specialized training in reading intervention.

Parent/Guardian Notification. The school will give notice in writing or by electronic communication to the parent(s) or guardian(s) of any student identified as having a reading deficiency within 15 working days of such identification that the student has been identified as having a

reading deficiency and that an individual reading improvement plan will be established and shared with the parents or guardians.

Reading Improvement Plan. Any student who is identified as having a reading deficiency will receive an individual reading improvement plan no later than 30 days after the identification of the reading deficiency. The reading improvement plan may be created by the teacher, the principal, other pertinent school personnel, and the parents or guardians of the student and shall describe the reading intervention services the student will receive through the supplemental reading intervention program to remedy the reading deficiency. The student must receive reading intervention services through the supplemental reading intervention program until the student is no longer identified as having a reading deficiency.

Reading Progress. Each student in kindergarten through third grade and his or her parent(s) or guardian(s) will be informed of the student's reading progress within a reasonable time after the school district receives the results from the student's approved reading assessment.

Artificial Intelligence

As used in this policy, artificial intelligence tools ("AI Tools") mean machine-based resources that use computer science, algorithms, large language models, and/or machine learning to perform tasks, answer questions, collect information, and respond to human-directed tasks, queries, and objectives. AI Tools include, but are not necessarily limited to, commercially-available resources like ChaptGPT, Google Bard, and other chatbots.

The board recognizes that among other resources, when properly used, AI Tools may provide valuable source information to students and teachers in relation to the district's academic curriculum and assignments. Student use of AI Tools should focus on using such tools as a resource and for background material, rather than using the AI Tools to complete the assignment. Therefore, AI Tools may only be used by students in accordance with the following requirements:

1. Unless an individual teacher affirmatively communicates to students that AI Tools may be used for a specific assignment, then AI Tools may

not be used. Individual teachers will decide for each individual assignment the extent to which students may use AI Tools for such assignment. Teachers are encouraged to make such a decision in advance of students being given the individual assignment in question.

2. Teachers will communicate to all students responsible for completing an assignment the extent to which such students may use AI Tools in connection with such assignment. Teachers will endeavor to include in such communications examples of permissible and impermissible uses of AI Tools.

3. If a student uses any AI Tools in connection with a school assignment, the student must comply with the following:

a. The student must explicitly disclose to the teacher in writing that the student used an AI Tool and the specific AI Tool used.

b. In any student work (whether hard copy, electronic, digital, or otherwise), the student shall give proper attribution to the AI Tool(s) used to the same extent that students are expected to give proper attribution to other sources of information such as books, texts, encyclopedias, secondary sources, and other traditional media. Such attribution may include, but is not necessarily limited to, accurate quotations, citations, footnotes, endnotes, and/or bibliography entries.

c. In no instance may the output from one or more AI Tools be copied and placed within a student's work as if the student wrote such section himself or herself. For example and not limitation, students may not outsource the organization or the writing of any written work to any AI Tool.

4. A student's failure to meet the requirements stated in this policy will constitute a violation of the district's prohibitions against cheating, plagiarism, and/or academic dishonesty, including but not necessarily limited to such prohibitions stated in the Student Handbook, which violation will subject the student to discipline up to and including expulsion.

5. The student requirements stated above are the minimum requirements for any student assignment. An individual teacher may impose more stringent requirements for any specific academic assignment or coursework.
