CERTIFICATE OF EXCISE BOARD

State of Oklahoma, County of Texas

We, do further certify that we have examined the statement of estimated needs for the current fiscal year ending June 30, 2023, as certified by the Board of Education of Guymon Public Schools, District Number I-8 of said County and State, and its financial statement for the preceding year, and in so doing we have diligently performed the duties imposed upon this Excise Board by 68 O. S. 2001 Section 3007, by (1) ascertaining that the financial statements, as to the statistics therein contained, reflect the true fiscal condition at the close of the fiscal year, or caused the same to be corrected so to show; (2) struck from the estimate of needs so submitted any items not authorized by law and reduced to the sum authorized by law any items restricted by statute as to the amount lawfully expendable therefor; (3) supplemented such estimate, after appropriate action, by an estimate of needs prepared by this Excise Board to make provision for mandatory functions based upon statistics authoritatively submitted; (4) computed the total means available to each fund in the manner provided, applying the Governing Board's estimate of revenue to be derived from surplus tax of the immediately preceding year and from sources other than ad valorem tax, or reduced such estimate to not less than the lawfully authorized ratio of the several sums realized from such sources during the preceding fiscal year or to such lesser sum as may reasonably be anticipated under altered law or circumstance and using for such determination the basic collections of the preceding year and the ratios on which distribution or apportionment must be made during the ensuing or current year.

To the several and specific purposes of the estimated needs as certified, we have and do hereby appropriate the surplus balances of cash on hand of the prior year, estimates of income from sources other than ad valorem taxation within the limitation fixed by law, and the proceeds of ad valorem tax levy within the number of mills authorized, either by apportionment by the Legislature, allocation by the excise board or by legal election, all of which appropriations are made in so far as the available surpluses, revenues, and levies will permit, except in that we have also provided that, after deducting items consisting of cash and the revenue from all sources other than the 2023 tax and the proceeds of the 2023 tax levy are in excess of the residue of such appropriations, by a sum included for delinquent tax, computed at 10.0% of such residue. And provided further, if said School District has been ascertained to be a well defined State Aid District, the local budget, as approved and appropriated for, has been applied wholly to its operating accounts.

We further certify that the amount required to be raised from tax, excluding Homesteads, for General Revenue Fund purposes as approved, requires a total ad valorem tax levy of 35.000 Mills. Said levy is within the statutory limit, and if in excess, is within the constitutional limit and has been authorized by a vote of the people of said district, as shown by certificate of the School Board to-wit:

To this District, with valuations shown below, the Excise Board allocated 5.000 Mills, plus 15.000 Mills authorized by the Constitution, plus an emergency levy of 5.000 Mills; plus local support levy of 10.000 Mills; for a total levy for the General Fund of 35.000 Mills.

We further certify that the amount required to be raised for building fund purposes as approved requires a tax levy of 5.000 Mills, and said levy has been certified as authorized by a vote of the people at an election held for that purpose. We further certify that Assessed Values used in computing Mill-vote levies have been applied as certified by the County Assessor.

We further certify that we have examined the within statements of account and estimated needs or requirements of the Governing Board of Guymon Public Schools, School District No. I-8 of said County and State, in relation to the Sinking Fund or Funds thereof, and after finding the same correct or having caused the same to be corrected pursuant to 68 O. S. 2001 Section 3009, have approved the requirements therefor to fulfill the conditions of Section 26 and 28 of Article 10, Oklahoma Constitution, and have made and certified a tax levy therefor to the extent of the excess of said total requirements over the total of items 2, 3, 6, and 12 of Exhibit Y and any other legal deduction, including a reserve of 10.0% for delinquent taxes.

PROCEDURE FOR SELLING LUNCH TICKETS

Students enrolled in grades seven through twelve will be given student identification numbers. Student identification numbers will be assigned in a random manner and will not be utilized to identify a student in terms of whether the student meal is paid for in full, paid for at the reduced rate, or provided free. Students will be offered the opportunity to pay each day Monday through Friday or online. Regardless of whether the meal is paid for, purchased at the reduced rate, or served free, all students must provide the lunchroom secretary, at the point of service, his/her student identification number.

Meal prices will be established by the board of education on an annual basis. Free and reduced cost lunches are offered to those students who qualify. All parents will be sent a letter of explanation and application forms for free and reduced priced lunches. These forms are to be completed and returned to the principal's office, nutrition office, school office, or enrollment center.

SUBSTITUTE TEACHERS

The Guymon Board of Education realizes that teachers may occasionally be absent from the classroom and recognizes the need for qualified substitute teachers. In recognizing that need, the board has decided that noncertified substitute teachers or substitute teachers with a lapsed or expired teaching certificate shall be paid at the rate of \$100.00 per teaching day. Certified substitute teachers shall be paid \$125.00 per day.

Substitute teachers are to be approved by the superintendent. All substitutes will be employed by the school system and paid by the school system.

No noncertified, non-degreed substitute teacher shall be employed for a total period of time in excess of 135 days per school year and may not be employed for the same assignment for more than 135 days during a school year.

No substitute teacher with a lapsed or expired certificate or who has a bachelors level college degree shall be employed for a total period of time in excess of 145 days per school year and may not be employed for the same assignment for more than 145 days during a school year.

Substitute teachers who do not hold a valid certificate and who are employed to teach special education for students with physical disabilities or students with intellectual disabilities are not subject to these restrictions if no certified teachers are available to teach such students and the students would be denied instruction in special education if the substitute teacher were not employed. The district will provide in-service training for a substitute teacher employed to teach special education for more than 15 consecutive days or 30 total days in the same assignment.

A certified substitute teacher may be employed on a monthly or annual basis in accordance with the terms of a written employment contract in the same manner and under the same conditions as regular teachers. Such substitute teachers shall receive the same compensation as regular teachers, at the same salary level, and will be employed pursuant to a temporary employment contract.

SUICIDE AWARENESS AND TRAINING

The Guymon Board of Education recognizes that self-destructive behavior and suicide occurs among children and adolescents in our country. Students identified as self-destructive are in need of appropriate help as quickly as possible. The primary obligations of school personnel working with a depressed or suicidal student are support, calling the 911 emergency telephone number, law enforcement, the Department of Human Services, parental contact, and referral. Notification must be made immediately upon determining that a risk of harm exists. To that end, student confidentiality may be waived in life-threatening situations.

The district shall provide district-wide training to all staff on a biennial basis addressing suicide awareness and prevention. The training provided shall utilize curriculum provided by the Department of Mental Health and Substance Abuse Services. The course outline for the curriculum shall be made available to the public online through the school district's website. Beginning with the 2021-2022 school year, the district shall:

1. Provide a suicide preventing training program which includes as a core element evidence-based approaches;
2. Provide the curriculum made available by the Department of Mental Health and Substance Abuse Services; or
3. Provide a suicide prevention training program that is selected by the school district from a list maintained by the Department of Mental Health and Substance Abuse Services to school district staff that addresses suicide awareness and prevention. The training may be combined with any other training program provided by the school district addressing bullying prevention.

With the intent of contributing to the prevention of suicide among students where possible, the board directs that an adolescent suicide awareness program be initiated, including:

1. In-service education--to increase the awareness of all building staff about the seriousness of the problem and possible suicide "warning signs",
2. Establishment of referral/response procedures in each school--to facilitate assisting students identified as possibly suicidal,
3. Infusion into the curriculum of appropriate understandings and information--to help students deal appropriately with feelings, to recognize possible suicide "warning signs" in themselves and others, and to increase awareness of alternatives and resources available for assistance,
4. Parental awareness--to increase understandings of parents about the problem and the resources available, and
5. Procedures in each school for dealing appropriately with tragedies--to ease the impact on students, staff, and community in the event of a student suicide.

District personnel cannot be expected to treat the suicidal adolescent. Rather, they need to recognize that they are in a position to aid in the identification of young people who may be prone to suicide, and to intervene in order to link these young people and their families to treatment programs in the community. In addition, school personnel need to be prepared to relate to suicidal young people following a suicide attempt, and to deal with the intense emotions/reactions of the school community following an actual suicide.
