--YOUR ANNUAL MEMBERSHIP PROVIDES SUPPORT FOR --
Nebraska Rural Community Schools Association

<p><u>STATE LEGISLATIVE ADVOCACY</u> NRCSA is active in representing rural public schools in the Unicameral. The Executive Director is the main spokesperson for NRCSA, but is also represented by the lobbying firm of Nowka and Edwards. NRCSA's Legislative Committee includes 20 Superintendents/ESU Administrators and 6 Board of Education members from member schools/ESUs. Former NRCSA Presidents serve as ex officio members.</p>	<p><u>RURAL ADVOCACY</u> NRCSA is the only organization that speaks solely on behalf of public rural schools in the State of Nebraska. Other groups do a great job of representing their members, but at times cannot take a stand as they represent both very large and smaller districts. NRCSA is not necessarily tied down along those lines.</p>	<p><u>SUPERINTENDENT / PRINCIPAL SEARCHES</u> NRCSA's Superintendent and Principal Search Services are conducted by veteran Superintendents whose professional lives were involved in rural education in Nebraska. The service is available to all Nebraska school districts, with member districts paying a lower rate than non-member districts. A professional cost effective proposal and fee structure is available upon request.</p>
<p><u>PLANNING WORKSHOPS</u> The NRCSA Planning Support Service is an elective service that assists districts in planning and goal-setting. The service is conducted by veteran Superintendents whose professional lives were involved in rural education in Nebraska.</p>	<p><u>NATIONAL ADVOCACY</u> NRCSA is a member of the National Rural Education Advocacy Consortium (NREAC), which represents the interests of rural public schools in national forums where education issues are decided.</p>	<p><u>DISTRICT MEETINGS</u> Each fall NRCSA conducts a meeting in each of the six membership districts. These meetings provide an opportunity for rural schools to connect with NRCSA leadership on a face-to-face basis.</p>
<p><u>COMMUNICATIONS</u> NRCSA provides regular updates from the Executive Director to member schools. A more in-depth update is provided to all members just prior to monthly Board of Education meetings. The NRCSA webpage is www.nrcsa.net. NRCSA also has a social media presence on Twitter (@NRCSA1980) and on Facebook (www.facebook.com/nrcsahome).</p>	<p><u>SPRING CONFERENCE</u> NRCSA offers an annual conference in Kearney in March. The conference targets issues and interests of rural schools. An opportunity is created to network with other rural school districts and to interact directly with policymakers and NRCSA leaders.</p>	<p><u>TEACHER SCHOLARSHIPS</u> New for this year, NRCSA provides six \$1,000 scholarship to employees of member districts/ESUs who are working to attain teacher certification either through a recognized "para to teacher" program such as offered by the state colleges or a transitional program such as offered by UNK.</p>
<p><u>DIGITAL CITIZENSHIP</u> NRCSA recently partnered with <i>a-plum creative</i> to provide an opportunity for rural districts to provide monthly digital citizenship materials to their students, parents, and staff. This is a purchased service.</p>	<p><u>US BANK ONE CARD PROGRAM</u> NRCSA has partnered with US Bank to provide this unique purchase card program for school districts. Individual school districts decide which staff members receive purchase cards. The district has control over where purchases can be made and for what amounts. This can be especially helpful when sending sponsors out with student groups.</p>	<p><u>NRCSA AWARDS</u> NRCSA annually recognizes individuals who are outstanding at serving member districts. At the Spring Conference each year NRCSA recognizes an Outstanding Elementary Teacher, Secondary Teacher, Classified Staff Member, ESU Staff Member, Music Teacher, Principal, Board of Education Member, and Superintendent/ESU Administrator.</p>
<p><u>NRCSA EXECUTIVE BOARD</u> The 10-member Executive Board provides leadership and direction for the organization. Each of the six NRCSA districts is represented by at least one Superintendent from a district within the district.</p>	<p><u>NRCSA SCHOLARSHIPS</u> NRCSA annually awards 20 \$2,000 scholarships to high school seniors from NRCSA-member schools who are entering college with the goal of becoming school teachers. NRCSA also presents two \$2,000 Gary Fisher Scholarships to high school seniors going into the fine arts</p>	<p><u>EXCESS EQUIPMENT CLEARINGHOUSE</u> A free service to member districts and ESUs is the opportunity to post items for sale to all other members. Items such as vehicles, scoreboards, weight equipment, school furniture, and text books have been posted on behalf of members.</p>
<p><u>NEBRASKANS UNITED</u> NRCSA is a strong member of this group which includes most education and ag-related organizations in the State. The purpose is to work to provide property tax relief, as well as to protect and promote funding to public education.</p>	<p><u>NEW LEAF TELE THERAPY</u> Beginning with the 2023-24 school year, NRCSA has partnered with New Leaf to provide another tool in helping to provide cost effective Mental Health teletherapy services for their staff and students.</p>	<p><u>LEADERSHIP OPPORTUNITIES</u> Each year there are over 70 leadership positions on the Executive Committee or other NRCSA committees that provide opportunities for member Superintendents/ESU Administrators.</p>
<p><u>EDUCATION ASSOCIATIONS COALITION</u> NRCSA is an active member of this group that is comprised of all of the major education associations in the state. The purpose of the group is to work together on legislative issues facing public education.</p>	<p><u>NATIONAL RURAL EDUCATION ASSOCIATION</u> NRCSA is a strong member of the NREA. The NREA provides leadership on issues facing rural education on the national level.</p>	<p><u>RURAL TEACHER SHORTAGE</u> NRCSA has started a Rural Teacher Committee that was established to find ways to address the shortage of teachers in rural schools. Twelve member Superintendents work with representatives from Chadron State College, Wayne State College, and Peru State College in this work.</p>

Public Appearances of School Groups

The reputation of the school district is enhanced when student groups appear at public non-school functions. Therefore, the board encourages student groups to appear at public events, subject to the following requirements:

1. Activity sponsors must secure the permission of their building principal before booking a student group at a public event.
2. Sponsors are discouraged from booking student groups to perform on more than one school night (Sunday-Thursday) per week.
3. Student groups may not perform at a political rally without permission from the superintendent and prior notice to parents.
4. The policies and rules that apply to field trips also apply to student group appearances in public.

6033 Restraint and Seclusion of Students

Restraint and seclusion, as defined below, are behavioral interventions. The use of such behavioral interventions must be in accordance with this policy. The following interventions do not constitute seclusion and restraint, and are not governed by this policy: voice control, limited to loud, firm commands; time-limited ignoring of specific behaviors; brief physical prompts to interrupt or prevent a specific behavior; physical interventions which a student's health care provider has indicated are medically necessary for the treatment or protection of the individual; or other similar interventions.

Definitions

Physical restraint refers to a personal restriction that immobilizes or reduces the ability of a student to move his or her torso, arms, legs, or head freely. The term physical restraint does not include a physical escort. Physical escort means a temporary touching or holding of the hand, wrist, arm, shoulder or back for the purpose of inducing a student who is acting out to walk to a safe location. Physical restraint does not include incidental touching that comes along with movement inside a classroom, lunch line, or other areas of the school building where maintaining order is required.

Mechanical restraint refers to the use of any device or equipment to restrict a student's freedom of movement. The term does not include devices implemented by trained school personnel, or utilized by a student that have been prescribed by an appropriate medical or related services professional and are used for the specific and approved purposes for which such devices were designed, such as:

- Adaptive devices or mechanical supports used to achieve proper body position, balance, or alignment to allow greater freedom of mobility than would be possible without the use of such devices or mechanical supports;
- Vehicle safety restraints when used as intended during the transport of a student in a moving vehicle;
- Restraints for medical immobilization; or
- Orthopedically prescribed devices that permit a student to participate in activities without risk of harm.

Chemical restraint refers to the administration of medication for the purpose of restraint, but does not include the administration of medication in accordance with the directions and prescription of a physician with the consent of the student's parent or guardian.

Seclusion refers to the involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving. It does not include a timeout, which is a behavior management technique that is part of an approved program, involves the monitored separation of the student in a non-locked setting, and is implemented for the purpose of calming.

Use of Restraint and Seclusion

The use of chemical restraint is strictly prohibited. The use of any seclusion or restraint intervention for punitive or disciplinary purposes is strictly prohibited. Similarly, the use of any technique that constitutes corporal punishment, which is the infliction of bodily pain as a penalty for disapproved behavior, is strictly prohibited. Seclusion and/or restraint shall not be used for the convenience of staff or as a substitute for an educational program. When restraint or seclusion is used to respond to the danger of harm posed by a student's behavior, the intervention shall be discontinued as soon as the danger of harm has dissipated.

The use of physical restraint, mechanical restraint, and seclusion is permitted in a manner consistent with this policy as reasonably necessary to aid the student, further school purposes, or prevent interference with the educational process.

Procedures

No technique shall restrict a student's breathing, deprive a student of basic needs, or unnecessarily expose a student to physical pain or discomfort.

Seclusion shall not be used for students who are severely self-injurious or suicidal. When seclusion is utilized as permitted by this policy, the following procedures shall be followed:

- The student shall be monitored by an adult in close proximity who is able to regularly observe the student;
- The confining space shall be approved for such use, unless the use of such a space is impossible or impracticable under the circumstances;
- The confining space shall be appropriately lighted, ventilated, and heated or cooled; *and*
- The confining space shall be free from objects that unreasonably expose the student or others to harm.

If a pattern of behavior emerges that requires or is anticipated to require the use of restraint and/or seclusion for the student, the appropriate educators and/or team members shall review what assessments, evaluations, supports, services, programs, or placements are appropriate in light of the student's needs and circumstances.

Recording and Reporting

Each incident of restraint or seclusion must be recorded and reported as required by the building administrators.

Training

All staff members shall be provided notice of this policy and will be trained on its contents. The Superintendent or his or her designee will identify school staff members likely to implement the restraint or seclusion interventions authorized by this policy and arrange for those individuals to receive appropriate training on the appropriate implementation of such interventions and the use of other behavioral supports and interventions.

6034 Concussion Awareness

The Nebraska Unicameral has found that concussions are one of the “most commonly reported injuries in children and adolescents who participate in sports and recreational activities and that the risk of catastrophic injury or death is significant when a concussion or brain injury is not properly evaluated and managed.”

The School District will:

- a. Require all coaches and trainers to complete one of the following on-line courses on how to recognize the symptoms of a concussion or brain injury and how to seek proper medical treatment for a concussion or brain injury:
 - Heads UP Concussions in Youth Sports
 - Concussion in Sports—What You Need to Know
 - Sports Safety International
 - ConcussionWise
 - ACTive™Athletic Concussion Training for Coaches; and
- b. On an annual basis provide concussion and brain injury information to students and their parents or guardians prior to such students initiating practice or competition. This information will include:
 - 1 The signs and symptoms of a concussion;
 - 2 The risks posed by sustaining a concussion; and
 - 3 The actions a student should take in response to sustaining a concussion, including the notification of his or her coaches.

A student who participates on a school athletic team must be removed from a practice or game when he/she is reasonably suspected of having sustained a concussion or brain injury in such practice or game after observation by a coach or a licensed health care professional who is professionally affiliated with or contracted by the school. The student will not be permitted to participate in any school supervised team athletic activities involving physical exertion, including practices or games, until the student:

- a. has been evaluated by a licensed health care professional;
- b. has received written and signed clearance to resume participation in athletic activities from the licensed health care professional; and

- c. has submitted the written and signed clearance to resume participation in athletic activities to the school accompanied by written permission to resume participation from the student's parent or guardian.

If a student is reasonably suspected after observation of having sustained a concussion or brain injury and is removed from an athletic activity, the parent or guardian of the student will be notified by the school of:

- a. the date and approximate time of the injury suffered by the student,
- b. the signs and symptoms of a concussion or brain injury that were observed, and
- c. any actions taken to treat the student.

The school district will not provide for the presence of a licensed health care professional at any practice or game.

School officials shall deem the signature of an individual who represents that he/she is a licensed health care professional on a written clearance to resume participation that is provided to the school to be conclusive and reliable evidence that the individual who signed the clearance is a licensed health care professional. The school will not take any additional or independent steps to verify the individual's qualifications.

Students who have sustained a concussion and returned to school may need informal or formal accommodations, modifications of curriculum, and monitoring by medical or academic staff until the student is fully recovered. The school's "return to learn protocol" shall be the guidance provided by the Nebraska Department of Education entitled "Bridging the Gap from Concussion to the Classroom," and accompanying materials and future supplements. Nothing in this policy or the referenced protocol shall entitle a student who has sustained a concussion to an individualized plan under Section 504 of the Rehabilitation Act, although staff will refer students who have sustained a concussion for evaluation under Section 504 as appropriate.

6038 Artificial Intelligence

As used in this policy, artificial intelligence tools (“AI Tools”) mean machine-based resources that use computer science, algorithms, large language models, and/or machine learning to perform tasks, answer questions, collect information, and respond to human-directed tasks, queries, and objectives. AI Tools include, but are not necessarily limited to, commercially-available resources like ChaptGPT, Google Bard, and other chatbots.

The board recognizes that among other resources, when properly used, AI Tools may provide valuable source information to students and teachers in relation to the district’s academic curriculum and assignments. Student use of AI Tools should focus on using such tools as a resource and for background material, rather than using the AI Tools to complete the assignment. Therefore, AI Tools may only be used by students in accordance with the following requirements:

1. Unless an individual teacher affirmatively communicates to students that AI Tools may be used for a specific assignment, then AI Tools may not be used. Individual teachers will decide for each individual assignment the extent to which students may use AI Tools for such assignment. Teachers are encouraged to make such a decision in advance of students being given the individual assignment in question.
2. Teachers will communicate to all students responsible for completing an assignment the extent to which such students may use AI Tools in connection with such assignment. Teachers will endeavor to include in such communications examples of permissible and impermissible uses of AI Tools.
3. If a student uses any AI Tools in connection with a school assignment, the student must comply with the following:
 - a. The student must explicitly disclose to the teacher in writing that the student used an AI Tool and the specific AI Tool used.
 - b. In any student work (whether hard copy, electronic, digital, or otherwise), the student shall give proper attribution to the AI Tool(s) used to the same extent that students are expected to give proper attribution to other sources of information such as books, texts, encyclopedias, secondary sources, and other traditional media. Such attribution may include, but is not

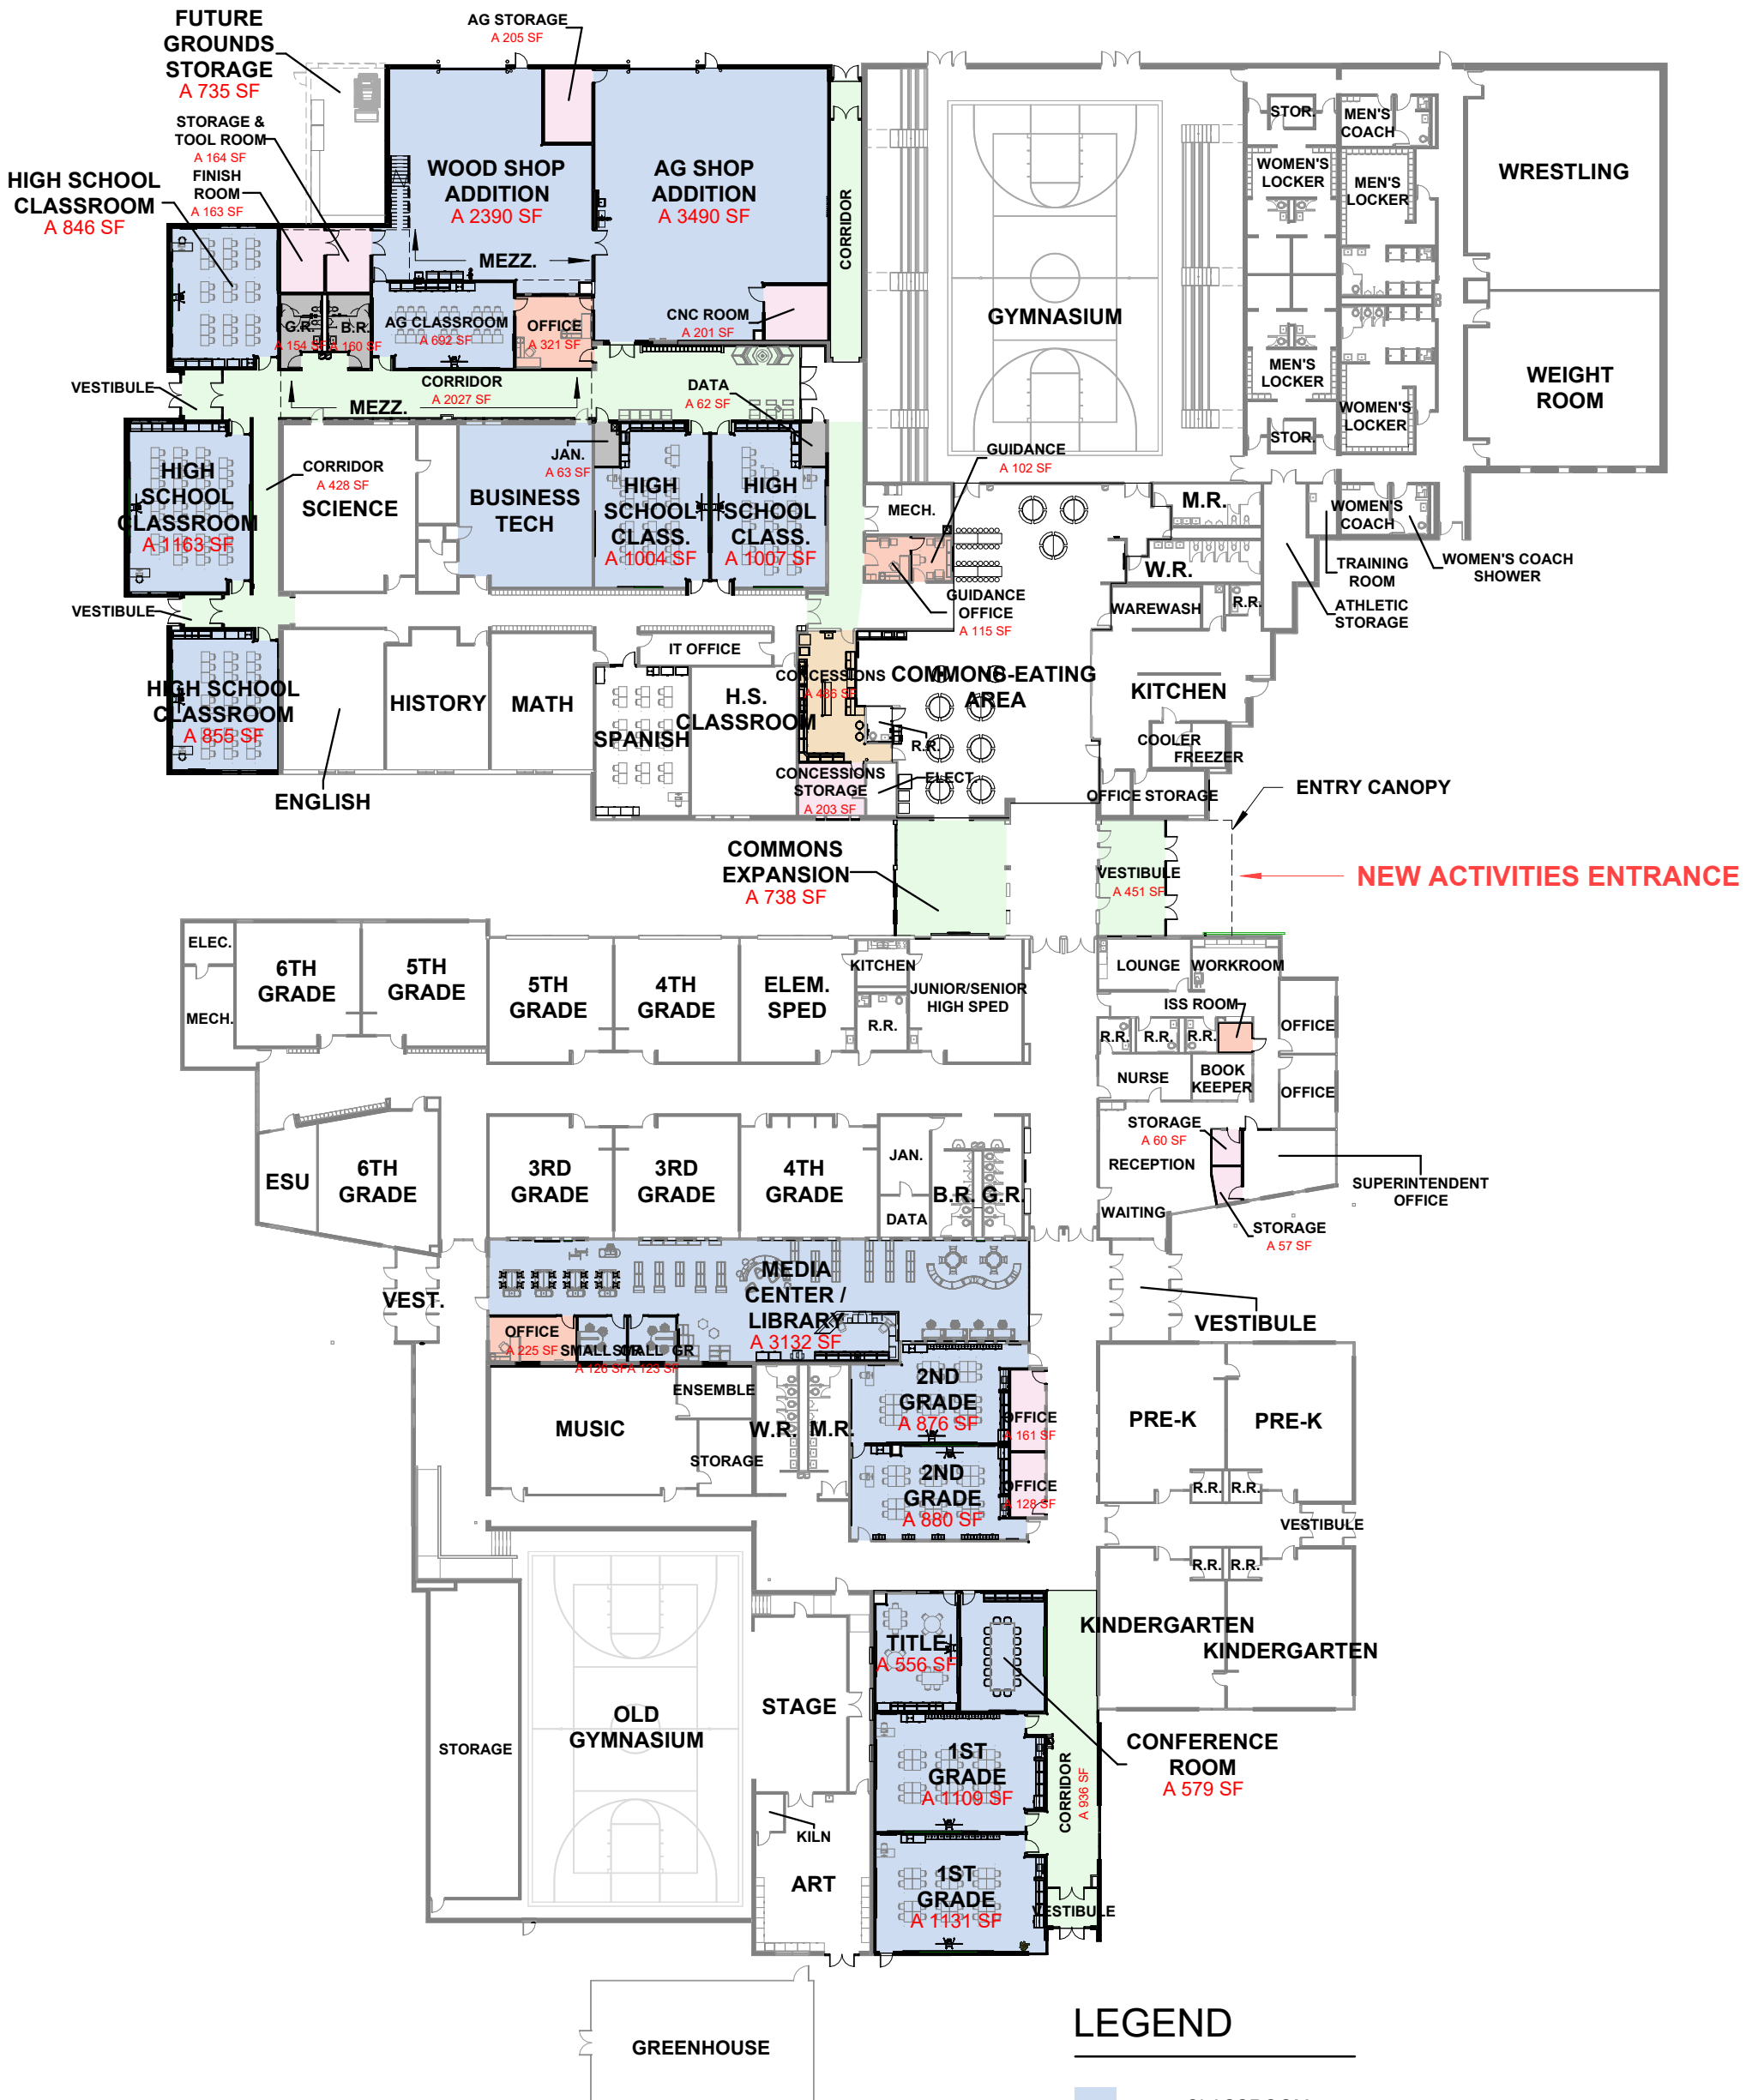

necessarily limited to, accurate quotations, citations, footnotes, endnotes, and/or bibliography entries.

- c. In no instance may the output from one or more AI Tools be copied and placed within a student’s work as if the student wrote such section himself or herself. For example and not limitation, students may not outsource the organization or the writing of any written work to any AI Tool.
4. A student’s failure to meet the requirements stated in this policy will constitute a violation of the district’s prohibitions against cheating plagiarism and/or academic dishonesty, including but not necessarily limited to such prohibitions stated in the Student Handbook, which violation will subject the student to discipline up to and including expulsion.
 5. The student requirements stated above are the minimum requirements for any student assignment. An individual teacher may impose more stringent requirements for any specific academic assignment or coursework.
