CIP OVERVIEW

Collierville Schools maintains a portfolio of facilities totaling more than 1.6 million square feet on 328 acres. Collierville Schools Operations Division ensures that each of the district's nine school buildings, campuses, and its administrative complex operates at optimal levels to reduce costs while supporting the physical accommodations of students and staff. Since 2014, the school district has invested \$115 million towards capital improvements.

The Capital Improvement Plan (CIP) is updated annually to reflect changes in needs, priorities and funding opportunities. The CIP outlines a multi-year schedule of capital improvements, estimated costs and funding sources. Moreover, the plan summarizes current facility conditions, annual capital expenditures and future capital improvement projects.

FACILITIES ASSESSMENT

The Operations division performs an annual audit of each building to determine the deferred maintenance costs (current and projected costs of maintenance). The audit evaluates the structural and mechanical components of existing facilities as well as current site conditions. Capital spending accounts for expenses towards reducing deferred maintenance costs. The Facility Condition Index (FCI) measures the relative condition of the districts building portfolio. An overall rating of 50% or higher indicates the need to replace or update a facility. The table below illustrates the capital spending, deferred maintenance, replacement value and FCI for FY20.
