We have attached the 2000 series policies that deal with Board Issues.

Policy 2001. Role of the Board of Education. This policy outlines the board's role which is (1) to establish a mission, goals, and policies; (2) to establish and maintain school facilities; (3) to select a superintendent; (4) to adopt a fiscally responsible budget; and (5) to evaluate programs.

Policy 2002. Organization of the Board, Board Officers, Committees, and Check Signing. This policy establishes the organization and functions of the various board members, including which officers must be board members (president and vice president) and which officers can be non-board members (secretary and treasurer).

The Nebraska State Auditor's Office has taken the position that the board secretary and president must personally sign all checks. We have school district clients who are engaged in serious disagreements with the auditor on this issue, based on section 79-575 of the Nebraska statutes which states:

The secretary of a school district shall draw and sign all orders upon the treasurer for all money to be disbursed by the district and all warrants upon the county treasurer for money raised for district purposes or apportioned to the district by the county treasurer and shall present the same to the president to be countersigned. No warrant, check, or other instrument drawn upon bank depository funds of the district shall be issued until so countersigned. No warrant, check, or other instrument drawn upon bank depository funds of the district shall be countersigned by the president until the amount for which it is drawn is written upon its face. Facsimile signatures of board members may be used, and a person or persons delegated by the board may sign and validate all warrants, checks, and other instruments drawn upon bank depository funds of the district.

The board president and secretary do not sign all checks in most, if not all, ESUs and school districts. Therefore, we suspect that the Auditor may continue to raise this issue as his office audits educational entities. Our recommendation is to rely on the plain reading of the statute and on long-accepted practice in Nebraska school districts, and we have included that authority within this section of the policy.

The policy addresses voting on the various officer roles, including what happens in the event no board member is elected to serve due to board splits, failure of a nominee to obtain a "second," and failure of any member to volunteer to serve. You will have to select between two options for ties between two members.

The policy also addresses board vacancies and states that the January meeting will be used as the meeting for selecting officers and addressing other board organization items.

Finally, under the Committees section, we have listed the statutory required Committee on Americanism. Be sure to form the committee at the beginning of each school year.

Policy 2003. Development and Education of Board Members. This policy discusses board member orientation, training, and continuing education.

Policy 2004. Oath of Office. Nebraska state law does not technically require school districts other than Class VI school districts to administer the oath. However, we know many schools do administer the oath. For those districts who want to require the oath, you should understand the risks. Certain aspects of the oath are almost certainly unconstitutional. For that reason, our policy is written as a permissive oath. Board members wanting to take it in oral or written form can do so. Board members who do not want to take it are not required to do so.

Policy 2005. Conflict of Interest. Policy 2005 addresses conflicts of interest for board members, including board members' obligations under the Political Accountability and Disclosure Act. Board members should carefully review this policy, particularly if they are married to a school district employee or if they do any business with the district.

Nebraska state statute prohibits a school board member from being employed as a teacher by the district in which he or she serves on the board. See NEB. REV. STAT. § 79-544. This prohibition would include serving as an administrator, school nurse, or any other position which requires a certificate

from the Nebraska Department of Education. Because we have a freestanding policy regarding employment of board members, we have simply inserted a cross-reference to that policy here.

Policy 2006. Complaint Procedure. This policy outlines the general complaint procedure for all district patrons and staff, including board members, unless another policy or contract such as a collective bargaining agreement applies a separate grievance procedure.

It is important to note that we have combined several required complaint procedures into this general complaint procedure policy, such as Section 504 (prohibiting disability discrimination) and Title IX (prohibiting sex discrimination). Our hope is that having one complaint procedure will make it much easier to follow the correct steps in each complaint, regardless of the nature of the complaint. We have included a reference to the Office of Civil Rights, as well, which is required by many of these federal laws.

We often suggest that board members keep extra copies of this policy readily available to provide to patrons who contact you to lodge general complaints about teachers, coaches, or administrators. Board members should be very familiar and comfortable with this policy and attempt to follow it with fidelity in all cases.

Policy 2007. Reimbursement and Miscellaneous Expenditures. The policy permits district staff and board members to seek reimbursement for attending continuing education, training, and development activities, provided such expenses are permitted by law. This policy will be useful for school districts explaining to the State Auditor why such reimbursements were paid.

The Nebraska Political Subdivision Miscellaneous Expenditures Act allows the board to award a "plaque, certificate of achievement, or item of value" to employees, board members, or volunteers. However, the board must set a dollar limit on the value of the award. We have set the value at \$100 – you may change it to reflect your board's practice. However, you may not change the amount more than once in any twelve-month period.

Finally, the last provision states that recognition dinners will be limited to a \$50 per person cost, which comes directly from state statute. You cannot increase this number.

Policy 2008. Open Meetings. With rare exception, the Open Meetings Act requires school districts to publish notice of its meetings in a newspaper of general circulation within the district's jurisdiction and, if

available, on the newspaper's website. School districts that do not have a newspaper of general circulation within the boundaries of the school district must give notice by a method designated by the school board. This policy contains those two options. However, we strongly encourage you to contact us before choosing Option B to ensure that you truly do not have a newspaper of general circulation within your school district.

Policy 2009. Public Participation at Board Meetings. This policy covers public comment and participation at board meetings, including public comment and board materials available to patrons attending meetings. The Nebraska Open Meetings Act specifically provides that boards are not required to allow for public comment at every meeting. The Attorney General suggests that boards allow a time for public comment at least four times per year. We prefer to have our policies set for minimum requirements so that boards have the most possible flexibility. Therefore, you may adopt this policy as it is, even if you allow for public comment more frequently.

We have also attached a sheet of instructions for members of the public who wish to speak for your use during public comment at board meetings. The rules sheet sets forth limits on the time for public comment and sets some other general rules. You should review this document and revise it to reflect your practice. You should then have extra copies of this document available at meetings where you will allow the public to comment.

Policy 2010. Preparation for Board Meetings. This policy sets out the general way that your board prepares for its meetings. In our experience, the vast majority of schools have the superintendent set the agenda in consultation with the board president. If that is not the way your board prepares its agendas, please contact us so that we can revise this policy to reflect your practice. This policy also makes it clear that members of the public have no entitlement to be placed on the agenda. You should refer angry callers who demand to be placed on the board's next meeting agenda to this policy, and politely invite them to speak the next time your board has scheduled public comment.

Policy 2011. Membership in Organizations. This policy simply states that the board may hold memberships in various organizations. This policy is useful in answering questions from the state auditor or patrons about why you are paying membership dues in organizations such as the Nebraska Rural Community Schools Association, the Nebraska School Boards Association, or the National Association of School Boards. Some boards add a list of approved organizations to this policy annually or on an as-needed basis, as well. You are not required to list all of the organizations of which the board is a member, but you can do so.

Policy 2012. Code of Ethics. We have drafted this policy based on input from numerous calls and questions from frustrated board members, administrators, and patrons. This policy attempts to capture what we believe it means to be a healthy, productive board of education. The board should carefully review this policy to be sure that this is consistent with its beliefs and practices. Once the board has adopted its code of ethics, you should review it frequently and include it in new board member training to remind both new and incumbent board members of the ethical obligations they have placed upon themselves. Candidates for the board should be provided with a copy of this policy after they file for office and new board members should be reminded of this policy after they are elected.

Policy 2013. Violation of Board Ethics. Unfortunately, there is very little legally that a board can do to impose consequences on one of its members who violates the code of ethics. We urge board members to use their personal relationships and shared cultural expectations to enforce the code of ethics informally. We do occasionally have board contact us for guidance on more formal methods to use in communicating to a board member and/or to the community that a breach of ethics has occurred. This policy sets out the steps that a board could take in those instances.

Boardsmanship training is one of the most urgent needs that we see in Nebraska school districts. We have worked with many boards on an individualized basis to address specific needs in addition to general Boardsmanship issues. We encourage boards who are struggling with ethical breaches to obtain additional training before resorting to the strategies outlined in this policy.

Policy 2014. Relationship with District Legal Counsel. This policy gives the superintendent and the board president the authority to contact the district's legal counsel and to give permission for others to contact legal counsel. A few boards have been unpleasantly surprised when they received a bill for legal advice from an attorney who was contacted by an individual board member without permission. This policy provides that any board member who contacts the district legal counsel without board approval may be personally responsible for any legal fees incurred as a result of the unapproved contact. Our general practice is to politely decline to speak to any member of the board who does not have the authority to speak with us. This provision can be a powerful incentive for an unscrupulous board member to be honest about having permission to speak with legal counsel.

The policy also clarifies that legal counsel serve at the pleasure of the board, and the board may choose to designate one or more law

firms/attorneys to act as district legal counsel. "Choosing" a law firm is not a legal requirement, but we do find that many boards "choose" one or more legal counsel and reaffirm that decision annually. While Nebraska law does permit boards to use attorneys for legal needs, you are not required to pick only one and formally choose at a certain meeting each year. For example, if your board uses KSB and a local attorney on some issues, it is perfectly permissible to authorize the superintendent to contact either on an as-needed basis, without designating only one.

Policy 2015. Student Member of the Board. For those boards who have a student member, this policy authorizes the practice and provides guidelines for the student member's participation. Note that the policy states the decision will be made at the board's regular "May" meeting or "any other meeting" as determined by the board. You should change this to reflect your practice. This policy is not required, so if you do not allow student members, you could simply elect not to pass this policy as part of your policy manual or could change it to say the board does not authorize student members. We would be happy to help with any changes you'd like to make.

Policy 2016: Participation in Insurance Program by Board Members. School board members are statutorily allowed to participate in the school district's health and life insurance coverages, provided that the board members are required to pay the entire premium. If the board permits its members to participate in the insurance coverage, it must report at least quarterly at a board meeting the board members who have elected to obtain the coverage.

Policy 2017. Indemnification and Liability Insurance. Under Nebraska statute section 79-516, a school board can provide liability insurance and indemnify board members, employees, and agents of the school in the event they become involved in a legal proceeding. This includes lawsuits, but also things like administrative proceedings and even "investigations." This policy is designed to serve as a reminder of this authority but also to make clear the board, and the superintendent in cases involving procurement of legal services within the superintendent's existing authority, can provide for things like attorney fees, expenses, damages, and others relating to nearly any type of legal proceeding or investigation.

- *Investments
- *Accounting
- *Some tax knowledge

EXPERIENCE

Nov. 1, 1976 – Apr. 16, 2021

Sr. Trust Officer • Jones Bank, Seward, NE

Oct. 1975 – Oct., 1976

Loan Clerk • ISC Financial House, Inc., Seward, NE

Oct. 1972 – Dec. 1974

Part-time/After School Office Assistant • Rolfsmeier Motors

I worked 44+ years at Jones Bank of which over 40 years was spent working in the Trust Department.

I worked with HSA's, IRA's, Retirement Plans, Estates, and Various Types of Trusts.

I made decisions on investments of \$200,000,000 + of assets along with reading and interpreting legal documents.

I was on the Wake Foundation Scholarship Committee for several years.

COMMUNICATION

I have made several Trust Department presentations to various civic organizations in Seward over the years.

I am very computer literate and proficient in Microsoft Word, Excel, Access, and Quickbooks.

CONSIDERATION

I was quite honored to be considered for the board of the Centennial Foundation, Inc. The Cradick family has had 5 generations in the Utica/Centennial Schools and we support numerous activities. I believe that my expertise in investments, legal documents and some tax knowledge would be very beneficial if I am selected to be on the board.

CENTENNIAL PUBLIC SCHOOL
INTENT TO ATTEND AN **OUT OF STATE STAFF DEVELOPMENT**
ACTIVITY

ACTIVITY: Plain Talk About Literacy and Learning Conference

LOCATION (IF KNOWN): New Orleans, LA

DATES I WOULD BE GONE (IF KNOWN): February 9-11, 2022

1. I am requesting to attend this activity for the following reason(s):

I am requesting to attend this conference because I teach reading grades K-3 to students with a wide range of skills and needs. This coming year we will be adopting ELA curriculum to correlate with the new standards. At this conference we will learn the latest research about teaching reading as well as network with other professionals to learn what is working in similar schools.

2. A listing of local and state conferences I have attended in the **past five years** include (be as specific as possible):

MTSS 2017-2021

Science of Reading 2021-2022

Title 1 Network 2017-2021

Other math and reading workshops at ESU6, ESU7, and ESU2.

3. My participation in Centennial activities outside the classroom the **past five years** include (these include service on committees, teams, task forces, etc.):

The Centennial activities I participate/have participated in outside the classroom the past five years include MTSS, SAT, School Improvement, Teacher Interview Committee, junior high track coach, working many Centennial activities.

I understand that this is only an intent to attend an Out of STATE conference and, if selected to attend, I will share the information and knowledge obtained at the conference with my peers and principal upon my return. I also understand that if I leave the school district within a year of this conference, I may need to reimburse the school district for all of the expenses for the National Conference.

5052 School Wellness

The Centennial Public School (CPS) District is committed to providing school environments that promote and protect children's health well-being, and ability to learn by supporting healthy eating and physical activity. Therefore, it is the policy of the Centennial Public School District that:

- The school district will engage students, parents, teachers, food service professionals, health professionals, and other interested community members in developing, implementing, monitoring, and reviewing district-wide nutrition and physical activity policies.
- All students in grades K-12 will have opportunities, support, and encouragement to be physically active on a regular basis.
- Foods and beverages sold or served at school will meet the nutrition recommendations of the U.S. Dietary Guidelines for Americans.
- Qualified child nutrition professionals will provide students with access to a variety of affordable, nutritious, and appealing foods that meet the health and nutrition needs of students and will provide clean, safe, and pleasant settings and adequate time for students to eat.
- To the maximum extent practicable, our district will participate in available federal school meal programs.
- The district will provide nutrition education and physical education to foster lifelong habits of healthy eating and physical activity.

TO ACHIEVE THESE POLICY GOALS:

I. Wellness Team

The school district will create, strengthen, or work within the existing wellness team to develop, implement, monitor, review, and, as necessary, revise school nutrition and physical activity policies. The team will also serve as resources for implementing these policies. (The wellness team consists of a group of individuals representing the school and community, and may include parents, students, representatives of the school food authority, members of the school board, school administrators, teachers, health professionals, and members of the public.) The team will plan to meet two times/semester.

II. Nutritional Quality of Foods and Beverages Sold and Served on Campus School Meals

Meals served through the National School Food Program will meet, at a minimum, nutrition requirements established by local, state, and federal statutes and regulations.

Free and Reduced-price Meals

CPS will make every effort to eliminate any social stigma attached to, and prevent the overt identification of students who are eligible for free and reduced-price school meals.

A la Carte Items

- Are offered in compliance with USDA regulations prohibiting the sale of “foods of minimal nutritional value” where school meals are served or eaten during the meal period.

Competitive Beverages (only the following beverages are allowed)

- 100% full strength fruit and vegetable juices with no sweeteners (nutritive or nonnutritive).
- Water or water flavored with fruit/fruit juices

Definition of Foods of Minimal Nutritional Value

For purposes of this regulations, “foods of minimal nutritional value” has the same meaning as in the federal regulations for the National School Lunch Program. Specific foods of minimal nutritional value include, but are not necessarily limited to:

- a. Soda, pop, energy drinks
- b. Water ices except those which contain fruit or fruit juices
- c. Chewing gum
- d. Processed candies
- e. Fruit snacks or gummies
- f. Non-baked potato chips
- g. Cakes, cookies, brownies

Definition of Healthy Foods

For purposes of this regulation, “healthy foods” means foods that are not foods of minimal nutritional value, and that are low in fats, sodium and sugars, and high per serving in the nutrients which are needed to meet Reference Daily Intakes.

Vending Machines

The sale of foods of minimal nutritional value is not allowed on school property in areas accessible to students during the school day but will be available outside of school hours.

School Activities/Events

Concession stands at school activities and events will include healthy food choices.

Fundraising Activities

To support children's health and school nutrition-education efforts, CPS will encourage school fundraising activities that do not involve food or will use only food that meet the above nutrition and portion size standards for foods and beverages sold individually. On an infrequent basis foods of minimal nutritional value may be allowed. CPS will also encourage fundraising activities that will promote physical activity.

Snacks

Snacks served during the school day will make a positive contribution to children's diets and health. CPS will assess if and when to offer snacks based on timing of school meals, children's nutritional needs, children's ages, and other considerations.

Rewards

CPS will use foods or beverages that meet the nutrition standards for foods and beverages sold individually (above), as rewards for academic performance or good behavior. CPS will not withhold food or beverages (including food served through school meals) as a punishment.

Celebrations

CPS will limit celebrations that involve food during the school day. The district will provide parents a list of foods that meet the district's snack standards and ideas for healthy celebration/parties.

III. Nutrition and Physical Activity Promotion and Food Marketing Nutrition Education and Promotion

Centennial Public School District aims to teach, encourage, and support healthy eating by students. Schools should provide nutrition education and engage in nutrition promotion that:

- Is offered at each grade level to all students; including those with disabilities, special health care needs and in alternative education settings.
- Encouraged in not only health education classes, but also classroom instruction in subjects such as math, science, language arts, social sciences, and elective subjects;

- Administrators will inform teachers about opportunities to attend training on nutrition and the importance of role modeling healthful habits for students;
- Enables teachers to secure recommended nutrition resources in adequate quantities for their students; and
- Enables teachers to access nutrition resources via Nebraska Action for Healthy Kids website and the Nebraska Department of Education Nutrition Services website.

Family & Community

Parents will be invited to join students for school meals. If a lunch is sent to school, parents are encouraged to pack healthy lunches and snacks. The district will provide parents a list of foods that meet the district's snack standards and ideas for healthy celebrations/parties, rewards, and fundraising activities.

Staff Wellness

Centennial Public School District highly values the health and well-being of every staff member and will plan and implement activities and policies that support personal efforts by staff to maintain a healthy lifestyle.

IV. Physical Activity Opportunities and Physical Education

Daily Physical Education (P.E.) K-12

- All students in grades, K-12, including students with disabilities, special health-care needs, and in alternative educational settings, will be provided the opportunity to receive daily physical education for the entire school year.
- Students will spend at least 50 percent of physical education class time participating in moderate to vigorous physical activity.
- The curriculum will be sequential and consistent with Nebraska Department of Education Physical Education Essential Learnings for Kindergarten through grade 12.

Daily Recess

- Elementary students will have at least 20 minutes a day of supervised recess, preferably outdoors.
- Moderate to vigorous physical activity will be encouraged verbally and through the provision of adequate space and age-appropriate equipment.

Physical Activity and Punishment

Teachers and other school and community personnel will not use physical activity (e.g., running laps, pushups) or withhold opportunities for physical

activity (e.g., recess, physical education) as punishment. (This guideline does not apply to extracurricular sport teams).

Integrating Physical Activity into Classroom Setting

For students to receive the nationally-recommended amount of daily physical activity (i.e., at least 60 minutes per day) and for students to fully embrace regular physical activity as a personal behavior, students need opportunities for physical activity beyond physical education class. Toward that end:

- Classroom health education will complement physical education by reinforcing the knowledge and self-management skills needed to maintain a physically-active lifestyle and to reduce time spent on sedentary activities, such as watching television;
- Opportunities for physical activity will be incorporated into other subject lessons;
- When circumstances make it necessary for students to remain indoors and inactive for two or more hours, the students will be given periodic breaks during which they will be encouraged to stand and be moderately active;
- School administrators will inform teachers about opportunities to attend training on physical activity/physical education and the importance of modeling healthful habits for students; and
- Teachers will be able to access physical education/physical activity resources via Nebraska Action for healthy Kids website and the Nebraska Department of Education PE Health website.

Safe Routes to School

The school district will assess and, if necessary and to the extent possible, make needed improvements to make it safer and easier for students to walk and bike to school. When appropriate, the district will work together with local public works, public safety, and/or police departments in those efforts. The school district will explore the availability of federal "safe routes to school" funds, administered by the state department of transportation, to finance such improvements.

Use of School Facilities Outside of School Hours

School spaces and facilities should be available to students, staff and community members before and after the school day, on weekends, and during school vacations. These spaces and facilities also should be available to community agencies and organizations offering physical activity and nutrition programs. School policies concerning safety will apply at all times.

Family & Community

Information will be provided to help families incorporate physical activity into the lives of all household members. Families and community members will be encouraged to institute programs that support physical activity.

V. Monitoring and Policy Review

Monitoring

The superintendent or designee will ensure compliance with established district-wide nutrition and physical activity wellness policies. The elementary and high school principal or designee will ensure compliance with those policies in their school and will report on the school's compliance to the school district superintendent or designee.

School food service staff will ensure compliance with nutrition policies within school food service areas and will report on this matter to the superintendent. If the district has not received a SMI review from the state agency within the past five years, the district will request from the state agency that a SMI review be scheduled as soon as possible.

The superintendent or designee will develop a summary report every three years on district-wide compliance with the district's established nutrition and physical activity wellness policies based on both elementary and high school input. That report will be provided to the school board and will be available for public review in the superintendent's office.

Policy Review

To help with the initial development of the district's wellness policies, a baseline assessment of the school's existing nutrition and physical activity environments was conducted in 2017 utilizing the *School Health Index* from the Centers for Disease Control and Prevention. As part of that review, the school district reviewed nutrition and physical activity policies, provisions of an environment that supports healthy eating and physical activity; and nutrition and physical education policies and program elements. The district will as necessary revise the wellness policies and develop work plans to facilitate their implementation and the School Health Index will be reviewed at least every three years.
