GOOD NEWS
Board of Education Meeting – February 2023

1. Congratulations to Middle School Counselor, Michele Kimle for being named the 2023 ASCA-Nebraska School Counselor of the Year. Mrs. Kimle recently traveled to Washington, D.C. where she represented Nebraska as a finalist for the National ASCA Counselor of the Year.
2. Congratulations to Hastings Senior High Athletic Director Tracy Douglas for being named the NSIAAA 2023 District IV Athletic Director of the Year.
3. Congratualtion to HPS Show Choir for placing 5th at the Elkhorn Competition.
4. Congratulations to the following students for placing at the Adams County Spelling Bee:

3rd Grade:

2nd place Christian Jarosik – Alcott

6th Grade:

3rd place Milana Eberly – Hastings MS

4th Grade:

1st place Alina Deltorro – Hawthorne
3rd place Channing Larson – Hawthorne
5th place Mavis Daiss – Alcott

7th Grade:

2nd place (oral) Richard Job – Hastings MS
3rd place Richard Job – Hastings MS
4th place Ben Wibbels – Hastings MS

5th Grade:

2nd place Makai Blue – Hawthorne
4th place Kyla Sullivan – Watson

8th Grade:

3rd place Sam Horn – Hastings MS

5. Congratulations to the Longefellow Gold team for placing 3rd at the Quiz Bowl.
6. Congratulations to the HHS Bowling Teams. The Girls Team were the Girls B-5 District Champions and qualified for the State Tournament. The team went on to finish as the Girls Class B State Bowling Runners-Up!

Winter Martin was the Individual District Champion and went on to become the Class B Girls State Bowling Individual Runner-up!

Boys Bowling Team member, Ethan Crecelius, finished 5th at Districts and qualified for State.
7. Congratulations to Winter Martin who was the the Class B Girls State Individual Bowling Runner-up!

11. Congratulations to Braiden Kort who won the 120-lb Class B State Wrestling Championship and to Landon Weidner who won the 160-lb Class B State Wrestling Championship.

HASTINGS PUBLIC SCHOOLS

BOARD OF EDUCATION

ANNUAL REVIEW OF POLICY

According to Board of Education Policy 205.03, “The Board will review, update, and approve the policy manual annually.” The practice of approving the policy manual, on an annual basis, is also supported by legal counsel. Given both, it is the recommendation of the Superintendent that the Board approves the policy manual as it exists of February 20, 2023, and as it may be modified from time to time by the Board of Education.

DISTRICT INFORMATION

Hastings Senior High School is in Hastings, Nebraska. Hastings is located in a rural setting close to the Platte River in south-central Nebraska. Hastings Senior High is accredited by the State of Nebraska and AdvancEd.

Mission Statement

Our fundamental purpose is to assure all students acquire the knowledge, skills, and behaviors essential to be successful individuals and responsible citizens.

Vision

To attain the Mission of the Hastings Public Schools, the District will have:

- A shared focus on student learning
- An articulated curriculum that provides all students, at a minimum, with essential knowledge, skills, and dispositions
- A balanced assessment system that meets the needs of students, teachers, parents, and policy makers
- A system of intervention and enrichment based on formative assessments
- Adults working together interdependently to improve student learning and instruction/practices
- Appropriate and high expectations for each student and teacher that are based on the premise that ALL students can and will learn at high levels, and will facilitate staff and students having high expectations of themselves to meet their own potential
- A safe, supportive, and healthy learning and teaching environment that celebrates individuals' differences, diversity, growth, and achievement
- An environment where adult learning and growth is continuous and job-embedded in order to provide high quality instruction for every student
- Leadership at every level that is committed to the full implementation of the culture of a professional learning community
- A strong commitment to learning from stakeholder groups (students, staff, parents, and community leaders)

School Goal

Increase rigor and relevance so that every student is college and/or career ready.

Hastings Senior High School does not discriminate on the basis of sex, disability, race, color, religion, veteran status, national or ethnic origin, marital status, pregnancy, childbirth or related medical condition, or other protected status in its programs and activities.

GRADUATION REQUIREMENTS

The following chart shows graduation requirements and college admission requirements. It is important to check with the student's colleges of interest to ensure additional or specific coursework is not required for admission. Five credits are granted for a semester course. Most students will exceed minimum graduation requirements.

	HHS Graduation Requirements	Typical 4-Year University Admission Requirements
ENGLISH	45 credits	40 credits
MATH	30 credits	30 credits UNL requires 40 credits
SCIENCE	30 credits	30 credits
SOCIAL SCIENCE	30 credits	30 credits
PHYSICAL EDUCATION	10 credits	NA
INFORMATION TECHNOLOGY	5 credits	NA
FOREIGN LANGUAGE	NA	Varies with university, 20-40 credits of the same language
PERSONAL FINANCE	5 credits	NA
TOTAL CREDITS	225 CREDITS	

All students will register for courses during the spring semester of each year. The master schedule is built on the basis of student registration requests, teachers, and administration input. Families need to make thoughtful choices at registration, as classes fill quickly and changes later may not be possible.

A drop/add opportunity is held at the beginning of each semester, however changes will be limited to availability of another comparable course and may require administrative approval.

Seniors meeting graduation requirements must register for 25 credits per semester.

Credit is accepted from accredited high schools and accredited homeschooling programs.

Only students who have completed graduation requirements are permitted to participate in commencement exercises.

ACADEMIC RECOGNITIONS & GRADUATION HONORS

Honor Roll

Two Honor Rolls are announced at the end of each semester. The A Honor Roll includes the names of all students carrying courses equivalent to 25+ semester hours for the semester and having a 3.5 grade average or above and no grade lower than a "C." The B Honor Roll includes the names of all students carrying courses equivalent to 25 semester hours for that quarter and

having a 3.0 to 3.49 grade average with no grade lower than a “C.” All subjects are included in this average.

National Honor Society

Membership in the Hastings Chapter of the National Honor Society is based upon scholarship, leadership, service, and character. A faculty council selects members after a student has completed at least three semesters of high school. The minimum requirements for consideration for membership include: 1) an accumulative GPA of 3.80; 2) evidence of at least three service projects in the school, home, church, or community; 3) election or appointment to an office in an organization or membership in two or more organizations which have officers; and 4) possession of a character that reflects honesty, integrity, and concern for others.

National Merit Recognition

The mission of National Merit Scholarship Corporation (NMSC) is to recognize and honor the academically talented students of the United States. NMSC accomplishes its mission by conducting nationwide academic scholarship programs. Qualifications to earn National Merit recognition is based on a student’s performance on the PSAT exam taken during JUNIOR year. Students are notified in the fall of their senior year if they earn a qualifying score. The qualifying score index changes yearly and is state-based. There are two categories awarded: semi-finalist and commended. Semi-finalists continue in the competition, commended do not. Typically, an index score of 200 or better will earn recognition. Sophomores are also encouraged to take the PSAT test as a practice in order to be prepared for junior year when it counts for the competition. See your counselor if you have questions or visit the National Merit website for more information(<http://www.nationalmerit.org/>).

President’s Award for Educational Excellence

Seniors with a 3.5 cumulative GPA after 7 semesters and earning an ACT Reading score of 28 or an ACT Math score of 26 will earn this award at Honors Night in May.

Omaha World Herald Scholars

The Omaha World Herald recognizes students throughout the state for academic achievement. Students with an ACT of 32 or better or an SAT of 2120 or better are nominated for the All-State Academic teams. Students are featured in the OWH in May.

Graduation Honors

The class standing system used will be as follows:

- Summa Cum Laude GPA 4.0 and above (With the Highest Distinction)
- Magna Cum Laude GPA 3.75-3.99 (With Great Distinction)
- Cum Laude GPA 3.50-3.74 (With Distinction)

Return to [TABLE OF CONTENTS](#)

To recognize achievement, honor cords are awarded to seniors based on cumulative GPA--excluding the 2nd semester of the graduating year.

- Orange and black honor cords GPA 4.0 or above
- Orange and white honor cords GPA 3.75-3.99
- Black and white honor cords GPA 3.50-3.74
- National Honor Society collar
Members of NHS are eligible to wear this honor collar.

GPA

A student's GPA shall be calculated by dividing the total grade points achieved (standard and weighted) by the total course credits earned. Weighted grade points will apply to Honors courses.

- Points in regular courses are: A=4; B=3; C=2; D=1; F=0
- Points in honors courses are: A=5; B=4; C=3; D=1; F=0

Academic Letter

Academic letters are awarded every year to those students who receive a GPA of 3.50 or above in the 1st and 2nd semester of the same school year. Students will be recognized in the fall for the prior year's recipients for grades 9-11. Seniors will be honored in the spring of their senior year at Honor's Night.

CAREER AND COLLEGE PLANNING

Post-Secondary Planning Websites

Planning for the future can be overwhelming. The following websites have a multitude of timely information that will be helpful in the planning process.

- **NAVIANCE (see more information below)**
<https://naviance.com>
- <http://www.nebraskacareerconnections.org>: provides education and career planning resources

Return to [TABLE OF CONTENTS](#)

- www.educationquest.org: information on creating a resume, a financial aid estimator, college planning tips, and scholarship searches
- www.actstudent.org: register for the **ACT** test, practice questions, and college planning resources
- www.collegeboard.org: register for the **SAT** test, practice questions, and college planning resources
- www.hastingspublicschools.org: the “Counseling Department” tab will have additional information for parents and students

AP Courses

The College Board’s Advanced Placement (AP) courses are college-level classes in a wide variety of subjects that students can take while still in high school. They offer challenging coursework to give students an idea of what to expect in college. Visit www.apcentral.collegeboard.com for more information on AP courses, tests, and college credit and transferability. If a student is interested in taking an AP exam in a course not offered at HHS, see Ms. Schulte.

Hastings Senior High offers the following AP courses:

- World Literature Honors AP
- European History Honors AP
- American History AP Honors
- Music Theory AP
- Statistics AP Honors
- Chemistry AP
- Biology AP

Dual Enrollment Courses

Please see page 66 for more information.

Naviance

Naviance is a comprehensive website that students and parents can use as a tool in planning for the future. This web-based platform provided by the Hastings Public School district integrates success planning, career planning, college planning, and family engagement tools to help students become college and career ready. This is a free website to students provided by the Hastings Public School district.

Some features to explore are available under the **College, Career, and About Me tabs**:

- “Do What You Are” personality assessment enables students to better understand what college majors or careers best suit their personality types.
- Career Interest Profiler helps students discover the types of work activities and careers that match your interests.
- College Super Match provides comprehensive information on thousands of colleges. Students enter criteria such as size, location, cost, and availability of specific majors and get a list of colleges that meet the criteria.
- Scholarship information is available on Naviance. Seniors should check Naviance weekly for updates on local and regional scholarships.
- Resume Builder will rearrange the student’s information into multiple printable versions that students can use for various purposes.
- Naviance Test Prep program enables students to prepare for the ACT.

Playing Sports in College

College athletic websites have student-athlete questionnaires for interested students to complete during 10th, 11th, or 12th grade. This is a good way for a high school student to communicate interest in being considered for the college’s athletic program.

- **Division I or II**
Students interested in playing at a Division I or II college must register with the NCAA Eligibility Center. Students are encouraged to do so by the end of the junior year but can do it during the senior year. High school coursework, grades, and ACT scores will factor into a student’s

eligibility. Younger students should research the academic requirements needed to qualify for the NCAA Eligibility Center early in high school to assure they are on the right track. Visit www.eligibilitycenter.org for information and to register.

- **Division III or NAIA**

Every student who is interested in playing championship sports at NAIA colleges for the first time need to register and receive an eligibility determination. For more information on NAIA, visit www.playnaia.org.

CollegeStudentAthletes.com is a free college search website for students looking to combine sports and academics at a Division III (D3) college. Visit <http://www.collegestudentathletes.com> for more information.

- **Junior Colleges**

Student-athletes interested in competing at the Junior College level (JUCO) should contact the coach about eligibility to play and rules for future transfer to a college or university. Visit www.njcaa.org for more information.

ART

COURSE TITLE	GRADE	RECOMMENDED PREREQUISITES	COURSE DESCRIPTION
ART FUNDAMENTALS I (2-D Foundations) 5 credits	9-12		This course is designed to give a solid foundation in 2-D design and is the first class a student should take if they are interested in drawing and painting. It is the prerequisite for all beginning 2-D art classes. Beginning students learn the foundation skills of 2-D art (drawing and painting and other applicable media) through the study of art elements (line, shape/form, texture, space, value and color theory)

			and composition as applied to 2-D artwork. Students who want to take additional drawing and painting classes must take this class. Students who want to do both 2-D and 3-D art or who are interested in pursuing art post high school should take both this class and Art Fundamentals II (3-D Foundations).
ART FUNDAMENTALS II (3-D Foundations) 5 credits	9-12		This course is designed to give a solid foundation in 3-D design and is the first class a student should take if they are interested in ceramics and sculpture. It is the prerequisite for all beginning 3-D art classes. Beginning students learn the foundation skills of 3-D art (ceramic, sculpture materials and other 3-D media) through the study of art elements (line, shape/form, texture, space, value and color theory) and composition as applied to 3-D artwork. Students who want to take additional pottery and sculpture classes must take this class. Students who want to do both 2-D and 3-D art or who are interested in pursuing art post high school should take both this class and Art Fundamentals I (2-D Foundations).
DRAWING 5 credits	10-12	Art Fund. I Instructor/Counselor/ Assistant Principal Approval	This course is designed to improve drawing techniques and skills. A variety of media is involved. This class provides an excellent background for other two-dimensional art classes offered.
ADVANCED DRAWING 5 credits--2nd semester only	10-12	Drawing Instructor/Counselor/ Assistant Principal Approval	Students will be provided with an historical background of artists, techniques, and media with an emphasis on the elements and principles of design and the study of composition.
PAINTING 5 credits--1st semester only	11-12	Drawing Instructor/Counselor/ Assistant Principal Approval	This course introduces students to techniques in tempera, acrylic and watercolor painting.
ADVANCED PAINTING 5 credits--2nd semester only	11-12	Painting Instructor/Counselor/ Assistant Principal Approval	Builds on the techniques developed in Painting with additional work in acrylic painting and watercolor techniques.
POTTERY 5 credits	10-12	Art Fund II Instructor/Counselor/ Assistant Principal Approval	Introduces students to a basic understanding of clay, tools, methods of handbuilding and wheel throwing pottery, as well as a variety of decorating and glazing techniques.
ADVANCED POTTERY 5 credits--2nd	10-12	Pottery Instructor/Counselor/ Assistant Principal	This course builds on the advanced techniques developed in Pottery including hand building, wheel thrown techniques, and advanced surface finishes.

semester only		Approval	
NATURAL FIBER ART 5 credits--1st semester only	10-12	Art Fund I or II Instructor/Counselor/ Assistant Principal Approval	Introduces students to a variety of fiber arts such as weaving, paper-making, handmade books, and batik.
SCULPTURE 5 credits	10-12	Art Fund II Instructor/Counselor/ Assistant Principal Approval	This course introduces students to a variety of skills and techniques for creating sculpture in a wide range of media. Design elements are emphasized.
ADVANCED SCULPTURE 5 credits	10-12	Sculpture Instructor/Counselor/ Assistant Principal Approval	This course builds on advanced techniques developed in Sculpture including modeling, casting, construction, and carving. A variety of mediums and techniques are explored.
STUDIO ART 5 credits--2nd semester only	12	Minimum of a beginning and advanced class in the same medium area Instructor/Counselor/ Assistant Principal Approval	Studio Art offers the art student an opportunity for extended study in a particular medium and media of which he/she has taken both beginning and advanced classes prior to this course. Students may be expected to purchase part of their own supplies, depending upon the medium chosen.

*****A \$15 lab fee will be charged for all art classes based on projects chosen.**

BUSINESS

Commented [MOU2]: Will need to add Tiger Vision course to offerings

COURSE TITLE	RECOMMENDED GRADE	PREREQUISITES	COURSE DESCRIPTION
INTRODUCTION TO BUSINESS 10 credits NDE COURSE CODE: 032300	9-12		Students will be provided an opportunity to understand the role of business in today's society. It also provides a basis for further study in business, as well as, offering useful and practical aspects of living for all students. Students will be given hands-on opportunities to work on projects, simulations, decision-making cases, personal finance and banking practices, and technology-research tools. The class is designed to help students become wise consumers, good citizens, and efficient employees while contributing to the development of their total economic understanding.
INTRODUCTION TO WORK-BASED LEARNING 5 credits NDE COURSE CODE: 320101 (NEED TO CHANGE)	11 (1st Sem.)	2 courses within a specific CTE Area	This course is designed to introduce students to the Work-Based Pathway. Students will explore their strengths, skills, and abilities. We will explore all the career fields, practice job-interviewing techniques, and improve their Career Readiness skills. Resumes and cover letters will be developed. The Nebraska Career Education model will be used as a resource.
WORK-BASED LEARNING EXPLORATION 5 credits NDE COURSE CODE: 320101 (NEED TO CHANGE)	11 (2nd Sem.)	Intro to WBL	This course will provide students with the academic, technical and decision-making skills needed to compete successfully in the workforce, at the post-secondary level, and in the global community. Students will research, job shadow, interact with guest speakers in specific Career and Technical Education (CTE) areas of interest to them.
INFORMATION TECHNOLOGY I 5 credits NDE COURSE CODE: 270501	9-12		In today's technological society, it is imperative that all students have knowledge of computers and is a prerequisite for many jobs today. This course provides the student with opportunities to perform basic to advanced operations on the computer. Students will develop skills in word processing and spreadsheets. Graduation requirement.

Commented [MOU3]: Changing World of Work to Intro to WBL

Commented [MOU4]: New WBL course – intermediate level

INFORMATION TECHNOLOGY II 5 credits NDE COURSE CODE: 270502	9-12	Information Technology I	This course builds on the skills taught in Information Technology I and will focus on skill development in advanced spreadsheet, database and utilizing advanced features.
DIGITAL MEDIA 5 Credits NDE COURSE CODE: 270602	10-12	Information Technology I	This course will introduce students to the technical tools and processes used in digital design. Students will create, design, and produce digital media including sound, video, graphics, and text. Students will demonstrate proper use of fair use guidelines. Career opportunities in digital design will be explored.
WEB PAGE DESIGN & DEVELOPMENT 5 credits NDE COURSE CODE: 270706	10-12	Information Technology I	Students will learn how to create web pages by utilizing HTML (HyperText Markup Language) and CSS (Cascading Style Sheets).
ACCOUNTING I 10 credits NDE COURSE CODE: 030300	10-12		Students will study the principles and concepts of double-entry accounting and evaluate various accounting careers. They will perform accounting, both manual and automated, for a service business organized as a proprietorship and for a merchandising business organized as a partnership. Students will complete business simulations that provide them on-the-job experience. They will also gain knowledge about personal financial management. This class is highly recommended for students pursuing a business degree in college.
ACCOUNTING II 10 credits NDE COURSE CODE: 030301	11-12	Accounting I	This course studies advanced principles and concepts of accounting. Students will perform accounting, both manual and automated, for a corporation. Other topics studied will include taxes and the stock market. Students will complete automated business simulations. This course is highly recommended for students pursuing a business degree.

<p>MARKETING/ MARKETING MANAGEMENT 10 credits</p> <p>NDE COURSE CODE: 038100/038101</p>	10-12		<p>This introductory course of the two-year marketing education program is designed to prepare students for vocations in the field of marketing, merchandising, and management in a retail, industrial, or service type business. Emphasis will be placed on salesmanship, advertising, display, job preparation, communications, consumer buying behavior, product planning, distribution, promotion, pricing, and human relations. Membership in DECA (an Association of Marketing Students) is an important part of this class and is highly recommended.</p>
<p>ENTREPRENEURSHIP/ ADVANCED MARKETING 10 credits</p> <p>NDE COURSE CODE: 032370/038200</p>	11-12	Marketing	<p>Students will relate the concepts learned in Marketing and apply them to Internet marketing, international marketing, entrepreneurship and business ownership. First semester will concentrate on entrepreneurship, business ownership and writing a business plan. Second semester will concentrate on international marketing including: how to meet the challenges of culture, political and business differences. Trade barriers, letters of credit, importing, exporting, international economies, financing, social/cultural differences and career opportunities will be explored. Students will experience marketing as it pertains to real life situations. Membership in DECA is an important part of this class and is highly recommended. A business start-up plan is developed during this class that may be used for DECA competition at the state level.</p>
<p>BUSINESS and PERSONAL LAW 10 credits</p> <p>NDE COURSE CODE: 030900</p>	11-12		<p>This course is designed to help students learn about the law and how it is involved in their daily lives. Business and personal law will emphasize the sources of today's laws, and how it affects their lives as minors, employees, consumers, business owners, employers, parents, and citizens.</p>
<p>PERSONAL FINANCE 5 credits</p> <p>NDE COURSE CODE: 033000</p>	11-12		<p>The goal of Personal Finance is to help students to become financially responsible, conscientious members of society. To reach that end, this course develops student understanding and skills in such areas as income, money management, budgeting, financial goal attainment, the wise use of credit, insurance, and investments. Graduation requirement.</p>

ENGLISH

*Semester class

**Teacher recommendation required

ENGLISH

In English 9, English 10, and English 11, Hastings High School offers an honors course in addition to the regular class. A student may register for the level of instruction the student and his/her parent/guardian feel is appropriate.

The Honors courses are challenging and demanding. They prepare students for college-level work. Students who register for an honors course should plan to commit a great deal of time and effort to the course and should have a history of performing well in a demanding English class.

All other English classes should be seen as courses that also prepare students for college, but are not solely college-prep courses. These classes are also appropriate for students who plan to attend a technical school, join a branch of the military service, or pursue some other, similar post-high school experience.

COURSE TITLE	GRADE	RECOMMENDED PREREQUISITES	COURSE DESCRIPTION
ENGLISH 9 10 credits	9		All freshmen must take either this course or English 9H. This course builds on the language and literacy skills introduced in previous years. Students will improve reading and comprehension skills by emphasizing critical thinking. Students study major types of literature, creative and expository writing, grammar and usage, and vocabulary. Literature includes short stories, novels, and drama. Two writing assessments are required. Writing assessments must meet all department requirements.
ENGLISH 9 HONORS 10 credits	9	English 9H is designed for students who have excelled in previous English classes. Students with a 2 or 1 grade should not enroll in English 9 Honors.	This course expands and delves into language and literacy skills. Students will improve reading and comprehension skills by emphasizing critical thinking. Students will analyze major types of literature, write essays in formal styles with the expectation of appropriate grammar and usage, and enhance their academic vocabulary. Literature includes short stories, <i>The Hunger Games</i> , <i>The Tragedy of Romeo and Juliet</i> , and <i>The Unvanquished</i> . Two writing assessments are required. Writing assessments must meet all department requirements. Ultimately, what makes Honors English 9 different from other English 9 courses is that students are expected to do more at a faster pace with a deeper immersion in literature and writing.

COMMUNICATION ARTS 5 credits	10-12		This course is required of all students to be taken during 10th, 11th or 12th grade. This course develops skills in public speaking, interpretation, persuasion, discussion, and other forms of communication. A student who does not present an informative speech and persuasive speech cannot earn credit in Communication Arts. Both speeches must meet all of the process and product requirements set by the teacher, and the student must meet deadlines set by the teacher. Graduation requirement.
COLLEGE COMMUNICATION ARTS 5 credits	11-12		This semester course takes the place of the high school Communication Arts requirement, and is open to juniors and seniors who would like to take it for college credit through Central Community College. Activities are modified for what would be expected in a required college public speaking course. Students will work on their nonverbal and verbal communication skills, plan outlines for speeches, identify different kinds of speeches for different situations, interact with other students in a group setting, experience what it is like to do online communication, understand communication etiquette and cultural diversity when communicating, know the difference between researched informative and persuasive speeches versus conjecture, and be ready for job interviews. Students will do seven to eight speeches and take tests over each unit the speeches cover. Students must have a passing grade for each speech to be considered for college credit. Dual Credit available (CCC)
ENGLISH 10 10 credits	10	English 9	All sophomores must take either this course of English 10 Honors. This course builds on the language and literary skills introduced in previous years. Students will improve reading and comprehension skills by emphasizing critical thinking. Students study major types of literature, creative and expository writing, grammar and usage, and vocabulary. Literature includes short stories, poems, novels, and drama. Three formal writing assessments are required. Papers must meet all department requirements. Students will build an argument using a strong thesis and support.

<p>ENGLISH 10 HONORS 10 credits</p>	<p>10</p>	<p>Instructor Approval</p> <p>Students with a D or F average in English 9 Honors or a C, D, or F average in English 9 should not enroll in English 10 Honors.</p>	<p>All sophomores must take either this course or English 10. English 10 H is designed for students who have excelled in previous English. This course is designed for the student who is a skilled reader that enjoys studying and discussing literature which explores a variety of real world questions. Required literature includes novels, a play, a variety of articles, short stories, poems, and films. Students are expected to read approximately 60 pages per week outside of class. Students will also complete a variety of activities to deepen their level of understanding of the given texts, as well as complete writing and grammar assignments. Students must write at least four formal writing assessments using the writing process focusing on ideas and content, organization, voice and word choice, and sentence fluency and conventions.</p>
<p>ENGLISH 11 10 credits</p>	<p>11</p>	<p>English 10</p>	<p>All juniors must take either this course or English 11 Honors. This course includes a study of representative works in American literature with emphasis on significant themes, literary forms, and historical and cultural heritage. Composition, vocabulary, usage skills, and MLA format will be emphasized. Required literature includes various novels <i>and</i> a survey of Nebraska authors. An intensive study of grammar usage prepares students for the ACT and academic writing. A student must complete at least four formal writing assessments and meet the identified Power Essentials and Targets at the proficient to advanced level.</p>
<p>ENGLISH 11 HONORS 10 credits</p>	<p>11</p>	<p>Instructor Approval</p> <p>Students with a C average in Integrated English 10 Honors or a B average in non-honors English 10 must complete an essay stating their reasons for registering for the honors classes.</p>	<p>All juniors must take either this course or English 11. English 11 Honors is an advanced, college-preparatory class that meets the junior English requirement. Honors English 11 is designed for students who have excelled in previous English classes. Emphasizing American literature, the course is divided into 4 thematic units: Perspectives, Choices, Society, and Relationships. Each unit consists of an anchor novel plus shorter fiction and non-fiction works related to the theme of the unit, including poetry, memoirs, short stories, essays, songs, and media. Students write in several formats including analytical essays, responses to informational text, and presentation scripts. Modern Language Association (MLA) format is reviewed and required. During the study of novels, students will read between 80 and 140 pages of text a week outside of class. In order to receive credit, students must satisfactorily complete two required writing assignments per semester.</p>

ENGLISH 12 10 credits	12	English 11	All seniors must take this course or another senior-level English course. This course is designed to expose the student to a variety of prominent literary works along with the works of modern American authors. Students will write persuasive essays as well as discuss them orally. Students will write a formal research paper using MLA format. The research project must meet all the process and product requirements and deadlines set by the teacher.
English 12/ ENGL 1010 English Composition I (CCC Dual Credit/3 credits) 5 credits-1st semester only	12		The goal of this course is to provide practice in writing clear, coherent, effective essays for multiple purposes and audiences according to commonly accepted standards of usage and mechanics; facilitate the development of ideas and clear insights to provoke critical and creative thinking; offer students opportunities to develop and refine writing skills through peer and self-revision; provide students opportunities to analyze and evaluate writing in order to identify and employ rhetorical strategies; introduce the use of research skills to responsibly evaluate and ethically incorporate information using a standard citation method; introduce strategies for collection and evaluation of information from a variety of sources, to include the use of institutional databases and library resources.
English 12/ENGL 1020 English Composition II (CCC Dual Credit/3 credits) 5 credits-2nd semester only	12	ENGL 1010 English Composition I	The goal of this course is to provide opportunities to expand rhetorical knowledge; emphasize techniques of effective argumentation; promote information literacy; provide practice in reading, thinking, and writing critically; reinforce application of the writing process; expand knowledge of academic writing conventions.
PRACTICAL ENGLISH 10 credits	12	English 11 and teacher recommendation/ placement	All seniors must take this course or another senior-level English course. This course is designed to expose the student to a variety of literary works and modern pieces at a practical pace. Students will practice a variety of writing techniques and receive step-by-step instruction to help them develop practical writing skills. Students will write persuasive essays as well as discuss them orally. Students will write a formal research paper using MLA format. The research project must meet all the process and product requirements and deadlines set by the teacher.

<p>AP WORLD LITERATURE HONORS 10 credits</p>	<p>12</p>	<p>Instructor Approval</p>	<p>All seniors must take this course or another level English class. AP World Literature is an advanced, college-level course. This course fulfills Hastings High's requirement of four years of English along with entry level college English courses 1010 and 1020. English 1010 is a course designed to help students write with clarity, confidence, and conviction through regular practice in writing (including argument and exposition, writing as discovery, and personal exploration). Particular attention will be given to the role of revision in the writing process. This course also includes a study of language and its social roles, with special attention to the origin, development, and current nature of the English language. English 1020 is a course in which students develop their composition skills through reading and writing about literature. The course includes a discussion of multiple genres and of literary works' historical and cultural contexts. Students will develop skills of writing in multiple forms and will learn the skills and terminology appropriate to discussion of literary works in different genres. Students will receive instruction in writing skills such as structuring an argument, using evidence from multiple sources, using conventions appropriately, and refining an essay through revision. This fulfills six general education requirements. This class is also AP English Literature and Composition where students cultivate their understanding of literature through reading and analyzing texts as they explore concepts like character, setting, structure, perspective, figurative language, and literary analysis in the context of literary works.</p> <p>Dual Credit available through Nebraska Wesleyan University.</p>
---	-----------	----------------------------	--

CREATIVE WRITING 5 credits	10-12		This is a writing elective for students who have a wide range of ability and interests. The course is largely an individualized writing course that emphasizes working a writing task using appropriate phases from prewriting to drafting to editing to publishing. Students explore the creative processes professional writers use by choosing topics and types of writing, trying out new techniques and skills, and reflecting on what does and doesn't work in their own writing. Students are responsible for creating a portfolio of their work in various genres during the course.
JOURNALISM 5 credits	9-12		In this introductory course, students study journalistic writing and layout styles. Newspaper, yearbook, advertising, public relations, and computer skills will be emphasized so that students will be capable of assuming leadership roles on the student newspaper and yearbook as upperclassmen. At least once each semester, students may submit materials to the various HHS publications for possible inclusion. THIS COURSE IS NOT TO BE USED TO MEET THE ENGLISH REQUIREMENT.
YEARBOOK PUBLICATION 10 credits	10-12	Beginning journalism, application and interview process or by teacher permission.	Members of this class produce THE TIGER (yearbook). Strong organizational skills, creative and expository writing ability, task commitment, and the ability to deal effectively with the public are required. The students must commit to working outside normal class times. Students must demonstrate strong interview skills-both online and in person. Editorial positions will be assigned according to seniority AND ability of applicants. THIS COURSE IS NOT TO BE USED TO MEET THE ENGLISH REQUIREMENT.
TIGER CUB 10 credits	10-12	Beginning journalism, application and interview process or by teacher permission.	Members of this class are responsible for the publication of the online and print school newspaper. Creative thinking and writing clarity are stressed as well as self-discipline, time management, and group cooperation. Staff positions of an editorial nature will be assigned according to seniority AND ability of the applicant. THIS COURSE IS NOT TO BE USED TO MEET THE ENGLISH REQUIREMENT.

<p>DEBATE: ONE-TO ONE CLASH STYLE 10 credits</p> <p>(See Congress as another option)</p>	9-12	Continued participation must have instructor approval after the first year.	<p>This type of debate is for students who want to be ready for any class in college because college courses require every skill we do. Furthermore, if you want to delve deeper and discuss political, social, global, and moral beliefs and issues, this class is also for you! If you want to be an advocate for change, this will teach you how to do it the right way. Students will learn different competitive styles of debate: one-to-one and partner settings. Topics range from human and civil rights issues, ethics of war, the importance of environmental protection, and conflicts surrounding controversial policies and laws. Research, making cases, speaking skills, and group dynamics are developed and enhanced. Students are required to go to a minimum of one tournament per semester in order to use these skills in a professional setting. There are lots of tournament date opportunities to choose from. The competition season runs from November through March, with most tournaments taking place on Saturdays. Tournaments are held in Lincoln and Omaha allowing for new experiences and connections outside of the traditional learning environment.</p> <p>THIS COURSE IS NOT TO BE USED TO MEET THE ENGLISH REQUIREMENT.</p>
<p>DEBATE: CONGRESS GROUP STYLE 10 credits</p> <p>(See One-to-One Clash as another option)</p>	9-12	Continued participation must have instructor approval after the first year.	<p>This type of debate is for students who want to be ready for any class in college because college courses require every skill we do. If you enjoy problem-solving and want to discuss political and social views in a group setting, this class is for you! Students create and debate over a wide range of policies. Topics cover a variety of domestic and international current events and seek ways to solve them. This course will simulate real-world group meeting procedures when debating issues. Research, making cases, speaking skills, and group dynamics are developed and enhanced. Students are required to go to a minimum of one tournament per semester in order to use these skills in a professional setting. There are lots of tournament date opportunities to choose from. The competition season runs from November through March, with most tournaments taking place on Saturdays. Tournaments are held in Lincoln and Omaha allowing for new experiences and connections outside of the traditional learning environment.</p> <p>THIS COURSE IS NOT TO BE USED TO MEET THE ENGLISH REQUIREMENT.</p>

Commented [MOU5]: Currently offered as Debate Exploration – change of name & description:

This type of debate is for students who want to delve deeper and examine political, social, global, and moral issues. Students learn different competitive styles of debate: one-on-one, team, and group discussion settings. Topics range from rights violations, ethics of war, the importance of environmental protection, and conflicts surrounding political ideologies. Students interested in law enforcement, politics, education, community involvement, and general public speaking will be greatly benefited by this course. Extensive research, speaking skills, and group dynamics are stressed. **Students are required to go to a minimum of one tournament per semester.** The competition season runs from November through March, with most tournaments taking place on Saturdays. **THIS COURSE IS NOT TO BE USED TO MEET THE ENGLISH REQUIREMENT.**

Commented [MOU6]: Currently offered as Congress Style – change of name & description:

This type of debate is for students who enjoy problem-solving and want to discuss political views in a group discussion social setting. Students create and debate over a wide range of legislation policies. Topics cover a variety of issues to include, but not limited to, gun control, immigration, global warming, abortion, animal testing, gender and sexuality roles. They will simulate real-world meeting procedures when debating issues. Students interested in law enforcement, politics, education, community involvement, and general public speaking will be greatly benefited by this course. Extensive research, speaking skills, and group dynamics are stressed. Students compete in a group of 15 to 30 debaters from other schools in a mock congress session. A typical competitive day has three or four sessions, lasting between one and two hours each. The competition season runs from November through March, with most tournaments taking place on Saturdays. **Students are required to go to a minimum of one tournament per semester.**

THIS COURSE IS NOT TO BE USED TO MEET THE ENGLISH REQUIREMENT.

THEATRE I 5 credits	9-12		<p>In this course, through improvisational scene work, theater games, class exercises, scene work, discussions, readings, lecture/ demonstrations and storytelling, students will develop their ability to act and interact freely and perceptively. Students will have the opportunity to perform short scenes, will discover how to become more aware of their environment, and how to be supportive of others. Students will also have the opportunity to study theatre history, different aspects of design and the other behind the scenes work that goes into creating a theatre production. Beyond that, however, the class will provide students the opportunity to strengthen those powers of concentration, focus, analysis, imagination, creativity, and empathy that are critical to every art form.</p> <p>THIS COURSE IS NOT TO BE USED TO MEET THE ENGLISH REQUIREMENT.</p>
THEATRE II 5 credits--2nd semester only	9-12	A or B in Theatre I or teacher permission	<p>This course continues the work that began in Theatre I. The specific focus of the course will be on helping students to connect more deeply and truthfully with each other on stage, freeing up the body of the actor to fulfill the physical demands of characterization, and analyzing the dramatic text to clarify objectives and focus action through unit breakdown. Attention will also be given to helping students work through specific problems and personal, creative obstacles.</p> <p>THIS COURSE IS NOT TO BE USED TO MEET THE ENGLISH REQUIREMENT.</p>
STAGECRAFT 5 credits	9-12	Theatre I or Basic Cabinetry (completed or concurrently) or teacher permission	<p>The purpose of this course is to introduce students to various aspects of technical theatre, the "behind the scenes" work that goes into a theatrical production. Students experience both practical work in the scene shop as well as vocabulary, history, and theory in a classroom environment. Students must pass a safety test to participate in the class.</p> <p>THIS COURSE IS NOT TO BE USED TO MEET THE ENGLISH REQUIREMENT.</p>

ENGLISH LEARNERS (EL) PROGRAM

COURSE TITLE	GRADE	RECOMMENDED PREREQUISITES	COURSE DESCRIPTION
ENGLISH LEARNER-EMERGING 10 credits	9-12	Eligible for English Learner Services	Students will acquire English language skills to communicate with English speakers. Initial instruction focuses on listening and speaking while reading and writing skills are developed simultaneously as the student comprehends and speaks more English. The course is designed for students identified as English Learners (ELs) at the beginning levels of English proficiency. The curriculum covers five skill areas: listening, speaking, reading, writing and cultural enrichment. The ultimate goal for the EL student is to gain academic English proficiency and take a full mainstream schedule without the need for EL support.
ENGLISH LEARNER-PROGRESSING 10 credits	9-12	Eligible for English Learner Services	Students will read a variety of texts for various purposes with an increasing level of comprehension, and will write in a variety of forms with increasing accuracy to address a specific purpose and audience in English language arts as well as all content areas. The course enables EL students at the intermediate level of English acquisition to continue to increase and refine communication skills. The curriculum covers five skill areas: listening, speaking, reading, writing and cultural enrichment. The ultimate goal for the EL student is to gain academic English proficiency and take a full mainstream schedule without the need for EL support.
ENGLISH LEARNER-ADVANCED 10 credits	9-12	Eligible for English Learner Services	Students will build upon skills developed in the EL – Progressing class. The course enables EL students at the advanced level of English acquisition to continue to increase and refine communication skills. Extension of language proficiencies and critical thinking skills is emphasized. The curriculum covers five skill areas: listening, speaking, reading, writing and cultural enrichment. The ultimate goal for the EL student is to gain academic English proficiency and take a full mainstream schedule without the need for EL support.

FAMILY and CONSUMER SCIENCES

CHILD, YOUTH, AND FAMILY STUDIES PROGRAM OF STUDY

FAMILY and CONSUMER SCIENCES

COURSE TITLE	GRADE	RECOMMENDED PREREQUISITES	COURSE DESCRIPTION
INTRODUCTION TO FAMILY & CONSUMER SCIENCES (FCS) 5 credits NDE COURSE CODE: 090101	9-12		This introductory course is intended to provide a basic overview of all areas within Family and Consumer Sciences. Basic knowledge and career skills that are applicable to personal growth and career development will be covered. Additional course topics include: leadership, communication, child development, mental health, nutrition and food preparation, clothing and interior design, and personal finance. \$15 lab fee is required. <i>Program(s) of study to which the course applies:</i> <ul style="list-style-type: none"> • Child Youth and Family Studies • Nutrition and Wellness • Design
HEALTH SCIENCE I 5 credits--1st semester only NDE COURSE CODE: 077300	11-12		Health Science I is designed to give an overview of the therapeutic, diagnostic, support services, biotechnology & research and health informatics pathways. The course focuses on health careers, exploration, leadership development, medical terminology, ethical and legal responsibilities, the history of health care and the economics of health care. <i>Program(s) of study to which the course applies:</i> <ul style="list-style-type: none"> • Health Science

Commented [MOU7]: Currently offered, Grades 11 & 12 can take this course (was limited to 9-10), slight change to the description:

This course is intended to enable students to have experiences to provide an overview and fundamental knowledge and essential skills of Human Science. The essentials for the course include: exploring housing and interior design, the textile industry, child development and care, and human food, nutrition, and wellness. **\$15 lab fee is required.**

Program(s) of study to which the course applies:

- Child Youth and Family Studies
- Nutrition and Wellness
- Design

<p>FUNDAMENTALS OF NUTRITION & CULINARY ESSENTIALS 5 credits--1st semester only</p> <p>NDE COURSE CODE: 090107</p>	10-12		<p>This introductory course provides students with foundational knowledge and skills in food preparation and nutritional planning. Topics covered include career exploration, global food systems, six essential nutrients, dietary recommendations, kitchen and food safety and sanitation, food preparation skills, and meal planning concepts. \$15 lab fee required.</p> <p><i>Program(s) of study to which the course applies:</i></p> <ul style="list-style-type: none"> • Nutrition and Wellness • Food Science
<p>FOOD SCIENCE 5 Credits</p> <p>NDE COURSE CODE: 090113</p>	10-12	Fundamentals of Nutrition & Culinary Essentials	<p>This capstone course focuses on food science and the food science industry building on concepts from the introductory and intermediate courses. Topics of study include food science history and career opportunities, evaluation of the six essential nutrients, role of science and technology in food products, and food development, production, and marketing. Food safety will also be reinforced in this course through hands-on learning opportunities. \$15 lab fee required.</p> <p><i>Program(s) of study to which the course applies:</i></p> <ul style="list-style-type: none"> • Food Science
<p>NUTRITION 5 credits--2nd semester only</p> <p>NDE COURSE CODE: 090124</p>	10-12	Fundamentals of Nutrition & Culinary Essentials	<p>This intermediate course provides students with an introduction to the science of nutrition building on concepts from the introductory course. Topics covered include careers in nutrition, digestion and metabolism, functions of the six essential nutrients, nutrient recommendations, diets, meal planning, creating accommodations for consumers, and impacts of the national food system on production and consumerism. Food safety will also be reinforced in this course through hands-on learning opportunities.</p> <p><i>Program(s) of study to which the course applies:</i></p> <ul style="list-style-type: none"> • Nutrition and Wellness

Commented [MOU8]: Currently offered, change to the description to address standards/topics (more specific):

This course is designed to provide students with the base foundation knowledge of food selection and preparation needed to successfully fuel the human body through consumption of food and resulting food energy. With a beginning foundation of nutrition students will learn basic preparation skills and the short-term and long-term wellness consequences as a result of nutritional intake, and exposure to careers related to the food industry. **\$15 lab fee required.**

Program(s) of study to which the course applies:

- Nutrition and Wellness
- Food Science

Commented [MOU9]: Currently offered, identified as a capstone course in the Food Science Program of Study, changed description to address standards/topics:

Food Science includes instruction that provides students with an understanding of the food science industry, food packaging/labeling, sensory evaluation of foods, marketing food products, constituents of foods, nutritive aspects of foods constituents, operation of food industry, food microbiology, food processing and food science applications, and exposure to careers related to food science. Students will participate in hands-on foods labs an average of once per week. **\$15 lab fee required.**

Program(s) of study to which the course applies:

- Food Science

Commented [MOU10]: Currently offered, identified as the 2nd course in the Nutrition & Wellness Program of Study, change to description to address standards/topics:

In this course, students develop a deeper understanding of nutrition concepts including reading food labels, analyzing dieting practices including eating disorders, impacts on food consumption and food choices, as well as the role of government nutrition programs. Classroom, laboratory and educational leadership activities are supplemented through SkillsUSA. **\$15 lab fee required.**

Program(s) of study to which the course applies:

- Nutrition and Wellness

INTRODUCTION TO DESIGN 5 credits NDE COURSE CODE: 090126	9-12		Students explore the definition and application of elements and principles of design in living spaces, clothing, and textiles. In this course, students will also evaluate the use of elements and principles to suggest improvements. Students are also exposed to career opportunities and the skills necessary for these career fields. \$15 lab fee required.
APPAREL PRODUCTION & CONSTRUCTION 5 credits NDE COURSE CODE: 090103	10-12	Introduction to Design	<p>This intermediate course provides an understanding of garment and apparel construction building on concepts from the introductory course. Topics covered will include career exploration, textile and apparel design, creation, alteration, selection, and maintenance. This course integrates knowledge, skills, technology, and practices required for careers in the apparel and textiles industry. \$15 lab fee required/+project materials.</p> <p><i>Program(s) of study to which the course applies:</i></p> <ul style="list-style-type: none"> • Design Pathway
FASHION DESIGN 5 credits NDE COURSE CODE: 090206	10-12	Introduction to Design	<p>This intermediate course explores skills needed for the evolving field of the fashion and apparel industry building on concepts from the introductory course. Topics covered include examining fashion history, fashion trends, distinguishing characteristics of garments, career opportunities, and business principles. The design process will be practiced from fashion concept to implementation through the use of technology.</p> <p><i>Program(s) of study to which the course applies:</i></p> <ul style="list-style-type: none"> • Design Pathway

Commented [MOU11]: Currently offered, identifies it as the 2nd course in the Design Pathway, change to course description to address standards/topics:

This course provides instruction in social, psychological and historical aspects of clothing and textiles. Textile and apparel design, selection, construction, maintenance and alteration of textile products will be analyzed and taught. This course integrates knowledge, skills, and practices required for careers in textiles and scientific research. **\$15 lab fee required/+project materials.**

Program(s) of study to which the course applies:
Design Pathway

Commented [MOU12]: Currently offered, identifies it as a 2nd course in the Design Pathway, change to course description to address standards/topics:

Fashion Design explores the evolving field of the clothing we wear and why we wear it. Students will examine fashion design through historical and current frameworks, consider the process of a design from concept to consumer purchase, and identify key components of fashion pieces that distinguish it from others.

Program(s) of study to which the course applies:
Design Pathway

<p>PARENTS AND FAMILIES 5 credits</p> <p>NDE COURSE CODE: 090117</p>	10-12		<p>Students will evaluate the effects of parenting roles and responsibilities on the well-being of individuals and families. In this course students will explain the following influences on parenting parenting, decisions to parent, support services for parents, positive actions to support the physical, emotional, intellectual, and social development of family members, parenting theories, and family adjustment to parenthood.</p> <p><i>Program(s) of study to which the course applies:</i></p> <ul style="list-style-type: none"> • <i>Child, Youth, and Family Studies Pathway</i>
<p>CHILD DEVELOPMENT 5 credits</p> <p>NDE COURSE CODE: 090119</p>	10-12		<p>This course integrates knowledge, skills and practices necessary for nurturing the growth and development of children. The study of the physical, emotional, social, and intellectual aspects related to prenatal through age 12 will be studied in addition to the positive and negative factors that impact child growth and development.</p> <p><i>Program(s) of study to which the course applies:</i></p> <ul style="list-style-type: none"> • <i>Early Childhood Education and Services</i>
<p>HOUSING & INTERIOR DESIGN 5 credits</p> <p>NDE COURSE CODE: 090109</p>	10-12	Introduction to Design	<p>This course provides instruction in the physical, physiological and social influences of housing styles and options; exterior and interior design; selection, use and care of home furnishings and equipment; use of available resources for achieving improved living space to meet individual and family needs; and exposure to careers related to housing and interior design.</p> <p><i>Program(s) of study to which the course applies:</i></p> <ul style="list-style-type: none"> • <i>Design Pathway</i>
<p>INTERPERSONAL RELATIONSHIPS 5 credits</p> <p>NDE COURSE CODE: 090116</p>	10-12		<p>The course includes the study of interpersonal relationships and the effect of these relationships on the wellbeing of individuals, families, work and society. The course includes concepts such as effective communication, establishing and maintaining relationships, diverse family systems, characteristics of personal development and the impact of relationships on personal and career success.</p> <p><i>Program(s) of study to which the course applies:</i></p>

			<ul style="list-style-type: none"> • <i>Child, Youth, and Family Studies Pathway</i>
MEDICAL TERMINOLOGY 5 credits NDE COURSE CODE: 077600	11-12		<p>This course is designed to help students learn medical language by analyzing their components. The primary focus is on developing both oral and written skills in the language used to communicate within health care professions. This is a fundamental course for students who are pursuing a career in the healthcare profession. It is the basic language required for all areas of health science and is required for any healthcare profession beginning with entry-level staff.</p> <p><i>Program(s) of study to which the course applies:</i></p> <ul style="list-style-type: none"> • <i>Health Science</i>

JAG - Jobs for America's Graduates

<p>BEGINNING JAG 10 credits</p>	<p>11-12</p>	<p>Instructor approval</p>	<p>Beginning Jobs for America's Graduates (JAG) works on introducing how to design a plan for your future. Learn to develop leadership skills, life skills and job skills. Hear from guest speakers and take tours of companies in the Hastings community. Help to build and implement the Hastings Career Association. Participate in hands-on activities, teamwork, project-based learning, and attend conferences. At the completion of the year, students are encouraged to enroll for Advanced JAG.</p>
<p>ADVANCED JAG 10 credits</p>	<p>12</p>	<p>Beginning JAG</p>	<p>Advanced Jobs for America's Graduates (JAG) will continue to build on life and job skills. There will be a greater emphasis on developing a step-by-step plan for your future, making achievable goals, filling out college applications, and applying for scholarships. Students will have a chance to set up on the job training, job shadowing and internships. Students will continue to participate in hands-on activities, teamwork, project-based learning, the Career Association, and attending conferences. There will be an added component of financial literacy and an understanding of being financially competent in today's world.</p>

Note: JAG-NE is a multi-year program that includes one year of follow-up upon graduation.

MATHEMATICS

MATHEMATICS

Commented [MOU13]: Will need to add Nebraska Math Readiness Project course

COURSE TITLE	GRADE	RECOMMENDED PREREQUISITES	COURSE DESCRIPTION
ALGEBRA I 10 credits	9-12	Pre-Algebra	Algebra 1 is an entry-level course for students to complete the first year of high school mathematics. It is also required for admission to most four-year colleges. Topics include the following: real number operations, simplifying expressions, solving and graphing linear equations and linear inequalities, systems of linear equations and linear inequalities, polynomials; exponential equations, probability, and real life applications of algebra.
GEOMETRY 10 Credits	9-12	Algebra I	Students discover the geometric concepts of coordinate geometry, transformations, congruent and similar triangles, polygons, circles, and right triangle trigonometry, surface area and volume.
GEOMETRY HONORS 10 credits	9-11	Algebra I and teacher recommendation	Geometry Honors is a rigorous math course for highly motivated students interested in mathematics and planning to take Algebra 2-Trigonometry Honors. This course uses inductive and deductive reasoning to describe the world geometrically. Emphasis will be on spatial visualization, algebra-geometry relationships, surface area, volume, and right triangle trigonometry along with an introduction to proofs. This course is designed to move at a rapid pace with more discovery and depth.
ALGEBRA II 10 credits	10-12	Algebra I and Geometry, OR Geometry Standards	This course is a continuation of Algebra 1. Topics include the following: linear and quadratic functions; systems of equations; complex numbers; polynomials; rational functions; exponential and logarithmic functions; probability and statistics.
ALGEBRA II-TRIGONOMETRY HONORS 10 credits	10-12	Geometry Honors and teacher recommendation	Algebra 2/Trigonometry Honors is an accelerated math course for highly motivated students interested in mathematics. Topics include the following: linear and quadratic functions; systems of equations and inequalities; polynomials; exponential and logarithmic functions; rational functions; trigonometric ratios, and solving equations.
TRIGONOMETRY 5 credits	11-12	Algebra 2	Trigonometry is a semester course. Topics include Pythagorean relationships, functions and their graphs, trigonometric functions, right triangle trigonometry, angles of rotation and radian measure, graphs of trigonometric functions, and trigonometric formulas and identities.
PROBABILITY AND STATISTICS 5 credits	11-12	Algebra 2	This course is an introductory class that presents statistical methods of analysis, data collection, and the theories of probability and chance. Applications to

			natural occurrence and to games are studied and practiced. This course is recommended for students planning on taking higher-level math in a college setting.
AP STATISTICS HONORS 10 credits	11-12	Algebra-Trig Honors or Algebra 2 with teacher recommendation	AP Statistics is equivalent to a one-semester, introductory, non-calculus based college course in statistics. The course introduces students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. There are four themes in the AP Statistics course: exploring data, sampling and experimentation, anticipating patterns, and statistical inference. Students use technology, investigations, problem solving, and writing as they build conceptual understanding.
PRE-CALCULUS HONORS 10 credits	11-12	Algebra-Trig Honors, Trigonometry, or Algebra 2 with teacher recommendation	The Pre-Calculus Honors course builds a solid foundation of advanced mathematics skills and concepts and is a preparation for calculus. Topics studied are graphs and applications of the following functions: trigonometric, exponential, logarithmic, polynomial and rational functions. Combinatorics, probability and advanced algebra are also studied.
AP CALCULUS AB 10 credits	12	Pre-Calculus Honors or permission of instructor	This is a course for students who are planning to take calculus at the college level and/or pursue a career in a mathematics-related field. The student will be able to apply the properties of functions and limits, determine derivatives, antiderivatives, and definite integrals. They will then use derivatives and integrals in applications. Students may take the advanced placement (AB Version) exam in the spring or receive college credit from Nebraska Wesleyan University. Dual Credit available (NWU)

MUSIC

*Audition or instructor approval

**Prior enrollment in an HHS band, orchestra, or choir class.

MUSIC

COURSE TITLE	GRADE	RECOMMENDED PREREQUISITES	COURSE DESCRIPTION
Tiger Singers 5 Credits NDE COURSE CODE: 120450	11-12	Application/ Audition or instructor approval	This is an auditioned varsity-level mixed ensemble of singers who have a strong desire to sing high-level pop and classical music. Tiger Singers will be rehearsed with the highest expectations and will mainly be composed of juniors and seniors.
BEL CANTO 10 credits NDE COURSE CODE: 120450	10-12	Audition Only (Auditions are held in the spring for the following school year)	This is an auditioned, mid-level, treble ensemble of singers/dancers who have a strong desire to perform a variety of music genres. This ensemble will perform show choir literature during the second and third quarters. Due to the preparation required to combine music and visual elements into a high level product, this group is held to the highest standards in the vocal program. This high energy ensemble will additionally meet outside of school once per week, and will travel 5-7 weekends in the spring for competitions.
CONCERT CHOIR 10 Credits NDE COURSE CODE: 120400	9-12		This is a mixed ensemble of 50+ singers who have a desire to sing a variety of choral music. This ensemble enjoys singing as ambassadors of music to the community of Hastings. Concert Choir will be rehearsed with high expectations and will be composed of students from all grades.
MADRIGAL SINGERS 10 Credits NDE COURSE CODE: 120450	10-12	Audition or instructor approval	This is an auditioned varsity-level mixed large ensemble of 16 singers who have a strong desire to sing high-level chamber and madrigal music. Madrigal Singers will be rehearsed with highest expectations and will mainly be composed of juniors and seniors.
SHOW CHOIR NDE COURSE CODE: 120400	9-12	Audition Only (Auditions are held in the spring for the following school year)	This is an auditioned mixed ensemble of singers & dancers who have a strong desire to perform Broadway and pop music. Due to the preparation required to combine music and visual elements into a high level product, this group is held to the highest standards in the vocal program. This high energy ensemble will meet entirely outside of school and will travel 5-7 weekends in the spring for competitions.

Commented [MOU14]: New course for 11th-12th grade, additional vocal opportunities for students

Commented [MOU15]: Currently offered course, changes to description to provide more specific information:

This is an auditioned mid-level treble ensemble of 16 singers who have a strong desire to sing a variety of choral music. Bel Canto will be an excellent ensemble that prepares students to step confidently into the other choirs offered in the department.

Commented [MOU16]: Replacing Chamber Choir to provide more opportunities to students (allows more students & includes 9th gr):

This is an auditioned varsity-level mixed ensemble of 40 singers who have a strong desire to sing a variety of choral music. This high energy ensemble enjoys singing as ambassadors of music to the community of Hastings. Chamber Choir will be rehearsed with high expectations and will mainly be composed of juniors and seniors

STRING ORCHESTRA 10 credits	9-12		Open to all string players, this group constitutes the core of the high school program with the focus on furthering the student's instrumental technique and exposure to literature as well as knowledge of ear training and music theory. This class provides the most vital experience for the high school orchestra member. Students present at minimum two concerts, participate in the District Music Contest, and are eligible to try out for the Nebraska Music Educators Clinic Orchestra and other honor orchestras.
FULL ORCHESTRA 5 credits/year	9-12	Students should be also enrolled in String or Chamber Orchestra, but this is not mandatory.	Membership to this group is open to all string players. This group meets twice per week (Tuesday and Thursday) at 7:00 a.m., after the conclusion of marching band season. Brass, woodwind, and percussion players are chosen by the band and orchestra directors. These members are eligible to participate in all the activities and programs listed for String Orchestra.
CHAMBER ORCHESTRA 10 credits/year	10-12	Audition & Instructor Permission	Our top performing string ensemble, Chamber Orchestra is a small auditioned string ensemble that focuses on standard string orchestra repertoire and high-level individual technical development. There are high performance expectations, as the group will serve as musical ambassadors to our community. Students are encouraged to audition for the NMEA All-State Orchestra and will have opportunities to perform in concerts, adjudicated events, honor orchestras, and in solo, chamber, and large ensemble formats.

Band Students who, by required audition, *do not or cannot meet the most minimal standards and requirements* for entry into the High School Band, should consider other electives.

Band by yearly audition, will be divided into the Concert Band and Symphonic Band classes:

SYMPHONIC BAND 10 credits	9-12	Audition or permission of instructor	This ensemble is the top-performing ensemble in the program, and enrollment in this ensemble is by instructor permission based on individual student auditions. This ensemble plays a wide variety of classical and contemporary wind band literature. The music performed in this ensemble is designed to enhance the overall musical experience of students who demonstrate an advanced level of musical proficiency. The Symphonic Band performs several concerts for the public beginning late in the fall season.
CONCERT BAND 10 credits	9-12	Audition or permission of instructor	Concert Band is open to any wind or percussion player wishing to enhance their musical skills. This ensemble plays a wide variety of classical and contemporary wind band literature. The music performed in this ensemble is designed to enhance the musical ability of all students enrolled in the course. The Concert Band performs several concerts for the public beginning late in the fall season.
MARCHING BAND	9-12		This course involves all wind and percussion players in the program, as well as those persons who audition successfully into the Colorguard. The Marching Band provides exposure to styles of music not normally associated with any other performing ensemble. This ensemble performs in parades, marching contests, and selected home football games throughout the Fall season. Due to the involvement of every student in the program, and the preparation required to combine musical and visual elements into a high level product, time as a group and as an individual outside of the normal school day is necessary.
JAZZ BAND 5 credits/year	9-12	Audition or permission of instructor	This ensemble is an advanced, enrichment course that explores those styles of music not normally associated with the concert or marching bands. Students will trace the jazz influence on all forms of music, with added emphasis on music of the "Big Band Era." The focus of this ensemble will be on jazz styles, and skills needed for jazz improvisation. This class meets during period 1 Monday, Wednesday, and Friday beginning second quarter.
SMALL GROUPS AND SPECIAL			These ensembles include the study of solo literature, chamber music ensembles, and small visual

PERFORMING ENSEMBLES			performing ensembles. These include woodwind ensembles, brass ensembles, small jazz combos, percussion ensembles, Winterguard, and Winter Drumline. Elements of music are approached with increasing difficulty and this presents challenging, interesting, and enriching opportunities. Solo and group contests provide opportunities for students to receive constructive criticism geared toward providing suggestions for musical growth.
AP MUSIC THEORY 10 credits	11-12	Must have prior enrollment in an HHS band, orchestra, or choir class/or equivalent transfer experience.	This is a rigorous academic course focused on the written and aural aspects of music. Students in this class will study the fundamentals of written music as they apply to composition, performance, and analysis. Students will be able to understand the construction of a variety of harmonic structures and common musical forms, develop aural skills as they apply to musical competency, and create music in several traditional musical styles. Students who wish may decide to take the College Board Advanced Placement Music Theory Exam, for which this course should prepare them. Students should be able to read traditional musical notation in at least one clef, and should also have an understanding of basic musical fundamentals gained through either performance-based courses or through private study. Enrollment is limited to juniors and seniors. AP credit available

PHYSICAL EDUCATION

*Semester class

**Instructor Approval (year long class)

PHYSICAL EDUCATION

COURSE TITLE	GRADE	RECOMMENDED PREREQUISITES	COURSE DESCRIPTION
PHYSICAL EDUCATION I 5 credits	9-10		This class is intended to teach the student concepts of fitness, strength training, and health which will enable them to develop healthy lifestyle habits. Fitness/cardiovascular activities and strength training/flexibility will be graded on cooperation, attendance, participation, and effort. The health section will be graded on projects and participation. Meets PE Graduation requirement
PHYSICAL EDUCATION II <i>(recreation/sports & general fitness)</i> 5 credits	10-12	Physical Education I	This course will allow the student to build a foundation of recreational sports and develop a healthy level of cardiovascular fitness, flexibility, and strength. Meets PE graduation requirement
LIFETIME FITNESS 5 credits	10-12	Physical Education I	This course is intended for students that are looking to exercise on a regular basis but don't want to be in the typical weight room atmosphere. Will offer different methods and routines to stay fit throughout a lifetime. A variety of programs and styles of fitness will be utilized throughout the semester. Meets PE graduation requirement
LIFE SPORTS 5 Credits	11-12	Must pass two of the following: -PE I -PE II -Lifetime Fitness -Sports Performance	This class is intended to emphasize the value of lifelong participation in sports. Students will be introduced to rules, regulations, and sports strategies from a wide variety of activities that can be done in his/her leisure time.
SPORTS PERFORMANCE 10 credits	9-12	Take part in a summer weight lifting program by Hastings High School and/or have approval from the instructor. Students must also maintain a grade of C or above to enroll in this class.	This course is for student-athletes who are serious about physical conditioning and strength training. This class is not for those students with a casual interest in improving their strength and movement abilities. This class is designed for those who aggressively seek improvement in balance, strength development, agility, quickness, speed and flexibility. It includes an overview of the physiological basis for strength and movement improvement and emphasizes safety. Students will be expected to follow the lifting program utilized by Hastings High School, attend class regularly, and demonstrate a commitment to physically improving their body.

Commented [MOU17]: Currently offered course, changed to address grade requirements

READING

*Must be eligible to receive Reading support, placement is based on HMH Reading Inventory assessment scores.

OR

READING

COURSE TITLE	GRADE	RECOMMENDED PREREQUISITES	COURSE DESCRIPTION
Reading I 10 credits	9-12	Eligible to receive Reading support, placement is based on HMH Reading Inventory assessment scores	In this course students will follow the Corrective Reading program to improve general reading skills. The course is designed to develop reading strategies for sounding out words and applying those strategies in context. Students will build fluency and comprehension by reading stories of increasing length and difficulty. Students will also learn new vocabulary words and read a variety of text that prepares them to read in all content areas. Depending on program placement, students will individually navigate through up to four levels of decoding instruction. Additionally, students will be introduced to a variety of reading materials and be able to choose books at their reading level to read independently.
Reading II 10 credits	9-12	Eligible to receive Reading support, placement is based on HMH Reading Inventory assessment scores	This is a continuation of Reading I and students will follow the Corrective Reading program to improve general reading skills. The course is designed to develop reading strategies for sounding out words and applying those strategies in context. Students will build fluency and comprehension by reading stories of increasing length and difficulty. Students will also learn new vocabulary words and read a variety of text that prepares them to read in all content areas. Depending on program placement, students will individually navigate through up to four levels of decoding instruction. Additionally, students will be introduced to a variety of reading materials and be able to choose books at their reading level to read independently.

SCIENCE

*Teacher recommendation required

SCIENCE

COURSE TITLE	GRADE	RECOMMENDED PREREQUISITES	COURSE DESCRIPTION
PHYSICAL SCIENCE 10 credits	9		This course covers motion, force, energy, and the composition and interactions of matter in the scale of a microscopic (atoms and molecules) to macroscopic (Newton's Laws of Motion). Key topics include units of measurement, kinematics, energy, light, states of matter, the Periodic Table and chemical reactions. This course is a prerequisite and lays the foundation needed to succeed in Biology, Chemistry, Physics, and Anatomy Physiology.
PHYSICAL SCIENCE HONORS 10 credits	9	Previous or concurrent enrollment in Algebra I, teacher recommendation	This activity and laboratory-centered course will provide a fundamental background for the future honor science courses. Thinking and learning by doing is stressed throughout the course. Topics from the Physical Science description are covered in more depth. A student who has a good interest in science and plans to take many of the science courses at Hastings High School should take this course.
BIOLOGY 10 credits	10-12	Physical Science	Biology is a study of living things. Areas studied include the cell, cell functions, body systems, ecology, evolution, and inheritance. Students will gain an understanding of life processes and the interdependence that exists within ecosystems. The approach is laboratory oriented.
BIOLOGY HONORS 10 credits	10-12	Physical Science Honors, Algebra I, teacher recommendation	Honors Biology will use the NGSS standards to guide through a solid college preparatory curriculum. Students will spend some time on the foundations of Biology (Chemistry/Biochemistry) followed by an intense study of the biology of the cell. Students will be engaged in lab experience focusing on inheritance patterns and biotechnology. Evolution and Ecology will be studied as well. A little faster but more in-depth approach is taken by the honors students. Students can expect homework and lab write-ups to be a part of this class.
AP BIOLOGY 10 credits	11-12	Biology, Chemistry	AP Biology is an introductory college-level biology course. Students cultivate their understanding of biology through inquiry-based investigations as they explore the following topics: evolution, cellular processes, energy and communication, genetics, information transfer, ecology, and interactions.

HUMAN ANATOMY/ PHYSIOLOGY 10 credits	11-12	Biology	Human Anatomy/Physiology will be devoted to studying the 11 major systems of the body. Other topics covered will include the chemical basis of life, cells, tissues, and an introduction to medical terminology. This course will provide students an excellent introduction to body structure, function, and terminology.
HONORS HUMAN ANATOMY/ PHYSIOLOGY 10 credits	11-12	Biology Honors recommended or instructor approval-- also , prefer that either Chemistry or Chemistry Honors has been taken previously or concurrently enrolled	This course is an accelerated class in Human Anatomy and Physiology that focuses on understanding the structure and function of the human body. During our class, we will explore each of the 11 human body systems, the components and the interdependence of each system to form an organism. In addition to the regular curriculum, the students are required to do a semester project, practicals, and create a Manikin. This course should prepare students for the Biology Majors in college.
PHYSICS 10 credits	11-12	Algebra I or equivalent and Physical Science and concurrently enrolled in Geometry	Physics is the science that deals with matter and energy and the interaction between the two. It forms the foundation of all the other sciences. This course is designed to give the student a general overview of the many fields of physics including: motion and forces, mechanical energy, thermodynamics, fluid mechanics, waves, acoustics, optics, and electricity and magnetism. Students will be exposed to these ideas through various avenues including demonstrations, experiments, classroom discussions, and practice exercises. This course will challenge the students through higher level thinking processes. Students who have a general interest in science or who are preparing for college should take this course.
PHYSICS HONORS 10 credits	11-12	"C" average or higher in Physical Science Honors, and students should have completed or be concurrently enrolled in Algebra/Trig Honors or Pre-Calculus	Physics is the basis for all other sciences. This course is recommended for students who intend to pursue a science related field in post-secondary education or who appreciate the connection between science and math. Students registering for physics should possess strong algebra skills. The class is highly lab oriented. Students will be required to perform experiments, make and interpret graphs, discover and apply principles, and develop problem-solving skills. Dual credit available (NWU)
CHEMISTRY 10 credits	11-12	Physical Science/Biology/Algebra II (may be currently enrolled)	This course is recommended for students interested in going to college. Approximately 15 chapters including topics on methods, atomic structure, periodic law, chemical composition, gas laws and mass to mole relationships will be covered. There will be at least one demonstration or lab activity with each chapter designed to use the scientific methods and reinforce topics covered in the text. Students must also complete a demonstration of their choice for the

			class as a major project.
CHEMISTRY HONORS 10 credits	12	Algebra II, Algebra-Trig Honors with a "C" average or written permission of instructor	Chemistry Honors is the study of matter, its properties, and the changes it can undergo is presented through theory, interpretation, lab application, and problem solving. This class is for college-bound students who may intend to pursue a career in a science or science-related field.
AP CHEMISTRY 10 Credits	12	Algebra II and Chemistry	The AP Chemistry course provides students with a college-level foundation to support future advanced coursework in chemistry. Students cultivate their understanding of chemistry through inquiry-based investigations, as they explore content such as: atomic structure, intermolecular forces and bonding, chemical reactions, kinetics, thermodynamics, and equilibrium.
SCIENCE IN SOCIETY 10 credits	11-12	Physical Science S or Biology S/ resource teacher or principal recommendation	This course will utilize current trends in science to review and increase knowledge and skills in life science, physical science, and earth science. A focus on practical application will be emphasized.

SKILLED & TECHNICAL SCIENCES

COURSE TITLE	GRADE	RECOMMENDED PREREQUISITES	COURSE DESCRIPTION
INTRODUCTION TO ENGINEERING 5 credits NDE COURSE CODE: 100100	9-12	Basic knowledge of math	This course is designed for students interested in the field of drafting, engineering, or architecture. It would be beneficial to any student planning on entering any engineering or trade program upon graduation. Students will be introduced to the present drafting tools and techniques of using these tools. All basic types of drawings will be covered this year. Occupational areas related to drafting will be discussed so students have an awareness of job opportunities in the field. The computer aided drafting system will be introduced to the students so they will have an understanding of its menus and capabilities. This course is a prerequisite for additional engineering or architecture courses. \$10 lab fee required
CAD 5 credits	9-12	Introduction to Engineering with a "C" or better and/or instructor approval	CAD is the continuation of the semester 1 class Introduction to Engineering. This course is designed for students interested in the field of drafting, engineering, or architecture. It would be beneficial to any student planning on entering an engineering program upon graduation. Students will be introduced to the present drafting tools and techniques of using these tools. All basic types of drawings will be covered this year. The course will also include a CAD/CAM machine unit to demonstrate CADs application to manufacturing. They will complete a simple machine project using CAD. Occupational areas related to drafting will be discussed so students have an awareness of job opportunities in the field. The computer aided drafting system will be introduced to the students so they will have an understanding of its menus and capabilities. This course is a prerequisite for additional engineering or architecture courses.
ENGINEERING CONCEPTS 10 credits NDE COURSE CODE: 100161	10-12	Introduction to Engineering and CAD with a "C" or better and/or instructor approval	This course is a follow-up for Introduction to Engineering. The basic areas previously covered will be worked with in more detail. We will also complete drawings in the areas of auxiliary, perspective, pattern development, and thread and fasteners. Students will spend time on the parametric and solid modeling CAD systems completing a required set of drawings. The course will conclude with students completing a set of working drawings based on industrial procedures using the CAD system. Engineering Concepts is also a prerequisite for Engineering Applications. \$10 lab fee required

Commented [MOU18]: Currently offered, added grade requirement

Commented [MOU19]: Currently offered, added grade requirement

ENGINEERING	11-12	Engineering	Engineering Applications is a dual credit course
--------------------	-------	-------------	--

APPLICATIONS 10 credits NDE COURSE CODE: 100163		Concepts with a "C" or better and/or instructor approval.	offered jointly with Central Community College and Hastings Public Schools. Students will register as an early entry student at Central Community College to participate in this course. In this course we will concentrate on detail drawings, pictorial presentation drawings, assembly drawings, and 3D Solids using the Autodesk Inventor and Solidworks CAD program in addition to Autocad software. Students will be introduced to engineering problem solving practices. Student will also learn how engineering applies to mechanical, electrical, and architectural fields. They will end the year by completing individual projects using the Solidworks and Inventor software. \$10 lab fee required
ARCHITECTURAL DRAFTING AND DESIGN 20 credits NDE COURSE CODE: 100141	11-12	Intro to Engineering with a "C" or better and/or instructor approval and/or Instructor approval. Only one vocational course permitted unless approved by the principal.	Architectural Drafting and Design is a dual credit course offered jointly with Central Community College and Hastings Public Schools. Students will register as an early entry student at Central Community College to participate in this course. This drafting course is designed for any drafting student interested in the architectural engineering or architectural drafting fields. The course will involve the study of house designs, basic architectural styles, current construction techniques, and correct architectural drafting procedures. Students will design and draw two houses. One will be a square foot limitation and the other will be a house of student's own design with few limitations. Students will draw several house structures and a commercial structure. The software will include Autocad, Chief Architect, and Revit. \$10 lab fee required
INTRODUCTION TO MANUFACTURING/ WELDING 5 credits NDE COURSE CODE: 100100	9-12	Basic knowledge of math	Introduction to Manufacturing/Welding is designed for students interested in the fields of manufacturing and welding. This course will cover the common metals within manufacturing, and the elements needed to make certain metals. Students will participate in lab activities that will give them basic experience with the manual engine lathe, precision measurement equipment and welding. \$30 lab fee required
PRECISION MACHINING PROCESSES 15 credits NDE COURSE CODE: 100400	11-12	Introduction to Manufacturing/ Welding with a C or better AND registrations will be reviewed by instructor	Precision Machining Processes will deal strictly with machine tools. A more in-depth study of the engine lathes, milling machines, and the surface grinders will be conducted. Computer Numerical Control (CNC) programming will be introduced. \$30 lab fee required

Commented [MOU20]: Currently offered, added grade requirement

Commented [MOU21]: Currently offered, added grade requirement, now available to juniors

Career Pathways Credit (CCC)			
ADVANCED WELDING 5 credits NDE COURSE CODE: 101930	10-12	Introduction to Manufacturing/Welding with a "C" or better	Advanced Welding will study the theory and practice of SMAW, MIG, and TIG welding. Oxyacetylene and plasma cutting processes will be covered. A study of the many welding symbols will take place. An individual or class welding fabrication project is required. \$30 lab fee required + cost for individual projects
ADVANCED MANUFACTURING 15 credits NDE COURSE CODE: 101401	12	Precision Machining Processes with a "C" or better AND registrations will be reviewed by instructor--only one vocational course permitted unless approved by the principal	Advanced Manufacturing is a dual credit course offered jointly with Central Community College and Hastings Public Schools. Students will register as an early entry student at Central Community College to participate in this course. AMDT is a much more detailed study of manufacturing and machining processes. Individualized skillful operations that each machine can perform will be covered and practiced. CNC lathe and mill G-Code will be covered in more detail. This course deals with achieving proficient postsecondary and industry level skills within manufacturing. Local career opportunities within manufacturing will be explored and discovered. \$30 lab fee required Career Pathways Credit (CCC)
BASIC CABINETRY 5 credits NDE COURSE CODE: 1001000	9-12		Students will use hand and power tools in the construction of a cutting board and other lab activities. This course is an introduction to the table saw, planer, jointer, compound miter saw, other power tools, and numerous hand tools through written materials and demonstrations. Students are required to master each power tool in a safe manner. Students will be given an overview of materials and processes. Students will construct individual projects. \$15 lab fee required
ADVANCED FURNITURE CONSTRUCTION 10 credits NDE COURSE CODE: 101920	10-12	C or better in Basic Cabinetry AND INSTRUCTOR APPROVAL	This course will introduce students to advanced types of wood joinery. Once joinery has been mastered, students will have the opportunity to complete furniture projects of their choosing. Students are responsible for the cost of their materials used. \$30 lab fee goes toward the cost of the student's selected project. The student is responsible for

Commented [MOU22]: Currently offered, added grade requirement

Commented [MOU23]: Currently offered, added grade requirement

Commented [MOU24]: Currently offered, change to description:

Students will be given a choice of furniture projects from several sets of plans. These include cedar and blanket chests, nightstands, coffee tables, and corner cabinets.

			the entire project cost.
TIGER WOODWORKING 10 credits	11-12	Advanced Furniture with a "C" or better and instructor approval	This course is designed to take the skills and knowledge that students acquired in Advanced Furniture and deepen them. Students will learn more complex methods of joinery, new processes and tools, along with the ins and outs of what it takes to create your own piece of furniture. Students will have the opportunity to market their work, and/or work with customers to create a desired piece. The end product will be sold to the public or a customer.
BUILDING TRADES I 10 credits NDE COURSE CODE: 100110	10-12	Basic Cabinetry with a "C" or better and instructor approval	This course is designed to introduce students to the construction field, giving them a look into what a career within construction might look like. This course will cover general framing and construction of a structure, wiring, finish work, and cabinet-making. \$35 lab fee required
BUILDING TRADES II 10 credits NDE COURSE CODE: 100120	12	Construction Technology AND registrations will be reviewed--only one vocational course permitted unless approved by the principal--needs instructor signature	Building Trades offers a general review of carpentry as an occupation with the basic principles of carpentry and house construction. The students will receive real world experience by traveling into the community to complete projects such as sheds, garages, and remodels while employing advanced woodwork techniques.
INTRODUCTION TO TRANSPORTATION & LOGISTICS 5 credits NDE COURSE CODE: 101620	11-12		This is a dual credit course offered jointly with Central Community College-Hastings. Students will register as an early entry student at Central Community College to participate in this course. This course is an introduction to many aspects of the transportation and automotive industries. Topics will include principles of combustion engines, general automotive concepts of purchasing, maintaining, and repairing, introduction to the systems of an automobile, concepts of the automotive service industry, and transportation and logistics. This course will consist of laboratory work, computer based learning and simulations, print resources, lecture, demonstration, and discussion. Career Pathways Credit (CCC)

Commented [MOU25]: Currently offered, added grade requirement

SOCIAL STUDIES

*Semester class

**Teacher recommendation required

SOCIAL STUDIES

COURSE TITLE	GRADE	RECOMMENDED PREREQUISITES	COURSE DESCRIPTION
WORLD HISTORY 10 credits	9		World History is a course asking students to think critically about the events and issues that have shaped the world. There is no one single "story" in history. Instead, the combined experiences of millions of people from across time have come together to form societies and cultures of today's world. The World History curriculum will begin with an examination of the Age of Exploration up to present times.
WORLD HISTORY HONORS 10 credits	9		World History Honors is a course asking students to think critically about the events and issues that have shaped the world. There is no one single "story" in history. Instead, the combined experiences of millions of people from across time have come together to form societies and cultures of today's world. The World History curriculum will begin with an examination of the Age of Exploration up to present times. This course is more writing intensive than the regular course both in its assessment format and its daily work.
AMERICAN HISTORY SINCE 1900 10 credits	10		American History is a broad survey course covering the history of the United States, starting with the Progressive Era through contemporary America. Students will understand the social, political and economic development of the United States.
AMERICAN HISTORY HONORS/AP 10 credits	10	Instructor's permission	American History Honors/AP is a survey of U.S. history from the English colonization period to the present. The course is designed to be more intense than the American History course and requires active participation. The primary emphasis is on the study of political, economic, and diplomatic history and how they interrelate. Level of difficulty is approximately college freshman level. College credit can be obtained by passing the College Board examination.
AMERICAN GOVERNMENT AND POLITICS 10 credits	11-12		This course will emphasize the study of the government and political system in the United States. Areas to be covered will include the U.S. Constitution, the system of checks and balances in the U.S. government, a separate study of each one of the three branches of government, the Bill of Rights using case studies and simulations, and the American political and electoral system. Dual Credit available (CCC)

EUROPEAN HISTORY HONORS/AP 10 credits	12	Instructor's permission	European History Honors/AP is a challenging course that is designed to be the equivalent of a freshman college course in a high school setting. It is a year-long survey of European history from the Renaissance to the present. Solid reading and writing skills, along with a willingness to devote considerable time to homework and study, are necessary to succeed. College credit can be obtained by passing the College Board examination or through the Wesleyan Honors Academy. Dual credit available (NWU)
REGIONAL GEOGRAPHY 5 credits	11-12		Regional Geography will familiarize a student with the physical and cultural geography of Africa and Asia. Students will learn to use various maps of the regions and how the people of the regions use the land to their benefit. Current issues of the regions will be explored. At the end of the semester, each student will create an informative research project presentation.
CONTEMPORARY ISSUES 5 credits	11-12		Contemporary Issues will explore domestic and foreign issues that face the United States today. Curriculum will provide students the knowledge and skills to make sense of headlines. Extensive analysis and background information on key policy issues provide students with in-depth understanding. A pro/con format will stimulate debate in the classroom. This course is recommended for students with an interest in the challenges facing the United States at home and abroad.
NEBRASKA HISTORY 5 credits	11-12		The objective of this course is for all students to gain a fundamental understanding of their own state's history. Students will become familiar with the geographic, historical, cultural, political, and economic elements of Nebraska. Students will learn to make informed decisions and evaluate current issues regarding Nebraska.
WORLD CULTURES 5 credits	11-12		Religions have been, and continue to be, a central part of the human experience. Religion has influenced individuals, cultures and societies, inspiring some of the world's greatest artistic achievements, while influencing the development of history across the globe. Students will study the development of social phenomena and concepts over time, understand a diversity of religious beliefs, and practices and institutions in our nation and the world.
CIVIL AND HUMAN RIGHTS IN HISTORY 5 credits	11-12		Students will explore various civil and human rights movements throughout American and world history. The course will emphasize civil rights in America, but will also cover the United Nations Declaration of Human Rights and various struggles for basic human

			rights throughout the world, currently and historically. The course will emphasize the social and political causes and effects of various movements in order for students to draw connections between movements occurring at different times and in different places.
HISTORY OF ARCHITECTURE & TECHNOLOGY 5 credits	11-12		Students will survey the major architectural and technological achievements of world history and what they tell us about the cultures that created them. Sumerian, Egyptian, and Pre-Columbian American temples and tombs, Greek and Roman temples and arenas, Asian walls and tombs, medieval cathedrals, and French palaces are among the architectural gems to be studied. Technology will focus on advances that led to the modern world. Among these are the printing press, advances in navigation, weapons of war, and the inventions of the Industrial Revolution that brought prodigious change to the world.
PSYCHOLOGY 5 credits	11-12		This course focuses on the core concepts in psychology beginning with the use of the scientific method in research and the physiological basis for behavior. As an introduction to the field of psychology, this course includes perception, states of consciousness, memory and learning, consideration of psychological principles, terminology, major theories, and careers, methods of experimentation, and practical applications. Class time is divided between lecture, films, discussions, experiments, and demonstrations. During the semester, students take frequent unit tests, design, implement, and write a report on a social psychology experiment, and create a dream log with dream analysis and critique of that analysis.

SPECIAL STUDENT SERVICES

COURSE TITLE	GRADE	RECOMMENDED PREREQUISITES	COURSE DESCRIPTION
JOB TRAINING I 10 credits/ semester	11-12	Permission of resource teacher and completion of careers class (exception must be approved by vocational teacher)	Assists students in determining areas of work interest and gain work skills. It is a non-paid work experience within the district/community. The purpose of this training is to teach students good work habits, work attitudes, and necessary job skills for his/her place of employment.
JOB TRAINING II 20 credits/semester	12+	Must be enrolled in Life Management class	Assists students in determining areas of work interest and gain work skills. It is a non-paid work experience within the district/community. The purpose of this training is to teach students good work habits, work attitudes, and necessary job skills for his/her place of employment.
LEARNING LAB 5 credits/semester	9-12	Permission of resource teacher	Learning Lab is designed to meet the individual needs of the special education student. Each student will have the opportunity to work on improving his/her math, reading, written language, and study skills. He/She will also be able to explore career interests by completing interest inventories.
EL 10 credits	9-12	Recommendation of ELL teacher	This course would provide EL instruction needed to allow EL students the opportunity to gain the language skills needed to perform in mainstream academic content areas. EL classes are for students whose native language is not English and who are recommended by the EL teacher, based on their initial language testing, to improve their initial language proficiency. Students may repeat this class.

WORLD LANGUAGES

*Teacher recommendation or Spanish placement exam

**Teacher recommendation required

In order for an incoming freshman to take two entry-level foreign language classes, a high recommendation from the foreign language instructor at the Middle School is required. Upon receiving a high recommendation from the middle school instructor, the two foreign language instructors at HHS that will be teaching the student must sign-off and recommend that the student take two entry-level foreign language classes. These recommendations will be given to the Guidance Office for enrollment to occur.

A sophomore, junior, or senior, may take two entry-level foreign language classes. The two foreign language instructors must sign-off and recommend that student take two entry-level foreign language classes at the same time. These recommendations will be given to the Guidance Office for enrollment to occur.

WORLD LANGUAGES

The HHS World Language program provides students with the opportunity to travel abroad and live with a host family in a French, German or Spanish-speaking country. Student participants must be juniors or seniors enrolled in level 3, 4, or Spanish for Native-Speakers. To be eligible for participation in the travel abroad program it is recommended that students begin their language study in 9th grade.

COURSE TITLE	GRADE	RECOMMENDED PREREQUISITES	COURSE DESCRIPTION
FRENCH I 10 credits	9-12		Level I is an introduction to the structure of the French language. Students acquire basic language constructions and vocabulary. Unlike the traditional grammar approach, students acquire language through storytelling and reading short passages and readers. Cultural information is interwoven in the readings and discussed throughout the year.
FRENCH II 10 credits	10-12	Completion of prerequisite level with a C or higher	Level II continues to develop basic language skills. It also expands on the grammatical understanding of the language. This is done through storytelling, reading short passages and readers, and increased grammatical study. Cultural information over sports/activities, holidays, and Paris monuments is also covered.
FRENCH III 10 credits	11-12	Completion of prerequisite level with a C or higher	Level III builds upon the basic language concepts acquired in the introductory level courses, expands cultural knowledge, and increases communication skills. Special emphasis is placed on the usage of the past tenses. Cultural information over schools and regions in France will be covered.
FRENCH IV 10 Credits	12	Completion of prerequisite level with a C or higher	Level IV builds upon the basic language concepts acquired in the introductory level courses, expands cultural knowledge, and increases communication skills. Special emphasis is placed on more advanced verb tenses. Reading of authentic French literature and cultural information about daily French life and art will be covered.

GERMAN I 10 credits	9-12		The first year German student will develop the basic language skills of listening, speaking, reading, and writing. The student develops these skills by engaging in basic conversation and through oral and written exercises. This course is also designed to help the student appreciate and understand the cultures of Germany, Austria, and Switzerland through the use of videos and online resources.
GERMAN II 10 credits	10-12	Completion of prerequisite level with a C or higher	The second year German student will continue to develop the skills learned in German I. Conversation is emphasized to give each student as much speaking practice as possible. Text material is read and discussed. Students will also continue to increase their knowledge of the structure of German through written exercises. Videos and online resources are used to develop an understanding of German culture.
GERMAN III 10 credits	11-12	Completion of prerequisite level with a C or higher	German III is the first in a two-part sequence of intermediate-level German, designed to build upon basic language concepts acquired in the introductory-level courses, expand cultural knowledge, and increase confidence while enhancing listening, speaking, reading, and writing skills. This is done through the use of German videos, feature films, online resources, authentic texts and multimedia projects.
GERMAN IV 10 credits	12	Completion of prerequisite level with a C or higher	German IV is a continuation of German III.
SPANISH FOR NATIVE SPEAKERS 10 credits	10-12	Completion of prerequisite level with a C or higher	A course for students who already have an immersion background in the Spanish language. The class emphasizes academic reading and writing in Spanish,

			as well as learning about the culture through literature, history, holidays, customs and more. Students will grow in their use of Spanish in a formal register for academic and professional settings.
SPANISH I 10 credits	9-12		Spanish I is the introduction to the simple structure of the Spanish language. Students acquire basic language constructions and vocabulary. Unlike the traditional grammar approach, students acquire language through storytelling and reading short passages and readers. Students will also learn about the diverse cultures and customs in Mexico and other Spanish-speaking countries.
SPANISH II 10 credits	9-12	Completion of prerequisite level with a C or higher	This course is an extension of the development of basic language skills as well as an expansion of their grammatical understanding of the language. This is done through storytelling, reading short passages and readers, and increased grammatical study. Students will also learn about the culture of Chile and other Spanish-speaking countries and make comparisons to the United States.
SPANISH III 10 credits	9-12	Completion of prerequisite level with a C or higher	This course focuses on communication through listening, speaking, reading, and writing. Short stories, dialogues, and small group interaction are utilized to increase vocabulary and proficiency. Special emphasis is placed on the usage of the past tenses. Dual credit available (NWU)
SPANISH IV 10 credits	9- 12	Completion of prerequisite level with a C or higher	Spanish IV focuses on communication through listening, speaking, reading, and writing. Level-appropriate short stories, authentic resources, dialogues and small group interaction are utilized to continue increasing vocabulary and proficiency. Introduction and application of many new verb tenses is emphasized through thematic units. Dual credit available (NWU or UNK)

DUAL CREDIT OPPORTUNITIES

Dear Hastings Senior High School student/parent:

Hastings Senior High provides several opportunities for students to earn college credit in high school. Your student has this opportunity in one or more areas listed below. Prices are subject to change at the discretion of the college or university.

Student must complete online registration at NWU website.

- _____ NWU—World Literature (\$95 x 6 credit hours)
- _____ NWU—European History (\$95 x 4 credit hours)
- _____ NWU—Chemistry Honors (\$95 x 4 credit hours)
- _____ NWU—Physics Honors (\$95 x 8 credit hours)
- _____ NWU—Spanish III (\$95 x 4 credit hours)
- _____ NWU—Spanish IV (\$95 x 4 credit hours)
- _____ NWU—AP Calculus AB (\$95 x 5 credit hours)

Student must complete online registration on UNK website and pay registration fee.

- _____ UNK—Spanish IV (\$75 x 3 credit hours)

Student must create an account and fill out the registration form received from teacher.

- _____ CCC—American Government (\$45)
- _____ CCC—Comm Arts (\$45)
- _____ CCC—Advanced Chemistry (\$45)

The Access College Early (ACE) Scholarship is a possible way to have the tuition cost for the class paid with a limit of **TWO** classes per semester. **Students who meet one of the following qualifications can submit an ACE Scholarship application** with the corresponding documentation. **Funding is limited.** The qualifications include:

- Supplemental Security Income (SSI)
- Temporary Assistance for Needy Families (TANF)
- Food Stamps
- Special Supplemental Nutrition Program (WIC)
- Free/Reduced Lunches (need 2016-17 documentation)
- Other Extreme Hardship (must provide detailed documentation)

Students must also be a U.S. citizen or a permanent alien resident.

To apply for the ACE Scholarship, you will need to create an online account at <https://ecmp.nebraska.gov/CCPE-ACE/Account/Login>. You will create a new user account, and then log in and complete the registration screen. Complete the application, and you will need to upload the necessary documentation. **If you need help, see your counselor.**

Central Community College Dual Credit

You must create an account online.

You must register (get form from your teacher)

You must take the ASSET test: Date TBD

New Courses Being Proposed for 2023 - 2024

Work-Based Learning Exploration (not included in the proposed handbook)

Why?

The **Work-Based Learning Exploration** course is the **second class** of a 3-class pathway to prepare students for the opportunity to gain valuable work experience during their senior year of high school.

This course will provide students with the **academic, technical and decision-making skills** needed to compete successfully in the workforce, at the post-secondary level, and in the global community. Students will research, job shadow, interact with guest speakers in specific Career and Technical Education (CTE) areas of interest to them. Hastings Economic Development Corporation (HEDC) is in partnership with us to be a liaison between the school and the community businesses.

The overall goal of the Work-Based Learning (WBL) program is to provide students the opportunity to receive **real experience in the world** of work, which will increase their knowledge of a specific trade area and enhance other skills necessary for employment.

Aside from the obvious benefits of a true WBL Experience, it is also a critical piece of the Perkins V grant. This grant is provided by the State to our CTE departments to continuously improve our programs. There are some focal points of this grant provided by the state, and none of them are bigger than WBL.

At Hastings High, we currently offer a Jobs for American Graduates (JAG) program. However, our proposed WBL pathway differs in a couple ways. We intend this to be open to all students who want to participate. JAG is a niche program focusing on a specific population of students (i.e. F/R lunch, etc). JAG is also capped at a specific number of students per year. Additionally, the biggest difference is that this pathway's capstone will get students actually into the workforce, where they will gain hands-on experience, and payment, in a specific CTE area that they are interested in, and have researched. This program is great for our HHS students and the businesses within our local community.

Course Description:

This course will provide students with the **academic, technical and decision-making skills** needed to compete successfully in the workforce, at the post-secondary level, and in the global community. Students will research, job shadow, interact with guest speakers in specific Career and Technical Education (CTE) areas of interest to them.

Grade: Second-Semester of Junior Year

Prerequisites: Introduction to WBL

Credits: 5 credits (Semester long)

Essentials

- Students will understand the importance of and practice Career Readiness skills invaluable to all careers.
- Students will participate in job shadowing experiences with various businesses within our community and report on their experience.
 - **Goal:** approximately 1 hour per day at 5 different businesses
- Students will explore and research different areas within a business in order to gain an understanding of an entire business.
- Students will interact and report on guest speaker engagements set up at Hastings High School
- Students will prepare for and be a part of mock interviews given by actual members of the community.

Tiger Vision Media Productions (not included in the proposed handbook)

Why?

This class is being created to give our students opportunities to create media content that will be shared on our school's social media page and displayed on our new Daktronics video board in the new gym. This class will allow Hastings High to promote itself and the activities going on, but also raise money through advertisements of local businesses. It will give the students great practical skills in industry-standard software which will make them valuable in future employment endeavors.

Course Description:

This course will apply their media skills of filming and editing of photography/videography, and design. Students will plan and produce actual video/audio media content that will be shared on the school's social media platforms and on the Daktronics video board. Students will work both independently and collaboratively to create a professional product while meeting deadlines.

Grade: Junior/Senior

Prerequisite: Digital Media, Interview with Admin

Credits: 10 credits (Year Long)

Essentials:

- Students will review and apply previously learned techniques from pre-requisite class in their filming and editing
- Students will recognize the importance of planning and purpose when it comes to filming and editing video content
- Students will attend events and purposefully film content to later edit
- Students will create video content including, but not limited to:
 - Social media posts
 - Hype videos
 - Starting lineups
 - Community Business Advertising
 - Sportsmanship
 - Striv
- Students will be able to operate the program that goes along with the Daktronics Video Board
- Students will submit into the State Journalism Competition
- Students will be use Adobe Premiere Pro software to edit video content

Nebraska Math Readiness Project (not included in the proposed handbook)

Why?

The analysis of mathematics data has also led the Hastings Public Schools to work closely with CCC to better prepare students for post-secondary mathematics. After analyzing student performance data on state and national assessments, overall student performance has declined. Local post-secondary enrollment data and math completion data of former HPS students that have enrolled at CCC showed that approximately 60 HPS students enroll at CCC each year. Of those students, approximately 53% of them successfully completed on-campus math courses at CCC. With the support of CCC, it would be beneficial for HPS to participate in the Nebraska Math Readiness Program (NMRP) for the 2023-2024 school year. The Nebraska Math Readiness Project is designed to prepare students for college algebra.

Course Description:

Level I: This course presents basic computational skills for either review or initial mastery by students. Topics include fractions, decimals, the solutions of ratio, proportion, and percent problems, operations with integers, and basic study skills for mathematics problem-solving, and estimation. Topics may also include geometry, measurement, and basic algebraic concepts.

Level II: This course is for students who need to learn basic and intermediate algebra skills. Topics include positive and negative real numbers, solving linear equations and inequalities, applications of linear equations, integer exponents, operations with polynomials, factoring, rational expressions, equations of lines, and graphing of equations and inequalities.

Grade: Junior/Senior

Prerequisite: Dependent on student's math proficiency

- The course is designed for students who plan to pursue post-secondary opportunities but need additional skills/knowledge to be successful in college algebra

Credits: 5-10 credits (based on student needs)

Essentials:

- Aligned with HPS Pre-Algebra and Algebra I courses
 - Additional alignment to Algebra II on some skills/standards
 - Alignment documents are available upon request

Practical Math (not included in the proposed handbook)

Why?

The purpose of this course is to allow students who struggle with math to reinforce basic math concepts they will encounter in their daily life after high school. This class will dive deeper into the math of financial concepts while continually working on the basic math concepts needed in life such as fractions, decimals, percent, time, and money.

Course Description:

This is a year-long course that enables students to learn how to apply mathematical concepts in practical, daily situations. Students will work on how to utilize previous math knowledge to topics in their future such as paychecks, wages, taxes, budgeting, and saving.

Grade: Junior/Senior

Recommended Prerequisites: Algebra 1 (Power Essentials), Geometry (Power Essentials)

Credits: 5 per semester

Tiger Singers

Why?

The purpose of this course is to provide students additional vocal music opportunities and to perform at higher levels.

Course Description:

This is an auditioned varsity-level mixed ensemble of singers who have a strong desire to sing high-level pop and classical music. Tiger Singers will be rehearsed with the highest expectations and will mainly be composed of juniors and seniors.

Grade: Junior/Senior

Recommended Prerequisites: Application/audition, or instructor approval

Credits: 5 per semester

**HASTINGS
PUBLIC SCHOOLS**

Assuring the essential. Expanding the possible.

HUMAN RESOURCES OFFICE

Memo

TO: Jeff Schneider, Superintendent Hastings Public Schools
FROM: Thomas Szlanda, Director of Human Resources & Operations
DATE: 2-14-23
SUBJECT: PAPER BID FOR 2023-2024 SCHOOL YEAR

I recommend we approve the lowest paper bid from Nebraska ESUCC Online Marketplace for the amount of \$42,786.07 for the 2023-2024 school year.

2023 Paper Bid

Hastings Public Schools
Tom Szlanda

Dear Mr. Szlanda

Thank you for the opportunity to present a bid for the district paper needs this coming year. Field Paper has been honored to supply the paper stock to the system for the last several years. We should be able fill the districts orders from available stock. However, all your paper may be subject to availability and current market price at time of order. The market is more stable this year so it should not be a problem.
