Supporting Questions:

- What motivated different groups to establish colonies in North America?
- How did geography and environment influence the economies and lifestyles of the colonies?

SUPPLEMENTARY

- Name the three branches of the U.S. government (legislative, executive, judicial).
- Explain the primary function(s) of each branch (e.g., making laws, executing laws, interpreting laws).
- Describe how checks and balances and separation of powers help prevent any one branch from becoming too powerful.
