 K-5 Wonders/and one other trying to get in
 Upgrading novels and making sure Grammar and lit upgraded to meet standards.

Currently, in final stages of selection. Want to emphasize DOK.
 Koliha asking to be present for vendor presentation, and then she offers up a day to align curriculum to standards + assessments. Koliha will meet with team on May 22, 2024 and will add additional dates as needed.

Teaching strategies: with evaluation process, they are looking for the specific areas (chunking content, etc.). Wanting to introduce to new teachers, and expand the horizons of experienced teachers. All of it Marzano focused. Staff will prioritize. Consider how teachers can show evidence of implementation.

INTRODUCTION

This booklet is designed for coaches/sponsors to help define the role of athletics and co-curricular activities in the Shelby-Rising City Public Schools. This reference should assist individuals seeking information about the function and governance of co-curricular activities in the school district. Also, this booklet will serve as an additional source of information that coaches/sponsors can use to communicate the school's traditions and philosophies of co-curricular activities to parents and students of the Shelby-Rising City Public School.

This booklet is also designed to help coaches/sponsors now and in the future to understand the role of co-curricular activities play in fulfilling the mission statement of the school district.

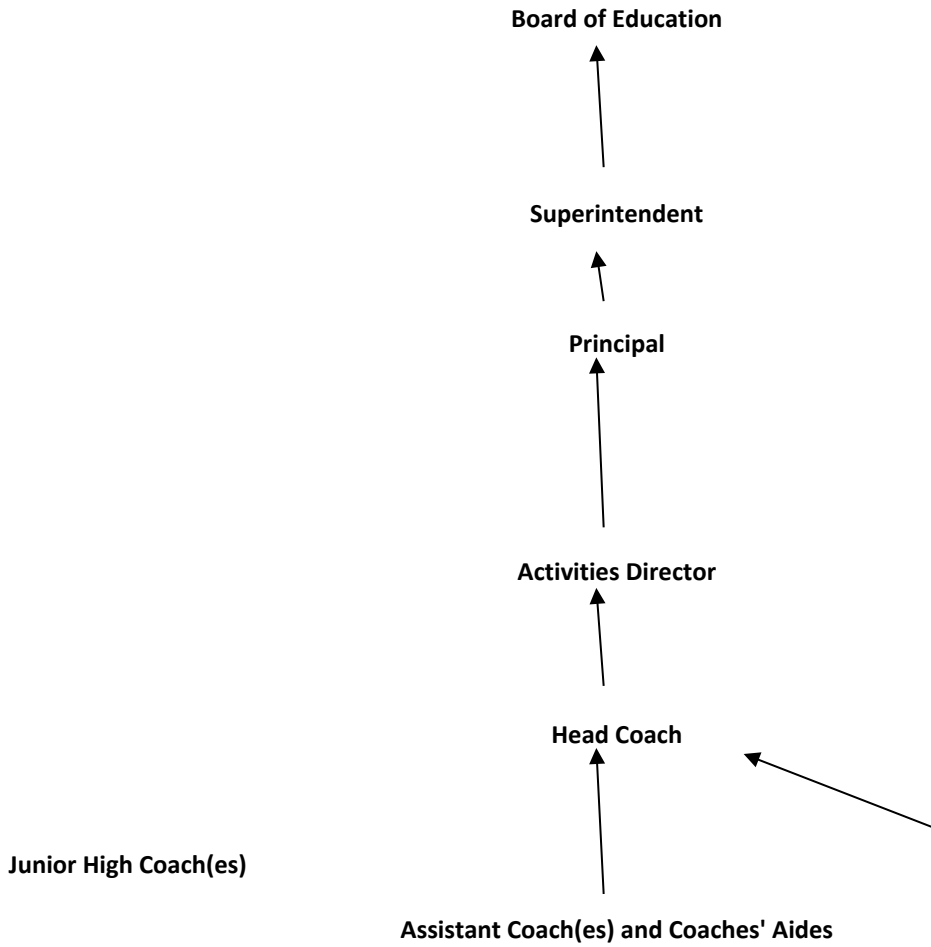

THE ACTIVITIES PHILOSOPHY

The activities curriculum of the Shelby-Rising City Public School will, at all times, fulfill the mission of the school district. The activities program is just one part of the total educational curriculum of the school system that is trying to fulfill the school's mission. With this in mind, the activities program should never attempt to place itself above the mission of the Shelby-Rising City Public School.

The philosophy of the activities program at Shelby-Rising City Public School is to compete hard, to do the best that can be done, and to never give up despite the outcome of the competition. Through their dedication this philosophy has been built by a long line of hard-working students and sponsors who have brought honor to our school and community. It has also been the philosophy of the Shelby-Rising City Public School Activities Program to maintain a high level of integrity, honesty, sportsmanship, and teamwork.

Within this philosophy, sponsors of activities will not cut a student from an activity but will let him or her aspire to the highest level of competition their ability can carry them. At the varsity level of competition, sponsors will compete with the individuals they feel can best handle the rigors and skills of that level of competition. At all other levels of competition, the emphasis will be placed on teaching the fundamentals of a particular skill while allowing all participants the chance to compete in INTERSCHOLASTIC events. The goal of this philosophy is to develop a program that is educational, consistent, and competitive year after year. **The goal of Shelby-Rising City is not only to develop our students in activities but to develop each individual into becoming a better overall person.**

The Band Director, with input from the Activities Director, shall make the final determinations as to the completeness of the ensemble; it’s ability to effectively play the necessary music, and the advisability of the trip.

7. BUDGET PROCEDURES: Head coaches should make recommendations to the Activities Director as to supplies or equipment that is needed throughout the season. Major budget items (helmets, uniforms etc.) request sheets are included in the year-end report, which is handed out upon the completion of each season. If a participant is injured, he/she will be expected to attend all practices, games, meets, contests, or other events even though he/she cannot participate unless excused by the sponsor. 17. EMERGENCIES: In the event of an emergency:

- a. **What To Do In Case Of An Emergency:** When a student becomes seriously ill or is seriously injured in an accident emergency treatment will be sought at the discretion of the attending school personnel. The parents of the child will be notified as soon as possible, as most medical providers require parental permission for treatment. All student accidents must be reported to the office at the earliest possible time. Coaches/Sponsors shall document, in writing, student injuries (see part f of this section).
- b. **Substitution For Parent:** Each year parents are asked to give the name of at least one person, other than themselves, who may be called upon to take care of an ill or injured child in case the parent cannot be reached. This information is recorded on the student's demographic tab in PowerSchool.
- c. **Designation Of Physician:** The parent should also authorize and designate a physician to be called when one is urgently needed. This is a protection for both the school and the student. This authorization is given on the student's information card.
- d. **Dismissal For Illness Or Injury:** No ill or injured student should be sent home unaccompanied without parent's permission. In serious cases, the parent or designated person should be asked to take the student home. If this is not possible, some responsible adult from the school should be delegated by the Principal to take the student home. In less serious cases, an older child of the same family may be permitted to accompany the student

provided the permission of the parent or the person designated by the parent has been received.

e. Emergency Waiver: The head coach will have ALL emergency waiver forms available whether at a home or away game so that any necessary medical attention can be gained with minimal delay.

f. Student Accident Report Form: The head coach will fill out a student accident report form in the following situations. The injury will result in prolonged absence from practice or school. The injury is of a profound nature (i.e. head injury, knee injury). The injury results in the contacting of parents, contacting of a doctor, or calling of an ambulance. This process can be completed with the help of the athletic trainer or EMT.

18. EQUIPMENT DISTRIBUTION AND RETURN: The coach is responsible for handing out and collecting all equipment. The head coach is to number and/or identify all school equipment before it is handed out to students. Keep a record of all equipment that is issued to an athlete. **No participant will be allowed to start the next activity season without having turned in all equipment, paying all bills, and meeting all the requirements of the previous activity season.** If the athlete does not turn in the equipment, and does not pay the bill for the equipment, turn in his/her name to the activities director, along with a list of items that need to be returned. Coaches should communicate with the parent, if necessary. Head coaches are responsible for collecting lost/stolen equipment.

19. EVALUATION: The Activities Director will provide a least one written evaluation of each head coach during the sport (including Junior High). This will be a combination of formal and informal assessment of what occurs. Each head coach will evaluate his/her assistants and report to the Activities Director. Junior High Coaches should work in conjunction with High School coaches for optimal growth and development of the programs.

hire the specified number of coaches if they are available. (Track will have four coaches: it will be determined by the activities director if there will be one head coach overall or a boys and a girls head coach). Hiring of coaches will go through the Activities Director with recommendations given by Head coaches.

23. **HANDBOOKS:** Activity sponsors may have handbooks for their area of responsibility. The Sponsor's handbook will be subject to the overall policies in this handbook, the Student Handbook, and School Board Policy. The Sponsor's Handbook must be approved by the Activities Director before it is given to the students. The Sponsor's Handbook will be distributed to the students at the beginning of an activity season. All other reasonable rules and/or regulations adopted by the sponsor and approved by the Activity Director shall be followed provided that participants shall be notified of such rules and/or regulations by written handouts or posting on bulletin boards prior to the beginning of the season.

24. **HIRING OFFICIALS:** The hiring of officials is the sole responsibility of the Activities Director. The Activities Director will seek input from the head coach about officials he/she would like to hire for games. The Activities Director will try to hire these officials if available. If the officials named by the head coach are not available, others will be hired by the Activities Director.

25. HOSTING NSAA, CONFERENCE, AND/OR OTHER REVENUE-PRODUCING EVENTS: All coaches are expected to help whenever possible, as the entire athletic department benefits. The head coach will work with the Activities Director to organize and run the event.

26. **INCLEMENT WEATHER:** Activity practices scheduled the same day as snow/ice dismissal shall be automatically canceled. Practices may be held after late starts if the school day is completed. Practices related to other early dismissals and/or late starts may be scheduled at the discretion of the A.D./Superintendent. Games may be played/not played on weather affected days at the discretion of the A.D./Superintendent. The Superintendent shall have final determination in all cases.

27. **INSURANCE:** The Board of Education may make available an accident insurance policy for each student. The insurance program to be offered at the beginning of each year, will cover any accidents a student may incur going and coming from school, within the school building or grounds, and attending any school sponsored activities. The cost of the insurance premium will be paid by the parents. In addition, the Nebraska Schools Activity Association provides catastrophic insurance for all athletes in grades 9-12. The school may purchase additional catastrophic insurance for all students enrolled, as it is available from the N.S.A.A.

28. **LETTERING:** Each time an individual letters in the senior high, they will be awarded a letter certificate by the sponsor of that activity at the annual activities banquet. The first time a participant letters he/she will be awarded a chenille letter, an emblem representative of the activity the participant lettered in (i.e. winged foot for track), and a gold bar. On

subsequent letterings, the participant will receive a certificate and a gold bar for each sport that they lettered in. All other participants who did not letter will be given a participation certificate.

a. Athletics Lettering

1. For lettering criteria, refer to the Student Activity Handbook

b. Fine Arts Lettering

1. For lettering criteria, refer to the Student Activity Handbook

c. Other Awards

1. For criteria on conference championships teams, district championship teams, all-conference selections, winning a state event, three-sport athletes, and designated athlete awards, refer the Student Activity Handbook

29. **LOYALTY:** Support your fellow coaches. If you question something they are doing, ask them about it in private. The success of the total program comes from everyone working together.

30. **NEGLIGENCE AND LIABILITIES:** All coaches should know the legal aspects involved with negligence and liability. The general rule is to always act in a prudent and reasonable manner. Make sure that the athletes are always supervised. Be sure that the athletes are made aware of any dangers or dangerous phases of a particular sport. Use up to date coaching and training methods and techniques. Keep records of all meetings and practices. Read the attached recommendations for decreasing liability. (See Risk Management for Supervisors)

31. NSAA RULES MEETINGS: The NSAA requires that every head coach attend and register at a rules meeting prior to the start of each session. It is recommended that assistant coaches, coaches' aides, and junior high coaches attend these meetings as well.

32. **PARTICIPATING IN TWO SIMULTANEOUS EVENTS:** If a participant is scheduled to perform in two school activities at once, the participant will decide which performance he/she will take part in. It is then the participant's responsibility to inform both sponsors as to his/her decision.

33. **POSTPONEMENTS OR CANCELLATIONS:** The changing of schedules and the postponing or canceling of events is the responsibility of the Activities Director, in cooperation with the Superintendent and Principal. In rescheduling an event, the coaches will be consulted, and their opinions or desires will be considered.

34. **PRACTICE TIME:** The Activities Director, along with the head coaches, will arrange the time and place for practice sessions. It is important that each coach begin and end his/her practice on time. No practice will exceed 2.5 hours in length. Be at all practices. All practices are important and one participant missing may endanger the success of the team.

If a participant knows he/she will be missing practice he/she is expected to notify the sponsor before the missed practice. Legitimate reasons for missing practice are: illness, funeral, another school function, and work for one's father or mother. The sponsor will determine if any other excuses are legitimate. A participant must notify the sponsor BEFORE missing any practice. A sponsor may discipline participants for missing without a legitimate reason.

35. PROGRAM INFORMATION: Coaches are to have program information in to the Activities Director two weeks prior to the first contest. Program information should be kept current throughout the season.

36. SCHEDULING OF GAMES: Athletic events are scheduled by the Conference, the State, and the Activities Director. A coach may express a desire as to whom he or she would like to play and when, but no coach has the authority to schedule any game, scrimmage, tournament, etc. without the authorization of the Activities Director.

37. SCHOOL ATTENDANCE BY ACTIVITY PARTICIPANTS: In order to practice or participate in any activity held outside of school hours the student must be in attendance all day on the day of the activity. The only exception to this section would be a pre-arranged absence approved by the Principal.

38. SCOUTING: When a coach is required to use his own car, mileage will be paid at an annually determined rate.

39. SENIOR NIGHT: The night of the last regular season home game, the seniors of each fall and winter sport will be honored along with their parents. An appropriate flower will be awarded to each seniors' parents along with the announcing of their names. When taking part in summer camp(s)/clinic(s) the responsibility and liability rest solely with the adult or student participants as individuals.

46. Drug Free School and Community Policy (700.02)

It shall be the policy of Shelby-Rising City School District No. 72-0032 to provide age appropriate, developmentally based drug and alcohol education and prevention program for all students of the schools. It shall be the policy of the District to require instruction at each grade level concerning the adverse effects resulting from the use of illicit drugs and alcohol. Such instruction shall be designed by affected classroom teachers or as otherwise directed by the Board to be appropriate to the age of the student exposed to such instruction. Such instruction should be described in any curriculum guides of the District and should have as one of its primary objectives preventing the use of illicit drugs and alcohol by such students. It shall further be the policy of the District to encourage the use of outside resource personnel such as law enforcement officers, medical personnel, and experts on the subject of drug and alcohol abuse, so that its economic, social, educational, and physiological consequences may be made known to the students of the district.

It shall further be the policy of the district through the instruction earlier herein referred to as well as by information and consistent enforcement of the board's policy pertaining to student conduct as it relates to the use of illicit drugs and the unlawful possession and use of alcohol, that drug and alcohol abuse is wrong and is harmful both to the student and the District, and its educational programs.

STANDARDS OF STUDENT CONDUCT PERTAINING TO THE UNLAWFUL POSSESSION, USE, OR DISTRIBUTION OF ILLICIT DRUGS OR ALCOHOL ON SCHOOL PREMISES OR AS A PART OF ANY OF THE SCHOOL'S ACTIVITIES

It shall be the policy of Shelby-Rising City School District No. 72-0032 in addition to standards of student conduct elsewhere adopted by board policy or administrative regulation to absolutely prohibit the unlawful possession, use, or distribution of illicit drugs or alcohol on school premises or as a part of any of the school's activities. This shall include such unlawful possession, use, or distribution of illicit drugs and alcohol by any student of the District during regular school hours or after school hours at school sponsored activities on school premises, at school-sponsored activities off school premises.

Conduct prohibited at places and activities as herein above described shall include, but not be limited to, the following:

1. Possession of any controlled substance, possession of which is prohibited by law.
2. Possession of any prescription drug in an unlawful fashion.
3. Possession of alcohol on school premises or as a part of any of the school's activities.
4. Use of any illicit drug.
5. Distribution of any illicit drug.
6. Use of any drug in an unlawful fashion.
7. Distribution of any drug or controlled substance when such distribution is unlawful.
8. The possession, use, or distribution of alcohol.

It shall further be the policy of the District that violation of any of the above prohibited acts will result in disciplinary sanctions being taken within the bounds of applicable law, up to and

including short term suspension, long term suspension, expulsion, referral to appropriate authorities for criminal prosecution.

It shall be the policy of Shelby-Rising City School District No. 72-0032 to provide information to all students concerning available drug and alcohol counseling, rehabilitation, and re-entry programs within fifty miles of the administrative offices of the District or, where no such services are found available within 50 miles then such other programs as may exist within the State of Nebraska. Information concerning such resources shall be presented to all of the students of the District.

In the event of disciplinary proceedings against any student for any District policy pertaining to the prohibition against the unlawful possession, use, or distribution of illicit drugs and alcohol, appropriate school personnel shall confer with any such student and his or her parents or guardian concerning available drug and alcohol counseling, rehabilitation, and re-entry programs that appropriate school personnel shall consider to be of benefit to any such student and his or her parent or parents or guardian.

It shall be the policy of Shelby-Rising City School District No. 72-0032 to provide each student of the District a copy of the standards of conduct for student behavior in the District which prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol on school premises or as a part of any of the school's activities. Such standards of conduct and the District's policy of disciplinary sanctions that may be taken for violation of such standards of conduct shall be given to each student and his or her parent or parents or guardian prior to the commencement of each school year on a form to be developed by the administration or Board of Education.

It shall be the further policy of the District to keep a file showing receipt of standards of conduct and a statement of disciplinary sanctions that may be taken for violations of such standards of conduct. The receipt shall be issued in duplicate and shall contain in prominent letters the following language:

“THIS RECEIPT SHALL SERVE TO DEMONSTRATE THAT YOU AS A PARENT OR GUARDIAN OF A STUDENT ATTENDING SHELBY-RISING CITY SCHOOL DISTRICT NO. 72-0032 HAVE RECEIVED NOTICE OF THE STANDARDS OF CONDUCT OF THIS DISTRICT EXACTED OF STUDENTS CONCERNING THE ABSOLUTE PROHIBITION AGAINST THE UNLAWFUL POSSESSION, USE, OR DISTRIBUTION OF ILLICIT DRUGS AND ALCOHOL ON SCHOOL PREMISES OR AS PART OF ANY OF THE SCHOOL'S ACTIVITIES AS DESCRIBED IN BOARD POLICY OR

ADMINISTRATIVE REGULATION. THIS NOTICE IS BEING PROVIDED TO YOU PURSUANT TO P.L. 101-226 AND 34 C.F.R. PART 86, BOTH FEDERAL LEGAL REQUIREMENTS FOR THE DISTRICT TO OBTAIN ANY FEDERAL FINANCIAL ASSISTANCE. YOUR SIGNATURE ON THIS RECEIPT ACKNOWLEDGES THAT YOU AND YOUR CHILD OR CHILDREN WHO ARE STUDENTS ATTENDING THIS DISTRICT FULLY UNDERSTAND THE DISTRICT'S POSITION ABSOLUTELY PROHIBITING THE UNLAWFUL POSSESSION, USE, OR DISTRIBUTION OF ILLICIT DRUGS AND

ALCOHOL ON SCHOOL PREMISES OR AS A PART OF THE SCHOOL'S ACTIVITIES AS HEREINABOVE DESCRIBED AND THAT COMPLIANCE WITH THESE STANDARDS IS MANDATORY. ANY NON-COMPLIANCE WITH THESE STANDARDS CAN AND WILL RESULT IN PUNITIVE MEASURES BEING TAKEN AGAINST ANY STUDENT FAILING TO COMPLY WITH THESE STANDARDS."

It shall be the policy of Shelby-Rising City School District No. 72-0032 to review biennially its entire program pertaining to the prevention of the use of illicit drugs and the abuse of alcohol by students and employees to determine the effectiveness of the program and to implement such changes to the program as are deemed needed.

The Superintendent shall undertake such study as is deemed appropriate to determine whether the program of the District as herein above referred to is accomplishing its intended goals. If the Superintendent determines that changes are necessary or desirable in the program, the Superintendent shall, on or before the regular July meeting of the Board of Education, present to the Board of Education such changes as are proposed by the administration in the program of the District.

It shall be the policy of Shelby-Rising City School District No. 72-0032 to require the Superintendent of Schools to keep a statistical report of all violations of the district's policies and programs prohibiting the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on the school district's property or as part of any of the district's activities. The Superintendent shall at least annually provide a report to the Board of Education consisting of at least the following:

1. The date and nature of any incidents of non-compliance with the District's policies pertaining to the unlawful possession, use, or distribution of illicit drugs and alcohol by students or employees.
2. The nature of any sanction carried out against any such person in violation of such policies.
3. A brief description of any treatment, counseling, or rehabilitation that any such individual in violation of any such policy shall have undertaken and whether such undertaking was voluntary or involuntary.

47. TRANSPORTATION: Each coach will be given a copy of the bus schedule and the departure times for his or her activity by the Activities Director.

Students who participate in out-of-town school sponsored activities are to ride the bus or any mode of transportation specifically approved by the Principal.

The students will ride the bus, or approved transportation, to the activity. He/She will return to Shelby-Rising City Public School on the same transportation unless the following procedure is followed:

1. Parents who wish to take their student home from an activity must see the activity sponsor in person as well as give him/her written consent to release the student. **THE**

SHELBY-RISING CITY PUBLIC SCHOOL IS THEN NO LONGER RESPONSIBLE FOR THE STUDENT. (In other words, the catastrophic injury insurance policy carried by the school will no longer be in effect.)

2. When permission is granted to a student by the parents for their child to ride with another parent (Parent is defined as anyone who is guardian over a school-aged child or a parent over the age of 21), the following procedure will be used:
 - a. The parents of the child riding with another parent must also contact the sponsor one day in advance of the activity. This contact should be in person. Tell the sponsor that permission is granted and that this has been approved by the party their student will be with. This should also be indicated on a written consent.
 - b. The parent who takes the responsibility of taking another child from school activity is also to contact the sponsor one day in advance of the activity either in person or by telephone. The student will still need to be signed out in writing.
 - c. The sponsor of each activity and the Shelby-Rising City Public School will not be responsible for any student once they have left with their parent or another parent.
 - d. Before a student is released from the sponsor's custody, a written consent must be given to the sponsor as well as making contact by phone or in person.
 - e. When Shelby-Rising City Public School is involved in an activity, the sponsor is generally busy directing the activity. The parent will have to find the sponsor and take care of checking their student out. Only the sponsor of the activity should be contacted, as he/she is the person directly responsible for the student. Another teacher or administrator should NOT be contacted to communicate removal of a student from the bus.
 - f. Parents should contact the activity sponsor rather than asking the sponsor to contact them. As the sponsor may be unable to get back to the parent, it is best that he/she take care of the contact with the sponsor in person or by phone.
 - g. Consent forms are available in the office and may be picked up by the student to take home and have completed by the parent.

If a coach knows that a student will be riding to an activity on school transportation and the student is late in arriving for the departure of that transportation the coach or his designee will call and inform the parent/guardian that he/she is not with the group.

When arriving home from an activity trip the head coach or his designee will stay at school until all students have left the school grounds.

48. **UNIFORM USE:** Shelby-Rising City -Rising City Public School uniforms will only be worn by Shelby-Rising City Public School sponsored teams. Non-school sponsored teams must furnish their own uniforms. The only way a non-school sponsored team may use school uniforms is: 1) allow all Shelby-Rising City students that are eligible to participate, be on the team, 2) pay rent for the uniforms to be used (the rent will be determined by the Superintendent with input from the Activities Director), 3) conform to all NSAA regulations that pertain to the activity. No current varsity uniforms will be used for this purpose other than All-Star competition.

49. VACATION PRACTICE: Any practices to be held when school is not in session must be cleared by the Activities Director. When it is necessary to have practice over a vacation the head coach will notify all participants in advance.

The following participation guidelines will be used for all high school athletic activities.

**SHELBY-RISING CITY -RISING CITY HUSKIES
ATHLETIC CODE OF CONDUCT**

As a member of A Shelby-Rising City High School athletic team, there are certain standards you must live up to. You are expected to attend school regularly, maintain complete and passing grades in all classes, follow all school and team rules, and act in such a manner that represents you, your team, your school, and your community positively. To make this process as objective as possible, the following point system will be used to determine consequences for failing to live up to these standards.

Every ~~player~~ participant starts the season with a clean slate of zero points. The point values assigned to different actions are then added as necessary.

When a student in high school accumulates a total of four (4) points, he/she will be required to sit out the next contest he/she will normally participate in. Every multiple of four points (4, 8, 12) will require missed contest. A participant accumulating **more than** twelve (12) points will be dismissed from the activity, having no chance to letter or earn any post-season honors such as all-district or all-state.

When a student in Jr. High accumulates a total of six (6) points, he/she will be required to sit out the next contest he/she will normally participate in. Every multiple of six points (6, 12) will require a missed contest. A participant accumulating **more than** twelve (12) points will be dismissed from the team.

<u>Infraction</u>	<u>Points</u>
Late for game, practice, meeting, lifting, or any activity where time is set.	1 per occurrence
Penalty time such as: detention, stay after school, come in before school, strike.	1 per occurrence
Unexcused absence from game, practice, meeting, lifting session, or activity called by the coach.	2 per occurrence
Suspension - in school or out of school	2 per each day of suspension

Exception: Missing a weight session after missing practice will not be further penalized, as it is considered an extension of practice.

Infractions out of Students Control: If a situation has occurred where it is out of the control of the participant, the activities director and the administration team will determine if the participant is in violation of the control of conduct.

a. Missing a game due to being ineligible is considered an excused absence, since you are already being punished by the school, and no points will be added for the miss. You will still accumulate the necessary points for being on the eligibility list. If you are ineligible, you are still expected to attend all practices or games that are outside school hours or points can be assessed.

b. Missing a game or practice is considered an excused absence, since you are already being punished by the school, and no points will be added for the miss.

c. High school participants missing a game to due to accumulating four(4), eight(8), or twelve(12) points is considered an excused absence and no points will be added for the miss.

d. Jr. High participants missing a game to due to accumulating six(6) or twelve(12) points is considered an excused absence and no points will be added for the miss.

1. Participants are still expected to attend games are unable to participate in because of the school eligibility policy or this code of conduct if the participant is not missing any of the school day.

2. Participants are still expected to practice if are unable to participate games because of the code of conduct.

RISK MANAGEMENT

I. PURPOSE AND RATIONALE

This document is intended to be a guidebook for all personnel having supervisory responsibilities in high to moderate risk situations. The document can be extended to include everything from elementary playground supervision to coaching of football.

Every year the number of tort claims for negligence increases from coast to coast. Such damage claims can fall upon staff members, administrators, and Boards of Education individually or collectively. These situations can never be eliminated, but can be dealt with in many supervisory situations if information is available such as that contained herein. Small communities suffer less from the plague of negligence suits, but the possibility always exists that there will be an exceptional situation.

Leaving aside the concern over negligence, the concern over safety remains. Using the handbook will hopefully help a supervisor be more able to protect the safety of his/her students in any setting. This, in the end, must be the main thrust of the document.

II. LEGAL DEFINITIONS OF LIABILITY

An employer is liable for negligent acts committed by employees while acting within the scope of their employment. The school district is not the only potential defendant. Coaches, physical education instructors, teachers, and principals can also be sued and held personally liable for injuries occurring in sports-related activities.

There are four elements that an injured student must prove in order to prevail on a negligence claim. Those four elements are: 1) duty, 2) breach of duty, 3) causation, and 4) damages. Where an act is one that a reasonable man would recognize as involving a risk of harm to another, the risk is unreasonable and the act is negligent if the risk is of such magnitude as to outweigh what the law regards as the utility of the act or of the particular manner in which it is done. **Negligence is failing to anticipate and eliminate unreasonable risks of injuries to others when a reasonably prudent person would have anticipated and eliminated those risks.**

1. **DUTY - A school district and its employees are under a duty to exercise reasonable care to protect students from reasonably foreseeable risks of injury.** More specifically, the duty owed an athlete takes the form of giving adequate instruction in the activity, supplying proper equipment, making a reasonable selection or matching of participants, providing nonnegligent supervision of the particular contest, and taking proper post-injury procedures to protect against aggravation of the injury.

2. **BREACH OF DUTY (NEGLIGENCE) - There are risks of injury in any athletic events.** Negligence is not a failure to eliminate all risks of injury but the failure to eliminate unreasonable risks of injury.

3. CAUSATION - If the teacher uses common sense, the accident would most likely not happen. The reason it happens is because of what the instructor does, or, alternatively, what the instructor fails to do - warning the students, and providing them with safety tips.
4. DAMAGES - As a result of the injury, the student suffers actual damage. The dollar amount of those damages are recoverable from the district.

Adolescent high school students are not adults and should not be expected to exhibit that degree of discretion, judgment, and concern for the safety of themselves and others that we associate with full maturity. Recognizing that a principle task of supervisors is to anticipate and curb rash student behavior, our courts have often held that a failure to prevent injuries caused by the intentional or reckless conduct of the victim or a fellow student may constitute negligence.

As part of its more basic duty to protect its students from unreasonable risks of injury, a district has a duty to provide adequate supervision and proper instruction to students involved in athletic activities.

A teacher has a duty to conduct classes so as not to expose students to an unreasonable risk of injury. Certain classes, such as science, physical education and vocational training, involve dangerous activities, and due care must be exercised in instructing, preparing, and supervising students in these activities so as to minimize the risk of injury.

When an activity is potentially dangerous, a student should not be required to attempt such activity without first receiving proper instruction and preparation, including an explanation of the basic rules and procedures, suggestions for proper performance, and identification of risks. Considerations in determining whether instructions are proper and sufficient include the difficulty and inherent dangerousness of the activity and the age and experience of the students.

Coaches -**especially coaches in contact sports**- should carefully review their instructional techniques in order to ensure that those techniques are sufficient to minimize the types of serious injuries that can occur in their respective sports. That requires keeping abreast of current instructional and conditioning techniques as well as current developments in sports safety.

The principal should also be involved, if for no other reason than because a principal who fails to supervise his athletic personnel may expose himself to personal liability. The principal has a duty to exercise reasonable care in supervising the development, planning, and administration of the physical education curriculum within the school; in supervising and evaluating the work of teachers within the school; and in maintaining conditions conducive to the safety and welfare of students during the school day. Failure to reasonably administer the curriculum and supervise the teaching of an instructor creates the opportunity for accidents to occur. Although a principal need not attend every practice, he cannot afford to

sit back and assume that his athletic department is functioning properly and taking the steps necessary to minimize the risk of serious injury to students participating in interscholastic sports.

A school district's legal obligations include more than a duty to provide adequate supervision and instruction. A school district also has an affirmative duty, where students are engaging in school activities, whether they are extracurricular, or formally authorized as part of the school program, to furnish equipment to prevent serious injuries.

Coaches should think twice before conducting any practice sessions in which the students participate without protective gear.

Failing to furnish proper equipment to athletes engaged in interscholastic sports is fairly obvious source of potential liability. A less obvious, but very real, source of potential liability is failing to provide proper equipment to students in gym classes.

Before allowing students to participate in a team practice, in an intramural league, or in gym class activities, a careful determination should be made of the kinds of injuries that students might occur and whether there is any protective equipment available on the market that would minimize the risk of those injuries occurring. If there is any such equipment available, the students should be provided with that equipment or not allowed to participate, irrespective of what other schools may do or what amateur athletic associations may require.

Carefully research the types of equipment available and evaluate any comparative safety flaws before purchasing and providing equipment to your students. Equipment should be regularly inspected and any pieces of equipment that are not in proper working order should be immediately replaced. Furthermore, care must be taken to ensure that the equipment fits properly and that the students are instructed both on how to use the equipment and how to detect defects in the equipment.

In addition to its other duties, a school board has a duty to maintain its facilities in a reasonably safe condition. In other words, a district owes a duty to referees, officials, spectators, and students to maintain its premises in a reasonably safe condition. It is therefore extremely important for a district to inspect its facilities on a regular basis and effect prompt repairs whenever necessary. The term "facilities" mean more than just the school's physical plant. A school district's duty of reasonable care includes protecting against unreasonable risk of injury from dangerous or hazardous objects in school building and on the grounds.

It is extremely important for physical education instructors to evaluate their course plans carefully in order to ensure that students are taught the fundamentals before they are allowed to participate in an activity. Coaches should therefore keep abreast of what other coaches are doing, the order in which they introduce activities, the method of instruction they use, and the types of safety precautions they take. Whatever else may be true in the

shadowy world of negligence, if the coach is not taking the kinds of precautions that other coaches are taking and if the injury would not have occurred had he taken those precautions, the coach will most likely be found negligent.

Negligence is a function of a number of factors, including the foreseeability of the risks, the seriousness of the injuries that might result, and the ease or difficulty of eliminating that risk. Ignoring a foreseeable risk of serious injury when that risk can be easily eliminated is negligence - irrespective of what most people generally do. Just because everyone else may be jumping off a cliff does not make it reasonable to jump with them. Common sense rather than custom should prevail.

Providing safety instructions to the class once may not be sufficient, if for no other reason than because a student may be absent that day. What holds true for physical education classes, however, generally holds true for interscholastic sports. At a minimum, that requires properly instructing the students in how to play the game, properly instructing them in how to protect themselves from serious injuries, and taking the steps necessary to ensure that the students are in proper physical condition.

The coach's function is to minimize the possibility that the body contacts might result in something more than slight injury. The extensive calisthenics, running and other forms of muscular exercise intended to place the players in sound physical condition so that they can withstand the shocks, blows and other rough treatment with which they would meet in actual play. Each player must be taught how to handle himself while in play so that a blow would fall upon his protective equipment and not directly upon his body. Every player must be instructed in the manner of running while carrying the ball, tackling an opposing player, and handling himself properly when about to be tackled.

Some injuries will inevitably occur in sports-related activities. As long as the district and its employees acted reasonably under the circumstances - providing, for example, adequate supervision and training, proper equipment, and reasonably safe premises - there will be no liability. The district may nevertheless be liable if the district fails to provide the injured athlete with prompt medical treatment. The coach will be deemed negligent only if a reasonable layman under the same circumstances would have concluded that the student's condition was sufficiently serious to warrant prompt medical attention. When something is seriously wrong, the time has come to seek medical treatment. The law does not expect coaches to be fully trained physicians but it does expect them to exercise common sense. The duty to obtain prompt medical care when reasonably necessary under the circumstances does not exhaust the duties owed injured athletes. There is also a duty to exercise reasonable care for injured athletes until medical help arrives. The duty to exercise reasonable care extends to all injuries, not simply to those that potentially may lead to death or paralysis. It is extremely important that such personnel are well aware of the types of injuries that may occur in their respective sports and how to respond to those injuries. That requires, among other things, investing the time and effort necessary to keep their knowledge up-to-date. It is not enough to rely on what may have been learned years ago.

It would not be surprising if a court someday found a school district negligent in failing to ensure that a doctor, qualified trainer, or paramedic is present at events, such as football games, that involve a substantial risk of serious injury.

The exact contours of the duty to exercise reasonable care in selecting participants are unclear. The only safe generalization that can be made is that playing an injured player constitutes a breach of that duty. All that can be said is that coaches and physical education instructors must use their common sense and avoid obvious physical mismatches whenever reasonably possible, especially in contact sports where size differentials may significantly increase the risk of injury to a player.

To fill the teams, 22 boys must be selected from those desiring to play. Such selection must be made in a manner permitting the smaller boys to compete with safety and some degree of success, and yet without denying to the larger boys an opportunity to participate. If the classification is made too narrow and rigid, particularly in the smaller schools, a sufficient number of players will not be available to make up the teams. The evidence shows that the selection of players for free play games according to grades is a convenient and practical method of segregation.

In short, coaches and physical education teachers must use their common sense in selecting participants, taking into account the nature of the activity and the extent to which physical disparities may significantly increase the risk of injuries. A gym instructor who allows a class of tenth graders to divide themselves up for touch football but who also keeps an eye out for any blatantly obvious physical mismatches is using common sense. A coach who allows a novice wrestler, that is, one who has no experience or instruction, to wrestle free style with a veteran on the first day of practice is not using his common sense.

School districts may also face potential exposure for injuries occurring off campus. For example, a district may be liable for injuries sustained by students while traveling to school sponsored athletic events. A district may also be liable for injuries occurring at initiation ceremonies or other events held by Lettermen's Clubs and other school-sponsored student organizations. When a school recognizes a student organization, that recognition carries with it the duty to supervise that organization's activities.

In short, sponsoring a student organization carries with it the duty to supervise that organization's activities, irrespective of whether those activities occur on or off campus.

By now, it should be fairly clear that there is no all-encompassing definition of negligence that coaches, physical education instructors, and principals can mechanically apply to determine whether they are acting negligently. Most of the cases that were discussed in this paper were chosen, not because they are necessarily landmark decisions, but because they hopefully provide some sense of what the law expects. Developing that sense is far more

important than developing a checklist of do's and don'ts. What constitutes negligence varies with the circumstances and no two cases are exactly alike.

It should also be fairly clear that coaches, physical education instructors, and principals cannot afford to operate in isolation. Safety requires a team effort. Furthermore, keeping up with what other coaches are doing is something whose importance cannot be overstated. In so many of the cases discussed in this paper, the plaintiffs relied heavily on expert testimony from other coaches to establish negligence on the part of the coach at issue. If other coaches are taking certain safety precautions, the inference is that a reasonably prudent coach would have taken those precautions as well. Attending seminars, workshops, clinics, and the like is therefore an indescribably component of minimizing the risk of liability.

Continually re-evaluating instructional techniques and safety procedures is also something whose importance cannot be overstated. At the risk of being repetitious, there is no substitute for routinely sitting down and carefully evaluating what kind of injuries might occur, why they might occur, whether they can be prevented, and, if so, how.

Although the risk of suit - and the corresponding risk of liability – are ever present in high school athletics, the same is true of almost everything. We all run those same risks every time we drive a car. Just as there is no need for people to stop driving cars, there is no need for high schools to eliminate interscholastic sports or to drop physical education from their curricula. There is a need, however, for everyone - drivers and high school personnel alike - to use their common sense, and in many ways, that is all the law expects.

III. PRECAUTIONS

POSSIBLE SUPERVISOR - STEPS IN LIMITING NEGLIGENCE AND LIABILITY

1. All staff read and perceive the legal components of negligence.
2. Take such "reasonable precautions" as warranted on playground, lab, P.E., shop, and sports, etc.
3. All staff adhere to the "reasonable person standard," as defined previously.
4. Explain all rules and procedures of your task to all your participants and document having done so.
5. Offer suggestions for proper performance of task to all participants and document having done so.

6. Identify potential catastrophic injuries to all participants and their parents in athletics, document having done so. Hold a meeting prior to opening of practice for students and parents.
7. The Principals and Athletic Directors must keep overall supervision of classes and sports that involve risk.
8. All equipment must have the highest standard of fit, quality, and safety features.
9. Coaches and sponsors must inspect equipment and make recommendations as needed to the athletic director or principal.
10. Coaches must keep up with current research and practice in equipment usage and development.
11. The athletic director, coaches and sponsors are responsible for the maintenance and/or inspection of all hazardous conditions that exist in buildings and grounds in the area of their usage and reporting to the Superintendent if they cannot be readily remedied.
12. Supervisors must:
 - a. help students master fundamentals before full participation
 - b. instruct on how to participate
 - c. instruct on how to protect oneself
 - d. facilitate proper conditioning before participation
 - e. be aware of current practice in all of the above
13. Sponsors must perceive "foreseeable risk," as previously defined.
14. Special instruction in safe running, tackling, and protective positions must be taught to all football participants.
15. Medical treatment must be:
 - a. prompt
 - b. appropriate--until medical care arrives
16. Coaches must be extremely cautious in playing injured players.
17. Coaches should avoid physical mismatches in contact sports or conditioning activities.
18. Sponsors are responsible for students in route to, at, and on the way home from events.
19. School recognition of an organization or organizational activity implies legal responsibility for supervision.

20. Insure proper conditioning in:
 - a. strength
 - b. flexibility
 - c. endurance
 - d. coordination
 - e. agility--prior to full participation
21. Maintain adequate personal liability insurance through NCA, NSEA, etc.
22. Keep files on daily practice schedules, injury reports and cautioning of player about the possibility of injury.
23. Require injury reports to be maintained and evaluated.
24. Inspect all permission forms for proper signatures and content. (Students with health conditions must be identified.)
25. Be in close proximate distance and within eyesight to any students under your supervision.
26. Track participants should be instructed in safety procedures involving activities such as pole vault, discus, shot put, street running, and coaches should document having done so.
27. Weight activities must be closely supervised, and instruction given in safe and unsafe practice.
28. All faculty should take steps to complete first aid and C.P.R. training. This is especially true of coaches (When available).
29. Coaches should keep an updated list and complete inventory of first aid and equipment maintenance supplies available at the practice site

IV. SAFETY GUIDELINES - STUDENTS

1. BASKETBALL

This school strives to protect each student from possible injury while engaging in school activities. The guidelines and/or practices identified below have been established for this activity in order to protect the student and others from injury and/or illness. Participants and their parents should recognize that conditioning, nutrition, proper technique, safety procedures, and well fitting equipment are important aspects of this training program. Each participant is expected to follow the directions/standards of the coach.

Guidelines are as follows:

- a. Make certain that you wear all equipment that is issued by the coach. Advise the coach of any poorly-fitted or defective equipment.
- b. Advise the coach if you are ill or have any prolonged symptoms of illness.
- c. Advise the coach if you have been injured.
- d. Engage in warm-up activities prior to strenuous participation.
- e. Be alert for any physical hazards in the locker room or in or around the participation area. Advise the coach of any hazard.
- f. Recognize the possible danger from such actions as: "undercutting" a player, hanging on the basket, throwing a "wild" pass.

2. FOOTBALL

This school strives to protect each student from possible injury while engaging in school activities. The guidelines and/or practices identified below have been established for this activity in order to protect the student and others from injury and/or illness. Participants and their parents should recognize that conditioning, nutrition, proper technique, safety procedures, and well-fitting equipment are important aspects of this training program. Each participant is expected to follow the directions/standards of the coach.

Guidelines are as follows:

- a. Make certain that you wear all equipment that is issued by the coach. Advise the coach of any poorly-fitted or defective equipment.
- b. Advise the coach if you are ill or have any prolonged symptoms of illness.
- c. Advise the coach if you have been injured.
- d. Engage in warm-up activities prior to strenuous participation.
- e. Be alert for any physical hazards in the locker room or in or around the participation area. Advise the coach of any hazard.

TACKLING, BLOCKING, AND RUNNING THE BALL

Tackling and blocking techniques are basically the same. Contact is to be made above the belt, but not initially with the helmet. The player should always be in a position of balance, knees bent, back straight, body slightly bent forward, HEAD UP, AND THE TARGET AREA AS NEAR TO THE BODY AS POSSIBLE WITH THE MAIN CONTACT BEING MADE WITH THE SHOULDER. When properly blocking or tackling an opponent, contact with your helmet will naturally result. Therefore technique is most important in order to prevent or reduce the likelihood of injury.

Blocking and tackling by not keeping the helmet as close to the body as possible may result in a shoulder injury and a separation or a pinched nerve in the neck area. Injuries as a result of improper techniques can range from minor to disabling or even death. Improper body alignment can put the spinal column in a vulnerable position for injury. The development of strength in the neck muscles through isometric-type exercises will enable the participant to hold his/her head up even after getting tired during a workout or contest.

BASIC HITTING (CONTACT) POSITION AND FUNDAMENTAL TECHNIQUE

Strained muscle injuries can range from ankle injuries to serious knee injuries requiring surgery. The rules have made blocking below the waist (outside a two-yard by four-yard area next to the football) illegal.

Cleats are restricted to no more than one-half inch to further help prevent knee injuries. A runner with the ball, however, may be tackled around the legs.

In tackling, the rules prohibit initial contact with the helmet or grabbing the face mask on the edge of the helmet. Initial helmet contact may result in a bruise; dislocation; broken bone; head injury; or internal injury such as kidneys, spleen, bladder, etc. Grabbing the face mask or helmet edge may result in a neck injury which could result in injuries ranging from a muscle strain to a dislocation, nerve injury, or spinal column damage which could cause paralysis or death.

EQUIPMENT

An athlete is required to wear all issued equipment. If equipment is damaged or does not fit correctly, the athlete must inform his coach immediately before use.

Shoulder pads, helmets, hip pads, and pants (including thigh pads and knee pads) must have proper fitting and use.

A shoulder pad, which is too small, will leave the shoulder point vulnerable to bruises or separations. A shoulder pad that is too tight in the neck area may result in a possible pinched nerve. A shoulder pad which is too larger will leave the neck area poorly protected and will slide on the shoulders making them vulnerable to bruises or separations. Helmets must fit

snugly at the contact points: front, back, and top of head. The helmet must be safety "NOCSAE" branded, the chin straps must be fastened, the cheek pads must be of the proper thickness. A fit which is too loose could result in headaches; a concussion, a face injury such as a broken nose or cheekbone, or a blow to the back of the neck, causing a neck injury, possibly quite serious such as paralysis or even death.

FOOTBALL SAFETY GUIDELINES-COACHES

1. **CONDITIONING:** Daily practice sessions should include activities designed to improve every athlete's flexibility, strength, and endurance. Emphasis must be applied to flexibility and strengthening of the neck. Stretching activities should precede all practices for joint flexibility and muscular elasticity. The coach should provide a continuing and progressive training program to advance the athlete's tolerance to fatigue; he should be aware of increased chances for injury as players compete beyond their fatigue level. Players should be attuned to the idea that conditioning is a continuous process, not simply an in-season activity.

It is recommended that coaches develop a Pre-season conditioning program for their athletes.

2. **GENERAL HEALTH:** In the interest of maintaining the players health and well-being, the following recommendations are provided:

- a. A coach should present a philosophy to include a balanced diet and training program.
- b. Water must be available and water breaks provided for all practices and games.
- c. Ice or some form of cold compress should be available during practice and competition for injuries such as sprains or strains.
- d. All players should be informed to report injuries and illness to the coach.

3. **SAFETY PRECAUTIONS:** In order to encourage maximum participation with a minimum amount of risk, the following safety recommendations are provided:

- a. No player should be allowed to participate in any drills (including non-contact drills) without proper equipment.
- b. The coach should teach blocking and tackling (both offensive and defensive contact) skills and techniques systematically, by progression, **cautioning players regarding possible hazards inherent in each position and document having done so.**
 - (1) provide an appropriate variety of drills and situations for each skill and technique.
 - (2) provide periodic review.
 - (3) correct improper techniques.
 - (4) the following specific areas should be covered:
 - (a) keeping the head up, eyes open.
 - (b) keeping the neck bowed.
 - (c) not using the head as the initial point of contact.

c. **Before the first day of contact, instruction should include thorough coverage of illegal and potentially dangerous situations. Indicate reasons why such situations are dangerous. Provide periodic review.**

d. Protective equipment must be worn by all players in all contact practice sessions and must be kept in good repair.

e. Avoid contact between players of extreme weight, strength or ability differences.

f. Coaches must see that practice fields are free of obstructions and potential hazards. Coaches are to report potentially hazardous situations to an administrator as soon as possible.

g. No player should be allowed to participate in contact drills until the coach feels the player can protect himself and is adequately conditioned.

h. Players should not be permitted to wear shower caps or other items underneath the helmet that cause heat retention. No kerchief, scarf or any other such item, which would affect the fit of the helmet or would be left protruding from the helmet, should be permitted.

i. Coaches make the initial assessment concerning an injury on the field. Whenever there is a possibility of serious injury, emergency services should be called to make the decision as to treatment and/or transportation.

j. Coaches should be aware of weather conditions that may affect the ability of players to practice. Hot, humid weather conditions may cause heat exhaustion or heat stroke. Coaches must be aware of these conditions and take proper precautions.

1. This includes the NSAA protocols when it comes to heat, illness, and concussions.

k. **SPEARING**: The former definition of spearing applied only if contact was initiated on a player who was down, held so he was going down, held so forward progress was stopped, or a player obviously out of the play. However, the prohibition against using the helmet to punish should apply to all players in all situations. The runner is now also obligated not to spear. If a runner intentionally uses the helmet to punish, he will also be guilty of spearing. Spearing is a very dangerous technique that serves no purpose in the game and is only done to abuse an opponent. If the helmet is intentionally driven into an opponent in a deliberate attempt to inflict punishment, it is spearing. Coaches must not teach this illegal tactic. A spear is not accidental contact; it is intentional contact not resembling a legal block, tackle, or an effort by the ball carrier to continue forward progress.

INTRODUCTION

This handbook provides information to persons who are employed by the school district and are referred to in this handbook as employees, staff, or staff members. It is designed to provide practical information about the daily operation of the schools in the district and contains building and district directories, safety and emergency information, as well as district policies and procedures. Each staff member should carefully review this handbook. The administration and the board of education continually review policies and procedures, so staff members should discuss comments, concerns or suggestions about this handbook with their building principal or another member of the administrative staff.

This handbook does not create a “contract” of employment. Staff positions and assignments that do not require a teaching certificate or are not otherwise governed by the teacher tenure laws may be ended or changed on an at-will basis notwithstanding anything in this handbook or any other publication or statement, except a contract approved by the board of education.

Many situations may arise that are not covered by this handbook. In those instances, staff members should use their own good judgment or consult with the administration. If any information contained in this handbook conflicts with board policy or state statute, the policy or statute will govern.

The provisions in this handbook are subject to change at the sole discretion of the Superintendent and the Board of Education. From time to time, you may receive updated information concerning changes in the handbook. These updates should be kept within the handbook so that all procedures can be kept up to date. If you have any questions regarding this handbook, please ask your supervisor or the Superintendent for assistance.

Your suggestions about ways to improve the school are welcome and will always be considered.

NONDISCRIMINATION IN EDUCATION PROGRAMS AND ACTIVITIES

This school district does not discriminate on the basis of race, color, religion, national origin, sex, marital status, disability, military or veteran status, or age or in admission or access to, or treatment of employment, in its programs and activities and provides equal access to the Boy Scouts and other designated youth groups. Any person having inquiries concerning this school district's compliance with the regulations implementing Title VI, Title IX, or Section 504 is directed to contact Superintendent Tucker Tejkl ttejkl@shelby.esu7.org in writing at PO Box 218, Shelby, NE 68662 or by telephone at (402) 527-5946. For further assistance, you may also contact Office for Civil Rights (Kansas City Office), U.S. Department of Education, 8930 Ward Parkway, Suite 2037, Kansas City, MO 64114-3302, Telephone: 816-268-0550, FAX: 816-823-1404; TDD: 877-521-2172, Email: OCR.KansasCity@ed.gov.

DRUG-FREE WORKPLACE REQUIREMENTS

The unlawful manufacture, distribution, dispensing, possession or use (influence) of a controlled substance during working hours is prohibited by personnel of the school district. The use of such substances by the personnel of the school district during working hours poses a danger to the students and other school personnel.

Prohibited drug activity on school premises or at any school-sponsored activity or event shall include engaging in the unlawful possession, selling or dispensing of look-alike drugs, controlled substances or alcoholic liquor. Look-alike drugs are those drugs which are not controlled substances but are represented as such, including chemicals which elicit the same effect such as K2 or spice. Personnel who are guilty of drug abuse violations in the workplace shall be given a list of agencies for drug counseling and rehabilitation. Employees of the school district shall have appropriate personnel action taken against them, up to and including immediate cancellation of their employment, in the event of drug use, as defined herein, on school premises or at any school-sponsored activity or event.

Each employee of the school district shall have available to them a copy of this policy relating to a drug-free work environment. It shall be a condition of employment with the district that all employees abide by the terms of this policy. Any employee of the school district shall notify the administration of any criminal drug statute conviction for a violation occurring in the workplace no later than one day~~5 days~~ after such conviction. Within 30 days of receiving notice from an employee of the school district who has been convicted of any criminal drug statute occurring in the workplace, appropriate personnel action against such employee, up to and including termination, or requiring such employee, at the employee's expense, to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a federal, state or local health, law enforcement, or other appropriate agency, shall occur.

The purpose of this policy is to prohibit the unlawful manufacture, distribution, dispensation, possession or use of a controlled substance by any employee of the school district during that employee's working hours or while that employee is on duty. Accordingly, the term "workplace" includes every location where a school district employee may be found during his or her working hours or while he or she is on duty, whether or not such location is on school district property or within the geographic limits of the school district.

2. Make a written request to your Principal with an explanation of the type of fundraiser, dates of sales/event, and purpose for the funds at least four weeks prior to it beginning.
3. Upon approval it will be placed on a fundraising calendar to assist other groups to avoid scheduling over it or duplicating the product.
4. No more than two (2) sales fundraisers may be done by any one organization.
5. Service fundraisers (i.e. Concession Stand, Burger Feed, Community Service, Hired Hand Auction, or any free-will donation event) also need approval, but will not be limited in number.

All club or camp accounts associated with school-sponsored activities or employees that are not directly funded by the school are required to have a district administrator as a co-signee for the account.

Background Checks

Upon initial hiring, all employees of the District will have a background check conducted as part of the safety and security policy. Anyone who works with students, whether paid or volunteer, will also be subject to initial background check prior to being granted permission to assist or being hired.

As necessary, the Superintendent of Schools may authorize a background check to be conducted on a current employee or volunteer if it is deemed in the best interest of the district.

Bell Schedule

Refer to Appendix A for building bell schedules.

Board Policies

The Board of Education has adopted policies that govern the operation of the school district. A complete policy manual is available on the **district's website** or in the main administrative office. These manuals will be updated

as the board adopts new policies or modifies existing policies. In particular, the 400 series deals with policies that affect personnel. Topics not covered expressly in the Staff Handbook may be addressed in District Policy.

Calendar

Each ~~spring~~winter a committee works with the administration to determine the best possible school calendar for the following year that meets Nebraska Department of Education Rule 10 guidelines and creates the best educational opportunities for our students. The yearly calendar is available in **Appendix O** or on the District website.

Child Abuse (Board Policy 403.02)

School employees who have reasonable cause to believe that a child has been subjected to child abuse or neglect or observe a child being subjected to conditions or circumstances which reasonably would result in child abuse or neglect will report the suspected abuse or neglect according to the following procedure.

1. Any school employee who has reasonable cause to believe that a child has been abused or neglected shall report the suspicion to the building Principal immediately.
2. The principal and the school nurse and/or the school guidance counselor shall, whenever possible, investigate the concern within 24 hours of receiving the initial report. The school staff shall endeavor to conduct this investigation in a manner that does not interfere with any current or future investigation by law enforcement. When the principal determines that a report should be made through the district, he or she shall make a report to the office of social services or law enforcement. The principal shall inform the employee(s) who made the initial report whether he or she has made a report to the office of social services or law enforcement. If no such report has been made, the employee(s) shall file such a report if he, she or they have reasonable cause to believe that a child has been abused or neglected.
3. Any doubt or question in reporting such cases shall be resolved in the favor of reporting the suspected abuse or neglect. Consultation between the administrator and school employee is encouraged, keeping in mind that prompt reporting is essential.

Community Organization-Request For Student Participation

Representatives of any community organization wishing to use any students or group of students shall make arrangements through the Principal.

Permission for absence will not be granted to participating students without due consideration as to the student desired and the nature of the program.

Commuters (Staff not living in-district)

Teachers that commute to Shelby-Rising City Public Schools for employment are expected to be subject to the same Board expectations as to extra duty participation, attendance, and arrival and departure etc. as teachers who reside locally. If car pools are used, members of the pool must drive separately on those occasions when one pool member must arrive at school after 7:45 a.m. or leave school before 3:45 p.m. The necessary absence or early departure of one pool member must not affect arrival and departure of others.

Complaint Procedure

Good communication helps to resolve many misunderstandings and disagreements. This complaint procedure applies to board members, patrons, students and school staff, unless the staff member is subject to a different grievance procedure pursuant to policy or contract. Individuals who have a complaint should discuss their concerns with appropriate school personnel in an effort to resolve problems. When such efforts do not resolve matters satisfactorily, including matters involving discrimination or harassment on the basis of race, color, national origin, sex, marital status, disability, or age, a complainant should follow the procedures set forth below:

1. The first step is for the complainant to speak directly to the person(s) with whom the complainant has a concern. For example, a parent who is unhappy with a classroom teacher should initially discuss the matter with the teacher. However, the complainant should skip the first step if complainant believes speaking directly to the person would subject complainant to discrimination or harassment.
2. The second step is for the complainant to put the complaint in writing to the Building Principal, Title IX/504 coordinator, Superintendent of Schools, or President of the Board of Education, as set forth below.
 - a) Complaints about the operation, decisions, or personnel within a building should be submitted to the principal of the building.
 - b) Complaints about the operations of the school district or a building principal should be submitted in writing to the superintendent of schools.
 - c) Complaints about the superintendent of schools should be submitted in writing to the president of the board of education.

- d) Complaints involving discrimination or harassment on the basis of race, color, national origin, gender, marital status, disability, or age may also be submitted, at any time during the complaint procedure to the School District's Title IX/504 coordinator. Complaints involving discrimination or harassment may also be submitted at any time to the Office for Civil Rights, U.S. Department of Education: by email at OCR.KansasCity@ed.gov; by telephone at (816) 268-0550; or by fax at (816) 268-0599.
3. When a complainant submits a complaint to an administrator or to the Title IX/504 coordinator, the administrator or Title IX/504 coordinator shall promptly and thoroughly investigate the complaint, and shall:
- a) Determine whether the complainant has discussed the matter with the staff member involved.
 - 1) If the complainant has not, the administrator or Title IX/504 coordinator will urge the complainant to discuss the matter directly with that staff member, if appropriate.
 - 2) If the complainant refuses to discuss the matter with the staff member, the administrator or Title IX/504 coordinator shall, in his or her sole discretion, determine whether the complaint should be pursued further.
 - b) Interview the complainant to determine:
 - 1) All relevant details of the complaint;
 - 2) All witnesses and documents which the complainant believes support the complaint;
 - 3) The action or solution which the complainant seeks.
 - c) Respond to the complainant. If the complaint involved discrimination or harassment, the response shall be in writing and shall be submitted within 180 days after the administrator or Title IX/504 coordinator received the complaint.
4. A complainant who is not satisfied with the administrator's or the Title IX/504 coordinator's decision regarding a complaint may appeal the decision to the superintendent.
- a) This appeal must be in writing.

- b) This appeal must be received by the superintendent no later than ten (10) business days from the date the administrator or Title IX/504 coordinator communicated his/her decision to the complainant.
 - c) The superintendent will investigate as he or she deems appropriate. However, all matters involving discrimination or harassment shall be promptly and thoroughly investigated.
 - d) Upon completion of this investigation, the superintendent will inform the complainant in writing of his or her decision. If the complaint involved discrimination or harassment, the superintendent shall submit the decision within 180 days after the superintendent ~~received the complainant's~~ received complainant's written appeal.
5. A complainant who is not satisfied with the superintendent's decision regarding a complaint may appeal the decision to the board.
- a) This appeal must be in writing.
 - b) This appeal must be received by the board president no later than ten (10) business days from the date the superintendent communicated his/her decision to the complainant.
 - c) This policy allows, but does not require the board to receive statements from interested parties and witnesses relevant to the complaint appeal. However, all matters involving discrimination or harassment shall be promptly and thoroughly investigated.
 - d) The board will notify the complainant in writing of its decision. If the complaint involved discrimination or harassment, the board shall submit its decision within 180 days after it ~~receives~~ received complainant's written appeal.
 - e) There is no appeal from a decision of the board.
 - f) Board Policy 403.05 and 1005.01 may be used as procedural references to the complaint process.
6. When a formal complaint about the superintendent of schools has been filed in writing with the president of the board, the president shall promptly and thoroughly investigate the complaint, and shall:

- a) Determine whether the complainant has discussed the matter with the superintendent.
 - 1) If the complainant has not, the board president will urge the complainant to discuss the matter directly with the superintendent, if appropriate.
 - 2) If the complainant refuses to discuss the matter with the superintendent, the board president shall, in his or her sole discretion, determine whether the complaint should be pursued further.
- b) Determine, in his or her sole discretion, whether to place the matter on the board agenda for consideration at a regular or special meeting.
- c) Respond to the complainant. If the complaint involved discrimination or harassment, the response shall be in writing and shall be submitted within 180 days after the president received the complaint.

The school district prohibits retaliation against any person for filing a complaint or for participating in the complaint procedure in good faith.

Computers and the Internet: Acceptable Use by Staff

Teachers must examine the source of the information and provide guidance to students on evaluating the quality of information they may encounter on the Internet.

2. **Unacceptable Use**

- a) Staff shall not access material that is obscene or pornographic.
- b) Staff shall not engage in any illegal activities on school computers, including the downloading and copying of copyrighted materials.
- c) Staff shall not use chat rooms or instant messaging – unless it is a secure portal for school use only.
- d) Staff shall not access social networking sites such as (but not limited to) Facebook and Twitter on school computers or during school time unless such access is for an educational activity. Please refer to Board Policy 0403.07 on Employee Use of Social Networks.

- g) Staff shall not share their passwords with anyone, including students, volunteers or fellow employees.

3. **Methods of Enforcement**

The school district owns the computer system, and staff members have no right of privacy to any Internet communications or other electronic files. As with any school property, electronic files on the system are subject to search and inspection at any time.

The system administrator may override the technology protection measure that blocks or filters Internet access for staff access to a site with legitimate educational value that is wrongly blocked.

Staff who are unsure whether their proposed reproduction of copyrighted material constitutes “fair use” should consult with their building principal.

Corporal Punishment

Corporal punishment is the infliction of bodily pain as a penalty for disapproved behavior, and is prohibited by law. Some physical contact is inevitable, and most of it is appropriate. Corporal punishment does not include the use of physical force that is reasonable and necessary to (1) protect school employees; (2) protect students or property; or (3) remove a student from a situation that endangers the student, persons or property. Staff members should promptly report any event that required the use of physical force to their building principal.

This voluntary, cost-free program is intended to assist staff in obtaining help to resolve problems in a confidential manner. However, staff must remember that they bear the responsibility to seek assistance and to resolve the problem.

Special service teachers (Resource, Special Ed., Chapter I, Speech, Counseling, PT, OT) bear no greater responsibility for this effort than does the classroom teacher. Nebraska Statute 79-293 requires reporting violations of the Nebraska Criminal Code by students or employees. Nebraska Statute 28-902 makes failure to report injury of violence a class III misdemeanor.

News and Press Releases

Positive media coverage of the school district and its activities is good for the school, its staff, and its students. Staff should endeavor to establish and maintain cordial relationships with local media outlets. Activity sponsors and other staff who are involved in newsworthy activity should submit typed press releases to the office for distribution to the media when noteworthy events have occurred. Coaches must communicate with local TV, radio and print media promptly after matches or games to disseminate the results.

Communicating information about our schools to the public is one of our most important tasks. News of important and/or interesting events and activities are usually welcomed by the newspapers.

Please check with the office to determine if some students have restrictions placed on use of their name, picture, or other directory information in press releases, newsletters, or on social/digital media.

Newsletters

Outside Employment (Board Policy 403.06)

No teacher or other school employee may accept any other employment or carry on any business or activity for profit that interferes with the complete discharge of his or her responsibilities to the School District unless the terms of employment by the Board of Education provide for such other employment during the term the individual is to be on full-time duty with the Board of Education in accordance with the contract of employment. However, provided there is no interference with school duties, school employees may engage in occasional employment or carry on occasional business transactions for profit outside of school hours and on school holidays.

If regular basis or of frequent occurrence, the school employee shall submit a request to the Board of Education, through the Superintendent, to carry on such outside activities. The request shall show the hours and times of the day and week to be devoted to such activities, the rate of pay or expected income, location and nature of the activity, and similar pertinent information. Staff members are not to use cell phones while driving a school vehicle or while transporting students. The District has several vehicles available for transporting students and staff to school activities or professional conferences. **Use of a personal vehicle to transport a student requires administrative approval** and should not be done when a school vehicle is available. Staff members that choose to use a personal vehicle when a school vehicle is available may not be compensated for mileage or driving expenses unless pre approved through superintendent.

Political Activities

District employees retain all rights of citizenship, including, but not limited to, engaging in political activities. An employee of the District may participate in the political process, including seeking an elective office, provided that the staff member does not campaign on school property during working hours, and provided all other legal requirements are met. The District assumes no obligation beyond making such opportunities available.

While the District supports its employees by allowing them to exercise their rights, any impact on the employee's ability to perform his or her functions as required by the district is grounds for discipline. For further guidance regarding political conduct on school grounds, contact the superintendent and consult the board policies.

Post Office/Mail

The district will pay postage for necessary mailings from district personnel for school business. If the mailing is large, the employee should have administrative approval prior to sending. Mail goes out everyday at 3:30pm, if you have mail that needs to go out before the end of the day please let office personnel know. Do not send personal mail from the school.

Principal's Role

The Principal is the immediate supervisor of all certified and classified staff involved with his/her grade-level students. The primary responsibility of the Principal is to manage the day-to-day operations of the grade-levels they are assigned within the guidelines set forth in District Policy, Nebraska Department of Education regulations, and accompanying procedural handbooks. A key element of those operations is supervising instruction through the established evaluation procedures of the school district. It is the Principal's responsibility to supervise after school events held with their grade-level students and to work cooperatively with other District Administration to properly cover required supervision assignments.

Interaction and collaboration with all district stakeholders is expected to accomplish the District Mission. Principals must hold a valid Nebraska Administrative Certificate.

Professional Boundaries Between Staff and Students

All district employees must follow board policy when interacting with students in any way. School district employees are responsible for conducting themselves professionally and for teaching and modeling high standards of behavior and civic values, both at and away from school. District employees must be aware of professional boundaries between students and staff, and they must never blur the boundaries. These standards of behavior apply to social networking sites, such as Facebook, Twitter (X), Instagram, etc., along with communications and interactions of any kind between staff and students.

Use of social networks is detailed in board policy 403.07.

Examples of unprofessional misconduct include: inappropriate sexual communications or interactions with students, meeting with students in private outside of school, and intruding on a student's personal space. These are a few examples of inappropriate behavior, and is not an exhaustive list. For further guidance, refer to the district's policies regarding professionalism and staff-student interactions.

Any teacher or student who witnesses or knows information about a district employee violating board policy should report the violation to the district administration *immediately*. Minor violations and questionable violations should be reported within 24 hours.

A violation of board policies for professionalism will form the basis for employee discipline up to and including termination or cancellation of employment, filing a report with law enforcement officials, and filing a report with the Commissioner of Education.

Additional information regarding staff contact with students can be found under board policy 402.15.

POLICIES AND PROCEDURES REGARDING CERTIFIED STAFF

Absences and Leave

The definition and accumulation of leave for teaching staff is governed by the Negotiated Agreement between the Board of Education and the Education Association. This handbook sets forth the process for using that leave

1. Paid Time Off Leave

Certified staff members have (11) eleven days of paid time off each school year. In all cases this leave requires administrative permission to use. It is encouraged that certified staff use leave in cases where it would have the **least impact on student instruction**, except in cases of illness or emergencies that are unavoidable. This leave is used for all absences not listed below and will require an explanation.

PTO leave exceeding three (3) consecutive days will only be granted for medical or emergency situations. Refer to FMLA leave for those circumstances that would be considered.

Staff members are responsible for finding their own substitute from the approved list (Google Drive), filling out the leave form (online), and if less than 48 hours notice, call or talk to your immediate supervisor/principal. Substitutes must hold a valid Nebraska Teaching Certificate and be on our approved list of substitutes.

At the end of each school year, a teacher who has 30 accumulated days will be paid \$25 for any of the 11 unused days for that year. This will be in the employee's June paycheck.

2. Personal Leave

The District does not offer Personal Leave. "Personal" may not be used as a reason for taking leave.

3. Professional Leave

The board and administration recognize the value of continuing education and encourage certified staff to participate in seminars, workshops, and other activities that will continue their professional growth. Certified staff members who wish to take professional leave must submit a leave request to their building principal, along with a description of the proposed event and any written materials about the event. Building principals may deny requests for professional leave if you are unable to secure the services of a qualified substitute or if the principal determines that the activity will not enhance the certified staff member's effectiveness as an employee of the district.

The unused portion of the 11 leave days shall be accumulated from year to year to a total of 30 days. These accumulated days will be designated as sick days. Each school year, each teacher shall use the eleven (11) paid leave days before being allowed to use the accumulated sick leave.

Employees will be able to use their accumulated sick leave for illness, doctor's appointments in their immediate family that shall include spouse, children, mother, father, mother-in-law, father-in-law, grandparents, grandchildren, and anyone living in the household under your care.

After five days of consecutive absence, the Board of Education through the Superintendent, may request a doctor's written statement outlining any continued need for time off, including the probable time of return to work. After an absence, due to illness, the employee may be asked to sign a statement saying that the absence was due to illness.

7. Long-Term Absences (Medical/Maternity)

Long-term absences can occur for many reasons and are usually related to medical or maternity. When a long-term absence is likely, you should meet with your immediate supervisor and then contact the Superintendent regarding your available paid leave and accumulated sick leave. You should also refer to the Family Medical Leave Act (FMLA) to be sure you qualify and understand how that impacts your request. The District will allow staff to use their paid leave and accumulated sick leave for up to twelve calendar weeks of long-term leave. If an employee does not have enough paid days, they will be granted a pay deduction equivalent to substitute pay for contract days they are absent during the first six weeks. Long-term leave in excess of six calendar weeks with no PTO will be treated as unpaid contract days.

8. Full-Time Substitute

The District, when employing a full-time substitute, requires that this person be assigned the first substitute position each day one is required

for a teacher. It will be the teacher's responsibility to verify and notify the full-time substitute of the assignment. If multiple teacher absences occur, the full-time substitute's assignment can be modified to best fit the assignments needed. If the full-time substitute is not assigned a teacher sub position, they may be used to sub for a paraeducator.

All certified staff members should attend school assemblies and should try to attend as many of the school functions as possible regardless of whether they have specific assigned duties or not.

Assignment Notebooks / Student Planners

Assignment Notebooks/Student Planners ~~are the students' make-up slips, as well as pass out of class or to see another instructor. They can also~~ be used as a communication tool home to parents/guardians. ~~Students may not be in the hallways during class time without his/her assignment notebook signed by the instructor. Every time a student leaves class to go to the bathroom it should be signed. This way, other staff can ascertain where the student has permission to be.~~

~~Students may not go to another classroom without a signed pass obtained from that teacher. No student may be in the halls during class or study time without a signed pass for a specific destination. If a teacher retains a student after the period ends, staff must write a note in the student's assignment book stating why the student was late, rather than sending the student to the office for a tardy slip.~~

Assignment of Teachers

The administration will assign certified staff to individual duties. Certified staff will also be assigned for various forms of hall, extracurricular, recess, traffic, distance learning class supervision, lunch period and other noontime duties, and activity athletic events.

Benefits (Insurance and Annuities)

Certified staff, per the negotiated agreement, receive health and dental insurance with the District paying 100% of the premiums. Questions regarding the policy should be directed to the District Business Manager.

Certified staff are also eligible for disability insurance, tax sheltered 403B plans, flexible spending accounts, and supplemental insurance products at their own expense. The district will provide payroll deduction options.

Certificates, Teacher Contracts, Salary Information

Teaching certificates must be up-to-date, on file, and registered with the Superintendent before they may legally be paid. It is the certified staff member's responsibility to make sure this is done.

Each certified staff member must provide the superintendent's office with the following information:

It is the sole responsibility of the certified staff member to inform the superintendent of any changes, including but not limited to changes in certification, endorsements, benefits plans, and salary payment information.

The District will issue contracts or notify teachers of their status for the ensuing year by April 15th annually. Once contracts have been signed and returned for the ensuing year, requests for release from contract shall be handled as follows:

A request received on or before May 1 from a teacher for a release from his/her teaching contract for the upcoming year shall be considered based upon the individual circumstances involved in the request. The Board of Education may elect to approve or deny such requests.

A request received after May 1 from a teacher for release from his/her contract for the upcoming year will be approved only after the hiring of a suitable replacement. Suitability of the proposed replacement shall be at the Superintendent's discretion. The Board may elect to approve or deny any such request.

Cheating

~~**CHEATING:** Copying someone's work and passing it off as your own original work or allowing your work to be copied by someone else who then passes it off as their own original work. (The student may, in writing, appeal any loss of credit due to cheating to the Principal. That decision will be binding.)~~

- ~~a. **Each Offense:** Office Referral Form shall be completed and turned into administration immediately. Student(s) will be responsible for learning and will redo assignments in a timeframe and with parameters provided by administration. Additional administrative action may be taken.~~

Check-out Forms

All certified staff must complete a check-out form and obtain the building principal's signature on the form prior to departing for the summer. Classrooms must be tidy to allow the custodial staff to clean classrooms and work areas.

Any fees or damages due to the district will be withheld from the June paycheck if not paid.

Teachers may retain their school keys, laptop, and iPad for use over the

summer if they intend to return for the following school year.

Class Records

A class record is the school's official record of matters relating to each student in each teacher's class. It will be maintained in electronic form using **Power School** and must be complete in scope and accurately maintained. ~~Teachers should also keep a printed copy for their own records and as a backup. All classroom teachers are required to keep class records that list students in each class in alphabetical order and show the attendance and all grades earned by each student. At the end of each school year, classroom teachers must turn their records into the building office.~~ Records are subject to examination by the building principal or superintendent at any time.

Classroom Management and Student Discipline

Classroom discipline is first and foremost the responsibility of the classroom teacher. Individual teachers are expected to assume responsibility for good discipline throughout the school. However, if a certified staff member needs assistance with student discipline, they should seek the advice and counsel of the principal or superintendent.

Our District uses the PBiS model for discipline. Information is available on pages 58-59 of the Student Handbook. Teachers will be required to follow the consequences and reporting requirements of the program to ensure consistent enforcement and accountability for students in all grade levels.

Teachers may remove a student from the classroom for failure to comply with established rules of conduct. Only an administrator can suspend or expel students from class or school and due process must be followed.

Students may be kept after school for matters relating to discipline or to assist in their academic progress. Certified staff should allow all elementary students and junior/senior high students who ride the bus to arrange parental transportation for the next day with their parents. Students who do not have transportation concerns may be kept without delay. Students may not avoid being kept after school because they have an after school practice or other school activity.

Additional student discipline information is available on pages 48-57 of the Student Handbook.

Classroom teachers may not leave their classrooms unless the students are supervised by a competent adult.

At the beginning of the school day, the classroom teacher should have their

~~classroom door unlocked.~~ Classroom teachers may ~~not~~ close ~~their door, but it will remain unlocked until~~ unlocked & lock the door to their rooms until they have left the building or unless they are sponsoring some other group in other areas. This applies when normal instruction is occurring.

Both elementary and secondary certified staff are responsible for assisting with hallway discipline between classes and in the school lunchroom.

Classes should begin on time and end promptly. Work should continue throughout the period assigned for it. Classroom teachers have no right to waste the ~~students'~~ pupils' time. Classroom teachers may not dismiss classes early except by permission of the building principal.

Staff members may never send a student off school grounds without the authorization of the building principal.

~~At the beginning of the day,~~ Classroom teachers may not admit tardy students to class without an admit slip from the ~~office principal or the student's teacher from the previous period.~~

Classroom Sanitation

1. Handling of Body Fluids

All body fluids of all persons should be considered to potentially contain infectious agents (germs). Hand washing after contact with a school child is recommended if physical contact has been made with any child's blood or body fluids. The term "body fluids" includes: blood, semen, drainage from scrapes and cuts, tears, feces, urine, vomit, respiratory secretions and saliva.

2. Infectious Diseases

Certified staff must submit a financial accountability summary when they turn funds into the office. The summary should include the amount, date, organization, what it is for, and the sponsor's signature.

When students purchase items such as coats, rings, etc., through the school district, they must pay for these and other major items before the order is sent unless specified otherwise. The sponsor of any school organization may give merchandise to students who have made proper payment only.

Community Involvement

Certified staff are encouraged to take part in civic affairs in the community. Board Policy on Community Involvement can be found in section 1000.

Disclosure of Staff Qualifications

The Every Student Succeeds Act (ESSA) gives parents/guardians the right to obtain information about the professional qualifications of their child's classroom teachers. The District designates the following information as "directory information" and will give parents/guardians such information upon request:

- Whether the teacher has met state qualifications and licensing criteria for the grade levels and subject areas in which the teacher provides instruction.
- Whether the teacher is teaching under an emergency or provisional teaching certificate.

Display of Classroom Work in the School and the Community

Classroom teachers are encouraged to display student work for public viewing. Students and parents enjoy viewing the display and may be even more

supportive of their school because the display shows them many of the things the students do. Classroom teachers may use the window area of the central office or the commons area to display student work or they may use it during a night activity. Certified staff must contact the principal before displaying student work at an evening activity.

Extracurricular Activities

Classified staff must schedule all events and other extracurricular activities at the activity director's office to avoid conflicts. Activities must be put on the school calendar located in the activity director's office at least one week before the activity. Staff should avoid or shorten practices and activities on Wednesday evenings and Sundays, in order to give students sufficient time away from school for family-related activities.

Certain activities require time to be scheduled outside regular school hours. Any school sponsored activity involving students must have approval of the superintendent principal prior to the activity, including all fund raising activities.

Regular classroom work in all grades will have precedence over any other activity. Students will not be dismissed from classes to participate in extracurricular activities without permission from the principal. Make up slips must be completely signed and returned to the sponsor of the activity prior to dismissal from class. All evening activities, except practices, must have no less than two school sponsors. Non school sponsors must be approved by the administration. The activities director has the responsibility for all activities. Therefore, any ruling or handbook decision he/she makes will be school regulation in lieu of further board action.

A student may participate in an educational field trip off school property without written permission from his or her parent or guardian. A parent may withdraw a student from participation in educational field trips with no penalty to the student.

~~Staff are strongly encouraged to attend and support student participation in a variety of school activities, games, and contests.~~

Student Safety Drills

Early in the semester review instructions for leaving the classroom with all of your students. Classroom teachers should periodically review with each class about what to do in case of fire, tornado or other emergency. Additional information is available in the Safety and Security Plan.

1. Fire Drills (Evacuation)

Fire drills will be held on a regular basis. Certified staff may or may not be notified in advance. These drills are important exercises that help ~~ensure~~insure the safety of students in case of an emergency.

Evacuation information should be posted by the door of your classroom or office.

2. Tornado Drills (Shelter)

When a tornado warning has been issued, the school will evacuate classrooms and move students to the basement (or lowest level) of the building. Tornado alerts will be given via the intercom system. A **lockout** is called when an exterior threat exists in the area of our school. No one will be permitted to enter or exit the building during this time. Classes and other activities will be conducted as normal inside the building. ~~Law Enforcement will be present on campus during a lockout.~~

A **lockdown** is called when a threat exists on our school campus or inside the building. All students and staff should seek immediate shelter in their room or nearest room, lock the door, turn off lights, and secure window shades.

Law Enforcement may be present on campus during a lockout or lockdown.

Evaluations

The appropriate district administrator will evaluate tenured and probationary teachers and staff members as required by law and district policy. Additional evaluations, both formal and informal, may be conducted as the district administration deems appropriate. The teacher evaluation rubric aligned with the Nebraska Framework and Marzano Instructional Strategies is available in **Appendix F**.

An additional resource is available in *Board Policy 406.08*.

Examinations

Teachers are allowed, but not required to, give comprehensive quarter and semester tests. Teachers will determine an appropriate way to measure student learning at the end of a grading period. Ideas could include, but not be limited to, the following: Tests, Projects, Reports, Papers, Essays, etc. The administration can agree with the teacher's decision, or require a different plan be followed.

Faculty Meetings

Grade level (PK-5 and 6-12) staff meetings will be held monthly. ~~athold a monthly meeting that will take place at the end of the month.~~ The staff will be informed on the date in advance to when the meeting will be held. The superintendent and/or principals will call additional meetings as needed. Certified staff are required to be present at all faculty meetings unless excused by the administration.

Field Trip Requests

Certified staff who wish to take students off school property must submit a request to the building principal at least ten calendar days prior to the date of the requested activity and follow board policy 607.05 listed below:

The principal may authorize field trips and excursions when such events contribute to the achievement of education goals of the school district. The school district will provide transportation for field trips and excursions. Excursions are defined as brief educational trips beyond the boundaries of the school grounds beginning and ending in a single class period.

In authorizing field trips and excursions, the principal shall consider the financial condition of the school district, the educational benefit of the activity, the inherent risks or dangers of the activity, and other factors deemed relevant by the superintendent. Parents should be given the option to withdraw their student from participation in the field trip. The superintendent's approval will be required for field trips

outside the state. Board approval will be required for field trips which involve unusual length or expense.

Field trips and excursions are to be arranged with the principal well in advance. A detailed schedule and budget must be submitted by the employee. The employee will be responsible for obtaining a substitute teacher if one is needed. Following field trips and excursions, the teacher may be required to submit a written summary of the event.

Grading Policy

Grades are kept using PowerSchool. At no time should a student's course grade be more than **five (5)** days behind. Teachers should keep regular, detailed assignments and scores entered into the grading program.

Grades should be updated each **Monday by 8:00am**, ~~knowing that eligibility reports are run by 9:00am for MS/HS students.~~

Students who are receiving a cumulative course grade of a "D" or "F" for more than a week should have their parent(s)/guardian(s) **contacted by the teacher and such communication should be documented.**

Grades are given as a letter or percentage as requested by the building principal. No incomplete or conditional grades will be given, but grades may be changed by request of the classroom teacher to the principal.

A student is to be graded on *academic performance* (authentic assessment). **A student's grade is not to be reduced for discipline or attendance.** Prejudice or favoritism has no place in grading a student. All grading should be explained in simple, understandable terms to the student. Starting with the school year 1997-98 it will no longer be acceptable to determine a student's grade in a required class by his/her participation in a performance held outside the normal school hours. All grades will be determined by the teacher using an appropriate procedure based on class objectives met by the student during the scheduled class time and the completion of all homework assignments. ***Students will not be required to make up (or penalized for) "participation" grades when absent for school activities. This does not include a project deadline or assignment.***

Dual credit courses are graded on the Districts Grading Scale and included on your transcript and GPA. College credit only courses are not reflected on a student's transcript or GPA.

~~At the conclusion of each quarter, students will receive an end-of-quarter report card that is generated from grades entered into PowerSchool.~~

The District Grading Scale and Grade Point Average calculations can be found in Appendix G. *Board Policy reference 611.05 and 611.06.*

Guest Lectures

Guest lecturers must be approved by the administration before they are asked to address a class. The guest lecturer must have a specific, relatable objective in his/her lecture.

Hall Duty

Every classroom teacher is on hall duty before school in the morning and between classes. Classroom teachers are responsible especially for the part of the hall adjacent to their classrooms.

Homework Policy

Homework is an important part of student learning and should follow the best practices guidelines adopted by the District. When parents, teachers and students work together, out-of-class assignments are a valuable part of the instructional program. Homework should provide opportunities for students to practice acquired skills, develop initiative, form independent study habits, and use community resources. Staff is discouraged from assigning "busy" work. Any work completed outside of the classroom will not be added to the gradebook but can be used to check for mastery. -as homework in order to fill the grade book.

Instructional Materials

Instructional materials are made available through the Education Service Unit. A catalog and order forms will be made available to all members. Films, videos, and online content should be used as instructional materials. All media must be previewed for suitability by the classroom teacher before being shown to students. Use of full-length movies for instructional purposes is discouraged.

Each teacher will prepare and complete a proper lesson plan. These plans must be written so that they are clear to any substitute teacher. An up-to-date seating chart of the class or classes shall be part of the lesson plan book. The lesson plans of all classroom teachers are subject to review by the administration at any time.

Curriculum Trak or Plan-Book should be used to create all lesson units and daily plans. Alternatives to Curriculum Trak, relative to lesson plans, may be made by individual building principals.

Curriculum Trak must identify instructional objectives, instructional methods, assessments, resources, and alignment to standards. Additionally, teachers may be asked to include general direction that might be followed by anyone who might be called upon to teach the classes.

Weekly lesson plans are due the first day of school week.

Media Center - Library

The media center is set up to serve the needs of certified staff and students. Certified staff who need assistance with textbooks, literature sets, magazines and other reference materials should consult with the media specialist assigned to their building.

Students may use the media center within the guidelines set forth for each building. The media staff may send disruptive students back to class or may exclude unruly students from the media center for a specified period of time. Classroom teachers who send their entire class to the media center must accompany and supervise the students, unless prior arrangements have been made with the media specialist.

Classroom teachers may send individual students to use the media center during class time with a written pass. Guidelines:

- A. Each library pass should indicate the student's purpose for going to the library.
- B. The librarian may request students to return to class when they have completed their tasks.
- C. Students should request to visit the library no more than once during a period.
- D. Students are not to come to the library unsupervised to:
 1. Do make-up work
 2. Work in groups
 3. Make-up tests
 4. Do daily homework

Audiovisual materials are available to certified staff through the media center. Certified staff may obtain these materials by contacting the media specialist.

The Media Center is also shared with our community. Be mindful of activities you schedule for the media center that may impact those patrons. For security reasons do not prop open the blue door between the media center and the school.

Mentor/Mentee Program

The District conducts a formal program for new employees, who are assigned

a mentor from our experienced staff. Teachers new to the profession are mentored for two years and those new to the District are mentored for one year. Mentors are provided training and guidance prior to the school year.

Multicultural Education Requirements

Teachers are required to provide evidence of multicultural lessons that meet the philosophy and goals set in Board Policy 604.04. Each teacher will submit evidence of those lessons by completing the form available on the district's website under the "Staff" tab.

Paraeducators

Paraeducators provide valuable assistance in the educational process and allow teachers to carry out their responsibilities in a more efficient and effective manner. A paraeducator must not, however, assume sole teaching responsibilities. The classroom teacher must maintain the role of leadership and responsibility for the students, with the teacher aide in a supportive role. Paraeducators may be used to assist the classroom teacher by, among other tasks, assisting with instructional activities under the direction of the teacher, helping to supervise students, copying tests and other written material, organizing class materials, preparing bulletin boards, grading tests or class work. ~~Para-educators are to work only on their assigned workdays and within their assigned hours. If the classroom teacher desires the paraeducator to work hours other than the assigned work hours or assigned work day, he or she must contact the administration for approval.~~ (Additional Information under "Classified Only Section")

Appendix Q details legal provisions regarding the use of teacher aides (Para-educators).

Parent-Teacher Communication

Students' academic success has been closely linked to parental/guardian involvement in school. Certified staff should strive to develop open and supportive relationships with parents and guardians. Each classroom teacher is responsible for keeping a student's parents and/or guardians informed about the student's progress. This may be done by letter, telephone, e-mail or personal conference. Certified staff must attend parent teacher conferences, promptly return phone calls, participate in teacher events for students and parents, and document any areas of concern. Certified staff who need additional support in communicating with parents should contact their building principal or guidance counselor.

Students who are receiving a cumulative course grade of a "D" or "F" for more than a week should have their parent(s)/guardian(s) contacted by the teacher and such communication should be documented.

Parking

Staff members have designated parking areas on campus. Staff should not park in the Library/Fitness Center parking area during the school day. If attending activities please park and use an alternate entrance to the building to free up parking near the door for others attending the event.

No parking in the bus drop off and pick up areas located directly in front of the building or on the south side of the competition gym. Those are designated bus zones and handicap drop off areas.

Parties

1. No activities or picnics shall be held by an organization of the school without the presence of the sponsor or sponsors.
2. The number of activities and the closing hour for activities will be determined by the building principal and organization sponsor.
3. In making arrangements for activities and picnics, staff must avoid disturbing the routine of the school.
4. Cleaning up after the activity is the responsibility of the sponsor and students.
5. Review the Board Wellness Policy before allowing food or treats to be brought or served at the party. *Board Policy 508.13*

Personnel Files

Any employee of Shelby-Rising City Public Schools shall upon his/her request have access to his/her personal file but may not have access to letters of recommendation or to sets of confidential credentials which are a part of his/her file. No other person except school officials while engaged in their professional duties shall be granted access to such files nor shall the contents thereof be divulged in any manner to any unauthorized person. Official personnel files for all District employees are kept in the office of the Superintendent.

Planning Time

Each classroom teacher is provided with duty-free time for planning, preparation of school-related materials, and a brief respite from the duties of the day.

The Board defines planning time as time for educational planning and other task-related functions that cannot normally be accomplished during instructional periods. Planning time should not be confused with personal time. **Planning time is not to be used for running personal errands, conducting personal business, using the Fitness Center or pursuing non-school hobbies and/or interests. If you must leave the building**

during this time you must sign out and may be required to use leave.

PowerSchool and PowerTeacher

All teachers/classroom aides will be required to use PowerSchool and PowerTeacher. Attendance will be taken as follows: Elementary – at the beginning of the morning; and Secondary – at the beginning of every period. Attendance must be taken within the first five minutes of each period / beginning session.

Certified staff who have trouble/problems with PowerSchool/PowerTeacher, should contact Matt Carley, our technology director.

Teachers are only permitted to share student information from PowerSchool with certified district employees, custodial parents, or individuals with educational rights.

StudentsPupil Records

1. Each classroom teacher must keep accurate records of daily class activities which may include recitations, assessments, daily work, notebook, etc. This serves as a justification of the final grade in case of dispute between teacher and studentpupil, or teacher and parent, and assists in making out the final grades. This book must be turned into the principal at the end of each school year.
2. Report cards will be issued within one week following the end of the quarter and/or semester unless otherwise announced.

To apply for graduate hour approval and movement, you must discuss summer hours and/or movement with the superintendent prior to the end of the school year. submit the form (Google Drive – Forms) to the superintendent by May 1st of the prior year. Official transcripts are required before salary placement will be completed, which is due at the end of the course (before the next fiscal pay year which is September).

Vertical movement is in direct accordance with experience in the district plus credited prior teaching experience.

School / Contract Day

All certified staff must be on duty between the hours of **7:45 a.m. and 3:45 p.m., Monday through Friday**. On duty is defined as (1) accessible to staff/students/parents in your classroom or office, (2) attending a school meeting, (3) supervision duties, or (4) attending to other professional duties not covered above.

~~On Fridays and days preceding certain holidays or vacation periods, certified staff may be permitted to leave 10 minutes after the students are dismissed.~~ Under special circumstances, certified staff may seek permission from their building principal to vary these duty hours. Classroom teachers will stand at their doors when class is dismissed and must be outside their classroom doors before each class period.~~ Classroom teachers must be physically present in their classrooms at all times during class periods and conference periods.

Personal work may not be done on school time.

Sponsors

Certified staff members are assigned by the superintendent or designee as class and club sponsors. Sponsors must be present at all meetings and activities of the sponsored group. The procedure for activity accounts and meetings can be found in the student activity handbook. Purchasing of supplies must be approved by the activities director and/or superintendent.

Student Activities

Staff members who sponsor extracurricular activities such as athletics, class plays and class activities may leave the school building only after making sure that all students and other individuals have left the building. No student is to be left unattended in (or outside) the school building at any time.

School-owned clothing or equipment that is checked out to students remains the property of the school. The clothing or equipment is not to be used or worn by the student except for its intended use. Each piece of equipment or clothing is to be returned to the instructor or coach when the season or the use for such clothing or equipment is over. Certified staff will be held

responsible for clothing and equipment that is not returned.

Student Attendance

Students are expected to arrive at each class, be seated and ready for instruction prior to the beginning of the class day or class period, as appropriate. Student tardiness is the classroom teacher's professional responsibility. Classroom teachers must insist that students be on time.

Each teacher must maintain an accurate record of student attendance each day. Classroom teachers must carefully check and record attendance information at the beginning of each school day, and in upper grades, at the beginning of each period. Students and student assistants are not permitted to check attendance. Excessive absenteeism should be reported to the building principal or guidance counselor.

Students returning from an absence must report to the office prior to going to class. A returning absentee must show each classroom teacher the admittance pass that was issued by the school office. No student should be accepted back into class after an absence without this pass.

A student who departs school during the school day must report to the office and sign out before leaving the building. A student who returns during the school day must sign in at the building office before returning to class.

Student Attire

Shelby-Rising CityColumbus Public Schools believe that teaching principles of appropriate dress and appearance, good grooming, and cleanliness are a desirable component of the educational process. We are sensitive to the rapid changes in dress and grooming; however, we cannot accept those changes that depart from the standards of neat and appropriate appearance, good taste, modesty, and decency.

Our school administration must weigh community standards along with individual rights. As a general rule, appearance that detracts from the learning environment cannot be permitted. It is our sincerest hope that students of Shelby-Rising City Public SchoolsColumbus High School will

take pride in their appearance and their school. Students who dress inappropriately will be given alternative attire (school T-shirt/shorts).

Instructional time missed for clothing related issues (minimum of one half hour) will be made up in After School Detention.

The following general statements apply to all students during the instructional day: Students must come to school dressed in clean, neat and appropriate clothing to conform with educational standards. In addition to the above guidelines, the school will not approve the following items and/or method of grooming. This list is not inclusive of all items that may be excluded:

1. Clothing which is soiled, torn or ragged.

2. Bare feet

3. See-through clothing or clothing that is excessively revealing such as bare back, low cut or mid-riff, tank top with deep armholes, shirt unbuttoned to show sport bra underneath, muscle t-shirts, halter tops, mesh tops, strapless tops, and ~~abbreviated~~ miniskirts or shorts or any other type of clothing that exposes undergarments.

4. Articles which could cause damage to individuals (ie. chains).

5. Printed wording or pictures on clothing that advertise or promote alcohol, tobacco or drugs, logos and trademarks, or carry derogatory or sexual connotations, or shirts with emblems, wording or phrases which are considered to have "double meanings" or other objectionable material.

6. No hats, caps, or sunglasses will be worn in the school building during school hours.

7. Coats intended to be worn as outerwear may not be worn inside the classroom.

8. No undergarments are to be showing.

9. Clothing identified by police and other law enforcement agencies that are associated with gang's i.e. sagging pants, long baggy coats, specific colors associated with a gang, or bandanas.

Students who are not in compliance with the dress guidelines will be sent to the office. In instances of inappropriate dress, students will be asked to change into a school appropriate garments provided by the school or will be sent home to change. Violation of the dress code will result in the following disciplinary action:

1st Offense - Written warning, and school-provided change of clothing, notification of parents, make up class-time missed due to changing

2nd Offense - Notification of Parents, [school-provided change of clothing](#), [Office Referral](#), [make up class-time missed due to changing](#), and a 30 minute detention

3rd Offense - [Notification of Parents](#), [school-provided change of clothing](#), [Office Referral](#), [make up class-time missed due to changing](#), One (1) day In-School Suspension ~~and Parents notified~~

Student Illness

In the event of student illness or injury, classroom teachers should notify the ~~building principal or nurse and/or~~ office immediately. Staff should never send a ~~student/pupil~~ home without notifying school officials and checking to see if his/her parents are home.

Student Medication

Student medications should not be dispensed by staff members unless they follow the following procedures.

No staff members other than the school nurse or trained personnel may dispense medications (prescription or over-the-counter) to students at any time.— Students may, with written parental or guardian permission, self administer medications such as aspirin and cough syrup or cough drops.

Staff members are not authorized to dispense prescription medicine without an agreement with a parent or guardian to provide a prescription container for the medicine that includes a pharmaceutical label, the physician's name, a child guard cap and directions for administering the medication.

After receiving the medication, the school employee should lock the medication in a cabinet or place it in an area where access is restricted to school employees only.

Additional rules regarding Medications can be found in the *Student Handbook on pages 26-27* and *Board Policy 508.02*.

Student Searches

Certified staff members may not search students or their belongings. If a staff member suspects that a student is in possession of contraband, he/she should immediately contact a member of the administration and supervise the student until the administrator arrives. Students who are suspected of having an item in violation of school rules may be directed to wait with a staff member.

Substitute Teaching During Planning Period

Certified staff may be required to substitute during their planning period. The

District will pay a Shelby-Rising City staff member to take a class period or study hall if a substitute teacher cannot be employed. The District will pay the amount of the number of class periods as determined by the Board before each school year. The Principal will make and approve necessary arrangements for Teachers to take another's class or study hall. Teachers will submit their bill for teaching additional classes at the February and June Board of Education meeting. **Note:** This applies to teachers with one (1) assigned planning period only. (Board Policy 411.01)

Teaching Controversial Issues

Teachers may teach or lead discussions about controversial issues if they comply with the following criteria:

- The issues discussed must be relevant to the curriculum and be part of a planned educational program.
- Students must have free access to appropriate materials and information for analysis and evaluation of the issues.
- The teacher must encourage students to consider and discuss a variety of viewpoints.
- The topic and materials used must be within the range, knowledge, maturity, and competence of the students.
- The teacher must inform parents and the building principal before discussing sensitive or controversial issues.
- The teacher must keep detailed, documentary evidence to prove that both sides and/or all facts available were presented.
- Teachers must refrain from advocating partisan causes, sectarian religious views, or selfish propaganda through any classroom or a school device; however, a teacher shall not be prohibited from expressing a personal opinion as long as the student is encouraged to reach his/her own decision independently.

Prior to incorporating or teaching controversial topics or resources the teacher should review *Board Policy 606.01* and seek council of the building Principal or Superintendent.

Textbooks

Classroom teachers will issue textbooks to the **students/pupils** when required for class, keeping a record of the number and condition of the book assigned to each **student/pupil**. If the books are new, classroom teachers must make sure the books are stamped and numbered before distribution.

Textbooks are to be stored in the classroom or storeroom. Textbooks are to be checked out to the students with teachers keeping an accurate record of

each book by number in the place provided in grade books. StudentsPupils are to pay for lost or damaged books. Student textbooks must be covered with a book cover.

Workbooks do not become the property of the students and in most cases should be retained by the school.

Selection of new textbooks requires a review of the board of education, curriculum committee, and the district administration. Selection of new textbooks rotates by content area and teachers will be notified in advance of adoption years and cycles.

Textbooks are defined as either a copyrighted bound physical book or an electronic form of a textbook available online or downloaded to a digital device.

Additional references can be found in Board Policy 302.04, 402.03, and 1005.03.

POLICIES AND PROCEDURES REGARDING CLASSIFIED STAFF

At-Will Employment

Classified staff members are employed "at-will." Either you or the school district may terminate your employment at any time, for any reason, with or without cause or notice. This handbook is not a contract, express or implied, guaranteeing employment for any specific duration. The duties to be performed by an employee with the District shall be subject to assignment by the superintendent. Job descriptions, where available, provide additional information about the position duties. An employee will be expected to devote full time during days of school to the employee's position and to diligently and faithfully perform the assigned duties to the best of the employee's ability.

Benefits

12-Month full-time employees are eligible for Tier One (Single) Health/Dental Insurance equivalent to the single insurance offered to certified staff and 100% of the premium will be paid by the District.

9 and 10-Month full-time employees are eligible for the Tier One (Single) Health/Dental Insurance equivalent to the single insurance offered to the certified staff. The District will pay 50% of the premium cost and the remaining amount will be equally deducted from the employee's payroll over the months they receive a paycheck from the District.

Full-time is defined as an employee who works on average 30 or more hours per week over any three-month window of employment.

Insurance benefits end the same day an employee or the district terminates employment.

Category Definition

Each classified staff person falls into a defined category that determines certain working requirements, benefits, and hours.

9-Month Employee: Paraprofessionals, Kitchen Staff, and Bus Drivers
10-Month Employee: Elementary Office, Lunch/Activities Bookkeeper
12-Month Employee: Maintenance/Custodial, Main Office Staff
Temporary Employee: Substitutes and Summer Staff

Holidays

Nine, 10 and 12 Month Employees will receive paid time off on the following holidays that fall during their contracted time frame: New Year's Day, Easter, Memorial Day, , Juneteenth, Independence Day, Labor Day, Thanksgiving, and Christmas Day.

Holidays falling on a Saturday are normally observed on the preceding Friday. Holidays falling on a Sunday are normally observed on the following Monday.

Classified employees will generally be required to work their regularly scheduled hours the workday preceding and workday following the holiday in order to be eligible to receive holiday pay.

Hours & Dual Duties

Work hours vary with the classified staff member's department and position. Meetings will occasionally be scheduled before or after normal working hours.

It is vital that the district's employees arrive at work punctually and consistently. Staff members who are chronically late or excessively absent will be disciplined, up to and including discharge.

Non-Exempt employees cannot be compensated for more than one paid assignment during any block of time. (Example – a Custodian who drives a bus: while performing the bus driver duties can not count hours toward custodial work time or be compensated for both during the same block of time.)

Route/Activity Drivers – A Driver cannot be paid for both duties at the same time. However, a route driver who drives an activity (at the request of the school) during their "normal" route time may be paid the *route rate* for the first 1½ hours of the activity trip and the remainder of the time will be compensated at the *activity rate*.

Overtime and Compensatory Time

Classified staff should not work more than forty hours in a given week without the express permission of their immediate supervisor and the superintendent. Those who accrue more than forty hours in a given workweek will receive overtime or compensatory time, pursuant to board policy.

Non-exempt employees will be expected to accurately report hours worked. Falsification of time cards is a serious offense.

Non-exempt employees must receive prior approval from their supervisor to work additional hours beyond their regular work schedule. Non---exempt employees will be paid for each hour worked in excess of 40 hours in a

workweek and are expected to accurately and timely report overtime hours to their supervisor. The regular workweek for overtime purposes is from 12:00 a.m. on Sunday through 11:59 p.m. on Saturday. The administration may establish a different 7-day period workweek from time to time for specified employees or employee groups.

Overtime pay for non-exempt employees will be paid at the rate of not less than 1½ times the employee's regular rate of pay for hours worked in excess of the 40 hour workweek. Employees with two or more non-exempt positions may be eligible for overtime pay based upon the total number of hours worked in one workweek. If applicable, the employee and the Superintendent will agree upon the overtime rate, in compliance with FLSA regulations.

A non-exempt employee may request compensatory time in lieu of overtime pay, with approval of the employer, with the rate figured as 1½ times the number of hours worked in excess of 40 hours in any work week. Compensatory time may be accumulated up to 40 hours upon approval by their supervisor. Any accumulation of compensatory time over 40 hours must be approved by the Superintendent and may not exceed 80 total hours per contract year.

Compensatory time must be used in the contract year it is accumulated and may not be accrued or carried over to future contract years. Unused compensatory time is not eligible for payment and the time is forfeited.

Paid Time Off Leave

Nine, 10, and 12 Month Classified employees (Except Bus Drivers) will receive **1 (one) paid leave day, or the hourly equivalent thereof, per full month of employment each school year** for illness or personal business that cannot be taken care of outside regular business hours and other events of personal significance. Employees must use the online leave system ([WebLinkBambooHR](#)) to request leave. Leave must be approved in advance by the employee's immediate supervisor or the Superintendent. Each employee is responsible for finding their own substitute when necessary. There shall be no carryover (or accrual) of Paid Time Off Leave days from year to year. Classified employees shall be paid \$32 a day or \$4 per hour for any unused Paid Time Off Leave days at the end of the school year. PTO can only be taken on a regularly scheduled school or contract day. If an employee is terminated or resigns, Paid Time Off is accrued proportionate to the number of full months worked for that school year. An employee would have to pay back the District for paid leave they did not earn, but used.

PTO leave exceeding three (3) consecutive days will only be granted for medical or emergency situations. Refer to FMLA leave for those circumstances that would be considered.

Classified employees do not have bereavement leave and are not entitled to compensation for a leave of absence exceeding remaining paid time off.

Professional leave will follow the same guidelines as certified staff. Classified staff are compensated a maximum of 8 hours for off-site professional leave regardless of travel or training time.

Additional leave covered in Board Policy: Military (415.07), FMLA (415.03R1), and Jury Duty (415.06).

Reporting When School is Closed

When school is closed due to inclement weather, classified staff should report to work based on their positions:

- a) **Secretaries/Clerical staff** should not report to work unless specifically directed to do so by their supervisor or the superintendent.
- b) **Paraprofessionals** should not report to work.
- c) **Food Service staff** should not report to work.
- d) **Bus Drivers** should not report to work.
- e) **Custodians/Maintenance staff** should report to work if needed.

School cancellations will be communicated through our Thrillshare by Apptegy Communications Program, Channel 10/11 (Lincoln), District Social Media, and through District E-Mail.

Unpaid Leave

Every position in our School District plays a vital role in the effective operation of the school and in most cases directly impacts the educational services offered to students. The purpose of leave is to allow staff members to attend to unforeseen illnesses or unavoidable circumstances that can arise during the school year. Excessive absences of qualified and trained employees negatively impacts the School and students.

Unless the absence circumstances qualify under the Family Medical Leave Act, unpaid leave is not an option for employees without permission of the Superintendent.

Vacation

Eligible classified employees will receive paid vacation each school year. Employees should consult with their immediate supervisor for vacation information.

New employees will not be entitled to any vacation leave for the first ~~threesix~~ months of employment. After the completion of the last day of the sixth month of employment, new employees will be awarded **5 paid days** of vacation leave provided for their job assignment.

All eligible classified employees will receive **5 paid days of vacation leave** at the conclusion of every sixth calendar months of employment beginning August 1st.

Employees may accrue up to **1510 days** of vacation per 12-month period. Once vacation days are accrued, they may be carried forward from year to year. If an employee carries forward accrued vacation days, he/she shall receive additional vacation days for the next contract year (**not to exceed 1510 total days**) to bring the total of accrued vacation days to the maximum number of days allowed for his/her particular job assignment. In no event shall any employee receive additional days beyond the maximum accrual cap listed above. Classified employees shall be paid \$32 a day (or \$4/Hour) for any unused vacation days in the event of termination or resignation of employment.

Use of vacation days requires approval of the Superintendent.

Statement of Purpose

The purpose of the Crisis Response Team at our school is to promote rational forethought as to how we might best respond to a crisis event. It is the goal of our Crisis Team to help both students and staff overcome difficulties they may face during times of emotionally high stress crisis situations. It is our goal to help reduce potential opportunities for additional crises to develop when tragedy strikes our school. The team will continually look for the best ways to serve the students and staff at Shelby - Rising City Public Schools during times of crisis.

Appendix D – Professional Growth

Policy:

Professional Growth: In accordance with Nebraska law, all permanent certificated employees shall be required, every six years, to give evidence of professional growth. Six semester hours of college credit shall be accepted by the Board of Education as evidence of professional growth, or in the alternative, a point system devised by and jointly administered by the Shelby-Rising City Education Association and the administration will be utilized to show evidence of professional growth. Standards for the point system shall be set and communicated annually to all certificated staff. A report of the status of each certificated employee, including a listing of growth activities submitted, with regard to points awarded and required shall be presented by a representative of the SRCEA to the Superintendent on or before September 1 annually.

Professional Growth Chart

Teachers on probationary contracts do not need to work at gaining growth hours. Tenured (permanent) teachers must begin meeting the requirements established through negotiations for professional growth procedures.

A teacher must record any workshops or college credit hours accumulated. These workshops must be above and beyond the in-service hours held as an outgrowth of a contractual requirement.

Professional growth may be gained in a variety of ways. Points for college credit and/or meetings, workshops, or other professional hours are totaled. One college credit has been assigned a value of sixteen (16) growth points; therefore the total number hours needed to meet the professional growth requirement has been established as ninety-six (96) points. Any combination of college credit hours and other allowed hours that total ninety-six (96) points shall be considered as satisfying the professional growth requirement. The required ninety-six (96) points may be earned in a single year or over a period of six (6) years.

Professional Growth Period

The Professional Growth Period refers to each six (6) year period during which permanent certificated employees are required to give evidence of professional growth. A permanent certificated employee begins his/her initial six (6) year growth period on September 1 in the year that he/she becomes a permanent certificated (tenured) employee, and ends August 31, six (6) years later. The beginning of the seventh year as a permanent certificated (tenured) employee starts the second six (6) year period.

Approval and Verification of Professional Growth Activities

Formal Class Work: Six (6) hours of college credit, graduate or undergraduate, earned at an accredited college or university shall be accepted as evidence of professional growth. The college credit should be closely related to teaching, and should enhance the skills of the teacher within his/her classroom. A transcript shall serve as evidence of credit earned and shall be maintained within the employee's personnel file. A college credit shall be the equivalent of sixteen growth points.

Other Activities: At least five (5) working days prior to attending or participating in a professional growth activity, the employee shall notify his/her respective principal of the employee's intent to participate in that activity by completing a Professional growth Activity Form (a copy is attached as Appendix D). All professional growth activity requests must be approved and signed by the respective principal prior to the start of the activity. The Professional Growth Activity Form will include the number of growth points allowed for the specific activity. The respective principal may, upon discretion, request-substantiating evidence of the completion of the activity. This requirement may be accomplished in a variety of ways such as: written reports, presentations, etc.

Acceptable Professional Growth Activities:

- Auditing Courses - One semester hour equals eight (8) points.
- Professional Meetings/Service— (10 points per full day of service prorated for partial days)
- Curriculum Conferences and Conventions (related to reaching assignment)
- Workshop, externally sponsored and not a contractual requirement
- Service ~~on the Nebraska~~ Nebraska Department of Education Advisory Committee, on school or college accreditation teams, or other professionally related [committees.commiss1011S](#)
- Demonstration teaching and/or presenting in-service programs to colleagues within or outside the district Enrollment in adult education classes, if the subject is relevant to the employee's teaching area - 10 points per completion of class.

Other Approved Activities:

Appendix F – Teacher Evaluation Rubric

Can be found on the Google Drive under Staff Forms-SRC and the folder Teacher Evaluation Rubric.

The rubric identifies the performance level, description, example behaviors, and evidence used to support the administrators decision in your formal and informal evaluations.

You can also find the evaluation aligned to the Marzano elements in that same folder as a way of assisting teachers with identifying instructional strategies.

Appendix G – Grading Scale and Grade Point Average

Grades

Students will receive percentage grades for their academic classes.

The grading system for grades 2 - 12 is as follows:

A	100% - 94%
B	93% - 86%
C	85% - 78%
D	77% - 70%
F	69% - 0%

The grading system for grades K – 1 is as follows:

"E" = Excellent
"S" = Satisfactory
"N" = Needs Improvement
"I" = Improving

If a student does not complete assignments marked as incomplete, the incomplete assignment will be calculated as a zero (0) in determining the student's grade for that class.

Dual Credit courses will be graded on the College Scale and a grade adjustment will be made for equivalent letter grade placement on the S-RC scale and transcript.

Class Rank

Student class rank shall be determined by using a numeric percentage derived from all classes graded on a percentage basis.

Grade Point Average

Is calculated on the scale below. Cumulative GPA is the number of points earned divided by the number of classes taken. The percent is taken from the final semester grade. This is the GPA that will appear on the transcript and be used for college, scholarship, and award criteria.

Percent	Letter	4-Point
98-100	A+	4.00
94-97	A	4.00
92-93	B+	3.50
86-91	B	3.00
84-85	C+	2.50
78-83	C	2.00
76-77	D+	1.50
70-75	D	1.00
00-69	F	0.00

Appendix H – 4 P's of Supervising Students

Proper Supervision

- Report to all duty assignments on time.
- Circulate through your duty area. Pay particular attention to areas and activities that pose an increased risk of injury.
- Be vigilant while supervising students. Never leave students unattended; the need to make a copy is not greater than the need to supervise your students. If an emergency requires that you leave students who you are supervising, request that another nearby staff member provide supervision for you, or notify the office so someone can provide assistance. If you are assisting with recess duty, your responsibility is to supervise the students in your assigned area. When talking with other adults or students, remember that your primary duty is supervision and make sure you are aware of what all students who you are to be supervising are doing.
- Be accountable for students who are assigned to you from the beginning of the supervision assignment to the end. Do not dismiss students early. If a student needs to leave class, make sure they have a hall pass. If the student is to report to the office, inform the office to be expecting the student. If the student is to be returning to your class after a brief absence (e.g., after using the restroom), contact the office if the student has not returned by the time expected.
- If you have seen or have been informed that a particular student has a propensity to act dangerously or in an unpredictable manner, your supervision of that student must increase with the known risk of injury. (Remember, though, that this type of information may be confidential—do not share confidential information about students except with other staff who need to know the information to perform their jobs).
- Be careful with touching students. Use of corporal punishment is prohibited in our school district. Touching students should be limited to that necessary to protect the student from harm (e.g., falling from playground equipment) and that which professional educators determine appropriate for purposes of proper student relationships.
- Be careful with your language. Profanity or abusive language is not acceptable. Be a good role model for students. If a student uses such language, you should make a report to the student's teacher or administration.

Proper Instructions

- Proper instructions are important to reduce the risk of injury when students undertake an activity, especially an activity that has an increased risk of harm to students.
- Repeat the instructions on how to complete a task that has a heightened risk of danger as often as needed. Do not assume because students heard the directions once that they will be remembered.
- When you go over safety rules with students, note it in your written records. If any students are absent when you review the rules, contact the student(s) to review the same information and also note that contact in your written records.

Proper Maintenance of Buildings, Grounds, and Equipment

- Conduct periodic inspections of equipment under your control or in your area of supervision.

- If equipment is broken and presents a risk of injury, immediately take it out of service. If it can't be moved, tape a "Do Not Use" sign and notify the office so those repairs may be undertaken.
- Check your communication device (whether it be a school phone in your supervision area, a walkie---talkie, or a cell phone) periodically to make sure you can communicate with the office immediately in the event of an emergency.

Proper Warnings

- If you have knowledge of a hazard that can likely cause injury, take steps to warn other staff and students.
- Tell the office so additional warnings may be given.

Contact the Office for Assistance

The office administration should be contacted immediately when a situation exists which could cause injury to students or others. Examples include:

- student fight
- student health problem (fainting, bleeding, high temperature, difficulty breathing, etc.); if the office can not be immediately located, call 911 if the problem appears to be of immediate and serious concern
- a report or a suspicion that a student has a weapon or other dangerous item or drugs, alcohol, or other illegal substances
- presence of an intruder (a non---student or staff member who refuses to go to the office)

Violations of student rules which are also violations of state law are required to be reported to law enforcement. Make a report of such conduct to the Principal so this law may be followed.

Appendix M – Emergency Leave Bank

(Part of the Negotiated Agreement)

Participation in the Emergency Leave Bank in Shelby-Rising City Public Schools shall be subject to the following conditions:

1. Membership in the Emergency Leave Bank shall be voluntary to all Shelby-Rising City Public School teachers who donate one day of their Sick Leave by September 1. Control of this process shall rest with the membership of the Shelby-Rising City Education Association governed by a high sense of moral ethics.
2. The purpose of the Emergency Leave Bank is to aid any participating teacher in case of severe accident, illness, or other medical emergency affecting anyone in his/her immediate family, necessitating the employee to require additional emergency leave to care for family members.
3. A teacher may become a participant in the ELB by notifying the secretary of the SRCEA and signing a membership list by September 1. A copy of the membership list will remain in the superintendent’s office.
4. Participating teachers, after using all of their own accumulated sick leave days, may be entitled initially to withdraw up to one half the available days in the Emergency Leave Bank.

5. Withdrawal of “banked” days from the ELB must have the approval of a majority vote of the officers of the SRCEA. All disputes will be decided by a majority vote of the ELB participants.
6. The officers of the SRCEA shall be responsible for informing the superintendent, in writing, of any decisions concerning the administration of the ELB. The decision of the SRCEA officers is final in approval or non-approval of applications for days granted from the ELB.
7. Unused days in the ELB present at the end of each school year, to a maximum of 10 days, shall be carried over to the next school year. These 10 days are non-accumulative. All other remaining days are forfeited.

Appendix P – LunchroomLunch Room Procedures

Please escort your students to the lunchroom and remind your students that others are still in class and they are to pass quietly to and from the lunchroom. Teacher aides may be used to assist teachers with lunchroom supervision.

General Guidelines For The Lunchroom:

1. **All students who eat lunch here at the school are to eat in the lunchroom. Those who bring lunch to school are to eat in the lunchroom also.** Sack lunches or fast food is not to be brought in for anyone other than themselves. Student lunches are to be paid for in advance of their consumption.
2. Students are to leave the area where they were seated as they found it. Return trays and silverware to the proper area. Have students check the area where they were seated to ensure that it is clean for the next person. If someone spills, have them clean it up immediately!
3. Students are not to leave the gym/lunch room without permission.
4. Students should move quietly and quickly through the halls when returning from lunch.
5. Students should be supervised at all times anywhere about the building.

Teachers and Staff

Unless you are assigned lunch supervision, you are not required to stay on campus for your assigned lunch period. However, you must not leave early or return late.

It is strongly encouraged that if you stay on campus to eat that you do so in the lunch room or staff room. The goal is to eliminate food and drink from academic areas such as the classroom, library, or office.

Remember that every teacher is responsible for supervision. If you see something happen or about to happen, please take care of it. A lot of problems can be avoided if everyone works together.

Appendix Q – Use of Teacher Aides (Paraeducators)

LEGAL PROVISIONS REGARDING TEACHER AIDES STATUTES AFFECTING TEACHER AIDES

In 1969, the Nebraska Unicameral enacted legislation permitting Nebraska schools to employ non-certificated Teacher Aides:

Neb. Rev. Stat. Section 79-1233. Nebraska certificate or permit; prerequisite to teaching; exception; employment of teacher aides; requirements;

1. No person shall be employed to teach in any public, private, denominational, or parochial school in this state who does not hold a valid Nebraska certificate or permit issued by Commissioner of Education legalizing him or her to teach the grade or subjects to which he was elected,....
2. Public, private, denominational, or parochial schools in the state may employ persons who do not hold a valid Nebraska teaching certificate or permit issued by the Commissioner of Education to serve as aides to a teacher or teachers. Such teacher aides may not assume any teaching responsibilities. A teacher aide may be assigned duties which are non-teaching in nature if the employing school has assured itself that the aide has been specifically prepared for such duties, including the handling of emergency situations which might arise in the course of his or her work.

In 1971, the legislation defined "teaching". Since the earlier law specified that teacher aide shall not assume teaching responsibilities, the responsibilities which teacher aides CANNOT assume were clarified:

Neb. Rev. Stat. Section 79-101....(12) teach shall mean and include, but not be limited to, the following responsibilities: (a) The organization and management of the classroom or the physical area in which the learning experiences of studentspupils take place; (b) the assessment and diagnosis of the individual educational needs of the studentspupils; (c) the planning, selecting, organizing, prescribing and directing of the learning experiences of studentspupils; (d) the planning of teaching strategies and the selection of available materials and equipment to be used; and (e) the evaluation and reporting of student progress.

The legislature also gives direction regarding training and supervision of teacher aides.

Neb. Rev. Stat. Section 43-625. **STATE BOARD OF EDUCATION; REVIEW SPECIAL TRAINING AND EDUCATIONAL PROGRAMS; QUALIFIED TEACHER DEFINED.** The State Board of Education shall review special training and educational programs offered by or in conjunction with any public school District, combination of public school Districts, educational service unit, or combination of educational service units subject to the following:

1. The teacher or teachers in any such program shall be qualified;
2. Teacher aides, working with any such program, shall have such qualifications as the governing body of the school shall prescribe and shall participate in appropriate in-service activities, and
3. Each qualified teacher shall be responsible for the direct supervision of teacher aides, whose duties shall be limited to those prescribed in section 79-1233.

STATE BOARD OF EDUCATION POLICIES (Teacher Aide)

NDE Rule 51 gives specific regulations regarding the use of teacher aides in special education programs:

NDE Rule 51 on School age Special Education Programs (adapted pursuant to Sections 43-660 and 43-607.01)

003 Definition of Terms

003.26 A teacher aide shall mean an individual who serves under the supervision of a certificated staff member as an assistant in the educational process or residential care staff under the supervision of certificated staff as defined in 92 NAC 51-010.

005.05 Utilization of special education teacher aides in instructional settings shall include:

005.05A The development and maintenance by the District of written procedures regarding special education teacher aides that reflect their: job description, preservice and inservice training, supervision and evaluation.

005.05B A teacher aide shall not teach, as defined in Neb. Rev. Stat. 79-101.

Teacher Roles as Defined by the Nebraska State Department of Education

The teacher's primary role is one of managing the learning environment. Teaching, as defined by statute, includes these responsibilities:

- organizing and managing the classroom,
- assessing and diagnosing student needs,
- planning and directing learning experiences,
- planning teaching strategies and selecting teaching material, and
- evaluating and reporting student progress. (Neb. Rev. Stat. 79-101)

When the program includes the use of a teacher aide, the teacher has a number of additional roles to fulfill. The teacher plans for the teacher aide's duties, supervises the completion of tasks, and provides guidance and evaluation about the teacher aide's performance. The examples below indicate specific teacher responsibilities and roles involved in managing teacher aides.

Teacher Responsibilities in Managing Teacher Aides

- Set an example of professionalism in teacher responsibilities
- Establish the criteria for acceptable job performance
- Assure teacher aides are adequately trained for their duties
- Prepare the teacher aide for and assign instructional and non-instructional tasks and activities
- Communicate the needs of each student to the teacher aide
- Establish and communicate the para educator's role in classroom behavior management
- Assign non-instructional duties
- Provide consistent feedback to assist in refining skills
- Monitor the teacher aide's performance in carrying out instructional activities
- Assist in evaluating the teacher aides overall performance

Note: Adapted from Guide for Effective Utilization of Paraprofessionals in Special Education. (1983). Lincoln, NE: University of Nebraska-Lincoln.

Teacher Aide Roles as Defined by the Nebraska State Department of Education

Although Nebraska Statutes allow teacher aides to carry out only "non-teaching" duties, teacher aides must be prepared for the duties assigned and must be adequately supervised. The example below further clarifies duties and other tasks often assigned to teacher aides.

Teacher Aide Responsibilities

The following illustrates duties which a teacher aide may perform when properly trained and supervised:

- Supervise student in the hallway, lunchroom, or playground
- Monitor supplementary work and independent study
- Reinforce learning in small groups or individuals while teacher works with other students
- Assist in educational demonstrations for the class or groups
- Provide assistance with individualized programmed materials
- Score objective tests and papers and maintain appropriate record for teachers
- Performs clerical tasks, i.e., typing, duplicating, attendance
- Observe, record, and chart students' behaviors
- Assist in production of student instructional materials
- Carry out instructional programs designed by the teacher
- Tutor students under the direction of the teacher
- Operate and maintain classroom equipment

Note: Adapted from Guide for Effective Utilization of Paraprofessionals in Special Education. (1983). Lincoln, NE: University of Nebraska-Lincoln.

To the casual observer, it might appear that a teacher and a teacher aide working side by side in serving students are performing identical tasks; however, the roles of teachers and teacher aides differ. In defining responsibilities, it is helpful to compare and contrast the roles appropriately performed by teachers and teacher aides. Duties which may not be performed by the teacher aide are illustrated below:

Duties the Teacher Aide May Not Perform

The following illustrate tasks which should not be assigned to the teacher aide:

- Diagnostic testing of students' strengths and weaknesses
- Preparing lesson plans
- Grading subjective papers and assigning grades to students
- Taking full responsibility for supervising and planning students' activities
- Selecting educational activities and materials for students
- Reporting student progress to parents

Teacher Aide (Paraeducator)

The teacher aide may perform these instructional duties:

1. Assist in organizing field trips.
2. Read aloud or listen to children read.
3. Assist students in performing activities that have been initiated by the teacher.
4. Hand out papers and collect paperwork.
5. Assist with supplementary work for advanced **students/pupils**.
6. Provide special help such as drilling with flash cards, spelling, and play activities.
7. Assist in preparing instructional materials.
8. Reinforce learning with small groups.
9. Assist children in learning their names, addresses, telephone numbers, birthdays, and parents' names.
10. Supervise free play activities.

11. Prepare flash cards and charts.
12. Prepare art supplies and other materials.
13. Hear requests for help, observe learning difficulties of studentspupils, and report such matters to teachers.
14. Score objective tests and papers and keep appropriate records for teachers.

Instructional duties the teacher aide may not perform:

1. Be solely responsible for a classroom or a professional service.
2. Be responsible for the diagnostic functions of the classroom.
3. Be responsible for preparing lesson plans and initiating instruction.
4. Be responsible for assigning grades to students.
5. Be used as a substitute for certified teachers unless he or she possesses the appropriate substitute teacher's certificate.
6. Assume full responsibility for supervising assemblies or field trips.
7. Perform a duty that is primarily instructional in nature.
8. Be assigned work with the most "difficult" students the majority of the day.

Non-instructional duties the teacher aide may not perform:

1. Shall not assume full responsibility for supervising the planning activities.
2. Shall not take children to clinic, dental, or medical appointments unless permission is granted by authorized personnel.
3. Shall not prescribe educational activities and material for children.
4. Shall not grade subjective or essay tests.
5. Shall not regulate studentpup# behavior by corporal punishment or similar means.
6. Shall not be responsible for medical needs of children.

In keeping with guidelines and local philosophy the Shelby-Rising City Public Schools Board of Education had adopted this policy with regard to role and assignment of aides:

Teacher aides are employed at an hourly rate. Aides are under the immediate supervision of their respective teacher. The appropriate Principal is their administrative supervisor. Aides shall not be the primary catalyst in any subjective diagnostic or prescriptive activities involving student program planning or evaluation. The specific role played by aides is at administrative discretion. Roles may change from time to time and aides must be prepared to perform in a variety of settings.

It is the expectation of the Shelby-Rising City Public Schools Administration and Board of Education that teachers will utilize teacher aide time in such a manner that maximizes direct appropriate instructional time under the teacher's supervision in tutoring as appropriate. Other modes of teacher aide's time (clerical, custodial, and lunch) should be secondary to usage which involves direct student contact in a tutorial model.

Appendix R – Curriculum Selection Process

1. INSTRUCTIONAL MATERIALS SELECTION AND PROCEDURES FOR REVIEW

A. RESPONSIBILITY FOR SELECTION OF INSTRUCTIONAL MATERIALS:

1. The Schools Board of Education is legally responsible for all matters relating to the operation of schools.
2. The responsibility for the selection of instructional materials is delegated to the professionally trained personnel employed by the school system.

B. CRITERIA FOR SELECTION OF INSTRUCTIONAL MATERIALS:

It is the policy of the Board of Education to require that instructional materials selected for our schools be in accord with the following:

1. The basic factors which shall be considered in the selection of instructional materials (including printed and audio-visual materials), are as follows: factual accuracy, authoritativeness, balance, integrity, quality of presentation, imagination, vision, creativeness, and style.
2. Instructional materials shall be examined to select those in which the presentation and the subject matter are suitable for the grade and the interest level at which they are to be used.
3. Instructional materials shall be selected to provide for the interest and needs of the school community and the school program. Instructional materials shall be selected cooperatively by teachers and [administrators](#)~~administrator~~, with administration having the final decision.
4. The selection process shall include the reading, examination, and checking of standard evaluation aids...i.e., standard [catalogs](#)~~catalogues~~ and review digests.
5. Instructional materials shall be judged on their own merits not on the merits of authors, publishers, or series.
6. Every effort shall be made to provide materials that present all points of view concerning the problems and issues of our times.

C. PROCEDURES OF REVIEW

The Board of Education has adopted the following policy when dealing with censorship of books or other instructional materials:

1. That the final decision for controversial instructional materials shall rest with the Board of Education after careful examination and discussion of the instructional materials with school officials or anyone else the Board may wish to involve.
2. That no parent or group of parents has the right to determine the instructional materials used for students other than their own children.
3. The Board of Education does, however, recognize the right of an individual parent to request that his/her child not have to read a given book or see a given film, provided a written request is made to the appropriate building level Principal. Teachers will substitute comparable materials in specific cases when a parent makes such a request. This applies to both print and audio-visual materials.
4. Any resident of the school District may formally challenge instructional materials used in the District's educational program on the basis of appropriateness. This procedure is for the purpose of considering the opinions of those persons in the community who are not directly involved in the selection process.
5. Any resident who wishes to request reconsideration of the use of any learning materials used in the school must first contact the building level Principal and request that a meeting be scheduled with the Teacher involved to discuss the questioned material.
6. If the resident is not satisfied with the result of such a conference, he/she may make a formal written request for reconsideration on a Reconsideration Request form which is available in the Superintendent's office. The Reconsideration Request form shall be signed and filed with the Superintendent.
7. Within two school days after the filing of such a form, the Superintendent shall distribute copies of the challenged materials, as available, to the Reconsideration Committee for their review.
8. Generally, access to challenged material shall not be restricted during the reconsideration process. However, in unusual circumstances, the material may be removed temporarily by a four-fifths vote of the Reconsideration Committee. Special meetings may be called by the Superintendent.
9. The Reconsideration Committee shall be made up of five members:
 - a. Superintendent
 - b. Principal
 - c. Librarian
 - d. The teacher using the challenged material

- e. A second teacher selected by the appropriate building level Principal
The Superintendent shall serve as the chairperson of the committee.
- 10. The Reconsideration Committee member directly associated with the material being challenged may at his/her request be excused from serving on the committee. If such a request is made, the building level Principal shall select another teacher from within the building as his/her replacement.
- 11. The procedure for the first meeting following receipt of a Reconsideration Request Form is as follows:
 - a. Distribute copies of the written request form.
 - b. Give the complainant or a group spokesperson an opportunity to talk about and expand on the request form.
 - c. Attempt to obtain and distribute reputable, professionally prepared reviews of the material.
- 12. The complainant shall be kept informed by the Superintendent concerning the status of his/her complaint throughout the committee reconsideration process.
- 13. At a subsequent meeting, the committee shall make its decision in closed session and prepare a written report supporting the decision. The committee's final decision will be, (a) to take no removal action, (b) to remove all or part of the challenged material from the total school environment, or (c) to limit the educational use of the challenged material. The sole criteria for the final decision is the appropriateness of the material for its intended educational use. The vote on the decision shall be by secret ballot.
- 14. The Reconsideration Committee will issue its written decision within 14 calendar days of the date in which the Reconsideration Request Form was filed.
- 15. The Superintendent will inform the complainant of the committee's decision and the intent of the school District.
- 16. A decision to sustain a challenge may not be interpreted as a judgment of irresponsibility on the part of the professional(s) involved in the original selection or use of the materials.
- 17. If the complainant is not satisfied with the decision of the Reconsideration Committee, he/she may request that the matter be placed on the agenda of the next regularly scheduled meeting of the Board of Education.

18. If such a request is made, the Superintendent shall place the item on the agenda of the next regularly scheduled meeting and shall review the written report of the Reconsideration Committee. The complainant shall also be permitted to address the Board of Education following the "Procedures for Addressing the Board of Education" as outlined in School Board Policies.
19. The Board of Education will give the matter due consideration and take appropriate action as deemed necessary.
20. Requests to reconsider materials which have previously been before the Reconsideration Committee must receive approval of a majority of the committee members before the materials will again be reconsidered.
21. The "Citizen's Request for Reconsideration" form which follows is also approved as part of the total Board policy:

WELCOME

Dear Students and Parents:

On behalf of the faculty, administration and board of education, we welcome you to another school year. We are excited to continue and build upon the successes we've had at Shelby-Rising City! As always, our number one priority remains the same: providing opportunities for student success and excellence in a safe and nurturing environment! Back-to-school time is an exciting time for staff and students, and we hope to keep enthusiasm for learning at a high level throughout the year! The purpose of this handbook is to provide both parents and students with guidelines to maintain an environment conducive to learning.

Please read this handbook carefully. Students and their parents are responsible for knowing the rules, regulations, and procedures covered in this handbook. The student handbook is an extension of school policies and has the force and effect of board policy when approved by the board of education.

There are several forms at the end of this handbook, which you must read, sign and return.

This handbook contains information of value to every student and parent. It contains explanations of school regulations and procedures necessary for our school to run smoothly and efficiently. If you are ever in doubt about what is the right thing to do, ask a classroom teacher, speak with the building principal, or contact my office. We can't wait to see you in our hallways and classrooms as the new school year is here!

Sincerely,

A handwritten signature in black ink, appearing to read "Tucker Tejkl". The signature is fluid and cursive, with a large initial "T" and "T" for the last name.

Tucker Tejkl, Superintendent

Intent of Handbook

This handbook is intended to be used by students, parents and staff as a guide to the rules, procedures, and general information about this school district. Students and their parents must become familiar with the handbook, and parents should use it as a resource and assist their children in following the rules contained in it. The use of the word “parents” refers to any adult who has the responsibility for making education-related decisions about a child, including, but not limited to biological parents, adoptive parents, legal guardians, and adults acting in loco parentis.

Although the information in this handbook is detailed and specific on many topics, it is not intended to be all encompassing or to cover every situation and circumstance that may arise during a school day or school year. This handbook does not create a “contract” with parents, students or staff, and the administration may make decisions and rule revisions at any time to implement the educational program and to assure the wellbeing of all students. The administrative team is responsible for interpreting the rules contained in the handbook. If a situation or circumstance arises that is not specifically covered in this handbook, the administrative team will make a decision based on applicable school district policies, and state and federal statutes and regulations.

Notice of Non-Discrimination

This school district does not discriminate on the basis of race, color, religion, national origin, sex, marital status, disability, or age or in admission or access to, or treatment of employment, in its programs and activities and provides equal access to designated youth groups. Any person having inquiries concerning this school district’s compliance with the regulations implementing Title VI, Title IX, or Section 504 is directed to contact Superintendent Tucker Tejkl in writing at, 650 N. Walnut, Shelby, NE 68662 or by telephone at (402) 527-5946. BASIC SCHOOL RULES AND GENERAL PRACTICES

Attendance

Mandatory Attendance Age

All children who are or will turn six years old before January 1 of the current school year are of mandatory attendance age for kindergarten. Children who have not turned eighteen years of age are of mandatory attendance age. [Policy 503.01 located on our school website](#)

Exceptions

~~This policy does not apply when temporary illness or severe weather conditions make attendance impossible or impracticable. A child who will not reach age 7 before January 1 of the current school year may be excused from mandatory attendance if the child's parent or guardian completes an affidavit affirming that alternative educational arrangements have been made for the child.~~

Discontinuing Enrollment – 5-Year Old Students

~~The person seeking to discontinue the enrollment of a student who will not reach six years of age prior to January 1 of the current school year shall submit a signed, written request. The school district may request written verification or documentation that the person signing the form has legal or actual charge or control of the student. The school district shall discontinue the enrollment of any student who satisfies these requirements. Any student whose enrollment is discontinued under this subsection shall not be eligible to reenroll in this school district until the beginning of the following school year unless otherwise required by law.~~

Discontinuing Enrollment – 16 and 17-Year Old Students

Only children who are at least 16 years of age may be dis-enrolled from the district. The person

seeking to discontinue the child's enrollment shall submit a signed, written request and submit it to the superintendent using the form attached to this policy. The district will follow the procedures outlined on the required NDE form in considering requests to dis-enroll.

Only children dis-enrolling to attend a non-accredited school may be exempt from this policy. The person with legal or actual charge or control of the child must provide the superintendent with a copy of the signed request submitted to the State Department of Education for attending non-accredited schools. The superintendent may confirm the validity of the submission with the State Department of Education.

Attendance Officer

Each building principal is designated as an attendance officer for the district. Each building principal, at his or her discretion, may delegate these responsibilities to any other qualified individual. The attendance officer is responsible for enforcing the provisions of state law relating to compulsory attendance. This responsibility includes but is not limited to filing a report with the county attorney of the county in which a student resides.

Excused Absences/Not School Excused Absences

The circumstances for all absences from school will be identified as School Excused or Not School Excused. All absences, except for illness and/or death in the family, require advance approval.

- **Absent School Excused (ASE):** The parent must provide the school documentation to demonstrate the absence was beyond the control of the parent or child. This could include, but is not limited to documented illness, pre-arranged college visits, court, immigration, death of a family member, or suspension.
- **Absent Excused/Not School Excused (AE):** Parent acknowledged absences that include but are not limited to undocumented illness, vacations, DMV, and other situations where the parent notifies the school that the child will be gone.
- **Absent Unexcused (AU):** Any non-reported or not confirmed absences. This could include truancy.

Excessive Absenteeism

When a student receives eight (8) Absent Excused (AE) or Absent Unexcused (AU) or the hourly equivalent in any semester, the Building Principal will follow the procedure for addressing barriers to the student's attendance.

When a student is absent more than twenty (20) Absent Excused (AE) and/or Absent Unexcused (AU) days per year or the hourly equivalent, the Building Principal will file a report with the county attorney of the county in which the student resides. At the High School level, 10 days of reported absences from a class during any one semester will constitute justification for an incomplete or loss of credit in that class. Additional information is located in the S-RC School Board Policy [503.03](#).

Absences due to illness

Any student who is absent due to illness has two days from the date of their return to school following an absence to make-up work missed. If a secondary student is absent on the day that an assignment is due, the student will be required to turn in the assignment on the first day of his/her return to school. Any student who has make-up work may appeal the amount of time to make up the work to the principal.

Planned absences

Parents who know in advance that a student will be absent must call the school or send a written note at the earliest possible date. Students who will be absent for reasons that can be anticipated, such as routine medical appointments and school activities, must complete any work required by the teacher before the absence. Parents should make every attempt to schedule medical and other appointments after school hours when possible.

Juniors and Seniors are allowed up to 3 days total for college visits if the guidance office sets up the visit. These days will count as a school excused. Additional days must be approved by the principal or designee.

Students are obligated to:

- 1) Complete all class work in advance for any absence that can be anticipated;
- 2) Check out of school at the office if leaving school during the school day; and
- 3) Make up any and all work that is assigned by teachers as make-up work for the instructional time that has been missed.

Parents are obligated to:

- 1) Call the appropriate building office prior to **8:45 a.m.9:00** a.m. to inform the school of the reason for each absence; and
- 2) Submit a doctor's statement, for each documented illness.

Pregnant and Parenting Students

Students who are pregnant or parenting are encouraged to continue participating in the district's educational and extracurricular programs. Students who anticipate deviations from their regular school experience or accrue absences due to pregnancy or parenting should notify their building principal as early as possible to discuss their educational programming. The building principal will work with the student to develop a plan to assist the student in participating in district curriculum and extra-curricular activities.

Absences and Activity Participation

Students must attend school a full day before attending practice or participating in a scheduled student activity, except in cases of family emergencies or pre-arranged absences approved by the principal. **A full day is defined as being in class within the first fifteen (15) minutes of the school day.** Pre-arranged absences are those absences for which the school and teachers are notified a minimum of one day in advance that the student will be absent.

Band

Students may participate in the elementary band and begin taking band lessons in the 5th grade. Students in grades 6-8 may participate in the middle school band; grades 9-12 may participate in the high school band. Instruments will be provided by students or the school as provided by school policy. Fees may be charged as allowed or provided in the Public Elementary and Secondary Student Fee Authorization Act and the school's student fee policy or other applicable policy.

Bicycles and Skateboards

Students are to park their bikes in the appropriate racks. Under no circumstances are students to borrow or tamper with bicycles that are not their own. Bicycles must be parked in the bike rack and left there until dismissal time. After school, the bikes are to be taken home. Roller-skates, rollerblades,

or shoes with rollers in them are not to be worn inside of the school building.

Books and Supplies

Students must take care of books and other supplies provided by the district. The school will assess fines for damage to books and school property.

Students must supply their own consumable items such as pens, pencils, tablets, notebooks, erasers, and crayons. Each classroom teacher will prepare a supply list for students at the beginning of the school year.

Bulletin Boards/Television information Screens

Bulletin boards and Television Information Screens are maintained throughout the building to communicate general information, material, and school announcements.

The following general limitations apply to all posting or publishing:

1. **All postings** must be approved by the appropriate building principal or designee. Students may not post any material containing any statement or expression that is libelous, obscene, or vulgar; that would violate board of education policies, including the student code of conduct; or that is otherwise inappropriate for the school environment.
2. **All postings** must identify the student or the student organization posting or publishing the notice. Teacher Tape or other removable material must be used.
3. Material shall be removed the day following the event being promoted to assure full access to the bulletin boards or electronic publishing media.
4. Students are encouraged to use the Television Information Screens to relay organization information.

Bullying

Students are prohibited from engaging in any form of bullying. ~~Bullying is defined in Policy number 504.20 located on our school website. The Centers for Disease Control and Prevention defines bullying as "any unwanted aggressive behavior(s) by another youth or group of youths who are not siblings or current dating partners that involves an observed or perceived power imbalance and is repeated multiple times or is highly likely to be repeated." Nebraska statute defines bullying as "an ongoing pattern of physical, verbal or electronic abuse." The District's administrators are authorized to use both of these definitions to determine whether any specific situation constitutes bullying. Both of these definitions include both in-person and cyberbullying behaviors.~~

The disciplinary consequences for bullying will depend on the severity, frequency, duration, and effect of the behavior and may result in sanctions up to and including suspension or expulsion. Students who believe they are being bullied should immediately inform a teacher or the building principal.

Cafeteria Rules

1. ~~All food must be consumed in the areas designated by the school.~~
2. ~~All straws, papers, milk cartons should be deposited in the trash cans. All leftover food should be scraped off the tray into the trash can.~~
3. ~~Forks and spoons should be placed in the appropriate container, not thrown away.~~
4. ~~Students are to use proper manners including eating quietly.~~
5. ~~There will be no throwing of food or other items.~~

~~6. Students should remain at their tables or designated area until they are dismissed.~~

~~7. Students are expected to eat their lunch at school.~~

~~8. Students must treat lunch personnel with respect.~~

~~9.1. Students who violate the above rules will be disciplined.~~

Cell Phones and Other Electronic Devices

~~Students may not use cellular (cell) phones or other electronic devices while at school, except as permitted in this handbook.~~

~~Cell phones or other electronic devices must be kept out of sight and silenced during the school day unless during permissible use time. Cell phone use during instructional time is considered a violation. Consequences are listed below. Students may use cell phones or other electronic devices on the school sidewalks, in the common areas of the school before and after school, and during lunch so long as they do not create a distraction or a disruption. Cell phones or other electronic devices must be kept turned off and kept out of sight and silenced during the school day. Exception: cell phones may be used in the classroom if being utilized for educational purposes and under teacher supervision. Permissible use for middle and high school students include:~~

- ~~● Before and/or after school~~
- ~~● During lunch~~
- ~~● In between passing periods~~
- ~~● At teacher discretion~~

~~Permissible use for elementary students include:~~

- ~~● Before and/or after school~~
 - ~~○ All other electronic devices (i.e.: smartwatch, FitBit, etc.) will be at the discretion of the teacher and administration and may be asked to be stored in the locker.~~

Students are personally and solely responsible for the security of their cell phones and other electronic devices. The school district is not responsible for theft, loss, or damage of a cell phone or any calls made on a cell phone.

Students who violate this policy will have their cell phones or other electronic devices confiscated immediately.

1st Offense: Office Referral Form Written. Parent notified; device returned to student at the end of the day by office staff or principal.

2nd Offense: Office Referral Form Written. Parent notified; device will be returned to the parent, & detention assigned.

3rd Offense: Office Referral Form Written. Parent notified, device will be returned to the parent, meeting with parent will be held to discuss future consequences, & detention assigned.

The taking, disseminating, transferring, or sharing of obscene, pornographic, lewd, or otherwise illegal images or photographs, whether by electronic data transfer or otherwise (commonly called texting, sexting, e-mailing, etc.) may constitute a crime under state and/or federal law. Any person engaged in these activities while on school grounds, in a school vehicle or at a school activity will be

subject to the disciplinary procedures of the student code of conduct. Any student found to be in possession of obscene, pornographic, lewd, or otherwise illegal images or photographs will be promptly referred to law enforcement and/or other state or federal agencies, which may result in arrest, criminal prosecution and possible inclusion on sex offender registries.

Child Abuse and Neglect

School employees will report suspected abuse or neglect of a child as required by state law and school policy. Nebraska law defines abuse or neglect as knowingly, intentionally, or negligently causing or permitting a minor child or an incompetent or disabled person to be (1) placed in a situation that endangers his or her life or physical or mental health; (2) cruelly confined or cruelly punished; (3) deprived of necessary food, clothing, shelter or care; (4) left unattended in a motor vehicle, if such child is six years of age or younger; or (5) sexually abused.

Class Dismissal

Classes are in session from the ringing of the tardy bell until the teacher dismisses the class. The bell at the end of the period is not a dismissal bell, and students may not leave their classrooms until they have been excused by their classroom teacher.

Closed Campus

Students may not leave the building without permission from the administration.

Classroom Behavior

Student behavior and attitude in the classroom must be cooperative and respectful. As stated in the PBIS Model, all students must:

- arrive to class on time;
- prepare for class with all necessary materials;
- be considerate of others;
- respond promptly to all directions of the teacher; and
- take care of school property and the property of others.

Teachers will establish classroom conduct rules.

Communicable Diseases

Any student who has contracted a contagious disease may be restricted from attendance at school until the student is no longer contagious. The school district uses the Title 173- Nebraska Health and Human Services/Control of Communicable Disease, Chapter 3 of the Nebraska Administrative Code as a "best practice" guideline for contagious and infectious diseases. If there are questions regarding the communicability of your child's health condition or if you know your child has contracted a contagious or communicable disease or condition, please call the Polk County Health Department at 402/747-2211.

Communicating with Parents

PowerSchool is the District's Student Information System. All parents are assigned an access code for the purpose of monitoring student grades, lunch balances, and attendance. Please contact the school if you need assistance in setting up your account!

Parents shall be kept informed of student progress, grades, and attendance through report cards, progress reports, and parent/teacher conferences. The school district will endeavor to notify parents

of failing students prior to entry of the failing grade on the student's report card. Parents will also be notified of their student's possible failure to meet graduation requirements. Other pertinent information will be communicated to parents by mail or by personal contact. Official transcripts of student progress, grades, and attendance will be sent to other school systems upon the student's transfer when the district receives a written request signed by the student's parent or guardian or upon being notified that the student has enrolled in another school.

Computer Network Use by Students

Students are expected to use computers and the Internet as an educational resource. A written parental and student permission and agreement form will be signed prior to the student being granted access to electronic media and District technological devices. The use of the District's electronic network and technological devices is a privilege, not a right. The Building Principal will make all decisions regarding whether or not a user has violated their agreement and may deny, revoke, or suspend access at any time. The following procedures and guidelines govern the use of computers and the Internet at school. Additional guidelines can be found in board policy.

Transportation Services

The district operates school buses as a convenience for students and parents. They represent a substantial investment, and students are expected to care for and respect them.

Transportation to School

Students who ride the bus to school will arrive in time for them to eat breakfast at school. Parents must contact their bus driver if a student will not ride the bus on a given day. Bus drivers endeavor to adhere to their schedule and will wait for riders only a short period of time so as not to jeopardize the time remaining for the rest of their schedule.

Non-resident or option enrollment students may ride the buses if within established routes. The Transportation Director will schedule bus routes, and questions concerning them should be directed to that office. For routes with drop off points for multiple students where bus drivers wait for parental pick-up and parental contact has been attempted for students who are not picked in a timely manner, law enforcement may be contacted.

Bus Regulations

Riding school vehicles is a privilege, not a right. The bus drivers have the same authority as teachers while transporting students. Students must comply with the following rules and all school conduct rules and directives while riding in school vehicles. In addition, students must also comply with the student code of conduct while riding in school vehicles. If misconduct is recurring, the student will not be allowed to ride the bus. These policies can be located on our school website and are Policy numbers 612.11, 801.01, 801.01R1, 801.06, 801.09, 801.10, 801.12..

School officials have discretion to impose any listed punishment they deem appropriate, in accordance with state and federal law and board policy.

Requests to be dropped off at a point **not** on the regular route will not be accommodated, unless extenuating circumstances arise, and the request is approved by the transportation director or administration.

Students who are not regular route riders may not ride the bus home with a friend, unless the parent of the non-route student presents written permission to the bus driver ahead of time. The written permission should include the date, the non route rider's name, the signature of the non-rider's parent, and the place approved for drop off. Such requests may not be granted if they cause overcrowding of

buses.

Transportation to Activities

~~The school district provides transportation to students who are participating in school-sponsored events, and they must ride to those events in a school vehicle. Students who wish to take private transportation home from a school event must submit a release form to the sponsor, which has been signed by that student's parent.~~

Video Surveillance and Photographs

The Board of Education has authorized the use of video cameras on school district property to ensure the health, welfare and safety of all staff, students and visitors, and to safeguard District facilities and equipment. Video cameras may be used in locations deemed appropriate by the Superintendent. Students who violate this policy may be subject to discipline up to and including expulsion.

School closings will be announced on television stations KLKN Channel 8 and ~~1011 News Channel~~~~KOLN Channel 10~~ and via Thrillshare by Apptegy, the Mobile Applicant and Notification System. In addition, Facebook, ~~and~~ Twitter, and school website feed will be updated with school closing information. Parents should assume that school is open, and a regular schedule is being followed if there is no announcement concerning the school district. Please do not call the school or individual staff members to find out whether school is being canceled. Parents who do not believe it is safe to transport their students to school may keep their students home after contacting the district office; however, the absence will count as a parent excused absence (AE) not as a school excused absence (ASE).

If school is closed due to severe weather conditions, all before and after-school activities and practices will be canceled.

Withdrawal From School

Parents need to notify the school office if they are moving from the district. Students must complete a check-out sheet and return all properties to school prior to departure. If you are 16 or older and are

permanently withdrawing from school, it will require completed NDE documentation.

Any student in grades 6-1 who receives an incomplete will have this grade recorded on his/her permanent record until the required work is completed to the teacher's satisfaction. If a student does not remove an incomplete by completing the minimum classroom assignments, the incomplete will be calculated as a failing grade in determining the student's grade point average.

~~If a student does not remove an incomplete by completing the necessary work within two weeks of the end of the grading period, the incomplete will become a failing grade that the student may make up only by taking the entire course again or enrolling in summer school. The two-week period may be extended by mutual agreement of the teacher, principal, and student.~~

A student who receives an incomplete during his/her senior year must satisfactorily complete the classroom assignments to participate in the graduation ceremony. Seniors with incomplete grades will not be dismissed from school attendance until the classroom assignments are completed to the

The third highest average (92%-93.99%) shall graduate Cum Laude (Blue cords). Students will receive cords for graduation based on their Cum Laude status.

Any student who receives an "I" Incomplete in any subject is not eligible to be on the Roll of Excellence or Honor Roll.

Mid-Term Graduation

Students are generally required to attend four years of high school to be eligible to receive a diploma from the school district. The Board of Education, upon receiving administrative recommendation, may grant mid-term exit from high school to students who have completed the requirements for graduation. To be considered for mid-term exit from high school, the student and his/her parents or guardian must apply on or before the April Board Meeting of the student's Junior year. The Board of Education will act on all requests. Any student who is granted mid-term exit from high school forfeits all privileges of high school enrollment, except the right to participate in commencement exercises.

Report Cards

Grades are continually updated and available via the PowerSchool Student Information System. Please contact the school if you need assistance in setting up your account. Report Cards at the end of each semester will be sent home once grades are finalized for that semester.

STUDENT DISCIPLINE

General Discipline Philosophy

The school district has the authority to discipline students who behave inappropriately on the way to school, at school, during lunch, on the way home, and at all school activities (home and away or any time while on school or district property).

The school district's discipline is guided by the following principles:

1. The school district's discipline policy is intended to ensure that students take responsibility for their behavior.
2. Behavior expectations and the consequences for failing to meet those expectations will be clearly communicated to all students and their parents.
3. The severity of consequences for violating behavior expectations will generally be progressive in nature. That is, sanctions will increase with each instance of misconduct; however, each instance will be assessed on its own facts, and sanctions will be imposed based on the severity of the misconduct.
4. Parents play a vital role in supporting and reinforcing the school district's expectations of their students.
5. Behavior expectations apply to all students; consequences are enforced consistently without regard to a student's academic record or achievement.

Extracurricular activities are governed by the Student Activity Handbook. Students who are involved in extracurricular activities may face consequences related to the activity in addition to the consequences discussed in this handbook.

The school district reserves the right to refer to the appropriate non-school agency any act or conduct of its students which may constitute a crime under federal, state, county, or local law. The administration will cooperate with these agencies in their investigations.

Forms of School Discipline

Administrative and teaching personnel may take actions regarding student behavior which are reasonably necessary to aid the student, further school purposes, or prevent interference with the educational process. Such actions may include, but need not be limited to, counseling of students, parent conferences, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling, psychological evaluation, or psychiatric evaluation upon the written consent of a parent or guardian to such counseling or evaluation. The actions may also include in-school suspensions during the day. When in-school suspensions, after-school assignments, or other disciplinary measures are assigned, the student is responsible for complying with such disciplinary measures; and a failure to serve such assigned discipline as directed will serve as grounds for further discipline, up to expulsion from school. District administrators may develop building-specific protocols for the imposition of student discipline.

In this section, references to "Principal" shall include building principals, the principal's designee, or other appropriate school district administrators.

Any student who is suspended or expelled from school pursuant to this section may not participate in any school activity during the duration of that exclusion including adjacent school holidays and weekends. The student activity eligibility of a student who is mandatorily reassigned shall be determined on a case-by-case basis by the principal of the building to which the student is reassigned.

After School Sessions and Detentions

Teachers and administrators may require students to stay after school or to serve detention when the student violates any of the rules contained in this handbook or violates classroom-specific conduct rules set by individual teachers.

Students who ride the bus home from school will be given a 24-hour notice of after school time or a detention so that the parents may make plans to pick up the student the following day. A student who has a conflict with an after-school session is responsible for working it out with the teacher or Building Principal.

- A student who fails to attend an after school session may be given detention by the teacher or may face additional disciplinary consequences up to and including long-term suspension and/or expulsion.
- A student who fails to serve their detention may not be allowed to participate in activities.
- Detentions are 30 minutes, served in the office or designated detention room.

In-School Suspension

The Building Principal may require a student to serve in-school suspension. Students not completing the requirements of ISS will face further disciplinary action. The student is expected to complete all work assigned & WILL receive credit for all completed work. Students who earn ISS are not allowed to participate or attend student activities. This includes activities such as NSAA sponsored events. There will be zero tolerance for behavior problems for students placed in ISS. The Building Principal will make the final determination if a specific activity qualifies.

Emergency Exclusion

Students may be emergency excluded from school pursuant to the board's separate policy on emergency exclusion or state law.

Short-Term Suspension

The principal may suspend a student up to 5 school days for conduct which constitutes grounds for expulsion under the law or violates the rules of the Board of Education and/or the school.

1. The principal will investigate.
2. The student will receive oral or written notice of the charges and reason for the suspension.
 - a. They will also be told the basis of the evidence used to make the decision.
3. The student will be given the opportunity to present their version of the story.
4. An attempt to notify parents will be made within 24 hours.
5. A conference for re-entry to school may take place with parents.

The student is expected to complete all work assigned & WILL receive credit for all completed work. Students who earn OSS are not allowed to participate or attend student activities at home or away. Students in OSS are not allowed on school grounds without permission from the Building Principal.

Long-Term Suspension

Students may be excluded, by the Principal, from school or any school function for a period of more than 5 days but less than 20 school days (long term suspension) for any conduct constituting grounds for expulsion as hereinafter set forth. The process for long-term suspension is set forth below.

On the date of the decision, a written charge and a summary of the evidence supporting such charge shall be filed with the superintendent. The school will, within two days after the decision, send written notice by registered or certified mail to the student and his or her parent or guardian informing them of the rights established under State Law 79-254 & 79- 296. Refer to board policy for an outline of what will be included in the letter.

Expulsion

1. **Meaning of Expulsion.** Expulsion means exclusion from attendance in all schools, grounds and activities of or within the system for a period not to exceed the remainder of the semester in which it took effect unless the misconduct occurred (a) within ten school days prior to the end of the first semester, in which case the expulsion shall remain in effect through the second semester, or (b) within ten school days prior to the end of the second semester, in which case the expulsion shall remain in effect for summer school and the first semester of the following school year, or (c) unless the expulsion is for conduct specified in these rules or in law as permitting or requiring a

longer removal, in which case the expulsion shall remain in effect for the period specified therein. Such action may be modified or terminated by the school district at any time during the expulsion period.

2. **Summer Review.** Any expulsion that will remain in effect during the first semester of the following school year will be automatically scheduled for review before the beginning of the school year. The review will be conducted by the hearing officer who conducted the initial expulsion hearing, or a hearing officer appointed by the Superintendent in the event no hearing was previously held or the initial hearing officer is no longer available or willing to serve, after the hearing officer has given notice of the review to the student and the student's parent or guardian. This review shall be limited to newly discovered evidence or evidence of changes in the student's circumstances occurring since the original hearing. This review may lead to a recommendation by the hearing officer that the student be readmitted for the upcoming school year. If the school board or board of education or a committee of such a board took the final action to expel the student, the student may be readmitted only by action of the board. Otherwise, the student may be readmitted by action of the Superintendent.
3. **Suspension of Enforcement of an Expulsion:** Enforcement of an expulsion action may be suspended (i.e., "stayed") for a period of not more than one full semester in addition to the balance of the semester in which the expulsion takes effect, and as a condition of such suspended action, the student may be assigned to a school, class, or program/plan and to such other consequences which the school district deems appropriate.
4. **Alternative School or Pre-expulsion Procedures.** The school shall provide either an alternative school, class or educational program for expelled students or shall follow the pre-expulsion procedures outlined in Neb. Rev. Stat. 79-266.

PBiS – Positive Behavioral Interventions and Supports

PBiS is a process to increase student achievement and success while decreasing students' challenging behaviors. By working together, staff, students, and parents help create a safer, more effective environment. Behavior expectations are defined, taught, and reviewed with all students. The expectations are posted throughout the school in designated areas. We encourage parents to use the same expectations and rules that the school teaches. This common language creates consistency and a unified support for expected student behavior.

We know that when good behavior and good teaching come together, our students will excel in their learning. Our strategies are based on the belief that:

“Positive behaviors from adults and students lead to an improved learning environment and increased learning.”

Our consistent school rules are:

- ◆ Be Responsible
- ◆ Active Learning
- ◆ Respect Others and school
- ◆ Keep Safe

These four rules apply to all areas of the school buildings and grounds. Classroom teachers also post their individual rules and expectations for their academic areas.

Students earn '**Positive Paws**' for positive behaviors. '**Paws**' are posted at the entryways and a copy is sent home to parents. Any staff member can give out a 'Paw' to any student to recognize their behavior. Drawings are held on a regular basis for the students & staff to win prizes as rewards for their positive behavior!

Consequences are given to student non-compliant behaviors. These fall into 2 groups, minor and major according to the definitions within the program guidelines (see Student Behavior Management Process Flowchart). Students who exhibit poor choices that are defined as Minor behaviors are retaught the expectation and acknowledge this choice by signing a Behavior Log (the yellow sheet). Students who display behaviors identified as Major are referred to the Building Principal for consequences of their actions (an office referral). Serious infractions that result in suspension (ISS and OSS) or expulsion have been outlined in the "Guidelines for Various Infractions" section of this handbook.

NATIONAL HONOR SOCIETY – (NHS)

Shelby-Rising City Public Schools will sponsor a Chapter of the National Honor Society by developing local procedures that are in accordance with the National guidelines.

Principal: Appoints a faculty member to serve as sponsor and other faculty to serve as council members for the NHS. Principal is in attendance at all council meetings as a non-voting participant.

Sponsor: Faculty member who is appointed to serve as advocate for the Shelby-Rising City Chapter of NHS. The sponsor is in attendance at all meetings as a non-voting participant. Sponsor duties include, but are not limited to: organize all Chapter activities, including election, disciplinary and dismissal procedures; chair all Faculty Council meetings, and anything else that pertains to NHS.

Faculty Council: A 5-member faculty team is responsible for voting on matters pertaining to the Chapter, including election, discipline and dismissal of members. An individual faculty member serves in two-year blocks of time and membership on the team is rotated through the secondary faculty.

Candidates: Any Shelby-Rising City 11th or 12th grade student who meets the criteria.

Criteria for Membership

Scholarship: The member must maintain a minimum grade point average (GPA) of 93%.

Service: The member upholds scholarship and is loyal to the school, participates in some outside activity (scouts, church, volunteer work in school, home or community), works well with others while assuming difficult responsibilities, cheerfully renders requested service to the school, represents the class or school in inter-class or inter-school activities, does committee work without complaining, shows courtesy by assisting visitors, teachers, and students.

Leadership: The member promotes school activities, influences peers in upholding school ideals, improves civic life in the school, has a positive attitude, inspires positive behavior in others, holds office or other positions or responsibility, is dependable and accepts responsibility, demonstrates leadership at home, school, work, and community.

Character: The member takes constructive criticism willingly, exemplifies desirable qualities of behavior, upholds principles of morality and ethics, cooperates and complies with school regulations, demonstrates honesty and reliability, shows courtesy, concern and respect for others, observes school instructions and rules, is truthful and avoids cheating, actively works to rid the school of negative influences.

Selection Process

Beginning with the class of 2016: At the end of second semester, the guidance counselor will inform the Sponsor of all students (those entering 11th and 12th grade) who have a minimum GPA of 93%. The Sponsor will inform students at the beginning of the next school year that they meet the scholarship criteria. The student will be asked to complete a questionnaire indicating their desire to be selected as a member of NHS. Once students complete the questionnaire and return it to the Sponsor, the Faculty Council will evaluate the materials. The Faculty Council will conduct an interview with each of the candidates prior to final selection. The Faculty Council then evaluates the student questionnaire, the interview and the faculty responses. The Faculty Council will make their decision on the applicant's candidacy by having each Council member assign a number value from 1 to 10 for each criterion:

scholarship, leadership, service, character and the interview for each applicant. The minimum value given for scholarship has been determined to be 8. Those students whose point total averages 40 or above will receive a letter notifying of their selection for membership. A parent and student meeting will take place prior to the candidate submitting a letter of acceptance or refusal into the organization. Induction will be held during September and students become active NHS members after the initiation ceremony.

Disciplinary Procedure

A member who fails to adhere to all criteria will be subjected to the NHS members' predetermined point system that will be used to help the Faculty Council determine when a member needs to receive a warning or possible dismissal from the NHS. If a member accumulates less than half the points for dismissal in a year, the points accumulated will be dismissed and a clean slate will occur for the next school year. If a member has accumulated one-half or more of the points that could lead to dismissal, those points will be rolled over into the new school year for returning students.

A member who fails to adhere to all the criteria may be dismissed from the Chapter by a vote of the Faculty Council. Members will not be dismissed from NHS without receiving a written warning from the Sponsor identifying and detailing the deficient criteria. The decision to issue a warning will be by majority vote of the Faculty Council or a predetermined point accumulation. In the case of scholarship, a warning will be issued if a member's cumulative average falls below 93%. The member must raise the average to 93% or above by the following semester's grading period to remain a member. If other criteria are not being met, a member will not be allowed a second violation of the indicated deficiency, nor would they be allowed other additional deficiencies. A vote for dismissal does not require a second warning before the action of the Council.

Exception: *No warning is required if a member is guilty of, or confesses to, violating school rules that require a long term suspension or an expulsion; also, no warning is required if a member is found guilty of, or confesses to, any action of flagrant violation of civil laws or school laws.*

CONFLICT RESOLUTION PROCESS

Conflicts that arise between an athlete and a coach will be handled in the following manner:

1. An athlete and coach should attempt to resolve any issues.
2. If the conflict cannot be resolved between the athlete and coach, the athlete should make an appointment to meet with the Director of Athletics.
3. If the problem is still unresolved, then the parent should contact the coach.
4. Only when the problem cannot be resolved with the coach should the parent contact the Director of Athletics.
5. These are the steps to be followed for conflict resolution:
 - a. Athlete – Coach
 - b. Athlete – Director of Activities
 - c. Parent – Coach
 - d. Parent – Director of Activities
 - e. Parent – Principal
 - f. Parent - Superintendent
 - g. Parent - Board of Education

**Topics that will not be discussed between parents and coaches include the following: Playing time, discussions about other student athletes, and game strategies.*

In the event that there is a serious conflict or communication inability between two parties, the process would proceed to the next level.

As a member of A Shelby-Rising City High School activity, there are certain standards you must live up to. You are expected to attend school regularly, maintain complete and passing grades in all classes, follow all school and team rules, and act in such a manner that represents you, your team, your school, and your community positively. To make this process as objective as possible, the following point system will be used to determine consequences for failing to live up to these standards.

Every participant starts the season with a clean slate of zero points. The point values assigned to different actions are then added as necessary.

When a student in **High School or Jr. High** accumulates a total of six (6) points, he/she will be required to sit out the next contest he/she will normally participate in. Every multiple of six points (6, 12) will require a missed contest. A participant accumulating more than twelve (12) points will be dismissed from the team, having no chance to letter or earn any post-season honors such as all-district or all-state.

Infraction Points

Late for game, practice, meeting, lifting, or any activity where time is set. 1 per occurrence

Penalty time such as: detention, stay after school, come in before school. ALL detentions are a point, even if no practice time is missed. 1 per occurrence

Unexcused absence from game, practice, meeting, lifting session, or activity called by the coach. 2 per occurrence

Suspension - in school or out of school 2 per each day of suspension

Infractions out of Students Control: If a situation has occurred where it is out of the control of the participant, the activities director and the administration team will determine if the participant is in violation of the code of conduct (i.e. late to school due to oversleeping, club sports, missing bus are examples of the participant being in violation of the code).

- a. Missing a game due to being ineligible is considered an excused absence, since you are already being punished by the school, and no points will be added for the miss. SCHOOL WELLNESS

The board adopts this policy to create positive, safe and health-promoting learning environments at every level, in every setting, throughout the school year. This will assist in providing students with the opportunity to achieve personal, academic, developmental and social success.

1. District Wellness Committee

Committee Role and Membership

The District will convene a representative District Wellness Committee (DWC) that meets at least four times per year to establish goals for and oversee school health and safety policies and programs, including development, implementation and periodic review and update of this District wellness policy.

The DWC membership will represent all school levels and include (to the extent possible), but not be limited to: parents and caregivers; students; school nutrition program representatives; physical education teachers; health education teachers; school health staff or representatives, and mental health and social services staff; school administrators, school board members; health professionals; and the general public. When possible, membership will also include Supplemental Nutrition Assistance Program Education coordinators. To the extent possible, the DWC will include representatives from each school building and reflect the diversity of the community.

Leadership

The Superintendent or designee(s) will convene the DWC and facilitate development of and updates to the wellness policy, and will ensure each school site's compliance with the policy.

Each school will designate a school wellness policy coordinator, who will ensure compliance with the policy. Refer to Appendix A for a list of school-level wellness policy coordinators.

2. Wellness Policy Implementation, Monitoring, Accountability and Community Engagement

Implementation Plan

The District will develop and maintain a plan for implementation to manage and coordinate the execution of this wellness policy. The plan delineates roles, responsibilities, actions and timelines specific to each school; and includes information about who will be responsible to make what change, by how much, where and when; as

well as specific goals and objectives for nutrition standards for all foods and beverages available on the school campus, food and beverage marketing, nutrition promotion and education, physical activity, physical education and other school-based activities that promote student wellness. It is recommended that the school use the Healthy Schools Program online tools to complete a school-level assessment based on the Centers for Disease Control and Prevention's School Health Index, create an action plan that fosters implementation and generate an annual progress report.

This wellness policy and the progress reports can be found at the District's website.

Recordkeeping

The District will retain records to document compliance with the requirements of the wellness policy at the District's Central Administrative Office, and/or on the District's computer network. Documentation maintained in this location will include but will not be limited to:

- The written wellness policy;
- Documentation demonstrating that the policy has been made available to the public;
- Documentation of efforts to review and update the Local Schools Wellness Policy; including an indication of who is involved in the update and methods the district uses to make stakeholders aware of their ability to participate on the DWC;
- Documentation to demonstrate compliance with the annual public notification requirements;
- The most recent assessment on the implementation of the local school wellness policy;
- Documentation demonstrating the most recent assessment on the implementation of the Local School Wellness Policy has been made available to the public.

Annual Notification of Policy

The District will actively inform families and the public each year of basic information about this policy, including its content, any updates to the policy and implementation status. The District will make this information available via the district website and/or district-wide communications. The District will provide as much information as possible about the school nutrition environment. This will include a summary of the District's events or activities related to wellness policy implementation. Annually, the District will also publicize the name and contact information of the District/school officials leading and coordinating the committee, as well as information on how the public can get involved with the school wellness committee.

Triennial Progress Assessments

At least once every three years, the District will evaluate compliance with the wellness policy to assess the implementation of the policy and include:

- The extent to which schools under the jurisdiction of the District are in compliance with the wellness policy;
- The extent to which the District's wellness policy compares to the Alliance for a Healthier Generation's model wellness policy; and
- A description of the progress made in attaining the goals of the District's wellness policy.

The position/person responsible for managing the triennial assessment and contact information is the Superintendent or Superintendent's designee.

The DWC, in collaboration with individual schools, will monitor schools' compliance with this wellness policy.

The District will actively notify households/families of the availability of the triennial progress report.

Revisions and Updating the Policy

The DWC will update or modify the wellness policy based on the results of the annual School Health Index and triennial assessments and/or as District priorities change; community needs change; wellness goals are met; new health science, information, and technology emerges; and new Federal or state guidance or standards are issued. The wellness policy will be assessed and updated as indicated at least every three years, following the triennial assessment.

Community Involvement, Outreach and Communications

The District is committed to being responsive to community input, which begins with awareness of the wellness policy. The District will actively communicate ways in which representatives of DWC and others can participate in the development, implementation and periodic review and update of the wellness policy through a variety of means appropriate for that district. The District will also inform parents of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in School nutrition standards. The District will use electronic mechanisms, such as email or displaying notices on the district's website, as well as non-electronic mechanisms, such as newsletters, presentations to parents, or sending information home to parents, to ensure that all families are actively notified of the content of, implementation of, and updates to the wellness policy, as well as how to get involved and support the policy. The District will ensure that communications are culturally and linguistically appropriate to the community, and accomplished through means similar to other ways that the district and individual schools are communicating important school information with parents.

The District will actively notify the public about the content of or any updates to the wellness policy annually, at a minimum. The District will also use these mechanisms to inform the community about the availability of the annual and triennial reports.

3. Nutrition

School Meals

The District is committed to serving healthy meals to children, with plenty of fruits, vegetables, whole grains, and fat-free and low-fat milk; that are moderate in sodium, low in saturated fat, and have zero grams trans fat per serving (nutrition label or manufacturer's specification); and to meeting the nutrition needs of school children within their calorie requirements. The school meal programs aim to improve the diet and health of school children, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs.

All schools within the District participate in USDA child nutrition programs, including the National School Lunch Program (NSLP), the School Breakfast Program (SBP). *[Other District nutrition programs in which the district participates may include the Fresh Fruit & Vegetable Program (FFVP), Special Milk Program (SMP), Summer Food Service Program (SFSP), Nebraska Beef in Schools programs, school gardens, Breakfast in the Classroom, Mobile Breakfast carts, Grab 'n' Go Breakfast, or others.]*

- *Daily announcements are used to promote and market menu options.]*

Staff Qualifications and Professional Development

All school nutrition program directors, managers and staff will meet or exceed hiring and annual continuing education/training requirements in the USDA professional standards for child nutrition professionals. These school nutrition personnel will refer to USDA's Professional Standards for School Nutrition Standards website to search for training that meets their learning needs.

Water

To promote hydration, free, safe, unflavored drinking water will be available to all students throughout the school day and throughout every school campus ("school campus" and "school day" are defined at the end of this policy). The District will make drinking water available where school meals are served during mealtimes.

Competitive Foods and Beverages

The District is committed to ensuring that all foods and beverages available to students on the school campus during the school day support healthy eating. The foods and beverages sold and served outside of the school meal programs (e.g., "competitive" foods and beverages) will meet the USDA Smart Snacks in School nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods during the school day and create an environment that reinforces the development of healthy eating habits. A summary of the standards and information, as well as a Guide to Smart Snacks in Schools are available at: <http://www.fns.usda.gov/healthierschoolday/tools-schools-smart-snacks>. The Alliance for a Healthier Generation provides a set of tools to assist with implementation of Smart Snacks available at www.foodplanner.healthiergeneration.org.

To support healthy food choices and improve student health and well-being, all foods and beverages outside the reimbursable school meal programs that are sold to students on the school campus during the school day will meet or exceed the USDA Smart Snacks nutrition standards or, if the state policy is stronger, "will meet or exceed state nutrition standards". These standards will apply in all locations and through all services where foods and beverages are sold, which may include, but are not limited to, à la carte options in cafeterias, vending machines, school stores and snack or food carts.

Celebrations and Rewards

All foods offered on the school campus will meet or exceed the USDA Smart Snacks in School nutrition standards or, if the state policy is stronger, “will meet or exceed state nutrition standards,” including through:

1. Celebrations and parties. The district will provide a list of healthy party ideas to parents and teachers, including non-food celebration ideas. Healthy party ideas are available from the Alliance for a Healthier Generation and from the USDA.
2. Classroom snacks brought by parents. The District will provide to parents a list of foods and beverages that meet Smart Snacks nutrition standards.
3. Rewards and incentives. The District will provide teachers and other relevant school staff a list of alternative ways to reward children. Foods and beverages will not be used as a reward, or withheld as punishment for any reason, such as for performance or behavior.

Fundraising

Foods and beverages that meet or exceed the USDA Smart Snacks in Schools nutrition standards may be sold through fundraisers on the school campus during the school day. The District will make available to parents and teachers a list of healthy fundraising ideas or similar resources.

Nutrition Promotion

Nutrition promotion and education positively influence lifelong eating behaviors by using evidence-based techniques and nutrition messages, and by creating food environments that encourage healthy nutrition choices and encourage participation in school meal programs. Students and staff will receive consistent nutrition messages throughout schools, classrooms, gymnasiums, and cafeterias. Nutrition promotion also includes marketing and advertising nutritious foods and beverages to students and is most effective when implemented consistently through a comprehensive and multi-channel approach by school staff, teachers, parents, students and the community.

The District will promote healthy food and beverage choices for all students throughout the school campus, as well as encourage participation in school meal programs. This promotion will occur through at least:

- Implementing at least ten or more evidence-based healthy food promotion techniques through the school meal programs using Smarter Lunchroom techniques; and
- Ensuring 100% of foods and beverages promoted to students meet the USDA Smart Snacks in School nutrition standards.

Nutrition Education

The District will teach, model, encourage and support healthy eating by all students. Schools will provide nutrition education and engage in nutrition promotion that:

Is designed to provide students with the knowledge and skills necessary to promote and protect their health;

- Is part of not only health education classes, but also integrated into other classroom instruction through subjects such as math, science, language arts, social sciences and elective subjects;
- Includes enjoyable, developmentally-appropriate, culturally-relevant and participatory activities, such as cooking demonstrations or lessons, promotions, taste-testing, farm visits and school gardens;
- Promotes fruits, vegetables, whole-grain products, low-fat and fat-free dairy products and healthy food preparation methods;
- Emphasizes caloric balance between food intake and energy expenditure (promotes physical activity/exercise);
- Links with school meal programs, cafeteria nutrition promotion activities, school gardens, Farm to School programs, other school foods and nutrition-related community services;
- Teaches media literacy with an emphasis on food and beverage marketing; and
- Includes nutrition education training for teachers and other staff.

Essential Healthy Eating Topics in Health Education

The District will include in the health education curriculum a minimum of 12 of the following essential topics on healthy eating:

- Relationship between healthy eating and personal health and disease prevention
- Food guidance from MyPlate
- Reading and using FDA's nutrition fact labels
- Eating a variety of foods every day
- Balancing food intake and physical activity
- Eating more fruits, vegetables and whole grain products

- How to develop a plan and track progress toward achieving a personal goal to eat healthfully
- Resisting peer pressure related to unhealthy dietary behavior
- Influencing, supporting, or advocating for others' healthy dietary behavior

Food and Beverage Marketing in Schools

The District is committed to providing a school environment that ensures opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. The District strives to teach students how to make informed choices about nutrition, health and physical activity. These efforts will be weakened if students are subjected to advertising on District property that contains messages inconsistent with the health information the District is imparting through nutrition education and health promotion efforts. It is the intent of the District to protect and promote student's health by permitting advertising and marketing for only those foods and beverages that are permitted to be sold on the school campus, consistent with the District's wellness policy.

Any foods and beverages marketed or promoted to students on the school campus during the school day will meet or exceed the USDA Smart Snacks in School nutrition standards or, if stronger, "state nutrition standards," such that only those foods that comply with or exceed those nutrition standards are permitted to be marketed or promoted to students.

Food and beverage marketing is defined as advertising and other promotions in schools. Food and beverage marketing often includes an oral, written, or graphic statements made for the purpose of promoting the sale of a food or beverage product made by the producer, manufacturer, seller or any other entity with a commercial interest in the product. This term includes, but is not limited to the following:

- Brand names, trademarks, logos or tags, except when placed on a physically present food or beverage product or its container.
- Displays, such as on vending machine exteriors
- Corporate brand, logo, name or trademark on school equipment, such as marquees, message boards, scoreboards or backboards (Note: immediate replacement of these items are not required; however, districts will replace or update scoreboards or other durable equipment when existing contracts are up for renewal or to the extent that is financially possible over time so that items are in compliance with the marketing policy.)
- Corporate brand, logo, name or trademark on cups used for beverage dispensing, menu boards, coolers, trash cans and other food service equipment; as well as on posters, book covers, pupil assignment books or school supplies displayed, distributed, offered or sold by the District.
- Advertisements in school publications or school mailings.
- Free product samples, taste tests or coupons of a product, or free samples displaying advertising of a product.

As the District/school nutrition services/Athletics Department/PTA/PTO reviews existing contracts and considers new contracts, equipment and product purchasing (and replacement) decisions should reflect the applicable marketing guidelines established by the District wellness policy.

4. Physical Activity

Children and adolescents should participate in at least 60 minutes of physical activity every day. A substantial percentage of students' physical activity can be provided through a comprehensive school physical activity program (CSPAP). A CSPAP reflects strong coordination and synergy across all of the components: quality physical education as the foundation; physical activity before, during and after school; staff involvement and family and community engagement and the district is committed to providing these opportunities. Schools will ensure that these varied physical activity opportunities are in addition to, and not as a substitute for, physical education (addressed in "Physical Education" subsection). All schools in the district will be encouraged to participate in Let's Move! Active Schools (www.letsmoveschools.org) in order to successfully address all CSPAP areas.

Physical activity during the school day (including but not limited to recess, classroom physical activity breaks or physical education) will not be withheld as punishment. The District will provide teachers and other school staff with a list of ideas for alternative ways to discipline students.

To the extent practicable, the District will ensure that its grounds and facilities are safe and that equipment is available to students to be active. The District will conduct necessary inspections and repairs.

Physical Education

The District will provide students with physical education, using an age-appropriate, sequential physical education curriculum consistent with national and state standards for physical education. The physical education curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts (discussed in the "*Essential Physical Activity Topics in Health Education*" subsection). The curriculum will support the essential components of physical education.

All students will be provided equal opportunity to participate in physical education classes. The District will make appropriate accommodations to allow for equitable participation for all students and will adapt physical education classes and equipment as necessary.

All District elementary students in each grade will receive physical education for at least 60-89 minutes per week throughout the school year.

All District secondary students (middle and high school) are required to take the equivalent of one academic year of physical education.

The District physical education program will promote student physical fitness through individualized fitness and activity assessments (via the Presidential Youth Fitness Program or other appropriate assessment tool) and will use criterion-based reporting for each student.

Essential Physical Activity Topics in Health Education

Health education will be required in all grades (elementary) and the district will require middle and high school students to take and pass at least one health education course. The District will include in the health education curriculum a minimum of 12 the following essential topics on physical activity:

- The physical, psychological, or social benefits of physical activity
- How physical activity can contribute to a healthy weight
- How physical activity can contribute to the academic learning process
- How an inactive lifestyle contributes to chronic disease
- Health-related fitness, that is, cardiovascular endurance, muscular endurance, muscular strength, flexibility, and body composition
- Differences between physical activity, exercise and fitness
- Phases of an exercise session, that is, warm up, workout and cool down
- Overcoming barriers to physical activity
- Decreasing sedentary activities, such as TV watching
- Opportunities for physical activity in the community
- Preventing injury during physical activity
- Weather-related safety, for example, avoiding heat stroke, hypothermia and sunburn while being physically active
- How much physical activity is enough, that is, determining frequency, intensity, time and type of physical activity
- Developing an individualized physical activity and fitness plan
- Monitoring progress toward reaching goals in an individualized physical activity plan
- Dangers of using performance-enhancing drugs, such as steroids
- Social influences on physical activity, including media, family, peers and culture
- How to find valid information or services related to physical activity and fitness
- How to influence, support, or advocate for others to engage in physical activity
- How to resist peer pressure that discourages physical activity.

Recess (Elementary)

All elementary schools will offer at least 20 minutes of recess on all days during the school year. This policy may be waived on early dismissal or late arrival days. If recess is offered before lunch, schools will have appropriate hand-washing facilities and/or hand-sanitizing mechanisms located just inside/outside the cafeteria to ensure proper hygiene prior to eating and students are required to use these mechanisms before eating. Hand-

washing time, as well as time to put away coats/hats/gloves, will be built in to the recess transition period/timeframe before students enter the cafeteria.

Outdoor recess will be offered when weather and conditions are feasible for outdoor play. In the event of indoor recess, teachers and staff will follow the indoor recess guidelines that promote physical activity for students, to the extent practicable.

Recess will complement, not substitute, physical education class. Recess monitors or teachers will encourage students to be active, and will serve as role models by being physically active alongside the students whenever feasible.

Classroom Physical Activity Breaks (Elementary and Secondary)

The District recognizes that students are more attentive and ready to learn if provided with periodic breaks when they can be physically active or stretch. Thus, students will be offered periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. The District recommends teachers provide short (3-5-minute) physical activity breaks to students during and between classroom time at least three days per week. These physical activity breaks will complement, not substitute, for physical education class, recess, and class transition periods.

The District will provide resources and links to resources, tools, and technology with ideas for classroom physical activity breaks. Resources and ideas are available through USDA and the Alliance for a Healthier Generation.

Active Academics

Teachers will incorporate movement and kinesthetic learning approaches into “core” subject instruction when possible (e.g., science, math, language arts, social studies and others) and do their part to limit sedentary behavior during the school day.

The District will support classroom teachers incorporating physical activity and employing kinesthetic learning approaches into core subjects by providing annual professional development opportunities and resources, including information on leading activities, activity options, as well as making available background material on the connections between learning and movement.

Teachers will serve as role models by being physically active alongside the students whenever feasible.

Before and After School Activities

The District offers opportunities for students to participate in physical activity either before and/or after the school day through a variety of methods. The District will encourage students to be physically active before and after school by offering options

such as physical activity clubs, physical activity in aftercare, intramurals or interscholastic sports.

Active Transport

The District will support active transport to and from school, such as walking or biking. The District will encourage this behavior by specifically selecting and engaging in six or more of the activities below or others as added by the District:

- Designate safe or preferred routes to school
- Promote activities such as participation in International Walk to School Week, National Walk and Bike to School Week
- Secure storage facilities for bicycles and helmets (e.g., shed, cage, fenced area)
- Instruction on walking/bicycling safety provided to students
- Promote safe routes program to students, staff, and parents via newsletters, websites, local newspaper
- Use crossing guards
- Use crosswalks on streets leading to schools
- Use walking school buses
- Document the number of children walking and or biking to and from school
- Create and distribute maps of school environment (e.g., sidewalks, crosswalks, roads, pathways, bike racks, etc.)

5. Other Activities that Promote Student Wellness

The District will integrate wellness activities across the entire school setting, not just in the cafeteria, other food and beverage venues and physical activity facilities. The District will coordinate and integrate other initiatives related to physical activity, physical education, nutrition and other wellness components so all efforts are complementary, not duplicative, and work towards the same set of goals and objectives promoting student well-being, optimal development and strong educational outcomes.

Schools in the District are encouraged to coordinate content across curricular areas that promote student health, such as teaching nutrition concepts in mathematics, with consultation provided by either the school or the District's curriculum experts.

All efforts related to obtaining federal, state or association recognition for efforts, or grants/funding opportunities for healthy school environments will be coordinated with and complementary of the wellness policy, including but not limited to ensuring the involvement of the DWC.

All school-sponsored events will adhere to the wellness policy guidelines. All school-sponsored wellness events will include physical activity and healthy eating opportunities when appropriate.

Community Partnerships

The District will develop, enhance, or continue relationships with community partners (e.g., hospitals, universities/colleges, local businesses, SNAP-Ed providers and coordinators, etc.) in support of this wellness policy's implementation. Existing and new community partnerships and sponsorships will be evaluated to ensure that they are consistent with the wellness policy and its goals.

Community Health Promotion and Family Engagement

The District will promote to parents/caregivers, families, and the general community the benefits of and approaches for healthy eating and physical activity throughout the school year. Families will be informed and invited to participate in school-sponsored activities and will receive information about health promotion efforts.

As described in the "Community Involvement, Outreach, and Communications" subsection, the District will use electronic mechanisms (e.g., email or displaying notices on the district's website), as well as non-electronic mechanisms, (e.g., newsletters, presentations to parents or sending information home to parents), to ensure that all families are actively notified of opportunities to participate in school-sponsored activities and receive information about health promotion efforts.

Staff Wellness and Health Promotion

The DWC will have a staff wellness subcommittee that focuses on staff wellness issues, identifies and disseminates wellness resources and performs other functions that support staff wellness in coordination with human resources staff.

Schools in the District will implement strategies to support staff in actively promoting and modeling healthy eating and physical activity behaviors and may provide examples of specific actions staff members can take. The District promotes staff member participation in health promotion programs and will support programs for staff members on healthy eating/weight management that are accessible and free or low-cost.

Professional Learning

When feasible, the District will offer annual professional learning opportunities and resources for staff to increase knowledge and skills about promoting healthy behaviors in the classroom and school (e.g., increasing the use of kinesthetic teaching approaches or incorporating nutrition lessons into math class). Professional learning will help District staff understand the connections between academics and health and the ways in which health and wellness are integrated into ongoing district reform or academic improvement plans/efforts.

STUDENT FEES

The board realizes some activities may require additional expenditures which are properly to be borne by students as a separate charge. Such charges may be waived as specified below depending upon the student's eligibility for the free and reduced-price lunch program. No fees, specialized or nonspecialized attire or equipment shall be required of students outside this policy. This policy does not apply to tuition payments by nonresident students.

For the purposes of this policy, the following definitions shall apply:

1. Extracurricular activities means student activities or organizations which are supervised or administered by the school district, which do not count toward graduation or advancement between grades, and in which participation is not otherwise required by the school district;
2. Postsecondary education costs means tuition and other fees associated with obtaining credit from a postsecondary educational institution.

The district may charge student fees or require students to provide specialized equipment or attire in the following areas:

1. Participation in extracurricular activities, including extracurricular music courses;
2. Admission fees and transportation charges for spectators attending extracurricular activities;
3. Postsecondary education costs, limited to tuition and fees associated with obtaining credits from the postsecondary institution;

STUDENT CONDUCT

The board believes inappropriate student conduct causes serious disruption to the learning environment, interferes with the rights of others, and threatens the health and safety of students, employees and the public. The Superintendent and staff will develop and implement age-appropriate student codes of conduct to facilitate the educational process.

The district will not substantially burden the right to a student's religious exercise unless that religious exercise is disruptive to or interferes with the school learning environment, is detrimental to the health or safety of the student or another person, or violates the permission of staff.

Students shall conduct themselves in a manner fitting to their age level and maturity and with respect and consideration for the rights of others while on school district property or on property within the jurisdiction of the school district. This policy will also apply while on school owned, operated or chartered transportation; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and educational processes of the school district.

Students who violate this policy and the administrative regulations supporting it will be subject to disciplinary measures including, but not limited to, removal from the classroom, detention, suspension, probation and expulsion. The codes of conduct will include measures to prevent or discourage behavior which interferes with the educational program, behavior which disrupts the orderly and efficient operation of the school or the functioning of school activities, behavior which interferes with the maintenance of a learning environment, behavior that is violent or destructive, or behavior which interferes with the rights of other students to pursue their education. Procedures will be available to allow rights of due process for all students.

Every report of alleged violations of student conduct policies that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing student conduct investigation, potential issues of discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged violations of student conduct policies.

This disciplinary process is designed to create the expectation that the degree of discipline imposed by the school will be proportionate to the severity of the behavior of the particular student, the previous discipline history of the student and other relevant

STUDENT CONDUCT ON BUSES

The privilege of riding a school bus is contingent upon a student's good behavior and observance of established regulations for student conduct both at bus stops and onboard buses. Since bus transportation is provided to assist the education program, the board shall require students to conduct themselves on the bus in a manner consistent with established standards for classroom behavior.

The responsibility of the Principal for the safety and discipline of pupils is delegated to the bus driver when pupils are loading or unloading at points not immediately adjacent to the school, and while in transit. When present, activity sponsors are to discipline students.

Breaches of discipline reported to the Principal by the bus driver may be reported by the Principal to the responsible parent or guardian. Repeated misbehavior will provide reason to suspend or cancel the transportation privilege.

Permanent cancellation of the transportation privilege may be accomplished by the Board, upon recommendation of the Administration (Principal and Superintendent).

Bus drivers will not permit students to leave the bus at any point between the point of pick up and destination without written parental permission.

Permission to leave a school bus at any point other than the point which any given pupil daily boards and leaves the bus can be granted only in response to the written request of the parent or guardian. Bus drivers will not deviate from established routes for pickup or drop off without permission of the Bus supervisor or an administrator. It is the parental responsibility to pay for damage to school buses when such damage is the result of vandalism.

It is recommended that pupils will hold parcels, books, and other objects carried aboard school buses on their laps or place them in a vacant front seat. Items too numerous or too bulky for transportation in this manner will not be permitted aboard school buses while engaged in transporting children between home and school. Final judgment on the above is at the driver's discretion.

The following rules and procedures shall be followed in order to assure that discipline is maintained on school buses:

1. The bus driver will assign permanent seating as necessary.
2. Drivers are to contact misbehaving student's parents as needed when problems initially arise.
3. Regular pupils are always to be delivered to regular stops unless a change is requested, in writing, by the parent.
4. Bus drivers will never refuse to pick up, deliver, or drop off an approved pupil unless permission to ride has been denied in writing by the Principal. The pupil must be delivered to the established delivery point unless written parental permission is received.

5. It is the driver's responsibility to report to the Principal any pupil misbehavior of a severe or consistent nature in any manner consistent with the principal's directive.
6. Pupils are suspended from the bus by the Principal, not by the driver.
