Nebraska Open Meetings Act

84-1407. Act, how cited. Sections 84-1407 to 84-1414 shall be known and may be cited as the Open Meetings Act.

84-1408. Declaration of intent; meetings open to public. It is hereby declared to be the policy of this state that the formation of public policy is public business and may not be conducted in secret.

Every meeting of a public body shall be open to the public in order that citizens may exercise their democratic privilege of attending and speaking at meetings of public bodies, except as otherwise provided by the Constitution of Nebraska, federal statutes, and the Open Meetings Act.

84-1409. Terms, defined. For purposes of the Open Meetings Act, unless the context otherwise requires:

- (1)(a) Public body means (i) governing bodies of all political subdivisions of the State of Nebraska, (ii) governing bodies of all agencies, created by the Constitution of Nebraska, statute, or otherwise pursuant to law, of the executive department of the State of Nebraska, (iii) all independent boards, commissions, bureaus, committees, councils, subunits, or any other bodies created by the Constitution of Nebraska, statute, or otherwise pursuant to law, (iv) all study or advisory committees of the executive department of the State of Nebraska whether having continuing existence or appointed as special committees with limited existence, (v) advisory committees of the bodies referred to in subdivisions (i), (ii), and (iii) of this subdivision, and (vi) instrumentalities exercising essentially public functions; and
- (b) Public body does not include (i) subcommittees of such bodies unless a quorum of the public body attends a subcommittee meeting or unless such subcommittees are holding hearings, making policy, or taking formal action on behalf of their parent body, except that all meetings of any subcommittee established under section 81-15,175 are subject to the Open Meetings Act, (ii) entities conducting judicial proceedings unless a court or other judicial body is exercising rulemaking authority, deliberating, or deciding upon the issuance of administrative orders, and (iii) the Judicial Resources Commission or subcommittees or subgroups of the commission;
- (2) Meeting means all regular, special, or called meetings, formal or informal, of any public body for the purposes of briefing, discussion of public business, formation of tentative policy, or the taking of any action of the public body; and
- (3) Virtual conferencing means conducting or participating in a meeting electronically or telephonically with interaction among the participants subject to subsection (2) of section 84-1412.

84-1410. Closed session; when; purpose; reasons listed; procedure; right to challenge; prohibited acts; chance meetings, conventions, or workshops.

- (1) Any public body may hold a closed session by the affirmative vote of a majority of its voting members if a closed session is clearly necessary for the protection of the public interest or for the prevention of needless injury to the reputation of an individual and if such individual has not requested a public meeting. The subject matter and the reason necessitating the closed session shall be identified in the motion to close. Closed sessions may be held for, but shall not be limited to, such reasons as:
 - (a) Strategy sessions with respect to collective bargaining, real estate purchases, pending litigation, or litigation which is imminent as evidenced by communication of a claim or threat of litigation to or by the public body;
 - (b) Discussion regarding deployment of security personnel or devices;
 - (c) Investigative proceedings regarding allegations of criminal misconduct;
 - (d) Evaluation of the job performance of a person when necessary to prevent needless injury to the reputation of a person and if such person has not requested a public meeting;
 - (e) For the Community Trust created under section 81-1801.02, discussion regarding the amounts to be paid to individuals who have suffered from a tragedy of violence or natural disaster; or
 - (f) For public hospitals, governing board peer review activities, professional review activities, review and discussion of medical staff investigations or disciplinary actions, and any strategy session concerning transactional negotiations with any referral source that is required by federal law to be conducted at arms length.

Nothing in this section shall permit a closed meeting for discussion of the appointment or election of a new member to any public body.

- (2) The vote to hold a closed session shall be taken in open session. The entire motion, the vote of each member on the question of holding a closed session, and the time when the closed session commenced and concluded shall be recorded in the minutes. If the motion to close passes, then the presiding officer immediately prior to the closed session shall restate on the record the limitation of the subject matter of the closed session. The public body holding such a closed session shall restrict its consideration of matters during the closed portions to only those purposes set forth in the motion to close as the reason for the closed session. The meeting shall be reconvened in open session before any formal action may be taken. For purposes of this section, formal action shall mean a collective decision or a collective commitment or promise to make a decision on any question, motion, proposal, resolution, order, or ordinance or formation of a position or policy but shall not include negotiating guidance given by members of the public body to legal counsel or other negotiators in closed sessions authorized under subdivision (1)(a) of this section.

- (3) Any member of any public body shall have the right to challenge the continuation of a closed session if the member determines that the session has exceeded the reason stated in the original motion to hold a closed session or if the member contends that the closed session is neither clearly necessary for (a) the protection of the public interest or (b) the prevention of needless injury to the reputation of an individual. Such challenge shall be overruled only by a majority vote of the members of the public body. Such challenge and its disposition shall be recorded in the minutes.
- (4) Nothing in this section shall be construed to require that any meeting be closed to the public. No person or public body shall fail to invite a portion of its members to a meeting, and no public body shall designate itself a subcommittee of the whole body for the purpose of circumventing the Open Meetings Act. No closed session, informal meeting, chance meeting, social gathering, email, fax, or other electronic communication shall be used for the purpose of circumventing the requirements of the act.

- (5) The act does not apply to chance meetings or to attendance at or travel to conventions or workshops of members of a public body at which there is no meeting of the body then intentionally convened, if there is no vote or other action taken regarding any matter over which the public body has supervision, control, jurisdiction, or advisory power.

84-1411. Meetings of public body; notice; method; contents; when available; right to modify; duties concerning notice; virtual conferencing authorized; requirements; emergency meeting without notice; appearance before public body.

Such notice shall be placed in the newspaper and on the websites by the newspaper.

 - (A)(I) Publication in a newspaper of general circulation within the public body's jurisdiction that is finalized for printing prior to the time and date of the meeting, (II) posting on such newspaper's website, if available, and (III) posting on a statewide website, if available, established and maintained as a repository for such notices by a majority of Nebraska newspapers. Such notice shall be placed in the newspaper and on the websites by the newspaper;
 - (B)(I) Posting to the newspaper's website, if available, and (II) posting on a statewide website, if available, established and maintained as a repository for such notices by a majority of Nebraska newspapers if no edition of a newspaper of general circulation within the public body's jurisdiction is to be

finalized for printing prior to the time and date of the meeting. Such notice shall be placed in the newspaper and on the websites by the newspaper; or (C) Posting written notice in three conspicuous public places in such city, village, or district. Such notice shall be posted by the public body in the same three places for each meeting.

(iii) In the case of a public body not described in subdivision (1)(b)(i) or (ii) of this section, such notice shall be given by a method designated by the public body.

(iv) In case of refusal, neglect, or inability of the newspaper to publish the notice, the public body shall (A) post such notice on its website, if available, (B) request the newspaper submit a post on a statewide website, if available, established and maintained as a repository for such notices by a majority of Nebraska newspapers, and (C) post such notice in a conspicuous public place in such public body's jurisdiction. The public body shall keep a written record of such posting pursuant to subdivision (1)(b)(iv)(A) and (C) of this section and a written record of the request to the newspaper pursuant to subdivision (1)(b)(iv)(B) of this section. The record of such posting shall be evidence that such posting was done as required and shall be sufficient to fulfill the requirement of publication.

(c) In addition to a method of notice required by subdivision (1)(b)(i) or (ii) of this section, such notice may also be provided by any other appropriate method designated by such public body or such advisory committee.

(d) Each public body shall record the methods and dates of such notice in its minutes.

(e) Such notice shall contain an agenda of subjects known at the time of the publicized notice or a statement that the agenda, which shall be kept continually current, shall be readily available for public inspection at the principal office of the public body during normal business hours. Agenda items shall be sufficiently descriptive to give the public reasonable notice of the matters to be considered at the meeting. Except for items of an emergency nature, the agenda shall not be altered later than (i) twenty-four hours before the scheduled commencement of the meeting or (ii) forty-eight hours before the scheduled commencement of a meeting of a city council or village board scheduled outside the corporate limits of the municipality. broken out were not all included in the calculation. Sparq is currently working on correcting this issue. The filtering function will also be corrected. 11.3.1. Revision to Policy 1012. Formulation/Adoption of Administrative Regulations

In the board meetings preceding months when there is no board meeting, the ESUCC Board currently must have an action item authorizing the CEO to pay bills and obligations for that upcoming month. In the November board meeting, requests were made to the CEO to find other options for this routine agenda item. The language below is recommended as a revision to Policy 1012. By adding this language, the board would not need to have the approval item for CEO authorization to pay bills when meetings are not scheduled the following month.

In addition, the Board authorizes the CEO to review, approve, and pay necessary and routine financial obligations of the ESUCC, including but not limited to vendor invoices, contractual payments, utilities, payroll-related expenses, and other bills that come due prior to the next regularly scheduled Board meeting. This authority includes payment of obligations for the upcoming month when the Board will not meet, in order to prevent late fees, penalties, interest charges, service disruptions, or any other adverse financial impact to the ESUCC. All such payments shall be reported to the Board for ratification at its next regular meeting.

Committee Recommended Motion: Discuss, consider, and take all necessary action to approve the revision to policy 1012, as presented.

3031. Communications to the Board

The ESUCC Board recognizes the necessity for open communication with member school districts, students, parents, employees and patrons but is also aware that a procedure for processing concerns and complaints is imperative to efficient operations of the ESUCC. It is the intent of the Board that concerns and complaints be resolved at the lowest possible level.

1. Complaints Made to Individual Board Members. Members of the Board have no authority or power to act on behalf of the Board or the ESUCC except when acting as a member of the entire Board at a duly called board meeting or when acting with express, specific authority granted by the Board or by law. The Board and the ESUCC shall not be bound in any way by the action or statement on the part of any individual Board member or committee, except when such statement or action is taken or made in conformance with express, specific authority granted by the Board or by law.

Should any member of the Board be approached with a concern or complaint, the member should:

- a. Listen attentively to the concerns but not take any inflexible position.
 - b. Instruct the individual about the ESUCC's process for resolving concerns and complaints and direct the individual to the appropriate complaint or grievance procedure or to the Administrator for information concerning such procedures. If the concern or complaint involves an employee, the individual should be informed to discuss the matter with the employee first.
 - c. Inform the Administrator of the concern.
2. Complaints Made to the Board. Concerns or complaints may be made to the Board at a duly called Board meeting at such time as the agenda provides for public participation or comment.

In the event the complaint involves a personnel matter relating to an employee of the ESU, the individual raising the complaint shall be directed to first exhaust the appropriate complaint or grievance procedure. The Board shall not respond or take action on such a complaint until such complaint or grievance procedure has been exhausted, unless it is determined by the Board, under the circumstances, that an immediate response or action is required.

Individuals raising concerns or complaints involving non-personnel matters which may be the subject of a complaint or grievance procedure may also be directed to first use such complaint or grievance procedure.

Cooperative Purchasing is a Project of ESUCC that has been in existence since 1968 with the purpose of providing the Educational Service Unit (ESU) member school districts ("Members") of Nebraska an opportunity to secure the maximum procurement value through cooperative synergies. The Educational Service Unit Coordinating Council (ESUCC) Advisory group serves as the steering committee for new and future cooperative buys statewide under its direction. A chief executive officer coordinates the statewide purchasing agreement between educational service units and their school districts and other serviceable entities. The Director of Cooperative Purchasing manages the program with the guidance of the ESUCC, Advisory Board, and the Fiscal Agent. ESUCC serves 17 ESUs that provide a statewide network of educational opportunities to approximately 244 school districts and more than 325,000 students.

In consideration of mutual covenants, the parties agree as follows:

- 1. Scope of the Contract.** The Contractor shall provide Members the opportunity to purchase the goods and/or services as defined in **Exhibit A**, which is attached hereto and incorporated herein by this reference, at the prices set forth in this Agreement and its Exhibits.
- 2. Payment Terms/Payment Schedule.** Members shall pay for services rendered and/or for accepted goods on the terms and payment schedule as set forth in **Exhibit B** which is attached hereto and incorporated herein by this reference. Prices listed in Exhibit B shall remain in effect during the term of this Agreement unless agreed otherwise by the parties in writing.
- 3. Administrative Fee.** Contractor shall submit to the Cooperative as an administrative fee a sum equal to two percent (2%) of the total gross dollar volume, less freight of all goods and services and excluding annual support and maintenance purchased by the Cooperative, ESUCC, ESUs, and Members. This fee will be submitted to ESUCC on a calendar quarter basis beginning from the Effective Date of this Agreement for all transactions completed and paid during said quarter.

4. **Term.** This Agreement is effective on February 13, 2026 ("Effective Date") and shall continue until 12:00 midnight (CST) on February 12, 2029, unless terminated earlier as provided by this Agreement or by law. Notwithstanding the effective date of termination of this Agreement, Contractor agrees to comply with Paragraph 5 of this Agreement.
5. **Duration of Services Purchased.** If this Agreement, for any reason, terminates before the service end date of any agreement or license between a Member and the Contractor, the Contractor shall continue, maintain, and make such Services available to such Member until the agreed upon date between the Contractor and Member or until the term for the service expires. For example, if the Contracted Services allow a member to purchase or license Services for a certain period of time, but this Agreement expires prior to the end of the service period, the Contractor agrees to maintain such Contracted Services until the expiration of said period of service and in accordance with the terms and provisions of the purchase or license.
6. **Governing Law; Designation of Forum.** This Agreement is governed by and construed in accordance with the laws of the State of Nebraska. Any action to enforce this Agreement must be brought in the state or federal courts of the State of Nebraska. Mandatory and exclusive venue for any disputes shall be in Sarpy County, Nebraska.

- M. **Rights and License in and to Data.** Parties agree that all rights, including all intellectual property rights, shall remain the exclusive property of the Member, and Contractor has a limited, nonexclusive license solely for the purpose of performing its obligations as outlined in the Agreement. Q. **Artificial Intelligence.** For vendors providing, using, or incorporating Artificial Intelligence-powered educational tools or services, additional data privacy terms shall apply as set forth in Exhibit "E."

8. Termination.

A. The Cooperative may terminate this Agreement in whole or part if funding from federal, state, or other sources for the Cooperative or its Members is not obtained and continued at levels sufficient to allow for purchase of the good and/or services in the indicated quantities or term. The Cooperative shall notify the Contractor as soon as practicable if funds to meet the Cooperative's or Members' obligations become unavailable. The determination of the Cooperative as to the insufficiency of funds is conclusive.

B. Each party may terminate this Agreement if the other party breaches or is in default of any material obligation hereunder which default is incapable of cure, or which, being capable of cure, has not been cured within 30 days after receipt of written notice of such default or such additional cure period as the nondefaulting party may authorize in writing.

C. Each party may terminate this Agreement by written notice if federal or state laws or rules are modified or interpreted in a way that the services are no longer allowable or appropriate for purchase under this contract or are no longer eligible for the funding proposed for payments authorized by this contract.

D. The Cooperative may terminate this Agreement, in whole or in part, by written notice to the Contractor and may regard the Contractor in default of this Agreement if the Contractor becomes:

- (1) Insolvent;
- (2) Makes a general assignment for the benefit of creditors;

- (3) Files a voluntary petition of bankruptcy;
- (4) Suffers or permits the appointment of a receiver for its business or assets;
- (5) Becomes subject to any proceeding under any bankruptcy or insolvency law, whether domestic or foreign; or
- (6) Has wound up or liquidated, voluntarily or otherwise.

F. The parties may terminate this Agreement without cause by mutual written consent or by either party with a minimum of 90 days written notice.

G. Upon the termination for any reason or expiration of this Agreement, the Contractor promptly must return to the Cooperative all papers, materials and other property of the Cooperative then in its possession, including but not limited to all work in progress as is appropriate in its then existing form to the Cooperative.

9. Indemnification.

A. The Contractor hereby waives and agrees to indemnify and save harmless the Cooperative, ESUCC, and the ESUs and their officials, agents, employees, and volunteers (hereinafter collectively referred to as "Indemnities"), against any and all claims of injuries, death, damage to property, liabilities, judgments, costs and expenses which may otherwise accrue against Indemnities in consequence of the granting of this Agreement or which may otherwise result therefrom.

B. The Contractor shall, at his or her own expense, appear, defend and pay all charges of attorneys and all costs and other expenses arising therefrom or incurred in connection therewith.

C. If any judgment shall be rendered against the Cooperative, ESUCC, or the ESUs in any such action, the Contractor shall, at his or her own expense, satisfy and discharge the same.

D. Any performance bond or insurance protection required by this contract, or otherwise provided by the Contractor, shall in no way limit the responsibility to indemnify and save harmless and defend the Indemnities as herein provided.

E. The Contractor's obligation to indemnify and save harmless any Indemnities will survive the expiration or termination of this Agreement by either party for any reason.

- 10. Tariffs.** In the event of significant delay or price increase of materials or goods occurring during the performance of the contract due to a tariff (or other similar government-mandated price adjustment) that goes into effect after the execution of this contract, the contract price/sum, time of performance, or contract

requirements may, by mutual agreement, be equitably adjusted by written amendment of the contract. A change in price of an item of material or good will be considered significant when the price of an item increases 5 percent between the date of execution of the contract as a direct result of a tariff or other government-mandate. The price amendment must be effective only as long as the tariff is in effect. The intent of the adjustment is to hold the vendor harmless from the impact of the tariff, but the price adjustment is in no way intended to provide or guarantee the same percentage of profit to the benefit of the vendor. The vendor must provide documentation that is satisfactory to ESUCC to support any claim under this section. In addition, ESUCC will have the right to request a cost analysis vs. price analysis for each change in tariff adjustment request. In the event that the parties are unable to reach an agreement regarding a contract amendment under this section, either party has the option to terminate the contract during the term of the contract, bid award and/or re-award the item to the next low bid.

11. Insurance. Contractor shall secure and keep in force during the term of this Agreement the following insurance coverages from insurance companies or government self-insurance pools authorized to do business in Nebraska:

A. Commercial general liability, including premises or operations, contractual, and products or completed operations coverages (if applicable), with minimum liability limits of \$1,000,000 per person and \$5,000,000 per occurrence; and

B. If applicable, workers compensation coverage meeting all statutory requirements.

The Contractor shall furnish a certificate of insurance to the undersigned Cooperative representative prior to commencement of this Agreement. Failure to provide insurance as required in this agreement is a material breach of contract entitling the Cooperative to terminate this Agreement immediately.

12. Public Records. The Contractor acknowledges that the Cooperative, ESUCC, ESUs, and Members must comply with Neb. Rev. Stat. § 84-712 through § 84-713 and release public records as defined law upon request, which may include this Agreement and all records created and maintained in relation to this Agreement.

The Contractor and all subcontractors, if any, shall not manufacture, sell, distribute, dispense, possess or use controlled substances or marijuana, as defined by Nebraska law, during the performance of this Agreement while on Cooperative, ESUCC, ESU, or Member premises or at Cooperative, ESUCC, ESU, or Member related functions. The

Contractor and all subcontractors, if any, shall not possess any weapon, as defined by Nebraska law and the federal "Drug-Free Schools Act," on Cooperative, ESUCC, ESU, or Member property or at Cooperative, ESUCC, ESU, or Member related functions. The Contractor and all subcontractors, if any, also shall adhere to all Cooperative, ESUCC, ESU, and Member policies and regulations that prohibit the possession, distribution, sale, dispensation, or use of any alcohol or tobacco products while on Cooperative, ESUCC, ESU, or Member premises or at Cooperative, ESUCC, ESU, or Member related functions. The signatures of all of the parties need not appear on the same counterpart, and delivery of an executed counterpart signature page by facsimile or other electronic means is as effective as executing and delivering this Agreement in the presence of the other parties to this Agreement. This Force Majeure provision excludes economic hardship, changes in market conditions, and insufficiency of funds on the part of Contractor.
- 28. Assignment.** This Agreement binds the parties and their respective successors and assignees. The Contractor shall not assign or otherwise dispose of this Agreement or any duty, right, or responsibility contemplated in this Agreement to any other person without the previous written consent of the Cooperative.

4. Implement and maintain technical and organizational measures to prevent re-identification of De-Identified Data; and
5. Maintain documentation of the de-identification process and make such documentation available to the Cooperative upon request.

The Contractor shall provide at least 30 days' written notice to the Cooperative before it intends to use deidentified Data and Aggregated Data derived from the Student Data.

ARTICLE III: DATA OWNERSHIP AND AUTHORIZED ACCESS

3.1 Student Data Property of the Cooperative or its Members.

As between the Cooperative, its Members, and Contractor, all Student Data processed by the Contractor, or created by students, is and will continue to be the property of and under the control of the Cooperative or its Member (whichever is applicable). The Contractor further acknowledges and agrees that all copies of such Student Data processed by the Contractor, including any modifications or additions or any portion thereof from any source, are also subject to the provisions of this Agreement in the same manner as the original Student Data. The Parties agree that as between them, all rights, including all intellectual property rights in and to Student Data contemplated per the Service Agreement, shall remain the exclusive property of the Cooperative or its Member (whichever is applicable).

3.2 Parent, Legal Guardian and Student Access.

The Cooperative and its Members shall establish reasonable procedures by which a parent, legal guardian, or eligible student (as defined in FERPA) may review Student Data and request deletion or modification, and request delivery of a copy of the Student Data. In support of this, the Contractor shall establish reasonable procedures by which the Cooperative's Members may access, and correct, if necessary, Education Records and/or Student Data, and make a copy of the data available to the parent, legal guardian or eligible student directly. If a Member is not able to review or update the Student Data itself, Contractor shall respond in a reasonably timely manner (and no later than thirty (30) days from the date of the request) to the Member's request for Student Data held by the Contractor to view or correct as necessary.

In the event that a parent or legal guardian of a student or eligible student contacts the Contractor to correct, delete, review or request delivery of a copy of any of the Student Data collected by or generated through the Services, the Contractor shall refer that person to the Member, who will follow the necessary and proper procedures regarding the requested information.

This Agreement does not impede the ability of students, parents, or guardians to download, export, or otherwise save or maintain their own Student Generated Content

directly from Contractor or for Contractor to provide a mechanism for such download, export, transfer or saving to students, or the student's parent or legal guardian. Nor does it impede the ability of Contractors to offer the Cooperative or its Members features to allow such ability.

3.3 Subprocessors.

Contractor shall enter into a Subprocessor Agreement with any Subprocessors performing functions for the Contractor in order for the Contractor to provide the Services, whereby the Subprocessors agree to protect Student Data in a manner no less stringent than the terms of this Agreement. Every Subprocessor Agreement must provide that the Subprocessor will not Sell the Student Data. The terms of a Subprocessor Agreement shall not be materially modified by the Subprocessor unless notice is provided to the Contractor. The Contractor will provide a copy of all Subprocessor Agreements, upon reasonable request of the Cooperative or a Member thereof.

3.4 Third Party Request.

Should a Third Party, including law enforcement and government entities, contact Contractor with a legally binding request for data held by the Contractor pursuant to the Services, the Contractor shall notify the Cooperative or its Member in advance of a compelled disclosure to such Third Party.

ARTICLE IV: DUTIES OF THE CONTRACTOR

4.4 De-Identified Data.

Contractor agrees not to attempt to re-identify De-Identified Student Data without the written direction of the Cooperative.

4.5 Disposition of Data.

Upon written request from the Cooperative or a Member thereof, Contractor shall dispose of or provide a mechanism for the Member to transfer Student Data obtained under the Service Agreement, within sixty (60) days of the date of said request and according to a schedule and procedure as the Parties may reasonably agree.

If the Contractor has a standard retention and destruction schedule, that schedule shall apply to Student Data as long as this Agreement is active. The Contractor's practice relating to retention and disposition of Student Data shall be provided to the Member, upon request.

Contractor will ensure that all Data in its possession and in the possession of any subprocessors, or agents to which the Contractor may have transferred Data, are destroyed or transferred to the Cooperative under the direction of the Cooperative when the Data are no longer needed for their specified purpose or at the request of the Cooperative.

At the termination of this Agreement, the Contractor shall, unless directed otherwise by the Cooperative or a Member thereof, dispose of and delete Student Data obtained by the Contractor under the Agreement within sixty (60) days' of termination (unless otherwise required by law).

4.6 Advertising Limitations.

The Contractor shall adhere to any applicable law relating to data security of Student Data. The Contractor shall implement an adequate Cybersecurity Framework that incorporates one or more of the nationally or internationally recognized standards, including but not limited to NIST Cybersecurity Framework, ISO 27001, and SANS Critical Security Controls, or as otherwise updated in industry standards. Additionally, Contractor may choose to further detail its security programs and measures.

Contractor's safeguards must be documented in a comprehensive information security program that is reviewed and updated at least annually.

5.4 Data Breach.

In the event that Contractor confirms a Data Breach, the Contractor shall provide notification to the Cooperative within seventy-two (72) hours of confirmation of the Data Breach, unless notification within these time limits would disrupt investigation of the Data Breach by law enforcement. In such an event, notification shall be made within a reasonable time after the Data Breach. Contractor shall follow the following process:

1. The Data Breach notification described above shall include, at a minimum, the following information to the extent known by the Contractor and as it becomes available:
 - a. The name and contact information of the Contractor subject to this section,
 - b. the date of the notice,
 - c. the date of the Data Breach, the estimated date of the Data Breach, or the date range within which the Data Breach occurred,

2026-2029 SPECIAL BUY AGREEMENT

THIS AGREEMENT is entered into by and between the Nebraska ESUCC Cooperative Purchasing ("Cooperative") and Staples Business Advantage ("Contractor"). Educational Service Unit Coordinating Council (ESUCC) was created in statute to coordinate the activities of Nebraska's 17 Educational Service Units. The Educational Service Unit Coordinating Council was created by LB 603 in 2007 and officially came into existence on July 1, 2008. Cooperative Purchasing is a Project of ESUCC that has been in existence since 1968 with the purpose of providing the Educational Service Unit (ESU) member school districts ("Members") of Nebraska an opportunity to secure the maximum procurement value through cooperative synergies. The Educational Service Unit Coordinating Council (ESUCC) Advisory group serves as the steering committee for new and future cooperative buys statewide under its direction. A chief executive officer coordinates the statewide purchasing agreement between educational service units and their school districts and other serviceable entities. The Director of Cooperative Purchasing manages the program with the guidance of the ESUCC, Advisory Board, and the Fiscal Agent. ESUCC serves 17 ESUs that provide a statewide network of educational opportunities to approximately 244 school districts and more than 325,000 students.

10. **Tariffs.** In the event of significant delay or price increase of materials or goods occurring during the performance of the contract due to a tariff (or other similar government-mandated price adjustment) that goes into effect after the execution of this contract, the contract price/sum, time of performance, or contract

requirements may, by mutual agreement, be equitably adjusted by written amendment of the contract. A change in price of an item of material or good will be considered significant when the price of an item increases 5 percent between the date of execution of the contract as a direct result of a tariff or other government-mandate. The price amendment must be effective only as long as the tariff is in effect. The intent of the adjustment is to hold the vendor harmless from the impact of the tariff, but the price adjustment is in no way intended to provide or guarantee the same percentage of profit to the benefit of the vendor. The vendor must provide documentation that is satisfactory to ESUCC to support any claim under this section. In addition, ESUCC will have the right to request a cost analysis vs. price analysis for each change in tariff adjustment request. In the event that the parties are unable to reach an agreement regarding a contract amendment under this section, either party has the option to terminate the contract during the term of the contract, bid award and/or re-award the item to the next low bid.

The Contractor shall furnish a certificate of insurance to the undersigned Cooperative representative prior to commencement of this Agreement. Stat. § 84-712 through § 84-713 and release public records as defined law upon request, which may include this Agreement and all records created and maintained in relation to this Agreement.

All prior and contemporaneous negotiations and agreements between the parties on the matters contained in this Agreement are expressly merged into and superseded by this Agreement.
- 23. Amendments and Modifications.** The parties may amend or modify this Agreement only by a signed, written agreement by both parties that identifies itself as an amendment or modification to this Agreement. No other alternations in the terms of this agreement shall be valid or binding.

This Force Majeure provision excludes economic hardship, changes in market conditions, and insufficiency of funds on the part of Contractor.

The Contractor shall not assign or otherwise dispose of this Agreement or any duty, right, or responsibility contemplated in this Agreement to any other person without the previous written consent of the Cooperative.

1.19 Subprocessor means a party other than the Cooperative, a Member, or the Contractor, whom Contractor uses for data collection, analytics, storage, or other service to operate and/or improve its service, and who has access to or storage of Student Data, including security, storage, analytics, and other processing activities necessary to perform a Contractor business purpose.

1.20 Subprocessor Agreement means the agreement between the Contractor and a third party Subprocessor.

1.21 Targeted Advertising means presenting an advertisement to a student where the selection of the advertisement is based on Student Data or inferred over time from the usage of the Contractor Internet web site, online service or mobile application by such student or the retention of such student's online activities or requests over time for the purpose of targeting subsequent advertisements.

ARTICLE II: SCOPE

In order to perform the Services outlined in this Agreement the Contractor shall only collect, use, and share Student Data as necessary to provide the Services to the Cooperative or its Members and to facilitate the Contractor's Services outlined in this Agreement. The Contractor shall not collect, use, or share Student Data for any other purpose without the Cooperative or Member's prior written consent.

The Contractor shall only share Student Data with the Cooperative and other educational institutions that have entered into a Student Data Privacy Agreement with

the Contractor that provides protections at least as stringent as those set forth in this Exhibit "E." Student Data cannot be shared with any additional or outside parties without prior written consent of the Cooperative or its Member, except as required by law.

The Contractor may only use deidentified Data and Aggregated Data derived from the Student Data for product development, research or other purposes, provided that the Contractor shall:

1. Remove all direct and indirect personal identifiers. This includes, but is not limited to, name, ID numbers, date of birth, demographic information, location information, and school ID;
2. Not attempt to re-identify the deidentified data or transfer deidentified data unless that party agrees not to attempt reidentification;
3. Not use such De-Identified Data or Aggregated Data for any purpose other than improving the Contractor's educational products or services;
4. Implement and maintain technical and organizational measures to prevent re-identification of De-Identified Data; and
5. Maintain documentation of the de-identification process and make such documentation available to the Cooperative upon request.

The Contractor shall provide at least 30 days' written notice to the Cooperative before it intends to use deidentified Data and Aggregated Data derived from the Student Data.

ARTICLE III: DATA OWNERSHIP AND AUTHORIZED ACCESS

3.1 Student Data Property of the Cooperative or its Members.

The Contractor further acknowledges and agrees that all copies of such Student Data processed by the Contractor, including any modifications or additions or any portion thereof from any source, are also subject to the provisions of this Agreement in the same manner as the original Student Data. The Parties agree that as between them, all rights, including all intellectual property rights in and to Student Data contemplated per the Service Agreement, shall remain the exclusive property of the Cooperative or its Member (whichever is applicable).

3.2 Parent, Legal Guardian and Student Access.

The Cooperative and its Members shall establish reasonable procedures by which a parent, legal guardian, or eligible student (as defined in FERPA) may review Student Data and request deletion or modification, and request delivery of a copy of the Student Data. In support of this, the Contractor shall establish reasonable procedures by which the Cooperative's Members may access, and correct, if necessary, Education Records and/or Student Data, and make a copy of the data available to the parent, legal guardian or eligible student directly. If a Member is not able to review or update the Student Data itself, Contractor shall respond in a reasonably timely manner (and no later than thirty (30) days from the date of the request) to the Member's request for Student Data held by the Contractor to view or correct as necessary.

In the event that a parent or legal guardian of a student or eligible student contacts the Contractor to correct, delete, review or request delivery of a copy of any of the Student Data collected by or generated through the Services, the Contractor shall refer that person to the Member, who will follow the necessary and proper procedures regarding the requested information.

This Agreement does not impede the ability of students, parents, or guardians to download, export, or otherwise save or maintain their own Student Generated Content directly from Contractor or for Contractor to provide a mechanism for such download, export, transfer or saving to students, or the student's parent or legal guardian. Nor does it impede the ability of Contractors to offer the Cooperative or its Members features to allow such ability.

3.3 Subprocessors.

Contractor shall enter into a Subprocessor Agreement with any Subprocessors performing functions for the Contractor in order for the Contractor to provide the Services, whereby the Subprocessors agree to protect Student Data in a manner no less stringent than the terms of this Agreement. Every Subprocessor Agreement must provide that the Subprocessor will not Sell the Student Data. The terms of a Subprocessor Agreement shall not be materially modified by the Subprocessor unless notice is provided to the Contractor.

3.4 Third Party Request.

Should a Third Party, including law enforcement and government entities, contact Contractor with a legally binding request for data held by the Contractor pursuant to the Services, the Contractor shall notify the Cooperative or its Member in advance of a compelled disclosure to such Third Party.

Deleted: The Contractor will provide a copy of all Subprocessor Agreements, upon reasonable request of the Cooperative or a Member thereof.

If the Contractor has a standard retention and destruction schedule, that schedule shall apply to Student Data as long as this Agreement is active. The Contractor's practice relating to retention and disposition of Student Data shall be provided to the Member, upon request.

Contractor will ensure that all Data in its possession and in the possession of any subprocessors, or agents to which the Contractor may have transferred Data, are destroyed or transferred to the Cooperative under the direction of the Cooperative when the Data are no longer needed for their specified purpose or at the request of the Cooperative.

At the termination of this Agreement, the Contractor shall, unless directed otherwise by the Cooperative or a Member thereof, dispose of and delete Student Data obtained by the Contractor under the Agreement within sixty (60) days of termination (unless otherwise required by law).

NCSA

The Nebraska Council of School Administrators (NCSA) is an umbrella organization comprised of more than 2,800 school administrators who serve or once served in Nebraska schools.

We consider ourselves a partner in developing excellence in educational leadership, providing the "tools" necessary for administrators to be successful.

Although school administrators are more aware of problem areas in schools than anyone else, their voices can be drowned out by special interests in politics. NCSA provides strength in numbers to make our voices heard in educational matters in Nebraska.

5. Committee to Review Standards Update

The Committee to Review Standards will review the proposed standards changes.

ESUCC Board Secretary, Dr. Barrett, reviewed the attached ESU Standards of Performance Practice Proposed Changes Feb 2026 Clean Copy document.

The following clarifications and changes were discussed:

- **Standard 1C:** There was confusion regarding the reference to "strategic planning." The term "strategic planning" was removed to eliminate ambiguity.
- Throughout the document, duplicative references to professional development were identified and removed for clarity and conciseness.
- **Standard 1F (first occurrence):** A question was raised regarding the role of ESUCC. The original intent was to reflect that ESU Administrators are part of the Board; this language was clarified accordingly.
- **Standard 2D:** Language was clarified to emphasize ensuring staff have appropriate training to provide the services schools need.
- **Standard 4D:** References to professional learning opportunities were removed, as this content is addressed in Standard 2D, eliminating duplication.

There was also discussion around Level III Programs and whether an additional standard or an addendum may be necessary to appropriately address those programs.

ESUCC Board President, Dr. Heimann, recommended that, if approved at the March Board meeting, the standards go into effect beginning with the 2026-2027 school year.

6. Transition Services Agreement Between the ESU Coordinating Council and ESU 10

PowerSchool Consortium Support

ESUCC CEO Dr. Larianne Polk will review the attached signed agreement.

ESUCC CEO Dr. Polk reported that ESU 10 is currently experiencing a PowerSchool staffing shortage and has requested assistance. ESUCC CEO Dr. Polk reviewed the attached Transition Services Agreement between the ESUCC and ESU 10 regarding PowerSchool Consortium Support. Future plans to support schools currently in the ESU 10 consortium will be discussed at a later meeting.

ESUCC CEO Dr. Polk stated that she will continue to monitor the workload and capacity of the current PowerSchool staff. ESUCC Board President-Elect, Dr. Wheelock noted that there are a

total of 50 schools involved. It was determined that it would be most efficient for the ESU 10 employee to retain the responsibility for the twenty-eight ESU 10 schools currently assigned to her. The remaining twenty-two schools were redistributed among the other PowerSchool staff members.

7. 2026-2027 Staff Negotiations Data

ESUCC Board President, Dr. Heimann, will review the 2026-2027 staff negotiations data with the committee.

ESUCC Board President, Dr. Heimann, reviewed a spreadsheet with the Executive Committee. The Executive Committee will meet prior to the March committee meeting to discuss negotiations.

8. Chief Executive Officer (CEO) Report

CEO Report to the Board - February 2026

ESUCC CEO Dr. Polk reviewed the attached CEO Report to the Board - February 2026.

The Board discussed the topic of mileage reimbursement for board meetings.

ESUCC Board Past President, Dr. McNiff stated that if a Zoom option is available for board meetings, mileage reimbursement may not be applicable, as members have the option to attend virtually. She requested information regarding the financial impact of reimbursing mileage for six board meetings. ESUCC CEO Dr. Polk and ESUCC Executive Secretary, Mindy Reed, will calculate the potential financial impact if all board members attended in person and requested mileage reimbursement. This information will be included in the CEO report to the Board in March and brought back to the Executive Committee for further review. ESUCC Board President Dr. Heimann noted that several questions should be addressed before bringing the matter to the full Board, including:

- What are the total projected costs?
- Would reimbursement apply to personal vehicles, ESU-owned vehicles, or both?
- Would reimbursement be limited to board meeting days only?
- Would reimbursement apply only when a Zoom option is not available?
- What would be the process for payment?
- Would reimbursement include per diem for meals?
- Would hotel expenses be covered?
- Does the Nebraska Department of Education (NDE) provide guidance regarding mileage reimbursement for its board members?
- Check with other states agencies like ESUCC.

ESUCC CEO Dr. Polk requested ESUCC Board Past President, Dr. McNiff, to provide any available guidance related to board meeting mileage reimbursement.

Re: Strategic Planning Proposals, Summary

Date: December 11, 2025

Good afternoon, Bill and Executive Committee.

At the November Executive Committee meeting, I was asked to provide a summary of the proposals submitted in response to the Request for Strategic Planning Facilitation Quote. This document provides that summary along with the following:

1. A copy of the Request for strategic Planning Facilitation Quote upon which vendors based their responses,
2. The three proposals received, and
3. A consolidated summary for quick reference.

It is my hope that this information supports your preparation for the January Executive Committee meeting and the full Board meeting the following day. Strategic planning proposals will be discussed with the full board in January, with formal selection anticipated in February to allow adequate time for questions and deliberation. I have informed the vendors of this timeline.

As a reminder, NASB was invited to participate in this process but declined due to other commitments. Three proposals were received; from AESA, Mission Matters, and JNW Consulting. All three vendors meet the core requirements outlined in the Request for Facilitation, including designing an inclusive planning process, conducting Zoom-based focus groups, gathering project-level input, and producing a five-year strategic plan with priority areas, goals and actionable items.

Summary of Each Proposal

AESA

Cost: \$25,000 + travel

Strengths:

- Most direct alignment to the Request for Facilitation, including explicit inclusion of **1–2 out-of-state ESA leaders**.
- Deep national ESA experience and prior work with ESUCC.
- Clear structure and familiar facilitation model tailored to multi-project statewide organizations.

Mission Matters

Cost: \$21,500 + limited travel

Strengths:

- Lowest cost; strong Nebraska-based team with extensive experience across ESUs, schools, and NDE.
- Facilitates an inclusive, participatory process that fits ESUCC's collaborative culture.
- Provides a full plan plus a one-page visual summary.
Notable Gap: Does not explicitly reference the Request for Facilitation requirement for out-of-state ESA leaders, though this could be added.

JNW Consulting

Cost: \$33,685.66 (includes design, materials, and printing)

Strengths:

- Most comprehensive and detailed facilitation model, with added emphasis on change management, leadership alignment, and implementation.
- Provides the strongest publication package (printed plans, flipbook, one-page summary).
Notable Gap: Does not explicitly reference the out-of-state ESA leader requirement but could incorporate it.

Comparison Table

Criterion	AESA	Mission Matters	JNW Consulting
Alignment to Request for Facilitation Scope	Strongest alignment; includes out-of-state ESA leaders	Strong; inclusive and collaborative; out-of-state ESA leaders not referenced	Strong; exceeds scope with additional phases; out-of-state ESA leaders not referenced
Timeline Alignment (March–July Facilitation)	Fully aligned	Fully aligned	Fully aligned
Required Focus Groups	Fully included	Fully included	Fully included
Engagement Approach	ESA-specific, structured, collaborative	Highly participatory, Nebraska-focused, equity-centered	Most structured; strengths-based and change-management focused
Deliverable Quality	Full plan; print-ready	Full plan + visual summary	Most robust (plan, summaries, printed copies, flipbook)
Cost	Mid-range	Lowest cost	Highest cost
Fit with ESUCC's Statewide Context	Strong due to ESA specialization	Strong due to Nebraska system knowledge	Strong for execution, alignment, and organizational development

The Directors and I believe that each of the three proposals presents a viable approach to ESUCC's strategic planning process and satisfies the core requirements in the Request for Facilitation. The proposals differ in cost, facilitation methodology, deliverable depth, and level of experience with ESU systems. Each may appeal differently depending on the priorities the Executive Committee and Board choose to emphasize, such as ESA-specific expertise,

Nebraska-centered facilitation, participatory design, implementation structure, or communication tools.

I am not offering a recommendation at this time. The purpose of this summary and comparison table is to equip you with the information needed to evaluate which vendor best aligns with ESUCC's needs, culture, and expectations for this planning cycle.

Please let me know if I may provide additional information or answer questions as you prepare for the January meetings.

Strategic Planning Proposal:

Nebraska Educational Service Unit Coordinating Council

November 2025

Introduction

The Educational Service Unit Coordinating Council (ESUCC) seeks to develop a motivating, actionable, and adaptable five-year strategic plan that strengthens alignment, collaboration, and clarity across the organization. AESA is pleased to submit this proposal to partner with ESUCC in facilitating this work.

AESA brings deep national experience supporting ESAs and statewide organizations with strategic planning, systems design, stakeholder engagement, and implementation planning. AESA has collaborated with ESUCC in previous planning cycles and understands the unique multi-project, multi-stakeholder ecosystem in which ESUCC operates.

This proposal is designed to fully address the parameters outlined in ESUCC's Request for Strategic Planning Facilitation Quote (November 2025), including a collaborative process, broad stakeholder engagement, actionable deliverables, and a timeline aligned to ESUCC expectations.

A Collaborative Approach

AESA takes a collaborative, inclusive approach informed by proven strategic planning and design practices. We envision a partnership-driven process in which ESUCC's deep knowledge of its organization and stakeholders meaningfully shapes the planning effort. Our philosophy ensures that all planning, decision-making, and implementation steps are co-developed with ESUCC. While AESA leads the facilitation, analysis, and drafting of the plan, ESUCC's insight and direction remain central throughout.

AESA will design and facilitate focus groups that elevate diverse stakeholder perspectives to inform the strategic direction. We recognize that our role is to facilitate, synthesize, and support rather than prescribe, and this approach helps build shared ownership and commitment. Throughout the engagement, AESA will tailor its methods to ESUCC's unique context today while remaining responsive to the evolving needs and realities of the future.

Roles & Responsibilities

AESA will work closely with the Strategic Planning Leadership Team (CEO, Directors, and 1–2 Board members) throughout the process. We will also incorporate insights from 1–2 out-of-state ESA leaders to meaningfully inform ESUCC with peer perspectives from similar statewide organizations.

To ensure an efficient and effective planning process, AESA proposes the following general division of responsibilities:

- **AESA:** Facilitate planning sessions, focus groups, and Strategic Planning Leadership Team meetings; analyze stakeholder, organization and program data and synthesize findings; conduct structure review of mission and vision; develop the strategic plan, with recommendations for priorities, goals, action items and key performance indicators.
- **ESUCC:** Engage stakeholders, provide organizational insights and documents, guide the alignment of the plan with the agency's mission and goals; provide support for onsite meetings.

By working together, AESA and ESUCC can create a forward-thinking, stakeholder-driven, actionable strategic plan that will drive meaningful impact for Nebraska's Educational Service Units (ESUs) and the students and schools they serve. This plan will encompass key areas such as collaboration, resource sharing, program development, and member services with an eye toward future growth.

Scope of Work: Timelines & Deliverables

AESA will design and facilitate a process that includes the following components required by ESUCC. PROPOSAL

STRATEGIC PLANNING FACILITATION

NOVEMBER 14, 2025

JAMIE WEINGART
JNW CONSULTING
3426 17TH AVE
SCOTTSBLUFF, NE 69361

PREPARED FOR:
DR. LARIANNE POLK
EDUCATIONAL SERVICE UNIT
COORDINATING COUNCIL

EXECUTIVE SUMMARY

JNW Consulting is a certified woman-owned small business (WOSB), Nebraska-based firm with deep experience guiding education and government organizations through strategic planning that leads to measurable results. Our certified facilitators combine Gallup Strengths, Kotter Change, and Drivers Model methodologies to create plans that are clear, actionable, and owned by the people who implement them. We bring a proven record of success with ESUs, school districts, and statewide partners—and deliver not just a plan, but a lasting framework for alignment, accountability, and sustained organizational excellence.

EXPERIENCE AND QUALIFICATIONS

Proven Success Across Education, Government, and Nonprofit Sectors

JNW Consulting brings extensive experience facilitating strategic planning and leadership development for education service agencies, school systems, and government organizations across Nebraska and the Midwest.

Recent clients include Scottsbluff Public Schools, Gering Public Schools, Columbus Public Schools, Western Nebraska Community College, ESU13, and the Nebraska Department of Transportation. Our clients consistently describe our process as collaborative, data-driven, and outcome-oriented, resulting in strategic plans that become living frameworks for execution rather than static documents.

Certified Expertise in Evidence-Based Frameworks

Our facilitators hold certifications in multiple nationally recognized methodologies, including:

- Gallup-Certified Strengths Coaching (building alignment through strengths-based dialogue)
- Drivers Model of Strategic Planning (research-based model for strategic clarity and execution)
- Kotter Advanced Change Certification (ensuring plans translate into sustainable action)
- The Five Behaviors of a Cohesive Team and Everything DiSC® Certification (facilitating productive collaboration and communication)

This combination of tools allows JNW Consulting to address not only what organizations need to achieve, but also how teams must work together to achieve it.

APPROACH & METHODOLOGY

Collaborative, Research-Based Facilitation

Our approach integrates both qualitative and quantitative data to ensure decisions are grounded in insight and consensus. Through a combination of stakeholder focus groups, facilitated planning sessions, and thematic analysis, we help leadership teams translate feedback into strategic priorities and measurable objectives. Every component of the process, from discovery to final design, is tailored to reflect ESUCC's unique mission, culture, and statewide service role.

Strengths-Based and Human-Centered

Our facilitation style reflects our belief that strategy succeeds through people. By leveraging Gallup's Strengths framework, we create psychologically safe, productive discussions that surface diverse perspectives and foster shared ownership. Participants consistently report that our sessions are energizing, inclusive, and transformative, not the typical "check-the-box" planning retreat.

Structured for Clarity and Execution

We use the Drivers Model of Strategic Planning to help participants define clear priorities, objectives, and success measures. The result is a plan that is not only visionary but also practical—one that guides decision-making, budgeting, and accountability for years to come.

About the Drivers Model of Strategic Planning

The Drivers Model of Strategic Planning is a research-based framework that helps organizations clarify their purpose, identify key strategic drivers of success, and translate those drivers into actionable goals and measurable results. JNW Consulting uses this model to ensure that every strategic plan connects long-term vision with the daily actions, resources, and accountability systems required to achieve it.

PROJECTED IMPACT & RETURN ON INVESTMENT

- **Strengthened Collaboration:** Through facilitated focus groups and collaborative planning, stakeholders across ESUCC's network will build stronger relationships, shared accountability, and collective ownership of outcomes.
- **Operational Clarity:** Clearly defined objectives, measures of success, and responsible parties translate strategic intent into day-to-day action—ensuring progress is measurable and transparent.

Leadership ROI

WHY JNW CONSULTING?

Local Insight. National Expertise.

JNW Consulting is uniquely positioned to guide ESUCC's next strategic plan. Based in Nebraska and deeply familiar with the educational and governmental landscape across the region, we understand the realities, challenges, and opportunities faced by ESUs and their member districts. Unlike national firms that take a one-size-fits-all approach, we design every process around the organization's unique mission, people, and culture, ensuring relevance, ownership, and long-term sustainability.

A Proven, Research-Based Process

Our facilitators are certified in the Gallup CliftonStrengths, Kotter's Advanced Change Methodology, The Five Behaviors of a Cohesive Team, and more. This blend of frameworks ensures that our process is not only data-driven but also deeply human-centered, balancing analytical rigor with meaningful dialogue. We don't just help organizations set goals; we help them build the capacity to achieve them.

Depth of Experience Across Education and Government

JNW Consulting has led dozens of successful strategic planning initiatives for education service units (including ESU13), school districts, colleges, and government agencies across Nebraska and the Midwest, including Scottsbluff Public Schools, Gering Public Schools, Columbus Public Schools, Western Nebraska Community College, and the Nebraska Department of Transportation. Our clients consistently highlight our ability to facilitate open, productive discussions across diverse stakeholder groups and to translate those insights into clear, actionable strategies that drive results.

High-Quality Deliverables that Inspire Action

Where many firms end their engagement with a spreadsheet or summary report, JNW delivers a professionally designed, publication-quality strategic plan that leaders can confidently present to boards, staff, and the public.

Our deliverables are designed to communicate strategy as clearly as they define it, creating tools that foster alignment, transparency, and accountability for years to come.

Collaborative, Strengths-Based Facilitation

We approach every engagement with a deep belief in the potential of people. Our facilitation style reflects our expertise as Gallup-Certified Strengths Coaches, ensuring that conversations are positive, inclusive, and forward-focused. This approach consistently earns exceptional feedback for building trust, increasing engagement, and strengthening alignment among participants.

Sustained Partnership and Follow-Through

Our work doesn't end when the plan is approved. JNW provides ongoing support through implementation check-ins, communication tools, and follow-up facilitation options to ensure momentum continues long after the planning retreat. We measure our success by our clients' ability to execute confidently, not just by the completion of a report.

Scottsbluff Public Schools

Over the course of 4-5 months, Jamie Weingart facilitated a comprehensive strategic planning process for our district that resulted in the identification of five strategic priorities and subsequent measures of success, defining objectives, action items, and responsible parties. Jamie led and engaged in a very thorough discovery phase that allowed for all key members of our school community to have a voice in the process in a multitude of different ways. For example, individual conversations were held with board members; student, staff, parent, and community member focus groups were conducted; and a survey for parents was provided. At the conclusion of the discovery phase, Jamie facilitated an outstanding retreat at which time we reviewed the feedback and refined it into our strategic plan.

The authentic nature of the process that Jamie led and facilitated resulted in a truly organic strategic plan that will serve as our road map for the next five years and guide our school district's path forward. I would HIGHLY recommend JNW Consulting to any school district considering an external facilitator in developing their next strategic plan!

It was wonderful getting to work with Jamie. I am very new to my position and did not have any prior business management training before becoming the director of a non-profit. I enjoyed Jamie's approach throughout the process. She was down to earth and took the time to learn about the ins and outs of our organization. She tailored my experience to the unique needs and challenges of my position and provided helpful tools and manageable strategies that have made an instrumental difference.

Box Butte General Hospital

Box Butte General Hospital has partnered with Jamie for several years, in different consulting roles. More recently, I have been utilizing her expertise in the Gallup Q12 Employee Engagement Program for the hospital. In an effort to impact the culture and engagement level at BBGH, Jamie brought her background and skills to our leadership team and departments through the first year of implementing Gallup's program. The staff fully welcomed Jamie and truly enjoyed her contagious spirit and enthusiasm each time she was here. As we continue to work with her, Jamie provides in-depth and significant training no matter the subject matter. Her level of engagement in our organization enhances the opportunity for staff to learn and grow under her leadership and be able to see the best in themselves as leaders and employees within the hospital. Jamie has been a tremendous support in my role as the CEO and facilitating the program at all levels. We have developed a strong partnership and special friendship because of her involvement. I strongly recommend Jamie's service to any business looking to advance their culture of leadership and engagement.

Cheyenne County Chamber of Commerce

Jamie is, by far, the most beneficial piece to our county leadership course. Jamie brings life to each presentation and has a knack for immersing her care for others and her extensive knowledge into each class which is a combination that has extreme value for our program. By the end of each 9-month round, every participant always wants more time with Jamie. She is someone who has the ability to maximize the potential in others and bring out the best in them. I have never been a part of any kind of professional development that made me feel as valued as my time with Jamie did. I am extremely grateful to have had the opportunity to be a part of the course myself and now know first-hand that we are offering our attendees the absolute best with Jamie's training. Beyond being extremely professional and providing the best resources to cultivate strong leaders, Jamie is so genuine and positive. She is a force that touches the lives of other people and helps them see their importance and worth. The quality coaching that Jamie provides is truly unmatched and we are so grateful to have her as part of our program.

Morrill County Community Hospital

Morrill County Community Hospital recently underwent our strategic planning process facilitated by Mrs. Weingart. I personally found her focused in keeping us on track as she had to meet with several groups including department heads, physicians, senior management and our Board of Directors independent before bringing key members back together for the planning of the final document. Jamie facilitated questions from each group in order to encourage members to think beyond their roles in our facility and to help members achieve goals in setting our 1 year, 3 year and 5 year plans for our final document. She made our strategic plan a realistic working document for all responsible. Our final document is what we wanted it to be and what we thought was achievable. Her work was completed in a timely manner and very professional. She is very professional, personable and customer satisfaction is high in her priorities.

Morrill County Community Hospital has previously worked with Jaime during her Strength Coaching sessions, which was mandatory for all staff. She led staff through finding their strengths, realizing weaknesses and how to capitalize other staffs abilities. In watching this process become successful in our work environment, I knew Jamie would have the ability to lead us through our strategic planning process. On behalf of myself, and our Board of Directors, I would recommend Jamie Weingart, without hesitation, to facilitate your strategic planning process.

STRENGTHSFINDER AND DISC TRAINING EVENTS

We were extremely pleased with the program we designed with Jamie Weingart. She put together all of our information, joined it with the Strengths program, and what evolved was a fun, informative experience that was really personal to all the employees. Immediately after the first session, I began to receive positive feedback; employees were moved and charged with passion about this. They identified strengths and even if they had not thought of them as strengths before, they realized the potential that existed within each one, specific to them and those they work with. It was wonderful to bring people from all departments to talk openly. It felt as if some of the silo mentality was broken down by realizing and seeing everyone else's strengths. Almost three months later, it is still mentioned in meetings and discussions. I highly recommend Jamie as a trainer, presenter, and truly genuine person.

I learned to take charge of and lead any staffing situation using my personal strengths. I also learned to believe in myself and in my own management/leadership skills. Thank you so much, and please thank Jamie for me, as I believe she was the best part of the whole class!

***Melissa Williford, Director of Dietary
Sidney Regional Medical Center***

Before I took the DISC training, I never considered myself a leader in any capacity, as I am not in a management position, and never gave much thought to the way in which I communicate with my fellow coworkers. This training opened my eyes to the ways in which I am an informal leader at my organization and how I can become more effective in my daily activities. Jaime helped me to realize the pitfalls and strengths of my communicative style and how I could improve my style to become more receptive and effective in my personal and work life. Using these newfound skills, I was able to correct issues I was having on the job by being able to better communicate with my coworkers and was able to avoid unneeded conflict. I would highly recommend this training to anyone, regardless of their position in their organization, as it is full of useful insights and will make you a much more effective leader and/or employee. This training will help you better understand yourself and those around you which can be priceless when trying to navigate the difficult waters of the environments in which we find ourselves. This increased awareness will no doubt prove as useful to you as it has for me.

***John Mildenberger, Pharmacist

DISC has been a great way to discover more about myself and my colleagues. Understanding our differences in personality types, behaviors, preferences, and learning how to communicate effectively, has improved my relationships and team dynamics.

The session concludes with a visioning exercise to help participants articulate where ESUCC is headed and what success will look like five years from now.

Why We Begin Here

At JNW Consulting, we believe every effective strategic plan begins with clarity of purpose. By starting with the end in mind, organizations can ensure alignment between their daily operations and their long-term aspirations.

- Vision gives purpose and direction for the journey ahead.
- It defines what success looks like, creating a shared picture of the future.
- It helps align decisions and resources with long-term outcomes.

This session ensures that all subsequent planning discussions—priorities, goals, and strategies—are firmly anchored in ESUCC's collective purpose and values.

The Discovery Phase is a critical step in ensuring the strategic planning process reflects the authentic perspectives and experiences of ESUCC's stakeholders. - ESUCC Board
- ESUCC Staff
- SRS, PowerSchool, and SMART Advisory Group
- Rule 84 Representatives
- ESUPDO Membership

This phase gives every participant a voice in shaping ESUCC's direction, ensuring that the resulting strategic plan is grounded in real-world insights and aligned with the organization's shared purpose.

Facilitation Approach and Engagement Methods

JNW Consulting's discovery process is rooted in inclusive engagement and data-driven analysis. Each focus group is facilitated by an experienced consultant who creates a conversational, open environment where participants can speak freely and candidly. Our facilitators use structured discussion prompts to guide participants through topics such as ESUCC's current strengths, key challenges, future opportunities, and desired outcomes.

Our process includes:

- Collaborative Scheduling: JNW Consulting will coordinate with ESUCC leadership to identify dates and times that accommodate each stakeholder group.
- Participant Coordination: Once participant lists are confirmed, our team will email personalized invitations with Zoom meeting details, session purpose, and expectations.
- Facilitated Virtual Sessions: Each focus group is conducted live via Zoom, typically lasting 60–90 minutes. Data is tracked in real time, while full recordings ensure accuracy and completeness.
- Thematic Analysis: Following all sessions, our consultants will synthesize the qualitative data to identify key themes, patterns, and insights.

Strategic planning is more than an exercise in setting goals—it is the process of aligning people, purpose, and performance around a shared vision for the future. **Transition Services Agreement
Between the ESU Coordinating Council and ESU 10
PowerSchool Consortium Support**

This Transition Services Agreement (“Agreement”) is entered into by and between Educational Service Unit No. 10 (“ESU 10”) and the Educational Service Unit Coordinating Council (“ESUCC”), collectively referred to as the “Parties.”

1. Purpose

ESU 10 currently provides PowerSchool consortium support services to its member school districts. Due to staffing changes and an anticipated transition of consortium services to ESUCC beginning July 1, 2026, the Parties desire to establish a temporary arrangement under which ESUCC will assist ESU 10 in delivering certain support services from February 1, 2026 through June 30, 2026.

This Agreement is intended solely to facilitate an efficient transition and does not constitute a merger, acquisition, or transfer of ESU 10 responsibilities to ESUCC prior to July 1, 2026.

2. Term

This Agreement shall begin February 1, 2026, and automatically terminate June 30, 2026, unless terminated earlier or extended later by mutual written agreement of the Parties.

3. Nature of Services

During the term of this Agreement, ESUCC will provide PowerSchool support services to ESU 10 on a subcontracted basis. ESU 10 shall remain the primary service provider and point of contact for its member school districts through June 30, 2026.

Services provided by ESUCC may include, but are not limited to:

- a. Tier 1 PowerSchool support

- b. State reporting and ADVISER support
- c. End-of-year and scheduling assistance
- d. Training and knowledgebase access
- e. Data review and troubleshooting

ESUCC services during this period are transitional and may not include the full scope of services offered under ESUCC's standard PowerSchool Cooperative agreements.

4. Relationship to Schools

Nothing in this Agreement creates a direct contractual relationship between ESUCC and ESU 10 member schools prior to July 1, 2026. ESU 10 remains responsible for fulfilling its service commitments to its schools. Both Parties understand and agree that ESUCC is providing support to ESU 10, not directly to its member schools, during the term of this Agreement.

5. Compensation

ESU 10 shall compensate ESUCC for services provided under this Agreement in an amount equal to \$52,354, which is 50% of the revenues generated from the dues or fees paid to ESU 10 directly related to the PowerSchool Consortium between February 1, 2026 and June 30, 2026.

The Parties will mutually determine the list of schools supported by ESUCC and the applicable pro-rated fee amounts, if any. Payment shall be made within thirty (30) days of invoice.

6. Personnel Transition

Any ESU 10 staff member who directly works on PowerSchool matters for ESU 10 may, in ESU 10's discretion, remain an employee of ESU 10 through June 30, 2026. ESUCC anticipates employing such staff member beginning July 1, 2026, under a separate employment agreement. Nothing in this Agreement obligates either Party regarding employment beyond the stated dates. ESUCC further reserves the right to refuse to hire said staff member if ESUCC determines that said staff member would not or does not meet ESUCC's qualifications or expectations.

ESU 10 remains solely responsible for all wages, benefits, leave, and employment obligations for its staff through June 30, 2026.

7. Data Access and Privacy

ESU 10 authorizes ESUCC personnel to access PowerSchool systems and student data for ESU 10 member schools as necessary to perform services under this Agreement. Both Parties agree to comply with FERPA and all applicable state and federal student data privacy laws.

8. Liability and Indemnification

Each Party shall be responsible for its own acts and omissions and those of its officers, employees, and agents. To the extent permitted by law, each Party agrees to indemnify and hold harmless the other from claims arising out of its own negligent or wrongful acts.

9. Entire Agreement

This Agreement constitutes the entire understanding between the Parties regarding the transition services described herein and may be amended only in writing signed by both Parties.

SRS and Project Para Staff Report

February, 2026

SRS

Todd Hatcher and I are narrowing down software engineering consulting partners and are awaiting final proposals to evaluate. We anticipate some IEP changes as the NDE may release a new model IEP form this spring. Currently the team is working on changes to our form versioning system, an update to the IEP service locations for students age 4-5 transitioning to Kindergarten, a fix for district managers to more easily manage access permissions for their staff, and adding a MIPS consent section to the Consent for Evaluation form. We will be ready to begin work on ADVISER reporting for 2026-2027 when the sandbox (test) environment is ready this spring.

As you likely know, an April deadline is approaching for public web sites to meet WCAG accessibility standards. After consulting with our legal team, our determination is that the SRS system, not being a public system, but access controlled, does not need to immediately meet these requirements. In any case, we will address accessibility in the system as pages and forms are updated.

Project Para

The latest Project Para courses opened January 1, 2026. Out-of-state users of the courses are now charged a \$10 per user fee for the courses. Nebraska schools **should not pay** this charge and coupon codes are available for you to share with your school districts as needed.

TITLE: **Require school policies relating to the use of student surveillance, monitoring, and tracking technology by school districts**

SPONSOR(S): Danielle Nantkes Conrad, Megan Hunt

AI SUMMARY: The legislation mandates the State Board of Education to develop a model policy regarding the use of student surveillance, monitoring, and tracking technology, which school districts must adopt. By May 2026, school boards must implement these policies in line with the state guidelines, ensuring both transparency and the protection of student and parent rights.

TITLE: Change provisions relating to withholding money due to noncompliance with budget limits, property tax request authority, and annual audits for certain political subdivisions

SPONSOR(S): Rita Gomez Sanders

AI SUMMARY: The legislation changes how noncompliance with budget limits, property tax request authority, and annual audit requirements by political subdivisions is managed in Nebraska. It authorizes the State Treasurer to suspend and potentially redistribute state aid if political subdivisions fail to submit required budget and property tax authority forms on time or do not adhere to budget limits. If a political subdivision does not comply within six months, the withheld funds are either redistributed locally or returned to the state funds, and continuous noncompliance beyond twelve months results in the loss of eligibility for future state aid. Additionally, municipalities that do not conduct annual audits within six months after the fiscal year risk forfeiting state fund distributions, with noncompliance extending beyond twelve months leading to permanent ineligibility for such funds until compliance is restored.

These accounts, managed by the State Treasurer or a third-party manager, will be funded annually with \$1,500 per student for qualified educational expenses such as tuition, textbooks, and educational services, but will exclude costs like transportation and clothing. The accounts will be monitored to prevent fraud, allowing funds to be used exclusively for educational purposes, with unspent funds reverting to the state if a student graduates, transfers out of state, or passes away. The legislation outlines procedures for applying for accounts, appealing decisions on qualified expenses, and investigating misuse of funds, while not expanding state control over private or parochial schools.

Legislative Priorities for the 109th Legislature, 2nd Session

Bill Number	Introducer	Bill Name	Priority	Reasoning
765	Holdcroft	Change provisions relating to elections for school district bonds and bonds issued by a joint entity that includes a Nebraska school district or educational service unit	Oppose	Requires 50.1% registered voters to pass a bond. Would cause bonding to be nearly impossible for ESUs.
814	Brandt	Changes ag land value percentage from 75%-50%.	Oppose	When calculating ESU levy, this will cause significant cuts without a method to recover costs.
824	Lonowski	Shorten days to sit out after retirement from 180 to 120 days	Support	Clarity in language. Provides for subbing sooner to assist with sub shortage.
841	Rountree	Provides for final approval of IEPs to be the parent's decision.	Oppose	Team decision. Potential increased costs for assessments. Increased litigation and legal costs.
862	Prokop	Extends funds for regional literacy coaching for 3 more years, until 2030.	Support	Aligns with the NDE goal of 75% proficiency NSCAS for 3rd graders by 2030. Avoids an unfunded mandate.
898	Lonowski	Virtual conferencing for some boards.	Support	We already do this. The support will be to

				share how this has worked well for ESUs and ESUCC.
903	Storer	Provide for a referral for home visitation services	Support with Amendment	Added an amendment to ensure referrals to EDN do not get overlooked.
1054	DeBoer	The A Bill for Cybersecurity.	Support	Provides a funding mechanism for the coordination of cybersecurity.
1145	Lonowski	Publish open meeting schedule 2x/yr in newspaper. All others in method described in minutes (ie: website)	Support	Provides cost savings.
1166	Juarez	Retirement contribution rate effect date moved from July 1 to Sept 1	Support with comments	Most ESUs have fiscal year Sept. 1, so this will work well for them. For the others who have July 1 fiscal year, there will be challenges.
1219	Brandt	Limit the amount of property taxes that may be levied by a political subdivision	Oppose	This levy cap would cost ESUs approximately \$1.7 million in levy.

Cybersecurity Report

February, 2026

SLCG Update

The SLCG state committee met on Friday, February 5, 2026 to go over the scoring process for FY2024 proposals submitted in December. 67 proposals were submitted for consideration and are divided up among the committee members for scoring. Three committee members will score each proposal. Committee members each are assigned up to 19 proposals from outside our sector to score. We are asked to complete our scoring by the end of February, when another meeting will be scheduled to review and make award decisions. Other states have reported that they have not received a final approval for their FY 2024 projects and are awaiting final decisions by FEMA & CISA.

OCIO Personnel Change

Effective January 27, 2026, Abby Eccher-Young left her position as the state CISO. Bryce Bailey, formerly deputy CISO, was named interim CISO and an application process is open for that permanent position.

LB599 / LB1054 Update

A Revenue Committee hearing was held on February 3, 2026 for LB1054. This is an appropriations bill for the LB599 cybersecurity bill. It would appropriate \$250,000 during the 2026-2027 fiscal year to start work building the assessment system and framework for K-12 cybersecurity. There were 6 proponents testifying, 0 opponents and 0 neutral.

Duo Security Multi-Factor Authentication

The Duo security licensing is due to be renewed by March 28, 2026. We have received 1-year, 3-year and 5-year pricing and the NOC affiliate members will be discussing these options during their meeting on February 10, 2026.

Technology Division Report

February, 2026

Nebraska Cloud Updates

The Nebraska Cloud software is scheduled to be updated soon for ESUs 9, 11, 15 and 16. Cody Ernesti is working on these updates and will be scheduling them with the technology directors at those ESUs when the software configurations are ready.

Software Engineering

Todd Hatcher and I are narrowing down software engineering consulting partners and are awaiting final proposals to evaluate. This relationship will be in the form of a partner team first leading our team through a software development process as both teams work together to complete a priority enhancement, likely for SRS. In addition to the teaching by example, the partner will also lead our team through a training curriculum on software engineering practices. As we progress through additional sprints, our team will progressively take over the leading role and the partner team will take on a coaching and co-developer role. This will be a temporary or as-needed partnership with enough time for our team to learn new best practices for software engineering, design and development and to adopt them into our ongoing project work. This is needed so that we continue to improve the sustainability of all of our software projects.

SteadFast

After our January meeting we had some renewed interest in districts trying this software. Thank you! We are still able to welcome more interested districts as early adopters. SteadFast is a software agent that school districts may use at no charge on their district-owned devices to measure and record the quality of broadband Internet service when those devices are used outside of the school network. This can be helpful in determining the quality of available Internet services, identify areas where service is weak or unavailable and provide data to share with providers and policy makers.

The **ESU Network Operations Committee (NOC)** participated in a quarterly meeting on 2/10/26 at ESU 7 in Columbus, NE.

Discussion and Action Items

- **Duo Security Renewal:** The committee discussed the upcoming March 28, 2026, renewal of Duo security licensing. The general consensus was that a **1-year renewal** would be most beneficial for the majority of districts.
- **Cybersecurity & Grants:** Updates were provided on the scoring process for FY2024 SLCG proposals and the status of state legislative bills LB599 and LB1054, which concern K-12 cybersecurity funding. Ideas for a Paller Grant proposal for internal vulnerability scanning were also discussed. Gary Needham led this discussion, and will move this proposal forward.
- **Zoom and Network Updates:** Topics included a discussion on the Network NE Renewal, Scott Jones' retirement, a new procurement process, and changes to Zoom licensing, including dropping higher education from the contract. There are specific concerns about pricing increases, and how the procurement process will work in the future.
- **Upcoming Meetings and Training:** We approved future NOC meetings through May 2028 and listed upcoming training opportunities, including a detailed schedule for the February 11, 2026, Elastic/FortiMail NOC Training.
- **Network Nebraska Advisory Group (NNAG):** Dan Ellsworth was approved for appointment to the NNAG group.
- **2026-2027 Budget:** Budget has been submitted for approval.
