Elm Creek Public Schools will use assessment data to guide our instruction, and prepare students for the level they need to meet for their futures. There are many different assessments that will be utilized to help us track our student's progress. This includes: in class checks for understanding, formative classroom assessments, unit assessments, NWEA MAP Growth, NSCAS Growth, STAR Assessments, Pre ACT, and the ACT.

STAR Assessments -Elementary

Star Assessments are a suite of computer-adaptive assessments in reading, math, and early literacy, designed to help educators understand student learning, growth, and achievement. Renaissance uses a comprehensive approach to assessment by integrating computer-adaptive tests (CAT), curriculum-based measures (CBM), custom standards-based assessments, and non-academic evaluations. Star Assessments deliver reliable data that supports educators in making informed instructional decisions and planning next steps throughout the school year.

Star Reading

Star Reading evaluates students' reading skills through a range of measures, including word recognition, vocabulary, comprehension, and fluency. The assessments are carefully designed to be age-appropriate and aligned with both state and national reading standards.

Star Math

Star Math evaluates students' skills across key mathematical domains, including number and operations, algebra, geometry, measurement, data analysis, and probability. It offers valuable insights into each student's strengths and areas for growth, helping teachers pinpoint where additional support may be needed.

[Star Early Literacy](#)

Star Early Literacy measures key foundational skills like phonemic awareness, phonics, vocabulary, and comprehension. It delivers precise data that helps teachers make informed decisions and support each student on the path to reading proficiency.

[STAR CBM](#)

Star CBM is built to support both intervention and instructional planning. Its assessment data helps educators identify students in need of extra support, personalize instruction, set clear goals, and track progress over time. The reports generated by Star CBM provide meaningful insights that guide the creation of targeted interventions and effective teaching strategies.

NWEA MAP Growth: Elementary and Middle/High School

MAP Growth from NWEA is a computer adaptive assessment—meaning that the difficulty of questions adjusts throughout the assessment based on the student's responses. MAP Growth assessments provide a scaled score referred to as the RIT score, which is a measurement that quantifies a student's academic performance. The RIT score allows educators to initially identify students' achievement in a given subject area. Since the RIT scale is grade-independent, educators can track a student's growth over time. Based on a student's RIT score, MAP Growth assessments provide suggested areas of strength and focus that address State Learning Standards so that educators can personalize their instructional planning for students in their classrooms.

MAP Growth is given in our district in grades 7-8. The tests given are: Math and Reading.

NSCAS Growth: Elementary and Middle School

Nebraska has an adaptive through-year assessment model, one which combines the best of MAP Growth and the NSCAS General Summative test. This builds on the work Nebraska educators have done statewide to create an assessment system that is instructionally useful, meaningful to students, and connected to classroom practice. NSCAS Growth is aligned to both the state standards and to the state summative blueprint. Adaptive outside of grade level and measuring summative proficiency scores at year's end.

NSCAS Growth is given in our district in grades 3-8. The tests given are: Math, Reading, and Science to grade 5 and 8.

ACT/Pre ACT: High School

Students will participate in ACT Reading, English, Math, Science and Writing each spring. Although ACT writing is optional for Saturday administrations, the ACT writing test is required for state testing for all students. All students, including special education students and English Learners who are in their third-year cohort of high school must participate in the ACT.

ACT Benchmark (Meets Expectations) Students that meet or exceed the ACT College Readiness Benchmark are equipped to enroll (without remediation) and succeed in a credit-bearing first-year course at a two-year or four-year institution, trade school, or technical school. Students have at least a 50% chance of getting a B or better and a 75% chance of getting C or better in a first-year related content course.

On Track (Meets Expectations) On Track students are approaching the ACT College Readiness Benchmark and are likely to be able to access credit-bearing first-year related content courses at some Nebraska postsecondary institutions without remediation.

Developing (Does not Meet Expectations) Students in the Developing Level are likely to need developmental courses before being able to access credit bearing first-year courses in the majority Nebraska postsecondary institutions.

ELM CREEK STRATEGIC PLAN EXECUTIVE SUMMARY

The district's strategic plan is centered on a clear vision: to ensure that every student is equipped for success through access to educational opportunities, highly effective educators, and well-aligned resources. This vision is realized through a focus on three Guiding Principles—**Access to Educational Opportunities, Personnel Effectiveness, and District Resources**—with each area supported by targeted strategies and a strong foundation of board governance.

First, the plan prioritizes expanding access to educational opportunities to help all students achieve their full potential beyond graduation. This includes implementing programs and offerings, both designed to challenge and support students with diverse learning needs. Additionally, by having a goal to eventually enhance before- and after-school programming, the district would be able to provide safe, enriching environments that support academic achievement, social development, and family accessibility. These initiatives are essential to fostering readiness for college, careers, and life, particularly for students who benefit from extended learning time and tailored supports.

Second, the plan recognizes that student outcomes are directly influenced by the quality and effectiveness of the educators who serve them. Therefore, a central focus is placed on professional development that builds staff capacity to meet the needs of students with unique needs. By embedding a consistent instructional model and aligning training accordingly, the district ensures that best practices are shared and implemented with fidelity. This investment in teacher and staff effectiveness is critical to sustaining a culture of high expectations, diverse instruction, and continuous growth.

Third, the plan focuses on the commitment to aligning and managing its resources—human, physical, and financial—in ways that directly support student learning. This includes thoughtful long-term planning for facilities to improve safety, transportation, and extracurricular environments, as well as proactive staffing along with appropriate training to maximize instructional support. These efforts reflect the district's intent to create safe, supportive, and engaging learning environments for all students.

Underlying all strategic priorities is a robust commitment to **effective board governance**. The board plays an active role in allocating resources, supporting community partnerships, monitoring progress on key initiatives, and engaging in its own professional learning. Through strategic collaboration with district leadership, the board ensures alignment, transparency, and accountability in the execution of the plan.

5031 Student Appearance

The board directs the Administration to develop and maintain a dress code that governs student appearance and that shall be included within the student handbook(s). The Administration may elect to adopt different versions of the dress code for different schools, buildings, or grades (e.g., elementary dress code, high school dress code, etc.).

General Regulations. Dress codes adopted in conformance with this policy may prohibit student attire or appearance that:

- Causes or is reasonably likely to cause a material and substantial disruption to the District's programs and activities.
- Invades the rights of others.
- Promotes, depicts, or refers to violence, drugs, alcohol, vulgarity, obscenity, illegal activity, hate speech, bullying speech, lewd speech, indecent speech, or harassing speech.
- Includes words, gestures, or images that contain or imply sexual content or innuendo.
- Otherwise undermines the District's mission to inculcate the habits, manners, and values fundamental to civility, community, and the educational environment.

Students may be required to adhere to uniform standards and/or wear district-approved or issued uniforms in order to participate in activities.

Specific Limitations on Dress Codes. Except as provided in the *Health and Safety Standard* below, the specific dress codes enacted pursuant to this policy may not:

- Target, disproportionately impact, discriminate, or be applied in a discriminatory manner against any students on the basis of race, religion, sex, disability, or national origin;
- Prohibit a student from wearing attire associated with race, national origin, or religion (including religious attire, natural and protective hairstyles, adornments or other such characteristics); or
- Require a student's hair be permanently or temporarily altered.

Health and Safety Standard. Notwithstanding these *Specific Limitations on Dress Codes*, this policy allows for dress codes to regulate characteristics associated with race, national origin, or religion under the following circumstances:

- In the absence of regulating the student's appearance or attire, it is reasonably certain that the health and safety of the student or another individual will be impaired;
- Regulating the student's appearance or attire is for nondiscriminatory reasons;
- Regulation of the student appearance or attire is applied equally;
- The administrator (or his or her designee) engages in a good-faith effort to reasonably accommodate the student and notifies the student's parent or guardian, in a language that such parent or guardian understands, of the school district's attempt to accommodate the student's appearance or attire; and
- The school district uses a process to obtain written or oral consent from a student's parent or guardian prior to altering a student's appearance or removing or altering a student's attire.

Record Retention. When the *Health and Safety Standard* is used, the school must keep records on each effort to reasonably accommodate a student's appearance or attire, hairstyle, adornment, or other characteristics associated with race, national origin, or religion occurring at school, on school grounds, or at a school-sponsored event and ensure that such records allow for analysis of related data and delineate:

- The reason for such student's referral relating to the dress code; and
- Federally identified demographic characteristics of such student.

Dress Code Enforcement. School personnel are authorized to request immediate changes in the appearance or attire of student so as to remedy any dress code violations. Enforcement of dress code violations must be done in a manner that is consistent with a school's overall discipline plan and in a consistent manner. A student's violation of the dress code shall not subject the student to long-term suspension, expulsion, or mandatory reassignment as provided in NEB. REV. STAT. § 79-267. A violation of the dress code may not require the student to miss substantial classroom time, instruction time, or school activities.

Under no circumstances is any administrator, teacher, other member of the school district's staff, or any school district contractor allowed to permanently or temporarily alter or cut a student's hair.

No student shall be disproportionately affected by dress code enforcement because of the student's gender, race, color, religion, disability, or national origin.

 - Currently pay approximately \$8,600 year
 - Ag Dryer option would be approximately \$14,000 year
 - Hi Kim:
If you haven't made a final decision about the AgDryer building yet, I'm going to give another example why it would be a good place for us to utilize. Rick, Deb and I report to the Easy Street

bus barn early every morning, usually around 6:00 AM. Since there aren't any lights in the bus barn, we have to use flashlights to do our pre-trip inspections. It is very dark at that time of the morning and it is difficult to see. Also, when buses return after activities at night it is very dark in there to do the post trip inspections. Another issue we've had is in regards to safety. There have been transients that sleep in the building from time to time. You can verify that with Davis because he had to deal with them. It can be very scary not knowing who or what is lurking around the building. The AgDryer building would be locked at all times providing better security for all of our drivers. Thank you for your consideration.

- **Gas Piping**

- Anderson Bros double checked all gas piping & a small leak was found on the HS side roof. They will have to remove a section of the gas piping to install a union for the repair of \$874.60. I approved so we could get this done ASAP.

- **Concrete Update**

- So far we only have 1 quote for approximately \$8,000

- **Playground Surfacing**

- Should be fixed by next week

- **Additional 7% Budget Authority**

 **Key Considerations for Using the Additional 7% Authority**

1. Does the District Need the Spending Authority?

- The 7% gives flexibility to increase expenditures without needing a voter-approved override.
- It's especially helpful facing rising costs (salaries, benefits, transportation, utilities, repairs, & upkeep)

2. Does the District Have Room Under the Levy Cap?

- Spending authority is only helpful if you can fund it under the combined \$1.05 cap (per LB 243). We are well below the cap, but up against the 3% increase cap.

3. Impacts on Cash Reserve & Long-Term Stability for the District

- Using the 7% authority can help the District maintain and/or build cash reserves (e.g., Elm Creek's minimum of 3.5-month target). Prevents future fiscal stress.
- Important for avoiding short-term borrowing or preserving buffers in uncertain revenue years.

4. Board & Community Transparency

- If the District implements the 7% authority, the Board must adopt with a resolution and hold a meeting. Board documents & communicates openly with the community.
- The authority is needed in the District (e.g., rising SPED costs, staffing, curriculum support, inflation, facility maintenance & repairs). Avoids budget cuts & programming losses.

5. Does the District's Student Growth Justify It?

- Look at:
 - Enrollment trends
 - SPED services
 - Transportation miles
 - Free/reduced lunch counts
 - Facility/boiler/HVAC/track/security needs

These are some of the reasons that justify the use of the authority ***without raising taxes***. It simply gives the District legal permission to spend available funds.
