10. reVision reFresh document has been updated and submitted to NDE.

-This is a requirement for every district and community college in Nebraska desiring to operate as an approved CTE program and receive federal or state CTE grant funds. The update occurs every two years.

-Thanks to the help of the CTE department staff in assisting me with updating our document prior to submission.

Guiding Principle I: Infrastructure and Shared Leadership

Objective: Establish a vision for achieving educational equity through core beliefs and norms, team structures and routines, clarity of roles and data-based decision-making process, professional learning, and system alignment.

- The District Leadership Team met briefly during the April in-service day. We reviewed the feedback the external visit team gave us regarding perceptual surveys. We also discussed when and where to hold our DLT retreat in May.

Guiding Principle II: Layered Continuum of Supports

Objective: Provide tiered supports to meet the social, emotional, behavioral, physical, environmental, and academic needs of the whole child to ensure student growth.

- The HAL team attended a HAL workshop at the ESU on March 24. Sheyanne Smith of NDE led the workshop. We learned about the new requirements for HAL. Many resources were shared including a template to create a HAL plan, a documentation checklist, and a self-assessment rubric to ensure our HAL program framework is hitting all requirements of Rule 3. We learned that we have more work to do than anticipated, but grateful that we attended the workshop as we now have a better understanding of HAL program requirements.
- The HAL team met during the April in-service. We reviewed our resources and notes from the workshop we attended. We worked on creating a flowchart for qualification. We have drafted a graphic representation of the flowchart. Once polished, we will share it with all stakeholders for feedback. We have scheduled some team work time to finish the flowchart, create stakeholder surveys, revise our action steps after learning more about plan requirements. The team will also identify what professional development may be needed for implementation.

Guiding Principle III: Data-Based Decision-Making

Objective: Community, caregivers, district, school, collaborative and student support teams use a variety of data points to identify student needs and support planning. This includes a balanced assessment system to generate data, data-based decision-making to reinforce student support, and data-based decision-making to support continuous improvement of systems.

- Cathy Hoffart and I attended the TIP workshop at ESU1 on March 11. The TIP submission has changed platforms which also means a completely different look in how information is organized. A new component was added to address access to assistive technology. As this information was presented, it seemed disconnected from the TIP. It seemed more like a compliance measure that should exist outside of the TIP. It will be a new component to navigate. The way that the TIP is organized now easily aligns with our CIP. We will be able to use much of the work within our CIP to support the TIP. TIP submission is due May 1. The TIP focus group will be meeting to compile our data and evidence.

- I recently had a meeting with secondary staff. We discussed ways that we could give more attention to student accomplishments and successes rather than relying on punitive consequences to change behaviors such as poor attendance or poor academic responsibility. One incentive we would like to implement is a Senior Privilege Period. Seniors who are in good credit, grades, and attendance standing could earn a period in which they could be off-campus. This would be in the senior's schedule at the beginning of the day or end of the day. An application has been drafted and staff feedback and input is being collected. Once finalized, the privilege will be communicated to students. Staff has other great ideas on how we can give students more opportunities to earn privileges that, in essence, improve school climate and align with restorative practices.

- **Nebraska Department of Education (NDE) External Visit**

We will review and discuss the external visit exit report later in this meeting; however, I would like to take a moment to recognize and express my appreciation for the work of our District Leadership Team over the past five years and throughout the recent external visit process.

The team demonstrated a high level of commitment in preparing for the visit, thoughtfully organizing evidence of our district's progress and ensuring that the structure and logistics of the visit were well planned and executed. Their efforts allowed our district's growth and improvement work to be clearly communicated and represented.

I would also like to specifically recognize Angela Zach for her leadership in guiding this team. She has played a critical role in facilitating the team's development over time and in leading the preparation efforts for this review.

The leadership team has invested significant time reflecting on our practices, compiling evidence, and continuously working to improve outcomes for students. One of the areas I am most proud of is the strong culture of collaboration and shared leadership that has been established. Our teachers are actively engaged in leadership roles, using data to inform decisions and contributing to the ongoing refinement of instructional practices across the district.

I believe this culture of collaboration, professional growth, and shared ownership was evident throughout the visit and will be reflected in the team's final exit report. The work of the District Leadership Team has been outstanding, and the systems they have helped build will continue to strengthen our district moving forward.

- **Legislative update**

Several education-related bills were debated during the recent legislative session, with varying outcomes impacting school districts.

LB 1050 (Nebraska Reading Improvement Act) aimed to improve early literacy by requiring students to read at grade level by the end of third grade, including a retention requirement for those who did not meet expectations. While the bill included additional supports and assessments, it faced strong opposition from the education community due to concerns about mandatory retention and the creation of a significant unfunded mandate. The bill ultimately failed to advance after a cloture vote.

LB 803 was amended to include provisions affecting school district budgeting processes. Key components require all districts to participate in "pink postcard" hearings between July 1 and July 15, with counties notifying property owners of hearing details. Additionally, any increase in

a district's property tax request must be approved by at least a two-thirds majority of the school board. This bill passed on final reading.

LB 937 became a large omnibus ("Christmas tree") bill. An amendment (AM2965) was proposed that would have given parents final authority over IEP placement and service decisions. This change was opposed by education organizations and ultimately failed to be adopted.

LB 1219 proposed a strict 2% cap on property tax request increases for governmental entities, including schools. While there were discussions about possible modifications, the bill did not advance and failed to gain traction, providing relief to school districts concerned about its potential impact.

Overall, the session included significant debate on literacy, special education decision-making, and school funding, with mixed outcomes for districts.

- **LB 803 was passed by the Nebraska Legislature on April 10, 2026 (48–1), includes an emergency clause, and was signed into law the same day.**

This bill is a comprehensive revenue and taxation package that makes significant changes to **property tax valuation and levy procedures**, particularly by requiring earlier public input on budgets and preliminary valuations.

Key Changes

One of the most important updates is the shift of the required **joint public hearing** (commonly known as the "truth-in-taxation" or "pink postcard" hearing) to **July 1–15**, rather than September. These hearings must occur after 6:00 p.m. and include participation from counties, cities, and school districts.

At least one elected representative from each entity must attend. During the hearing, officials must present:

- The budget process
- Preliminary property tax requests and impacts
- The prior year's budget and tax request
- Other relevant financial information

The public will have the opportunity to provide input, and a formal report of the hearing will be created.

Importantly, this hearing will be based on **preliminary—not final—valuation and budget data**, allowing time for adjustments before final decisions are made in the fall.

Impact on School Districts

- **Earlier transparency and engagement:** School districts must now prepare preliminary budget and tax information for a July hearing instead of September.
- **Earlier access to valuation data:** Districts will receive preliminary valuation information sooner from the county assessor.
- **Final decisions remain later:** Final certified valuations will still be used to adopt budgets and set levies in September/October.
- **Potential limitations on tax increases:** New provisions may require a two-thirds board vote to exceed certain property tax request limits.

Overall, districts will have more time to respond to community feedback but will also face additional planning requirements earlier in the year.

Impact on Property Owners

- **Earlier notices:** Property owners will receive preliminary valuation notices by **June 1**.
- **More transparency:** Notices must include clearer information about how valuations may affect taxes.
- **Protest timeline remains:** Property owners can still file valuation protests in June, with final values determined later in the summer.

Timeline Changes

While some provisions fully apply beginning with the **2027 tax year**, the emergency clause means certain procedural changes may begin impacting the **2026–27 cycle**. Local implementation may vary.

Bottom Line

LB 803 shifts much of the property tax process to **early summer**, giving both school districts and taxpayers earlier access to information and more opportunity for input before final decisions are made.

- **Administrative Staffing Update**

I would like to provide an update regarding administrative staffing adjustments and the reassignment of responsibilities moving forward. After careful consideration and collaboration with the administrative team, these changes are intended to best support the needs of our students, staff, and district.

Due to Mr. Brenn assuming a significant teaching load, it is no longer sustainable or in the best interest of the secondary building for him to also serve as high school principal. The demands of the role require a fully dedicated, full-time building principal to effectively support student well-being, provide instructional leadership, ensure curriculum fidelity, and carry out staff evaluation responsibilities.

Effective next school year, Angie Zach will serve as the full-time 7–12 principal. In addition to this role, Mrs. Zach will continue as the District Special Education Coordinator, including supervision of 7–12 special education staff and oversight of all required state reporting. She will also serve as the district’s MTSS Coordinator, helping lead and strengthen our systems of support.

At the elementary level, Mrs. Wright and I will provide increased support for special education services from birth through grade 6, including oversight of IEP processes to ensure compliance, quality, and timeliness. Mrs. Zach, Mrs. Wright, and I will continue to collaborate closely to support ongoing school improvement efforts.

Mr. Brenn will transition primarily into a teaching role while continuing to assist the district with attendance, student welfare, and other assigned responsibilities as his schedule allows.

It is important to note the financial implications associated with this change. Previously, a significant part of Mrs. Zach’s responsibilities was dedicated to special education, allowing the district to claim a significant portion of her salary and benefits for special education reimbursement. With her transition to a building principal role, even though she will continue to have special education responsibilities, her position no longer qualifies for reimbursement under current guidelines. Additionally, any special education support provided by administration, including myself, will not be eligible for reimbursement. This will result in a reduction in reimbursable expenditures for the district.

These adjustments are designed to address current operational needs as we continue efforts to secure additional staffing, particularly in the area of high school science. I want to express appreciation to Mr. Brenn for his flexibility and commitment, and to Mrs. Zach for her willingness to assume this expanded leadership role.

This structure provides strong, focused leadership for the secondary building while maintaining coordinated support across the district.

Director of Student Services Report

- The District Leadership Team met twice in February. Our meeting time was devoted to preparations for the external team visit. The team made updates to the CIP by reformatting our action steps within each goal to be more reader-friendly. We updated timelines for each goal and added artifacts for steps that have been completed. We also added many activities in our “Look Back”. Most of these activities have gone beyond the action steps to support our goals.
- Our CIP, which also includes our data profile, was sent to our external visit lead, Heidi Farmer. A resource for teacher classroom schedules has been created. A small group of DLT members completed a solid draft of our opening presentation. The draft will be shared with the DLT on March 10th to receive feedback and to determine who will be presenting specific information during the opening presentation.
- A survey was sent to all certified staff to collect interest from those who would like to collaborate on creating a draft for the process of curriculum review and selection. A draft of the process has been created to begin the discussion. Many staff members were interested in being a part of this collaboration. We will schedule PD time to begin this work. To my knowledge, we do not currently have a documented process for curriculum selection or review.
- The HAL team met in February. We reviewed teacher, parent, and student HAL surveys. The teacher survey was sent again as we felt we did not have a big enough data sample to guide decisions. We will be looking at teacher data on March 10. We have begun identifying factual data points for each set of data. That HAL team is registered to attend a HAL workshop at ESU 1 on March 24. We are hoping to receive some guidance on how to apply the data we have collected to designing a program framework.

- I attended a Coffee Connect NeMTSS webinar. The topic was using academic circles. I had shared that we were using literacy circles as tier 2 intervention to address reading fluency. I received some very positive feedback for what we are doing. It was very affirming to the direction we have taken with secondary reading interventions.

Superintendent/Elementary Principal Report

- The Nebraska Department of Education (NDE) External Visit is a required component of Nebraska's five-year continuous school improvement cycle. This visit provides Wakefield Community Schools with an outside, objective perspective on the district's school improvement efforts and their impact over the past five years.
 - Monday, March 16, 2026 Board of Education interview: 5:00–6:00 p.m.
 - Tuesday, March 17, 2026 Exit Presentation: 5:00–6:00 p.m.
- I want to express my appreciation for the work the District Leadership Team has done over the past five years, and especially the significant effort they have put into preparing for the upcoming external visit. The team has worked diligently to organize and present the progress our district has made during this time, as well as to thoughtfully plan the structure and logistics of the visit itself.
- I would also like to recognize Angela Zach for her leadership in guiding this team. She has done an excellent job facilitating the group's growth and development over the years and leading the work necessary to prepare for this review.
- In April of 2024, the DOJ published new regulations for all public entities. Public schools must meet WCAG 2.1AA standards with anything we put on the internet or give to students digitally; so our website, social media, and teachers' Canvas and Google Classrooms. Specific deadlines to remain in compliance depend on the size of the community - since we are under 50,000 we have until April 26, 2027. This is going to be very time consuming for everyone to make this transition. Our website alone is going to take hours to update. Every page has to be gone through and updated, every document we have linked has to be edited to be accessible and reuploaded (including past documents), and we have to check any website we link to off of our website. If the website is out of compliance and we have a link to it we can still be fined. This is a federal requirement, so we don't have a choice in it. Please be prepared for things to change on the website. Since we do not have just one person dedicated to keeping information updated, how we share information and how much we share may change so that we can stay compliant and not take everyone's time getting this done.
- At this meeting, you will see action items reflecting recent staffing updates. I am pleased to report that we have successfully filled both open elementary teaching positions as well as the preschool teaching position. However, the agenda also includes the approval of two resignations: Caitlin Smith, Secondary EL Teacher, and Megan Virgil, Secondary Science Teacher. Both of these positions will be challenging to fill given the current teacher labor market. We will actively recruit and do everything possible to fill these roles. At the same time, it is prudent to begin planning for the possibility that one or both positions may remain unfilled. Potential contingency measures could include administrators teaching certain courses and working with our current English Learner staff to help absorb portions of Mrs. Smith's responsibilities.
- Wakefield Community Schools Elementary students demonstrated strong academic growth from the Fall to Winter STAR assessment window in both Reading and Math. Based on STAR assessment data, our median Student Growth Percentile (SGP) scores were:
 - Reading SGP: 68
 - Math SGP: 67

Student Growth Percentile (SGP) is a measure used in Renaissance STAR assessments to evaluate how much academic progress students make over time compared to their academic peers nationwide. These peers are students in the same grade who started with similar prior test scores and achievement histories.

SGP scores range from 1 to 99.

- 50 represents typical or expected growth.
- Scores above 50 indicate above-average growth compared to similar students.

For example, an SGP of 68 means students grew more than 68% of their academic peers nationwide with similar starting scores. This metric is particularly valuable because it measures progress rather than just achievement level, meaning it shows how much students improved between testing periods, regardless of where they started academically.

The Reading SGP of 68 and Math SGP of 67 indicate that Wakefield elementary students are demonstrating significantly higher-than-expected growth between the fall and winter testing windows.

- Wakefield students grew faster than roughly two-thirds of similar students nationally in both subjects.
- Growth scores above 66 are typically considered high growth, placing our elementary results firmly in a strong growth range.

These results are very encouraging and reflect the hard work of our students, teachers, and support staff. Seeing strong growth across both reading and math indicates that our instructional practices and interventions are helping students make meaningful academic progress throughout the year

- Several bills currently under consideration in the Nebraska Legislature could affect school funding and operations.
 - LB 1038 proposed a significant increase in state aid to schools, which would have provided meaningful financial relief for districts like Wakefield Community Schools. At this time, the bill is unlikely to advance during this legislative session. This is disappointing, as increased state aid could have helped offset rising operational costs and declining equalization aid.
 - The most significant bill currently affecting school districts is LB 1219. Currently, if a school district increases property tax asking more than 2% plus real growth, it must hold a public hearing (commonly referred to as the “pink postcard” hearing) before adopting the budget. LB 1219 would eliminate that process and instead place a hard cap on tax asking. Under the bill, school districts would not be allowed to increase property tax revenue beyond 2% plus real growth, regardless of financial circumstances.
 - LB 1050 would require third-grade students with a persistent reading deficiency to be retained unless certain exemptions apply. The bill has had a committee hearing but has not advanced to floor debate.

Discuss and take appropriate action on the superintendent and IT director's recommendation of C

The administration is presenting a proposal to purchase Chromebooks for students in grades 4-7 to ensure that the district maintains reliable and consistent student technology access. The current availability of Chromebooks across vendors is very limited due to supply chain and inventory constraints, and devices are quickly selling out. While devices may eventually become available again, vendors have indicated that it may be September or October before new stock is readily available if orders are delayed. Because of this uncertainty, the administration recommends the Lenovo 300e Yoga Chromebook Gen 4, which includes a touchscreen feature. This feature is an important transition element for students, particularly as they move from iPads to Chromebook devices. The proposal recommends purchasing:

- 145 Lenovo 300e Yoga Chromebooks
- 145 Google Chrome Education licenses

The cost of the devices would be \$42,775, with an additional \$4,640 for Google licenses, for a total of \$47,415. Given the limited supply and the need to ensure technology is available for the upcoming school year, the administration recommends approval of the Chromebook purchase as presented.

Motion to approve technology purchases as presented, not to exceed \$50,000 passed with a motion by Haglund and a second by Dorcey.

Hold for discussion and take appropriate action on the superintendent's proposed 2026-2027 school calendar.

The proposed 2026-2027 Wakefield Community Schools calendar (see attached proposal) was designed to balance three important priorities for the district: strong instructional time for students, meaningful professional development for teachers, and sufficient flexibility to accommodate weather-related disruptions.

First, the calendar provides structured opportunities for ongoing professional development to support the continued implementation of the district's school improvement work over the past five years. Much of this time will focus on helping staff further implement Wakefield's instructional model and the district's new teacher evaluation tool. These professional learning opportunities are designed to ensure teachers clearly understand the expectations of the instructional model and have the resources and training needed to meet those expectations effectively in the classroom.

A significant portion of the scheduled late-start Mondays will also be dedicated to grade-level and collaborative team meetings. During these meetings, teachers and staff will analyze student progress, plan and implement interventions, review assessment data, and coordinate support systems for individual students. This collaborative time is critical for the effective operation of our MTSS and student support processes. Additionally, teachers will have time to work on curriculum development, lesson planning, and instructional preparation that directly benefits student learning.

Another strength of the proposed calendar is the strong commitment to student instructional time. The calendar includes 1,135.5 instructional hours, which is more instructional time than Wakefield Community Schools has provided in recent years and significantly exceeds the state minimum requirement.

The schedule also includes approximately 7.4 additional days beyond the minimum instructional hour requirement, providing a valuable buffer in the event of winter weather or other school cancellations. The use of Monday late starts provides a consistent structure for professional learning while minimizing disruption to the school day. Many districts have successfully adopted this model because it allows for meaningful staff development while preserving full instructional afternoons for students. This approach

also offers a more predictable schedule for families compared to frequent early dismissals used by some districts. In many cases, late starts can reduce the stress of rushed mornings for families while still maintaining a full instructional day for students.

Overall, the proposed calendar creates a strong balance between instructional time and professional development, ensuring that students receive ample learning time while teachers have the collaborative opportunities necessary to continue improving instruction. With additional instructional hours, built-in weather flexibility, and dedicated time for school improvement work, this calendar represents a thoughtful and effective plan for the 2026-2027 school year.

Motion to approve the superintendent's proposed 2026-2027 school calendar as presented passed with a motion by Lundahl and a second by Dorcey.

Hold for discussion and take necessary action to define the scope of the Preschool Program for the 2026-2027 school year and update Policy 6040 accordingly to reflect any program changes.

The administration is recommending a revision to Board Policy 6040: Preschool Program to increase the allowable enrollment in the district's four-year-old preschool program from 20 students to 40 students beginning with the 2026-2027 school year.

This recommendation is based on updated enrollment projections and recent census data. In the district census conducted in June, there were 32 children identified in the current three-year-old cohort who will be eligible to attend four-year-old preschool next year. Based on this data, the district anticipates enrollment exceeding the current policy limit of 20 students.

In preparation for this growth and to ensure adequate staffing and quality instruction, the district has already added an additional preschool teacher for the upcoming school year. With the appropriate staffing in place, the district is capable of supporting an expanded program while maintaining appropriate class sizes and providing a high-quality early childhood learning environment.

The proposed policy revision will update the allowable enrollment cap to 40 students, aligning board policy with the operational needs of the district and the expected demand from families in the community. Expanding the program will allow Wakefield Community Schools to better serve preschool-age children and support early learning opportunities for families within the district.

Approval of this revision will ensure that Policy 6040 accurately reflects the district's preschool program structure and enrollment capacity moving forward.

Motion to approve the proposed revision to Policy 6040 - Preschool Program to increase the allowable enrollment in the four-year-old preschool program from 20 students to 40 students beginning in the 2026-2027 school year passed with a motion by Dorcey and a second by Driskell.

Discussion and possible action regarding the review of the 3000 Series Board Policies for Wakefield Community Schools. The Board will review this policy series in accordance with the district's established policy review cycle and may take appropriate action following discussion.

It is recommended practice that the Board review district policies on a three-year cycle to ensure policies remain current, relevant, and aligned with district practices and legal requirements.

The 3000-policy series, which generally address business and non-instructional operations of the district, was last reviewed in June 2023, and this review is being conducted in accordance with the district's established policy review schedule. Prior to this meeting, the Board Policy Committee met to review the policies within this series and discuss any potential updates or areas for consideration.

Motion to approve the review of the Board Policy 3000 series as presented passed with a motion by Haglund and a second by Driskell.

Discussion and possible action regarding the revision of Board Policy 4040: Policies and Procedures Regarding Classified Staff. The proposed revisions update and clarify several operational practices related to classified staff employment, leave, and benefits. The Board will review the proposed revisions and may take appropriate action on the updated policy.

The administration is recommending revisions to Board Policy 4040 in order to better align district policy with the practices currently being implemented for classified staff and to ensure that the policy clearly reflects district expectations and procedures.

A key component of the revision is the transition from a traditional leave structure (separate vacation and sick leave systems) to a Paid Time Off (PTO) model for classified staff. This change will create a more flexible system for employees while also making the classified staff leave structure more consistent with the leave system used for certified staff.

The updated policy also clarifies provisions related to:

- Vacation leave scheduling and rollover
- Paid Time Off (PTO) accumulation and usage
- Sick leave rollover and payout provisions
- Holidays and additional leave allowances
- Other operational procedures related to classified employment

These revisions are intended to modernize the policy, improve clarity, and ensure the district's policies accurately reflect the way the district manages classified staff employment and leave benefits.

Motion to approve the revision of Board Policy 4040 - Policies and Procedures Regarding Classified Staff, as presented passed with a motion by Lundahl and a second by Haglund.

Hold for discussion and take appropriate action on the recommendation from the Superintendent to set the pay schedule for current Classified Staff hired for the 2026-2027 school year.

The Board of Education will review the proposed classified staff pay scale and wage adjustments for the upcoming year. This proposal applies to all classified staff positions, including kitchen staff, maintenance and custodial staff, paraprofessionals, transportation staff, office staff, and the district's full-time nurse, who is classified under the district's classified staff system.

Maintaining competitive wages is essential for the district to recruit and retain high-quality employees who provide critical services that support students, staff, and daily school operations. The proposed adjustments are designed to ensure that Wakefield Community Schools remains competitive within the regional labor market while recognizing the important contributions of our classified employees.

The proposed pay scale adjustments reflect the district's ongoing effort to modernize and improve classified staff compensation and benefits. The proposal generally reflects an increase consistent with the overall pay adjustments being provided to certified staff, while also recognizing that a small number of classified employees have demonstrated exceptional performance or taken on additional responsibilities and are therefore recommended for additional merit-based increases, as outlined in the proposal.

The total proposed classified staff payroll for the upcoming year is \$1,563,798, compared to \$1,520,534 in the previous year, representing an increase of \$43,264, or approximately 3% overall. This increase is considered a reasonable and responsible adjustment that supports employee retention while remaining mindful of the district's financial stewardship.

Motion to approve the recommendation from the Superintendent to set the pay schedule for current Classified Staff for the 2026-2027 school year as presented passed with a motion by Haglund and a second by Keagle.

Wakefield Community Schools
P.O. Box 330
Wakefield, NE 68784

Dear Hiring Committee,

I am writing to express my sincere interest in an elementary teaching position at Wakefield Community Schools. I will soon be graduating with my degree in education from the University of Nebraska - Lincoln and am currently completing my student teaching placement at Dakota Valley CSD in North Sioux City, SD. My experiences in the classroom have shown me how important it is to have an environment where students are put first, which aligns seamlessly with your school's mission statement and values as a school district.

During my student teaching experience, I have worked closely with elementary students to support their growth in reading, writing, and math, as well as in a special education classroom. I have enjoyed creating engaging lessons, supporting students with different learning needs, and building positive relationships both in the classroom and with student's families. I believe that students learn best when they feel supported, encouraged, and excited about learning. They also learn the most when they trust you as an adult and have chances to learn through play-based or hands-on learning.

I would love the opportunity to contribute to your school community and continue growing as an educator. Thank you for considering my application, and I look forward to the possibility of speaking with you.

Sincerely,

Paige Wooster

Review of Continuous Improvement Process
Review of Progress on Continuous Improvement Goals
Summary

Introduction and Purpose of the Visit

92 NAC 10 “Regulations and Procedures for the Accreditation of Nebraska Schools”

Section 009 of Rule 10 describes Continuous Improvement as, *“A systematic on-going process guides planning, implementation, and evaluation and renewal of continuous school improvement activities to meet local and statewide goals and priorities. The school improvement process focuses on improving student learning. The process includes a periodic review by visiting educators who provide consultation to the local school/community in continued accomplishment of plans and goals.”*

The purpose of the external visit is to review the documentation and efforts related to its Continuous Improvement Efforts, while also verifying compliance with Section 009 of Rule 10 as required by the Nebraska Department of Education. In addition to confirming adherence to regulatory standards, External Visits are intended to also provide meaningful feedback that can be used to inform and strengthen a district's ongoing improvement goals.

In Nebraska, External Visit Teams are composed of professional educators and administrators from across the state who volunteer their time and expertise. These teams are formed through a peer network. Prior to the visit team members verse themselves on best practices and data literacy for continuous improvement.

Wakefield Community School held their last continuous improvement visit on April 25-28, 2021 with Cognia. The lead evaluator on that visit was Cyndi Rotter-Hansen, former instructional coach for Battle Creek Public Schools and student teacher supervisor for both Wayne State and Peru State colleges. The team also consisted of John Schultz, educator at Morton Middle School in Omaha Public Schools; Janeal Lischke, administrator of Heritage Christian School in Topeka, Kansas; and Beth Flemming, assistant principal at U.S. Jones Elementary in Demopolis, Alabama.

As a result of the work completed by the team during their visit, recommendations and feedback were provided to the leadership at Wakefield. The team made the following recommendations:

- Update & document a formal CIP process
- Implement structured, systemic data collection & analysis system
- Consistently use stakeholder feedback, student assessments, and program evaluation data
- Become more data-driven, global & strategic
- Provide PD on how to understand and utilize data
- Move from “having good data” to effectively using data

Preparation for this external visit began as soon as the last external report was received. Wakefield Community Schools have engaged in continuous improvement over the last five years. The official preparation began when Matt Farup and Angie Zach reached out to Heidi Farmer, NeMTSS Regional Support Lead in April 2025 and requested that she lead the visit.

Once the date was set, Heidi used some recommendations from the Wakefield administration and identified some key areas of focus to ask others to put together the visit team. The schedule was discussed with Heidi and developed by the Wakefield administration. Three Zoom meetings over the course of 10 months were held in the planning process. There were also some phone calls the weekend before the visit, as a blizzard warning was in effect for Sunday, the day that the team was planning to travel. Heidi worked with Angie and Matt to revise the schedule on Day one for a 10:00 am start instead of 8:00 am start.

The evidence for the on-site review was developed by the Wakefield Leadership Team. The evidence was organized in the district's CIP Template, a Google

Doc, and shared with the external team. The CIP Template contained data and evidence for how the district engaged in the problem-solving process to develop action plans for the district. Upon arriving, the team was also provided with a binder of information to support classroom visits.

Prior to the visit, members of the external team met via Zoom on March 5th and reviewed the CIP Template and school profile. They also spent time discussing the Nebraska Model for Continuous Improvement as well as the schedule and other specifics for the visit. As the weather forecast showed a great chance for blizzard conditions in the days leading up to the visit, Heidi shared updates with the team via text message as she worked with the administrative team at Wakefield. On Saturday afternoon, the administration and Heidi decided to move to a late start for the first day of the visit.

The onsite visit began with the opening presentation by the district leadership team (DLT). The DLT hosted the meeting in a Circle format and demonstrated how they are implementing Restorative Practices district-wide. The presentation kicked off with a video featuring students from Wakefield and then the team provided a comprehensive overview of the work they have done over the past five years. A few follow-up questions were asked by the external team.

After lunch, the team was given a tour of the building by 4 students. The students were very insightful and provided the team with a wealth of information about the district.

The team then split into two groups to do student and teacher interviews. Heidi Farmer and Hillary Veerhusen did the interviews with the elementary groups while Mark Brady and Kolin Haecker did the interviews with the secondary groups. The team came back together to interview the parents and the school board.

These interviews added a great deal to the overall information gathering process and provided a number of correlations between information provided by the district prior to the visit and what was shared during the opening presentation. It was believed by the external team that a good cross-section of stakeholders with various perspectives was provided for these interviews.

Day one wrapped up with team work time and dinner from a local restaurant. The team compiled themes from the interviews and opening presentation.

Day two began with a brief amount of team time and breakfast. The team then divided into two groups once again. Heidi Farmer and Hillary Veerhusen each visited nine elementary classrooms, while Mark Brady and Kolin Haecker each visited eight and seven classrooms, respectively. Team members focused on elements of the district instructional model and evidence of the district mission, vision, beliefs, instructional model, and PBIS common expectations while visiting classrooms.

After wrapping up classroom visits, the team met to debrief and gather common themes from the classroom observations. The team was provided lunch by the Pastries class as they focused on finalizing the information that they wanted to include in the summary presentation and to make sure to include in the final report. A brief of the intended summary presentation was shared with the administrative team for feedback, and then the final exit presentation was presented in person to about 60 staff, board members and community members and virtually to an additional 7 community members. That brought a conclusion to two very positive days working with the staff at Wakefield Community Schools and learning about their continuous improvement efforts.

External Visitation Team

The responsibilities of the external team include:

- 1) Review school system evidence of continuous improvement.
- 2) Observe educational services provided by the school system.
- 3) Assess the progress and effectiveness of the action plan.
- 4) Provide feedback for continued improvement.

Peer review is a common strategy for supporting school and teacher improvement. Research suggests the potential value in peer review as a part of larger school improvement initiatives. Of particular note, some suggest that peer reviews may reduce “top-down” accountability mindsets and generate greater practitioner-driven innovations. Several states utilize peer review as part of their larger school quality,

accountability, or accreditation processes, though peer review is rarely linked to a broader CI process. (*Data Literacy Workbook, Hanover Research, February 2022*)

Serving as an external visit volunteer is an important responsibility. The Nebraska Department of Education (NDE) appreciates the leadership skills and peer collegiality of educators throughout the state that volunteer for this role.

Schedule

The On-Site Visit was scheduled for two full days on Monday, March 16, and Tuesday, March 17, 2026. Due to a winter weather system coming through the two days prior, Heidi Farmer had a conversation with Angie Zach and Matt Farup and decided to begin at 10:00 am on Monday, March 16. We were able to combine the student interviews and then added a working supper to the end of the day to make up for the late start.

Review of Continuous Improvement

NAC 92 Chapter 10
009.01A The school system develops and implements a continuous school improvement process to promote quality learning for all students. This process includes procedures and strategies to address quality learning, equity, and accountability.

Under the requirements of NAC 92 Chapter 10, Section 009.01A, all Nebraska school systems must develop and implement a continuous school improvement process that promotes quality learning for all students. This process must include clear procedures and strategies that address three core areas: quality learning, equity, and accountability. Based on the documentation and evidence presented during the External Visit, it is clear that Wakefield Community Schools addresses quality learning, equity and accountability through the district leadership team and the grade-level teams. The district leadership team took the recommendations from the last external visit and addressed ALL of them through the problem-solving process and continuous improvement.

009.01A1 Review and update of the mission and vision statements.

The Wakefield Community School district is a growing PK-12 rural district in the heart of northeast Nebraska, spanning the border of Dixon and Wayne counties. Serving 594 students, the district is characterized by its significant cultural diversity and a commitment to personalized learning. The mission of Wakefield Community Schools is to embrace diversity, educate and support the whole learner, and empower students to be critical thinkers, lifelong learners, and global citizens. The mission statement was reviewed by the entire staff during the

past five years and updated to reflect the most current work in the district. The motto of the district is: Embrace, Educate, Empower.

The district is guided by their core beliefs, the ASPIRE framework. These core beliefs serve as the North Star, ensuring the district consistently moves forward in service to students and the community:

A – Achievement: We believe in setting high expectations and providing the support necessary for every student to reach their full potential.

S – Support: We believe in educating the "whole learner," addressing not only academic needs but also social, emotional, and behavioral well-being.

P – Perseverance: We foster an environment where challenges are met with resilience and a growth mindset.

I – Inclusivity: We embrace the rich diversity of our community, ensuring every student feels valued and represented.

R – Responsibility: We empower students to take ownership of their learning and their roles as global citizens.

E – Excellence: We strive for continuous improvement in our instructional practices and district operations.

The Trojan Mission and ASPIRE belief statements were clearly woven throughout the external review process, beginning with the opening presentation, where leadership articulated a transparent commitment to meeting the needs of The Whole Learner. This alignment was further validated during classroom visits, where observers noted a consistent culture of inclusivity and high expectations, reflecting the district's focus on achievement and support. In interviews with all stakeholder groups (including students, staff, parents, and board of education members) there was a shared resonance with the "Embrace, Educate, Empower" motto. Stakeholders consistently described a school environment that not only celebrates its unique diversity but also actively empowers students to take responsibility for their growth as critical thinkers and future global citizens.

009.01A2 Collection and analysis of data about student performance, demographics, learning climate, and former high school students.

The District Leadership Team began the opening presentation by showing a short video that highlighted many of the great aspects of Wakefield Community Schools. The external team members were invited to join in the Restorative Practices Circle structure that is a consistent practice for their team. They shared how the seating structure aligns to their continuous improvement efforts in the area of SEBL. After the video and short inclusion activity, the team highlighted some important overview information for the district. Some of this information was shared with the external team members prior to the visit in the form of the district's previous exit report from 2021, perceptual survey data, the district snapshot document, and the CIP template. Information that was specifically highlighted by Leadership Team members included the district's mission, motto, and belief statements as well as student and teacher demographics.

As a way of introducing the focus areas for their CIP efforts over the past five years, the team shared some of the feedback they received during their last external visit. The Cognia external team noted in 2021 that the district seemed to lack any sort of process for analyzing and using data to inform student supports. As a result, the district administrative team requested assistance from their NeMTSS regional support personnel. This partnership led to the creation of a district-wide MTSS system that is coordinated by the District Leadership Team using a shared leadership approach. Although this work was a part of a priority goal focused on improving ELA outcomes for students, the system that has been developed and the leadership team that was established has also led efforts towards their second priority goal (the development of a HAL program), as well as their third priority goal (the adoption and implementation of PK-12 SEBL curriculum). The team spent time in the opening presentation reporting on the actions they have taken to address all three of these goals. One of the major successes the district has achieved over the past five years is the drastic reduction in their chronic absenteeism rate. The superintendent attributed the success in this area to the strong systems and programs that have been put in place through their CIP process.

To wrap-up the opening presentation, the district's CIP lead described their continuous improvement efforts as truly being a journey. They realize their work is not yet finished and they have already identified additional areas for growth within the strong system that they have worked so diligently to establish.

009.01A3 Selection of improvement goals. At least one goal is directed toward improving student academic achievement

Goal #1: By Spring 2030, 70% of students in grades 1-11 will meet their growth targets as evidenced by MAP Growth Reading or a comparable growth measurement tool.

Spring 2026 Benchmark Goal: By Spring 2026, 44.1% of students in grades 1-11 will meet their growth targets as evidenced by MAP Growth Reading or comparable growth measurement tool. (District Baseline: 50.2% Spring 23)

- The selection of the academic growth goal was the result of a comprehensive Root Cause Analysis conducted on longitudinal student performance data. Through this process, the district identified that while data was being collected, the expectations for Tier 1 Core instruction were not clearly defined or standardized across classrooms. This lack of clarity was particularly evident in the support structures for Students with Disabilities, as specific protocols for serving these learners within the Tier 1 environment had not been established. Furthermore, the existing instructional model did not explicitly define the components of high-quality Core instruction, which created a ripple effect, resulting in fewer targeted coaching opportunities for administrators to support teacher growth. By focusing on this goal, the district aims to shore up the foundation of the Multi-Tiered System of Support (MTSS) by defining clear instructional expectations and ensuring all students, regardless of ability, receive rigorous Core instruction

Goal #2: We will develop a sustainable, data-driven High-Ability Learner (HAL) program that provides access to extension and enrichment by May 2026.

- The selection of this goal represents a transition from a previous compliance-based objective to a student-centered commitment. While a HAL program was noted in the district's last exit report as an

implementation goal, leadership emphasized that the current focus is not merely "checking a box" for accountability. Instead, the district is driven by a genuine desire to provide specialized extension and enrichment for students. To ensure sustainability, an Implementation Team has been established with a vision that extends beyond traditional academics to include non-academic areas such as art and music.

Goal #3: Wakefield Community Schools will adopt and implement with fidelity a PK-12 SEBL curriculum, which will result in 85% of students' SEBL needs being met at Tier 1 Core by the Spring 2028 data collection. (Baseline: Spring 2026)

- The district's commitment to a comprehensive Social, Emotional, and Behavioral Learning (SEBL) curriculum is rooted in an intentional evolution of data and practice. This work began through a partnership with the Mental Health Institute and grant funding, leading to the establishment of universal behavior expectations (Safe, Respectful, and Responsible) in Fall 2022. After finding that an in-house screener produced difficult-to-use data, the district pivoted to the SAEBERS tool this year to gain more actionable insights.

A cornerstone of this goal is the adoption of the Positivity Project (P2) in Spring 2024. This strengths-based Tier 1 curriculum provides a common language across the district. The commitment to P2 was solidified by a pilot program, staff attendance at a National Conference in Georgia, and subsequent training for all staff by a P2 representative. Beyond Tier 1, the district has integrated Tier 2 and 3 supports within the P2 framework, established weekly high school check-ins during advisory, and scheduled Restorative Practices (RP) training for all staff in Fall 2025. These efforts demonstrate a systemic approach to meeting the SEBL needs of 85% of students at the Core level by 2028.

009.01A4 Development and implementation of an improvement plan which includes procedures, strategies, actions to achieve goals, and an aligned professional development plan.

Commendations:

- Over the past five years, intentional efforts have been made to align all district processes and systems. This has led to greater efficiencies and

more focus in the areas of data analysis, Tier 1 instruction, interventions, English Learner support, and SEBL implementation.

- Shared leadership is a core value that is at the center of all continuous improvement efforts. This has led to more ownership of the valuable work being done in Wakefield.
- The district has not only achieved an operational level of implementation with their SEBL curriculum and practices, they have also shared their progress at national conferences.
- The District Leadership Team members lead by example in their adherence to SEBL norms and practices during their own team meetings.
- Administration, the District Leadership Team, and all staff have worked diligently to address the many recommendations that were included in the 2021 Cognia exit report. Largely due to the MTSS system that has been built over the past five years, significant progress has been made in every area of need identified by the previous external team.

Recommendations:

- As was mentioned previously, the district has developed a comprehensive MTSS system that will promote academic success in all curricular areas. The external team encourages the district to celebrate the progress that has been made and to continue the strong work they have begun. Specifically, the external team members recommend continuing the development of building-level teams and providing them with data analysis support through a district-wide data platform. It is also recommended that the district continues to grow its MTSS system by strengthening its model for assessment, intervention, and progress monitoring so that it becomes increasingly efficient and seamless.
- Over the course of the next five-year cycle, it is recommended that the District Leadership Team continue to work on developing strong communication channels for the purpose of engaging all stakeholders in the continuous improvement process.
- As a part of this focus on communication channels, it is recommended that the district identify a perceptual survey and consistently use it over time with district stakeholders. Using a consistent perceptual survey will allow the district to monitor growth over time in specific areas.
- Finally, the external team commends the district on all of the successes they have achieved over this past CIP cycle. The recommendation from

this team moving forward is for the district to consider ways in which these successes might be strategically shared with all stakeholders, both inside and outside of the school.

009.01A5 Evaluation of progress toward improvement goals.

Goal 1: By Spring 2026, 44.1% of students in grades 1-11 will meet their growth targets as evidenced by MAP Growth Reading or comparable growth measurement tool. (District Baseline: 50.2% Spring 23)

Commendations:

- The district has demonstrated diligent systemic development to enhance student achievement in English Language Arts (ELA) and across all core content areas.
- District leadership has exhibited a steadfast commitment to the strategic allocation of fiscal resources, time, and personnel toward professional learning and comprehensive support structures.
- Instructional paradigms and pedagogical decisions are systematically informed by robust data collection and rigorous longitudinal analysis.
- English Learner (EL) programming has undergone strategic expansion, characterized by increased intentionality and alignment with best practices.

Highlighted strategies from the Action Plan include:

- Restructuring of the EL Newcomer Program for grades K-12 to optimize instructional delivery.
- Engagement in specialized professional development focused on the 7 Steps to a Language Rich Interactive Classroom.
- The district has established designated time for collaborative learning and instructional planning among all educators.
- The district leadership team has developed and implemented fidelity checks for Tier 1 Core EL Supports.
- The district leadership team has also improved the district instructional model and developed an aligned appraisal system.
- A system for 4-12 Reading Interventions has been designed and is in the beginning stages of implementation.

Recommendations:

- Continue to use and strengthen the system that you have built.
- Over the next five years, develop processes to evaluate the effectiveness of your MTSS system.

Goal 2: We will develop a sustainable, data-driven High-Ability Learner (HAL) program that provides access to extension and enrichment by May 2026.**Commendations:**

- The district recognized the need to implement structured HAL programming to serve its high-achieving student population.
- The district leadership team has established a timeline for the systematic development and integration of this program.

Highlighted strategies from the Action Plan include:

- The creation of the HAL Team to oversee program design and implementation.
- The HAL Team participated in HAL-focused professional development to ensure the program aligns with best practices.
- The team has collected input on baseline data to inform the program's scope and identification processes.

Recommendations:

- Allow all stakeholders (students, parents, staff) to have a voice throughout the HAL planning process and implementation.
- To support high-ability learners within the general education environment, the district should continue utilizing Universal Design for Learning (UDL) to enhance Tier 1 Core instruction.

Goal 3: Wakefield Community Schools will adopt and implement with fidelity a PK-12 SEBL curriculum, which will result in 85% of students' SEBL needs being met at Tier 1 Core by the Spring 2028 data collection. (Baseline: Spring 2026)

Commendations:

- The district has successfully operationalized Tier 1 SEBL practices across all grades, ensuring a foundational level of support for the entire student population.
- Established behavioral norms are consistently valued and practiced by both students and staff at the elementary and secondary levels, fostering a cohesive school climate.
- A robust system has been developed to systematically collect and monitor SEBL data, allowing for evidence-based decision-making.
- The district demonstrates robust implementation of the Social, Emotional, and Behavioral Learning (SEBL) curriculum within grades PK–9, complemented by the integration of Restorative Practices across grade PK-12.

Highlighted strategies from the Action Plan include:

- The district has chosen and began implementation of the PK-12 SEBL Curriculum (Positivity Project) to ensure instructional consistency.
- All staff are implementing community building circles during SEBL instruction.
- The district will ensure all students will receive a minimum of 60 minutes of SEBL instruction each week (by the spring of 2028).
- By August of 2027, the district will develop a restorative discipline model.

Recommendations:

- Develop and implement Tier 2 and Tier 3 support in SEBL to meet the needs of all learners in the district.
- Be diligent to continue the good work that you have begun in this area.

Summary

Over the last five years, Wakefield Community Schools has undergone a significant systemic transformation, moving from having data to effectively utilizing data to drive instructional decisions. The district successfully addressed all recommendations from the previous (2021) exit report through the establishment of a robust Multi-Tiered System of Support (MTSS). They have

developed a shared leadership model that has increased ownership across all staff levels. The external team recommends that Goal #1 (ELA Growth) and Goal #3 (SEBL) be continued and elaborated, as the infrastructure for these goals is now operational and showing positive impacts on school climate and chronic absenteeism. The team recommends that Goal #2 (HAL) be adjusted from an implementation goal to a performance goal as the program moves into its active phase by May 2026.

Moving forward, the district is encouraged to maintain its data-driven culture by adopting a consistent perceptual survey to monitor stakeholder feedback and continue to refine Tier 2 and Tier 3 supports. By strategically sharing successes with the broader community, Wakefield is well-positioned to ensure sustained student growth and post-graduation readiness for all learners.

Overall Summary

The **Nebraska Continuous Improvement External Report (March 16–17, 2026)** found that Wakefield Community Schools has made **significant, systemic progress** over the past five years—particularly in becoming a **data-driven district with a strong MTSS framework**.

The district **successfully addressed all major recommendations from the 2021 review** and now has **coherent systems, shared leadership, and aligned practices** in place.

Major Strengths

1. Strong MTSS & Data Use

- Transitioned from *having data* to **effectively using data to drive instruction**.
- Built a **district-wide MTSS system** guiding academic, behavioral, and SEL supports.
- Data is now used consistently for **instructional decisions and interventions**.

2. Aligned Systems & Shared Leadership

- High level of **alignment across instruction, interventions, EL services, and SEBL**.
- Strong **District Leadership Team (DLT)** with shared ownership.
- Staff demonstrates **collective commitment to improvement**.

3. Positive School Culture (SEBL)

- Strong implementation of **Positivity Project (P2)** and **Restorative Practices**.
- Clear, consistent expectations (Safe, Respectful, Responsible).
- Positive impact on:
 - **School climate**
 - **Student engagement**
 - **Chronic absenteeism reduction**

4. Instructional & EL Improvements

- Expanded and strengthened **English Learner programming**.
- Increased focus on:
 - Tier 1 core instruction
 - Language-rich classrooms
 - Intervention systems (especially 4–12 reading)

5. Stakeholder Alignment

- Students, staff, parents, and board members all reflect a strong understanding of:
 - **Mission: “Embrace, Educate, Empower”**
 - **ASPIRE beliefs**
 - Consistent, positive culture observed in classrooms and interviews.
-

Progress on Goals

Goal 1: Academic Growth (ELA)

- Clear focus on **improving Tier 1 instruction and growth outcomes**.
- Strong systems now in place, though continued refinement is needed.

Goal 2: High Ability Learners (HAL)

- Transitioning from planning → implementation.
- Strong foundation built (team, PD, data collection).

Goal 3: SEBL (Social-Emotional-Behavioral Learning)

- Highly successful implementation at Tier 1.
 - Strong systems for:
 - Curriculum (P2)
 - Data (SAEBERS)
 - Practices (circles, advisory, restorative work)
-

Key Recommendations (Moving Forward)

1. **Strengthen MTSS Further**
 - Improve efficiency of assessment, intervention, and progress monitoring.
 - Develop systems to evaluate MTSS effectiveness.
 2. **Expand Tier 2 & Tier 3 Supports**
 - Especially in **SEBL**.
 3. **Improve Communication & Stakeholder Engagement**
 - Strengthen communication channels.
 - Involve stakeholders more consistently.
 4. **Implement Consistent Perceptual Surveys**
 - Track student, staff, and community feedback over time.
 5. **Celebrate & Share Successes**
 - Internally and externally with the community.
 6. **Shift HAL Goal**
 - Move from implementation → **performance-based outcomes**.
-

Bottom Line

Wakefield is described as a district that has:

- Built a **strong, functioning improvement system**
- Created **alignment across programs and practices**
- Established a **positive culture and shared ownership**

The next phase is about:

- ➔ **Refining systems**
- ➔ **Scaling supports (Tier 2/3)**
- ➔ **Measuring impact more deeply**
- ➔ **Communicating success**
