1. Review of 6000 Series Policies

Jennifer Swantek, Board President

Dan Preister, Board Secretary

The following is a description of the policies in the 6000 series. Many of the policies will apply without modification, but each one should be reviewed carefully to make sure that it conforms to the school district's practices.

Policy 6001. School Organization. This policy defines the school as organized in K-5, 6-8, and 9-12 schools. Adopt or amend this policy to describe how your board has organized your school district.

Policy 6002. School Calendar. This is a standard policy about the school calendar. We believe it is best practice for the administrative team to propose the calendar. Some schools involve the teachers and/or parent organizations in creating the calendar. If that is your practice we will be happy to help you revise this policy, although we believe that is not best practice.

Policy 6003. Instructional Program. This is a standard policy about the instructional program. You must fill in the number of instructional hours in the first paragraph.

Policy 6004. Curriculum Development. This is a standard policy about curriculum development. Please note that this policy expressly places on principals the responsibility to ensure that teachers are teaching the curriculum and likewise places responsibility on the superintendent to hold principals accountable for implementation of the curriculum.

Policy 6005. Academic Credits and Graduation. This policy is the place where the board should insert its standards for academic credits and graduation.

Policy 6006. Commencement Ceremony. This policy contains two options regarding the commencement ceremony. One permits a student who is within a specified number of credits to participate in the ceremony without receiving a diploma. The second permits all seniors to participate in the ceremony.

Policy 6007. Senior Recognition. This policy addresses recognition of academic achievement by graduating seniors. The board should fill in the standards that the district uses.

Policy 6008. Class Rank. This policy addresses class rank. It is not required by state law, but this is always a politically charged issue. We have highlighted areas where the board should exercise its discretion to set standards. This is another area where school districts vary widely in their past practice. Please let us know if you would like our assistance in creating a policy which describes your board's decisions in this area.

Policy 6009. Grade Placement of Transfer Students. This policy sets forth the criteria for determining the grade placement of transfer students, and addresses what credits the district will accept from both accredited and from exempt (home) schools.

Policy 6010. Special Education Identification, Evaluation and Verification. This policy guarantees the district will comply with the rules and protocols of the Nebraska

Department of Education and the United States Department of Education identifying, evaluating, verifying and serving students who may be entitled to rehabilitation or special education services.

Policy 6011. Fire Inspection and Prevention. This policy states that the district will provide regular periods of fire instruction and will observe State Fire Day as required by statute.

Policy 6012. Flag Display and Patriotic Observances. This policy confirms the state statute requiring that the district display the U.S. and state flags. It also implements the requirements of Rule 10 related to the recitation of the pledge of allegiance.

Policy 6013. Controversial Issues. This policy addresses the teaching of controversial issues and sets forth criteria for teachers to follow when teaching or leading discussions.

Policy 6014. School Attendance on Days of Scheduled Activities. This policy requires students to attend regularly scheduled classes on days when they participate in any student activity. Be sure to check with your secondary administrators to determine what their current practice is related to student absences and school activities. If your district has a different practice let us know and we can help you update this policy.

Policy 6015. Summer School. This policy authorizes the school district to conduct a summer school program for students who need remedial help and for enrichment purposes. Your board will need to decide if it will allow a student who retakes a course in the summer to replace a lower grade earned during the regular school year for purposes of class rank. These can become sensitive political issues, so your board should also consult with your secondary administrative team to receive their input on this issue.

Policy 6016. Homebound and Off-Campus Instruction. This policy addresses homebound and other forms of off-campus instruction. Although the majority of students who are served in these settings are students with some sort of disability, there are times when a general education student is not able to attend school for a prolonged period but is not legally disabled. When special education students are placed in a homebound or off-campus setting, the board should be mindful that it is the student's IEP team and not the administration or board of education that determines the details of that placement.

Policy 6017. Homework. Although not legally required, many boards of education would like to have a broad policy statement on the value of homework. Some boards also want to place restrictions on the amount of work assigned by teachers overall or on Wednesday nights. We are aware that with the advent of flipped classrooms and 1:1 programs, the entire concept of homework is in flux. Again, your board should discuss its unique approach to this issue and let us know if you would like our assistance in crafting a policy.

Policy 6018. Grades. This is a standard policy on issuing grades. For special education law purposes, it is important that the board have a standard interval during which the school will communicate grades and academic progress to general education students.

Policy 6019. [Intentionally Left Blank]

Policy 6020. Multicultural Education. This is a standard policy on fostering and developing an appreciation and understanding of the racial, ethnic and cultural heritage of all students. Rule 10 requires that the board receive an annual report on the multicultural education program. This policy places the responsibility for delivering that report on the superintendent.

Policy 6021. District Criteria for Selecting Evaluators to be Used for Special Education. This policy is required by Rule 51 of the Nebraska Department of Education.

Policy 6022. [Intentionally Left Blank]

Policy 6023. [Intentionally Left Blank]

Policy 6024. [Intentionally Left Blank]

Policy 6025. Student Cell Phone and Other Electronic Devices. Although a few schools still prohibit students from having cell phones at any time during the school day, we find that most schools allow cell phones within reason. This policy attempts to capture what we believe most schools do related to this issue. Please review the highlighted paragraph with your principals to make sure it is consistent with their current practice.

Policy 6026. Emergency Dismissal. This policy gives the superintendent or his/her designee the responsibility for determining whether and when to cancel or dismiss extracurricular activities because of inclement weather or emergency conditions.

Policy 6027. Field Trips. This is a standard policy on field trips.

Policy No. 6028. The Extracurricular Activities Program. This is a standard policy about the purposes and governance of extracurricular program. Please note the highlighted sentence which states that the superintendent assigns extracurricular sponsorship. We strongly believe that this is best practice. A few school boards persist in appointing coaches and other activity sponsors at the board level. If that is your practice, you should modify this sentence accordingly.

Policy No. 6029. Activity Trips. This policy governs transportation and conduct on activity trips.

Policy 6030. Public Appearances of School Groups. This policy addresses school groups making public appearances.

Policy 6031. Emergency Exclusion Procedure. This policy governs the procedure for extending an emergency exclusion under the Student Discipline Act.

Policy 6032. Constitution Day Education. This policy meets the statutory requirement for observing Constitution Day on September 17th.

Policy 6033. Seclusion and Restraint. The restraint and seclusion of students has been the subject of national attention and lawsuits. This policy provides definitions, guidelines, procedures, and staff requirements.

Policy 6034. Concussion Awareness. This policy meets the requirements of Nebraska law and outlines each school's obligations for compliance with those requirements for student concussions. It requires training for all coaches, notifications to families, and "return to learn" protocols as adopted by NDE. We have included applicable forms, and if you have forms you use already we would be happy to review them. You should review these requirements in detail even if you make no changes to this policy.

Policy 6035 Athletic Contest Participation by Sixth Graders. Section 004.02C of Rule 10 allows schools to include sixth grades students in interscholastic athletic competitions involving seventh and eighth grade students when (1) combined enrollment for seventh and eighth grade becomes fewer than 12 boys or 12 girls and (2) if the school board or local governing body has a policy regulating participation for sixth graders. This is the recommended policy.

6008 Class Rank

Student class rank shall be determined by using a numeric grade point average derived from all classes graded on a numeric basis. To be included in the class ranking, a student must have received a numeric grade for each core curriculum class in which he/she was enrolled. For the purposes of this policy, core curriculum shall include all courses in the areas of language arts, mathematics, science, and social studies.

Students who transfer into the school district will be eligible to be included in class ranking after two semesters of attendance.

Students who transfer into the school district in middle of their senior year will be eligible to be included in class ranking, although a mid-year transfer will not displace the ranking of a student who has not transferred mid-year. In those circumstances, there will be two students holding the relevant class ranking. Mid-year transfer students will not be eligible to receive senior awards such as valedictorian and salutatorian unless the student has been enrolled in the district's high school for the last two semesters.

Grade Placement and Academic Credits of Transfer Students

Subject to a determination on grade placement based on the criteria set forth below, a student transferring from an accredited school generally will be placed at the grade level that is comparable to the placement in the school from which the student is transferring. Temporary placement may be made until a student's records are received to verify the placement.

Elementary Level Students

The appropriate level of placement for elementary level students may be determined by, but not limited to, consideration of the following information:

- Chronological age
- Previous public school or private school experience
- Diagnostic test data
- Achievement test data
- Criterion-referenced test data

Secondary Level Students

The appropriate level of placement for secondary students may be determined by, but not limited to, consideration of the following information:

- Chronological age
- Previous public school or private school experience and transcript
- Standardized achievement test data
- Criterion-referenced test data
- Final examination test data
- Diagnostic test data

The district will accept credits toward graduation that were awarded by an accredited school district and which, in the professional judgment of the administrative team, are sufficiently rigorous and comparable to the district's offered courses of study. A student transferring into the school district in grades 9-12 will be responsible for meeting all graduation requirement in order to be awarded a diploma from the district.

Students who transfer from an exempt (home) school and/or a non-accredited school may be awarded credits to be counted toward high school graduation requirements at the discretion of the building principal in consultation with the superintendent of schools. The principal will consider all of the factors listed above and will also consider the student's performance on the district's internal benchmark tests.

The district administration, in conjunction with the building principal, will determine the appropriate grade level/credit status of a student transferring from a foreign country.

Students may not have cell phones or electronic devices on while they are in locker rooms, restrooms, or any other area in which others may have a reasonable expectation of privacy.

The taking, disseminating, transferring, or sharing of obscene, pornographic, lewd, or otherwise illegal images or photographs, whether by electronic data transfer or otherwise (including things like texting, sexting, e-mailing, etc.) may constitute a crime under state and/or federal law. (a) If the student has a dangerous communicable disease transmissible through normal school contacts and poses an imminent threat to the health or safety of the school community; or

(b) If the student's conduct presents a clear threat to the physical safety of himself, herself, or others, or is so extremely disruptive as to make temporary removal necessary to preserve the rights of other students to pursue an education.

Any emergency exclusion shall be based upon a clear factual situation warranting it and shall last no longer than is necessary to avoid the dangers that prompted the exclusion.

Extension of Exclusion

In the event it is appropriate to consider the extension of an emergency exclusion (exclusion) of a student for more than five school days. Pursuant to the Student Discipline Act, the principal has the authority to exclude a student from school for five school days on an emergency basis. If the superintendent or superintendent's designee determines that it is appropriate to consider the extension of an exclusion beyond five days, such consideration shall be considered according to the procedures set forth below.

Notification of Student's Parent(s) or Guardian(s). The superintendent or the superintendent's designee shall notify the student's parent(s) or guardian(s) that the principal has proposed the extension of the exclusion. If the initial notice is oral, the superintendent shall confirm it in writing.

Opportunity to Request a Hearing. The student's parent(s) or guardian(s) may submit an oral request for a hearing on the proposed extension of the exclusion within two school days of receiving the initial notice. If the initial request for a hearing is oral, they shall confirm the request in writing.

Failure to Request a Hearing. If the parent(s) or guardian(s) do not request a hearing within two school days of receiving oral or written notice, the proposed extension of the exclusion shall automatically go into effect.

Appointment and Qualifications of a Hearing Examiner. If the parent(s) or guardian(s) request a hearing, the superintendent shall appoint a hearing examiner upon receiving a request for a hearing. The hearing examiner may be any

person who did not bring charges against the student, is not to be a witness at the hearing, and has no involvement in the charge.

Hearing Examiner's Notice to Parent(s) or Guardian(s). The hearing examiner shall promptly give written notice of the time, date and place of the hearing. The hearing will be held within five school days after the school district receives the initial oral or written request; provided, the hearing may be held more than five school days after receipt of the request upon a showing of good cause. No hearing will be held on less than two (2) school days' notice unless otherwise agreed to by the student's parent(s) or guardian(s) and school officials.

Continued Exclusion. If a hearing is requested, the principal may determine in his or her sole discretion that the student shall remain excluded from school until the hearing officer makes a recommendation to the superintendent.

Examination of Student's Records and Affidavits. Prior to the hearing, the student and his/her parent(s) or guardian(s) shall have the right to examine and have school officials explain the student's records and any affidavits that will be used by school officials at the hearing.

Attendance at Hearing. The hearing may be attended by the hearing examiner, the principal (or designee), the student, and the student's parents or guardian(s). The student may be represented at this hearing by a representative of the family's choice.

Student's Witness(es). The student and his/her parent(s) or guardian(s) may ask any person with knowledge of the events leading up to the sanction or with general knowledge of the student's character to testify on behalf of the student. If school personnel or other students are requested to testify by the student's parent(s) or guardian(s), the hearing officer shall endeavor to help obtain the presence of such witnesses at the hearing.

Right to Know Issues and Nature of Testimony. The student and his/her parent(s) or guardian(s) have the right to request in advance of the hearing the issues which the administration will propose in support of the extension, and the general nature of the testimony of any administrative or expert witnesses.

Presence of Student and Witnesses at the Hearing. The student and witnesses may be excluded at the discretion of the hearing examiner in accordance with state statutes. The student may speak in his/her own defense and may be questioned on such testimony, but may choose not to testify.

Sworn or Affirmed Testimony. The principal or his or her designee shall present evidence supporting the recommended extension of the exclusion. Witnesses will give testimony under oath of affirmation, and may be questioned.

Hearing Examiner's Report and Recommendations. The hearing examiner shall prepare a report of his or her findings and recommendations, and forward the report to the superintendent.

Superintendent's Decision. The superintendent will review the hearing examiner's report and determine whether to extend the exclusion. He or she shall have the decision delivered or sent by registered or certified mail to the student, student's parent(s), or guardian(s). If the superintendent decides to extend the exclusion, the extension will take effect immediately.

Restraint and Seclusion of Students

Restraint and seclusion are behavioral interventions, not educational techniques. They are limited to exigent circumstances and situations that necessitate their use to protect the safety of the student, other students, staff and property. When used as safety intervention, they should be used as methods of last resort. When used as behavior intervention, they must be used according to the terms of this policy.

This policy does not cover interventions such as voice control, limited to loud, firm commands; time-limited ignoring of specific behaviors; brief physical prompts to interrupt or prevent a specific behavior; physical interventions which a student's health care provider has indicated are medically necessary for the treatment or protection of the individual; or other similar interventions.

I. Seclusion

A. Definition

1. Seclusion is a last resort emergency safety intervention that provides an opportunity for the student to regain self-control. Seclusion is the confinement of a student in a room or other space from which the student is physically prevented from leaving and which provides for continuous adult observation of the student.
2. A room or area used for seclusion:
 - a. must not be locked;
 - b. must not prevent the student from exiting the area should staff become incapacitated or leave that area;
 - c. must provide for adequate space, lighting, ventilation, viewing, and the safety of the student.

B. Timeout

1. Timeout is a behavior intervention in which a student, for a limited and specified time, is placed in an environment where access to positive reinforcement is unavailable.
2. Timeout should not be confused with seclusion because a student's movement in a timeout setting is not physically restricted.
3. Timeout lies within a continuum of procedures that help students self-regulate and control their behavior.

C. Seclusion is inappropriate for students who are severely self-injurious or suicidal.

D. Time and Duration

1. Emergency seclusion should be used only as long as necessary to allow a student to regain control of his/her behavior, but generally:
 - a) Elementary school students – no longer than 15 minutes;and

- b) Middle and high school students – no longer than 20 minutes.
- c) If an emergency seclusion lasts longer than the suggested maximum time, the staff member should:
 - (1) summon additional support (e.g., change of staff, introducing a nurse or specialist, obtaining additional expertise); and
 - (2) document the need to explain the extension beyond the time limit.

E. Staff Requirements

While using seclusion, staff must:

- 1. involve appropriately-trained key identified personnel to protect the care, welfare, dignity, and safety of the student;
- 2. continually observe the student in seclusion for indications of physical distress and seek medical assistance if there is a concern; and
- 3. document observations.

II. Restraint

There are three types of restraint: physical, chemical, and mechanical.

A. Physical restraint involves direct physical contact that prevents or significantly restricts a student's movement.

- 1. Restraint is a last resort emergency safety intervention. Restraint is an opportunity for the student to regain self-control.
- 2. This policy on physical restraint is not intended to forbid actions undertaken:
 - a. to break up a fight
 - b. to take a weapon away from a student
 - c. to hold a student briefly in order to calm or comfort
 - d. to escort a student physically from one area to another location within the school building
 - e. to assist a student in completing a task/response if the student does not resist or resistance is minimal in intensity or duration.
 - f. to hold a student briefly in order to prevent an impulsive behavior that threatens the student's immediate safety (e.g., running in front of a car).

B. Chemical restraint is the administration of medication for the purpose of restraint.

- 1. The school district will not, under any circumstances, engage in chemical restraint.
- 2. Chemical restraint does not apply to medication prescribed by and administered in accordance with the directions of a physician.

C. Mechanical restraint means the use of any device or material attached to or adjacent to a student's body that restricts normal freedom of movement and which cannot be easily removed by a student.

1. Mechanical restraint does not include:

- a. an adaptive or protective device recommended by a physician or therapist (when it is used as recommended).
- b. safety equipment used by the general student population as intended (for example, seat belts, safety harness on school transportation).

III. Limitations in Use

A. Seclusion and/or restraint shall not be used:

1. for the convenience of staff;
2. as a substitute for an educational program; or
3. as a form of discipline/punishment.

IV. Recurring Behavior

A. If a pattern of behavior emerges, or is anticipated, which may require the use of emergency seclusion, the school personnel must:

1. conduct a functional behavioral assessment;
2. call a meeting of the student's IEP team to develop or revise a positive behavior intervention plan to facilitate the reduction or elimination of the use of seclusion and/or restraint

B. Given the limited size and training of the school district's staff, students whose behavior routinely requires seclusion and restraint may not be able to be served in the school district and may require a placement out of the school district.

V. Prohibited Practices

A. The following are prohibited under all circumstances, including emergency situations:

1. corporal punishment;
2. the deprivation of basic needs;
3. anything that constitutes child abuse;
4. the seclusion of preschool children; and
5. the intentional application of any noxious substance(s) or stimuli which result in physical pain or extreme discomfort

Concussion Awareness

The Nebraska Unicameral has found that concussions are one of the “most commonly reported injuries in children and adolescents who participate in sports and recreational activities and that the risk of catastrophic injury or death is significant when a concussion or brain injury is not properly evaluated and managed.”

The School District will:

- a. Require all coaches and trainers to complete one of the following on-line courses on how to recognize the symptoms of a concussion or brain injury and how to seek proper medical treatment for a concussion or brain injury:
 - Heads UP Concussions in Youth Sports
 - Concussion in Sports—What You Need to Know
 - Sports Safety International
 - ConcussionWise
 - ACTIVE™ Athletic Concussion Training for Coaches; and
- b. On an annual basis provide concussion and brain injury information to students and their parents or guardians prior to such students initiating practice or competition. This information will include:
 - 1 The signs and symptoms of a concussion;
 - 2 The risks posed by sustaining a concussion; and
 - 3 The actions a student should take in response to sustaining a concussion, including the notification of his or her coaches.

A student who participates on a school athletic team must be removed from a practice or game when he/she is reasonably suspected of having sustained a concussion or brain injury in such practice or game after observation by a coach or a licensed health care professional who is professionally affiliated with or contracted by the school. The student will not be permitted to participate in any school supervised team athletic activities involving physical exertion, including practices or games, until the student:

- a. has been evaluated by a licensed health care professional;
- b. has received written and signed clearance to resume participation in athletic activities from the licensed health care professional; and
- c. has submitted the written and signed clearance to resume participation in athletic activities to the school accompanied by written permission to resume participation from the student’s parent or guardian.

If a student is reasonably suspected after observation of having sustained a concussion or brain injury and is removed from an athletic activity, the parent or guardian of the student will be notified by the school of:

- a. the date and approximate time of the injury suffered by the student,
- b. the signs and symptoms of a concussion or brain injury that were observed, and
- c. any actions taken to treat the student.

The school district will not provide for the presence of a licensed health care professional at any practice or game.

School officials shall deem the signature of an individual who represents that he/she is a licensed health care professional on a written clearance to resume participation that is provided to the school to be conclusive and reliable evidence that the individual who signed the clearance is a licensed health care professional. The school will not take any additional or independent steps to verify the individual's qualifications.

Students who have sustained a concussion and returned to school may need informal or formal accommodations, modifications of curriculum, and monitoring by medical or academic staff until the student is fully recovered. The school's "return to learn protocol" shall be the guidance provided by the Nebraska Department of Education entitled "Bridging the Gap from Concussion to the Classroom," and accompanying materials and future supplements. Nothing in this policy or the referenced protocol shall entitle a student who has sustained a concussion to an individualized plan under Section 504 of the Rehabilitation Act, although staff will refer students who have sustained a concussion for evaluation under Section 504 as appropriate.

Athletic Contest Participation by Sixth Graders

If there are fewer than 12 boys or 12 girls in the combined enrollment of the seventh and eighth grades when those grades are part of the elementary school system, sixth grade students may participate in athletic contests between schools, within a school system, or between school systems if the school administration judges that it is appropriate after taking into consideration the competition's nature and value to the students, its physical requirements and dangers, and the sixth grade students' ages, physical and mental abilities, maturity, skills, and preparation for the competition. Otherwise, pupils in kindergarten through the sixth grade may not participate in any kinds of athletic contests between schools, within a school system, or between school systems except as provided in this policy or as otherwise allowed by law. This prohibition does not apply to annual field or play days.
