Ryan I looked your quotes over and will go to the board on February 12th they look good.

On Thu, Jan 25, 2018 at 4:24 PM, Ryan Schurmann <schurmann@charter.net> wrote:

Greg,

I'm not even going to propose the soft starts, they are going to be \$3800 each...just for the soft start. That's not installation or anything. There probably are way cheaper soft starts out there, but I won't buy anything that I don't have factory support.

I personally think the VFDs would be a better choice. This would allow you to immediately take pressure readings at your farther heat pump (under load) then, slow the pumps down to save energy. Even if its on 3-5Hz its saving \$. Also this sets the stage for adding a differential pressure transducer to the loop, closing the 3-way bypass valves and running the VFDS based off of loop differential pressure.

Thanks again
