	Wayne	Designate Juneteenth National Independence Day as a State holiday

LB 29 establishes Juneteenth National Independence Day as a State holiday to be celebrated on June 19th in accordance to law that established Juneteenth as a federal holiday.

The measure was passed with the emergency “E” clause so that it could be celebrated for the first time in 2022.

Note: LB 707 (2022) provides that Juneteenth in Nebraska is an official bank holiday.

LB 29

Committee: Government

Priority: Speaker

Passed: 4/12/22; 48-0 with E Clause

Signed into Law: 4/18/22

Effective Date: 4/19/22

LB 376	<i>Sponsor</i>	<i>Topic</i>
	Cavanaugh, M.	Require application for and implementation of federal approval for services and supports for children with developmental disabilities and their families and require evaluations and reports

LB 376 proposes that DHHS apply for a waiver to administer a home and community-based services family support program for children with developmental disabilities who are currently on the DHHS Developmental Disability waiting list. The measure also adds intent language that such funds that were distributed to Nebraska pursuant to the American Rescue Plan Act of 2021 be used to partially fund the family support program.

LB 376

Committee: Health

Priority: Health Committee

Passed: 4/13/22; 42-0

Signed into Law: 4/19/22

Effective Date: 7/21/22

The bill requires DHHS to engage a nationally recognized consultant to provide an independent evaluation of the state’s developmental disabilities system in order to examine how the state can better serve Nebraskans with developmental disabilities. DHHS has provided an estimate of the evaluation to be \$500,000. The consultant is to deliver the report detailing the findings and recommendations to the Governor, DHHS, and the chairperson of the Health Committee by December 31, 2023. The funding for the consultant would be appropriated from the Home and Community Based Services section (9817) of the American Rescue Plan in FY 2022-23.

The proposed waiver program would provide waiver services to 850 children, including 400 children who are not currently eligible for Medicaid that are currently on the Developmental Disability waiting list. The program would offer an annual capped budget of \$10,000 per participant for long-term services and supports for 850 children. In FY 2023-24, the total cost is \$8,500,000.

LB 567	<i>Sponsor</i>	<i>Topic</i>
	Business and Labor Com.	Change provisions relating to weekly benefit payments and the maximum annual amount of benefits under the Employment Security Law

LB 567 was introduced by the Chair of the Business and Labor Committee at the request of the Department of Labor. The bill requires the Department of Labor to only look at an applicant's most recent separation from employment when determining maximum unemployment benefits and reductions. LB 567 would make permanent the relevant provisions of Executive Order 20-26, which streamlined the application process in response to the COVID-19 pandemic.

LB 567 <i>Committee:</i> Business and Labor <i>Priority:</i> None <i>Passed:</i> 3/8/22; 42-0 <i>Signed into Law:</i> 3/14/22 <i>Effective Date:</i> 7/21/22

The bill also provides that, to the extent authorized under federal law, if an individual is eligible for an equal or greater weekly benefit amount under a federal unemployment program than the weekly benefit amount which the individual is eligible for under the Employment Security Law, the Commissioner of Labor must suspend the payment of state unemployment benefits to such individual while the individual is receiving the federal unemployment benefit. The suspension would terminate upon the individual's exhaustion of benefits available under the federal unemployment program. An individual would not be eligible to receive the federal weekly benefit and the state unemployment weekly benefit during the same week. This would not apply to any federal unemployment benefit that is paid in addition to the state weekly benefit amount.

LB 685	<i>Sponsor</i>	<i>Topic</i>
	Executive Board	Eliminate obsolete provisions appropriating funds to the State Department of Education for FY2017-18 and FY2018-19

LB 685 was the sole “Revisor bill” for the 2022 Session. Revisor bills are technical correction bills prepared by the Revisor of Statutes. Pursuant to the Rules of the Legislature, Rule 5, Section 3, these bills are introduced by the Chairperson of the Executive Board and referred directly to General File. LB 685 repeals Section 90-561, which refers to prior appropriations for FY2017-18 and FY2018-19 relating to the State Department of Education.

LB 685 <i>Committee:</i> Executive Board <i>Priority:</i> None <i>Passed:</i> 2/25/22; 44-0 <i>Signed into Law:</i> 3/3/22 <i>Effective Date:</i> 7/21/22

LB 700	<i>Sponsor</i>	<i>Topic</i>
	Kolterman	Change provisions relating to public retirement systems

LB 700 incorporates the original provisions of the bill along with provisions from LB 1043.

The measure strikes a number of obsolete provisions, inserts language that was inadvertently omitted in a previous bill, amends the Nebraska Public Employees Retirement Systems (NPERS) director qualifications and requirements for the NPERS and Public Employees Retirement Board (PERB) attorney, and broadens the retirement education and training opportunities provided by NPERS to plan members.

LB 700

Committee: Retirement

Priority: Retirement Com.

Passed: 2/25/22; 45-0 with E Clause

Signed into Law: 3/3/22

Effective Date: 3/4/22

Pre-retirement Seminars

LB 700 amends Section 84-1511 relating to pre-retirement seminars. The bill clarifies that “leave with pay” means time off paid by the employer and does not mean vacation, sick, personal, or compensatory time.

The bill expands the definition of pre-retirement seminar or “session” as an in-person training or live-broadcast webinar but does not include information that can be accessed at any time via electronic means.

Formerly, the pre-retirement planning program was available to all employees who have attained the age of 50 years or were within five years of qualifying for retirement or early retirement under their retirement systems (i.e., School Plan, Judges, State Patrol, State Employees, County Officials). LB 700 provides that the “sessions” are available to any member who has satisfied the vesting requirements under the retirement system in which the member participates.

Beginning September 1, 2024, the PERB must also provide the sessions to school employees who are members of the Class V (OPS) School Employees Retirement Act.

Provisions from LB 1043

Clarifies rules governing retirement plan eligibility and termination of employment to ensure compliance with the federal tax code and the efficient operation of the retirement systems. The federal tax code requires that an individual terminate employment with all employers covered by a multiple employer retirement plan before an individual can take a distribution from the retirement plan. The School Employees Retirement Plan (School Plan) is a multiple employer retirement plan.

The State of Nebraska is an employer covered by the School Plan because section 79-920 authorizes state school officials employed by the NDE to participate in the School Plan. In addition, certificated teachers covered by the State Code Agency Teacher Association (SCATA) contract employed by DHHS or the Department of Correctional Services (DCS) participate in the School Plan. All other State of Nebraska employees participate in either the State Employees Retirement Plan (State Plan), the Judges Retirement Plan, or the Nebraska State Patrol Retirement Plan.

LB 700 codifies the current retirement practices and rules for certificated teachers covered by the SCATA contract who are employed by either DHHS or DCS and for state school officials employed by NDE. In addition, it addresses retirement rules for NDE “state school officials” as well as DHHS and DCS certificated teachers covered by the SCATA contract who previously or subsequently are employed by a school district, ESU, or any other state agency.

LB 700 makes one change from current policy and practice. Under circumstances specified in the current section 79-920, a state school official employed by NDE may elect whether to remain in, or become a member of the School Plan or the State Plan. LB 700 eliminates this election option and establishes specific rules for state school officials regarding School Plan and State Plan membership eligibility.

LB 780 includes the original provisions of the bill relating to child labor and employment certificates along with the provisions of LB 974 (Wayne) relating to Employment Security Law.

Child Labor and Employment Certificates

Current provisions of law (§ 48-302) provide that no child under 16 years of age may be employed or permitted or suffered to work in any employment unless the person or corporation employing the child procures and keeps on file an employment certificate and keeps two complete lists of all children employed in the building.

Current law (§ 48-303) also provides that an employment certificate may be approved only by the superintendent of the school district in which the child resides or by a person authorized by him/her in writing or, when there is no superintendent, then by a person authorized by the school district officers.

LB 780 permits approval only by the principal of the school the child attends or by a person authorized by him/her in writing or, when there is no principal, then by a person authorized by the chief administrative officer of the school or the superintendent of the school district in which the child resides.

Brewer Change provisions relating to publication and rates for legal notices

LB 840 adjusts the publishing of, and costs associated with, legal notices in newspapers. The bill increases the maximum prices newspapers are allowed to charge for providing legal advertising space. The current amount in statute has not been adjusted since 1996.

Beginning October 1, 2022, the legal rates for publication will change and all legal publications and notices of any kind or character that may by law be required to be published for a certain number of days or a certain number of weeks will also be posted by the publishing newspaper on a statewide website established and maintained as storage for such notices by a majority of Nebraska newspapers.

LB 840 clarifies that a website posting, or a failure to make the website posting does not affect the legal validity of the publication of the notice as required.

Brewer Change provisions relating to elections

LB 843 was characterized as an annual omnibus election law cleanup and update measure. However, the bill actually includes a wide variety of very substantive provisions as it relates to the state-by-state trend and effort to ensure a proper electoral process.

The following provisions of LB 843 relate specifically to political subdivisions, including school districts and ESUs.

Cancellation of Special Elections

LB 843 provides that a political subdivision that has submitted an issue for a special election may cancel the special election IF the Secretary of State, election commissioner, or county clerk receives a resolution adopted by the political subdivision canceling the special election on or before the fourth Thursday prior to the election. (No cancellation would be effective after such date.) If a special election is canceled, the political subdivision would be responsible for the costs incurred that are related to the canceled election.

Election Training

LB 843 provides that a political subdivision, which receives federal or state funds and owns or leases a building that is suitable for a polling place in the county must make the building available to the election commissioner or county clerk for use as a polling place OR for election training purposes. The political subdivision may not charge for the use of the building as a polling place or for election training purposes.

Recall Elections

LB 843 provides that if the governing board of a political subdivision fails or refuses to call for a recall election by the date established under section 32-1306, the county attorney in the county in which the board is located must file an action in the district court to order the recall election. For offices filled by election in more than one county, the county attorney in the county with the most registered voters residing within the political subdivision must file the action in the district court to order the recall election.

Note: Section 32-1306(2) provides that the governing body of the political subdivision shall, within twenty-one days after receipt of the notification from the filing clerk pursuant to subsection (1) of this section, order an election. The date of the election shall be the first available date that complies with section 32-405 and that can be certified to the election commissioner or county clerk at least fifty days prior to the election, except that if any other election is to be held in that political subdivision within ninety days after such notification, the governing body of the political subdivision shall provide for the holding of the recall election on the same day.

The bill provides that any member of a governing body of a political subdivision upon whom a duty is imposed under section 32-1306(2) who fails or refuses to perform the duty is guilty of a Class I misdemeanor.

Designated Points of Contact

LB 852 provides that, beginning August 1, 2023, each school district must designate one or more behavioral health points of contact for each school building or other division as determined by the school district. A behavioral health point of contact may be an administrator, a school nurse, a school psychologist, or another designated person affiliated with such school building or other division. Each behavioral health point of contact must have knowledge of community behavioral health service providers and other resources available for students and families.

Beginning with school year 2023-24, and each school year thereafter, each school district must report the designated behavioral health points of contact to NDE.

Registry of Resources

Beginning August 1, 2023, and each August 19th thereafter, NDE in consultation with the Division of Behavioral Health of DHHS must provide each school district with a registry of state and local behavioral health resources available to work with students and families by geographic area. The registry must be updated at least annually and include resources for both school-based services and services accessible by students' families outside of school.

Coordination of Access

Each behavioral health point of contact is required to coordinate access to community behavioral health services for students and families and facilitate access to services during the school day at the school the student attends. Except for students who have reached the age of majority, the facilitation must be approved by the student's parent or guardian.

Mental Health First Aid Training Program

LB 852 incorporates the provisions of LB 912 (Morfeld) to require NDE to establish a mental health first aid training program for teachers and other personnel employed by a school district or an ESU participating in a grant derived from lottery proceeds.

The training is to be delivered by trainers who are properly certified by a designated national organization for behavioral health to provide training. The program must also provide an opportunity for teachers and other designated personnel to complete the training necessary to become certified to provide mental health first aid training to other teachers and designated personnel.

Mental health first aid training must include training on:

- (a) The skills, resources, and knowledge necessary to assist students in crisis to connect with appropriate local mental health care services;
- (b) Mental health resources, including the location of local community mental health centers; and
- (c) Action plans and protocols for referral to such resources.

A recipient of mental health first aid training must also receive instruction in preparation to:

- (a) Safely de-escalate crisis situations;
- (b) Recognize the signs and symptoms of mental illness, including such psychiatric conditions as major clinical depression and anxiety disorders; and
- (c) Timely refer a student to mental health services in the early stages of the development of a mental disorder to avoid subsequent behavioral health care and to enhance the effectiveness of mental health services. Except for students who have reached the age of majority, any referral must be approved by the student's parent or guardian.

Innovation Grant Programs

Beginning July 1, 2024, the State Board of Education is required to have in place innovation grant programs in areas, including (i) mental health first aid, (ii) early literacy, (iii) quality instructional materials, (iv) personalized learning through digital education, or (v) other innovation areas identified by the board. LB 852 provides intent language that the grant programs would be funded using lottery funds.

Grantees would be a school district, an ESU, or a combination of entities that includes at least one school district or ESU.

Based on evaluations received by July 1st of each year for each grant program, the State Board of Education must recommend the grant program as:

- (a) Representing a best practice;
- (b) A model for a state-supported program; or
- (c) A local issue for further study.

LB 873 amends provisions of the Nebraska Property Tax Incentive Act to change the calculation of total credits available under the act for taxes paid to school districts. Under LB 873, subsection 2(e) would be struck, eliminating the original language related to tax year 2024, which set the total amount of credits to \$375,000,000, and the amount is set as follows:

- For tax year 2022: \$548,000,000
- For tax year 2023: \$560,700,000
- For tax year 2024 and thereafter: Prior year plus allowable growth

The bill also creates a new type of income tax credit under the Nebraska Property Tax Incentive Act, which is a refundable income tax credit for community college property taxes paid. Community college taxes exclude taxes for bonded indebtedness or taxes as for an override of a levy limit approved by voters. 	Morfeld	Change reporting requirements under the Nebraska Statewide Workforce and Education Reporting System Act

The Nebraska Statewide Workforce and Education Reporting System collaboration has its roots in LB 1071 (2010), which directed the Board of Regents of the University of Nebraska, the State Board of Education, the Board of Trustees of the Nebraska State Colleges, and the Community College Board of Governors for each community college area to adopt a policy to share student data. In 2019, the partners completed the legal formation of the Nebraska Statewide Workforce and Education Reporting System as a joint public entity under the Interlocal Cooperation Act in order to cooperate for mutual advantage with regard to data initiatives.

LB 1130

Committee: Education

Priority: Speaker

Passed: 4/13/22; 37-2

Signed into Law: 4/19/22

Effective Date: 7/21/22

The Reporting System allows Nebraska to:

- (1) Provide workforce outcomes data to postsecondary institutions to guide program, educator, and institutional improvement;
- (2) Support students and parents in understanding what education, training, and career pathways best prepare students for occupational success;
- (3) Provide comprehensive data about student success and workforce outcomes to policymakers to inform decisions and resource allocation;
- (4) Track workforce outcomes in order to better align programs with demands in the labor market;
- (5) Disaggregate student outcomes by race, ethnicity, gender, and economic status in order to identify and close educational attainment gaps; and
- (6) Identify the long-term return on investment from early education programs.

LB 1130 requires the Nebraska Statewide Workforce and Education Reporting System to issue a report electronically to the Clerk of the Legislature and the Governor by December 1, 2022 and each December 1st thereafter. The report must provide an overview of research and analysis conducted, additional data needs for future analysis, and organizational structure and needs.

The bill was introduced because a recently completed proof-of-concept data project from Nebraska's public education and workforce agencies showed that 31% of Nebraska students could not be traced into the Nebraska workforce based on current available data. LB 1130 would allow expanded data collection in order to remedy this situation.

 Sanders Change provisions of the Nebraska Budget Act

LB 1165 provides school districts the ability to start collecting a tax levy for bond principal and interest once it has been approved by the voters instead of waiting until the bonds have been issued. This change provides the school district with the resources needed to make their first bond payment(s), instead of waiting for the bond details to be finalized before tax is collected, which in turn could cause a school district to have to borrow funds to make the first payments. School districts may be able to reduce interest and lending costs by being able to tax immediately.

Perhaps as important as any substantive provision of the bill, LB 1218 officially declares that there is an educator workforce shortage in this state and that efforts need to be made to recruit, prepare, retain, and support the teaching profession while maintaining high-quality educators in our classrooms around the state.

Passed: 4/13/22; 46-0

The bill further finds that the pool of qualified individuals for the teaching profession has been reduced statewide, in part, due to requirements in place for applicants to prove proficiency in basic skills competency by passing a prescribed examination in reading, writing, and mathematics before being accepted into a teacher education program.

Yet the provisions originally proposed to change the basic skills competency were removed on Select File through an amendment offered by Senator Erdman.

The bill inches closer to change in the certification process, but only modest changes were accepted by the full Legislature.

Loan Forgiveness

LB 1218 creates the Teach in Nebraska Today Program, to be administered by NDE. The purpose of the program is to attract individuals to the teaching profession who have expressed an interest in teaching and to support the employment of those individuals as classroom teachers by providing student loan repayment assistance for service as a classroom teacher in this state.

Student loan repayment assistance under the program would be available to an individual who applies for the assistance and who:

- (a) Is a resident of the State of Nebraska; and
- (b) Is teaching full-time or has a contract to teach full-time at the time of application for the program.

The amount of repayment assistance awarded to an eligible applicant would be limited to \$5,000 per year. An eligible applicant may be awarded repayment assistance for up to five years. The five years of awards are not required to be consecutive but may not extend beyond eight years in total.

If the funds available for repayment assistance in any year are insufficient to provide assistance to all eligible applicants, NDE must establish priorities for awarding repayment assistance with renewal applications given priority over initial applications. For initial applications, priority must be given to applicants who demonstrate financial need.

An eligible applicant may receive repayment assistance under the program for the repayment of a student loan received through any lender which was incurred in the applicant's own name for his/her own educational expenses at any accredited public or private nonprofit college or university in this state or any other state. If the loan is not a state or federal guaranteed student loan, the note or other writing governing the terms of the loan must require the loan proceeds to be used for

expenses incurred by the applicant to attend an accredited public or private nonprofit college or university in this state or any other state.

Applications for student loan repayment assistance must be submitted no later than June 10, 2023, and no later than June 10th of each year thereafter, on a form developed by NDE. The department must determine whether to approve or deny each application and must notify each applicant of the determination no later than September 10, 2023, and no later than September 10th each year thereafter.

Student loan repayment assistance awarded under the program may be applied to the principal amount of the loan and to interest that accrues. The repayment assistance must be paid in one of the following three ways as directed by the applicant on his/her application:

- (a) Directly to the lender or loan servicer that holds the outstanding balance of the student loan in one lump-sum payment;
- (b) Directly to the lender or loan servicer that holds the outstanding balance of the student loan in monthly payments. The monthly payments must be made: (i) In twelve equal payments; or (ii) If requested by the applicant, in smaller amounts over a longer period of time, not to exceed 24 months. In such case, payments must be equal for the first 12 months or until such time as the applicant's payment amount is recalculated by the lender or loan servicer and then, if adjusted, must be equal for the next 12-month period. Any unpaid funds at the end of 24 months may be requested to be paid in a lump-sum payment to the lender or loan servicer or must be considered forfeited by the applicant. Applicants who are awarded repayment assistance in more than one year may have their awards divided across no more than 120 monthly payments under the program; or
- (c) Directly to the applicant for the purpose of making the applicant's student loan payments. This option would be available if the applicant is not in default on any student loan at the time of application. Any individual receiving repayment assistance under this option must provide documentation that the full award was used for student loan payments when (i) applying for repayment assistance under the program in subsequent years and (ii) claiming an adjustment to federal adjusted gross income. Such documentation must be provided using a form prescribed by NDE.

The total amount of student loan repayment assistance awarded under the program may not exceed \$5 million dollars in any fiscal year. LB 1218A provides for an annual appropriation of \$5 million.

For purposes of the program, LB 1218 defines “teaching full-time” to mean (a) teaching an average of at least four hours per contract day performing instructional duties as a full-time employee of an approved or accredited public, private, denominational, or parochial school in this state or (b) teaching an average of at least four hours per contract day performing dual-credit instructional duties for students of approved or accredited public, private, denominational, or parochial schools in this state while employed full-time at an accredited public or private nonprofit college or university in this state.

LB 1218 amends relevant tax law, related to income tax adjustments, so that recipients of student loan repayment assistance under the program will have their federal adjusted gross income reduced by the amount received to the extent that such amount is included in federal adjusted gross income.

Approval of Teacher Education Programs

Under the present duties of the State Board of Education, section 79-318 requires the board to approve teacher education programs conducted in Nebraska postsecondary educational institutions designed for the purpose of certificating teachers and administrators. LB 1218 amends this provision to clarify that the board's authority to approve teacher education programs in Nebraska does not allow such approval to require a statewide examination as an entrance requirement related to basic skills competency.

Basic Skills Competency

One of the most significant changes proposed in LB 1218, as introduced, was a modification to basic skills competency. However, as passed, basic skills competency was left as it currently exists in statute, which is either (a) proficiency in (i) the written use of the English language, (ii) reading, comprehending, and interpreting professional writing and other written materials, and (iii) working with fundamental mathematical computations as demonstrated by successful completion of an examination designated by the board or (b) successful employment experiences.

Certification Fees

LB 1218 changes the fee structure for teacher certificates from being explicitly set in statute to being set by the Commissioner with a not to exceed amount. These amounts were increased by an inflationary factor based on the last time they were increased. This statutory change allows the Commissioner to increase, decrease or waive the fees as deemed appropriate.

- Issuance of a certificate or permit, not to exceed \$75;
- Additional Endorsements, not to exceed \$55.

Reciprocity

The bill provides that if an applicant possesses a similar certification or permit in another state, the applicant's eligibility for a certificate or permit in this state may be demonstrated by experience as an educator in the other state that shows the academic and professional preparation of the applicant.

LB 1218 requires the State Board to authorize the issuance of a certificate or permit to any applicant who is a military spouse or has been offered employment to teach, administer, or provide special services by an accredited school district in Nebraska or an approved and accredited private, denominational, or parochial school in Nebraska, and meets other basic requirements.

Student Teachers

LB 1218 offers an additional \$1,000 of student loan forgiveness to participants in the Attracting Excellence to Teaching Program after the successful completion of their student teaching. This program was created in 2000 and represents the first loan forgiveness program for teachers.

The purpose of this resolution is to propose an interim study to determine what percentage should be used to forecast revenue when preparing fiscal notes and determine if state agencies or political subdivisions should use the same percentage when preparing their estimates on the fiscal impact of a specific bill. The purpose of this resolution is to propose an interim study to examine the committee hearing procedures of the Legislature and explore changes that would improve access to participation from the public. One of the advantages of a unicameral form of government is better transparency, accountability, and access to the legislative process for members of the public. To realize these benefits, the Legislature should ensure committee procedures maximize opportunities for public input, especially during the committee hearing process where the goal is to allow for participation from the "second house".

The COVID-19 public health emergency led to changes in how the Legislature collects and records public comments on legislative bills, including implementation of an online public comment portal and the practice of accepting written testimony. It also allowed many to become more familiar with technology that facilitates virtual communication. These circumstances necessitate an examination of committee procedures and practices and potential improvements.

The issues addressed by this interim study shall include, but not be limited to:

- (1) An examination of current and past committee hearing procedures, including procedures on taking and recording testimony and written comments;
- (2) An overview of the public comment portal implemented in 2020 and its effectiveness;

- (3) A review of methods used in other states and other Nebraska government bodies for input from the public on policy issues; and
- (4) Potential improvements in committee hearing procedures that increase public participation and input from all Nebraskans, especially those often left out of the policy process.

The purpose of this resolution is to propose an interim study to determine whether reports of the resistance of public agencies to fulfill public record requests are representative of a broad statewide issue or represent isolated incidents. If these incidents are commonplace, the study should determine what reforms could be enacted to ensure that public record requests are being properly met and that Nebraskans have prompt, unfettered, and robust access to open government.

Sections 84-712 to 84-712.09 are intended to guarantee that the public has access to public records of government bodies at all levels of government. However, even though the purpose and scope of sections 84-712 to 84-712.09 are for broad disclosure and accessibility, some categories of records are exempt from disclosure. Section 84-712.05 provides twenty-three separate categories of records that may be withheld from the public so long as such records have not been publicly disclosed in open court, an open administrative proceeding, or an open meeting or disclosed by a public entity pursuant to its duty. There are additional statutory exceptions which provide that governmental records can be withheld from public inspection.

News media members, advocacy groups, and other members of the public have reported that public records requests are regularly and routinely resisted by governmental bodies. Such reports indicate that resistance takes the form of prolonged delays in responding to requests, demands of excessive prepayment amounts for the costs of retrieving such records, tenuous claims of exemptions allowing for the public agency to withhold records, or other justifications.

The purpose of this resolution is to propose an interim study to survey and examine at least three of the current certified community behavioral health clinics established through the federal Substance Abuse and Mental Health Services Administration's demonstration program in order to provide additional information on the impact of the implementation of such clinics on the current mental health and substance use treatment system in Nebraska. Such clinics have been established in 42 states across the country to expand access to care and improve coordination with law enforcement, the legal system, and schools.

The study shall include, but not be limited to, an examination of:

- (1) The need for accessible care in each area served by the current clinics and how implementation of the new model has impacted that need and waitlists for services;
- (2) The impact of clinics on individuals with co-occurring mental health conditions;

- (3) The effect of increased access to initial services;
- (4) The effect of efficient and timely transitioning between levels of care such as the transition from residential facilities to community-based care management and support;
- (5) The effect of reductions in high emergency department utilizers with at least one psychiatric condition;
- (6) How partnerships with other agencies and resources supports reduction in law enforcement interactions and avoids need for hospitalization;
- (7) How implementation of the clinic model in the state medical assistance program system would increase Nebraska's behavioral health workforce and provide detailed data on impact to the system; and
- (8) Best practices and essential elements in choosing a type of prospective payment system.

The purpose of this resolution is to propose an interim study to examine fentanyl distribution in Nebraska. Pharmaceutical fentanyl is a synthetic opioid that is used to treat pain and has fifty to one hundred times the potency of morphine. However, in recent years the use of fentanyl that was illegally made and distributed has shown harmful consequences. When mixed with other drugs, whether or not the user knows about the combination product, fentanyl can cause overdose and death. Studying fentanyl distribution in Nebraska and assessing the current response will identify life-saving actionable steps the Legislature can take to address the opioid crisis and protect Nebraskans.

This study shall include, but not be limited to, an examination of the following:

- (1) Data collection and information gathering regarding:
 - (a) Fentanyl manufacturing and distribution in Nebraska and surrounding states;
 - (b) The classification of drug-induced homicide and drug delivery resulting in death charges in Nebraska as compared to other states;
 - (c) Punitive or restorative responses to drug-induced homicide and drug delivery resulting in death charges; and
 - (d) Potential expansion of prevention, intervention, and response activities; and

- (2) Possible solutions pertaining to fentanyl distribution in the state and collaboration with the appropriate community partners about these solutions.

Mr. Bryce Jorgenson
Superintendent
Southern Valley Schools
43739 HWY 89
Oxford, NE 68967

Mr. Jorgenson,

Please accept this letter as a notice of my resignation from my position as the elementary physical education teacher. I have received an offer to teach PE at Buffett Magnet Middle School in Omaha. Although I have thoroughly enjoyed my time at Southern Valley, I believe it is in my best interest as a person and teacher to expand my horizons and explore new opportunities. I would like to thank you and all the staff members for being so kind and helpful during my first year of teaching. I wish you all the best and please don't hesitate to keep in touch with me!

Sincerely,

Madi Gilg

ENVIRONMENTAL CONDITIONS

This product cures by water evaporation only. Product must not be applied when the ambient temperature is below 50°F or if there is any possibility it could fall below 32°F within 24 hours of application. Application is not recommended if rain or dew is likely to occur before product dries. In high humidity conditions late afternoon applications should be avoided as overnight dew formation on uncured surface can cause coating wash-off. On marginal days, multiple applications of thin coats can ensure proper drying before rain or overnight freezes.

LIMITATIONS

Surface must be clean and dry
Do not apply when air or surface temperature is below 50°F or above 110°F. Surface temperature must be at least 5°F above the dew point. For optimum application properties, bring material to 60-80°F (16-27°C). Do not apply when inclement weather is imminent. Complete cure of Evercoat CS requires complete evaporation of water. Cool temperatures and high humidity retard cure.

Service temperatures must not exceed 180 degrees F.
