6.a. Ava Reed - Student Representative for Student Senate

Scottsbluff High School senior Ava Reed provided an update to the Board of Education. Ava stated this past year has been outstanding and filled with many accomplishments, celebrations, and memorable moments for the SHS students and staff. Ava stated the senior students recently celebrated their final day at Scottsbluff High School. Ava extended her appreciation to Webbs for continuing their tradition of providing donuts for the senior class. Ava also thanked the senior class for their leadership, involvement, and contributions throughout the school year. Ava noted that SHS celebrated Teacher Appreciation Week last week, with staff members enjoying a "Back to the 90s" theme throughout the week, with daily activities and celebrations recognizing the dedication and hard work of the teachers and staff. Ava thanked the many local businesses that generously provided food, treats, and support to help make the week special for the SHS educators. This week, many of the SHS athletic teams will be competing in district competitions, with several state events taking place next week. In addition, multiple CTSO organizations have concluded successful seasons, and student groups are wrapping up the year with banquets, concerts, and other end-of-year celebrations. Ava expressed her sincere gratitude to the SHS teachers, paraprofessionals, secretaries, custodial staff, Sodexo employees, administrators, and all educational stakeholders who have contributed to the success of the 2025-2026 school year. Ava noted the dedication and commitment of these staff members to the SHS students did not go unnoticed. Ava extended a special thank you to Mr. Huck, Mrs. Wallace, and Mrs. Becker for their years of service and dedication to SHS and wished them all the best in their retirement. Finally, Ava thanked the Board of Education for their continued support and leadership, noting the 2025-2026 school year has been an incredible one, and much of that success is a reflection of the Board's commitment to the SHS students, staff, and school community.

Dr. Andrew Dick recognized Ava Reed for providing updates to the Board of Education for three years as the Student Senate Representative. Dr. Dick stated that during the 18 years he has been attending Board meetings, he cannot recall a time when a Student Senate Representative provided updates to the Board for more than one year, and Ava has done so for three years. He noted that Ava attended meetings many times immediately after a challenging sports practice, often still in her practice jersey, demonstrating her dedication and commitment to her Student Senate obligations. He stated that each update was very well spoken, informative, and always expressed gratitude and thankfulness for the experiences students have had and for the staff's work with students. Dr. Dick thanked Ava for being an outstanding advocate and representative of Scottsbluff Public Schools, stating her work is deeply appreciated, and he wished her the best at Concordia next year.

Dr. Andrew Dick recognized SHS Vocal Teacher Brad Ronne, along with all the staff members and students involved in the high school musical production. Dr. Dick stated it was, once again, an outstanding production, noting the quality of the production that the students and staff are able to pull together is always amazing. He congratulated all those involved with the musical.

Dr. Dick acknowledged Matt Huck's retirement and thanked Mr. Huck for his 35 years of dedicated service to Scottsbluff Public Schools, with 21 of those years as an Assistant Principal. Dr. Dick stated that Mr. Huck had been a tremendous mentor to him during his early years as an administrator, particularly in helping him navigate student discipline issues. Dr. Dick thanked Mr. Huck again for the years he served students and their families.

Dr. Dick noted the last item on his report is an update on Strategic Priority #1, "Recruit and Retain." Dr. Dick stated this is a point of pride and that, as of April 13, the District is fully staffed for teachers for the 2026-2027 school year, which is quite impressive for a school district the size of SBPS. Dr. Dick noted he is most proud of how this was accomplished, including some of the initiatives the District has implemented. These include the student teacher stipend, the Para

to Teacher program, the Grow Your Own apprenticeship program, and career academy programming, specifically the Educators Rising program. Dr. Dick stated that 20 new certificated staff members have been hired for the 2026-2027 school year. Five of those 20 staff members were student teachers at Scottsbluff Public Schools during the 2025-2026 school year. Two staff members participated in the Grow Your Own program, and eight are either former or current SBPS employees, such as paraprofessionals or everyday substitutes. Two of the staff members were part of Anne Schmall's first cohort of education academy students, noting Ethan Gion and Caden Keller were juniors in her first year at Scottsbluff High School. Dr. Dick stated that Caden will be returning to the school where he interned as a high school senior. Dr. Dick stated he believes there is a tremendous amount of evidence that the programming the District has been working so diligently to implement is reaping the benefits. He noted that those numbers represented duplicate counts, so a new teacher could have a combination of the previously mentioned experiences, stating that 11 of the 20 hires came through one of the District's initiatives. Dr. Dick noted that these efforts are paying off in arguably one of the most important functions of our district leadership: recruiting and retaining highly qualified staff.

Admission Requirements

Minimum Age

A child shall be eligible for admission into kindergarten at the beginning of the school year if the child is five years of age or will be five years of age on or before July 31 of the calendar year in which the school year for which the child is seeking admission begins. The School Board shall admit a child who will reach the age of five years on or after August 1 and on or before October 15 of such school year if the parent/guardian requests such entrance and provides an affidavit stating that:

1. The child attended kindergarten in another jurisdiction in the current school year;
2. The family anticipates a relocation to another jurisdiction that would allow admission within the current year; or,
3. The child is capable of carrying the work of kindergarten which can be demonstrated through a recognized assessment procedure approved by the Board.

Early Admission to Kindergarten

The following assessment procedure for determining if a child is capable of carrying the work of kindergarten is approved and shall be made available to interested persons.

Early kindergarten enrollment exceptions may be made for younger children who are intellectually advanced. At a minimum, eligibility for the admission shall be based upon an analysis of the child's:

1. Mental ability;
2. Emotional/social development;
3. Pre-academic skills; and,
4. Fine motor skills.

The kindergarten early entrance assessment procedures are designed to identify and place in kindergarten those children who:

1. Will turn 5 years of age between August 1 and October 15;
2. Are deemed by the parent/guardian as being intellectually advanced and likely to benefit from advanced grade placement; and,
3. Are selected on the basis of testing by professionals trained and certified to administer the assessments that will produce evidence of strength in:
 - a. Mental ability defined as scoring 110 Standard Score or above on a standardized assessment of cognitive ability such as the Young Children's Achievement Test (YCAT); and,
 - b. A test of emotional/social development such as the Behavior Assessment System for Children, Second Edition (BASC-2).

Early kindergarten admission assessments will be scheduled and administered by district personnel at no cost to the parent/guardian.

The decision regarding early entrance to kindergarten requires careful consideration of all factors that affect kindergarten success with final determination to be made based by the Executive Director of Student Services, with recommendations from the student assessor(s). Sound decision making in the area of early entrance to kindergarten is dependent upon reliable information regarding a student's readiness and a thoughtful balancing of the myriad of factors implicated by the decision. The parent/guardian will be notified in writing of the results of the early kindergarten entrance assessment and the determination of the Executive Director of Student Services in a timely fashion. The parent/guardian may appeal this decision to the Superintendent, whose decision will be final.

Families who seek early admission of their child into kindergarten must obtain an Early Entrance to Kindergarten Packet from the district administration. The assessment request must be made no later than March 1.

The parent/guardian must fill out the early entrance application forms, which include a parent/guardian questionnaire, parent/guardian interview, child observation at assessor's discretion, and obtain and attach a reference letter from the child's daycare, preschool, or other regularly attended child care environment. The person providing this reference should know the child well enough that they can speak with some expertise about the child's attributes and abilities. The reference letter should indicate whether this person recommends the child be schooled with children who will be a year older than the child and, if so, the evidence this person has concerning the child's mental ability, fine and gross motor ability, visual and auditory discrimination, emotional/social development, and communication skills.

Decisions regarding early kindergarten entrance must include consideration of the above and shall not be made based on sex, disability, race, color, religion, **military or** veteran status, national or ethnic origin, age, marital status, pregnancy, childbirth or related medical condition, sexual orientation or gender identity, or other protected status of the child or the child's parent/guardian. Institutional factors, such as capacity, may also be considered.

Admission to First Grade

A child may be eligible to enter first grade, even if the child has not attended kindergarten, if the child is six years of age or will be six years of age on or before October 15 of the current school year and school officials determine that first grade is the appropriate placement for the child.

Graduates

A student who has received a high school diploma or received a General Equivalency Diploma shall not be eligible for admission or continued enrollment.

Age 21

A student shall not be enrolled in Scottsbluff Public Schools if the child is age 21 before the school year commences or after the end of the school year in which the student reaches the age of 21. The school year for this purpose begins when students report to receive instruction in the first semester each year and ends at the last day of instruction for the student's educational program.

Birth Certificate, Physical, Visual Evaluation, and Immunization

The parent/guardian shall furnish:

1. A certified copy of the student's birth certificate issued by the state in which the child was born, upon admission of a child for the first time, shall be provided within 30 days of enrollment. Other reliable proof of the child's identity and age, accompanied by an affidavit explaining the inability to produce a copy of the birth certificate, may be used in lieu of a birth certificate. An affidavit is defined as a notarized statement by an individual who can verify the reason a copy of the birth certificate cannot be produced. (Failure to provide the birth certificate does not result in non-enrollment or disenrollment, but does result in a referral to local law enforcement for investigation.);
2. Evidence of a physical examination by a physician, physician assistant, or nurse practitioner within six months prior to the entrance of the child into the beginner grade and the seventh grade or, in the case of a transfer from out of state, to any other grade, unless the parent/guardian submits a written statement objecting to a physical examination;
3. Evidence of a visual evaluation by a physician, a physician assistant, an advanced practice registered nurse, or an optometrist, within six months prior to the entrance of the child into the beginner grade or, in the case of a transfer from out of state, to any other grade, unless the parent/guardian submits a written statement objecting to a visual evaluation. The visual evaluation is to consist of testing for amblyopia, strabismus, and internal and external eye health, with testing sufficient to determine visual acuity;
4. Evidence of immunizations required by law: diphtheria, tetanus, pertussis, polio, measles, mumps, and rubella, Hepatitis B, Varicella (chicken pox), Haemophilus Influenzae type b (Hib), invasive pneumococcal disease and other diseases as required by applicable law, by immunization, prior to enrollment, unless the parent/guardian submits a written statement that establishes that an exception to the immunization requirements are met; and,
5. Every student entering the seventh grade shall have a booster immunization containing diphtheria and tetanus toxoids and an acellular pertussis vaccine which meets the standards approved by the United States Public Health Service for such biological products, as such standards existed on January 1, 2009.

The Superintendent or the Superintendent's designee shall notify the parent/guardian in writing of the foregoing requirements and of the right to submit affidavits or statements to object to the requirements, as applicable. The Superintendent or the Superintendent's designee shall also provide a telephone number or other contact information to assist the parent/guardian in receiving information regarding free or reduced-cost visual evaluations for low-income families who qualify.

A student who fails to meet the foregoing requirements may not be permitted to enroll or to enter school, or may be provisionally enrolled for a period of 60 days.

The parent/guardian of a student who is provisionally enrolled due to immunization non-compliance must provide proof the student has begun the immunizations required under Neb. Rev. Stat 79-217 and is receiving the necessary immunizations as rapidly as medically feasible. Continuation of necessary immunizations as rapidly as medically feasible must be documented

by a written statement from the student's immunization provider which shows the scheduled dates to complete the required immunization series. A provisionally enrolled student must complete the required immunizations within nine months. Failure to comply with the immunization requirement beyond 60 days will result in the unenrollment of the student and the student shall not be permitted to continue in school until evidence of compliance or an exemption from compliance is given.

Enrollment of Expelled Students

If a student has been expelled from any public school district in any state, or from a private, denominational, or parochial school in any state, and the student has not completed the terms or time period of the expulsion, the student shall not be permitted to enroll in this school district until the expulsion period from such other school has expired, unless the Board of this school district, in its sole and absolute discretion, upon a proper application approves by a majority vote the enrollment of such student prior to expiration of the expulsion period. As a condition of enrollment, the Board may require attendance in an alternative school, class, or educational program pursuant to Nebraska law until the terms or time period of the original underlying expulsion are completed. A student expelled from a private, denominational, or parochial school or from any public school in another state, will not be prohibited from enrolling in the public school district in which the student resides or in which the student has been accepted pursuant to the enrollment option program for any period of time beyond the time limits placed on expulsion, pursuant to the Student Discipline Act, or for any expulsion for an offense for which expulsion is not authorized for a public school student under such Act. For purposes of this policy, the terms "expulsion" or "expelled" include any removal from any school for a period in excess of 20 school days.

Military Families

If a parent/guardian presents military orders that show that the military family will be stationed in the State of Nebraska during the current or following school year, and the parent/**guardian** resides in or is stationed on federally owned property within the boundaries of the District, the District can enroll the student preliminarily, including any such student that has an Individualized Education Plan, a 504 plan, or otherwise receives special education services.

StudentsDiscontinuance of Enrollment for Children Younger Than Six Years of Age

Any person with legal or actual charge or control of a child younger than six years of age prior to the then-current school year, who is enrolled in this school district, may discontinue the enrollment of such child by submitting a written notification to the Superintendent or the Superintendent's designee, indicating that child's name, date of birth, grade level, and effective date of discontinuation of enrollment. The ~~School~~ District may request written verification or documentation of the person's authority to disenroll the child.

Upon receipt of the required written form and any other required information or documentation, the ~~School~~ District shall note discontinuance of the enrollment on its official records pursuant to state law. Any child disenrolled shall not be eligible to reenroll in this school district until commencement of the next school year, or until the child reaches the age of six prior to the then-current school year, whichever occurs earlier. StudentsAssignment of Students: Grade Placement and Transfer StudentsAssignment of Students

It shall be the responsibility of the administration to determine academic placement decisions involving students, including situations where students transfer into Scottsbluff Public Schools from other educational settings. The District reserves the right to make the most appropriate grade level placement, class placement, and teacher assignment for students which best fulfills the needs of the students and the ~~School~~ District.

Grade Level Placement and Credits

Students who enter the District shall be required to present transfer documents and such records as the administration determines appropriate, indicating grade placement, courses completed, and special needs or accommodations, and may be required to complete an achievement test to determine appropriate placement.

Placement decisions will consider whether the student is transferring from a school which is accredited or approved. An “accredited” or “approved” school is one which was accredited or approved by the Nebraska Department of Education and, for schools from other states, is a school which is accredited or approved by that state’s Department of Education, meeting requirements which are the same or equivalent as those of the Nebraska Department of Education.

Transfers from Accredited or Approved Schools

Students transferring from accredited or approved schools will initially be placed in the next grade level above that which the student last successfully completed, or for transfers during the school year, in the same grade level as the student was at prior to the transfer. Credits earned at an accredited or approved school will be accepted by Scottsbluff Public Schools. A student who enrolls during the school year shall be given the opportunity to earn full credit for the courses in which the student is enrolled if the student is able to demonstrate mastery of the subject matter and/or completion of course requirements, other than attendance, at a level required for other students to receive credit who have been enrolled throughout the period for which the credit is to be granted. The administration may use a review of transcripts from prior schools attended, standardized tests, assessments, and/or teacher evaluations of student competency in the subject matter to make such a determination.

Transfers from Non-Accredited or Approved Schools

Students transferring from schools which are not accredited or approved (e.g., home schools) will be placed at a grade level to be determined by the administration based on consideration of the following factors:

1. Student’s chronological age;
2. Transcript review;
3. Testing (achievement test data, diagnostic test data, and/or criterion referenced test data); and,
4. Teacher evaluation of student competency.

Credits earned at a school which is not accredited or approved will not be accepted by Scottsbluff Public Schools. However, the administration may, in its discretion and subject to regulatory requirements, grant a student credits towards meeting graduation requirements completed by the student in a non-accredited or non-approved school if the student is able to demonstrate mastery of the subject matter and completion of course requirements, other than attendance, at a level required for other students to receive credit and to demonstrate that the student has received instruction in such course(s) comparable to that which the student would have received by attending an accredited or approved school. The administration may use a review of transcripts from prior schools attended, standardized tests, assessments, and/or teacher evaluations of student competency in the subject matter to make such a determination. The same criteria will be used for determining whether to grant credit to such a student who enrolls during the year.

Class Rank and Graduation

It shall be the responsibility of the high school principal to determine academic grade point average, class rank, and eligibility for graduation, subject to review by the Superintendent.

Grade point average (GPA) shall be maintained for the 9th through 12th grades. Courses taken prior to 9th grade are not considered for GPA purposes.

Pass/fail grades will be assigned to those courses from non-accredited schools in which students are granted credit when they begin attending Scottsbluff Public Schools.

Class rank is maintained for the 9th through 12th grades. Class rank is based on the Scottsbluff Public Schools GPA. To be considered for class ranking and any honors or awards which are based on class rank or GPA, students must be considered a full-time Scottsbluff Public Schools student. To receive a diploma from Scottsbluff Public Schools, students must complete all Board-approved course requirements. Students who transfer in from a school that is not approved or accredited must meet all Board-approved graduation requirements and must be a full-time student of Scottsbluff Public Schools.

3. Enrolled students in need of modified school attendance as an accommodation for a disability or similar unique circumstance;

Enrolled students receiving special education services where the student's IEP requires a modified schedule, or non-enrolled students receiving special education services or other legally mandated services required to be provided to eligible resident children under state and federal laws and regulations;
5. Students from other school districts participating in programs offered by the District pursuant to an interlocal agreement or other arrangement approved by the ~~School~~ Board; and,
6. Nonpublic school students in accordance with the policies and procedures set forth in this policy.

Part-Time Enrollment of Nonpublic School Students

The ~~School~~ Board shall allow the part-time enrollment of students who are residents of the District, and who are also enrolled in a private, denominational, parochial, or home school which elects pursuant to Neb. Rev. Stat. § 79-1601 not to meet accreditation or approval requirements. Such students are referred to herein as "nonpublic school students." Out of district, nonpublic students may enroll part-time as a "contract in" student. Students opting to "contract in" will be required to pay a tuition rate to be determined by the Board of Education in order to attend part-time. The contract is between the student's resident district and Scottsbluff Public Schools. It is the family's responsibility to make arrangements to complete the contract and pay tuition to the resident district.

The ~~School~~ Board establishes the following guiding principles for enrollment of nonpublic school students:

1. The primary school for a nonpublic school student is the student's private, denominational, parochial, or home school.
2. Enrollment of a nonpublic school student in Scottsbluff Public Schools is allowed for the purpose of providing enhanced educational opportunities not otherwise available

- to the nonpublic school student. It is not to supplant programming of the student's primary school.
3. Nonpublic school students are not to be given priority over full-time students.
 4. Nonpublic school students are to be enrolled only in programs or courses that are educationally appropriate for the student.
 5. Enrollment of nonpublic school students is not to negatively affect the educational services to be provided to full-time students.

The ~~School~~ Board establishes the following specific policies and procedures for enrollment of nonpublic school students. In the event the specific policies and procedures require interpretation or do not fully resolve an issue, the above established guiding principles are to be considered.

1. Nonpublic School Student Enrollment Application Procedures

- a. Application - A parent/guardian must submit an Application of Nonpublic School Student for Part-Time Enrollment to the counseling office or building principal.
 - i. Deadline for Applications - The application must be received by August 1st preceding the fall semester the student wishes to enroll or December 1st preceding the spring semester the student wishes to enroll.
 1. Change of Residence Exception - The application deadline for a student who becomes a resident of the District after the school year has commenced is 20 calendar days after the student becomes a resident of the District. The principal may delay enrollment until the next following quarter or semester starts, or at such other time as determined to be educationally appropriate.
 - ii. Action on Applications - The counseling office and/or building principal will review the application and will notify the parent/guardian of the approval or denial of the application within two weeks of receipt of the application or two weeks prior to the start of school or two weeks prior to the start of the next semester, whichever is later.
 - b. Appeals - The parent/guardian may appeal the principal's action to deny their application. Any such appeal must be submitted to the Superintendent within 14 calendar days from the date of the principal's action. The appeal shall be in writing and shall be decided on the basis of the written submission. The Superintendent may request the parent/guardian to provide further explanation or information and the appeal may be denied in the event the parent/guardian fails to fully respond on a timely basis. The Superintendent shall decide the appeal within 10 calendar days of the submission of the appeal. The Superintendent may make a decision later than the 10 days in the event a good reason for delay exists. Good reason includes but is not limited to the

Superintendent being unable to gather the information the Superintendent determines necessary to make the decision within the decision period.

- c. Annual Applications - Part-time enrollment is determined annually. Application must be made each school year. There will be no guarantee that enrollment will be continued from one year to the next.

2. Nonpublic School Student Admission

- a. Admission Requirements - Students must meet the normal admission requirements. This includes the requirements that the student be a resident of the District or an approved option student, be of school attendance age, and not have graduated or have received a GED.
- b. Admission Process - Students must complete the normal enrollment process and forms required by the District and/or the building for enrollment of all children. This includes the requirements relating to birth certificates, immunizations, physical examinations, and visual evaluations.

3. Nonpublic School Student Enrollment Standards

- a. Minimum/Maximum Enrollment - Students must enroll in a minimum of two middle school courses or one five-credit hour high school courses during any one semester. Elementary students may not enroll in programming of greater than 90 minutes of instruction each day.
- b. Capacity Limits - Enrollment will ordinarily be subject to capacity limits. Any grade level, program, or course which has been determined to be at capacity for option enrollment purposes will not ordinarily be available for nonpublic school students.
- c. Integrated Courses - Students must meet prerequisite requirements to be enrolled in a course by appropriate credits earned through an accredited program. The principal may, on a discretionary basis, allow prerequisite requirements to be satisfied where the student provides reasonable indications that the academic criteria have been met, such as results from achievement tests or other indications of adequate preparation.
- d. Educationally Appropriate Programs and Courses - Students will not be allowed to enroll in programs or courses which the school administration determines to not be educationally appropriate for the student. Determination of whether a program or course is educationally appropriate will be made based on the standards the District uses for making academic placement decisions.
- e. Selection of Courses - Subject to all applicable provisions of this policy, nonpublic school students may select their courses.

4. Nonpublic School Student Policies

- a. General Standard - Nonpublic school students who are enrolled part-time are to be subject to the same standards as full-time enrolled students except where appropriate to reflect their part-time status.
- b. Building Assignment - Students must enroll in the attendance center that serves the student's residence, provided that the administration reserves

the authority to make a different attendance center assignment. A student may request assignment to an attendance center other than that of the student's residence under the in-district transfer procedures.

- c. No Partial Part-Time Enrollment - Students must apply for enrollment and attend the entire school year for which enrollment is made or, for high school courses, for the full length of the course. Once enrolled, part-time students will be required to participate in all activities, programs, and tests related to the program or course for which the student is enrolled, including as applicable state or districtwide assessments, as full-time students.
- d. Student Conduct Policies - Students enrolled on a part-time basis shall be required to follow all school policies that apply to other students at any time the part-time student is present on school grounds or at a school-sponsored activity or athletic event. This includes the District's student conduct policies. Students enrolled on a part-time basis shall be subject to discipline, including suspension or expulsion, for violation of student conduct rules.
- e. Attendance - Students enrolled on a part-time basis are not exempt from the compulsory attendance laws or from the District's attendance policies. Students who engage in excessive absenteeism as defined in Board policy are to be reported under the truancy laws.
- f. Presence on School Grounds - Students enrolled on a part-time basis are to be present on school grounds during the school day only at the times required for their attendance in the program or course in which they are enrolled. Exceptions may be made at the discretion of the principal or the principal's designee. Students must sign in and out of the school by following the building level procedure. Students are responsible for being aware of any changes in the school schedule during inclement weather or for other reasons.
- g. Transportation - Students enrolled on a part-time basis are not entitled to transportation or transportation reimbursement, unless otherwise required by law.
- h. Academic Honors - Students enrolled on a part-time basis will not be eligible to graduate or receive a diploma from the District or receive academic honors (for example: GPA, class rank, and honor roll) except to the extent the student meets all requirements of the District's policies for such, including attainment of minimum credits and semesters of attendance.
- i. Extracurricular Activities - Any student who is a resident of the District and who is enrolled in a school which elects pursuant to section 79-1601 not to meet accreditation or approval requirements may participate in any of the District's extracurricular activity programs to the same extent and subject to the same requirements, conditions, and procedures as a full-time student in the District. Non-resident students may only be admitted on a

part-time basis or permitted to participate in a school-sponsored extracurricular activity when required by law. The District's Activities Director will coordinate with the student's parent/guardian to secure assurances of compliance with these expectations. Any student covered by this subsection must enroll in five credit hours through the District in the semester in which the student participates in an extracurricular activity. There shall be no preference given to any student participating in any extracurricular activity based off their status as a full-time or part-time student. Part-time students will be expected to comply with the same or similar expectations as full-time students to participate in any activity, including team rules. Participation in activities that are subject to the bylaws of the Nebraska School Activities Association (NSAA) will be limited to those students who meet the NSAA bylaws.

StudentsStudent Residence, Admission, and Contracting for Educational Services

Students shall be admitted to the ~~School~~ District, upon request and without charge, who are:

1. A resident of the ~~School~~ District for purposes of school enrollment. A student is a resident of the ~~School~~ District if the student resides in the ~~School~~ District or at least one parent/guardian of the student resides in the ~~School~~ District.
2. A homeless student. The following definition shall be used to determine which students fit this category. A homeless individual is one who:
 - a. Lacks a fixed, regular, and adequate nighttime residence; ~~and, or,~~
 - b. Has a primary nighttime residence in a supervised publicly or privately-operated shelter designed to provide for temporary accommodations (including welfare hotels, congregate shelters, and transitional housing for the mentally ill), an institution providing temporary residence for individuals intended to be institutionalized, or a public or private place not designated for, or ordinarily used as, a regular sleeping accommodation for human beings. The term “homeless” or “homeless individual” does not include any individual imprisoned or otherwise detained by an Act of Congress or state law.
3. Approved for option enrollment into the ~~School~~ District.

Students may be admitted to the ~~School~~ District, or continue in enrollment, where:

1. The student is not a resident of the ~~School~~ District and is a resident of Nebraska. Such enrollment shall be pursuant to a contract between the Boards of Education of this ~~School~~ District and the ~~School~~ District in which the student is a resident and upon the collection of tuition pursuant to such contract. ~~The amount of tuition shall be no less than the average cost per pupil as determined by the previous year’s financial report.~~
2. The student is not a resident of the ~~School~~ District and is a resident of another state. Such enrollment shall be subject to collection of tuition in advance at a rate determined by the ~~School~~ Board. Out of state students will only be accepted after all qualified Nebraska student applications have been considered.
3. The student is participating in an approved Foreign Exchange Program.
4. The student is a child of a member of the military on active duty and residing on certain property ceded to the United States and stationed in, near or adjacent to the ~~School~~ District, and children of employees of the federal government residing in Nebraska on national parks or national monuments within the state in, near or adjacent to the ~~School~~ District. Such discretionary admission shall be without charge for tuition.
5. The student’s residency in the ~~School~~ District ceases during the school year. In such a case, the student may be allowed to continue attending the ~~School~~ District for the remainder of that school year.

A child who is a ward of the state or court and:

1. Has been placed in the ~~School~~ District but had resided in a different school district at the time the child became a ward and does not reside in a foster family home; or,
2. Has been placed in an institution which maintains a state-approved special education program, may be enrolled in the ~~School~~ District to the extent required by law.

In such an event, costs of education and transportation are to be paid by the state, but not in advance. The child remains a resident of the **School** District in which the child resided at the time the child became a ward.

A child who is a ward of the state or court who resides in the **School** District in a foster family home licensed or approved by the Department of Health and Human Services (“Department”) or a foster home maintained or used by the Department, remains a resident of the **School** District in which the child resided at the time the child became a foster child. This is subject to a determination being made in accordance with the Foster Care Review Act that the child will not attend such a school district. If such a determination is made, the child is deemed to be a resident of the **School** District and will be admitted as a resident student.

A child who is not a ward of the state or court and who is residing in a residential setting in the **School** District for reasons other than to receive an education is subject to the following:

1. If the residential setting does not maintain an interim-program school, the **School** District will provide the educational services to the child pursuant to a contract with the **School** District in which the child resided immediately prior to such placement, as and to the extent required by law. This is subject to the parent/guardian and such other school district agreeing to have such other school district provide the educational services.
2. If the residential setting does maintain an interim-program school, the child’s educational services will be provided by the interim-program school without the **School** District’s involvement. However, the **School** District may provide educational services to the child pursuant to a contract with the **School** District in which the child resided immediately prior to such placement.

All admissions are subject to the condition that admission requirements other than residency be satisfied to the extent required by law and that the **School** District is legally responsible for or authorized to admit the child or provide educational services to the child.

StudentsOption EnrollmentProcess and Time Lines to Option In

For a student to attend Scottsbluff Public Schools as an option enrollment student, the student's parent/guardian must submit an application to the Board of Education of the Scottsbluff Public School District between September 1 and March 15 for enrollment during the following and subsequent school years (the "application period").

Upon receipt of an application, the Superintendent or the Superintendent's designee shall provide the resident school district or, if the student attends a different district as an option student, the option district with the name of the applicant on or before April 1 or, in the case of an application submitted after March 15, within 60 days after submission.

During Open Enrollment, the first round of applications received between January 1 and February 15 will be notified March 1. Applications received during the second round, between February 16 and March 31, will be notified no later than April 15. All other applications received prior to the start of school will be notified as space and staffing decisions are made. Applications received during the third round are added to the prioritized list on a first come, first served basis.

1. Provisions for Waiver of Application Deadline - The application deadline will be waived by the District for applications to option into the Scottsbluff Public School District, provided that the application contains a release approval from the resident district or, if the student is an option student attending a different district, the option district attended by the student and satisfies any other requirements of law. Further, the application deadline shall not be waived if the application is for enrollment in any program, class, grade level, or school building or in any special education programs operated by this school district which have been determined by the ~~School~~ District to be at capacity or past the appropriate program timeline, and no waiver of the deadline shall be made for such an application regardless of whether such capacity determinations are declared invalid for any reason.
2. Rejection of Applications - Reasons
 - a. Capacity - An option enrollment application shall be rejected in the event the capacity of a program, class, grade level, or school building by the ~~School~~ District would be exceeded by acceptance of the application, and an option enrollment application shall be rejected in the event the application is for enrollment in a program, class, grade level, or school building which has been declared unavailable to option students due to lack of capacity.

The ~~Executive~~ Director of ~~Special Education Student Services~~ shall review on a case-by-case basis all option applications for students that would receive or could

be eligible to receive special education or related services. If the **Executive Director of Student Services** or designee determines that the District does not have the capacity to provide the student with the appropriate services and accommodations, then the **Executive Director of Student Services** or designee shall send a denial notice to the parent/guardian and include a description of services and accommodations that the District does not have the capacity to provide.

- b. Previous Option Enrollment - An option enrollment application shall be rejected in the event the student has exhausted their option enrollments in other school districts, as determined by state law.
 - c. Other Reasons - An option enrollment application may be rejected in the event the Superintendent, the Superintendent's designee, or the District determines the application is not submitted on a form prescribed by the State Department of Education, is not completely and accurately filled in, is not received within the time required by law, or any additional information requested to be supplied is not supplied to the District within the time lines indicated, or in the event acceptance of the application is not required by law. Matters which are legally prohibited from being considered as standards for acceptance or rejection of applications (including "previous academic achievement, athletic or extracurricular ability, disabilities, proficiency in the English language, or previous disciplinary proceedings" and further including, without limitation, race, national origin, and gender) shall not be considered as reasons for acceptance or rejection.
3. Priority of Acceptance
Priority shall be accorded in the following order:
- a. First, to those applications required to be given priority by law;
 - b. Second, to those with a sibling in attendance at Scottsbluff Public Schools, with priority within this group being given to those who had earliest filed applications; and,
 - c. Third, to those without an option student sibling in attendance at Scottsbluff Public Schools, with priority within this group to those who had earliest filed applications.

Filing date determinations are made by the Superintendent or the Superintendent's designee. In the event applications within a group are received at the same or substantially the same time, priority as between such same-date applications shall be determined on the basis of random drawing.

4. Determination of Capacity
The District will determine and set, on an annual basis, the maximum number of option enrollment applications the District will accept in any program, class, grade level, or school building, operated by this school district, based upon available staff, facilities,

projected enrollment of resident students, projected number of students with which this school district will contract based on existing contractual arrangements, and may declare a program, class, or school unavailable to option students due to lack of capacity. The determination and declaration made for any school year shall continue in effect for the next and subsequent school years unless otherwise determined and/or declared. The capacity for special education services shall be determined on a case-by-case basis as determined by the Executive Director of Student Services or designee.

5. Releases for Options Out

A request for release of a resident student or option student currently attending Scottsbluff Public Schools ~~District~~ who submits an enrollment option application after March 15 or any other statutory deadline will be granted unless the administration is considering or has recommended expulsion of the student at the time the application is filed, and the administration determines it is appropriate to complete the expulsion process.

The Superintendent or the Superintendent's designee is hereby authorized to execute such releases on behalf of the District, subject to subsequent ratification by the District.

6. Notification of Acceptance or Rejection

In the case of an application to option enroll into ~~the~~ Scottsbluff Public Schools ~~District~~, the Superintendent or the Superintendent's designee shall notify, in writing, the parent/guardian of the student and the resident school district or if the student is an option student attending a different district, that option district, whether the application is accepted or rejected on or before April 1 or, in the case of an application submitted after March 15, within 60 days after submission.

If an option enrollment application or a request for release is rejected by the ~~the~~ Scottsbluff Public Schools ~~District~~, the Superintendent or the Superintendent's designee shall provide written notification to the parent/guardian stating the reasons for the rejection and the process for appealing such rejection to the State Board of Education. Such notification shall be sent by certified mail.

7. Applications Subsequent to Relocations or Mergers

An option enrollment application does not require a release and shall be accepted or rejected within 45 days after filing in the following circumstances:

- a. The student relocated to a different resident school district after February 1;
- b. The student's option school district merged with another district effective after February 1; or,
- c. The application is for attendance during the immediately following and subsequent school years.

8. Status of Option Student

A student who is admitted under the enrollment option program shall be treated as a resident student, and in such regard shall be required to provide such enrollment information and documentation as is required for enrollment of other students (e.g., certified birth certificate and evidence of physical examination, visual evaluation, and immunization), shall be required to be enrolled on a full-time basis, and shall be required to adhere to student conduct rules. The building assignment for an option student, as well as classroom and grade level assignments, shall be determined by the administration.

An option student shall not be entitled to transportation except as required by law. Transportation or transportation reimbursement will be provided in the following circumstances:

- a. ~~the~~ Scottsbluff Public Schools ~~District~~ may, upon mutual agreement with the parent/guardian of an option student, provide transportation to the option student on the same basis as provided for resident students. The ~~school~~ district may charge the parent/guardian of each option student transported a fee sufficient to recover the additional costs of such transportation.
- b. Option students who qualify for free lunches are eligible for either free transportation or transportation reimbursement from the option school district. The District's policy is that the District selects which service (transportation or reimbursement) is to be provided to students.
- c. For option students receiving special education services, the transportation services required in the student's Individualized Education Plan shall be provided by the resident school district.

9. Information Regarding Schools, Programs, Policies, and Procedures

As part of the option enrollment program, the administration shall make information about ~~the~~ Scottsbluff Public Schools and its school, programs, policies, and procedures available to all interested persons and shall have a copy of the option enrollment policy and regulations available at each school building.

APPENDIX TO OPTION ENROLLMENT POLICY

The following is Policy 5006.1 Appendix to Policy 5006 for the current school year. The Board of Education hereby sets forth the optimal number of students for the 2026-2027 school year in any program, class, grade level, or school building or in any special education programs operated by this school district, based upon available staff, facilities, projected enrollment of resident students, projected number of students with which this school district will contract based on existing contractual arrangements, and availability of appropriate special education programs.

Enrolling in school at the start of a new quarter or semester provides a more seamless transition for students; however, Scottsbluff Public Schools recognizes that at times there are extenuating circumstances which may result in an alternate enrollment date. The Board believes that it is in the best interest of our schools to not accept Option Enrollment students after a certain date each semester at the high school level in order to ensure a successful transition. Scottsbluff High School will close twelfth grade options on October 2, 2026, and will not reopen options for the remainder of the school year. Ninth, tenth, and eleventh grades will close options on October 2, 2026, and will reopen at the start of second semester, if capacity has not been met. Furthermore, the Superintendent has the authority to close Scottsbluff High School and/or Bluffs Middle School options, as needed, and reopen at the beginning of the following semester, capacity permitting.

2. The District will admit students from foreign nations through foreign exchange programs that are approved by the Board of Education. A foreign exchange program may not be approved unless it is on the current Advisory List of International Educational Travel and Exchange Programs that is maintained by The Council on Standards for International Educational Travel.

2. The foreign exchange program shall be responsible for providing the District with all documents and records required by federal and state law and such other documents and records that the District may request. The documentation is to include information to establish that the foreign exchange student has adequate financial support, that the student is covered by health insurance, a complete transcript and a brief explanation of the transcript, and such other documentation that the Superintendent or high school principal determines appropriate. 3. The local representative of the foreign exchange program is expected to confer with the high school principal or designee throughout the foreign exchange student's attendance in the District on a schedule to be determined by the appropriate grade level counselor.

1. Foreign exchange students will be assigned either as a sophomore or senior and a class schedule as determined appropriate by the high school principal or designee. Grade placement will be based upon the District's criteria for students transferring from non-approved schools.
2. Foreign exchange students will be required to enroll in a literature course and a United States history or a United States government course.
3. Foreign exchange students completing the twelfth grade in the District will be recognized with a school certificate for satisfactory attendance and participation.

StudentsStudent Attendance

Scottsbluff Public Schools complies with the attendance policies outlined within Nebraska Revised Statute § 79-201, which defines the criteria for excused absences. These regulations are mandated by state law to ensure consistent attendance practices across all Nebraska schools. While the District is required to enforce attendance rules, staff are committed to work collaboratively with students and their parents/guardians to support student attendance and success.

Attendance Policy and Excessive Absenteeism

Regular and punctual student attendance is required. The administration is responsible for developing further attendance rules and regulations, and all staff are expected to implement this policy and administrative rules and regulations to encourage regular and punctual student attendance. The District will maintain an accurate record of student attendance.

Attendance and Absences

The circumstances for all absences from school will be identified as School Excused or Not School Excused. Absences should be cleared through the principal's office in advance whenever possible. All absences, except for illness and/or death in the family, require advance approval.

1. School Excused. Any of the following circumstances that lead to an absence will be identified as a School Excused absence, provided the required attendance procedures have been followed:
 - a. Impossible or impracticable barriers outside the control of the parent/guardian or child prevent a student from attending school. The parent/guardian must provide the school with documentation to demonstrate the absence was beyond the control of the parent/guardian or child. This could include, but is not limited to documented absence for illness (including physical or mental illness) or court, death of a family member, or suspension.
 - b. Other absences as determined by the principal or the principal's designee.
2. Not School Excused. Absences that are Not School Excused may result in a report to the county attorney and may be classified as follows:
 - a. Parent/guardian acknowledged absences are those in which the parent/guardian communicated with the school in the prescribed manner that the child is absent and is the parent/guardian's responsibility for the extent of the school day. This includes, but is not limited to, vacations, undocumented illness, and undocumented medical appointments.
 - b. Other absences are those in which the parent/guardian has not communicated a reason for the student's absence.

Scottsbluff Public Schools respects the right of the parents/guardians to responsibly report their child will be absent from school when necessary and encourages open communication regarding student attendance. Based on the outlined criteria above, an absence or tardy, even if reported by

the parent/guardian, may still be classified as Not School Excused. This classification system ensures compliance with Nebraska State Statutes.

Excessive Absenteeism

Excessive absenteeism is defined as unexcused and excused absences exceeding 10 percent of days enrolled or the hourly equivalent. Such absences shall be determined on a per day (or hourly equivalent) basis for elementary students and on a per class basis for secondary students.

Duty to Report Excessive Absenteeism

Any administrator, teacher, or member of the Board of Education who knows of any failure on the part of any child of mandatory school attendance age to attend school regularly without lawful reason, shall within three days report such violation to the appropriate school administrator as the Superintendent's designee to be the attendance officer (hereafter, "attendance officer"). The attendance officer shall immediately cause an investigation into any such report to be made. The attendance officer shall also investigate any case when of his or her personal knowledge, or by report or complaint from any resident of the District, the attendance officer believes there is a violation of the compulsory attendance laws. The school shall render all services in its power to compel such child to attend some public, private, denominational, or parochial school, which the person having control of the child shall designate, in an attempt to address the problem of excessive absenteeism. Such services shall include, as appropriate, the services listed **below** under "Excessive Absenteeism" and "Reporting Excessive Absenteeism."

Responding to Excessive Absenteeism

When a student has excessive absences, school officials will have verbal or written communication with the person or persons who have legal or actual charge or control of any child.

When a student accumulates 10 absences which are Not School Excused and the absences are of concern due to the effect of the absences on the student's academics, the student's attendance history, the time of the school year, the reasons for the absences, or other circumstances, one or more meetings will be held between the school (a school attendance officer, a school administrator or his or her designee, and/or a social worker), the child's parent/guardian, and the child, when appropriate, to address the barriers to attendance. The result of the meeting or meetings shall be to develop a collaborative plan to reduce barriers identified to improve regular attendance. The plan shall include, if agreed to by the person who is responsible for making educational decisions on behalf of the child, an educational evaluation to determine whether any intellectual, academic, physical, or social-emotional barriers are contributing factors to the lack of attendance. The plan shall also consider, but not be limited to:

1. The physical, mental, or behavioral health of the child;
2. Educational counseling;
3. Referral to community agencies for economic services;
4. Family or individual counseling;
5. Assisting the family in working with other community services; and/or,
6. Referral to restorative justice practices or services.

If the parent/guardian refuses to participate in such meetings, the principal shall place documentation of such refusal in the child's attendance records.

Reporting Excessive Absenteeism to the County Attorney

The school may report to the county attorney of the county in which the person having control of the student resides when the school has documented the efforts to address excessive absences, the collaborative plan to reduce barriers identified to improve regular attendance has not been successful, and the student has accumulated more than 20 absences per school year. The school shall notify the child's family in writing prior to making the referral to the county attorney.

Illness, including physical or mental illness, that makes attendance impossible or impracticable shall not be the basis for referral to the county attorney. A report to the county attorney may also be made when a student otherwise accrues excessive absences as herein defined.

Mandatory Ages of Attendance

A child is of mandatory age if the child will reach age 6 prior to January 1 of the then-current school year and has not reached 18 years of age.

Exceptions for Younger Students

Attendance is not mandatory for a child who has reached 6 years of age prior to January 1 of the then-current school year, but will not reach age 7 prior to January 1 of such school year, if the child's parent/guardian has signed and filed with the **School** District in which the child resides an affidavit stating either:

1. That the child is participating in an education program that the parent/guardian believes will prepare the child to enter grade one for the following school year; or,
2. That the parent/guardian intends for the child to participate in a school which has elected or will elect pursuant to law not to meet accreditation or approval requirements and the parent/guardian intends to provide the Commissioner of Education with a statement pursuant to section Neb. Rev. Stat. § 79-1601 on or before the child's seventh birthday.

Exceptions for Older Students

Attendance is also not mandatory for a child who:

1. Has obtained a high school diploma by meeting statutory graduation requirements;
2. Has completed the program of instruction offered by a school which elects pursuant to law not to meet accreditation or approval requirements; or,
3. Has reached the age of 16 years and has been withdrawn from school in the manner prescribed by law.

Early Withdrawal for Students Enrolled in Accredited or Approved Schools

A person who has legal or actual charge or control of a child who is at least 16 but less than 18 years of age may withdraw such child from school before graduation and be exempt from the mandatory attendance requirements if an exit interview is conducted and a withdrawal form is signed.

Exit Interview

The process is initiated by a person who has legal or actual charge or control of the child submitting a withdrawal form. The form is to be as prescribed by the Commissioner of Education. Upon submission of the form, the Superintendent or the Superintendent's designee shall set a time and place for an exit interview if the child is enrolled in Scottsbluff Public Schools or resides in the Scottsbluff Public Schools **District** and is enrolled in a private, denominational, or parochial school. The exit interview shall be personally attended by:

1. The child, unless the withdrawal is being requested due to an illness of the child making attendance at the exit interview impossible or impracticable;
2. The person who has legal or actual charge or control of the child who requested the exit interview;
3. The Superintendent or the Superintendent's designee;
4. The child's principal or designee if the child at the time of the exit interview is enrolled in

- a school operated by the **School** District; and,
5. Any other person requested by any of the required parties who agrees to attend the exit interview and is available at the time designated for the exit interview which may include, for example, other school personnel or the child's principal if the child is enrolled in a private school.

At the exit interview, the person making the written request must present evidence that the person has legal or actual charge or control of the child and the child would be withdrawing due to either:

1. Financial hardships requiring the child to be employed to support the child's family or one or more dependents of the child, or,
2. An illness of the child making attendance impossible or impracticable.

The Superintendent or the Superintendent's designee shall identify all known alternative educational opportunities, including vocational courses of study, that are available to the child in the **School** District and how withdrawing from school is likely to reduce potential future earnings for the child and increase the likelihood of the child being unemployed in the future. Any other relevant information may be presented and discussed by any of the parties in attendance.

At the conclusion of the exit interview, the person making the written request may sign a withdrawal form provided by the **School** District agreeing to the withdrawal of the child or may rescind the written request for the withdrawal.

Withdrawal Form

Any withdrawal form signed by the person making the written request shall be valid only if:

1. The child also signs the form, unless the withdrawal is being requested due to an illness of the child making attendance at the exit interview impossible or impracticable; and,
2. The Superintendent or the Superintendent's designee signs the form acknowledging that the interview was held, the required information was provided and discussed at the interview, and, in the opinion of the Superintendent or the Superintendent's designee, the person making the written request does in fact have legal or actual charge or control of the child and the child is experiencing either financial hardship, or an illness making attendance impossible or impracticable.

Early Withdrawal for Students Enrolled in an Exempt School (Home Schools)

A person who has legal or actual charge or control of a child who is at least 16 but less than 18 years of age may withdraw such child from school before graduation and be exempt from the mandatory attendance requirements if such child has been enrolled in a school that elects not to meet the accreditation or approval requirements by filing with the State Department of Education a signed notarized release on a form prescribed by the Commissioner of Education.

Parents will be notified of their child's enrollment status within a reasonable timeframe after the application deadline.

The District reserves the right to accept preschool enrollment on an as-available basis once the school year begins.

Waitlist

In the event that the number of applicants exceeds the preschool program's capacity, a waitlist may be established. Priority on the waitlist may be given to eligible children based on the priorities listed in this policy. Parents will be notified if their child is placed on the waitlist.

StudentsAttendance Areas and Student Transfers

The Scottsbluff Public Schools Board of Education shall establish and may adjust elementary school attendance areas based upon the recommendation of the Superintendent or the Superintendent's designee.

Students shall attend the school within the attendance area in which they reside or, in the case of a student with parents/guardians living at a different address, where the student primarily resides. Students may otherwise be granted a transfer to a school open for in-district transfer. Parents/guardians who wish to enroll their student in a school other than their assigned attendance area school must submit a "SBPS In-District Building Transfer Request" form to the District Office.

Transfer Request applications, effective for the upcoming school year, may be accepted from January 1 through March 31 for the first-round period. Students may be accepted on a space-available basis by grade level or program at each individual building. Once a building, grade level, or program becomes closed due to capacity restrictions, a prioritized waitlist will be established. Applications submitted after March 31 will be considered during the second-round period through the start of the following school year. Applications may be accepted throughout the school year and reviewed on a case-by-case basis at the discretion of the Superintendent or the Superintendent's designee.

Applications will be prioritized as follows:

1. Students with siblings attending the requested building, with priority given in order of application submission date; and,
2. All other applications will be considered on a first-come, first-served basis.

Transfer Request applications may be granted by the Superintendent or the Superintendent's designee based upon the capacity of a class, grade level, program, or school building to which the student is applying. Specific grade levels or school buildings may be designated by the Superintendent or the Superintendent's designee as closed to in-district transfers based on capacity.

Students in attendance at a specific school will typically be permitted to complete their education at that attendance area school if the family moves within the District during the school year.

Students in attendance at a specific school will typically be permitted to complete their education at that attendance area school if the boundary is changed, placing the family in another attendance center.

When attendance area boundary changes are adopted by the Board, the Superintendent or the Superintendent's designee shall have the authority and discretion to implement a boundary transition plan for students affected by such change. The boundary transition plan shall be

communicated in a timely manner to parents/**guardians** whose children will be impacted by the boundary change.

The Superintendent or the Superintendent's designee shall also have the authority to place any student in a school outside of the student's boundary area when legally required, including circumstances involving special education students.

StudentsHome Schooling (Rule 13 NDE)

The Scottsbluff Public School District recognizes that students in Nebraska may elect the option of home schooling, as set forth in Nebraska Revised Statute § 79-1701 and regulated by Rule 13 NDE, effective August 1984.

The Board of Education encourages all school-age children of district residents to enroll in the public schools so they may benefit from a planned educational program and the socialization of a group environment.

The following policy shall govern:

1. Reintegration of Rule 13 students to the Scottsbluff Public Schools; and,
2. The provision of auxiliary or supplemental educational and activity services to Rule 13 students.

Reintegration

When a Rule 13 student enrolls in ~~the~~ Scottsbluff Public Schools ~~District~~, the District reserves the right to make an appropriate grade level placement and credit issuance that fulfills the needs of the child and the District.

The appropriate level of placement or credit issuance may be determined by, but not limited to, consideration of all or some of the following information:

1. Chronological age;
2. Transcript review, previous public or private school experience;
3. Diagnostic testing data;
4. Achievement test data;
5. Criterion referenced test data;
6. Final exam test data; and/or,
7. Administrative/counselor review.

StudentsStudent DisciplineDevelopment of Uniform Discipline System

It shall be the responsibility of the administration to develop and maintain a system of uniform discipline. The discipline which may be imposed includes actions which are determined to be reasonably necessary to aid the student, to further school purposes, or to prevent interference with the educational process, such as (without limitation) counseling and warning students, parent/guardian contacts and conferences, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling, psychological evaluation, or psychiatric evaluation, upon written consent of the parent/guardian, or in-school suspension. The discipline may also include out-of-school suspension (short-term or long-term) and expulsion.

Short-Term Suspension

Students may be excluded by the principal or assistant principal from school or any school function for a period of up to five school days (short-term suspension) on the following grounds:

1. Conduct that constitutes grounds for expulsion, whether the conduct occurs on or off school grounds.
2. Other violations of rules and standards of behavior adopted by the Board of Education or the administrative or teaching staff of the school, which occur on or off school grounds, if such conduct interferes with school purposes or there is a nexus between such conduct and school.

The following process will apply to short-term suspensions:

1. The principal or assistant principal will make a reasonable investigation of the facts and circumstances. A short-term suspension will be made upon a determination that the suspension is necessary to help any student, to further school purposes, or to prevent an interference with school purposes.
2. Prior to commencement of the short-term suspension, the student will be given oral or written notice of the charges against the student. The student will be advised of what the student is accused of having done, an explanation of the evidence the authorities have, and be afforded an opportunity to explain the student's version of the facts.
3. Within 24 hours or such additional time as is reasonably necessary, not to exceed an additional 48 hours, following the suspension, the principal or assistant principal will send a written statement to the student and the student's parent/guardian describing the student's conduct, misconduct, or violation of the rule or standard and the reasons for the action taken.
4. An opportunity will be given to the student, and the student's parent/guardian, to have a conference with the principal or assistant principal ordering the short-term suspension before or at the time the student returns to school. The principal or assistant principal shall determine who in addition to the parent/guardian is to attend the conference. The

principal shall document their attempt to make a reasonable effort to hold a conference with the parent/guardian.

5. A student who is on a short-term suspension shall not be permitted to be on school grounds without the express permission of the principal or assistant principal.

Long-Term Suspension

A long-term suspension means an exclusion from school and any school functions for a period of more than five school days but less than 20 school days. A student who is on a long-term suspension shall not be permitted to be on school grounds without the express permission of the principal or assistant principal. A notice will be given to the student and the parent/guardian when the principal or assistant principal recommends a long-term suspension. The notice will include a description of the procedures for long-term suspension; the procedures will be those set forth in the Student Discipline Act.

Expulsion

Expulsion means exclusion from attendance in all schools, grounds, and activities of or within the system for a period not to exceed the remainder of the semester in which it took effect unless the misconduct occurred:

- a. Within ten school days prior to the end of the first semester, in which case the expulsion shall remain in effect through the second semester;
- b. Within ten school days prior to the end of the second semester, in which case the expulsion shall remain in effect for summer school and the first semester of the following school year; or,
- c. Unless the expulsion is for conduct specified in these rules or in law as permitting or requiring a longer removal, in which case the expulsion shall remain in effect for the period specified therein. Such action may be modified or terminated by the ~~School~~ District at any time during the expulsion period. A student who has been expelled shall not be permitted to be on school grounds without the express permission of the principal or assistant principal. A notice will be given to the student and the parent/guardian when the principal or assistant principal recommends an expulsion. The notice will include a description of the procedures for expulsion. The procedures will be those set forth in the Student Discipline Act.

Suspensions, ~~Expulsion~~, and ~~Mandatory Reassignments~~ Pending Hearing

When a notice of intent to discipline a student by long-term suspension, expulsion, or mandatory reassignment is filed with the Superintendent, the student may be suspended by the principal or assistant principal until the date the long-term suspension, expulsion, or mandatory reassignment takes effect if the principal or assistant principal determines that the student must be suspended immediately to prevent or substantially reduce the risk of interference with an educational function or school purpose or a personal injury to the student himself or herself, other students, school employees, or school volunteers. If the student is suspended pending the outcome of the hearing, the student may complete classwork and homework, including, but not limited to, examinations, missed during the period of suspension. During this period, the student will not be

required to attend the alternative programs for expelled students in order to complete classwork or homework.

Summer Review

Any expulsion that will remain in effect during the first semester of the following school year will be automatically scheduled for review before the beginning of the school year in accordance with law.

Alternative Education

Students who are expelled may be offered an alternative education program that will enable the student to continue academic work for credit toward graduation. A student will not be required to attend the alternative education program in order to complete classwork and homework. In the event an alternative education program is not provided, a conference will be held with the parent/guardian, the student, a school representative, and a representative of either a community organization with a mission of assisting young people or a representative of an agency involved with juvenile justice. The plan shall be in writing and adopted by a school administrator and presented to the student and the parent/guardian. The plan shall:

1. Specify guidelines and consequences for behaviors which have been identified as preventing the student from achieving the desired benefits from the educational opportunities provided;
2. Identify educational objectives that must be achieved in order to receive credits toward graduation;
3. Specify the financial resources and community programs available to meet both the educational and behavioral objectives identified; and,
4. Require the student to attend monthly reviews in order to assess the student's progress toward the specified goals and objectives.

Suspension of Enforcement of an Expulsion

Enforcement of an expulsion action may be suspended (i.e., "stayed") for a period of not more than one full semester in addition to the balance of the semester in which the expulsion takes effect. As a condition of such suspended action, the student and parent/guardian will be required to sign a discipline agreement.

Students Subject to Juvenile or Court Probation

Prior to the readmission to school of any student who is less than 19 years of age and who is subject to the supervision of a juvenile probation officer or an adult probation officer pursuant to the order of the District Court, County Court, or Juvenile Court, who chooses to meet conditions of probation by attending school, and who has previously been expelled from school, the principal or assistant principal shall meet with the student's probation officer and assist in developing conditions of probation that will provide specific guidelines for behavior and consequences for misbehavior at school (including conduct on school grounds and conduct during an educational function or event off school grounds) as well as educational objectives that must be achieved. If the guidelines, consequences, and objectives provided by the principal or assistant principal are agreed to by the probation officer and the student, and the court permits

the student to return to school under the agreed to conditions, the student may be permitted to return to school. The student may with proper consent, upon such return, be evaluated by the school for possible disabilities and may be referred for evaluation for possible placement in a special education program. The student may be expelled or otherwise disciplined for subsequent conduct as provided in Board policy and state statute.

Returning from Expulsion

At the conclusion of an expulsion, the District will reinstate the student and accept nonduplicative, grade-appropriate credits earned by the student during the term of expulsion from any Nebraska accredited institution accredited by one of the six regional accrediting bodies in the United States.

Exception for Pre-Kindergarten through Second Grade Students

Notwithstanding the foregoing, no pre-kindergarten through second grade student may be suspended from school, unless the student brings a deadly weapon on school grounds, in a school vehicle, or to a school activity. Instead, the principal or principal's designee may implement alternative disciplinary measures on a case-by-case basis if a pre-kindergarten through second grade student engages in misconduct that would otherwise result in a short-term suspension. If a pre-kindergarten through second grade student brings a deadly weapon on school grounds, in a school vehicle, or to a school activity, then the student may be suspended or expelled in accordance with this policy's disciplinary measures.

Religious Freedom

The District will not substantially burden a student's right to religious exercise unless the student's religious exercise is disruptive to the school environment, not permitted by staff, may pose a safety risk, or would otherwise interfere with the school day.

Emergency Exclusion

A student may be excluded from school, with authorization from the Superintendent, in the following circumstances:

1. If the student has a dangerous communicable disease transmissible through normal school contacts and poses an imminent threat to the health or safety of the school community;
2. If the student's conduct presents a clear threat to the physical safety of himself, herself, or others, or is so extremely disruptive as to make temporary removal necessary to preserve the rights of other students to pursue an education;
3. Any emergency exclusion shall be based upon a clear factual situation warranting it and shall last no longer than is necessary to avoid the dangers described above; and/or,
4. If the emergency exclusion will be for five school days or less, the procedures for a short-term suspension shall be followed. If the Superintendent or the Superintendent's designee determines that an emergency exclusion shall extend beyond five days, a hearing is to be held and a final determination made within 10 school days after the initial date of exclusion. Such procedures shall substantially comply with the procedures set forth in

this policy for a long-term suspension or expulsion, and be modified only to the extent necessary to accomplish the hearing and determination within this shorter time period.

Other Forms of Student Discipline

Administrative and teaching personnel may also take actions regarding student behavior, other than removal of students from school, which are reasonably necessary to aid the student, further school purposes, or prevent interference with the educational process. When in-school suspensions, after-school assignments, or other disciplinary measures are assigned, the student is responsible for complying with such disciplinary measures. A failure to serve such assigned discipline as directed will serve as grounds for further discipline, up to expulsion from school.

Student Conduct Expectations

Students are not to engage in conduct which causes or which creates a reasonable likelihood that it will cause a substantial disruption in or material interference with any school function, activity or purpose, or interfere with the health, safety, wellbeing, or rights of other students, staff, or visitors.

Grounds for Short-Term Suspension

1. Truancy or failure to attend assigned classes or assigned activities, or tardiness to school, assigned classes, or assigned activities;
2. The use of language, written or oral, or conduct, including gestures, which is profane or abusive to students or staff members. Profane or abusive language or conduct includes, but is not limited to, that which is commonly understood and intended to be derogatory toward a group or individual based upon race, gender, disability, national origin, or religion;
3. Willfully disobeying any reasonable written or oral request of a school staff member, or the voicing of disrespect to those in authority; or,
4. Willfully violating the behavioral expectations for riding school buses or vehicles.

Grounds for Long-Term Suspension, Expulsion or Mandatory Reassignment

The following conduct shall constitute grounds for long-term suspension, expulsion, or mandatory reassignment, subject to the procedural provisions of the Student Discipline Act when such activity occurs on school grounds, in a vehicle owned, leased, or contracted by a school and being used for a school purpose or in a vehicle being driven for a school purpose by a school employee, or by his/her designee, or at a school-sponsored activity or athletic event:

1. Use of violence, force, coercion, threat, intimidation, or similar conduct in a manner that constitutes a substantial interference with school purposes;
2. Willfully causing or attempting to cause substantial damage to property, stealing or attempting to steal property of substantial value, or repeated damage or theft involving property;
3. Causing or attempting to cause personal injury to a school employee, to a school volunteer, or to any student. Personal injury caused by accident, self-defense, or other action undertaken on the reasonable belief that it was necessary to protect some other person shall not constitute a violation of this subdivision;

4. Threatening or intimidating any student for the purpose of or with the intent of obtaining money or anything of value from such student;
5. Knowingly possessing, handling, or transmitting any object or material that is ordinarily or generally considered a weapon;
6. Engaging in the unlawful possession, selling, dispensing, or use of a controlled substance or an imitation controlled substance, as defined in Neb. Rev. Stat. § 28-401, a substance represented to be a controlled substance or alcoholic liquor as defined in Neb. Rev. Stat. § 53-103.02 or being under the influence of a controlled substance or alcoholic liquor;
7. Public indecency as defined in Neb. Rev. Stat. § 28-806, except that this subdivision shall apply only to students at least twelve years of age but less than nineteen years of age;
8. Engaging in bullying as defined in Neb. Rev. Stat. § 79-2,137. This includes “deep fakes” or other computer-generated images of other students or staff intended to bully, harass, intimidate, or humiliate another student or staff member;
9. Sexually assaulting or attempting to sexually assault any person if a complaint has been filed by a prosecutor in a court of competent jurisdiction alleging that the student has sexually assaulted or attempted to sexually assault any person, including sexual assaults or attempted sexual assaults which occur off school grounds not at a school function, activity, or event. For purposes of this subdivision, sexual assault means sexual assault in the first degree as defined in Neb. Rev. Stat. § 28-319, sexual assault in the second degree as defined in Neb. Rev. Stat. § 28-320, sexual assault of a child in the second or third degree as defined in Neb. Rev. Stat. § 28-320.01, or sexual assault of a child in the first degree as defined in Neb. Rev. Stat. § 28-319.01, as such sections now provide or may hereafter from time to time be amended;
10. Engaging in any other activity forbidden by the laws of the State of Nebraska which activity constitutes a danger to other students or interferes with school purposes; or,
11. A repeated violation of any rules and standards validly established pursuant to Neb. Rev. Stat. § 79-262, if such violations constitute a substantial interference with school purposes, including (but not limited to) a violation of the District’s dress code and electronic communication device rules.

Additional Student Conduct Expectations and Grounds for Discipline

The following additional student conduct expectations are established. Failure to comply with such rules is grounds for disciplinary action. When such conduct occurs on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or by his/her designee, or at a school-sponsored activity or athletic event, the conduct is grounds for long-term suspension, expulsion, or mandatory reassignment.

Student Appearance

Students are expected to dress in a way that is appropriate for the school setting. Students should not dress in a manner that is reasonably forecasted to interfere with the learning environment or teaching process in our school. Specific expectations should be re-evaluated each year and be consistent with Parent-Student Handbooks.

Consideration will be made for students who wear special clothing as required by religious beliefs, disability, or to convey a particularized message protected by law. A student who is a member of an indigenous tribe of the United States or another country may wear tribal regalia at any location where the student is authorized to be on such school grounds or at any school function, as long as the tribal regalia does not interfere with the educational process and does not endanger another person, as determined by the administration. Further, students will also be permitted to wear attire, including religious attire, natural and protective hairstyles, adornments, or other characteristics associated with race, national origin, or religion, as long as the attire does not interfere with the educational process and does not endanger another person, as determined by the administration.

No student shall be disproportionately affected by a dress code or grooming policy enforcement because of the student's gender, race, color, religion, disability, or national origin.

No school staff shall permanently or temporarily alter or cut a student's hair.

The final decision regarding attire and grooming will be made by the principal or Superintendent. In the event a student is uncertain as to whether a particular item or method of grooming is consistent with the school's guidelines, the student should contact the principal for approval, and may also review such additional posting of prohibited items or grooming which may be available in the principal's office.

A student dress code violation will be treated as a minor rule violation and may not require the student to miss substantial classroom time, instructional time, or school activities. However, a repeated violation of school rules may subject the student to further discipline, as outlined in this policy.

Coaches, sponsors, or teachers may have additional requirements for students who are in special lab classes, students who are participants in performing groups, or students who are representing the school as part of an extracurricular activity program.

Academic Integrity Policy Statement

Students are expected to abide by the standards of academic integrity. Standards of academic integrity are established in order for students to learn as much as possible from instruction, for students to be given grades which accurately reflect the student's level of learning and progress, to provide a level playing field for all students, and to develop appropriate values. Cheating and plagiarism violate the standards of academic integrity. Sanctions will be imposed against students who engage in such conduct.

Definitions - The following definitions provide a guide to the standards of academic integrity:

- “Cheating” means intentionally misrepresenting the source, nature, or other conditions of academic work so as to accrue undeserved credit, or to cooperate with someone else in such misrepresentation. Such misrepresentations may, but need not necessarily, involve the work of others. Cheating includes, but is not limited to:
 1. Tests - Includes tests, quizzes, and other examinations or academic performances.

- a. Advance Information. Obtaining, reviewing or sharing copies of tests or information about a test before these are distributed for student use by the instructor. For example, a student engages in cheating if, after having taken a test, the student informs other students in a later section of the questions that appear on the test.
 - b. Use of Unauthorized Materials - Using notes, textbooks, pre-programmed formula in calculators, or other unauthorized material, devices, or information while taking a test except as expressly permitted. For example, except for “open book” tests, a student engages in cheating if the student looks at personal notes or the textbook during the test.
 - c. Use of Other Student Answers - Copying or looking at another student’s answers or work, or sharing answers or work with another student when taking a test, except as expressly permitted. For example, a student engages in cheating if the student looks at another student’s paper during a test. A student also engages in cheating if the student tells another student answers during a test or while exiting the testing room, or knowingly allows another student to look at the student’s answers on the test paper.
 - d. Use of Other Student to Take Test - Having another person take one's place for a test, or taking a test for another student, without the specific knowledge and permission of the instructor.
 - e. Misrepresenting Need to Delay Test - Presenting false or incomplete information in order to postpone or avoid the taking of a test. For example, a student engages in cheating if the student misses class on the day of a test, claiming to be sick, when the student’s real reason for missing class was because the student was not prepared for the test.
2. Papers - Includes papers, essays, lab projects, and other similar academic work
 - a. Use of Another’s Paper - Copying another student’s paper, using a paper from an essay writing service, or allowing another student to copy a paper, without the specific knowledge and permission of the instructor.
 - b. Re-use of One’s Own Papers - Using a substantial portion of a piece of work previously submitted for another course or program to meet the requirements of the present course or program without notifying the instructor to whom the work is presented.
 - c. Assistance from Others - Having another person assist with the paper to such an extent that the work does not truly reflect the student’s work. For example, a student engages in cheating if the student has a draft essay reviewed by the student’s parent/**guardian** or sibling, and the essay is substantially rewritten by the student’s parent/**guardian** or sibling. Assistance from home is encouraged, but the work must remain the student’s.
 - d. Failure to Contribute to Group Projects - Accepting credit for a group project in which the student failed to contribute a fair share of the work.
 - e. Misrepresenting Need to Delay Paper - Presenting false or incomplete information in order to postpone or avoid turning in a paper when due. For example, a student engages in cheating if the student misses class on the

day a paper is due, claiming to be sick, when the student's real reason for missing class was because the student had not finished the paper.

- f. Alteration of Assigned Grades - Any unauthorized alteration of assigned grades by a student in the teacher's grade book or the school records is a serious form of cheating.
- "Plagiarism" means to take and present as one's own material portion of the ideas or words of another or to present as one's own an idea or work derived from an existing source without full and proper credit to the source of the ideas, words, or works. Plagiarism includes, but is not limited to:
 1. Failure to Credit Sources - Copying work (words, sentences, paragraphs, illustrations, or models) directly from the work of another without proper credit. Academic work frequently involves use of outside sources. To avoid plagiarism, the student must either place the work in quotations or give a citation to the outside source.
 2. Falsely Presenting Work as One's Own - Presenting work prepared by another in final or draft form as one's own without citing the source, such as the use of purchased research papers or use of another student's paper.
 3. "Contributing to academic integrity violations" - To participate in or assist another in cheating or plagiarism. It includes, but is not limited to, allowing another student to look at your test answers, to copy your papers or lab projects, and to fail to report a known act of cheating or plagiarism to the instructor or administration.

Sanctions

The following sanctions will occur when a student engages in cheating, plagiarism, or contributing to an academic integrity offense: Academic integrity offenses are a violation of school rules. The principal or assistant principal may recommend sanctions in addition to those assigned by the instructor, up to and including suspension or expulsion. Such additional sanctions will be given strong consideration where a student has engaged in serious or repeated academic integrity offense or other rule violations, and where the academic sanction is otherwise not a sufficient remedy, such as for offenses involving altering assigned grades or contributing to academic integrity violations.

Electronic Devices - Philosophy and Purpose

The District strongly discourages students from bringing personal electronic devices to school. Personal electronic devices can be disruptive to the educational process and are items that are frequently lost or stolen. In order to maintain a secure and orderly learning environment, and to promote respect and courtesy regarding the use of personal electronic devices, the District hereby establishes the following rules and regulations governing student use of electronic devices, and procedures to address student misuse of electronic devices.

Definitions

- "Electronic devices" include, but are not limited to, cell phones, iPods, tablets, Chromebooks, portable game consoles, cameras, digital scanners, laptop computers,

smart watches, and other electronic or battery powered instruments which transmit voice, text, or data from one person to another.

- “Sexting” means generating, sending or receiving, encouraging others to send or receive, or showing others, through an electronic device, a text message, photograph, video, or other medium that:
 1. Displays any sexually explicit conduct as defined by the Neb. Rev. Stat. § 28-1463.02;
 2. Sexually exploits a person, whether or not such person has given consent to creation or distribution of the message, photograph, or video by permitting, allowing, encouraging, disseminating, distributing, or forcing such student or other person to engage in sexually explicit, obscene, or pornographic photography, films, or depictions; and/or,
 3. Displays a sexually explicit message for sexual gratification, flirtation, or provocation, or to request or arrange a sexual encounter.

Violations - Prohibited Use of Electronic Devices

Students shall not use electronic devices for:

1. Activities which disrupt the educational environment;
2. Illegal activities in violation of state or federal laws or regulations;
3. Unethical activities, such as cheating on assignments or tests;
4. Immoral or pornographic activities;
5. Activities in violation of Board or school policies and procedures relating to student conduct and harassment;
6. Recording others (photographs, videotaping, sound recording, etc.) or otherwise transmitting images and/or sounds of another person or persons without direct administrative approval and consent of the person(s) being recorded, other than recording of persons participating in school activities that are open to the public;
7. “Sexting;” or,
8. Activities which invade the privacy of others.

Such student misuses will be dealt with as serious school violations, and immediate and appropriate disciplinary action will be imposed, including, but not limited to, suspension and expulsion from school.

Disposition of Confiscated Electronic Devices

Electronic devices possessed or used in violation of this policy may be confiscated by school personnel and returned to the student or parent/guardian at an appropriate time.

Penalties for Prohibited Use of Electronic Devices

Students who receive a “sexting” message are to report the matter to a school administrator and then delete such message from their electronic device. Students shall not participate in “sexting” or have any “sexting” message on their electronic devices regardless of when the message was received while on school grounds or at a school activity. Students who violate the prohibitions of this policy shall be subject to the imposition of appropriate disciplinary action, up to and including expulsion.

Reporting to Law Enforcement

Violations of this policy regarding the prohibited use of electronic devices that may constitute a violation of federal or state laws and regulations, including, but not limited to, the Nebraska Child Protection Act or the Nebraska Child Pornography Prevention Act shall be reported to appropriate legal authorities and law enforcement.

Responsibility for Electronic Devices

The school shall not be responsible, financially or otherwise, for any unclaimed electronic devices. By bringing such devices to school, student and parent/guardian authorizes the school to dispose of unclaimed devices at the end of each semester. The District is not responsible for the security and safekeeping of students' electronic devices and is not financially responsible for any damage, destruction, or loss of electronic devices.

Inappropriate Public Displays of Affection (IPDA)

Students are not to engage in inappropriate public displays of affection on school property or at school activities. Such conduct includes kissing, touching, fondling, or other displays of affection that would be reasonably considered to be embarrassing or a distraction to others. Students will face the following consequences for IPDA: Consequences consistent with each school's Parent-Student Handbook.

If this type of behavior continues, or if the IPDA is lewd or constitutes sexual conduct, the student could face long-term suspension or expulsion.

Specific Rule Items

Specific rules will be developed at the school and the District level and reviewed each year. These expectations will be included in each school's Parent-Student Handbook.

Law Violations

Any act of a student which is a basis for expulsion and which the principal or assistant principal knows or suspects is a violation of the Nebraska Criminal Code shall be reported to law enforcement as soon as possible. Conduct to be reported for law enforcement referral includes conduct that may constitute a felony, conduct which may constitute a threat to the safety or well-being of students or others in school programs and activities, and conduct that the legal system is better equipped to address than school officials. Conduct that does not need to be reported for law enforcement referral includes typical adolescent behavior that can be addressed by school administrators without the involvement of law enforcement. In making the decision of whether to report, consideration should be given to the student's maturity, mental capacity, and behavioral disorders, where applicable. When appropriate, it shall be the responsibility of the referring administrator to contact the student's parent/guardian of the fact that the referral to legal authorities has been or will be made.

The foregoing reporting standards shall be reviewed annually by the **School** Board on or before August 1 of each year, be annually reviewed in collaboration with the County Attorney each year, be distributed to each student and his/her parent/guardian at the beginning of each school

year, or at the time of enrollment if during the school year, and shall be posted in conspicuous places in each school during the school year.

When a principal or other school official releases a minor student to a peace officer (e.g., police officer, sheriff, and all other persons with similar authority to make arrests) for the purpose of removing the minor from the school premises, the principal or other school official shall take immediate steps to notify the parent/guardian or responsible relative of the minor regarding the release of the minor to the officer and regarding the place to which the minor is reportedly being taken, except when a minor has been taken into custody as a victim of suspected child abuse, in which case the principal or other school official shall provide the peace officer with the address and telephone number of the minor's parent/guardian.

1. An alternative school, class, or educational program (hereinafter referred to as an "alternative program"); or,
2. The development of a plan of behavior modification, educational objects, and financial resources and community programs available to meet the behavioral and educational objects, and monthly reviews to assess the student's progress toward meeting the specified goals and objects.

An expelled student may not be required to attend an alternative program.

Alternative Education Program

The Superintendent or the Superintendent's designee is hereby granted the authority to arrange and plan for a student's alternative educational program, based on the available resources and the student's individual circumstances.

Education Plan Program

If the administration elects not to provide an alternative education program, or if a student declines to participate in the alternative education program, the following procedures shall be:

1. A conference shall be called by a school administrator and held to assist the District in the development of a plan with the participation of a parent/guardian, the student, a school representative, and a representative of either a community organization with a mission of assisting young people or a representative of an agency involved with juvenile justice

StudentsExtracurricular Activity1. Extracurricular Activity Philosophy

Extracurricular activity programs enrich the curriculum of the school by making available a wide variety of activities in which a student can participate. Extracurricular activity programs are considered an integral part of the school's program of education that provide experiences that will help students physically, mentally and emotionally.

The element of competition and winning, though it exists, is controlled to the point it does not determine the nature or success of the program. This is considered to be educationally and psychologically sound because of the training it offers for living in a competitive society. Students are stimulated to want to win and excel, but the principles of good sportsmanship prevail at all times to enhance the educational values of contests.

Participation in activities, both as a competitor and as a student spectator, is an integral part of the students' educational experiences. Such participation is a privilege that carries with it responsibilities to the school, team, student body, community, and the students themselves. In their play and their conduct, students are representing all of these groups. Such experiences contribute to the knowledge, skill, and emotional patterns that they possess, thereby making them better individuals and citizens.

- a. Safety - The District's philosophy is to maintain an activities program which recognizes the importance of the safety of the participants. To ensure safety, participants are required to become fully familiar with the dangers and safety measures established for the activity in which they participate, to adhere to all safety instructions for the activity in which they participate, to inform their coach or sponsor when they are injured or have health problems that require their activities be restricted, and to exercise common sense.
- b. Warning for Participants and Parent/Guardian - The purpose of this warning is to bring your attention to the existence of potential dangers associated with athletic injuries. Participation in any intramural or athletic activity may involve injury of some type. The severity of such injury can range from minor cuts, bruises, sprains, and muscle strains to more serious injuries to the body's bones, joints, ligaments, tendons, or muscles, to catastrophic injuries to the head, neck, and spinal cord. On rare occasions, injuries can be so severe as to result in total disability, paralysis, or death. Even with appropriate coaching, appropriate safety instruction, appropriate protective equipment and strict observance of the rules, injuries are still a possibility.

2. Extracurricular Activity Code of Conduct

- a. Purpose of the Code of Conduct - Participation in extracurricular activities is a privilege. The privilege carries with it responsibilities to the school, team, student body, and the community. Participants are not only representing themselves, but also their school and community in all of their actions. Others judge our school on the student participants' conduct and attitudes, and how they contribute to our school

spirit and community image. The student participants' performance and devotion to high ideals and values make their school and community proud. Consequently, participation is dependent upon adherence to this Code of Conduct and the ~~School~~ District's policies, procedures, and rules.

- b. Scope of the Code of Conduct - Activities Subject to the Code of Conduct. The Code of Conduct applies to all extracurricular activities. Extracurricular activities means student activities or organizations which are supervised or administered by the ~~School~~ District which do not count toward graduation or grade advancement and in which participation is not otherwise required by the school.

Extracurricular activities include but are not limited to all school-sponsored activities. The Code of Conduct also applies to participation in school sponsored activities such as school dances and royalty for such activities.

A participant means a student who participates in, has participated in, or will participate in an extracurricular activity.

- i. When - This policy will begin on the Monday of Week 7 of the current NSAA calendar (first day of fall practice) and continue until Sunday of Week 7 of the following year NSAA calendar.
 - ii. Where - The Code of Conduct rules apply regardless of whether the conduct occurs on or off school grounds. If the conduct occurs on school grounds, at a school function or event, or in a school vehicle, the student may also be subject to further discipline under the general student code of conduct. A student who is suspended or expelled from school shall not be permitted to participate in activities during the period of the suspension or expulsion, and may also receive an extended activity suspension.
3. Grounds for Extracurricular Activity Discipline
Students who participate in extracurricular activities are expected to demonstrate cooperation, patience, pride, character, self-respect, self-discipline, teamwork, sportsmanship, and respect for authority. The following conduct rules have been determined by the Board of Education to be reasonably necessary to aid students, further school purposes, and prevent interference with the educational process. Such conduct constitutes grounds for suspension from participation in extracurricular activities and grounds for other restrictions or disciplinary measures related to extracurricular activity participation:
 - a. Willfully disobeying any reasonable written or oral request of a school staff member, or the voicing of disrespect to those in authority;
 - b. Use of violence, force, coercion, threat, intimidation, bullying, harassment, or similar conduct in a manner that constitutes a substantial interference with school or extracurricular activity purposes or making any communication that a reasonable person would interpret as a serious expression of an intent to harm or cause injury to another;

- c. Willfully causing or attempting to cause substantial damage to property, stealing or attempting to steal property, repeated damage or theft involving property, or setting or attempting to set a fire of any magnitude;
- d. Causing or attempting to cause personal injury to any person, including a school employee, school volunteer, or student. Personal injury caused by accident, self-defense, or other action undertaken on the reasonable belief that it was necessary to protect another person shall not constitute a violation;
- e. Threatening or intimidating any student for the purpose of, or with the intent of, obtaining money or anything of value from a student or making a threat which causes or may be expected to cause a disruption to school operations;
- f. Knowingly possessing, handling, or transmitting any object or material that is ordinarily or generally considered a weapon (including personal safety or security devices, such as tasers, mace, and pepper spray, unless a district administrator gives prior approval) or that has the appearance of a weapon, or bringing or possessing any explosive device, including fireworks, on school grounds or at a school function or event, or in a manner that is unlawful or contrary to school activity rules;
- g. Engaging in selling, using, possessing, or dispensing of alcohol, tobacco, narcotics, drugs, controlled substance, or an inhalant; being under the influence of any of the above; possession of drug paraphernalia, or the selling, using, possessing, or dispensing of an imitation controlled substance as defined in Neb. Rev. Stat. § 28-401, or material represented to be alcohol, narcotics, drugs, a controlled substance, or inhalant. Tobacco means any tobacco product (including but not limited to cigarettes, cigars, and chewing tobacco), vapor products (such as e-cigarettes), electronic nicotine delivery systems, alternative nicotine products, tobacco product look-alikes, and products intended to replicate tobacco products either by appearance or effect. Use of a controlled substance in the manner prescribed for the student by the student's physician is not a violation. The term "under the influence" has a less strict meaning than it does under criminal law. For school purposes, the term means any level of impairment and includes even the odor of alcohol or illegal substances on the breath or person of a student; also, it includes being impaired by reason of the abuse of any material used as a stimulant;
- h. Public indecency;
- i. Sexual assault or attempting to sexually assault any person. Engaging in sexual conduct, even if consensual, on school grounds, or at a school function or event;
- j. Engaging in any activity forbidden by law which constitutes a danger to other students, interferes with school purposes or an extracurricular activity, or reflects a lack of high ideals;
- k. Repeated violation of any of the school rules;
- l. Truancy or failure to attend assigned classes or assigned activities; tardiness to school, assigned classes or assigned activities;
- m. The use of language, written or oral, or conduct, including gestures, which is profane or abusive to a school employee, school volunteer, or student. Profane or abusive language or conduct includes, but is not limited to, that which is commonly

- understood and intended to be derogatory toward a group or individual based upon race, gender, national origin, or religion;
- n. Willfully violating the behavioral expectations for those students riding Scottsbluff Public Schools buses or vehicles used for activity purposes;
 - o. Failure to report for the activity at the beginning of the season. Reporting for one activity may count as reporting on time if there is a change in activity within the season approved by the coach or sponsor;
 - p. Failure to participate in regularly scheduled classes on the day of an extracurricular activity or event;
 - q. Failure to attend scheduled practices and meetings. If circumstances arise to prevent the participant's attendance, the validity of the reason will be determined by the coach or sponsor. Every reasonable effort should be made to notify the coach or sponsor prior to any missed practice or meeting;
 - r. All other reasonable rules or regulations adopted by the coach or sponsor of an extracurricular activity shall be followed, provided that participants shall be advised by the coach or sponsor of such rules and regulations in writing; and/or,
 - s. Failure to comply with any rule established by the Nebraska School Activities Association, including, but not limited to, the rules relating to eligibility.

All terms used in the Code of Conduct have a less strict meaning than under criminal law and are subject to reasonable interpretation by school officials.

4. Drug and Alcohol Violations - Meaning of Terms

- a. "Use" or "consume" includes any level of consumption or use. Use of a controlled substance in the manner prescribed for the student by the student's physician is not a violation.
- b. "Under the influence" means any level of impairment and includes even the odor of alcohol on the breath or person of a student, or the odor of an illicit drug on the student. Also, it includes being impaired by reason of the abuse of any material used as a stimulant.
- c. "Possession" includes having control of the substance and also includes being in the same area where the substance is present and no responsible adult present and responsible for the substance. Possession includes situations where, for example:
 - i. Alcohol is in a vehicle in which the student is present. The student is considered to be in possession if the student is aware that the alcohol is in the vehicle, even though the student has not touched or consumed the alcohol; or,
 - ii. Alcohol is present at a party attended by the student. The student is considered to be in possession if the student is aware that alcohol is at the party and fails to immediately leave the party, even though the student has not touched or consumed the alcohol.

In these situations, a violation would not exist if the alcohol is in the control of a parent/guardian or other responsible adult (age 21 or older) such that students are not allowed to access the alcohol. A violation would also not exist if the student did not know, or have a reasonable basis to know, that alcohol would be present, and the student leaves the location where the alcohol is present as soon as the student could safely do so.

Students are expected to leave immediately, but are not to do so in a manner that would endanger them. For example, you are not to leave in a car being driven by a person who has been drinking just to get away from the alcohol party immediately when there is no other way to get home. Instead, you should call for a safe ride home and, while waiting, clearly distance yourself from the alcohol.

5. Determining a Violation Has Occurred

A violation of the Code of Conduct will be determined to have occurred based on any of the following criteria:

- a. When a student is cited by law enforcement and school officials have a reasonable basis for determining that grounds for the issuance of the citation exist;
- b. When a student is convicted of a criminal offense. Conviction includes, without limitation, a plea of no contest and an adjudication of delinquency by the juvenile court;
- c. When a student fails or refuses to submit to a court-ordered or school-ordered drug test;
- d. When a student admits to violating one of the standards of the Code of Conduct;
- e. When a student is accused by another person of violating one of the standards of the Code of Conduct and school officials determine that such information is reliable; and/or,
- f. When school officials otherwise find sufficient evidence to support a determination that a violation has occurred.

6. Letters and Post-Season Honors

A student who commits a Code of Conduct violation is:

- a. Eligible to letter, provided the student meets the criteria of the coach or sponsor.
- b. Eligible to letter, if the student suspended from activities has committed one violation, the student may be considered for post season awards and recognition at the coach or sponsor's discretion; or,
- c. Not eligible to letter, receive any post season awards, or hold a school record if the student suspended from activities has two or more violations in the same season. If the violations occur within one activity season, the student may be eligible to letter, receive post season awards, or hold a school record for a separate activity upon the coach, sponsor, and Activities Director's approval.

7. Self-Reporting

A student who violates the Code of Conduct must self-report. The self-report must be made to the principal, Activities Director, or the head coach or sponsor of an activity in which the student participates. The student's parent/guardian may initiate the self-reporting process, but the student will be later required to give a written statement of the self-report. The self-report must be made before the end of the next school day after the conduct occurred and before participation in an extracurricular or cocurricular activity.

In making a self-report, the student must identify the events that took place, what conduct the student engaged in, and any witnesses to the student's conduct, and will be required to put this information in a written statement. In the event the student has received a criminal citation, charge, or ticket, and proclaims innocence of a violation, the student will be required to self-report such offense and provide information as to why they should be found innocent, not as it relates to the criminal offense, but as it relates to the Code of Conduct.

All students are expected to be honest and forthright with school officials. In the event the coach or sponsor or any school administrator asks a student participant for information pertaining to compliance (or lack of compliance) by the student or other student participants with the Code of Conduct or eligibility conditions for participation in activities, the student is expected to fully, completely, and honestly provide the information. Students may be disciplined for a failure to be honest and forthright.

8. Procedures for Extracurricular Discipline

The following procedures are established for suspensions from participation in extracurricular activities:

- a. Investigation - The school official(s) considering the suspension will conduct a reasonable investigation of the facts and circumstances and determine whether the suspension will help the student or other students, further school purposes, or prevent an interference with a school purpose.
- b. Meeting - Prior to commencement of the suspension, the school official considering the suspension or their designee will provide the student an opportunity to give the student's side of the story. The meeting for this purpose may be held in person or via a telephone conference.

The student will be given oral or written notice of what the student is accused of having done, an explanation of the evidence the school has, and the opportunity to explain the student's version. Detail is not required where the activity participant has made a self-report or otherwise admits the conduct. Names of informants may be kept confidential where determined to be appropriate.

The suspension may be imposed prior to the meeting if the meeting cannot reasonably be held before the suspension is to begin. In that case the meeting will occur as soon as reasonably practicable. The student is responsible for cooperating in the scheduling of the meeting.

- c. The Superintendent may designate the Activities Director or another administrator not responsible for the suspension decision as the Superintendent's designee to conduct the hearing and make a decision.

A form to request such a hearing must be signed by the parent/guardian. A form will be provided with the notice letter or otherwise be made available by request from the principal's office. The request for a hearing must be received by the District Office within five days of receipt of the notice letter.

If a hearing is requested:

- i. The hearing will be held within 10 calendar days of receipt of the request, subject to extension for good cause as determined by the Superintendent or the Superintendent's designee.
 - ii. The Superintendent or the Superintendent's designee will notify the participants of the time and place of the hearing a reasonable time in advance to allow preparation for the hearing.
 - iii. Upon conclusion of the hearing, a written decision will be rendered within five school days (10 calendar days if school is not in session). The written decision will be mailed or otherwise delivered to the participant and parent/guardian.
 - iv. A record of the hearing (copies of documents provided at the hearing and a tape recording or other recordation of the informal hearing) will be kept by the school if requested sufficiently in advance of the hearing by the parent/guardian.
- e. No Stay of Penalty - There will be no stay of the penalty imposed pending completion of the due process procedures.
- f. Opportunity for Informal Resolution - These due process procedures do not prevent the student or parent/guardian from discussing and settling the matter with the appropriate school officials at any stage.

Students participating in or who will participate in extracurricular activities that are found guilty of/or cited by law enforcement for:

- a. Use or possession of alcohol, or having consumed alcohol; or,

The suspension period will begin on the day the student is formally notified by the Activities Director or the building administrators and will continue for two weeks.

If the suspended student and parent/guardian have met with an approved counselor for drug and alcohol evaluation and rehabilitation then the suspended student may resume practice after a suspension period of one week, but will still be suspended from all public performances involving extracurricular activities for a minimum suspension of two weeks.

If the student hasn't begun participation in an extracurricular activity then the student will be excluded from the first two weeks of practice and all public performances of the first extracurricular activity in which the student is going to participate. If the suspended student and parent/guardian have met with an approved counselor for drug and alcohol evaluation and rehabilitation then the suspended student may resume practice after a minimum suspension of one week, but will still be suspended from all public performances involving extracurricular activities for the first two weeks of that extracurricular activity.

A second offense of a. or b. above during the policy year will result in the student being suspended from all extracurricular activities for the remainder of the policy year. Students participating in or who will participate in extracurricular activities, which are found guilty of/or cited by law enforcement for: a.) possessing or using tobacco, chewing or smoking; or, b.) a misdemeanor or public misconduct may be suspended from the next public performance involving extracurricular activities. In making a self-report, the student must identify the events that took place, what conduct the student engaged in, and any witnesses to the student's

conduct, and will be required to put this information in a written statement. In the event the student has received a criminal citation, charge, or ticket, and proclaims innocence of a violation, the student will be required to self-report such offense and provide information as to why they should be found innocent, not as it relates to the criminal offense, but as it relates to the Code of Conduct.

All students are expected to be honest and forthright with school officials. In the event the coach or sponsor or any school administrator asks a student participant for information pertaining to compliance (or lack of compliance) by the student or other student participants with the Code of Conduct or eligibility conditions for participation in activities, the student is expected to fully, completely, and honestly provide the information. Students may be disciplined for a failure to be honest and forthright.

Students who fail to fulfill their obligation of attending tutoring may not be allowed to participate in the next public performance, competition, or activity. The first time a student becomes ineligible, he/she may petition for Academic Probation and Recovery. See below.

15. Academic Probation & Recovery

Students earning one F may be placed on academic probation & recovery. Students may attend practice and/or participate in a performance, competition, or activity after attending study hall. Probationary status is granted for the period of one week. Probationary status may be used only once per season/activity. The parent/guardian must attend the drug and alcohol evaluation with their student. A list of approved counselors will be in the Scottsbluff High School activities office. This reduction will not apply to second or third offenses.

This policy will be in effect for the entirety of the calendar year beginning the start of fall activities (according to the NSAA calendar). The parent/guardian must attend the drug and alcohol evaluation with their student. A list of approved counselors will be in the Scottsbluff High School activities office. This reduction will not apply to second or third offenses.

This policy will be in effect for the entirety of the calendar year beginning the start of fall activities (according to the NSAA calendar). All suspension periods will begin on the day the student is formally notified by the Activities Director or any building administrator. If the student is not currently enrolled to participate in an extracurricular activity, the suspension will begin upon the student's next season of participation. If the violation occurs at the end of the season, any unmet suspension will be carried over to the next season of participation.

20. Academic Standards

StudentsScottsbluff High School Mandatory and Voluntary Drug Testing Participation1. Mission Statement

The Board of Education for Scottsbluff Public Schools values students' participation in extracurricular activities. Such students, as role models for other students, are a key to our goal to provide the best possible educational program for our students. To achieve our goal and to maximize the skills and talents of our students, it is important that each student understands the dangers of drug and alcohol use. This policy statement should qualify our position on student drug and alcohol use. Participation in extracurricular activities is a privilege which can be taken away for failure to comply with this policy.

The purpose of this policy is as follows:

- a. To provide for the health and safety of all students;
- b. To undermine the effects of peer pressure by providing legitimate reason for students to refuse use of illegal drugs and/or alcohol;
- c. To identify students who use illegal drugs and/or alcohol; and,
- d. To encourage students who use illegal drugs and/or alcohol to participate in appropriate treatment programs.

2. General Policy

Practical experience and research have proven that even small quantities of narcotics, abused prescription drugs, or alcohol can affect judgment and reflexes which can create unsafe conditions for students, especially those involved in sports or any activity covered in this policy. Even when not readily apparent, the effect can have serious results for students engaged in activities. Drug-using students participating in extracurricular activities are a threat to co-participants, other students, and themselves, and may make injurious errors. For these reasons, the Board has adopted a policy that all students participating in extracurricular activities must remain substance-free.

Prohibitions - All students participating in extracurricular activities are prohibited from using, possessing, distributing, manufacturing, or having controlled substances, improperly used medications, or any mind/mood altering or intoxicating substances present in their system.

Alcohol Use/Possession - All students participating in extracurricular activities are prohibited from possessing or ~~use-of~~ using alcohol.

After-School-Hours Conduct - After-school-hours use of drugs, alcohol, or any other prohibited substances is illegal. All students participating in extracurricular activities should realize that these regulations prohibit all illicit drug use during and away from school activities.

3. Drug Screening Procedure

All current students participating in extracurricular activities or students that have voluntarily been placed in the pool at the request of their parent/guardian:

- a. Random Testing - The Board authorizes random, unannounced screening of all students participating in extracurricular activities or those students that have voluntarily been placed in the pool by their parent/guardian. The list of students participating will be updated upon receipt of a signed consent form. Students who have been selected will be required to report to the designated collection site for testing.
- b. Consent - Each student wishing to participate in any extracurricular activity and the students that have voluntarily been placed in the pool at the request of their parent/guardian shall consent in writing to drug testing pursuant to the District's drug testing program. No student shall be allowed to participate in any extracurricular activity without written consent from a parent/guardian.
- c. Removal from the Random Testing List - Students who quit or are cut from an activity, prior to being selected for random testing, may request their name be dropped from the testing list. A request form must be signed by the student and his or her parent/guardian to be dropped. However, students may volunteer to remain in the pool even though he or she is not part of the activity. Students that have submitted at least 2 negative test results without any positive results may ~~be dropped~~ request to be removed from the testing list.
- d. BMS Continued Testing - Students entering SHS from BMS will continue under the 365-day drug testing period and are subject to continued testing until the 365-day time period is complete.
- e. There is an obligation to continue support for students who test positive. Drug testing during the summer will provide another reason for a student to refrain from the use of drugs or alcohol. Any student who has tested positive during a random test will continue to be tested through the summer months. The Drug Program Coordinator will contact the student to establish a location and time for the test to take place.

4. Testing Procedures

- a. General Guidelines - The Board and the DPA shall rely, when practical, on the guidance of the Federal Department of Transportation, Procedures for Transportation Workplace Drug Testing Programs, 49 C.F.R. Parts 40.1 through 40.39, and on the further guidance of the Omnibus Transportation Employee Testing Act provided in 49 C.F.R. Parts 382, 391, 392 and 395.
- b. Substances - Substances that students participating in extracurricular activities may be randomly tested for: alcohol, amphetamines, cannabinoids, cocaine, opiates, synthetic opiates and PCP, and other substances, such as but not limited to steroids, barbiturates, and benzodiazepines without advance notice as part of tests authorized by the Board for safety purposes. Such tests will be coordinated with the Drug Program Coordinator.
- c. Testing Procedure - The Board reserves the right to utilize, breath, saliva, or urinalysis testing procedures. Urine and oral fluid samples which screen positive

will be confirmed by GC/MS. Positive saliva or breath alcohol tests will be confirmed by EBT (Evidential Breath Tester).

- d. Collection Sites - The Drug Program Coordinator will designate a collection site(s) at Scottsbluff High School where individuals may provide specimens.
 - e. Collection Procedures - The Board and the DPA have developed and will maintain a documented procedure for collecting, shipping, and accessing all specimens. The Board and the DPA will utilize a standard Custody and Control Form for all students participating in extracurricular activities testing and those students that have voluntarily been placed in the pool at the request of their parent/guardian. A tamper-proof sealing system, identifying numbers, labels, and sealed shipping containers will be used for specimen transportation.
 - f. Collection sites will maintain instructions and training emphasizing the responsibility of the collection site personnel to protect the integrity of the specimen and maintain as proper a collection procedure that is reasonable. All alcohol testing will be performed by a certified Breath Alcohol Technician (BAT). Where the Board has an employee collect the specimen, the Board will provide instruction and training to that employee.
 - g. Return of Results - The DPA will transmit by a secure method the results of all tests to the DPA's MRO. The MRO will be responsible for reviewing test results of students. Prior to making a final decision, the MRO shall give the individual an opportunity to discuss the result either face-to-face or over the telephone. The DPA shall then promptly tell the principal of the high school which student(s) tested positive.
 - h. Request for Retest - A split specimen will be collected for all testing methods, with the exception of alcohol testing. A positive alcohol test will be confirmed with an EBT device. Students involved in the program may, upon a non-negative test result, request that the split sample be tested (within 72 hours of being notified of the final testing result) at a second nationally certified laboratory from a list provided by the MRO. The request for the test must be submitted in writing to the MRO. Students participating in extracurricular activities and students that have voluntarily been placed in the pool at the request of their parent or guardian are required to pay the associated costs for an additional test in advance. However, the costs will be reimbursed if the result of the split sample test is negative.
5. Positive Results
Whenever a student's test results indicate the presence of an illegal drug (positive test), the student will receive consequences consistent with building's Parent-Student Handbook expectations regarding Drug and Alcohol Violations/Consequences.
6. Refusal to Submit to Drug Use Test
A participating student who refuses to submit to a drug test authorized under this policy, or fails or refuses to comply with any other provision of this policy, shall not be eligible to participate in any activities covered under this policy including all meetings, practices, performances, and competitions for the remainder of the school year.

7. Appeal

A student participating in extracurricular activities who has been determined by the high school principal or Drug Program Coordinator to be in violation of this policy shall have the right to appeal the decision to the Superintendent or the Superintendent's designee.

Such request for a review must be submitted to the Superintendent in writing within five calendar days of notice of the positive test. A student requesting a review will remain eligible to participate in any extracurricular activities until the review is completed. The Superintendent or the Superintendent's designee shall then determine whether the original finding was justified. No further review of the Superintendent's decision will be provided, and his or her decision shall be conclusive in all respects. Any necessary interpretation or application of this policy shall be in the sole and exclusive judgment and discretion of the Superintendent which shall be final and non-appealable.

8. Record Keeping and Confidentiality

All records pertaining to participants shall be kept separate from the student records. The record keeping and results of all testing will be held in the strictest confidence. These records will be accessible only to the Drug Program Coordinator or designee. Records pertaining to a particular student will be destroyed upon his or her graduation from SHS, or one year after his or her class graduation.

9. Severability

The MRO will demonstrate his or her knowledge by being certified by an MRO Accreditation body. The parent/guardian will be contacted by the MRO or his or her assistant. The MRO will report results of verified positives and/or warrant health and safety issues to the student and to the designated school representative through the DPA.

StudentsBluffs Middle School Mandatory and Voluntary Drug Testing Participation1. Mission Statement

The Board of Education for Scottsbluff Public Schools values students' participation in extracurricular activities. Such students, as role models for other students, are a key to our goal to provide the best possible educational program for our students. To achieve our goal and to maximize the skills and talents of our students, it is important that each student understands the dangers of drug and alcohol use. This policy statement should qualify our position on student drug and alcohol use. Participation in extracurricular activities is a privilege which can be taken away for failure to comply with this policy.

The purpose of this policy is as follows:

- a. To provide for the health and safety of all students;
- b. To undermine the effects of peer pressure by providing legitimate reason for students to refuse use of illegal drugs and/or alcohol;
- c. To identify students who use illegal drugs and/or alcohol; and,
- d. To encourage students who use illegal drugs and/or alcohol to participate in appropriate treatment programs.

2. General Policy

Practical experience and research have proven that even small quantities of narcotics, abused prescription drugs, or alcohol can affect judgment and reflexes which can create unsafe conditions for students, especially those involved in sports or any activity covered in this policy. Even when not readily apparent, the effect can have serious results for students engaged in activities. Drug-using students participating in extracurricular activities are a threat to co-participants, other students, and themselves, and may make injurious errors. For these reasons, the Board has adopted a policy that all students participating in extracurricular activities must remain substance-free.

Prohibitions - All students participating in extracurricular activities are prohibited from using, possessing, distributing, manufacturing, or having controlled substances, improperly used medications or any mind/mood altering or intoxicating substances present in their system.

Alcohol Use/Possession - All students participating in extracurricular activities are prohibited from possessing or ~~use of~~ using alcohol.

After-School-Hours Conduct - After-school-hours use of drugs, alcohol, or any other prohibited substances is illegal. All students participating in extracurricular activities should realize that these regulations prohibit all illicit drug use during and away from school activities.

3. Drug Screening Procedure

All current students participating in extracurricular activities or students that have voluntarily been placed in the pool at the request of their parent/guardian:

- a. Random Testing - The Board authorizes random, unannounced screening of all students participating in extracurricular activities or those students that have voluntarily been placed in the pool by their parent/guardian. The list of students participating will be updated upon receipt of a signed consent form. Students who have been selected will be required to report to the designated collection site for testing.
- b. Consent - Each student wishing to participate in any extracurricular activity and the students that have voluntarily been placed in the pool at the request of their parent/guardian shall consent in writing to drug testing pursuant to the District's drug testing program. No student shall be allowed to participate in any extracurricular activity without written consent from a parent/guardian.
- c. Removal from the Random Testing List - Students who quit or are cut from an activity, prior to being selected for random testing, may request their name be dropped from the testing list. A request form must be signed by the student and his or her parent/guardian to be dropped. However, students may volunteer to remain in the pool even though he or she is not part of the activity. Students that have submitted at least 2 negative test results without any positive results may ~~be dropped~~ request to be removed from the testing list.
- d. There is an obligation to continue support for students who test positive. Drug testing during the summer will provide another reason for a student to refrain from the use of drugs or alcohol. Any student who has tested positive during a random test will continue to be tested through the summer months. The Drug Program Coordinator will contact the student to establish a location and time for the test to take place.

4. Testing Procedures

- a. General Guidelines - The Board and the DPA shall rely, when practical, on the guidance of the Federal Department of Transportation, Procedures for Transportation Workplace Drug Testing Programs, 49 C.F.R. Parts 40.1 through 40.39, and on the further guidance of the Omnibus Transportation Employee Testing Act provided in 49 C.F.R. Parts 382, 391, 392 and 395.
- b. Substances - Substances that students participating in extracurricular activities may be randomly tested for: alcohol, amphetamines, cannabinoids, cocaine, opiates, synthetic opiates and PCP, and other substances, such as but not limited to steroids, barbiturates, and benzodiazepines without advance notice as part of tests authorized by the Board for safety purposes. Such tests will be coordinated with the Drug Program Coordinator.
- c. Testing Procedure - The Board reserves the right to utilize breath, saliva, or urinalysis testing procedures. Urine and oral fluid samples which screen positive will be confirmed by GC/MS. Positive saliva or breath alcohol tests will be confirmed by EBT (Evidential Breath Tester).

- d. Collection Sites - The Drug Program Coordinator will designate the collection site(s) at the school where individuals may provide specimens.
 - e. Collection Procedures - The Board and the DPA have developed and will maintain a documented procedure for collecting, shipping, and accessing all specimens. The Board and the DPA will utilize a standard Custody and Control Form for all students participating in extracurricular activities testing and those students that have voluntarily been placed in the pool at the request of their parent/guardian. A tamper-proof sealing system, identifying numbers, labels, and sealed shipping containers will be used for specimen transportation. Collection sites will maintain instructions and training emphasizing the responsibility of the collection site personnel to protect the integrity of the specimen and maintain as proper a collection procedure that is reasonable. All alcohol testing will be performed by a certified Breath Alcohol Technician (BAT). Where the Board has an employee collect the specimen, the Board will provide instruction and training to that employee.
 - f. Collection sites will maintain instructions and training emphasizing the responsibility of the collection site personnel to protect the integrity of the specimen and maintain as proper a collection procedure that is reasonable. All alcohol testing will be performed by a certified Breath Alcohol Technician (BAT). Where the Board has an employee collect the specimen, the Board will provide instruction and training to that employee.
 - g. Return of Results - The DPA will transmit by a secure method the results of all tests to the DPA's MRO. The MRO will be responsible for reviewing test results of students. Prior to making a final decision, the MRO shall give the individual an opportunity to discuss the result either face-to-face or over the telephone. The DPA shall then promptly tell the principal of the school which student(s) tested positive.
 - h. Request for Retest - A split specimen will be collected for all testing methods, with the exception of alcohol testing. A positive alcohol test will be confirmed with an EBT device. Students involved in the program may, upon a non-negative test result, request that the split sample be tested (within 72 hours of being notified of the final testing result) at a second nationally certified laboratory from a list provided by the MRO. The request for the test must be submitted in writing to the MRO. Students participating in extracurricular activities and students that have voluntarily been placed in the pool at the request of their parent/guardian are required to pay the associated costs for an additional test in advance. However, the costs will be reimbursed if the result of the split sample test is negative.
5. Positive Results
Whenever a student's test results indicate the presence of an illegal drug (positive test), the following will occur: This includes students involved in extracurricular activities and students that have been voluntarily placed in the pool at the request of their parent/guardian. If the sample tests positive, the parent/guardian will be notified and a meeting will be scheduled with the school principal (Drug Program Coordinator), the student, and the parent/guardian.

First Positive Test:

- a. DPC meeting with parent/guardian and student;
- b. Student notified of a requirement to have a drug and alcohol assessment and take part in counseling sessions as dictated by the substance abuse professional after the assessment;
- c. Written proof of alcohol/drug use assessment by a drug counselor is required before being allowed to return to practice and performances. A district-administered negative test must be provided before the student may return to the activity; and,
- d. Follow-up drug testing, a minimum of once a month, will commence after the first parent/guardian meeting for the next 12 months. The 12-month period carries into high school if the student is in the 8th grade.

Second Positive Test (within two consecutive years):

- a. DPC meeting with parent/guardian and the student;
- b. Suspension of the privilege to participate in practice and extracurricular activities for 10 calendar days. If the end of the activity precedes the end of the 10 days, the remaining days will carry over to the next activity so that the student completes the required number of days;
- c. An additional five sessions of drug counseling must be completed with a form submitted by a substance abuse professional before the student may return to activities. A district-administered negative test must be provided before the student may return to the activity; and,
- d. Follow-up drug testing for the next 12 months will begin upon notification of the second positive test. The 12-month period carries into high school if the student is in the 8th grade.

Third Offense (within two consecutive years):

- a. DPC meeting with parent/guardian and student;
- b. Suspension of eligibility to participate in practice and extracurricular activities for the remainder of the activity and includes the following activity in which the student plans to participate. The next activity may include activities at the high school if the student is an 8th grader. A district-administered negative test must be provided before the student may return to the activity; and,
- c. Follow-up drug testing will continue for 12 months from the date of the parent/guardian and student meeting with the DPC. The 12-month period carries into the high school if the student is in the 8th grade.

6. Refusal to Submit to Drug Use Test

A participating student who refuses to submit to a drug test authorized under this policy, or fails or refuses to comply with any other provision of this policy, shall not be eligible to participate in any activities covered under this policy including all meetings, practices, performances, and competitions for the remainder of the school year.

7. Appeal

A student participating in extracurricular activities who has been determined by the principal or Drug Program Coordinator to be in violation of this policy shall have the right to appeal the decision to the Superintendent or the Superintendent's designee.

Such request for a review must be submitted to the Superintendent in writing within five calendar days of notice of the positive test. A student requesting a review will remain eligible to participate in any extracurricular activities until the review is completed. The Superintendent or the Superintendent's designee shall then determine whether the original finding was justified. No further review of the Superintendent's decision will be provided, and his or her decision shall be conclusive in all respects. Any necessary interpretation or application of this policy shall be in the sole and exclusive judgment and discretion of the Superintendent which shall be final and non-appealable.

8. Record Keeping and Confidentiality

All records pertaining to participants shall be kept separate from the student records. The record keeping and results of all testing will be held in the strictest confidence. These records will be accessible only to the Drug Program Coordinator or designee. Records pertaining to a particular student will be destroyed upon his or her promotion from BMS. However, the records of any student under follow-up testing due to a positive test, or if the student is under suspension at the time of promotion, will be given to the Drug Program Coordinator at Scottsbluff High School.

9. Severability

Should any sentence, clause, provision, or paragraph of this entire policy be deemed unlawful or unconstitutional, it is intended that, insofar as may be practicable, the remaining portions of this policy shall remain in full force and effect.

10. Definitions

StudentsUse of Synthetic Cannabis/Marijuana

StudentsPromotion and Retention

Students will typically progress annually from grade to grade. A student may be retained at a grade level or be required to repeat a course or program when such is determined in the judgment of the principal, in consultation with the student's teacher and counselor, to be appropriate for the educational interests of the student and the school's educational program.

If a parent or guardian would like their student to retake a grade level, the parent or guardian must meet with the Superintendent or the Superintendent's designee to discuss the student repeating a grade. At that meeting, the parent or guardian must provide evidence of academic needs, illness, or excessive absenteeism that would warrant the student to repeat the grade. A student in kindergarten through fourth grade may be retained due to academic needs, illness, or excessive absenteeism. At such meeting, the Superintendent or the Superintendent's designee shall identify any alternative educational opportunities, including remedial instruction, if applicable, and verify any special education supports available to such student. If the student's parent or guardian still intends for their student to repeat a grade, such parent or guardian shall then complete the required form and return such form to the District. Upon completion of the form, and if all requirements pursuant to this policy and law are met, the District shall permit the student to repeat the student's grade for the next school year.

StudentsStudent Records

School staff shall maintain student records in compliance with state and federal law.

Confidentiality of Student Records

Student files and other education records shall not be released or divulged except in compliance with state and federal law.

School officials may have access to only those education records in which they have a legitimate educational interest, unless the parent/guardian has given written and dated consent for the access. A school official who violates this restriction shall be subject to disciplinary action up to, and including, termination.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility and effectively provide the function or service for which they are responsible.

A school official for purposes of access to education records is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the **School** Board; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent/guardian or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

To the extent permitted by law, contractors, consultants, and volunteers may be permitted to have access to education records where they are performing a function or service that would otherwise be done by a school employee. Their access is limited to education records in which they have a legitimate educational interest, which means records needed to effectively provide the function or service for which they are responsible.

Student and Parent/Guardian Access to Student Records

A parent/guardian of a student or former student, and a student or former student who is 18 years of age or older, shall be given the opportunity upon request to inspect and review the education records of the student or former student. Non-custodial parents will be provided full and equal access to the education records of his or her child unless there is a court order to the contrary.

Maintenance and Destruction

Student files or records shall be so maintained so as to separate academic and disciplinary matters. All disciplinary material in a student's file shall be removed and destroyed after the student's continuous absence from the school for a period of three years.

Amendment of Student Records

Parents/guardians and eligible students (a student who has reached 18 years of age or is attending

an institution of postsecondary education) have the right to challenge any information contained in the records that they believe is inaccurate, misleading or violates the privacy rights of the student. Such a challenge may be made by making a written request to the principal to amend the records. If a decision is made not to amend the education records in accordance with the request, the principal shall inform the parent/guardian of the student and the Superintendent. The parent/guardian shall be advised of the right to a hearing.

If a hearing is requested, the Superintendent shall conduct a hearing (or delegate the role to another school official who does not have a direct interest in the outcome of the hearing) and provide the parent/guardian or eligible student a full and fair opportunity to present evidence relevant to the issues raised in conformance with applicable law.

StudentsNotification of Rights Under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords parents/guardians and students over 18 years of age (“eligible students”) certain rights with respect to the student’s education records. They are:

1. The right to inspect and review the student’s education records within 45 days of the day the District receives a request for access.

Parents/guardians or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent/guardian or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student’s education records that the parent/guardian or eligible student believes are inaccurate or misleading at the time the record was created.

Parents/guardians or eligible students may ask the ~~School~~ District to amend a record that they believe is inaccurate or misleading. They should write to the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the District decides not to amend the record as requested by the parent/guardian or eligible student, the District will notify the parent/guardian or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent/guardian or eligible student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests or otherwise allowed by law. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the ~~School~~ Board; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant or therapist); or a parent/guardian or student serving on an official committee, such as a disciplinary or grievance committee or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request,

the District discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

U.S. Department of Education
Student Privacy Policy Office
400 Maryland Avenue, S.W.
Washington, D.C. 20202-8520

Notice Concerning Directory Information

The District may disclose directory information. The primary purpose of directory information is to allow the District to include information from your child's education records in certain school publications. Examples include:

1. A playbill, showing your student's role in a drama production;
2. The annual yearbook;
3. Honor roll or other recognition lists;
4. Graduation programs; and,
5. Sports activity sheets, such as for wrestling, showing weight and height of team members.

Under FERPA, "directory information" is generally not considered harmful or an invasion of privacy if released and can also be disclosed to outside organizations without a parent/guardians' prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. The types of personally identifiable information that the District has designated as directory information are as follows:

1. Student's name, address, telephone number, and the name, address, telephone number, e-mail address, and other contact information of the student's parent/guardian or other adult acting in loco parentis or with authority to act as parent/guardian in educational matters for the student;
2. School and dates of attendance;
3. Student's current grade;
4. Student's enrollment status (e.g. full-time or part-time);
5. Student's extracurricular participation;
6. Student's achievement awards or honors;
7. Student's weight and height if a member of an athletic team; and,
8. Student's photograph;

Notwithstanding the foregoing, the District does not designate as directory information personally identifiable information from students' education records where the District determines that the disclosure to the potential recipient poses a risk to student safety or well-being, including but not limited to circumstances where the potential recipient is a registered sex offender and the personally identifiable information would permit the potential recipient to

communicate with or otherwise contact the student, or would otherwise not be in a student's best interests.

A parent/guardian or eligible student has the right to refuse to let the District designate information about the student as directory information. Parents/guardians may refuse to allow their student's information to be designated as "directory information" at any time during the school year, so long as the parent/guardian notifies the Superintendent in writing.

Notice Concerning Designation of Law Enforcement Unit

The District designates the Scottsbluff Police Department as the District's "law enforcement unit" for purposes of:

1. Enforcing any and all federal, state, or local law;
2. Maintaining the physical security and safety of the schools in the District; and,
3. Maintaining safe and drug-free schools.

- ~~6. Staff members may use whatever method they determine professionally appropriate in the day to day grading, but shall prepare grade reports based on numerical values. StudentsEarly Completion Plan

Scottsbluff Public Schools supports the concept of early completion as a means of accelerating students toward the achievement of lifetime plans. The following guidelines have been established for students to be eligible for early completion. The failure to meet any of the criteria or timelines listed in the policy may cause the student to become ineligible for early completion.

1. A student will be allowed to transfer in a maximum of 20 hours from educational courses taken outside the Scottsbluff Public School District. These courses must have prior approval by the high school principal in order to be used to meet the graduation requirements of the Scottsbluff Public Schools. Students transferring into Scottsbluff Public Schools may transfer in hours that are listed on their official transcript.
2. A student will be able to use only five hours of transfer credit in any one subject matter area.
3. Students must meet all completion requirements established by the Board of Education in order to be eligible for completion as well as the credit hour requirements in each specific subject matter area.
4. Application for early completion must be requested, in writing, to the high school principal by October 1 of the applicant's senior year of high school. The application must be accompanied by a written plan of action stating the reasons why the student is requesting early completion. The application must contain the signatures of the applicant's parent/guardian to verify parental approval of early completion.
5. Along with the application, the applicant must submit three letters of recommendation supporting the student's request for early completion. These three letters of recommendation must contain one letter from the high school guidance counselor, along with two letters from other secondary staff members.
6. The principal or designee will make the decision regarding an applicant's early completion by October 15 of the student's senior year. Appeals may be made to the Superintendent.
7. Once given approval, the applicant will have until February 1 of the applicant's senior year to notify the high school principal of the applicant's decision in regards to participating in the regularly scheduled graduation ceremony. The applicant must also attend one Commencement practice in order to participate in the Commencement ceremony. No early graduation ceremonies will be provided for a student who opts for the early completion route.

8. A student who decided to opt for early completion is not eligible to participate in school sponsored activities following the last day the student attends classes. The effective date for participation will end with the last day that the student is enrolled in classes. The only school activity that the applicant is eligible for will be the regularly scheduled graduation ceremony.
9. This policy shall be evaluated annually by the high school principal and appropriate revisions shall be recommended to the Board for its consideration.

The District will maintain a catalog of books available in each designated library. Such catalog will be made available for viewing by parents/guardians, and educational decisionmakers through a method designated by the Superintendent or the Superintendent's designee.

The District will provide parents/guardians and educational decisionmakers the opportunity to opt-in to receive notification when their student checks out a book from a designated library. If a parent/guardian or educational decisionmaker elects to receive such notifications, the District shall provide such notice, which will include the:

1. Title of the book;
2. Author(s); and,
3. Date the book must be returned.

Requests to receive library checkout notifications must be submitted through a written request or through a process identified by the Superintendent or the Superintendent's designee.

Students may produce official school publications as part of the curriculum under the supervision of a faculty advisor and the principal. Official school publications such as newspapers, yearbooks, or magazines form a part of the journalism curriculum and are produced primarily for the educational value gained in the process of their creation. As such, these publications shall conform to the same community and educational standards required of other student conduct in the school.

Any expression made by students, including student expression in official school publications, is not an expression of official school policy. A faculty advisor shall supervise student writers to maintain professional standards of English and journalism and to comply with the law including, but not limited to, the restrictions against unlawful speech.

Prior to publication of these materials, the faculty advisor and principal or designee shall review them to determine their acceptability for publication. Prohibited Harassment, Discrimination, and Retaliation of Employees, Students, and OthersPurpose

The Scottsbluff Public School District is committed to offering employment and educational opportunity to its employees and students in a climate free of discrimination. Accordingly, unlawful discrimination, harassment, and retaliation of any kind by district employees, including, co-workers, non-employees (such as volunteers), third parties, and others is strictly prohibited and will not be tolerated.

Harassment is a form of discrimination and includes verbal, non-verbal, written, graphic, or physical conduct relating to a person's sex, disability, race (including skin color, hair texture and protective hairstyles), color, religion, military or veteran status, national or ethnic origin, age, marital status, pregnancy, childbirth or related medical condition, sexual orientation or gender identity, or other protected status, that is sufficiently serious to deny, interfere with, or limit a person's ability to participate in or benefit from an educational or work program or activity, including, but not limited to:

1. Conduct that is sufficiently severe or pervasive to create an intimidating, hostile, or abusive educational or work environment; or,
2. Requiring an individual to endure the offensive conduct as a condition of continued employment or educational programs or activities, including the receipt of aids, benefits, and services.

Educational programs and activities include all academic, educational, extracurricular, athletic, and other programs of the school, whether those programs take place in a school's facilities, on a school bus, at a class or training program sponsored by the school at another location, or elsewhere.

Discriminatory harassment because of a person's sex, disability, race (including skin color, hair texture and protective hairstyles), color, religion, military or veteran status, national or ethnic origin, age, marital status, pregnancy, childbirth or related medical condition, sexual orientation or gender identity, or other protected status.

The following examples are additional or more specific examples of conduct that may constitute sexual harassment:

1. Unwelcome sexual advances or propositions;
2. Requests or pressure for sexual favors;
3. Comments about an individual's body, sexual activity, or sexual attractiveness;
4. Physical contact or touching of a sexual nature, including touching intimate body parts and inappropriate patting, pinching, rubbing, or brushing against another's body;
5. Physical sexual acts of aggression, assault, or violence, including criminal offenses (such as rape, sexual assault or battery, and sexually motivated stalking), against a person's will or where a person is incapable of giving consent due to the victim's age, intellectual disability, or use of drugs or alcohol;
6. Requiring sexual favors or contact in exchange for aids, benefits, or services, such as grades, awards, privileges, promotions, etc.; and/or,
7. Gender-based harassment: acts of verbal, nonverbal, written, graphic, or physical conduct based on sex or sex-stereotyping, but not involving conduct of a sexual nature.

If the District knows, or reasonably should know, about possible harassment, including violence, the District will conduct a prompt, adequate, reliable, thorough, and impartial investigation to determine whether unlawful harassment occurred (see section entitled "Grievance Procedures," below), and take appropriate interim measures, if necessary. If the District determines that unlawful harassment occurred, the District will take prompt and effective action to eliminate the harassment, prevent its recurrence, and remedy its effects, if appropriate. If harassment or

violence that occurs off school property creates a hostile environment at school, the District will follow this policy and grievance procedure, within the scope of its authority.

All district employees are expected to take prompt and appropriate actions to report and prevent discrimination, harassment, and retaliation by others. Employees who witness or become aware of possible discrimination, including harassment and retaliation, must immediately report the conduct to his or her supervisor or the compliance coordinator designated to handle complaints of discrimination (designated compliance coordinator).

Anti-Retaliation

The District prohibits retaliation, intimidation, threats, coercion, or discrimination against any person for opposing discrimination, including harassment, or for participating in the District's discrimination complaint process or making a complaint, testifying, assisting, or participating in any manner, in an investigation, proceeding, or hearing. Retaliation is a form of discrimination.

The District will take immediate steps to stop retaliation and prevent its recurrence against the alleged victim and any person associated with the alleged victim. These steps will include, but are not limited to, notifying students, employees, and others, that they are protected from retaliation, ensuring that they know how to report future complaints, and initiating follow-up contact with the complainant to determine if any additional acts of discrimination, harassment, or retaliation have occurred. If retaliation occurs, the District will take prompt and strong responsive action, including possible discipline, including expulsion or termination, if applicable.

Grievance (or Complaint) Procedures

Employees or students should initially report all instances of discrimination, harassment, or retaliation to their immediate supervisor or teacher or to the compliance coordinator designated to handle complaints of discrimination (designated coordinator). If the employee or student is uncomfortable in presenting the problem to the supervisor or teacher, or if the supervisor or teacher is the problem, the employee or student may report the alleged discrimination, harassment, or retaliation ("discrimination") to the designated coordinator, or in the case of students, to another staff person (such as a counselor or principal).

Other individuals may report alleged discrimination to the designated coordinator. If the designated coordinator is the person alleged to have committed the discriminatory act, then the complaint should be submitted to the Superintendent for assignment. A discrimination complaint form is available in the office of each district building, on the District's website, and from the designated coordinators.

Under no circumstances will a person filing a complaint or grievance involving discrimination be retaliated against for filing the complaint or grievance.

1. Level 1 - Investigation and Findings

Once the District receives a grievance, complaint, or report alleging discrimination, harassment, or retaliation, or becomes aware of possible discriminatory conduct, the District will conduct a prompt, adequate, reliable, thorough, and impartial investigation to determine whether unlawful harassment occurred. If necessary, the District will take

immediate, interim action or measures to protect the alleged victim and prevent further potential discrimination, harassment, or retaliation during the pending investigation. The alleged victim will be notified of his or her options to avoid contact with the alleged harasser, such as changing a class or prohibiting the alleged harasser from having any contact with the alleged victim pending the result of the District's investigation. The District will minimize any burden on the alleged victim when taking interim measures to protect the alleged victim.

The District will promptly investigate all complaints of discrimination, even if an outside entity or law enforcement agency is investigating a complaint involving the same facts and allegations. The District will not wait for the conclusion or outcome of a criminal investigation or proceeding to begin an investigation required by this grievance procedure. If the allegation(s) involve possible criminal conduct, the District will notify the complainant of his or her right to file a criminal complaint, and district employees will not dissuade the complainant from filing a criminal complaint either during or after the District's investigation.

The District will aim to complete its investigation within 10 working days after receiving a complaint or report, unless extenuating circumstances exist as determined by the investigator. Extenuating circumstances may include the unavailability of witnesses or the investigator due to illness or incapacitation, or additional time needed because of the complexity of the investigation, the need for outside experts to evaluate the evidence (such as forensic evidence), or multiple complainants or victims. If extenuating circumstances exist, the extended timeframe to complete the investigation will be determined by the investigator and in compliance with any legal requirement. Periodic status updates will be given to the parties, when appropriate.

The District's investigation will include, but is not limited to:

- a. Providing the parties with the opportunity to present witnesses and provide evidence;
- b. An evaluation of all relevant information and documentation relating to the alleged discriminatory conduct;
- c. For allegations involving harassment, some of the factors the District will consider include:
 - i. The nature of the conduct and whether the conduct was unwelcome;
 - ii. The surrounding circumstances, expectations, and relationships;
 - iii. The degree to which the conduct affected one or more students' education;
 - iv. The type, frequency, and duration of the conduct;
 - v. The identity of and relationship between the alleged harasser and the suspect or suspects of the harassment;
 - vi. The number of individuals involved;
 - vii. The age (and sex, if applicable) of the alleged harasser and the alleged victim(s) of the harassment;
 - viii. The location of the incidents and the context in which they occurred;
 - ix. The totality of the circumstances; and/or,

- x. Other relevant evidence.
- d. A review of the evidence using a “preponderance of the evidence” standard (based on the evidence, is it more likely than not that discrimination, harassment, or retaliation occurred?).

The District will ensure that prompt, appropriate, and effective remedies are provided if a finding of discrimination, harassment, or retaliation is made. The District will maintain relevant documentation obtained during the investigation and documentation supportive of the findings and any subsequent determinations.

The District will inform each party when the investigation is complete and will communicate any remedies or disciplinary sanctions that are directly applicable to that individual. The District will not disclose information about disciplinary actions or remedies imposed on another student or employee, except as required by law or when such information directly impacts the receiving party.

2. Level 2 - Appeal to the Superintendent

If a party is not satisfied with the findings or remedies (or both) set forth in the decision, he or she may file an appeal in writing with the Superintendent within five working days after receiving the decision. The Superintendent will review the appeal and the investigative documentation and decision, conduct additional investigation, if necessary, and issue a written determination about the appeal within 10 working days after receiving the appeal. The party who filed the appeal will be sent the Superintendent’s determination at the time it is issued, and a copy will be sent to the designated compliance coordinator. (If the Superintendent is the subject of the complaint, the party will file the appeal directly with the Board.)

Confidentiality

The identity of the complainant will be kept confidential to the extent permitted by state and federal law. The District will notify the complainant of the anti-retaliation provisions of applicable laws and that the District will take steps to prevent retaliation and will take prompt and strong responsive actions if retaliation occurs.

If a complainant requests confidentiality or asks that the complaint not be pursued, the District will take all reasonable steps to investigate and respond to the complaint consistent with the request for confidentiality or the request not to pursue an investigation, as long as doing so does not prevent the District from responding effectively to the harassment and preventing harassment of other students. If a complainant insists that his or her name or other identifiable information not be disclosed to the alleged perpetrator, the District will inform the complainant that its ability to respond may be limited. Even if the District cannot take disciplinary action against the alleged harasser, the District will pursue other steps to limit the effects of the alleged harassment and prevent its recurrence, if warranted.

Training

The District will ensure that all district employees, including but not limited to officials, administrators, teachers, substitute teachers, counselors, nurses and other health personnel,

coaches, assistant coaches, paraprofessionals, aides, First Student bus drivers, and school law enforcement officers are adequately trained so they understand and know how to identify acts of discrimination, harassment, and retaliation, and how to report it to appropriate district officials or employees.

Designated Compliance Coordinators

Designated compliance coordinators will be responsible for:

1. Coordinating efforts to comply with anti-discrimination, anti-harassment, and anti-retaliation laws and regulations;
2. Coordinating and implementing training for students and employees pertaining to anti-discrimination, anti-harassment and anti-retaliation laws and regulations, including the training areas listed above;
3. Investigating complaints of discrimination (unless the coordinator designates other trained individuals to investigate);
4. Monitoring substantiated complaints or reports of discrimination, as needed (and with the assistance of other district employees, if necessary), to ensure discrimination or harassment does not recur, and that retaliation conduct does not occur or recur;
5. Overseeing discrimination complaints, including identifying and addressing any patterns or systemic problems, and reporting such patterns or systemic problems to the Superintendent and the Board of Education;
6. Communicating regularly with the District's law enforcement unit investigating cases and providing current information to them pertaining to anti-discrimination, anti-harassment, and anti-retaliation standards and compliance requirements;
7. Reviewing all evidence in harassment or violence cases brought before the District's disciplinary committee or administrator to determine whether the complainants are entitled to a remedy under anti-discrimination laws and regulations that was not available in the disciplinary process;
8. Ensuring that investigations address whether other students or employees may have been subjected to discrimination, including harassment and retaliation;
9. Determining whether district employees with knowledge of allegations of discrimination, including harassment and retaliation, failed to carry out their duties in reporting the allegations to the designated compliance coordinator and responding to the allegations;
10. Recommending changes to this policy and grievance procedure; and,
11. Performing other duties as assigned.

The designated compliance coordinators will not have other job responsibilities that may create a conflict of interest with their coordinator responsibilities.

Preventive Measures

The District will publish and widely distribute on an ongoing basis a notice of nondiscrimination in electronic and printed formats, including prominently displaying the notice on the District's website. The District also will designate an employee to coordinate compliance with anti-discrimination laws (see designated compliance coordinator section, above, for further information on compliance coordinator), and widely publish and disseminate this grievance procedure, including prominently posting it on the District's website, reprinting it in district publications, such as Parent-Student Handbooks, and sending it electronically to members of the

school community. The District will provide training to employees and students at the beginning of each academic year in the areas identified in the Training section, above.

The District also may distribute specific harassment and violence materials (such as sexual violence), including a summary of the District's anti-discrimination, anti-harassment, and anti-retaliation policy and grievance procedure, and a list of victim resources, during events such as school assemblies and back to school nights, if recent incidents or allegations warrant additional education to the school community.

StudentsSearch and Seizures

When it is determined, based on searches, that a person has violated a Board policy, administrative regulation, building rule, student conduct rule, personnel expectation, or the law, the person shall be subject to appropriate disciplinary action and a report to law enforcement may be made.

Student lockers, desks, and other such property are owned by the school. The school exercises exclusive control over school property. Students should not expect privacy regarding items placed in or on school property because school property is subject to search at any time by school officials. Periodic, random searches of all school property, including but not limited to student lockers, may be conducted at the discretion of the administration.

The following procedures will be used for conducting searches:

1. School officials may conduct a search if there is a reasonable basis to believe that the search will uncover evidence of a crime or rule violation. The search must be conducted in a reasonable manner under the circumstances.
2. Random searches of student lockers, desks, and other similar school property provided for use by students may be conducted at the discretion of the administration.
3. Drug or alcohol tests may be conducted on students based on reasonable suspicion.
4. Drug or alcohol tests may be conducted on a random basis for students participating in extracurricular activities, provided that:
 - a. The student gave consent for testing in advance (attendance at or participation in the extracurricular activity may be withheld in the absence of consent);
 - b. The testing actually be random;
 - c. ~~That~~ The testing procedures limit any intrusion on student privacy, and provide for an appropriate level of confidentiality and accuracy; and,
 - d. ~~That~~ The response to positive tests take into consideration student safety and compliance with laws related to reporting and releasing students to law enforcement.
5. School officials may search offices and storage devices provided to or used by employees where permitted by law, such as where reasonable grounds exist for suspecting that a search will turn up evidence that the employee has committed work-related misconduct, or that a search is necessary for a non-investigatory work-related purpose, such as to retrieve a file.
6. Searches of the District's computer system may be conducted at the discretion of the administration at any time.

The following procedures will be used for the removal of personal property:

1. Illegal items or other items reasonably determined to be a threat to the safety of others or a threat to educational purposes may be seized by school officials. Any illegal drugs, firearm, or dangerous weapon shall be confiscated and delivered to law enforcement as soon as practicable. A personal safety or security device (such as a taser, mace, or pepper spray) not previously approved by the administration constitutes a "dangerous weapon."

2. Items which have been or are reasonably expected to be used to disrupt or interfere with the educational process may be removed from student possession.

The District is not responsible for the security or safety of personal property which employees, students, or other building users may bring to school.

StudentsHealth Screenings

The **School** District shall cause every child under its jurisdiction to be separately and carefully screened, except as otherwise provided by law, to ascertain if such a child is suffering from defective sight or hearing, dental defects, or other conditions as prescribed by the Department of Health and Human Services (“Department”). Such inspections shall be conducted on a schedule prescribed by the Department and shall be based on current medical and public health practice. In lieu of conducting the screenings, the **School** Board may employ regularly licensed physicians to make such screenings.

If such screening determines that any child has defective sight or hearing, dental defects, or other conditions for which screening is required, the school shall notify the parent/guardian of the child in writing of such condition and explain to the parent/guardian the necessity of professional attendance for such child.

Communicable Diseases

Communicable Disease Control

Scottsbluff Public Schools shall cooperate with local and state health department officials in developing procedures for the control of communicable diseases in the schools. All procedures shall conform to the regulations for communicable disease control set up by the state health department.

Students or employees excluded for a confirmed communicable disease should not be allowed to return to school until the minimum isolation period has elapsed, and all signs or symptoms of acute illness have disappeared. The period of exclusion should extend throughout the period when acute signs of illness are present, or until the student or employee is fever-free for 24 hours without the use of fever-reducing medication.

Minimum isolation periods are provided by the Nebraska Department of Health and Human Services, Contagious and Infectious Disease/Condition Chart, which is attached to 173 NAC 3 and incorporated by this reference.

The **School** District reserves the right to secure an independent second opinion if such is deemed necessary.

Students' Communicable Conditions

1. The school principal or designee will function as liaisons with the student's physician as necessary, and will coordinate the health management procedures within the school building.
2. The decision to exclude a student from school shall be made by the Superintendent, after consultation with the appropriate building principal. Decisions regarding the type of educational setting for students who are not excluded from classes will be based on the behavior, neurological development, and physical condition of the student and the expected type of interaction within others in that setting. Educational plans for these students will be developed with the help of parents/guardians and the appropriate medical personnel.
3. The privacy of the student and family must be protected, and knowledge that a student has a communicable condition should be confined to persons with a direct need to know. If it becomes necessary to inform others, these persons will be provided with information concerning necessary precautions, and they will be made aware of confidentiality requirements.
4. Students who present a high risk of disease transmission may be temporarily excluded from school by the administration after consultation with the student's physician, parent/guardian and/or their representative, school nurse, or the school's physician.
5. A student might be considered at high risk if the student exhibits behaviors that may spread the disease (e.g., biting, lacks toilet training or is incontinent) or has an open sore that cannot be concealed or hygienically covered, any of which could result in direct

spreading of the condition or disease.

6. During the time a student is excluded from the classroom, an appropriate alternative or adjustment to the student's education will be provided and reviewed at least monthly, or more often if necessary.

Employees' Communicable Conditions

1. Any employee who contracts a communicable condition should report the same to the building principal who should, in turn, report to the Superintendent in a confidential manner. The Superintendent or the Superintendent's designee shall then consult with the employee and appropriate medical personnel to evaluate the medical and psychological condition of the employee. The Superintendent or the Superintendent's designee shall recommend reasonable accommodations so that the employee may continue in employment as long as the employee is physically able to do so.
2. The privacy of the employee must be protected, and knowledge that an employee has a communicable condition should be confined to persons with a direct need to know. If it becomes necessary to inform others, these persons will be provided with information concerning necessary precautions and will be made aware of confidentiality requirements.
3. Employees who present a high risk of disease transmission will be temporarily excluded from work after consultation with appropriate medical authorities.

Upon notification by the Nebraska State Patrol of a missing student, the school will flag the student's records in such a way that any personnel looking at such birth certificate or record shall be alerted to the fact that the birth certificate or record is of a missing person. If the record has been flagged as that of a missing person, and a request for transfer of the student's records is received, school personnel shall not forward such records to the requesting school, but shall instead notify the principal, who shall notify the law enforcement of the request and that the student is a reported missing person.

StudentsRequests to Contact Students and Student Interviews by Non-School PersonnelRemovals of Students and Interviews of Students

In dealing with law enforcement officials, Scottsbluff Public Schools employees are not to obstruct government operations or unreasonably refuse or fail to aid a peace officer, but are also to attempt to prevent undue interference with district operations or educational programming. For the purposes of law enforcement, (or other similar investigative processes) school staff may not transport the student.

Removals of Students by Law Enforcement Officials

Law enforcement officers shall be permitted to remove a child from school when legally authorized to do so. For purposes of this policy, a law enforcement officer is defined as: sheriffs, coroners, jailers, marshals, police officers, state highway patrol officers, members of the National Guard on active service by direction of the Governor during periods of emergency, and all other persons with similar authority to make arrests.

Law enforcement officers, may in the line of duty, require a student to accompany him or her for questioning or detention either with or without an arrest warrant. A peace officer has the lawful authority to take immediate temporary custody of children under the age of 18 with an arrest warrant, or without a warrant or order of the court when:

1. The child has violated a state law or municipal ordinance and such child was 11 years of age or older at the time of the violation, and the officer has reasonable grounds to believe such child committed such violation and was 11 years of age or older at the time of the violation;
2. The child is seriously endangered in his or her surroundings and immediate removal appears to be necessary for the child's protection;
3. The officer believes the child to be mentally ill and dangerous as defined in Neb. Rev. Stat. § 71-908 and that the harm described in that section is likely to occur before proceedings may be instituted before the juvenile court;
4. The officer has reasonable grounds to believe that the juvenile has run away from his or her parent/guardian or custodian;
5. A probation officer has reasonable cause to believe that a juvenile is in violation of probation and that the juvenile will attempt to leave the jurisdiction or place lives or property in danger;
6. The officer has reasonable grounds to believe the juvenile is truant from school;
7. The officer has reasonable grounds to believe the child is immune from prosecution for prostitution under subsection (5) of the Neb. Rev. Stat. § 28-801; or,
8. The child has committed an act or engaged in behavior described in subdivision (1), (2), (3)(b), or (4) of the Neb. Rev. Stat. § 43-247 and such child was under 11 years of age at the time of such act or behavior, and the officer has reasonable cause to believe such child committed such act or engaged in such behavior and was under 11 years of age at such time.

If a peace officer or probation officer requests to take custody of a student who is at that time under the control and jurisdiction of Scottsbluff Public Schools, the following action is to be taken:

- a. Establish Authority to Remove - The student should be released after appropriate measures are taken and documented to ensure that the officer has the authority to take the student. The Affidavit & Release to Remove Student form may be used for this purpose.
- b. Notify Local Law Enforcement - In some instances, there may be orders for custody of a student served by the officers with authority to arrest from outside the jurisdiction of Scottsbluff Public Schools. Local law enforcement should be contacted and requested to participate in or monitor the removal.
- c. Notify Parent/Guardian of Removal - When a principal or other school official releases a minor student to a peace officer for the purpose of removing the minor from the school premises, the principal or other school official shall take immediate steps to notify the parent/guardian or responsible relative of the minor regarding the release of the minor student to the officer and the place to which the student is reportedly being taken. Provided, however, when a minor student has been taken into custody as a victim of suspected child abuse or neglect, the principal or other school official is not required to notify the parent/guardian, but shall provide the peace officer with the address and telephone number of the minor student's parent/guardian.

A student should not be released to a private detective or "special police officer" who is not an officer of a Nebraska political subdivision or an officer of an agency of the federal government without consent of the student's parent/guardian or custodian.

Interviews of Students by Law Enforcement Officials

Law enforcement officers and other law authorities should be urged to contact students for questioning outside the instructional day and off school premises whenever possible. When it is appropriate that such questioning occur, the following guidelines are to be followed.

Interviews Not Related to District Events

If an interview of a student is requested during school hours concerning an ongoing investigation of a crime not related to Scottsbluff Public Schools, questioning should not take place until the student's parent/guardian or custodian has been contacted and permission is given for such interview, unless the crime being investigated is neglect or abuse of that student, in which case consent and permission is not required. The consent should be documented. The presence of a school employee during the interview is not necessary.

Interviews Related to District Events

If the investigation relates to an incident which took place on school premises or during instructional time, it is not necessary to obtain consent of the student's parent/guardian or custodian. In these situations, an employee of the District should be present during the interview to ensure that the interview relates only to the incident which took place on school premises or during instructional time or something which is directly related thereto.

Child Abuse or Neglect

If an investigator represents that an interview is necessary to collect information concerning an allegation of child abuse or neglect or an offense involving a family relation and it is clear that obtaining parental consent for the interview would be impossible or counter-productive, the interview may be conducted without consent of the student's parent/guardian or custodian. In these situations, an employee of Scottsbluff Public Schools should accompany the student to the interview location.

Probation Officer Interview

A probation officer assigned to a student by a court may be allowed the opportunity, on request, to interview a student on school premises. In such situations, it is neither necessary nor desirable that a district employee be present during the interview. It also is not necessary to obtain the consent of the parent/guardian or custodian.

Disclosure of Student Records

School employees shall not, in the course of dealing with a peace officer or probation officer, disclose any confidential student records or information from such student records other than in response to a court order or subpoena or as otherwise authorized by state law and the Family Educational Rights and Privacy Act (FERPA).

Removals and Interviews by Persons other than Law Enforcement Officials

A person who comes to school premises to interview a student or remove a student prior to the end of the student's instructional day must obtain permission of an administrator or designee.

Permission to remove is not to be granted without consent of the student's parent/guardian or custodian, or a person authorized by the student's parent/guardian or custodian to give such permission.

Permission to interview on subjects not related to school matters is not to be granted unless there is a clearly valid and proper reason for the interview and such is not disruptive to school operations or the student's educational program. Ordinarily such contacts shall be restricted to the student's parent/guardian or custodian or a friend of the family when an emergency or other similar circumstance exists.

StudentsStudent Fees Policy

The Board of Education of Scottsbluff Public Schools adopts the following student fees policy in accordance with the Public Elementary and Secondary Student Fee Authorization Act.

The District's general policy is to provide for the free instruction in school in accordance with the Nebraska Constitution and state and federal law. This generally means that the District's policy is to provide free instruction for courses which are required by state law or regulation and to provide the staff, facility, equipment, and materials necessary for such instruction, without charge or fee to the students.

The District does provide activities, programs, and services to children which extend beyond the minimum level of constitutionally required free instruction. Students and their parents/guardians have historically contributed to the District's efforts to provide such activities, programs, and services. The District's general policy is to continue to encourage and, to the extent permitted by law, to require such student and parent/guardian contributions to enhance the educational program provided by the District.

Under the Public Elementary and Secondary Student Fee Authorization Act, the District is required to set forth in a policy its guidelines or policies for specific categories of student fees. The District does so by setting forth the following guidelines and policies. This policy is subject to further interpretation or guidance by administrative or Board regulations which may be adopted from time to time. Policy 5416.1 provides further specifics of student fees and materials required of students. Parents/guardians and students are encouraged to contact their building administration or their teachers or activity coaches and sponsors for further specifics.

1. Guidelines for Non-Specialized Attire Required for Specified Courses and Activities

The District will provide or make available to students such safety equipment and attire as may be required by law, specifically including appropriate industrial-quality eye protective devices for courses of instruction in vocational, technical, industrial arts, chemical or chemical-physical classes which involve exposure to hot molten metals or other molten materials, milling, sawing, turning, shaping, cutting, grinding, or stamping of any solid materials, heat treatment, tempering, or kiln firing of any metal or other materials, gas or electric arc welding or other forms of welding processes, repair or servicing of any vehicle, or caustic or explosive materials, or for laboratory classes involving caustic or explosive materials, hot liquids or solids, injurious radiations, or

other similar hazards. Building administrators are directed to assure that such equipment is available in the appropriate classes and areas of the school buildings, teachers are directed to instruct students in the usage of such devices and to assure that students use the devices as required, and students have the responsibility to follow such instructions and use the devices as instructed.

School Wellness Policy

A function of Scottsbluff Public Schools (“District”) is to provide curriculum, instruction, and experiences in a health-promoting school environment to instill habits of lifelong learning and health. Therefore, the Board adopts the following school wellness policy.

District Wellness Committee

1. Committee Role and Membership

The District will convene a representative SBPS District Wellness Committee (“SBPSDWC”) that meets at least two times per year to establish goals for and oversee school health and safety policies and programs, including the development, implementation, and periodic review and update of this District wellness policy.

The SBPSDWC membership will represent all school levels and include (to the extent possible), but not be limited to: parents/guardians, students, representatives of the school nutrition program, physical education teachers, health education teachers, school health professionals or staff, mental health and social services staff, school administrators, School Board members, and the general public. When possible, membership will also include Supplemental Nutrition Assistance Program Education coordinators. To the extent possible, the SBPSDWC will include representatives from each school building and reflect the diversity of the community.

2. Leadership

The Superintendent or the Superintendent’s designee will convene the SBPSDWC and facilitate development of and updates to the wellness policy, and will ensure each school’s compliance with the policy.

Each school will designate a school wellness policy coordinator, who will ensure compliance with the policy.

Wellness Policy Implementation, Monitoring, Accountability, and Community Engagement

1. Implementation Plan

The District will develop and maintain a plan for implementation to manage and coordinate the execution of this wellness policy. The plan delineates roles, responsibilities, actions, and timelines specific to each school, and includes information about who will be responsible to make what change, by how much, and where and when, as well as specific goals and objectives for nutrition standards for all foods and beverages available on the school campus, food and beverage marketing, nutrition promotion and education, physical activity, physical education, and other school-based activities that promote student wellness. It is recommended that the school use the Healthy Schools Program online tools to complete a school-level assessment based on the Centers for Disease Control and Prevention’s School Health Index, create an action

plan that fosters implementation and generate an annual progress report. This wellness policy and the progress reports can be found on the District's website.

2. Recordkeeping

The District will retain records to document compliance with the requirements of the wellness policy at the District Office and/or on the District's computer network.

3. Annual Notification of Policy

The District will inform families and the public each year of basic information about this policy, including its content, any updates to the policy and implementation status. The District will make this information available via the District website. This will include a summary of the District's events or activities related to wellness policy implementation. Annually, the District will also publicize the name and contact information of the District officials leading and coordinating the committee, as well as information on how the public can get involved with the school wellness committee.

4. Triennial Progress Assessments

Under the direction of the Superintendent or the Superintendent's designee, at least once every three years, the District will evaluate compliance with the wellness policy to assess the implementation of the policy and identify necessary revisions.

The District will notify households/families of the availability of the triennial progress report.

5. Revisions and Updating the Policy

The SBPSDWC will update or modify the wellness policy based on the results of the annual and triennial assessments and/or as district priorities change, community needs change, wellness goals are met, new health science, information, and technology emerges, and new federal or state guidance or standards are issued. The wellness policy will be assessed and updated as indicated at least every three years, following the triennial assessment.

6. Community Involvement, Outreach, and Communications

The District is committed to being responsive to community input, which begins with awareness of the wellness policy.

Nutrition

1. School Meals

All schools within the District will participate in USDA child nutrition programs, including the National School Lunch Program (NSLP), the School Breakfast Program (SBP), and any additional federal child nutrition programs as eligible, such as the Fresh Fruit and Vegetable program, the Child and Adult Care Food Program and the After-School Snack program and will meet the minimum nutritional requirements of such programs. The District will make drinking water available in all locations where school meals are served during meal times.

2. Competitive Foods and Beverages

To support healthy food choices and improve student health and well-being, all foods and beverages outside the reimbursable school meal programs that are sold to students on the school campus during the school day will meet or exceed the USDA Smart Snacks nutrition standards. These standards will apply in all locations and through all services where foods and beverages are sold, which may include, but are not limited to, à la carte options in cafeterias, vending machines, school stores, and snack or food carts. Only for the purpose of competitive food and beverages in subsection 3 of this policy, a school day is the time between midnight the night before to 30 minutes after the end of the instructional day.

3. Celebrations and Rewards

All foods offered on the school campus will meet or exceed the USDA Smart Snacks nutrition standards or, if the state policy is stronger, will meet or exceed state nutrition standards, including through:

- a. Celebrations and parties - The District will provide a list of healthy party ideas to parents/guardians and teachers, including non-food celebration ideas.
- b. Classroom snacks brought by parents or guardians - The District will provide or make available to parents/guardians a list of foods and beverages that meet the USDA Smart Snacks nutrition standards.
- c. Rewards and incentives - The District will provide teachers and other relevant school staff a list of alternative ways to reward children or other comparable resources. Foods and beverages will not be withheld as punishment for any reason, such as for performance or behavior.

4. Fundraising

Foods and beverages that meet or exceed the USDA Smart Snacks nutrition standards may be sold through fundraisers on the school campus during the school day.

5. Nutrition Promotion

Nutrition promotion will be provided through both classroom and school meal program efforts, which encourage participation in school meal programs and the consumption of nutrient-rich foods. Students and staff will receive consistent nutrition messages throughout the school building, classrooms, gymnasiums, and cafeterias.

6. Nutrition Education

The District will teach, model, encourage, and support healthy eating by all students.

Physical Activity

A substantial percentage of students' physical activity can be provided through a Comprehensive School Physical Activity Program (CSPAP).

1. Physical Education

The District will provide students with physical education, using an age-appropriate, sequential physical education curriculum consistent with national and state standards for physical education.

2. Classroom Physical Activity Breaks

Students will be offered periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. The District recommends teachers provide short (3-5-minute) physical activity breaks to students during and between classroom time at least three days per week. These physical activity breaks will complement, not substitute, for physical education class, recess, and class transition periods.

3. Active Academics

Teachers will incorporate movement and kinesthetic learning approaches into “core” subject instruction when possible

Teachers will serve as role models by being physically active alongside the students whenever feasible.

4. Before and After School Activities

The District offers opportunities for students to participate in physical activity either before and/or after the school day through a variety of methods. The District will encourage students to be physically active before and after school by sponsoring or permitting physical activity clubs and physical activity in aftercare, intramurals, or interscholastic sports.

5. Active Transport

The District will support active transport to and from school, such as walking or biking.

Other Activities that Promote Student Wellness

The District will integrate wellness activities across the entire school setting, including other initiatives related to physical activity, physical education, nutrition, and other wellness components so efforts are complementary and work towards the same set of goals to promote student well-being, optimal development, and strong educational outcomes.

1. Community Partnerships

The District will develop, enhance, or continue relationships with parents/guardians, families, and community partners in support of this wellness policy implementation. Families, community members, and organizations will be informed and invited to participate in school-sponsored activities and will receive information about health promotion efforts.

2. Community Health Promotion and Family Engagement

The District will promote to parents/guardians, families, and the general community the benefits of and approaches for healthy eating and physical activity throughout the school year. Families will be informed and invited to participate in school-sponsored activities and will receive information about health promotion efforts.

3. Staff Wellness and Health Promotion

The SBPSDWC will focus on staff wellness issues, identify and disseminate wellness resources, and perform other functions that support staff wellness in coordination with human resources staff.

Schools in the District will implement strategies to support staff in promoting and modeling healthy eating and physical activity behaviors. The District promotes staff member participation in health promotion programs and will receive information about health promotion efforts.

4. Professional Learning

When feasible, the District will offer annual professional learning opportunities and resources for staff to increase knowledge and skills about promoting healthy behaviors in the classroom and school.

StudentsStudent Privacy Protection Policy

It is the policy of Scottsbluff Public Schools to develop and implement policies which protect the privacy of students in accordance with applicable laws. The District's policies in this regard include the following:

1. Right of Parents/Guardians to Inspect Surveys Funded or Administered by the United States Department of Education or Third Parties
Parents/guardians shall have the right to inspect, upon the parent/guardian's request, a survey created by and administered by either the United States Department of Education or a third party (a group or person other than the District) before the survey is administered or distributed by the school to the parent/guardian's child.
2. Protection of Student Privacy in Regard to Surveys of Matters Deemed to be Sensitive
The District will require, for any survey of students which contain one or more matters deemed to be sensitive (see section headed "Definition of Surveys of Matters Deemed to be Sensitive"), that suitable arrangements be made to protect student privacy (that is, the name or other identifying information about a particular student). For such surveys, the District will also follow the procedures set forth in the section entitled: "Notification of and Right to Opt-Out of Specific Events."
3. Right of Parents/Guardians to Inspect Instructional Materials
Parents/guardians shall have the right to inspect, upon reasonable request, any instructional material used as part of the educational curriculum for their child. Reasonable requests for inspection of instructional materials shall be granted within a reasonable period of time after the request is received. Parents/guardians shall not have the right to access academic tests or academic assessments, as such are not within the meaning of the term instructional materials for purposes of this policy.

The procedures for making and granting a request to inspect instructional materials are as follows: the parent/guardian shall make the request, with reasonable specificity, directly to the building principal. The building principal, within five school days, shall consult with the teacher or other educator responsible for the curriculum materials. In the event the request can be accommodated, the building principal shall make the materials available for inspection or review by the parent/guardian, at such reasonable time and place as will not interfere with the educator's intended use of the materials. In the event there is a question as to the nature of the curriculum materials requested or as to whether the materials are required to be provided, the building principal shall notify the parent/guardian of such concern, and assist the parent/guardian with forming a request which can reasonably be accommodated. If the parent/guardian does not formulate such a request, and continues to desire certain curriculum materials, the parent/guardian shall be asked to make their request to the Superintendent or the Superintendent's designee.

4. Rights of Parents/Guardians to be Notified of and to Opt-Out of Certain Physical Examinations or Screenings

The general policy and practice of the District is to not administer physical examinations or screenings of students which require advance notice or parent/guardian opt-out rights under the applicable federal laws, for the reason that the physical examinations or screenings to be conducted by the District will usually fit into one of the following exceptions:

- a. In accordance with Nebraska Department of Health and Human Service requirements;
- b. Physical examinations or screenings that are permitted or required by an applicable state law; and,
- c. Surveys administered to students in accordance with the Individuals with Disabilities Education Act.

For physical examinations or screenings which do not fit into the applicable exceptions, the District will follow the procedures set forth in the section entitled: "Notification of and Right to Opt-Out of Specific Events."

5. Protection of Student Privacy in Regard to Personal Information Collected from Students

The general policy and practice of the District is to not engage in the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information. The District will make reasonable arrangements to protect student privacy to the extent possible in the event of any such collection, disclosure, or use of personal information.

Personal information for purposes of this policy means individually identifiable information about a student including:

- a. A student or parent/guardian's first and last name;
- b. Home address;
- c. Telephone number; and/or,
- d. Social security number.

The term personal information, for purposes of this policy, does not include information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions. This exception includes the following examples:

- a. College or postsecondary education recruitment, or military recruitment;
- b. Book clubs, magazines, and programs providing access to low-cost literary products;
- c. Curriculum and instructional materials used by elementary schools and secondary schools;
- d. Tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about student, or to generate other statistically useful data for the purpose of securing such tests and assessments, and the subsequent analysis and public release of the aggregate data from such tests and assessments;

- e. The sale by student of products or services to raise funds for school-related or education-related activities; and/or,
 - f. Student recognition programs.
6. Parent/Guardian Access to Instruments Used in the Collection of Personal Information
While the general practice of the District is to not engage in the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information, parents/guardians shall have the right to inspect, upon reasonable request, any instrument which may be administered or distributed to a student for such purposes. Reasonable requests for inspection shall be granted within a reasonable period of time after the request is received.

The procedures for making and granting such a request are as follows: the parent/guardian shall make the request, with reasonable specificity, directly to the building principal and shall identify the specific act and the school staff member or program responsible for the collection, disclosure, or use of personal information from students for the purpose of marketing that information. The building principal, within five school days, shall consult with the school staff member or person responsible for the program which has been reported by the parent/guardian to be responsible for the collection, disclosure, or use of personal information from students. In the event such collection, disclosure, or use of personal information is occurring or there is a plan for such to occur, the building principal shall consult with the Superintendent or the Superintendent's designee for determination of whether the action shall be allowed to continue. If not, the instrument for the collection of personal information shall not be given to any students. If it is to be allowed, such instrument shall be provided to the requesting parent/guardian as soon as such instrument can be reasonably obtained.

Annual Parental Notification of Student Privacy Protection Policy

The District shall provide parents/guardians with reasonable notice of the adoption or continued use of this policy and other policies related to the student privacy. Such notice shall be given to parents/guardians of students enrolled in the District at least annually, at the beginning of the school year, and within a reasonable period of time after any substantive change in such policies.

Notification to Parents/Guardians of Dates of and Right to Opt-Out of Specific Events

The District shall directly notify the parents/guardians of the affected children, of the specific or approximate dates during the school year when any of the following activities are scheduled, or are expected to be scheduled:

1. The collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information. 2. Surveys of students involving one or more matters deemed to be sensitive in accordance with the law and this policy; and,
3. Any non-emergency, invasive physical examination or screening that is required as a condition of attendance, administered by the school and scheduled by the school in advance, and not necessary to protect the immediate health and safety of the student or of

other students. (Note: The general practice of the District is to not engage in physical examinations or screenings which require advance notice, for the reason that the physical examinations or screenings to be conducted by the District will usually fit into one of the following exceptions to the advance notice requirement and parent/guardian opt-out right:

- a. Screenings in accordance with Nebraska Department of Health and Human Service requirements;
- b. Physical examinations or screenings that are permitted or required by an applicable state law; and,
- c. Surveys administered to students in accordance with the Individuals with Disabilities Education Act.

Parents/guardians shall be offered an opportunity in advance to opt their child out of participation in any of the above listed activities. In the case of a student of an appropriate age (that is, a student who has reached the age of 18, or a legally emancipated student), the notice and opt-out right shall belong to the student.

Definition of Surveys of Matters Deemed to be Sensitive

Any survey containing one or more of the following matters shall be deemed to be sensitive for purposes of this policy:

1. Political affiliations or beliefs of the student or the student's parent/guardian;
2. Mental or psychological problems of the student or the student's parent/guardian;
3. Sex behavior or attitudes;
4. Illegal, anti-social, self-incriminating or demeaning behavior;
5. Critical appraisals of other individuals with whom the student has close family relationships;
6. Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
7. Religious practices, affiliations, or beliefs of the students or the student's parent/guardian; or,
8. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

Mental Health Assessment or Service

The District shall attempt to obtain informed consent from the parent/guardian of each child who is under 18 years of age to participate in any mental-health assessment or therapeutic service that is funded under the Every Student Succeeds Act ("ESSA"). Before obtaining the consent, the District shall provide the parent/guardian written notice describing in detail such mental health assessment or therapeutic service, including the purpose for such assessment or therapeutic service, the provider of such assessment or therapeutic service, when such assessment or therapeutic service will begin, and how long such assessment or therapeutic service may last. No mental health assessment can be conducted without written consent from the parent/guardian.

StudentsDating Violence

Scottsbluff Public Schools strives to provide physically safe and emotionally secure environments for all students and staff. Positive behaviors are encouraged in the educational program and are required of all students and staff. Dating violence will not be tolerated.

For purposes of this policy “dating violence” means a pattern of behavior where one person uses threats of, or actually uses, physical, sexual, verbal, or emotional abuse to control his or her dating partner. “Dating partner” means any person, regardless of gender, involved in an intimate relationship with another person primarily characterized by the expectation of affectionate involvement whether casual, serious, or long term.

Incidents of dating violence involving students at school will be addressed as the administration determines appropriate, within the scope and subject to the limits of the District’s authority.

Staff training on dating violence shall be provided as deemed appropriate by the administration. The dating violence training shall include, but need not be limited to, basic awareness of dating violence, warning signs of dating violence, and the District's dating violence policy.

The administration will be responsible for ensuring that this dating violence policy is published in the School District’s Parent-Student Handbook or an equivalent such publication. Parents/guardians shall be informed of the dating violence policy by such other means as the administration determines appropriate. If requested, parents /guardians shall be provided a copy of the dating violence policy and relevant information.

Use of Restraints and Seclusion

This policy sets forth the requirements, restrictions, and procedures related to the use of physical restraints and seclusions at Scottsbluff Public Schools. Every effort should be made to prevent the need for the use of restraint and seclusion, and positive behavioral strategies should be employed to prevent and/or address dangerous behavior, and could include positive reinforcement, positive behavior supports, or other preventative interventions. Behavioral strategies employed to address dangerous behaviors should address the underlying cause or purpose of the behavior. No Scottsbluff Public Schools staff member may use mechanical or medical restraints.

Parents/guardians will be informed of school or district policies on restraint and seclusion.

Definitions

1. Physical Restraint - Physical restraint means one or more persons using a physical hold to restrict a student's freedom of movement as a response to student behavior. A light touching of a student while conducting a physical escort or a touching to provide instructional assistance is not a physical restraint for purposes of this policy.
2. Seclusion - Seclusion is the involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving as a response to student behavior. Seclusion as defined herein is not practiced in the District.

Seclusion is distinguishable from an in-school suspension, in which other students or adults may be present. While students are required to remain in the in-school suspension area, the students are not physically prevented from leaving.

Seclusion is distinguishable from the District practice of monitored isolation, which is removing a student away from other students to a designated area while being directly monitored by a staff member.

Physical Restraint

1. When Physical Restraint May be Used - Physical restraint may be used in the following circumstances:
 - a. To prevent a student from completing an act that would result in injury to the student or others when there is a substantial risk that the student would commit the act;
 - b. A verbal threat by a student does not present a substantial risk that a student would commit an aggressive act unless the student also demonstrates the ability and intent to carry out the threat;
 - c. Destruction of or damage to property does not present a substantial risk of personal injury unless personal injury would be caused as a result of the destructive act (for example, throwing sharp or heavy objects when others are

present, or the person whose property is about to be destroyed is likely to react physically if the person's property were destroyed). (Note: If a student is about to destroy or damage property, the act of grasping the student's arm or leg solely to prevent the striking, throwing, or kicking of the item is not prohibited.); and/or

- d. To move a student to a seclusion room, or to remove a student to another location because the student is creating a substantial disruption to others, in circumstances where the student is unable to be moved or removed without the use of physical restraint.
2. When Physical Restraint May Not Be Used - Physical restraints may not be used in the following circumstances:
 - a. When a known medical or psychological condition contraindicates its use; and/or
 - b. For purposes of discipline, punishment, coercion, or as a means of convenience.
 3. Conditions - Use of physical restraint shall take into consideration the safety and security of the student. Intentional prone restraints are prohibited.

In determining whether a student who is being physically restrained should be removed from the area where such restraint was initiated, the staff shall consider the potential for injury to the student, the student's privacy interests, and the educational and emotional well-being of other students in the vicinity.

If physical restraint is imposed upon a student whose primary mode of communication is sign language or an augmentative mode, the student shall be permitted to have his or her hands free of restraint for brief periods, unless staff determines that such freedom appears likely to result in harm to the student or others.

4. Timeline - Physical restraint is to be used only as long as necessary to resolve the reason for which it was initiated.
5. Training - Except in the case of emergent situations, physical restraint shall be applied only by individuals who have received systematic training that includes all the elements described below. An individual who applies physical restraint shall use only techniques in which he or she has received such training within the preceding two years.
 - a. Training with respect to physical restraint may be provided either by the School District or by an external entity and shall include, but need not be limited to:
 - i. Appropriate procedures for preventing the need for physical restraint, including the de-escalation of problematic behavior, relationship-building, and the use of alternatives to restraint;
 - ii. A description and identification of dangerous behaviors on the part of students that may indicate the need for physical restraint and methods for evaluating the risk of harm in individual situations in order to determine whether the use of restraint is warranted;
 - iii. The simulated experience of administering and receiving a variety of physical restraint techniques, ranging from minimal physical involvement to very controlling interventions;

- iv. Instruction regarding the effects of physical restraint on the person restrained, including instruction on monitoring physical signs of distress, and obtaining medical assistance;
- v. Instruction regarding documentation and reporting requirements and investigation of injuries and complaints; and,
- vi. Demonstration by participants of proficiency in administering physical restraint.

An individual may provide training to others in a particular method of physical restraint only if he or she has completed training in that technique that meets the foregoing requirements within the preceding one-year period.

Seclusion

1. When Seclusion May be Used - Seclusion may be used in the following circumstances:
 - a. When a student's behavior is so out of control that the student's behavior creates a risk of injury to the student or others;
 - b. When a student's behavior is so out of control that the student is causing a disruption to school activities and there is no other technique and no other place the student may be moved to prevent continued disruption;
 - c. When a student's behavior is so out of control that the student is unable to engage in educational activities and there is no other technique that could reasonably be employed to allow the student's emotions to cool down and engage in appropriate behaviors and educational activities; and/or,
 - d. The student has an IEP or a Behavioral Plan which provides for the use of seclusion in circumstances other than the foregoing. If it is anticipated that seclusion may need to be used with a special education student, the IEP team is to discuss and include use of seclusion in the student's IEP if the IEP team determines use of seclusion to be appropriate. (Note: IEPs or Behavioral Plans should not provide for use of seclusion except in those circumstances where the professional staff determines that non-aversive or positive intervention strategies would not be effective.)
2. When Seclusion May Not Be Used - Seclusion may not be used in the following circumstances:
 - a. When a known medical or psychological condition contraindicates its use; and/or,
 - b. As a form of punishment.
3. Conditions - Use of seclusion shall take into consideration the safety and security of the student. Enclosures used for seclusion, other than enclosures used on a temporary basis, shall:
 - a. Have the same ceiling height as the surrounding room or rooms and be large enough to accommodate not only the student being isolated but also any other individual who is required to accompany that student;
 - b. Be constructed of materials that cannot be used by students to harm themselves or others, be free of electrical outlets, exposed wiring, and other objects that could be used by students to harm themselves or others, and be designed so that students

- cannot climb up the walls (including walls far enough apart so as not to offer the student being isolated sufficient leverage for climbing);
- c. If an enclosure used for isolated time out is fitted with a door, the door shall either be a steel door or a wooden door of solid-core construction. If the door includes a viewing panel, the panel shall be unbreakable;
 - d. Be designed to permit visual monitoring of and communication with the student sufficient to ensure the student's safety and security. For students who do not communicate verbally, arrangements shall be made to permit the student to periodically communicate the student's needs; and,
 - e. If a locking mechanism is used on the enclosure, the mechanism shall be constructed so that it will engage only when a key, handle, knob, or other similar device is being held in position by a person, unless the mechanism is an electrically or electronically controlled one that is automatically released when the building's fire alarm system is triggered. Upon release of the locking mechanism by the supervising adult, the door must be able to be opened readily.

The procedures for use of seclusion include:

- a. An adult who is responsible for supervising the student shall remain within close proximity of the enclosure; and,
 - b. The adult responsible for supervising the student must periodically check on the student visually, if possible.
4. Timeline - A student shall not be kept in seclusion for more than 20 minutes after the student ceases presenting the specific behavior for which isolated time out was imposed or any other behavior for which isolated time out would be an appropriate intervention.
 5. Training - Orientation will be provided to staff members who are anticipated to be involved in the use of seclusion. The orientation shall cover the procedures contained in this policy.
 6. Documentation and Evaluation
 - a. Documentation of Use of Physical Restraint or Seclusion - A written record of each use of seclusion or physical restraint shall be prepared and maintained in the student's temporary record. The student's case manager, if any, shall also maintain a copy of each such record. Each such record shall include:
 - i. The student's name;
 - ii. The date of the incident;
 - iii. The beginning and ending times of the incident;
 - iv. A description of any relevant events leading up to the incident;
 - v. A description of any interventions used prior to the implementation of physical restraint or seclusion;
 - vi. A description of the incident and/or student behavior that resulted in implementation of physical restraint or seclusion;
 - vii. A log of the student's behavior during physical restraint or seclusion;
 - viii. A description of any injuries (whether to students, staff, or others) or property damage;

- ix. A list of the school personnel who participated in the implementation, monitoring, and supervision of physical restraint or seclusion; and
- x. The date on which the parent/guardian was notified.

The record shall be completed by the beginning of the school day following the use of seclusion or physical restraint.

- b. Notification of Administration - The Superintendent or the Superintendent's designee shall be notified of the incident as soon as possible, but no later than the end of the school day on which it occurred.
- c. Notification of Parent/Guardian - Within 48 hours after use of seclusion or physical restraint, the Superintendent or the Superintendent's designee shall send written notice of the incident to the student's parents/guardians, unless the parent/guardian has provided the District a written waiver of this requirement for notification. The parent/guardian shall be informed of the date of the incident, a description of the intervention (physical restraint or seclusion) used, and who at the school may be contacted for further information.
- d. Debrief - Debriefing will occur after every incident of restraint and seclusion. This debriefing will include a review of the restraint and/or seclusion procedures employed, the appropriateness of the use of the procedures, and how they could be avoided in the future.
- e. Evaluation - An evaluation shall be conducted whenever a physical restraint exceeds 15 **consecutive** minutes or results in physical injury, whenever a seclusion exceeds 30 **consecutive** minutes, or use of physical restraint or seclusion is repeated with an individual student during any three-hour period:
 - i. A certified staff person trained in the use of physical restraint or knowledgeable about the use of seclusion, as applicable, shall evaluate the situation.
 - ii. The evaluation shall consider the appropriateness of continuing the procedure in use, including the student's potential need for medication, nourishment, or use of a restroom, and the need for alternate strategies (e.g., assessment by a mental health crisis team, assistance from police, or transportation by ambulance).
 - iii. The results of the evaluation shall be committed to writing and copies of this documentation shall be placed into the student's temporary student record and provided to the Superintendent or the Superintendent's designee.

StudentsPregnant and Parenting Students

Scottsbluff Public Schools recognizes that pregnant and parenting students have the right and responsibility to attend school. This attendance right and responsibility applies to students regardless of their marital or parental status. Further, the District will educate pregnant and parenting students and will provide reasonable accommodations to support and encourage all pregnant and parenting students to obtain their high school diploma. No student will be excluded from, denied the benefit of, or discriminated against under any educational program or activity because of pregnancy or parenting responsibilities.

Attendance and Leave of Absences

Pregnant and parenting students will be permitted to attend to their own health care, their child's medical care, or other pregnancy- or parenting-related appointments with the benefit of having any such absences or tardiness excused. A student will be permitted to take a leave of absence for pregnancy, childbirth, and any other pre- and post-natal related medical needs, along with recovery therefrom for the duration that is deemed medically necessary by the student's licensed health care provider. At the conclusion of the leave of absence, a student will be immediately enrolled in the District at the same grade and status as when the leave began. Pregnant and parenting students shall be allowed to participate in all activities including extracurricular activities throughout the student's pregnancy and thereafter unless the District deems such participation poses a substantial risk of injury to the student or to others. A pregnant and parenting student may be asked to obtain certification from the student's licensed healthcare provider regarding the student's safe participation in an extracurricular activity when such certification is required of students for other conditions which require the attention of a licensed healthcare provider.

Any absences accumulated due to pregnancy or pregnancy-related conditions, or care for an ill child, should not count towards any district policies in effect under compulsory attendance requirements. Pregnant and parenting students with excused absences or tardiness shall be treated like all other students with excused absences or tardiness for any other medical reasons.

Pregnant and parenting students will be provided with assignments, classwork, and any additional support needed to ensure that the student can keep up with class requirements when absent for pregnancy or parenting-related absences.

Alternative Means to Complete Course Work

The District will provide at least one alternate method, in addition to traditional classroom instruction, to keep pregnant and parenting students in school. Such accommodation(s) may include accessing coursework online, home-based independent study, or at-home tutoring. Alternative methods of instruction or other alternative programs for pregnant and parenting students are voluntary for the student who may elect whether to engage in an alternative method of instruction or the traditional methods of instruction available to their peers. Pregnant and parenting students shall be allowed to attend their regular classrooms and complete regular coursework.

Lactation

The District will make reasonable accommodations for breastfeeding or milk expression during the school day. Such accommodations will be in a location, other than a bathroom or closet, that is private, clean, has an electrical outlet, a chair, and is reasonably accessible. Students shall also be provided a food safe refrigerator to store breast milk safely.

Child Care

If in-school child care is not provided, a list of qualified licensed child care providers will be provided upon request to pregnant or parenting students. Such list will be updated annually and include providers that participate in the quality rating and improvement system and meet all of the quality rating criteria for at least a Step 3 rating pursuant to the Step Up to Quality Child Care Act. Nothing in this policy is intended to prohibit or limit any referral for a student or a student's child to an early head start program or any other available community resources.

Privacy and Confidentiality

Pregnant and parenting students have the right to have their health and personal information kept confidential in accordance with law. School staff will make every effort to keep personal information and health records confidential and in compliance with Nebraska and federal law. Information about students' pregnancies and related conditions will not appear in their cumulative records and will not be used when they are being considered for educational or job opportunities, awards, or scholarships.

Other Accommodations

Pregnant and parenting students may request additional reasonable accommodations to ensure continued participation and enrollment in school. Accommodation requests will be evaluated on a case-by-case basis. Such accommodations may include but are not limited to additional frequency allowed for bathroom breaks, additional time allowed in between class periods, a larger desk or additional work space, and adjustments to requirements for physical education as needed. Students seeking additional reasonable accommodation should make such requests to the building principal.

Bullying and Harassment

Pregnant and parenting students have the same rights as other students to be free from discrimination, bullying, and harassment. Such school policies are incorporated herein and apply to all students.

Policy Dissemination

This policy will be available at the beginning of each school year on the District's website and will be incorporated into the Parent-Student Handbook.

Student Memorials

From time to time, Scottsbluff Public School District must confront the issue of dealing appropriately with the death of a student. The purpose of this policy is to set forth uniform guidelines when responding to the death of a student. When a student dies it is generally a school-wide (if not a community-wide) tragedy. Schools are immediately identified as having some responsibility to make sure the student's life is recognized and honored. The District welcomes this opportunity and desires to help in the grieving and healing processes. The District is obligated, however, to exercise caution in the method used to recognize the deceased student and his or her family. Research indicates two potential problems.

First, physical memorials have the potential to communicate immortalization, essentially glamorizing the death in the minds of some students. Young people who suffer from depression or other psychological problems and are at risk for suicidal behavior are sometimes motivated to take their own lives when they are exposed to a memorial immortalizing the death of a student.

Secondly, memorials can be an ongoing visual reminder of what happened, leading to students worrying if it will happen again or wondering if they could be next. From this perspective, memorials in the school or on school property pose a significant risk simply because a school is a "closed" environment. It becomes almost impossible for students to avoid the physical reminders of a death when a memorial is located on school premises. Memorials need to be an opportunity of choice, as we all grieve differently. For some, it is healthier not to be reminded.

Consequently, the following guidelines should guide schools' decision-making during such circumstances.

The District will not allow:

1. Memorial/funeral services that may alter the routine of a regular school instructional day;
2. Memorials that require the altering of school activities or the activity schedule;
3. Memorials that require the altering of school property;
4. Memorials that infringe on the separation of church and state;
5. Memorials that require the use of public funds to purchase, develop, or maintain;
6. Memorials that include plaques attached to any object on school property;
7. Memorials that draw attention or have the potential to glamorize the death;
8. Memorials that consist of a monument on school property;
9. Memorials in the yearbook;
10. Memorials during graduation ceremony, such as an empty seat to honor the individual; and/or,
11. Memorials attached to a wall or in a trophy case.

Acceptable memorials/activities may include:

1. Scholarships established in the name of the student;
2. Donation to a charity or program that is dedicated to helping students;
3. Collection of money to be donated to the deceased's family or charity of their choice;

4. The inclusion of a recently deceased student in a yearbook with the notation “In Memory of...” during the year of his or her death (in a manner otherwise no different than any other student) shall not be considered a memorial;
5. Honorary diplomas for deceased students that are currently seniors may be distributed privately to parents/guardians; and/or,
6. The graduation ceremony may include a moment of silence to honor all who could not be in attendance.

Additionally, memorials/donations are encouraged to be given to the Scottsbluff Public Schools Foundation in accordance with the Foundation guidelines and procedures.

Additional administrative support may include:

1. A sympathy card from the school (possibly signed by students and staff) and flowers **not purchased with district funds** could be sent to the family or site of the ceremony;
2. The District Emergency Response Counseling Team should be contacted immediately and be on campus to help students cope with the grief caused by the loss;
3. Students and staff should be encouraged to extend their support to the family in safe, courteous, and appropriate manners. Staff and students are encouraged to respect the family’s privacy and should refrain from posting on social media platforms;
4. Administrators and staff attendance at the viewing and funeral are encouraged;
5. Administration should oversee the safe return of the student’s personal effects that may be in a school locker or classroom; and,
6. School records, inclusion in any distribution lists (electronic, telephone, mailings), attendance lists, and rosters should be sensitively purged.

The Board of Education recognizes the guidelines listed above are not an all-encompassing list and respectfully reserve the right to exercise its best judgment for those instances not covered by the guidelines appearing above.

StudentsFreedom of Expression

Student expression, other than student expression in student-produced official school publications, made on the School District premises or under the jurisdiction of the School District or as part of a school-sponsored activity may be attributed to the School District, therefore, student expression must be responsible. Student expression must be appropriate to assure that the students learn and meet the goals of the school activity and that the potential audience is not exposed to material that may be harmful or inappropriate for their level of maturity.

Students will be allowed to express their viewpoints and opinions as long as the expression is responsible. The expression shall not, in the judgment of the administration, encourage the breaking of laws, defamation of persons, be obscene or indecent, or cause a material and substantial disruption to the educational program. The administration, when making this judgment, shall consider whether the activity in which the expression was made is school-sponsored and whether review or prohibition of the students' speech furthers an educational purpose. Further, the expression must be done in a reasonable time, place, and manner that is not disruptive to the orderly and efficient operation of the School District.

Students who violate this policy may be subject to disciplinary measures. Employees shall be responsible for ensuring students' expression is in keeping with this policy.

StudentsScottsbluff Public Schools Safe Pupil Transportation Plan

This Scottsbluff Public Schools Safe Pupil Transportation Plan sets forth the District's plan for providing safe transportation to students being transported in vehicles on regular routes assigned through the District transportation plan.

1. Weapons - Vehicles shall not transport any weapons or look-a-like weapons, explosive devices, or bomb-related materials or equipment which could endanger the lives, health, or safety of the children, other passengers, or the driver. Look-a-like weapons associated with a school-sponsored or approved activity may be transported with written permission of an administrator of the District. If possible, these items should be secured and not visible or accessible to students while in the vehicle.

Upon becoming aware of a weapon aboard a vehicle, the driver will make every attempt to:

- a. Contact dispatch or administration and notify them of the situation, if possible. If not possible, the driver will make every attempt to contact from a cell phone (after parking on a shoulder or otherwise not moving) or from the nearest safe haven location. Examples of a safe haven include, but are not limited to, any school building site, emergency service station (law enforcement or fire department), community service agency, etc.
 - b. Pull the vehicle over to a safe and secure area.
 - c. Confiscate weapon (if doing so does not jeopardize student or driver safety).
 - d. Give description of weapon and participating parties to dispatch or administration.
 - e. Dispatch or administration will immediately notify appropriate law enforcement agencies.
2. Pupil Behavior - Students are expected to follow student conduct rules while in a vehicle. The pupil transportation driver is responsible for controlling behavior which affects safety and for reporting rule violations to school administration. In the event a student violates Board policy regarding student conduct standards or otherwise engages in behavior that jeopardizes safety, the driver will make every attempt to:
 - a. First, seek to resolve the incident through discussion with the student(s) involved.
 - b. Contact dispatch or administration and notify them of the situation, if possible. If not possible, the driver will make every attempt to telephone dispatch or administration from a cellular telephone or from the nearest safe haven location.
 - c. Activate emergency flashers.
 - d. Bring the vehicle to a safe stop. Seek to resolve the incident, using physical force only as necessary to protect students or yourself.
 - e. Report and document discipline problems to the school administrator. **Use a Bus Conduct Report/Incident Form, if available.**
3. Terrorist Threats - A person commits a terroristic threat if the person threatens to commit a crime of violence with the intent to terrorize another or with the intent of causing evacuation of a building, place of assembly, or the vehicle or in reckless disregard of the

risk of causing such terror or evacuation. Upon becoming aware of a terroristic threat relating to a pupil transportation vehicle, the driver will make every attempt to:

- a. Contact dispatch or administration and notify them of the situation, if possible. If not possible, the driver will make every attempt to telephone dispatch or administration from a cell phone or from the nearest safe haven location.
 - b. Make every attempt to keep passengers calm (this may mean complying with the terrorist).
 - c. Dispatch or administration will immediately notify appropriate law enforcement agencies.
 - d. Driver should wait for instructions from dispatch or administration, if possible.
4. Severe Weather - Upon becoming aware of severe weather while aboard a pupil transportation vehicle, the driver will make every attempt to:
- a. Contact dispatch or administration and notify them of the situation, if possible. If not possible, the driver will make every attempt to telephone dispatch or administration from a cellular telephone or from the nearest safe haven location.
 - b. Return to the school if less than five minutes away and follow the directions of the school administrator.
 - c. If more than five minutes away from school, go to the nearest school and follow the directions of the school administrator.
 - d. If more than five minutes away from the nearest school, or there is immediate danger, get to the nearest basement or underground shelter with all students.
 - e. If there is no shelter and there is immediate danger the driver and passengers are to follow evacuation procedures and get everyone off the vehicle into the nearest ditch or culvert at least 100 feet away from the vehicle.

StudentsFoster Care Student Transportation

In accordance with federal and state law, the District's written transportation procedures for foster care children are outlined below.

Students to be Transported

DHHS will contact the District to inform the District of a foster care student living in the District and/or to be educated by the District. The District will communicate with DHHS on any further matters concerning said foster care student(s).

School of Origin

The District will work to develop a transportation plan for each foster care student needing transportation to the student's school of origin, as defined and required by federal law. Each student's situation will be different, so there is no single transportation plan for every foster care student. Transportation options may include:

1. The foster care family;
2. A bus or school vehicle;
3. Transportation to a pickup location; or,
4. Some other form of transportation in accordance with state and federal law. Foster care students on an IEP may require other considerations and/or different transportation obligations.

When required by law, the District will coordinate the foster care student's transportation to the school of origin while any disputes regarding transportation exist and will continue until the disputes are resolved.

Costs

If the student can be transported by the District without the District incurring any additional costs, then the District will normally transport the student. However, if the District will need to incur additional costs to transport the student, then DHHS will cover any such additional costs associated with the foster care student's transportation. If the District and DHHS are unable to agree on a transportation plan, the District and DHHS will work together to resolve any differences.

Oversight, Implementation, and Administration

The Executive Director of Student Services is responsible for overseeing these procedures, updating them as needed, and otherwise ensuring that the District complies with the transportation requirements for foster care students.

StudentsStudent Conduct on Buses

The privilege of riding a school bus is contingent upon a student's good behavior and observance of established regulations for student conduct both at bus stops and onboard buses. Since bus transportation is provided to assist the education program, the Board shall require students to conduct themselves on the bus in a manner consistent with established standards for classroom behavior.

The driver of a school bus shall be responsible for the safety of the students on the bus, both during the ride and while students are entering or leaving the vehicle. Therefore, it is the bus driver's duty to notify the Location Manager or the principal of the school involved if any student persists in violating the established rules of conduct.

After due warning has been given to the student and to parents/guardians, the principal may withhold from the student the privilege of riding the school bus. In such cases, the parents/guardians of the children involved will be responsible for seeing that their children get to and from school safely.

The student may also face detention, suspension, or expulsion, in accordance with established policies, for flagrant violation of school bus rider conduct regulations or conduct detrimental to the safe operation of the bus.

The regulations established shall comply with NDE rules regarding the protocol to follow in case of a life-threatening asthma or systemic allergic reaction (**including anaphylaxis**) and use of an EpiPen and albuterol. The "core instructional school day" is defined as that portion of each day school is in session during which teachers are on duty to provide and students are scheduled to receive instruction in the **School** District's curriculum, generally beginning at 8:00 AM and ending at 3:30 PM. The Emergency Protocol shall not be required to be implemented other than in the school buildings while school is in session, and as such is not required to be implemented at extracurricular activities, on school buses, or during school field trips. Implementation of the Emergency Protocol at such non-mandatory times or places shall be made at the discretion of the administration and shall be subject to the availability of the employees designated or trained in implementation of the Emergency Protocol and the availability of the necessary equipment and medication at such times or places.

~~The Superintendent or designee shall further develop and implement protocols to address anaphylaxis and the emergency use of epinephrine at school buildings and school-sponsored activities. A school nurse or trained staff member may administer epinephrine to any individual believed to be experiencing anaphylaxis. These protocols will also address the District's response, documentation, notification, and reporting any instances of administering epinephrine. The District will continue to implement individualized health or Section 504 plans for students with known severe allergies, and nothing in this policy limits rights or accommodations under Section 504, the ADA, or the IDEA.~~

Accordingly, unlawful discrimination, harassment or retaliation of any kind by district employees, including, co-workers, non-employees (such as volunteers), third parties, and others is strictly prohibited and will not be tolerated.

Harassment is a form of discrimination and includes verbal, non-verbal, written, graphic, or physical conduct relating to a person's sex, disability, race (including skin color, hair texture and protective hairstyles), color, religion, military or veteran status, national or ethnic origin, age, marital status, pregnancy, childbirth or related medical condition, sexual orientation or gender identity, or other protected status, that is sufficiently serious to deny, interfere with, or limit a person's ability to participate in or benefit from an educational or work program or activity, including, but not limited to:

1. Conduct that is sufficiently severe or pervasive to create an intimidating, hostile, or abusive educational or work environment; or,
2. Requiring an individual to endure the offensive conduct as a condition of continued employment or educational programs or activities, including the receipt of aids, benefits, and services.

Educational programs and activities include all academic, educational, extracurricular, athletic, and other programs of the school, whether those programs take place in a school's facilities, on a school bus, at a class or training program sponsored by the school at another location, or elsewhere.

Discriminatory harassment because of a person's sex, disability, race (including skin color, hair texture and protective hairstyles), color, religion, military or veteran status, national or ethnic origin, age, marital status, pregnancy, childbirth or related medical condition, sexual orientation or gender identity, or other protected status.

The following examples are additional or more specific examples of conduct that may constitute sexual harassment:

1. Unwelcome sexual advances or propositions;
2. Requests or pressure for sexual favors;
3. Comments about an individual's body, sexual activity, or sexual attractiveness;
4. Physical contact or touching of a sexual nature, including touching intimate body parts and inappropriate patting, pinching, rubbing, or brushing against another's body;
5. Physical sexual acts of aggression, assault, or violence, including criminal offenses (such as rape, sexual assault or battery, and sexually motivated stalking), against a person's will or where a person is incapable of giving consent due to the victim's age, intellectual disability, or use of drugs or alcohol;

If the District knows or reasonably should know about possible harassment, including violence, the District will conduct a prompt, adequate, reliable, thorough, and impartial investigation to determine whether unlawful harassment occurred (see section entitled “Grievance Procedures,” below), and take appropriate interim measures, if necessary. If the District determines that unlawful harassment occurred, the District will take prompt and effective action to eliminate the harassment, prevent its recurrence, and remedy its effects, if appropriate. If harassment or violence that occurs off school property creates a hostile environment at school, the District will follow this policy and grievance procedure, within the scope of its authority.

All district employees are expected to take prompt and appropriate actions to report and prevent discrimination, harassment, and retaliation by others. Employees who witness or become aware of possible discrimination, including harassment and retaliation, must immediately report the conduct to his or her supervisor or the compliance coordinator designated to handle complaints of discrimination (designated compliance coordinator).

Anti-Retaliation

The District prohibits retaliation, intimidation, threats, coercion, or discrimination against any person for opposing discrimination, including harassment, or for participating in the District's discrimination complaint process or making a complaint, testifying, assisting, or participating in any manner, in an investigation, proceeding, or hearing. Retaliation is a form of discrimination.

The District will take immediate steps to stop retaliation and prevent its recurrence against the alleged victim and any person associated with the alleged victim. These steps will include, but are not limited to, notifying students, employees, and others that they are protected from retaliation, ensuring that they know how to report future complaints, and initiating follow-up contact with the complainant to determine if any additional acts of discrimination, harassment, or retaliation have occurred. If retaliation occurs, the District will take prompt and strong responsive action, including possible discipline, including expulsion or termination, if applicable.

Grievance (or Complaint) Procedures

Employees or students should initially report all instances of discrimination, harassment, or retaliation to their immediate supervisor or teacher or to the compliance coordinator designated to handle complaints of discrimination. If the employee or student is uncomfortable in presenting the problem to the supervisor or teacher, or if the supervisor or teacher is the problem, the employee or student may report the alleged discrimination, harassment, or retaliation to the designated coordinator, or in the case of students, to another staff person (such as a counselor or principal).

Other individuals may report alleged discrimination to the designated coordinator. If the designated coordinator is the person alleged to have committed the discriminatory act, then the complaint should be submitted to the Superintendent for assignment. A discrimination complaint form is attached to this grievance procedure and is available in the office of each district building, on the District's website, and from the designated coordinators.

Under no circumstances will a person filing a complaint or grievance involving discrimination be retaliated against for filing the complaint or grievance.

Level 1 - Investigation and Findings

Once the District receives a grievance, complaint, or report alleging discrimination, harassment, or retaliation, or becomes aware of possible discriminatory conduct, the District will conduct a prompt, adequate, reliable, thorough, and impartial investigation to determine whether unlawful harassment occurred. If necessary, the District will take immediate, interim action or measures to protect the alleged victim and prevent further potential discrimination, harassment, or retaliation during the pending investigation. The alleged victim will be notified of his or her options to avoid contact with the alleged harasser, such as changing a class or prohibiting the alleged harasser from having any contact with the alleged victim pending the result of the District's investigation. The District will minimize any burden on the alleged victim when taking interim measures to protect the alleged victim.

The District will promptly investigate all complaints of discrimination, even if an outside entity or law enforcement agency is investigating a complaint involving the same facts and allegations. The District will not wait for the conclusion or outcome of a criminal investigation or proceeding to begin an investigation required by this grievance procedure. If the allegation(s) involve possible criminal conduct, the District will notify the complainant of his or her right to file a criminal complaint, and district employees will not dissuade the complainant from filing a criminal complaint either during or after the District's investigation.

The District will aim to complete its investigation within 10 working days after receiving a complaint or report, unless extenuating circumstances exist as determined by the investigator. Extenuating circumstances may include the unavailability of witnesses or the investigator due to illness or incapacitation, or additional time needed because of the complexity of the investigation, the need for outside experts to evaluate the evidence (such as forensic evidence), or multiple complainants or victims. If extenuating circumstances exist, the extended timeframe to complete the investigation will be determined by the investigator and in compliance with any legal requirements. Periodic status updates will be given to the parties, when appropriate.

The District's investigation will include, but is not limited to:

1. Providing the parties with the opportunity to present witnesses and provide evidence;
2. An evaluation of all relevant information and documentation relating to the alleged discriminatory conduct;
3. For allegations involving harassment, some of the factors the District will consider include:
 - a. The nature of the conduct and whether the conduct was unwelcome;
 - b. The surrounding circumstances, expectations, and relationships;
 - c. The degree to which the conduct affected one or more students' education;
 - d. The type, frequency, and duration of the conduct;
 - e. The identity of and relationship between the alleged harasser and the suspect or suspects of the harassment;
 - f. The number of individuals involved;

- g. The age (and sex, if applicable) of the alleged harasser and the alleged victim(s) of the harassment;
 - h. The location of the incidents and the context in which they occurred;
 - i. The totality of the circumstances; and,
 - j. Other relevant evidence.
4. A review of the evidence using a “preponderance of the evidence” standard (based on the evidence, is it more likely than not that discrimination, harassment, or retaliation occurred?).

The District will ensure that prompt, appropriate, and effective remedies are provided if a finding of discrimination, harassment, or retaliation is made. The District will maintain relevant documentation obtained during the investigation and documentation supportive of the findings and any subsequent determinations.

The District will inform each party when the investigation is complete and will communicate any remedies or disciplinary sanctions that are directly applicable to that individual. The District will not disclose information about disciplinary actions or remedies imposed on another student or employee, except as required by law or when such information directly impacts the receiving party.

Level 2 - Appeal to the Superintendent

If a party is not satisfied with the findings or remedies (or both) set forth in the decision, he or she may file an appeal in writing with the Superintendent within five working days after receiving the decision. The Superintendent will review the appeal and the investigative documentation and decision, conduct additional investigation, if necessary, and issue a written determination about the appeal within 10 working days after receiving the appeal. The party who filed the appeal will be sent the Superintendent’s determination at the time it is issued, and a copy will be sent to the designated compliance coordinator. If the Superintendent is the subject of the complaint, the party will file the appeal directly with the Board.

Confidentiality

The identity of the complainant will be kept confidential to the extent permitted by state and federal law. The District will notify the complainant of the anti-retaliation provisions of applicable laws and that the District will take steps to prevent retaliation and will take prompt and strong responsive actions if retaliation occurs.

If a complainant requests confidentiality or asks that the complaint not be pursued, the District will take all reasonable steps to investigate and respond to the complaint consistent with the request for confidentiality or the request not to pursue an investigation, as long as doing so does not prevent the District from responding effectively to the harassment and preventing harassment of other students. If a complainant insists that his or her name or other identifiable information not be disclosed to the alleged perpetrator, the District will inform the complainant that its ability to respond may be limited. Even if the District cannot take disciplinary action against the alleged harasser, the District will pursue other steps to limit the effects of the alleged harassment and prevent its recurrence, if warranted.

Training

The District will ensure that relevant district employees are adequately trained so they understand and know how to identify acts of discrimination, harassment, and retaliation, and how to report it to appropriate district officials or employees.

In addition, the District shall ensure that employees designated to address or investigate discrimination, harassment, and retaliation, including designated compliance coordinators, receive training to promptly and effectively investigate and respond to complaints and reports of discrimination, and to know the District's grievance procedures and the applicable confidentiality requirements.

Designated Compliance Coordinators

Designated compliance coordinators will be responsible for:

1. Coordinating efforts to comply with anti-discrimination, anti-harassment, and anti-retaliation laws and regulations;
2. Coordinating and implementing training for students and employees pertaining to anti-discrimination, anti-harassment, and anti-retaliation laws and regulations, including the training areas listed above;
3. Investigating complaints of discrimination (unless the coordinator designates other trained individuals to investigate);
4. Monitoring substantiated complaints or reports of discrimination, as needed (and with the assistance of other district employees, if necessary), to ensure discrimination or harassment does not recur, and that retaliation conduct does not occur or recur;
5. Overseeing discrimination complaints, including identifying and addressing any patterns or systemic problems, and reporting such patterns or systemic problems to the Superintendent and the Board of Education;
6. Communicating regularly with the District's law enforcement unit investigating cases and providing current information to them pertaining to anti-discrimination, anti-harassment, and anti-retaliation standards and compliance requirements;
7. Reviewing all evidence in harassment or violence cases brought before the District's disciplinary committee or administrator to determine whether the complainants are entitled to a remedy under anti-discrimination laws and regulations that was not available in the disciplinary process;
8. Ensuring that investigations address whether other students or employees may have been subjected to discrimination, including harassment and retaliation;
9. Determining whether district employees with knowledge of allegations of discrimination, including harassment and retaliation, failed to carry out their duties in reporting the allegations to the designated compliance coordinator and responding to the allegations;
10. Recommending changes to this policy and grievance procedure; and,
11. Performing other duties as assigned.

Preventive Measures

The District will publish and widely distribute on an ongoing basis a notice of nondiscrimination in electronic and printed formats, including prominently displaying the notice on the District's website. The District also will designate an employee to coordinate compliance with anti-

discrimination laws (see Designated Compliance Coordinator section, above, for further information on compliance coordinator), and widely publish and disseminate this grievance procedure, including prominently posting it on the District's website, reprinting it in district publications, such as Parent-Student Handbooks, and sending it electronically to members of the school community. The District will provide training to employees and students at the beginning of each academic year in the areas identified in the Training section, above.

The District also may distribute specific harassment and violence materials (such as sexual violence), including a summary of the District's anti-discrimination, anti-harassment, and anti-retaliation policy and grievance procedure, and a list of victim resources, during events such as school assemblies and back to school nights, if recent incidents or allegations warrant additional education to the school community.

Prohibited Harassment, Discrimination, and Retaliation of Employees, Students, and Others
Purpose

The Scottsbluff Public School District is committed to offering employment and educational opportunity to its employees and students in a climate free of discrimination. Accordingly, unlawful discrimination, harassment, and retaliation of any kind by district employees, including co-workers, non-employees (such as volunteers), third parties, and others is strictly prohibited and will not be tolerated.

Harassment is a form of discrimination and includes verbal, non-verbal, written, graphic, or physical conduct relating to a person's sex, disability, race (including skin color, hair texture and protective hairstyles), color, religion, military or veteran status, national or ethnic origin, age, marital status, pregnancy, childbirth or related medical condition, sexual orientation or gender identity, or other protected status, that is sufficiently serious to deny, interfere with, or limit a person's ability to participate in or benefit from an educational or work program or activity, including, but not limited to:

1. Conduct that is sufficiently severe or pervasive to create an intimidating, hostile, or abusive educational or work environment; or,
2. Requiring an individual to endure the offensive conduct as a condition of continued employment or educational programs or activities, including the receipt of aids, benefits, and services.

Educational programs and activities include all academic, educational, extracurricular, athletic, and other programs of the school, whether those programs take place in a school's facilities, on a school bus, at a class or training program sponsored by the school at another location, or elsewhere.

Discriminatory harassment because of a person's sex, disability, race (including skin color, hair texture and protective hairstyles), color, religion, military or veteran status, national or ethnic origin, age, marital status, pregnancy, childbirth or related medical condition, sexual orientation or gender identity, or other protected status.

The following examples are additional or more specific examples of conduct that may constitute sexual harassment:

1. Unwelcome sexual advances or propositions;
2. Requests or pressure for sexual favors;
3. Comments about an individual's body, sexual activity, or sexual attractiveness;
4. Physical contact or touching of a sexual nature, including touching intimate body parts and inappropriate patting, pinching, rubbing, or brushing against another's body;
5. Physical sexual acts of aggression, assault, or violence, including criminal offenses (such as rape, sexual assault or battery, and sexually motivated stalking), against a person's will or where a person is incapable of giving consent due to the victim's age, intellectual disability, or use of drugs or alcohol;
6. Requiring sexual favors or contact in exchange for aids, benefits, or services, such as grades, awards, privileges, promotions, etc.; and/or,
7. Gender-based harassment: acts of verbal, nonverbal, written, graphic, or physical conduct based on sex or sex-stereotyping, but not involving conduct of a sexual nature.

If the District knows, or reasonably should know, about possible harassment, including violence, the District will conduct a prompt, adequate, reliable, thorough, and impartial investigation to determine whether unlawful harassment occurred (see section entitled “Grievance Procedures,” below), and take appropriate interim measures, if necessary. If the District determines that unlawful harassment occurred, the District will take prompt and effective action to eliminate the harassment, prevent its recurrence, and remedy its effects, if appropriate. If harassment or violence that occurs off school property creates a hostile environment at school, the District will follow this policy and grievance procedure, within the scope of its authority.

All district employees are expected to take prompt and appropriate actions to report and prevent discrimination, harassment, and retaliation by others. Employees who witness or become aware of possible discrimination, including harassment and retaliation, must immediately report the conduct to his or her supervisor or the compliance coordinator designated to handle complaints of discrimination (designated compliance coordinator).

Anti-Retaliation

The District prohibits retaliation, intimidation, threats, coercion, or discrimination against any person for opposing discrimination, including harassment, or for participating in the District's discrimination complaint process or making a complaint, testifying, assisting, or participating in any manner, in an investigation, proceeding, or hearing. Retaliation is a form of discrimination.

The District will take immediate steps to stop retaliation and prevent its recurrence against the alleged victim and any person associated with the alleged victim. These steps will include, but are not limited to, notifying students, employees, and others, that they are protected from retaliation, ensuring that they know how to report future complaints, and initiating follow-up contact with the complainant to determine if any additional acts of discrimination, harassment, or retaliation have occurred. If retaliation occurs, the District will take prompt and strong responsive action, including possible discipline, including expulsion or termination, if applicable.

Grievance (or Complaint) Procedures

Employees or students should initially report all instances of discrimination, harassment, or retaliation to their immediate supervisor or teacher or to the compliance coordinator designated to handle complaints of discrimination (designated coordinator). If the employee or student is uncomfortable in presenting the problem to the supervisor or teacher, or if the supervisor or teacher is the problem, the employee or student may report the alleged discrimination, harassment, or retaliation (“discrimination”) to the designated coordinator, or in the case of students, to another staff person (such as a counselor or principal).

Other individuals may report alleged discrimination to the designated coordinator. If the designated coordinator is the person alleged to have committed the discriminatory act, then the complaint should be submitted to the Superintendent for assignment. A discrimination complaint form is available in the office of each district building, on the District's website, and from the designated coordinators.

Under no circumstances will a person filing a complaint or grievance involving discrimination be retaliated against for filing the complaint or grievance.

1. Level 1 - Investigation and Findings

Once the District receives a grievance, complaint, or report alleging discrimination, harassment, or retaliation, or becomes aware of possible discriminatory conduct, the District will conduct a prompt, adequate, reliable, thorough, and impartial investigation to determine whether unlawful harassment occurred. If necessary, the District will take immediate, interim action or measures to protect the alleged victim and prevent further potential discrimination, harassment, or retaliation during the pending investigation. The alleged victim will be notified of his or her options to avoid contact with the alleged harasser, such as changing a class or prohibiting the alleged harasser from having any contact with the alleged victim pending the result of the District's investigation. The District will minimize any burden on the alleged victim when taking interim measures to protect the alleged victim.

The District will promptly investigate all complaints of discrimination, even if an outside entity or law enforcement agency is investigating a complaint involving the same facts and allegations. The District will not wait for the conclusion or outcome of a criminal investigation or proceeding to begin an investigation required by this grievance procedure. If the allegation(s) involve possible criminal conduct, the District will notify the complainant of his or her right to file a criminal complaint, and district employees will not dissuade the complainant from filing a criminal complaint either during or after the District's investigation.

The District will aim to complete its investigation within 10 working days after receiving a complaint or report, unless extenuating circumstances exist as determined by the investigator. Extenuating circumstances may include the unavailability of witnesses or the investigator due to illness or incapacitation, or additional time needed because of the complexity of the investigation, the need for outside experts to evaluate the evidence (such as forensic evidence), or multiple complainants or victims. If extenuating circumstances exist, the extended timeframe to complete the investigation will be determined by the investigator and in compliance with any legal requirement. Periodic status updates will be given to the parties, when appropriate.

The District's investigation will include, but is not limited to:

- a. Providing the parties with the opportunity to present witnesses and provide evidence;
- b. An evaluation of all relevant information and documentation relating to the alleged discriminatory conduct;
- c. For allegations involving harassment, some of the factors the District will consider include:
 - i. The nature of the conduct and whether the conduct was unwelcome;
 - ii. The surrounding circumstances, expectations, and relationships;
 - iii. The degree to which the conduct affected one or more students' education;

- iv. The type, frequency, and duration of the conduct;
 - v. The identity of and relationship between the alleged harasser and the suspect or suspects of the harassment;
 - vi. The number of individuals involved;
 - vii. The age (and sex, if applicable) of the alleged harasser and the alleged victim(s) of the harassment;
 - viii. The location of the incidents and the context in which they occurred;
 - ix. The totality of the circumstances; and/or,
 - x. Other relevant evidence.
- d. A review of the evidence using a “preponderance of the evidence” standard (based on the evidence, is it more likely than not that discrimination, harassment, or retaliation occurred?).

The District will ensure that prompt, appropriate, and effective remedies are provided if a finding of discrimination, harassment, or retaliation is made. The District will maintain relevant documentation obtained during the investigation and documentation supportive of the findings and any subsequent determinations.

The District will inform each party when the investigation is complete and will communicate any remedies or disciplinary sanctions that are directly applicable to that individual. The District will not disclose information about disciplinary actions or remedies imposed on another student or employee, except as required by law or when such information directly impacts the receiving party.

2. Level 2 - Appeal to the Superintendent

If a party is not satisfied with the findings or remedies (or both) set forth in the decision, he or she may file an appeal in writing with the Superintendent within five working days after receiving the decision. The Superintendent will review the appeal and the investigative documentation and decision, conduct additional investigation, if necessary, and issue a written determination about the appeal within 10 working days after receiving the appeal. The party who filed the appeal will be sent the Superintendent’s determination at the time it is issued, and a copy will be sent to the designated compliance coordinator. (If the Superintendent is the subject of the complaint, the party will file the appeal directly with the Board.)

Confidentiality

The identity of the complainant will be kept confidential to the extent permitted by state and federal law. The District will notify the complainant of the anti-retaliation provisions of applicable laws and that the District will take steps to prevent retaliation and will take prompt and strong responsive actions if retaliation occurs.

If a complainant requests confidentiality or asks that the complaint not be pursued, the District will take all reasonable steps to investigate and respond to the complaint consistent with the request for confidentiality or the request not to pursue an investigation, as long as doing so does not prevent the District from responding effectively to the harassment and preventing harassment of other students. If a complainant insists that his or her name or other identifiable information

not be disclosed to the alleged perpetrator, the District will inform the complainant that its ability to respond may be limited. Even if the District cannot take disciplinary action against the alleged harasser, the District will pursue other steps to limit the effects of the alleged harassment and prevent its recurrence, if warranted.

Training

The District will ensure that all district employees, including but not limited to officials, administrators, teachers, substitute teachers, counselors, nurses and other health personnel, coaches, assistant coaches, paraprofessionals, aides, First Student bus drivers, and school law enforcement officers are adequately trained so they understand and know how to identify acts of discrimination, harassment, and retaliation, and how to report it to appropriate district officials or employees.

Designated Compliance Coordinators

Designated compliance coordinators will be responsible for:

1. Coordinating efforts to comply with anti-discrimination, anti-harassment, and anti-retaliation laws and regulations;
2. Coordinating and implementing training for students and employees pertaining to anti-discrimination, anti-harassment and anti-retaliation laws and regulations, including the training areas listed above;
3. Investigating complaints of discrimination (unless the coordinator designates other trained individuals to investigate);
4. Monitoring substantiated complaints or reports of discrimination, as needed (and with the assistance of other district employees, if necessary), to ensure discrimination or harassment does not recur, and that retaliation conduct does not occur or recur;
5. Overseeing discrimination complaints, including identifying and addressing any patterns or systemic problems, and reporting such patterns or systemic problems to the Superintendent and the Board of Education;
6. Communicating regularly with the District's law enforcement unit investigating cases and providing current information to them pertaining to anti-discrimination, anti-harassment, and anti-retaliation standards and compliance requirements;
7. Reviewing all evidence in harassment or violence cases brought before the District's disciplinary committee or administrator to determine whether the complainants are entitled to a remedy under anti-discrimination laws and regulations that was not available in the disciplinary process;
8. Ensuring that investigations address whether other students or employees may have been subjected to discrimination, including harassment and retaliation;
9. Determining whether district employees with knowledge of allegations of discrimination, including harassment and retaliation, failed to carry out their duties in reporting the allegations to the designated compliance coordinator and responding to the allegations;
10. Recommending changes to this policy and grievance procedure; and,
11. Performing other duties as assigned.

The designated compliance coordinators will not have other job responsibilities that may create a conflict of interest with their coordinator responsibilities.

Preventive Measures

The District will publish and widely distribute on an ongoing basis a notice of nondiscrimination in electronic and printed formats, including prominently displaying the notice on the District's website. The District also will designate an employee to coordinate compliance with anti-discrimination laws (see designated compliance coordinator section, above, for further information on compliance coordinator), and widely publish and disseminate this grievance procedure, including prominently posting it on the District's website, reprinting it in district publications, such as Parent-Student Handbooks, and sending it electronically to members of the school community. The District will provide training to employees and students at the beginning of each academic year in the areas identified in the Training section, above.

The District also may distribute specific harassment and violence materials (such as sexual violence), including a summary of the District's anti-discrimination, anti-harassment, and anti-retaliation policy and grievance procedure, and a list of victim resources, during events such as school assemblies and back to school nights, if recent incidents or allegations warrant additional education to the school community.

Preventing Harassment and Discrimination of Employees and StudentsPurpose

Scottsbluff Public Schools is committed to offering employment and educational opportunity to its employees and students based on ability and performance in a climate free of discrimination. Accordingly, unlawful discrimination or harassment of any kind by administrators, teachers, co-workers or other persons is prohibited. In addition, Scottsbluff Public Schools will try to protect employees or students from reported discrimination or harassment by non-employees or others in the workplace and educational environment.

For purposes of this policy, discrimination or harassment based on a person's sex, disability, race (including skin color, hair texture, and protective hairstyles), color, religion, military or veteran status, national or ethnic origin, age, marital status, pregnancy, childbirth or related medical condition, sexual orientation or gender identity, or other protected status, is prohibited. The

following are general definitions of what might constitute prohibited harassment:

1. In general, ethnic or racial slurs or other verbal or physical conduct relating to a person's sex, disability, race (including skin color, hair texture, and protective hairstyles), color, religion, military or veteran status, national or ethnic origin, age, marital status, pregnancy, childbirth or related medical condition, sexual orientation or gender identity, or other protected status, constitutes harassment when they unreasonably interfere with the person's work performance or create an intimidating work, instructional, or educational environment.
2. Age harassment has been defined by federal regulations as a form of age discrimination. It can consist of demeaning jokes, insults, or intimidation based on a person's age.
3. Sexual harassment has been defined by federal and state regulations as a form of sex discrimination. It can consist of unwelcome sexual advances, requests for sexual favors, or physical or verbal conduct of a sexual nature by supervisors or others in the workplace, classroom, or educational environment. Sexual harassment may exist when:
 - a. Supervisors or managers make a submission to such conduct either an explicit or implicit term and condition of employment (including hiring, compensation, promotion, or retention);
 - b. Submission to or rejection of such conduct is used by supervisors or managers as a basis for employment related decisions such as promotion, performance evaluation, pay adjustment, discipline, work assignment, etc.; or,
 - c. The conduct has the purpose or effect of unreasonably interfering with an individual's work or educational performance or creating an intimidating, hostile, or offensive working, classroom, or educational environment.

Sexual harassment may include explicit sexual propositions, sexual innuendo, suggestive comments, sexually-oriented "kidding" or "teasing", "practical jokes", jokes about gender-specific traits, foul or obscene language or gestures, displays of foul or obscene printed or visual material, and physical contact, such as patting, pinching, or brushing against another's body.

Procedures

1. Employees or students should initially report all instances of discrimination or harassment to their immediate supervisor or teacher. However, if the employee or student is uncomfortable in presenting the problem to the supervisor or teacher, or if the supervisor or teacher is the problem, the employee or student is encouraged to go to the next level of supervision.
2. If the party is not satisfied with the findings or remedies (or both) set forth in the decision, he or she may file an appeal in writing with the Superintendent within five working days after receiving the decision.
3. The designated coordinator will thoroughly investigate the complaint and work with the person filing the complaint to seek an appropriate resolution so the discrimination or harassment can be remedied and put to an end.

4. Complaints of discrimination or harassment will be treated with the utmost confidence, consistent with the resolution of the problem.
5. Based on the results of the investigation, appropriate corrective action, up to and including discharge of offending employees, etc., may be taken. The District will not disclose information about disciplinary actions or remedies imposed on another student, except as required by law or when such information directly impacts the receiving party.
6. The District prohibits retaliation, intimidation, threats, coercion, or discrimination against any person for opposing discrimination, including harassment, or for participating in the District's discrimination complaint process or making a complaint, testifying, assisting, or participating in any manner, in an investigation, proceeding, or hearing.

Memo

To: Dr. Andrew Dick and Scottsbluff Board of Education
From: Marianne Carlson, Executive Director of Finance
Date: May 11, 2026
Re: Property Disposal

Per Board Policy 3090, any sale of school property is contingent on approval of the Board of Education. With the remaining portion of the renovation for Westmoor Elementary occurring this summer, we have items that are no longer needed. Over the past few years, SBPS has utilized an online auction company to assist with selling the items. Any unsold items were either recycled or disposed of appropriately. Based on several years of using this method, we have determined which items have either historically not sold or have sold for less than \$10, and these amounts are further reduced after the company takes its commission.

This year, we would like to advertise a day when the public may come and make an offer on an item they would like to purchase. Anything remaining after that day shall be recycled or disposed of.

Any item that has historically sold for greater than \$10 shall be kept for an auction that shall occur at a later date.

Motion: Approve the sale of items attached to the Board memo.
